(b) Establishment of criteria and procedures for evaluation and selection of projects; scope of criteria

The Secretary and the Chairman shall establish jointly criteria and procedures for evaluating and selecting projects to be assisted under this subchapter. Such criteria shall address, but need not be limited to—

(1) artistic, cultural, historical, or design quality;
(2) the degree of broadly based, active involvement of neighborhood residents, community groups, local officials, and persons with expertise in the arts with the proposed project;
(3) the degree of or the potential for utilization or stimulation of assistance or cooperation from other Federal, State, and local public and private sources, including arts organizations;
(4) the feasibility of project implementation, including the capability of the sponsor organization;
(5) the potential contribution to neighborhood revitalization and the creation of a sense of community identity and pride;
(6) the potential for stimulating neighborhood economic and community development, particularly for the benefit of persons of low and moderate income; and
(7) the potential of utilization of the project by neighborhood residents, particularly residents of low and moderate income, senior citizens, and handicapped persons.

c) Application requirements

No assistance shall be made under this subchapter except upon application therefor submitted to the Secretary in accordance with regulations and procedures established jointly by the Secretary and the Chairman.

d) Consultation requirements

Prior to the approval of any application for assistance under this subchapter, the Secretary shall consult with the Chairman and, in accordance with regulations and procedures established jointly by the Secretary and the Chairman, seek the recommendations of State and local officials and private citizens who have broad knowledge of, or experience or expertise in, community and economic development and revitalization, and of such officials and citizens who have broad knowledge of, or expertise in, the arts.

e) Regulations respecting matching requirements; waiver, etc.

The Secretary, in cooperation with the Chairman, shall prescribe regulations which require that specific portions of the cost of any projects assisted under this subchapter shall be provided from sources other than funds made available under this subchapter. Such matching requirements may vary depending on the type of applicant, and the Secretary may reduce or waive such requirements solely in order to take account of the financial capacity of the applicant.

(f) Certification of application

Grants and other assistance may be made available under this subchapter only if the application contains a certification by the unit of general local government in which the project will be located that the project is consistent with and supportive of the objectives of that government for the area in which the project is located.

(g) Available funds not to supplant other public or private funds

Funds made available under this subchapter shall not be used to supplant other public or private funds.

(h) Availability of funds for administrative expenses

No more than 10 per centum of the funds appropriated for any fiscal year under section 8146 of this title shall be available for administrative expenses.

§ 8145. Coordination and development of program with other Federal and non-Federal programs

The Secretary shall coordinate the administration of the provisions of this subchapter in cooperation with other Federal agencies and assure that projects assisted under this subchapter are coordinated with efforts undertaken by State and local public and private entities, including arts organizations.

§ 8146. Authorization of appropriations

There are authorized to be appropriated for carrying out the purposes of this subchapter not to exceed $5,000,000 for fiscal year 1979, and not to exceed $5,000,000 for fiscal year 1980. Any amounts appropriated under this section shall remain available until expended.

Amendments

1979—Pub. L. 96–153 reduced authorization of appropriation for fiscal year 1980 from "$10,000,000" to "$5,000,000".
§ 8201. Findings and statement of purposes

(a) Findings

The Congress finds that—

(1) the United States has survived a period of energy shortage and has made significant progress toward improving energy efficiency in all sectors of the economy;

(2) effective measures must continue to be taken by the Federal Government and other users and suppliers of energy to control the rate of growth of demand for energy and the efficiency of its use;

(3) the continuation of this effort will permit the United States to become increasingly independent of the world oil market, less vulnerable to interruption of foreign oil supplies, and more able to provide energy to meet future needs; and

(4) all sectors of the economy of the United States should continue to reduce significantly the demand for nonrenewable energy resources such as oil and natural gas by implementing and maintaining effective conservation measures for the efficient use of these and other energy sources.

(b) Statement of purposes

The purposes of this chapter are to provide for the regulation of interstate commerce, to reduce...
the growth in demand for energy in the United States, and to conserve nonrenewable energy resources produced in this Nation and elsewhere, without inhibiting beneficial economic growth.

REFERENCES IN TEXT
This chapter, referred to in subsec. (b), was in the original ‘‘this Act’’, meaning Pub. L. 95–619, Nov. 9, 1978, 92 Stat. 3206, as amended, known as the National Energy Conservation Policy Act. For complete classification of this Act to the Code, see Short Title note set out below and Tables.

AMENDMENTS
1986—Subsec. (a). Pub. L. 99–412 amended subsec. (a) generally. Prior to amendment, subsec. (a) read as follows: ‘‘The Congress finds that—’’

(1) the United States faces an energy shortage arising from increasing demand for energy, particularly for oil and natural gas, and insufficient domestic supplies of oil and natural gas to satisfy that demand;

(2) unless effective measures are promptly taken by the Federal Government and other users of energy to reduce the rate of growth of demand for energy, the United States will become increasingly dependent on the world oil market, increasingly vulnerable to interruptions of foreign oil supplies, and unable to provide the energy to meet future needs; and

(3) all sectors of our Nation’s economy must begin immediately to significantly reduce the demand for nonrenewable energy resources such as oil and natural gas by implementing and maintaining effective conservation measures for the efficient use of these and other energy sources.’’

SHORT TITLE OF 1988 AMENDMENT
Pub. L. 100–615, §1, Nov. 5, 1988, 102 Stat. 3185, provided that: ‘‘This Act [enacting section 5001 of Title 15, Commerce and Trade, amending sections 6361 and 6345, 6371, and 6372 of this title, and enacting provisions set out below and Tables.]

§§ 8211 to 8229

PART A—UTILITY PROGRAM

Sections were omitted pursuant to section 8229 of this title, which terminated authority under this part June 30, 1989.

Section 8212, Pub. L. 95–619, title II, §211, Nov. 9, 1978, 92 Stat. 3211, related to coverage of this part.

§ 8231. Grants for energy conserving improvements; establishment of standards; authorization of appropriations

(1) The Secretary of Housing and Urban Development is authorized to make grants to finance energy conserving improvements (as defined in subparagraph (2) of the last paragraph of section 1703(a) of title 12) to projects which are financed with loans under section 1701q of title 12, or which are subject to mortgages insured under section 1715(d)(5) or section 1715–1 of title 12. The Secretary shall make assistance available under this section on a priority basis to those projects which are in financial difficulty as a result of high energy costs. In carrying out the program authorized by this section, the Secretary shall issue regulations requiring that any grant made under this section shall be made only on the condition that the recipient of such grant shall take steps (prescribed by the Secretary) to assure that the benefits derived from such grants in terms of lower energy costs shall accrue to tenants in the form of lower rentals or to the Federal Government in the form of a lower operating subsidy if such a subsidy is being paid to such recipient.

(2) The Secretary shall establish minimum standards for energy conserving improvements to multifamily dwelling units to be assisted under this section.

(3) There are authorized to be appropriated to carry out the provisions of this section not to exceed $25,000,000.

AMENDMENTS

1998—Par. (1). Pub. L. 105–388 inserted closing parenthesis after “section 1703(a) of title 12” and substituted “accrue” for “accure”.

§ 8232. Residential energy efficiency standards study

(a) General authority

The Secretary of Housing and Urban Development (hereinafter in this section referred to as the “Secretary”) shall, in coordination with the Secretary of Agriculture, the Secretary of the Treasury, the Secretary of Veterans Affairs, the Secretary of Energy, and such other representatives of Federal, State, and local governments as the Secretary shall designate, conduct a study, utilizing the services of the National Institute of Building Sciences pursuant to appropriate contractual arrangements, for the purpose of determining the need for, the feasibility of, and the problems of requiring, by mandatory Federal action, that all residential dwelling units meet applicable energy efficient standards. The subjects to be examined shall include, but not be limited to, mandatory notification to purchasers, and policies to prohibit exchange or sale of properties which do not conform to such standards.

(b) Specific factors

In conducting such study, the Secretary shall consider at least the following factors—

1. The extent to which such requirement would protect a prospective purchaser from the uncertainty of not knowing the energy efficiency of the property he proposes to purchase;

2. The extent to which such requirement would contribute to the Nation’s energy conservation goals;

3. The extent to which such a requirement would affect the real estate, home building, and mortgage banking industries;

4. The sanctions which might be necessary to make such a requirement effective and the administrative impediments there might be to enforcement of such sanctions;

5. The possible impact on sellers and purchasers as a result of the implementation of mandatory Federal actions, taking into account the experience of the Federal Government in imposing mandatory requirements concerning the purchase and sale of real property as occurred under the Real Estate Settlement Procedures Act of 1974 (12 U.S.C. 2601 et seq.) and the Federal Disaster Protection Act of 1973;

6. An analysis of the effect of such a requirement on the economy as a whole and on the Nation’s security as compared to the impact on the credit and housing markets caused by such a requirement;

7. The effect of such a requirement on availability of credit in the housing industry;

8. The extent to which such requirements would temporarily reduce the number of residential dwellings available for sale and the resulting effect of such mandatory actions on the price of those remaining dwelling units eligible for sale; and

9. The possible uncertainty, during the period of developing the standards, as to what standards might be imposed and any resulting effect on major housing rehabilitation efforts and voluntary efforts for energy conservation.

(c) Comments and findings by Secretary of Energy

The Secretary shall incorporate into such study comments by the Secretary of Energy on the effects on the economy as a whole and on the Nation’s security which may result from the requirement described in subsection (a) of this section as compared to the impact on the credit and housing markets likely to be caused by such a requirement. In addition, the Secretary shall incorporate into such study the following findings by the Secretary of Energy:

1. The savings in energy costs resulting from the requirement described in subsection (a) of
this section throughout the estimated remaining useful life of the existing residential buildings to which such requirement would apply; and
(2) the total cost per barrel of oil equivalent, in obtaining the energy savings likely to result from such requirement, computed for each class of existing residential buildings to which such requirement would apply.

(d) Report date
The Secretary shall report, no later than one year after November 9, 1978, to both Houses of the Congress with regard to the findings made as a result of such study along with any recommendations for legislative proposals which the Secretary determines should be enacted with respect to the subject of such study.

REFERENCES IN TEXT

AMENDMENTS
1991—Subsec. (a). Pub. L. 102–54 substituted “Secretary of Veterans Affairs” for “Administrator of Veterans’ Affairs”.

§8233a. Energy Conservation Policy Act

A Federal Government program to encourage energy conservation, in—
(1) the entering into a contract by a public utility with one or more persons not under the control of, and not affiliates or subsidiaries of, such utility for the implementation of a program to encourage energy conservation, in—

See References in Text note below.
§ 8235b TITLE 42—THE PUBLIC HEALTH AND WELFARE

cluding the supply and installation of the energy conservation measures as specified in such contract in residential buildings located in the portion of the utility’s service area designated by the contract, which contract includes the provisions described in subsection (b) of this section:

(2) the selection by the public utility in a fair, open, and nondiscriminatory manner of the person or persons to contract with pursuant to paragraph (1):

(3) the payment by the public utility to the person or persons contracted with under paragraph (1) of a specified price for each unit of energy saved by such utility as a result of the program during the period the contract is in effect, which price is based on the value to the utility of the energy saved;

(4) the determination, by a procedure established by the State or local government developing the plan, of the amount of energy saved by a public utility as a result of the program carried out under the plan, which procedure is described in the contract;

(5) in the case of a regulated public utility, the approval in writing by the State regulatory authority exercising ratemaking authority over such utility of the contract described in paragraph (1), the manner of selection described in paragraph (2), the payment described in paragraph (3), and the procedure described in paragraph (4); and

(6) the enforcement of the provisions of the contract, entered into pursuant to paragraph (1), which are required to be included pursuant to subsection (b) of this section.

(b) Contract requirements

Any contract entered into by a public utility under subsection (a)(1) of this section shall require any person or persons entering into such contract with a public utility to offer to the owner or occupant of each residential building in the portion of the utility’s service area designated in the contract, without charge:

(A) the energy conservation measures which will be supplied and installed in such residential building pursuant to paragraph (2);

(B) the savings in energy costs that are likely to result from the installation of such energy conservation measures;

(C) suggestions (including suggestions developed by the Secretary) of energy conservation techniques, including adjustments in energy use patterns and modifications in household activities, which can be used by the owner or occupant of the building to save energy and which do not require the installation of energy conservation measures; and

(D) the savings in energy costs that are likely to result from the adoption of such suggested energy conservation techniques;

(2) the supply and installation, with the approval of the owner of the residential building, in such building in a timely manner of the energy conservation measures which are as specified in the contract and which the owner or occupant was informed (pursuant to the inspection under paragraph (1)) would be supplied and installed in such building; and

(3) a written warranty that at a minimum any defect in materials, manufacture, design, or installation of any energy conservation measures supplied and installed pursuant to paragraph (2), found not later than one year after the date of installation, will be remedied without charge and within a reasonable period of time.

(c) Provision of financial assistance

The Secretary may provide financial assistance to any State or local government to carry out any plan for the establishment of a prototype residential energy efficiency program if the plan is approved under subsection (a) of this section.

