iciency rebates) shall, subject to appropriation, remain available for expenditure by such agency for additional energy efficiency measures which may include related employment and training programs, particularly at those facilities at which energy savings were achieved.

“(B) Agencies shall establish a fund and maintain strict financial accounting and controls for savings realized and expenditures made under this subsection. Records maintained pursuant to this subparagraph shall be made available for public inspection upon request.”

1992—Subsec. (a). Pub. L. 102–486, §152(f)(1), (2), substituted “Contracts” for “In general” in heading, designated existing provisions as par. (1), and redesignated former subsec. (b) as subsec. (a)(2) and amended it generally. Prior to amendment, par. (2) read as follows: “The head of each agency shall, no later than 120 days after November 5, 1988, implement procedures for entering into such contracts and for identifying, verifying, and utilizing, on a fiscal year basis, the cost savings resulting from such contracts.”

Subsecs. (c), (d). Pub. L. 102–486, §152(f)(3), (4), added subsecs. (c) and (d) and struck out former subsec. (c) which read as follows: “The portion of the funds appropriated to an agency for energy expenses for a fiscal year that is equal to the amount of cost savings realized by such agency for such year from contracts entered into under subchapter VII of this chapter shall remain available for obligation, without further appropriation, to undertake additional energy conservation measures.”

EFFECTIVE DATE OF 2007 AMENDMENT

Amendment by Pub. L. 110–140 effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as an Effective Date note under section 1824 of Title 2, The Congress.

ENERGY EFFICIENCY AND WATER CONSERVATION MEASURES; USE OF REBATES AND SAVINGS

“(a) Beginning in fiscal year 1996 and thereafter, for each Federal agency, except the Department of Defense (which has separate authority), and except as provided in Public Law 102–366, title XIV, section 13 (40 U.S.C. 490c) (now 40 U.S.C. 592(c)) with respect to the Fund established pursuant to 40 U.S.C. 490(f) (now 40 U.S.C. 592(a)) and the amount, equal to 50 percent of—

(1) the amount of each utility rebate received by the agency for energy efficiency and water conservation measures, which the agency has implemented; and

(2) the amount of the agency’s share of the measured energy savings resulting from energy-savings performance contracts,

may be retained and credited to accounts that fund energy and water conservation activities at the agency’s facilities, and shall remain available until expended for additional specific energy efficiency or water conservation projects or activities, including improvements and retrofits, facility surveys, additional or improved utility metering, and employee training and awareness programs, as authorized by section 152(f) of the Energy Policy Act (Public Law 102–486) (amending this section).

“(b) The remaining 50 percent of each rebate, and the remaining 50 percent of the amount of the agency’s share of savings from energy-savings performance contracts, shall be transferred to the Interagency Energy Management Task Force at the end of the fiscal year in which received.”

§8257. Interagency Energy Management Task Force

(a) In general

To assist the interagency committee organized under section 7266 of this title to coordinate the activities of the Federal Government in promoting energy conservation and the efficient use of energy and in informing non-Federal entities of the Federal experience in energy conservation, the Secretary shall establish an Interagency Energy Management Task Force (hereafter in this section referred to as the “Task Force”).

(b) Members

The Task Force shall be composed of the chief energy managers of agencies represented on the interagency committee organized under section 7266 of this title.

(c) Duties

The Task Force shall meet when the Secretary requests, but not less often than twice a year, to—

(1) assess the progress of the various agencies in achieving energy savings;

(2) collect and disseminate information to agencies, States, local governments, and the public on effective survey techniques, innovative approaches to the efficient use of energy, incentive programs developed under section 8256 of this title, innovative contracting methods developed under subchapter VII of this chapter, the use of cogeneration facilities and renewable resources, and other technologies that promote the conservation and efficient use of energy;

(3) coordinate energy surveys conducted by the agencies;

(4) develop options for use in conserving energy;

(5) report to the committee organized under section 7266 of this title; and

(6) review, from time to time as may be necessary, the regulations relating to building temperature settings to determine whether changes in such regulations would be appropriate to assist in meeting the goals specified in section 8253 of this title.

AMENDMENTS

§8258. Reports

(a) Reports to Secretary

Each agency shall transmit a report to the Secretary, at times specified by the Secretary but at least annually, with complete information on its activities under this part, including information on—

(1) the agency’s progress in achieving the goals established by section 8253 of this title; and
(2) the procedures being used by the agency pursuant to section 8256(a)(2) of this title, the number of contracts entered into by such agency under subchapter VII of this chapter, the energy and cost savings that have resulted from such contracts and any termination penalty exposure, the use of such cost savings under section 8256 of this title, and any problem encountered in entering into such contracts and otherwise implementing section 8256 of this title.

(b) Reports to the President and Congress

The Secretary shall report, not later than April 2 of each year, with respect to each fiscal year beginning after November 5, 1988, to the President and Congress—

(1) on all activities carried out under this part and on the progress made toward achievement of the objectives of this part, including—

(A) a copy of the list of the exclusions made under sections 8253(a)(2) and 8253(c)(3) of this title;

(B) the information required under section 8253(b)(2) of this title; and

(C) a statement detailing the amount of funds awarded to each agency under section 8256(b) of this title, the energy and water conservation measures installed with such funds, the projected energy and water savings to be realized from installed measures, and, for each installed measure for which the projected energy and water savings reported in the previous year were not realized, the percentage of such projected savings that was not realized, the reasons such savings were not realized, and proposals for, and projected costs of, achieving such projected savings in the future;

(2) the number of contracts entered into by all agencies under subchapter VII of this chapter, the difficulties (if any) encountered in attempting to enter into such contracts, and proposed solutions to those difficulties;

(3) the extent and nature of interagency exchange of information concerning the conservation and efficient utilization of energy; and

(4) the information required under section 8262a(d) of this title.

(c) Other report

The Secretary, in consultation with the Administrator of General Services, shall—

(1) conduct a study and evaluate legal, institutional, and other constraints to connecting buildings owned or leased by the Federal Government to district heating and district cooling systems; and

(2) not later than 18 months after October 24, 1992, transmit to the Congress a report containing the findings and conclusions of such study, including recommendations for the development of streamlined processes for the consideration of connecting buildings owned or leased by the Federal Government to district heating and cooling systems.

§ 8258a. Demonstration of new technology

(a) Demonstration program

Not later than January 1, 1991, the Secretary, in cooperation with the Administrator of General Services, shall establish a demonstration program to install, in federally owned facilities or federally assisted housing, energy conservation measures for which the Secretary has determined that such installation would accelerate commercial viability. In those cases where technologies are determined to be equivalent, priority shall be given to those technologies that have received or are receiving Federal financial assistance.

(b) Selection criteria

In addition to the determination under subsection (a) of this section, the Secretary shall select, in cooperation with the Administrator of General Services, proposals to be funded under this section on the basis of—

(1) cost-effectiveness;

(2) technical feasibility and system reliability in a working environment;