(d) Limitation

The Secretary may approve under subsection (a) of this section not more than 4 plans for the establishment of prototype residential energy efficiency programs.

Each application for the approval of a plan under section 8235a(a) of this title for the establishment of a prototype residential energy efficiency program shall be submitted by a State or local government and shall include, at least—

(1) a description of the plan, including the provisions of the plan specified in section 8235a(a) of this title and a description of the portion of the service area of the public utility proposing to enter into a contract under section 8235a(a)(1) of this title which is designated under the contract;

(2) a description of the manner in which the provisions of the plan specified in section 8235a(a) of this title are to be met;

(3) a description of the contract to be entered into pursuant to section 8235a(a)(1) of this title and the manner in which the requirements of the contract contained in section 8235a(b) of this title are to be met;

(4) the record of the public hearing conducted pursuant to section 8235c(a)(2) of this title; and

(5) any other information determined by the Secretary to be necessary to carry out this part.

(a) Approval requirements

The Secretary may approve an application submitted under section 8235b of this title for a plan establishing a prototype residential energy efficiency program only if—

(1) the application is approved in writing—

(A) by the public utility which is to enter into the contract under the plan;
(B) by the State regulatory authority having ratemaking authority over such public utility, in the case of a regulated utility; and

(C) by the Governor (or any State agency specifically authorized under State law to approve such plans) of the State whose government is submitting the application (if the application is submitted by a State government) or of the State in which the local government is located (if the application is submitted by a local government); and

(2) the application has been published, a public hearing on the application has been conducted, and notice has been given to the public, at which representatives of the public utility which is to enter into the contract under the plan, persons engaged in the supply or installation of residential energy conservation measures, and members of the public (including ratepayers of such public utility and other interested individuals) had an opportunity to provide comment on the application, and any amendments to the application, which may be made to take into account the proceedings of the hearing, are made.

(b) Factors in approving applications

The Secretary shall take into consideration in approving an application under subsection (a) of this section for a plan establishing a prototype residential energy efficiency program—

(1) the potential for energy savings from the demonstration of the program;

(2) the likelihood that the value of the energy saved by public utilities under the program will be sufficient to cover the estimated cost of the energy conservation measures to be supplied and installed under the program;

(3) the anticipated effects of the program on competition in the portion of the service area of the public utility designated in the contract entered into under the plan; and

(4) such other factors as the Secretary determines are appropriate.

§8235f. Application of other laws

(a) Lack of immunity

No provision contained in this part—

(1) shall restrict any agency of the United States or any State from exercising its powers under any law to prevent unfair methods of competition and unfair or deceptive acts or practices;

(2) shall provide to any person any immunity from civil or criminal liability;

(3) shall create any defenses to actions brought under the antitrust laws; or

(4) shall modify or abridge any private right of action under the antitrust laws.

(b) Utility programs under part A

Any public utility entering into a contract under a plan for the establishment of a prototype residential energy efficiency program approved under section 8235a(a) of this title shall not be required to carry out, with respect to any residential building located in the portion of the utility’s service area designated in the contract, the actions required to be contained in such utility’s program by subsections (a) and (b) of section 82161 of this title, if the contract requires such actions (or equivalent actions as determined by the Secretary) to be taken.

1See References in Text note below.
(c) "Antitrust laws" defined

For purposes of this section, the term "antitrust laws" means—

(1) the Sherman Act (15 U.S.C. 1 et seq.);
(2) the Clayton Act (15 U.S.C. 12 et seq.);
(3) the Federal Trade Commission Act (15 U.S.C. 45 et seq.);
(4) sections 73 and 74 of the Wilson Tariff Act (15 U.S.C. 8 and 9); and
(5) sections 2, 3, and 4 of the Act entitled "An Act to amend section 2 of the Act entitled 'An Act to supplement existing laws against unlawful restraints and monopolies, and for other purposes' approved June 19, 1936 (15 U.S.C. 21a, 13a, and 13b, commonly known as the Robinson-Patman Antidiscrimination Act).

References in Text

Section 8216 of this title, referred to in subsec. (b), was omitted from the Code pursuant to section 8229 of this title, which terminated authority under that section June 30, 1980.

The Sherman Act (15 U.S.C. 1 et seq.), referred to in subsec. (c)(1), is act July 2, 1890, ch. 647, 26 Stat. 209, as amended, which is classified to sections 1 to 7 of Title 15, Commerce and Trade. For complete classification of this Act to the Code, see Short Title note set out under section 1 of Title 15 and Tables.

The Clayton Act (15 U.S.C. 12 et seq.), referred to in subsec. (c)(2), is act Oct. 15, 1914, ch. 323, 38 Stat. 730, as amended, which is classified generally to sections 12, 13, 14 to 19, 21, and 22 to 27 of Title 15, and sections 52 and 53 of Title 16. For further details and complete classification of this Act to the Code, see References in Text note set out under section 12 of Title 15 and Tables.

The Federal Trade Commission Act (15 U.S.C. 41 et seq.), referred to in subsec. (c)(3), is act Sept. 26, 1914, ch. 311, 38 Stat. 717, as amended, which is classified generally to subchapter I (§ 41 et seq.) of chapter 2 of Title 15. For complete classification of this Act to the Code, see section 58 of Title 15 and Tables.

§ 8235g. Records and reports

(a) Records

Each State and local government submitting any application for a plan which is approved under section 8235a(a) of this title, and each public utility and person or persons entering into a contract under such a plan, shall keep such records and make such reports as the Secretary may require. The Secretary and the Comptroller General of the United States shall have access, at reasonable times and under reasonable conditions, to any books, documents, papers, records, and reports of each such State and local government, utility, and person or persons which the Secretary determines, in consultation with the Comptroller General of the United States, are pertinent to this part.

(b) Reports

The Secretary shall make an annual report to the President on the activities carried out under this part which shall be submitted to the Congress with the annual report on the activities of the Department of Energy required by section 7267 of this title and which shall contain—

(1) an estimate of the total amount of energy saved as a result of the activities carried out under this part;
(2) an estimate of the annual savings in energy anticipated as a result of each prototype residential energy efficiency program established under a plan approved under section 8235a(a) of this title;
(3) an analysis, developed in consultation with the Federal Trade Commission and the Department of Justice, of the impact on competition of each prototype residential energy efficiency program established under a plan approved under section 8235a(a) of this title; and
(4) if the Secretary determines that it is appropriate, an analysis of the impact of expanding the approval of plans under section 8235a(a) of this title to establish prototype residential energy efficiency programs, and the provision of financial assistance to such programs, on a national basis and an assessment of the alternative methods by which such an expansion could be accomplished.

§ 8235h. Revoking approval of plans and terminating financial assistance

The Secretary shall revoke the approval of any plan under section 8235a(a) of this title for the establishment of a prototype residential energy efficiency program, and shall terminate the provision of financial assistance under section 8235a(c) of this title to carry out such plan, if the Secretary determines, in consultation with the Federal Trade Commission and after notice and the opportunity for a hearing, that carrying out such plan—

(1) causes unfair methods of competition;
(2) has a substantial adverse effect on competition in the portion of the service area of the public utility designated by the contract entered into under the plan; or
(3) provides a supplier or contractor of energy conservation measures with an unreasonably large share of the contracts for the supply or installation of such measures under such plan in the service area of the public utility designated by the contract entered into under such plan.

§ 8235i. Authorization of appropriations

(a) Authorization of appropriations

There is authorized to be appropriated to carry out this part—

(1) the sum of $10,000,000 for the fiscal year ending on September 30, 1981; and
(2) the sum equal to $10,000,000 minus the amount appropriated for the fiscal year ending on September 30, 1981, under the authorization contained in this section, for the fiscal year ending on September 30, 1982.

(b) Availability

Any funds appropriated under the authorization contained in this section shall remain available until expended.
PART D—RESIDENTIAL ENERGY EFFICIENCY RATING GUIDELINES

§ 8236. Voluntary rating guidelines

(a) In general
Not later than 18 months after October 24, 1992, the Secretary, in consultation with the Secretary of Housing and Urban Development, the Secretary of Veterans Affairs, representatives of existing home energy rating programs, and other appropriate persons, shall, by rule, issue voluntary guidelines that may be used by State and local governments, utilities, builders, real estate agents, lenders, agencies in mortgage markets, and others, to enable and encourage the assignment of energy efficiency ratings to residential buildings.

(b) Contents of guidelines

The voluntary guidelines issued under subsection (a) of this section shall—

(1) encourage uniformity with regard to systems for rating the annual energy efficiency of residential buildings;

(2) establish protocols and procedures for—

(A) certification of the technical accuracy of building energy analysis tools used to determine energy efficiency ratings;

(B) training of personnel conducting energy efficiency ratings;

(C) data collection and reporting;

(D) quality control; and

(E) monitoring and evaluation;

(3) encourage consistency with, and support for, the uniform plan for Federal energy efficient mortgages, including that developed under section 946 of the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. 12712 note) and pursuant to sections 105 and 106 of the Energy Policy Act of 1992;

(4) provide that rating systems take into account local climate conditions and construction practices, solar energy collected on-site, and the benefits of peak load shifting construction practices, and not discriminate among fuel types; and

(5) establish procedures to ensure that residential buildings can receive an energy efficiency rating at the time of sale and that such rating is communicated to potential buyers.

§ 8236b. Report

Not later than 3 years after October 24, 1992, the Secretary shall transmit to the President and the Congress a final report containing—

(1) a description of actions taken by the Secretary and other Federal agencies to implement this part;

(2) a description of the action taken by States, local governments, and other organizations to implement the voluntary guidelines issued under section 8236 of this title and any problems encountered in implementing such guidelines; and

(3) recommendations on the feasibility of requiring, as a prerequisite to receiving federally assisted, guaranteed, or insured mortgages, the achievement of a minimum energy efficiency rating.

SUBCHAPTER III—FEDERAL ENERGY INITIATIVE

PART A—DEMONSTRATION OF SOLAR HEATING AND COOLING IN FEDERAL BUILDINGS

§ 8241. Definitions

As used in the part—

(1) The term “Federal agency” means—

(A) an Executive agency as defined in section 105 of title 5; and

(B) each entity specified in subparagraphs (B) through (I) of subsection (1) of section 5721 of title 5.

(2) The term “Federal building” means any building or other structure owned in whole or part by the United States or any Federal agency, including any such structure occupied by a Federal agency under a lease-acquisition agreement under which the United States or a Federal agency will receive fee simple title under the terms of such agreement without further negotiation.

(3) The term “solar heating” means, with respect to any Federal building, the use of solar energy to meet all or part of the heating needs of such building (including hot water), or all or part of the needs of such building for hot water.

(4) The term “solar heating and cooling” means the use of solar energy to provide all or part of the heating needs of a Federal building (including hot water) and all or part of the cooling needs of such building, or all or part of the needs of such building for hot water.

(5) The term “solar energy equipment” means equipment for solar heating or solar heating and cooling.
(6) The term “Secretary” means the Secretary of Energy.

AMENDMENTS

2007—Par. (1)(B). Pub. L. 110–161 substituted “subparagraphs (B) through (I)” for “paragraphs (B) through (H)”.

§ 8242. Federal solar program

The Secretary, in consultation with the Administrator of the General Services Administration, shall develop and carry out a program to demonstrate the application to buildings of solar heating and solar heating and cooling technology in Federal buildings.

(c) Initial submission of proposals

Under the requirements established under subsection (a)(1)(A) of this section, initial proposals for the installation of solar energy equipment in Federal buildings selected under subsection (a)(1)(A) of this section shall be submitted not later than 180 days after the date of promulgation of the rule under subsection (a)(1) of this section.

(d) Program to disseminate information to Federal procurement and loan officers

In order to more widely disseminate information about the program under this part and under part B and the benefits of renewable energy and energy efficiency technology, the Secretary shall establish a program which includes site visits and technical briefings, to disseminate such information to Federal procurement officers and Federal loan officers. The Secretary shall utilize available funds for the program under this subsection.

AMENDMENTS

§ 8244. Authorization of appropriations

There are authorized to be appropriated to the Secretary through fiscal year ending September 30, 1980, to carry out the purposes of this part not to exceed $100,000,000. Funds so appropriated may be transferred by the Secretary to any Federal agency to the extent necessary to carry out the purposes of section 8243(a)(3) of this title.

PART B—FEDERAL ENERGY MANAGEMENT

§ 8251. Findings

The Congress finds that—

(1) the Federal Government is the largest single energy consumer in the Nation;

(2) the cost of meeting the Federal Government’s energy requirement is substantial;
§ 8252. Purpose

It is the purpose of this part to promote the conservation and the efficient use of energy and water, and the use of renewable energy sources, by the Federal Government.

AMENDMENTS

1968—Pub. L. 100–615 amended section generally, substituting statement of purpose for policy statement declaring it to be United States policy for Federal Government to have the opportunity and responsibility, with participation of industry, to further develop, demonstrate, and promote use of energy conservation, solar heating and cooling, and other renewable energy sources in Federal buildings.

§ 8253. Energy management requirements

(a) Energy performance requirement for Federal buildings

(1) Subject to paragraph (2), each agency shall apply energy conservation measures to, and shall improve the design for the construction of, the Federal buildings of the agency (including each industrial or laboratory facility) so that the energy consumption per gross square foot of the Federal buildings of the agency in fiscal years 2006 through 2015 is reduced, as compared with the energy consumption per gross square foot of the Federal buildings of the agency in fiscal year 2003, by the percentage specified in the following table:

<table>
<thead>

</tbody>
</table>

(2) An agency may exclude from the requirements of paragraph (1) any building, and the associated energy consumption and gross square footage, in which energy intensive activities are carried out. Each agency shall identify and list in each report made under section 8258(a) of this title the buildings designated by it for such exclusion.

(3) Not later than December 31, 2014, the Secretary shall review the results of the implementation of the energy performance requirement established under paragraph (1) and submit to Congress recommendations concerning energy performance requirements for fiscal years 2016 through 2025.

(b) Energy management requirement for Federal agencies

(1) Not later than January 1, 2005, each agency shall, to the maximum extent practicable, install in Federal buildings owned by the United
States all energy and water conservation measures with payback periods of less than 10 years, as determined by using the methods and procedures developed pursuant to section 8254 of this title.

(2) The Secretary may waive the requirements of this subsection for any agency for such periods as the Secretary may determine if the Secretary finds that the agency is taking all practicable steps to meet the requirements and that the requirements of this subsection will pose an unacceptable burden upon the agency. If the Secretary waives the requirements of this subsection, the Secretary shall, as part of the report required under section 8258(b) of this title, notify the Congress in writing with an explanation and a justification of the reasons for such waiver.

(3) This subsection shall not apply to an agency’s facilities that generate or transmit electric energy or to the uranium enrichment facilities operated by the Department of Energy.

(4) An agency may participate in the Environmental Protection Agency’s “Green Lights” program for purposes of receiving technical assistance in complying with the requirements of this section.

c) Exclusions

(1)(A) An agency may exclude, from the energy performance requirement for a fiscal year established under subsection (a) of this section and the energy management requirement established under subsection (b) of this section, any Federal building or collection of Federal buildings, if the head of the agency finds that—

(i) compliance with those requirements would be impracticable;

(ii) the agency has completed and submitted all federally required energy management reports;

(iii) the agency has achieved compliance with the energy efficiency requirements of this chapter, the Energy Policy Act of 1992, Executive orders, and other Federal law; and

(iv) the agency has implemented all practicable, life cycle cost-effective projects with respect to the Federal building or collection of Federal buildings to be excluded.

(B) A finding of impracticability under subparagraph (A)(i) shall be based on—

(i) the energy intensiveness of activities carried out in the Federal building or collection of Federal buildings; or

(ii) the fact that the Federal building or collection of Federal buildings is used in the performance of a national security function.

(2) Each agency shall identify and list, in each report made under section 8258(a) of this title, the Federal buildings designated by it for such exclusion. The Secretary shall review such findings for consistency with the standards for exclusion set forth in paragraph (1), and may within 90 days after receipt of the findings, reverse the exclusion. In the case of any such reversal, the agency shall comply with the requirements of subsections (a) and (b)(1) of this section for the building concerned.

(3) Not later than 180 days after August 8, 2005, the Secretary shall issue guidelines that establish criteria for exclusions under paragraph (1).

d) Implementation steps

The Secretary shall consult with the Secretary of Defense and the Administrator of General Services in developing guidelines for the implementation of this part. To meet the requirements of this section, each agency shall—

(1) prepare and submit to the Secretary, not later than December 31, 1993, a plan describing how the agency intends to meet such requirements, including how it will—

(A) designate personnel primarily responsible for achieving such requirements;

(B) identify high priority projects through calculation of payback periods;

(C) take maximum advantage of contracts authorized under subchapter VII of this chapter, of financial incentives and other services provided by utilities for efficiency investment, and of other forms of financing to reduce the direct costs to the Government; and

(D) otherwise implement this part;

(2) perform energy surveys of its Federal buildings to the extent necessary and update such surveys as needed, incorporating any relevant information obtained from the survey conducted pursuant to section 8258(b) of this title;

(3) using such surveys, determine the cost and payback period of energy and water conservation measures likely to achieve the requirements of this section;

(4) install energy and water conservation measures that will achieve the requirements of this section through the methods and procedures established pursuant to section 8254 of this title; and

(5) ensure that the operation and maintenance procedures applied under this section are continued.

e) Metering of energy use

(1) Deadline

By October 1, 2012, in accordance with guidelines established by the Secretary under paragraph (2), all Federal buildings shall, for the purposes of efficient use of energy and reduction in the cost of electricity used in such buildings, be metered. Each agency shall use, to the maximum extent practicable, advanced meters or advanced metering devices that provide data at least daily and that measure at least hourly consumption of electricity in the Federal buildings of the agency. Not later than October 1, 2016, each agency shall provide for equivalent metering of natural gas and steam, in accordance with guidelines established by the Secretary under paragraph (2). Such data shall be incorporated into existing Federal energy tracking systems and made available to Federal facility managers.

(2) Guidelines

(A) In general

Not later than 180 days after August 8, 2005, the Secretary, in consultation with the Department of Defense, the General Services Administration, representatives from the metering industry, utility industry, energy services industry, energy efficiency indus
try, energy efficiency advocacy organizations, national laboratories, universities, and Federal facility managers, shall establish guidelines for agencies to carry out paragraph (1).

(B) Requirements for guidelines

The guidelines shall—

(i) take into consideration—

(I) the cost of metering and the reduced cost of operation and maintenance expected to result from metering;

(II) the extent to which metering is expected to result in increased potential for energy management, increased potential for energy savings and energy efficiency improvement, and cost and energy savings due to utility contract aggregation; and

(III) the measurement and verification protocols of the Department of Energy;

(ii) include recommendations concerning the amount of funds and the number of trained personnel necessary to gather and use the metering information to track and reduce energy use;

(iii) establish priorities for types and locations of buildings to be metered based on cost-effectiveness and a schedule of one or more dates, not later than 1 year after the date of issuance of the guidelines, on which the requirements specified in paragraph (1) shall take effect; and

(iv) establish exclusions from the requirements specified in paragraph (1) based on the de minimis quantity of energy use of a Federal building, industrial process, or structure.

(3) Plan

Not later than 6 months after the date guidelines are established under paragraph (2), in a report submitted by the agency under section 8258(a) of this title, each agency shall submit to the Secretary a plan describing how the agency will implement the requirements of paragraph (1), including (A) how the agency will designate personnel primarily responsible for achieving the requirements and (B) demonstration by the agency, complete with documentation, of any finding that advanced meters or advanced metering devices, as defined in paragraph (1), are not practicable.

(f) Use of energy and water efficiency measures in Federal buildings

(1) Definitions

In this subsection:

(A) Commissioning

The term “commissioning”, with respect to a facility, means a systematic process—

(i) of ensuring, using appropriate verification and documentation, during the period beginning on the initial day of the design phase of the facility and ending not earlier than 1 year after the date of completion of construction of the facility, that all facility systems perform interactively in accordance with—

(I) the design documentation and intent of the facility; and

(II) the operational needs of the owner of the facility, including preparation of operation personnel; and

(ii) the primary goal of which is to ensure fully functional systems that can be properly operated and maintained during the useful life of the facility.

(B) Energy manager

(i) In general

The term “energy manager”, with respect to a facility, means the individual who is responsible for—

(I) ensuring compliance with this subsection by the facility; and

(II) reducing energy use at the facility.

(ii) Inclusions

The term “energy manager” may include—

(I) a contractor of a facility;

(II) a part-time employee of a facility; and

(III) an individual who is responsible for multiple facilities.

(C) Facility

(i) In general

The term “facility” means any building, installation, structure, or other property (including any applicable fixtures) owned or operated by, or constructed or manufactured and leased to, the Federal Government.

(ii) Inclusions

The term “facility” includes—

(I) a group of facilities at a single location or multiple locations managed as an integrated operation; and

(II) contractor-operated facilities owned by the Federal Government.

(iii) Exclusions

The term “facility” does not include any land or site for which the cost of utilities is not paid by the Federal Government.

(D) Life cycle cost-effective

The term “life cycle cost-effective”, with respect to a measure, means a measure, the estimated savings of which exceed the estimated costs over the lifespan of the measure, as determined in accordance with section 8254 of this title.

(E) Payback period

(i) In general

Subject to clause (ii), the term “payback period”, with respect to a measure, means a value equal to the quotient obtained by dividing—

(I) the estimated initial implementation cost of the measure (other than financing costs); by

(II) the annual cost savings resulting from the measure, including—

(aa) net savings in estimated energy and water costs; and

(bb) operations, maintenance, repair, replacement, and other direct costs.

\(^1\) So in original. Two subsecs. (f) have been enacted.
(ii) Modifications and exceptions

The Secretary, in guidelines issued pursuant to paragraph (6), may make such modifications and provide such exceptions to the calculation of the payback period of a measure as the Secretary determines to be appropriate to achieve the purposes of this chapter.

(F) Recommissioning

The term “recommissioning” means a process—
(i) of commissioning a facility or system beyond the project development and warranty phases of the facility or system; and
(ii) the primary goal of which is to ensure optimum performance of a facility, in accordance with design or current operating needs, over the useful life of the facility, while meeting building occupancy requirements.

(G) Retrocommissioning

The term “retrocommissioning” means a process of commissioning a facility or system that was not commissioned at the time of construction of the facility or system.

(2) Facility energy managers

(A) In general

Each Federal agency shall designate an energy manager responsible for implementing this subsection and reducing energy use at each facility that meets criteria under subparagraph (B).

(B) Covered facilities

The Secretary shall develop criteria, after consultation with affected agencies, energy efficiency advocates, and energy and utility service providers, that cover, at a minimum, Federal facilities, including central utility plants and distribution systems and other energy intensive operations, that constitute at least 75 percent of facility energy use at each agency.

(3) Energy and water evaluations

(A) Evaluations

Effective beginning on the date that is 180 days after December 19, 2007, and annually thereafter, energy managers shall complete, for each calendar year, a comprehensive energy and water evaluation for approximately 25 percent of the facilities of each agency that meet the criteria under paragraph (2)(B) in a manner that ensures that an evaluation of each such facility is completed at least once every 4 years.

(B) Recommissioning and retrocommissioning

As part of the evaluation under subparagraph (A), the energy manager shall identify and assess recommissioning measures (or, if the facility has never been commissioned, retrocommissioning measures) for each such facility.

(4) Implementation of identified energy and water efficiency measures

Not later than 2 years after the completion of each evaluation under paragraph (3), each energy manager may—

(5) Follow-up on implemented measures

For each measure implemented under paragraph (4), each energy manager shall ensure that—

(A) equipment, including building and equipment controls, is fully commissioned at acceptance to be operating at design specifications;

(B) a plan for appropriate operations, maintenance, and repair of the equipment is in place at acceptance and is followed;

(C) equipment and system performance is measured during its entire life to ensure proper operations, maintenance, and repair; and

(D) energy and water savings are measured and verified.

(6) Guidelines

(A) In general

The Secretary shall issue guidelines and necessary criteria that each Federal agency shall follow for implementation of—

(i) paragraphs (2) and (3) not later than 180 days after December 19, 2007; and

(ii) paragraphs (4) and (5) not later than 1 year after December 19, 2007.

(B) Relationship to funding source

The guidelines issued by the Secretary under subparagraph (A) shall be appropriate and uniform for measures funded with each type of funding made available under paragraph (10), but may distinguish between different types of measures2 project size, and other criteria the Secretary determines are relevant.

(7) Web-based certification

(A) In general

For each facility that meets the criteria established by the Secretary under paragraph (2)(B), the energy manager shall use the web-based tracking system under subparagraph (B) to certify compliance with the requirements for—

(i) energy and water evaluations under paragraph (3);

(ii) implementation of identified energy and water measures under paragraph (4); and

(iii) follow-up on implemented measures under paragraph (5).

(B) Deployment

(i) In general

Not later than 1 year after December 19, 2007, the Secretary shall develop and deploy a web-based tracking system required under this paragraph in a manner that tracks, at a minimum—

(I) the covered facilities;

(II) the status of meeting the requirements specified in subparagraph (A);

2So in original. A comma probably should appear.
(III) the estimated cost and savings for measures required to be implemented in a facility;  
(IV) the measured savings and persistence of savings for implemented measures; and  
(V) the benchmarking information disclosed under paragraph (8)(C).

(ii) Ease of compliance

The Secretary shall ensure that energy manager compliance with the requirements in this paragraph, to the maximum extent practicable—  
(I) can be accomplished with the use of streamlined procedures and templates that minimize the time demands on Federal employees; and  
(II) is coordinated with other applicable energy reporting requirements.

(C) Availability

(i) In general

Subject to clause (ii), the Secretary shall make the web-based tracking system required under this paragraph available to Congress, other Federal agencies, and the public through the Internet.

(ii) Exemptions

At the request of a Federal agency, the Secretary may exempt specific data for specific facilities from disclosure under clause (i) for national security purposes.

(8) Benchmarking of Federal facilities

(A) In general

The energy manager shall enter energy use data for each metered building that is (or is a part of) a facility that meets the criteria established by the Secretary under paragraph (2)(B) into a building energy use benchmarking system, such as the Energy Star Portfolio Manager.

(B) System and guidance

Not later than 1 year after December 19, 2007, the Secretary shall—  
(i) select or develop the building energy use benchmarking system required under this paragraph for each type of building; and  
(ii) issue guidance for use of the system.

(C) Public disclosure

Each energy manager shall post the information entered into, or generated by, a benchmarking system under this subsection, on the web-based tracking system under paragraph (7)(B). The energy manager shall update such information each year, and shall include in such reporting previous years’ information to allow changes in building performance to be tracked over time.

(9) Federal agency scorecards

(A) In general

The Director of the Office of Management and Budget shall issue semiannual scorecards for energy management activities carried out by each Federal agency that includes—  
(i) summaries of the status of implementing the various requirements of the agency and its energy managers under this subsection; and  
(ii) any other means of measuring performance that the Director considers appropriate.

(B) Availability

The Director shall make the scorecards required under this paragraph available to Congress, other Federal agencies, and the public through the Internet.

(10) Funding and implementation

(A) Authorization of appropriations

There are authorized to be appropriated such sums as are necessary to carry out this subsection.

(B) Funding options

(i) In general

To carry out this subsection, a Federal agency may use any combination of—  
(I) appropriated funds made available under subparagraph (A); and  
(II) private financing otherwise authorized under Federal law, including financing available through energy savings performance contracts or utility energy service contracts.

(ii) Combined funding for same measure

A Federal agency may use any combination of appropriated funds and private financing described in clause (i) to carry out the same measure under this subsection.

(C) Implementation

Each Federal agency may implement the requirements under this subsection itself or may contract out performance of some or all of the requirements.

(11) Rule of construction

This subsection shall not be construed to require or to obviate any contractor savings guarantees.

(f) 1 Large capital energy investments

(1) In general

Each Federal agency shall ensure that any large capital energy investment in an existing building that is not a major renovation but involves replacement of installed equipment (such as heating and cooling systems), or involves renovation, rehabilitation, expansion, or remodeling of existing space, employs the most energy efficient designs, systems, equipment, and controls that are life-cycle cost effective.

(2) Process for review of investment decisions

Not later than 180 days after December 19, 2007, each Federal agency shall—  
(A) develop a process for reviewing each decision made on a large capital energy investment described in paragraph (1) to ensure that the requirements of this subsection are met; and  
(B) report to the Director of the Office of Management and Budget on the process established.
(3) Compliance report

Not later than 1 year after December 19, 2007, the Director of the Office of Management and Budget shall evaluate and report to Congress on the progress of each agency with respect to this subsection.

REFERENCES IN TEXT

This chapter, referred to in subsecs. (c)(1)(A)(iii) and (f)(1)(E)(ii), was in the original “‘this Act’”, meaning Pub. L. 95–619, Nov. 9, 1978, 92 Stat. 3266, known as the National Energy Conservation Policy Act. For complete classification of this Act to the Code, see Short Title note set out under section 8201 of this title and Tables.

AMENDMENTS

2007—Subsec. (a)(1). Pub. L. 110–140, \$431, added table and struck out former table which listed percentage reductions for fiscal years as follows: 2 percent for fiscal year 2006, 4 percent for fiscal year 2007, 6 percent for fiscal year 2008, 8 percent for fiscal year 2009, 10 percent for fiscal year 2010, 12 percent for fiscal year 2011, 14 percent for fiscal year 2012, 16 percent for fiscal year 2013, 18 percent for fiscal year 2014, and 20 percent for fiscal year 2015.

Subsec. (e)(1). Pub. L. 110–140, \$434(b), inserted after second sentence “‘Not later than October 1, 2016, each agency shall provide for equivalent metering of natural gas and steam, in accordance with guidelines established by the Secretary under paragraph (2).’”

Subsec. (f). Pub. L. 110–140, \$434(a), added subsec. (f) relating to large capital energy investments.

Pub. L. 110–140, \$432, added subsec. (f) relating to use of energy and water efficiency measures in Federal buildings.

2005—Subsec. (a)(1). Pub. L. 109–59, \$102(a)(1), substituted provisions relating to reduction of energy consumption in fiscal years 2006 to 2015 as compared to consumption in fiscal year 2003 and table of percentages specifying amount of reduction in each fiscal year for provisions relating to energy consumption during fiscal year 1995 at least 10 percent less than consumption during fiscal year 1985 and energy consumption during fiscal year 2000 at least 20 percent less than consumption during fiscal year 1985.

Subsec. (a)(5). Pub. L. 109–59, \$102(b), added par. (3).

Subsec. (c)(1). Pub. L. 109–59, \$102(c), added par. (1) and struck out former par. (1) which read as follows: ‘‘(1) An agency may exclude, from the energy consumption requirements for the year 2000 established under subsection (a) of this section and the requirements of subsection (b)(1) of this section, any Federal building or collection of Federal buildings, and the associated energy consumption and gross square footage, if the head of such agency finds that compliance with such requirements would be impractical. A finding of impracticability shall be based on the energy intensiveness of activities carried out in such Federal buildings or collection of Federal buildings, the type and amount of energy consumed, the technical feasibility of making the desired changes, and, in the cases of the Departments of Defense and Energy, the unique character of certain facilities operated by such Departments.’’

Subsec. (c)(2). Pub. L. 109–59, \$102(d), substituted ‘‘standards for exclusion’’ for ‘‘impracticability standards’’, ‘‘the exclusion’’ for ‘‘a finding of impracticability’’, and ‘‘requirements of subsections (a) and (b)(1) of this section’’ for ‘‘energy consumption requirements’’.

Subsec. (c)(3). Pub. L. 109–59, \$102(e), added par. (3).

Subsec. (a). Pub. L. 102–486, \$152(b)(2), (3), in heading substituted ‘‘requirement’’ for ‘‘goal’’ and in par. (1) inserted before period at end ‘‘and so that the energy consumption per gross square foot of its Federal buildings in use during the fiscal year 2000 is at least 20 percent less than the energy consumption per gross square foot of its Federal buildings in use during fiscal year 1985’’. Subsecs. (b), (c). Pub. L. 102–486, \$152(b)(4), added subsecs. (b) and (c). Former subsec. (b) redesignated (d).

Subsec. (d). Pub. L. 102–486, \$152(b)(4), (c)(1), redesignated subsec. (b) as (d) and in introductory provisions substituted ‘‘The Secretary shall consult with the Secretary of Defense and the Administrator of General Services in developing guidelines for the implementation of this part. To meet the requirements of this section, “To achieve the goal established in subsection (a) of this section, “’ for ‘‘To achieve the goal established in subsection (a) of this section, “’.

Subsec. (d)(1). Pub. L. 102–486, \$152(c)(2), added par. (1) and struck out former par. (1) which read as follows: ‘‘prepare or update, within 6 months after November 5, 1998, a plan describing how the agency intends to meet such goal, including how it will implement this part, designate personnel primarily responsible for achieving such goal, and identify high priority projects;”.

Subsec. (d)(2). Pub. L. 102–486, \$152(c)(3), inserted before semicolon at end ‘‘and update such surveys as needed, incorporating any relevant information obtained from the survey conducted pursuant to section 8258(b) of this title’’.

Subsec. (d)(3) to (5). Pub. L. 102–486, \$152(c)(4), (5), added pars. (3) and (4), redesignated former par. (4) as (5), and struck out former par. (3) which read as follows: ‘‘using such surveys, apply energy conservation measures in a manner which will attain the goal established in subsection (a) of this section in the most cost-effective manner practicable;”.

1988—Pub. L. 100–615 amended section generally, substituting energy management goals statement for statement of purpose to promote (1) use of commonly accepted methods to establish and compare life cycle costs of operating Federal buildings, and life cycle fuel and energy requirements of such buildings, with and without special features for energy conservation and (2) use of solar heating and cooling and other renewable energy sources in Federal buildings.

EFFECTIVE DATE OF 2007 AMENDMENT

Amendment by Pub. L. 110–140 effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as an Effective Date note under section 1824 of Title 2, The Congress.

REPORTING BASELINE

Pub. L. 109–59, title I, \$102(a)(2), Aug. 8, 2005, 119 Stat. 606, provided that: ‘‘The energy reduction goals and baseline established in paragraph (1) of section 543(a) of the National Energy Conservation Policy Act (42 U.S.C. 8253(a)(1)), as amended by this subsection, supersede all previous goals and baselines under such paragraph, and related reporting requirements.’’

SURVEY OF ENERGY SAVING POTENTIAL

Section 3 of Pub. L. 100–615, which authorized Secretary of Energy to carry out an energy survey to determine maximum potential cost effective energy savings in federally used buildings and recommend cost ef-

§ 8254. Establishment and use of life cycle cost methods and procedures

(a) Establishment of life cycle cost methods and procedures

The Secretary, in consultation with the Director of the Office of Management and Budget, the Secretary of Defense, the Director of the National Institute of Standards and Technology, and the Administrator of the General Services Administration, shall—

(1) establish practical and effective present value methods for estimating and comparing life cycle costs for Federal buildings, using the sum of all capital and operating expenses associated with the energy system of the building involved over the expected life of such system or during a period of 40 years, whichever is shorter, and using average fuel costs and a discount rate determined by the Secretary; and

(2) develop and prescribe the procedures to be followed in applying and implementing the methods so established.

(b) Use of life cycle cost methods and procedures

(1) The design of new Federal buildings, and the application of energy conservation measures to existing Federal buildings, shall be made using life cycle cost methods and procedures established under subsection (a) of this section.

(2) In leasing buildings for its own use or that of another agency, each agency shall, after January 1, 1994, fully consider the efficiency of all potential building space at the time of renewing or entering into a new lease.

(c) Use in non-Federal structures

The Secretary shall make available information to the public on the use of life cycle cost methods in the construction of buildings, structures, and facilities in all segments of the economy.

1992—Pub. L. 102–486 amended section generally. Prior to amendment, section read as follows: “Each agency, in support of the President’s annual budget request to the Congress, shall specifically set forth and identify funds requested for energy conservation measures.”

References in Text

Executive Order 12759, referred to in par. (2), is Ex. Ord. No. 12759, April 17, 1991, 56 F.R. 16257, as amended, which was set out as a note under section 6201 of this title, prior to revocation by Ex. Ord. No. 13123, §604, June 3, 1999, 64 F.R. 30869, formerly set out as a note under section 8251 of this title.

Amendments

1992—Pub. L. 102–486 amended section generally. Prior to amendment, section read as follows: “Each agency, in support of the President’s annual budget request to the Congress, shall specifically set forth and identify funds requested for energy conservation measures.”

1980—Subsec. (a)(1). Pub. L. 96–294, which directed amendment of par. (1) by inserting provisions setting forth criteria for establishing life-cycle costs for Federal buildings before the period at end, was executed to par. (2) as the probable intent of Congress because par. (1) does not contain a period.

§ 8256. Incentives for agencies

(a) Contracts

(1) Each agency shall establish a program of incentives for conserving, and otherwise making more efficient use of, energy as a result of entering into contracts under subchapter VII of this chapter.

(2) The Secretary shall, not later than 18 months after October 24, 1992, and after con-
consultation with the Director of the Office of Management and Budget, the Secretary of Defense, and the Administrator of General Services, develop appropriate procedures and methods for use by agencies to implement the incentives referred to in paragraph (1).

(b) Federal Energy Efficiency Fund

(1) The Secretary shall establish a Federal Energy Efficiency Fund to provide grants to agencies to assist them in meeting the requirements of section 8253 of this title.

(2) Not later than June 30, 1993, the Secretary shall issue guidelines to be followed by agencies submitting proposals for such grants. All agencies shall be eligible to submit proposals for grants under the Fund.

(3) The Secretary shall award grants from the Fund after a competitive assessment of the technical and economic effectiveness of each agency proposal. The Secretary shall consider the following factors in determining whether to provide funding under this subsection:

(A) The cost-effectiveness of the project.

(B) The amount of energy and cost savings anticipated to the Federal Government.

(C) The amount of funding committed to the project by the agency requesting financial assistance.

(D) The extent that a proposal leverages financing from other non-Federal sources.

(E) Any other factor which the Secretary determines will result in the greatest amount of energy and cost savings to the Federal Government.

(4) There are authorized to be appropriated, to remain available to be expended, to carry out this subsection not more than $10,000,000 for fiscal year 1994, $50,000,000 for fiscal year 1995, and such sums as may be necessary for fiscal years thereafter.

(c) Utility incentive programs

(1) Agencies are authorized and encouraged to participate in programs to increase energy efficiency and for water conservation or the management of electricity demand conducted by gas, water, or electric utilities and generally available to customers of such utilities.

(2) Each agency may accept any financial incentive, goods, or services generally available from any such utility, to increase energy efficiency or to conserve water or manage electricity demand.

(3) Each agency is encouraged to enter into negotiations with electric, water, and gas utilities to design cost-effective demand management and conservation incentive programs to address the unique needs of facilities utilized by such agency.

(4) If an agency satisfies the criteria which generally apply to other customers of a utility incentive program, such agency may not be denied collection of rebates or other incentives.

(d) Financial incentive program for facility energy managers

(1) The Secretary shall, in consultation with the Task Force established pursuant to section 8257 of this title, establish a financial bonus program to reward, with funds made available for such purpose, outstanding Federal facility energy managers in agencies and the United States Postal Service.

(2) Not later than June 1, 1993, the Secretary shall issue procedures for implementing and conducting the award program, including the criteria to be used in selecting outstanding energy managers and contributors who have—

(A) improved energy performance through increased energy efficiency;

(B) implemented proven energy efficiency and energy conservation techniques, devices, equipment, or procedures;

(C) developed and implemented training programs for facility energy managers, operators, and maintenance personnel;

(D) developed and implemented employee awareness programs;

(E) succeeded in generating utility incentives, shared energy savings contracts, and other federally approved performance based energy savings contracts;

(F) made successful efforts to fulfill compliance with energy reduction mandates, including the provisions of section 8253 of this title; and

(G) succeeded in the implementation of the guidelines established under section 8262e of this title.

(3) There is authorized to be appropriated to carry out this subsection not more than $250,000 for each of the fiscal years 1993, 1994, and 1995.

(e) Retention of energy and water savings

An agency may retain any funds appropriated to that agency for energy expenditures, water expenditures, or wastewater treatment expenditures, at buildings subject to the requirements of section 8253(a) and (b) of this title, that are not made because of energy savings or water savings. Except as otherwise provided by law, such funds may be used only for energy efficiency, water conservation, or unconventional and renewable energy resources projects. Such projects shall be subject to the requirements of section 3307 of title 40.

§ 8257. Intergency Energy Management Task Force

(a) In general

To assist the interagency committee organized under section 7266 of this title to coordinate the activities of the Federal Government in promoting energy conservation and the efficient use of energy and in informing non-Federal entities of the Federal experience in energy conservation, the Secretary shall establish an Intergency Energy Management Task Force (hereafter in this section referred to as the "Task Force").

(b) Members

The Task Force shall be composed of the chief energy managers of agencies represented on the interagency committee organized under section 7266 of this title.

(c) Duties

The Task Force shall meet when the Secretary requests, but not less often than twice a year, to—

(1) assess the progress of the various agencies in achieving energy savings;

(2) collect and disseminate information to agencies, States, local governments, and the public on effective survey techniques, innovative approaches to the efficient use of energy, incentive programs developed under section 8256 of this title, innovative contracting methods developed under subchapter VII of this chapter, the use of cogeneration facilities and renewable resources, and other technologies that promote the conservation and efficient use of energy;

(3) coordinate energy surveys conducted by the agencies;

(4) develop options for use in conserving energy;

(5) report to the committee organized under section 7266 of this title; and

(6) review, from time to time as may be necessary, the regulations relating to building temperature settings to determine whether changes in such regulations would be appropriate to assist in meeting the goals specified in section 8233 of this title.

§ 8258. Reports

(a) Reports to Secretary

Each agency shall transmit a report to the Secretary, at times specified by the Secretary but at least annually, with complete information on its activities under this part, including information on—

(1) the agency's progress in achieving the goals established by section 8253 of this title; and

(2) ...
(2) the procedures being used by the agency pursuant to section 8256(a)(2) of this title, the number of contracts entered into by such agency under subchapter VII of this chapter, the energy and cost savings that have resulted from such contracts and any termination penalty exposure, the use of such cost savings under section 8256(c) of this title, and any problem encountered in entering into such contracts and otherwise implementing section 8256 of this title.

(b) Reports to the President and Congress

The Secretary shall report, not later than April 2 of each year, with respect to each fiscal year beginning after November 5, 1988, to the President and Congress—

(1) on all activities carried out under this part and on the progress made toward achievement of the objectives of this part, including—

(A) a copy of the list of the exclusions made under sections 8253(a)(2) and 8255(c)(3) of this title;

(B) the information required under section 8255(b)(2) of this title; and

(C) a statement detailing the amount of funds awarded to each agency under section 8255(b) of this title, the energy and water conservation measures installed with such funds, the projected energy and water savings to be realized from installed measures, and, for each installed measure for which the projected energy and water savings reported in the previous year were not realized, the percentage of such projected savings that was not realized, the reasons such savings were not realized, and proposals for, and projected costs of, achieving such projected savings in the future;

(2) the number of contracts entered into by all agencies under subchapter VII of this chapter, the difficulties (if any) encountered in attempting to enter into such contracts, and proposed solutions to those difficulties;

(3) the extent and nature of interagency exchange of information concerning the conservation and efficient utilization of energy; and

(4) the information required under section 8262a(d) of this title.

(c) Other report

The Secretary, in consultation with the Administrator of General Services, shall—

(1) conduct a study and evaluate legal, institutional, and other constraints to connecting buildings owned or leased by the Federal Government to district heating and district cooling systems; and

(2) not later than 18 months after October 24, 1992, transmit to the Congress a report containing the findings and conclusions of such study, including recommendations for the development of streamlined processes for the consideration of connecting buildings owned or leased by the Federal Government to district heating and cooling systems.

2007—Subsec. (a)(2). Pub. L. 110–140 inserted “and any termination penalty exposure” after “from such contracts”.

2005—Subsec. (b). Pub. L. 109–58 inserted “the President and” before “Congress” in heading and “President and” before “Congress” in introductory provisions.

1995—Subsec. (b)(1). Pub. L. 104–66, § 1052(d)(1), added subpar. (B) and redesignated former subpar. (B) as (C).

Subsec. (b). Pub. L. 102–486, § 152(1)(1)(B), substituted “not later than April 2 of each year,” for “annually,”.

Subsec. (b)(1). Pub. L. 102–486, § 152(2)(1), substituted “including—” and subpars. (A) and (B) for “including a copy of the list of the exclusions made under section 8253(a)(2) of this title;”.

1988—Pub. L. 100–615 amended section generally, substituting provisions relating to reports to Secretary and Congress for former requirement that in leasing Federal buildings for its own use or that of another Federal agency, each Federal agency should give appropriate preference to buildings which used solar heating and cooling equipment or other renewable energy sources or which otherwise minimized life cycle costs.

AMENDMENTS

2007—Subsec. (a)(2). Pub. L. 110–140 inserted “and any termination penalty exposure” after “from such contracts”.

2005—Subsec. (b). Pub. L. 109–58 inserted “the President and” before “Congress” in heading and “President and” before “Congress” in introductory provisions.

1995—Subsec. (b)(1). Pub. L. 104–66, § 1052(d)(1), added subpar. (B) and redesignated former subpar. (B) as (C).

Subsec. (b). Pub. L. 102–486, § 152(1)(1)(B), substituted “not later than April 2 of each year,” for “annually,”.

Subsec. (b)(1). Pub. L. 102–486, § 152(2)(1), substituted “including—” and subpars. (A) and (B) for “including a copy of the list of the exclusions made under section 8253(a)(2) of this title;”.

1988—Pub. L. 100–615 amended section generally, substituting provisions relating to reports to Secretary and Congress for former requirement that in leasing Federal buildings for its own use or that of another Federal agency, each Federal agency should give appropriate preference to buildings which used solar heating and cooling equipment or other renewable energy sources or which otherwise minimized life cycle costs.

EFFECTIVE DATE OF 2007 AMENDMENT

Amendment by Pub. L. 110–140 effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as an Effective Date note under section 1824 of Title 2, The Congress.

TERMINATION OF REPORTING REQUIREMENTS

For termination, effective May 15, 2000, of provisions of law requiring submittal to Congress of any annual, semianual, or other regular periodic report listed in House Document No. 103–7 (in which the 16th item on page 89 identifies a reporting provision which, as subsequently amended, is contained in subsec. (b) of this section), see section 3003 of Pub. L. 104–66, as amended, set out as a note under section 1113 of Title 31, Money and Finance.

§ 8258a. Demonstration of new technology

(a) Demonstration program

Not later than January 1, 1994, the Secretary, in cooperation with the Administrator of General Services, shall establish a demonstration program to install, in federally owned facilities or federally assisted housing, energy conservation measures for which the Secretary has determined that such installation would accelerate commercial viability. In those cases where technologies are determined to be equivalent, priority shall be given to those technologies that have received or are receiving Federal financial assistance.

(b) Selection criteria

In addition to the determination under subsection (a) of this section, the Secretary shall select, in cooperation with the Administrator of General Services, proposals to be funded under this section on the basis of—

(1) cost-effectiveness;

(2) technical feasibility and system reliability in a working environment;
(3) lack of market penetration in the Federal sector;
(4) the potential needs of the proposing Federal agency for the technology, projected over 5 to 10 years;
(5) the potential Federal sector market, projected over 5 to 10 years;
(6) energy efficiency; and
(7) other environmental benefits, including the projected reduction of greenhouse gas emissions and indoor air pollution.

(c) Proposals
Federal agencies may submit to the Secretary, for each fiscal year, proposals for projects to be funded by the Secretary under this section. Each such proposal shall include—
(1) a description of the proposed project emphasizing the innovative use of technology in the Federal sector;
(2) a description of the technical reliability and cost-effectiveness data expected to be acquired;
(3) an identification of the potential needs of the Federal agency for the technology;
(4) a commitment to adopt the technology, if the project establishes its technical reliability and life cycle cost-effectiveness, to supply at least 10 percent of the Federal agency’s potential needs identified under paragraph (3);
(5) schedules and milestones for installing additional units; and
(6) a technology transfer plan to publicize the results of the project.

(d) Participation by GSA
The Secretary may only select a project for funding under this section which is proposed to be carried out in a building under the jurisdiction of the General Services Administration if the project will be carried out by the Administrator of General Services. If such project involves a total expenditure in excess of $1,600,000, no appropriation shall be made for such project unless such project has been approved by a resolution adopted by the Committee on Public Works and Transportation of the House of Representatives and the Committee on Environment and Public Works of the Senate.

(e) Study
The Secretary shall conduct a study to evaluate the potential use of the purchasing power of the Federal Government to promote the development and commercialization of energy efficient products. The study shall identify products for which there is a high potential for Federal purchasing power to substantially promote their development and commercialization, and shall include a plan to develop such potential. The study shall be conducted in consultation with utilities, manufacturers, and appropriate nonprofit organizations concerned with energy efficiency. The Secretary shall report to the Congress on the results of the study not later than two years after October 24, 1992.

(f) Authorization of appropriations
There are authorized to be appropriated to the Secretary for carrying out this section $5,000,000 for each of the fiscal years 1993, 1994, and 1995.

(A) employees of the Department of Energy; or
(B) selected by the agencies utilizing the buildings which are being surveyed under this section.

(2) Such personnel shall be detailed for the purpose of carrying out this section without any reduction of salary or benefits.

(d) Report

As soon as practicable after the completion of the project carried out under this section, the Secretary shall transmit a report of the findings and conclusions of the project to the Committee on Energy and Natural Resources and the Committee on Governmental Affairs of the Senate, the Committee on Energy and Commerce, the Committee on Government Operations, and the Committee on Public Works and Transportation of the House of Representatives, and the agencies who own the buildings involved in such project. Such report shall include an analysis of the probability of each agency achieving each of the energy reduction goals established under section 8253(a) of this title.

PRIOR PROVISIONS

A prior section 550 of Pub. L. 95–619 was classified to section 8260 of this title prior to the general amendment of this part by Pub. L. 100–615.

AMENDMENTS

2005—Subsec. (d). Pub. L. 109–58 substituted “each of the energy reduction goals” for “the 20 percent reduction goal”.

CHANGE OF NAME

Committee on Governmental Affairs of Senate changed to Committee on Homeland Security and Governmental Affairs of Senate, effective Jan. 4, 2005, by Senate Resolution No. 445, One Hundred Eighth Congress, Oct. 9, 2004.

Committee on Energy and Commerce of House of Representatives treated as referring to Committee on Oversight and Government Reform and Oversight of House of Representatives by section 1(a) of Pub. L. 104–14, set out as a note preceding section 21 of Title 2.

§8259. Definitions

For the purposes of this part—

(1) the term “agency” has the meaning given it in section 551(1) of title 5;

(2) the term “construction” means new construction or substantial rehabilitation of existing structures;

(3) the term “cogeneration facilities” has the same meaning given such term in section 796(18)(A) of title 16;

(4) the term “energy conservation measures” means measures that are applied to a Federal building that improve energy efficiency and are life cycle cost effective and that involve energy conservation, cogeneration facilities, renewable energy sources, improvements in operations and maintenance efficiencies, or retrofit activities;

(5) the term “energy survey” means a procedure used to determine energy and cost savings likely to result from the use of appropriate energy related maintenance and operating procedures and modifications, including the purchase and installation of particular energy-related equipment and the use of renewable energy sources;

(6) the term “Federal building” means any building, structure, or facility, or part thereof, including the associated energy consuming support systems, which is constructed, renovated, leased, or purchased in whole or in part for use by the Federal Government and which consumes energy; such term also means a collection of such buildings, structures, or facilities and the energy consuming support systems for such collection;

(7) the term “life cycle cost” means the total costs of owning, operating, and maintaining a building over its useful life (including such costs as fuel, energy, labor, and replacement components) determined on the basis of a systematic evaluation and comparison of alternative building systems, except that in the case of leased buildings, the life cycle costs shall be calculated over the effective remaining term of the lease;

(8) the term “renewable energy sources” includes, but is not limited to, sources such as agriculture and urban waste, geothermal energy, solar energy, and wind energy; and

(9) the term “Secretary” means the Secretary of Energy.

PRIOR PROVISIONS

A prior section 551 of Pub. L. 95–619 was classified to section 8261 of this title prior to the general amendment of this part by Pub. L. 100–615.

AMENDMENTS

1988—Pub. L. 100–615 amended section generally, substituting provisions relating to definitions for Federal

Page 6576 TITLE 42—THE PUBLIC HEALTH AND WELFARE
energy management for former provision relating to budget treatment of energy conserving improvements by Federal agencies.

§ 8259a. Energy and water savings measures in congressional buildings

(a) Definitions

The Architect of the Capitol—

(1) shall develop, update, and implement a cost-effective energy conservation and management plan (referred to in this section as the “plan”) for all facilities administered by Congress (referred to in this section as “congressional buildings”) to meet the energy performance requirements for Federal buildings established under section 8253(a)(1) of this title; and

(2) shall submit the plan to Congress, not later than 180 days after August 8, 2005.

(b) Plan requirements

The plan shall include—

(1) a description of the life cycle cost analysis used to determine the cost-effectiveness of proposed energy efficiency projects;

(2) a schedule of energy surveys to ensure complete surveys of all congressional buildings every 5 years to determine the cost and payback period of energy and water conservation measures;

(3) a strategy for installation of life cycle cost-effective energy and water conservation measures;

(4) the results of a study of the costs and benefits of installation of submetering in congressional buildings; and

(5) information packages and “how-to” guides for each Member and employing authority of Congress that detail simple, cost-effective methods to save energy and taxpayer dollars in the workplace.

(c) Annual report

The Architect of the Capitol shall submit to Congress annually a report on congressional energy management and conservation programs required under this section that describes in detail—

(1) energy expenditures and savings estimates for each facility;

(2) energy management and conservation projects; and

(3) future priorities to ensure compliance with this section.

§ 8259b. Federal procurement of energy efficient products

(a) Definitions

In this section:

(1) Agency

The term “agency” has the meaning given that term in section 7902(a) of title 5.

(2) Energy Star product

The term “Energy Star product” means a product that is rated for energy efficiency under an Energy Star program.

(3) Energy Star program

The term “Energy Star program” means the program established by section 6294a of this title.

(4) FEMP designated product

The term “FEMP designated product” means a product that is designated under the Federal Energy Management Program of the Department of Energy as being among the highest 25 percent of equivalent products for energy efficiency.

(5) Product

The term “product” does not include any energy consuming product or system designed or procured for combat or combat-related missions.

(b) Procurement of energy efficient products

(1) Requirement

To meet the requirements of an agency for an energy consuming product in a product category covered by the Energy Star program or the Federal Energy Management Program for designated products, the head of the agency shall, except as provided in paragraph (2), procure—

(A) an Energy Star product; or

(B) a FEMP designated product.

(2) Exceptions

The head of an agency is not required to procure an Energy Star product or FEMP designated product under paragraph (1) if the head of the agency finds in writing that—

(A) an Energy Star product or FEMP designated product is not cost-effective over the life of the product taking energy cost savings into account; or

(B) no Energy Star product or FEMP designated product is reasonably available that meets the functional requirements of the agency.

(3) Procurement planning

The head of an agency shall incorporate into the specifications for all procurements involving energy consuming products and systems, including guide specifications, project specifications, and construction, renovation, and services contracts that include provision of energy consuming products and systems, and into the factors for the evaluation of offers received for the procurement, criteria for energy efficiency that are consistent with the criteria used for rating Energy Star products and for rating FEMP designated products.

(c) Listing of energy efficient products in Federal catalogs

Energy Star products and FEMP designated products shall be clearly identified and prominently displayed in any inventory or listing of products by the General Services Administration or the Defense Logistics Agency. The General Services Administration or the Defense Logistics Agency shall list in their catalogues, represent as available, and supply only Energy Star products or FEMP designated products for all product categories covered by the Energy Star program or the Federal Energy Management Program.
(d) Specific products
(1) In the case of electric motors of 1 to 500 horsepower, agencies shall select only premium efficient motors that meet a standard designated by the Secretary. The Secretary shall designate such a standard not later than 120 days after August 8, 2005, after considering the recommendations of associated electric motor manufacturers and energy efficiency groups.
(2) All Federal agencies are encouraged to take actions to maximize the efficiency of air conditioning and refrigeration equipment, including appropriate cleaning and maintenance, including the use of any system treatment or additive that will reduce the electricity consumed by air conditioning and refrigeration equipment. Any such treatment or additive must be—
(A) determined by the Secretary to be effective in increasing the efficiency of air conditioning and refrigeration equipment without having an adverse impact on air conditioning performance (including cooling capacity) or equipment useful life;
(B) determined by the Administrator of the Environmental Protection Agency to be environmentally safe; and
(C) shown to increase seasonal energy efficiency ratio (SEER) or energy efficiency ratio (EER) when tested by the National Institute of Standards and Technology according to Department of Energy test procedures without causing any adverse impact on the system, system components, the refrigerant or lubricant, or other materials in the system.
Results of testing described in subparagraph (C) shall be published in the Federal Register for public review and comment. For purposes of this section, a hardware device or primary refrigerant shall not be considered an additive.
(e) Federally-procured appliances with standby power
(1) Definition of eligible product
In this subsection, the term “eligible product” means a commercially available, off-the-shelf product that—
(A)(i) uses external standby power devices; or
(ii) contains an internal standby power function; and
(B) is included on the list compiled under paragraph (4).
(2) Federal purchasing requirement
Subject to paragraph (3), if an agency purchases an eligible product, the agency shall purchase—
(A) an eligible product that uses not more than 1 watt in the standby power consuming mode of the eligible product; or
(B) if an eligible product described in subparagraph (A) is not available, the eligible product with the lowest available standby power wattage in the standby power consuming mode of the eligible product.
(3) Limitation
The requirements of paragraph (2) shall apply to a purchase by an agency only if—
(A) the lower-wattage eligible product is—
(1) lifecycle cost-effective; and
(ii) practicable; and
(B) the utility and performance of the eligible product is not compromised by the lower wattage requirement.
(4) Eligible products
The Secretary, in consultation with the Secretary of Defense, the Administrator of the Environmental Protection Agency, and the Administrator of General Services, shall compile a publicly accessible list of cost-effective eligible products that shall be subject to the purchasing requirements of paragraph (2).
(f) Regulations
Not later than 180 days after August 8, 2005, the Secretary shall issue guidelines to carry out this section.

Amendments
Subsec. (c). Pub. L. 110–140, § 525(a)(2), in second sentence, inserted “list in their catalogues, represent as available, and” after “shall” and substituted “in which the head of the agency” for “where the agency”.
Subsecs. (e), (f). Pub. L. 110–140, § 524, added subsec. (e) and redesignated former subsec. (e) as (f).

Effective Date of 2007 Amendment
Amendment by Pub. L. 110–140 effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as an Effective Date note under section 1624 of Title 2, The Congress.

Catalogue Listing Deadline
Pub. L. 110–140, title V, § 525(b), Dec. 19, 2007, 121 Stat. 1663, provided that: “Not later than 9 months after the date of enactment of this Act [Dec. 19, 2007], the General Services Administration and the Defense Logistics Agency shall ensure that the requirement established by the amendment made by subsection (a)(2)(A) [amending this section] has been fully complied with.”

§§ 8260, 8261. Omitted

Codification
Sections 8260 and 8261 were omitted in the general amendment of this part by Pub. L. 100–615, §2(a), Nov. 5, 1988, 102 Stat. 3185.
Section 8260, Pub. L. 95–619, title V, §550, Nov. 9, 1978, 92 Stat. 3280, directed each Federal agency to periodically furnish Secretary with full and complete information on its activities under this part, and directed Secretary to annually submit to Congress a comprehensive report on all activities under this part and on progress made toward achievement of objectives of this part.
Section 8261, Pub. L. 95–619, title V, §551, Nov. 9, 1978, 92 Stat. 3280, authorized to be appropriated to Secretary not to exceed $2,000,000 for fiscal year ending Sept. 30, 1979, to enable Secretary to perform analytical and administrative functions under this part.

§ 8262. Definitions
For purposes of this subtitle—
(1) the term “agency” means the meaning given such term in section 551(1) of title 5, except that such term does not include the United States Postal Service;
(2) the term “facility energy supervisor” means the employee with responsibility for the daily operations of a Federal facility, including the management, installation, operation, and maintenance of energy systems in Federal facilities which may include more than one building;
(3) the term “trained energy manager” means a person who has demonstrated proficiency, or who has completed a course of study in the areas of fundamentals of building energy systems, building energy codes and applicable professional standards, energy accounting and analysis, life-cycle cost methodology, fuel supply and pricing, and instrumentation for energy surveys and audits; and
(4) the term “Task Force” means the Interagency Energy Management Task Force established under section 8257 of this title; and
(5) the term “energy conservation measures” has the meaning given such term in section 2259(4) of this title.

§ 8262b. Intergovernmental energy management planning and coordination
(a) Conference workshops
The Administrator of General Services, in consultation with the Secretary and the Task Force, shall hold regular, biennial conference workshops in each of the 10 standard Federal regions on energy management, conservation, efficiency, and planning strategy. The Administrator shall work and consult with the Department of Energy and other Federal agencies to plan for particular regional conferences. The Administrator shall invite Department of Energy, State, local, tribal, and county public officials who have responsibilities for energy management or may have an interest in such con-

REFERENCES IN TEXT

The General Schedule, referred to in subsec. (b)(1)(B), is set out under section 5332 of Title 5, Government Organization and Employees.

§ 8262d. Energy audit teams

(a) Establishment

The Secretary shall assemble from existing personnel with appropriate expertise, and with particular utilization of the national laboratories, and make available to all Federal agencies, one or more energy audit teams which shall be equipped with instruments and other advanced equipment needed to perform energy audits of Federal facilities.

(b) Monitoring programs

The Secretary shall also assist in establishing, at each site that has utilized an energy audit team, a program for monitoring the implementation of energy efficiency improvements based upon energy audit team recommendations, and for recording the operating history of such improvements.

§ 8262e. Federal energy cost accounting and management

(a) Guidelines

Not later than 120 days after October 24, 1992, the Director of the Office of Management and Budget, in cooperation with the Secretary, the Administrator of General Services, and the Secretary of Defense, shall establish guidelines to be employed by each Federal agency to assess accurate energy consumption for all buildings or facilities which the agency owns, operates, manages or leases, where the Government pays utilities separate from the lease and the Government operates the leased space. Such guidelines are to be used in reports required under section 8258 of this title. Each agency shall implement such guidelines no later than 120 days after their establishment. Each facility energy manager shall maintain energy consumption and energy cost records for review by the Inspector General, the Congress, and the general public.

(b) Contents of guidelines

Such guidelines shall include the establishment of a monitoring system to determine—

(1) which facilities are the most costly to operate when measured on an energy consumption per square foot basis or other relevant analytical basis;

(2) unusual or abnormal changes in energy consumption; and

(3) the accuracy of utility charges for electric and gas consumption.

(c) Federally leased space energy reporting requirement

The Administrator of General Services shall include, in each report submitted under section 8262a of this title, the estimated energy cost of leased buildings or space in which the Federal Government does not directly pay the utility bills.

§ 8262f. Inspector General review and agency accountability

(a) Audit survey

Not later than 120 days after October 24, 1992, each Inspector General created to conduct and supervise audits and investigations relating to the programs and operations of the establishments listed in section 11(2) of the Inspector General Act of 1978 (5 U.S.C. App.), and the Chief Postal Inspector of the United States Postal Service, in accordance with section 8E(f)(1) as established by section 8E(a)(2) of the Inspector General Act Amendments of 1988 (Public Law 100–504) shall—

(1) identify agency compliance activities to meet the requirements of section 543 of the National Energy Conservation Policy Act (42 U.S.C. 8253) and any other matters relevant to implementing the goals of such Act; and

(2) determine if the agency has the internal accounting mechanisms necessary to assess the accuracy and reliability of energy consumption and energy cost figures required under such section.

(b) President’s Council on Integrity and Efficiency report to Congress

Not later than 150 days after October 24, 1992, the President’s Council on Integrity and Efficiency shall submit a report to the Committee on Energy and Natural Resources of the House of Representatives, the Committee on Government Operations, and the Committee on Public Works and Transportation of the Senate, on the reviews conducted by the Inspector General of each agency under this section.

(c) Inspector General review

References in Text

Sections 2 and 11(2) of the Inspector General Act of 1978, referred to in subsecs. (a) and (c), are sections 2 and 11(2) of Pub. L. 95–452, which are set out in the Appendix to Title 5, Government Organization and Employees.

1 See References in Text note below.

Section 8E of the Inspector General Act of 1978 was successively renumbered section 8F by Pub. L. 103–82, title II. 103 Stat. 1815, as amended. Part 3 of title V of the Act is classified generally to part B (§§151–168) of title I of Pub. L. 102–486, Oct. 24, 1992, 106 Stat. 2643, which enacted this section and sections 8255a, 8258b, 8262a to 8262k of this title, amended sections 8252 to 8256, 8258, 8259, 8287, and 8276 of this title and section 902 of former Title 40, Public Buildings, Property, and Works, enacted provisions set out as notes under section 8262h of this title and former sections 8252 to 8256, 8258, 8259, 8287, and 8276 of this title, and section 490 of former Title 40, Public Buildings, Property, and Works, enacted provisions set out as notes under section 8262h of this title and former section 1815 of Title 2. The Congress, and repealed provisions set out as a note under section 8253 of this title. For complete classification of this subtitle to the Code, see Tables.

Codification
Section was enacted as part of the Energy Policy Act of 1992, and not as part of the National Energy Conservation Policy Act which comprises this chapter.

Change of Name
Committee on Governmental Affairs of Senate changed to Committee on Homeland Security and Governmental Affairs of Senate, effective Jan. 4, 2005, by Senate Resolution No. 445, One Hundred Eighth Congress, Oct. 9, 2004.

Committee on Energy and Commerce of House of Representatives treated as referring to Committee on Commerce of House of Representatives by section 1(a) of Pub. L. 104–14, set out as a note preceding section 21 of Title II. The Congress. Committee on Commerce of House of Representatives changed to Committee on Energy and Commerce of House of Representatives, and jurisdiction over matters relating to securities and exchanges and insurance generally transferred to Committee on Financial Services of House of Representatives by House Resolution No. 5, One Hundred Seventh Congress, Jan. 3, 2001.

Committee on Government Operations of House of Representatives treated as referring to Committee on Government Operations and Oversight of House of Representatives by section 1(a) of Pub. L. 104–14, set out as a note preceding section 21 of Title II. Committee on Government Reform and Oversight of House of Representatives changed to Committee on Government Reform of House of Representatives by House Resolution No. 5, One Hundred Sixth Congress, Jan. 6, 1999. Committee on Government Reform of House of Representatives changed to Committee on Oversight and Government Reform of House of Representatives by House Resolution No. 6, One Hundred Tenth Congress, Jan. 5, 2007.

Committee on Public Works and Transportation of House of Representatives treated as referring to Committee on Transportation and Infrastructure of House of Representatives by section 1(a) of Pub. L. 104–14, set out as a note preceding section 21 of Title II.

§ 8262g. Procurement and identification of energy efficient products

(a) Procurement

The Administrator of General Services, the Secretary of Defense, and the Director of the Defense Logistics Agency, each shall undertake a program to include energy efficient products in carrying out their procurement and supply functions.

(b) Identification program

The Administrator of General Services, the Secretary of Defense, and the Director of the Defense Logistics Agency, in consultation with the Secretary of Energy, each shall implement, in conjunction with carrying out their procurement and supply functions, a program to identify and designate those energy efficient products that offer significant potential savings, using, to the extent practicable, the life cycle cost methods and procedures developed under section 8254 of this title. The Secretary of Energy shall, to the extent necessary to carry out this section and after consultation with the aforementioned agency heads, provide estimates of the degree of relative energy efficiency of products.

(c) Guidelines

The Administrator for Federal Procurement Policy, in consultation with the Administrator of General Services, the Secretary of Energy, the Secretary of Defense, and the Director of the Defense Logistics Agency, shall issue guidelines to encourage the acquisition and use by all Federal agencies of products identified pursuant to this section. The Secretary of Defense and the Director of the Defense Logistics Agency shall consider, and place emphasis on, the acquisition of such products as part of the Agency’s ongoing review of military specifications.

(d) Report to Congress

Not later than December 31 of 1993 and thereafter as part of the report required under section 8258(b) of this title, the Secretary of Energy, in consultation with the Administrator for Federal Procurement Policy, the Administrator of General Services, the Secretary of Defense, and the Director of the Defense Logistics Agency, shall report on the progress, status, activities, and results of the programs under subsections (a), (b), and (c) of this section. The report shall include:

(1) the types and functions of each product identified under subsection (b) of this section, and efforts undertaken by the Administrator of General Services, the Secretary of Defense, and the Director of the Defense Logistics Agency to encourage the acquisition and use of such products;

(2) the actions taken by the Administrator of General Services, the Secretary of Defense, and the Director of the Defense Logistics Agency to identify products under subsection (b) of this section, the barriers which inhibit implementation of identification of such products, and recommendations for legislative action, if necessary;

(3) progress on the development and issuance of guidelines under subsection (c) of this section;

(4) an indication of whether energy cost savings technologies identified by the Advanced Building Technology Council, under section 1701–2(h) of title 12, have been used in the identification of products under subsection (b) of this section;

§ 8262g. Procurement and identification of energy efficient products

(a) Procurement

The Administrator of General Services, the Secretary of Defense, and the Director of the Defense Logistics Agency, each shall undertake a program to include energy efficient products in carrying out their procurement and supply functions.

(b) Identification program

The Administrator of General Services, the Secretary of Defense, and the Director of the Defense Logistics Agency, in consultation with the Secretary of Energy, each shall implement, in conjunction with carrying out their procurement and supply functions, a program to identify and designate those energy efficient products that offer significant potential savings, using, to the extent practicable, the life cycle cost methods and procedures developed under section 8254 of this title. The Secretary of Energy shall, to the extent necessary to carry out this section and after consultation with the aforementioned agency heads, provide estimates of the degree of relative energy efficiency of products.

(c) Guidelines

The Administrator for Federal Procurement Policy, in consultation with the Administrator of General Services, the Secretary of Energy, the Secretary of Defense, and the Director of the Defense Logistics Agency, shall issue guidelines to encourage the acquisition and use by all Federal agencies of products identified pursuant to this section. The Secretary of Defense and the Director of the Defense Logistics Agency shall consider, and place emphasis on, the acquisition of such products as part of the Agency’s ongoing review of military specifications.

(d) Report to Congress

Not later than December 31 of 1993 and thereafter as part of the report required under section 8258(b) of this title, the Secretary of Energy, in consultation with the Administrator for Federal Procurement Policy, the Administrator of General Services, the Secretary of Defense, and the Director of the Defense Logistics Agency, shall report on the progress, status, activities, and results of the programs under subsections (a), (b), and (c) of this section. The report shall include:

(1) the types and functions of each product identified under subsection (b) of this section, and efforts undertaken by the Administrator of General Services, the Secretary of Defense, and the Director of the Defense Logistics Agency to encourage the acquisition and use of such products;

(2) the actions taken by the Administrator of General Services, the Secretary of Defense, and the Director of the Defense Logistics Agency to identify products under subsection (b) of this section, the barriers which inhibit implementation of identification of such products, and recommendations for legislative action, if necessary;

(3) progress on the development and issuance of guidelines under subsection (c) of this section;

(4) an indication of whether energy cost savings technologies identified by the Advanced Building Technology Council, under section 1701–2(h) of title 12, have been used in the identification of products under subsection (b) of this section;
(5) an estimate of the potential cost savings to the Federal Government from acquiring products identified under subsection (b) of this section with respect to which energy is a significant component of life cycle cost, based on the quantities of such products that could be utilized throughout the Government; and
(6) the actual quantities acquired of products described in paragraph (5).

Codification
Section was enacted as part of the Energy Policy Act of 1992, and not as part of the National Energy Conservation Policy Act which comprises this chapter.

AMENDMENTS
1995—Subsec. (d). Pub. L. 104–66 substituted “thereafter as part of the report required under section 8258(b) of this title,” for “of each year thereafter,” in introductory provisions.

Termination of Reporting Requirements
For termination, effective May 15, 2000, of provisions of law requiring submittal to Congress of any annual, semiannual, or other regular periodic report listed in House Document No. 103–7 (in which the 12th item on page 85 identifies a reporting provision which, as subsequently amended, is contained in subsec. (d) of this section), see section 3003 of Pub. L. 103–166, as amended, set out as a note under section 1113 of Title 31, Money and Finance.

Executive Order No. 12845
Ex. Ord. No. 12845, Apr. 21, 1993, 58 F.R. 21887, which required Federal agencies to procure computer equipment that met EPA Energy Star requirements for energy efficiency, was revoked by Ex. Ord. No. 12845, Apr. 21, 1993, 58 F.R. 21887, formerly set out as a note under section 8251 of this title.

§ 8262h. United States Postal Service energy regulations
(a) In general
The Postmaster General shall issue regulations to ensure the reliable and accurate accounting of energy consumption costs for all buildings or facilities which it owns, leases, operates, or manages. Such regulations shall—
(1) establish a monitoring system to determine which facilities are the most costly to operate on an energy consumption per square foot basis or other relevant analytical basis;
(2) identify unusual or abnormal changes in energy consumption; and
(3) check the accuracy of utility charges for electricity and gas consumption.

(b) Identification of energy efficiency products
The Postmaster General shall actively undertake a program to identify and procure energy efficiency products for use in its facilities. In carrying out this subsection, the Postmaster General shall, to the maximum extent practicable, incorporate energy efficient information available on Federal Supply Schedules maintained by the General Services Administration and the Defense Logistics Agency.

Codification
Section was enacted as part of the Energy Policy Act of 1992, and not as part of the National Energy Conservation Policy Act which comprises this chapter.

United States Postal Service building energy survey and report
Section 164 of Pub. L. 102–486 directed Postmaster General to conduct an energy survey, as defined in 42 U.S.C. 8259(5), for purposes of determining maximum potential cost effective energy savings that may be achieved in a representative sample of buildings owned or leased by United States Postal Service in different areas of the country, making recommendations for cost effective energy efficiency and renewable energy improvements in those buildings and in other similar United States Postal Service buildings, and identifying barriers which may prevent the United States Postal Service from complying with energy management goals, and further directed Postmaster General to transmit to Congress within 180 days after Oct. 24, 1992, a plan for implementing this survey, and to report to Congress on the findings and conclusions of such survey as soon as practicable after its completion.

§ 8262i. United States Postal Service energy management report
Not later than one year after October 24, 1992, and not later than January 1 of each year thereafter, the Postmaster General shall submit a report to the Committee on Governmental Affairs and the Committee on Energy and Natural Resources of the Senate and the Committee on Energy and Commerce and the Committee on Post Office and Civil Service of the House of Representatives on the United States Postal Service’s building management program as it relates to energy efficiency. The report shall include, but not be limited to—
(1) a description of actions taken to reduce energy consumption;
(2) future plans to reduce energy consumption;
(3) an assessment of the success of the energy conservation program;
(4) a statement of energy costs incurred in operating and maintaining all United States Postal Service facilities; and
(5) the status of the energy efficient procurement program established under section 8262h of this title.

Codification
Section was enacted as part of the Energy Policy Act of 1992, and not as part of the National Energy Conservation Policy Act which comprises this chapter.

Change of Name
Committee on Governmental Affairs of Senate changed to Committee on Homeland Security and Governmental Affairs of Senate, effective Jan. 4, 2005, by Senate Resolution No. 45, One Hundred Eighth Congress, Oct. 9, 2004.

Committee on Energy and Commerce of House of Representatives treated as referring to Committee on Commerce of House of Representatives by section 1(a) of Pub. L. 104–14, set out as a note preceding section 21 of Title 2, The Congress. Committee on Commerce of House of Representatives changed to Committee on Energy and Commerce of House of Representatives, and jurisdiction over matters relating to securities and exchanges and insurance generally transferred to Com-
§ 8262j. Energy management requirements for United States Postal Service

(a) Energy management requirements for postal facilities

(1) The Postmaster General shall, to the maximum extent practicable, ensure that each United States Postal Service facility meets the energy management requirements for Federal buildings and agencies specified in section 8233 of this title.

(2) The Postmaster General may exclude from the requirements of such section any facility or collection of facilities, and the associated energy consumption and gross square footage if the Postmaster General finds that compliance with the requirements of such section would be impracticable. A finding of impracticability shall be based on the energy intensiveness of activities carried out in such facility or collection of facilities, the type and amount of energy consumed, or the technical feasibility of making the desired changes. The Postmaster General shall identify and list in the report required under section 8262l of this title the facilities designated by it for such exclusion.

(b) Implementation steps

In carrying subsection (a) of this section, the Postmaster General shall—

(1) not later than 1 year after October 24, 1992, prepare or update, as appropriate, a plan (which may be submitted as part of the first report submitted under section 8262l of this title)—

(A) describing how this section will be implemented;

(B) designating personnel primarily responsible for achieving the requirements of this section; and

(C) identifying high priority projects;

(2) perform energy surveys of United States Postal Service facilities as necessary to achieve the requirements of this section;

(3) install those energy conservation measures that will attain the requirements of this section in a cost-effective manner as defined in section 8254 of this title; and

(4) ensure that the operation and maintenance procedures applied under this section are continued.

CODIFICATION

Section was enacted as part of the Energy Policy Act of 1992, and not as part of the National Energy Conservation Policy Act which comprises this chapter.

§ 8262k. Government contract incentives

(a) Establishment of criteria

Each agency, in consultation with the Federal Acquisition Regulatory Council, shall establish criteria for the improvement of energy efficiency in Federal facilities operated by Federal Government contractors or subcontractors.

(b) Purpose of criteria

The criteria established under subsection (a) of this section shall be used to encourage Federal contractors, and their subcontractors, which manage and operate federally-owned facilities, to adopt and utilize energy conservation measures designed to reduce energy costs in Government-owned and contractor-operated facilities and which are ultimately borne by the Federal Government.

CODIFICATION

Section was enacted as part of the Energy Policy Act of 1992, and not as part of the National Energy Conservation Policy Act which comprises this chapter.

PART C—FEDERAL PHOTOVOLTAIC UTILIZATION

§ 8271. “Federal facility” and “Secretary” defined

For purposes of this part—

(1) The term “Federal facility” means any building, structure, or fixture or part thereof which is owned by the United States or any Federal agency or which is held by the United States or any Federal agency under a lease-acquisition agreement under which the United States or a Federal agency will receive fee simple title under the terms of such agreement without further negotiation. Such term also applies to facilities related to programs administered by Federal agencies.

AMENDMENTS

SHORT TITLE

For short title of this part as the “Federal Photovoltaic Utilization Act”, see section 561 of Pub. L. 95–619, set out as a note under section 8201 of this title.

§ 8272. Photovoltaic energy program

There is hereby established a photovoltaic energy commercialization program for the accelerated procurement and installation of photovoltaic solar electric systems for electric production in Federal facilities.
§ 8273. Purpose of program

The purpose of the program established by section 8272 of this title is to—

1. accelerate the growth of a commercially viable and competitive industry to make photovoltaic solar electric systems available to the general public as an option in order to reduce national consumption of fossil fuel;

2. reduce fossil fuel costs to the Federal Government;

3. stimulate the general use within the Federal Government of methods for the minimization of life cycle costs; and

4. develop performance data on the program established by section 8272 of this title.

§ 8274. Acquisition of systems

The program established by section 8272 of this title shall provide for the acquisition of photovoltaic solar electric systems and associated storage capability by the Secretary for their use by Federal agencies, and for the acquisition of such systems and associated capability by Federal agencies for their own use in cases where the authority to make such acquisition has been delegated to the agency involved by the Secretary. The acquisition of photovoltaic solar electric systems shall be at an annual level substantial enough to allow use of low-cost production techniques by suppliers of such systems. The Secretary (or other Federal agency acting under delegation from the Secretary) is authorized to make such acquisitions through the use of multiyear contracts. Authority under this part to enter into acquisition contracts shall be only to the extent as may be provided in advance in appropriation Acts.

§ 8275. Administration

The Secretary shall administer the program established under section 8272 of this title and shall—

1. consult with the Secretary of Defense to insure that the installation and purchase of photovoltaic solar electric systems pursuant to this part shall not interfere with defense-related activities;

2. prescribe such requirements as may be appropriate to monitor and assess the performance and operation of photovoltaic electric systems installed pursuant to this part; and

3. report annually to the Congress on the status of the program.

Notwithstanding any other provision of law, the Secretary shall not be subject to the requirements of section 553 of title 5, in the performance of his functions under this part.

§ 8276. System evaluation and purchase program

(a) Program

The Secretary shall establish, within 60 days after November 9, 1978, a photovoltaic systems evaluation and purchase program to provide such systems as are required by the Federal agencies to carry out this part. In acquiring photovoltaic solar electric systems under this part, the Secretary (or other Federal agency acting under delegation from the Secretary) shall insure that such systems reflect to the maximum extent practicable the most advanced and reliable technologies and shall schedule purchases in a manner which will stimulate the early development of a permanent low-cost private photovoltaic production capability in the United States, and to stimulate the private sector market for photovoltaic power systems. The Secretary and other Federal agencies acting under delegation from the Secretary shall, subject to the availability of appropriated funds, procure not more than 30 megawatts of photovoltaic solar electric systems during fiscal years ending September 30, 1979, September 30, 1980, and September 30, 1981.

(b) Other procurement

Nothing in this part shall preclude any Federal agency from directly procuring a photovoltaic solar electric system (in lieu of obtaining one under the program under subsection (a) of this section), except that any such Federal agency shall consult with the Secretary before procuring such a system.

§ 8277. Advisory committee

(a) Establishment

There is hereby established an advisory committee to assist the Secretary in the establishment and conduct of the programs established under this part.

(b) Membership

Such committee shall be composed of the Secretary of Defense, the Secretary of Housing and
Urban Development, the Administrator of the National Aeronautics and Space Administration, the Administrator of the General Services Administration, the Secretary of Transportation, the Administrator of the Small Business Administration, the chairman of the Federal Trade Commission, the Postmaster General, and such other persons as the Secretary deems necessary. The Secretary shall appoint such other nongovernmental persons to the extent necessary to assure that the membership of the committee will be fairly balanced in terms of the point of view represented and the functions to be performed by the committee.

(c) Termination

The advisory committee shall terminate October 1, 1981.

§ 8278. Authorization of appropriations

For the purposes of this part, there is authorized to be appropriated to the Secretary not to exceed $98,000,000 for the period beginning October 1, 1978, and ending September 30, 1981.

PART D—PEAK DEMAND REDUCTION

§ 8279. National Action Plan for Demand Response

(a) National Assessment and report

The Federal Energy Regulatory Commission (“Commission”) shall conduct a National Assessment of Demand Response. The Commission shall, within 18 months of December 19, 2007, submit a report to Congress that includes each of the following:

(1) Estimation of nationwide demand response potential in 5 and 10 year horizons, including data on a State-by-State basis, and a methodology for updates of such estimates on an annual basis.

(2) Estimation of how much of this potential can be achieved within 5 and 10 years after December 19, 2007, accompanied by specific policy recommendations that if implemented can achieve the estimated potential. Such recommendations shall include options for funding and/or incentives for the development of demand response resources.

(3) The Commission shall further note any barriers to demand response programs offering flexible, non-discriminatory, and fairly compensatory terms for the services and benefits made available, and shall provide recommendations for overcoming such barriers.

(4) The Commission shall seek to take advantage of preexisting research and ongoing work, and shall insure that there is no duplication of effort.

(b) National Action Plan on Demand Response

The Commission shall further develop a National Action Plan on Demand Response, soliciting and accepting input and participation from a broad range of industry stakeholders, State regulatory utility commissioners, and non-governamental groups. The Commission shall seek consensus where possible, and decide on optimum solutions to issues that defy consensus. Such Plan shall be completed within 1 year after the completion of the National Assessment of Demand Response, and shall meet each of the following objectives:

(1) Identification of requirements for technical assistance to States to allow them to maximize the amount of demand response resources that can be developed and deployed.

(2) Design and identification of requirements for implementation of a national communications program that includes broad-based customer education and support.

(3) Development or identification of analytical tools, information, model regulatory provisions, model contracts, and other support materials for use by customers, States, utilities and demand response providers.

(c) Implementation of Plan

Upon completion, the National Action Plan on Demand Response shall be published, together with any favorable and dissenting comments submitted by participants in its preparation. Six months after publication, the Commission, together with the Secretary of Energy, shall submit to Congress a proposal to implement the Action Plan, including specific proposed assignments of responsibility, proposed budget amounts, and any agreements secured for participation from State and other participants.

(d) Authorization

There are authorized to be appropriated to the Commission to carry out this section not more than $10,000,000 for each of the fiscal years 2008, 2009, and 2010.

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1624 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

SUBCHAPTER IV—ENERGY CONSERVATION FOR COMMERCIAL BUILDINGS AND MULTIFAMILY DWELLINGS

PART A—GENERAL PROVISIONS

Section 8281, Pub. L. 95–619, title VII, §710, as added Pub. L. 96–294, title V, §565, June 30, 1980, 94 Stat. 752, provided that definitions in section 8211 of this title apply to this subchapter and defined additional terms.

Section 8281a, Pub. L. 95–619, title VII, §711, as added Pub. L. 96–294, title V, §565, June 30, 1980, 94 Stat. 754, provided that this subchapter apply to any public utility for which coverage is provided under section 8212 of this title.

DEMONSTRATION PROJECTS FOR ENERGY EFFICIENCY IN COMMERCIAL BUILDINGS

using funds appropriated for energy conservation activities of the Department of Energy, carry out demonstration projects by sharing the cost of the construction and development by nongovernmental entities of facilities which demonstrate innovative technologies for utility applications that increase energy efficiency in commercial buildings."

PART B—ENERGY CONSERVATION PLANS

AUTHORITY TO CONTINUE CERTAIN STATE ENERGY CONSERVATION PLANS

Pub. L. 99–412, title II, § 201(c), Aug. 28, 1986, 100 Stat. 943, provided that: “Notwithstanding subsection (a) [repealing this subchapter], any State energy conservation plan for commercial buildings and multifamily dwellings approved under section 721 of the National Energy Conservation Policy Act (42 U.S.C. 8222) before August 1, 1984, may, with respect to regulated utilities, continue in effect until January 1, 1990.”

PART C—UTILITY PROGRAMS

PART D—FEDERAL IMPLEMENTATION

SUBCHAPTER V—ENERGY AUDITOR TRAINING AND CERTIFICATION

CODIFICATION

This subchapter was enacted as part of the Energy Security Act, and not as part of the National Energy Conservation Policy Act which comprises this chapter.

§ 8285. Purpose

It is the purpose of this subchapter to encourage the training and certification of individuals to conduct energy audits for residential and commercial buildings in order to serve the various private and public needs of the Nation for energy audits.

§ 8285a. Definitions

For the purposes of this subchapter—

(1) the term “Governor” means the chief executive officer of each State, including the Mayor of the District of Columbia;

(2) the term “State” means any of the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Northern Mariana Islands;

(3) the term “energy audit” means an inspection as described in section 8216(b)(1)(A) of this title, or an energy audit as defined in section 8216(b)(7) of this title, which in addition may provide information on the utilization of renewable resources and may make energy-related improvements in the building; and

(4) the term “Secretary” means the Secretary of Energy.

REFERENCES IN TEXT

Section 8216 of this title, referred to in par. (3), was omitted from the Code pursuant to section 8229 of this title, which terminated authority under that section June 30, 1989.

§ 8285b. Grants

(a) The Secretary may make grants to any Governor of a State for the training and certification of individuals to conduct energy audits.

(b) Before making a grant under subsection (a) of this section to a Governor, the Secretary must receive from the Governor an application containing—

(A) any information which the Secretary deems is necessary to carry out this subchapter; and

(B) an assurance that the grant will supplement and not supplant other funds available for such training and certification and will be used to increase the total amount of funds available for such training and certification.

(c)(1) Before making any grant under subsection (a) of this section the Secretary shall establish minimum standards for the training and certification of individuals to conduct energy audits.

(2) The Secretary shall require each Governor receiving any grant under this subchapter to agree to meet the standards established pursuant to paragraph (1) in any training and certification conducted using funds provided under this subchapter.

§ 8285c. Authorization of appropriations

(a) To carry out this subchapter there is authorized to be appropriated the sum of $10,000,000 for the fiscal year ending on September 30, 1981, and the sum of $15,000,000 for the fiscal year ending on September 30, 1982.

1 See References in Text note below.
§ 8286. Consensus on factors and data for energy conservation standards

The Secretary of Energy shall assure that within 6 months after June 30, 1980, the Secretary of Energy, the Secretary of Housing and Urban Development, the Secretary of Agriculture, the Secretary of Health and Human Services, the Secretary of Defense, the Administrator of the General Services Administration, and the head of any other agency responsible for developing energy conservation standards for new or existing residential, commercial, or agricultural buildings shall reach a consensus regarding factors and data used to develop such standards. This consensus shall apply to, but not be limited to—

(1) fuel price projections;
(2) discount rates;
(3) inflation rates;
(4) climatic conditions and zones; and
(5) the cost and energy saving characteristics of construction materials.

§ 8286a. Use of factors and data

Factors and data consented to pursuant to section 8286 of this title may be revised and agreed to by a consensus of the heads of the various Federal agencies involved. Such factors and data shall be used by all Federal agencies in establishing and revising various energy conservation standards used by such agencies, except that other factors and data may be used with respect to the standards applicable to any program if—

(1) the other factors and data are approved by the Secretary of Energy solely on the basis that such other factors and data are critical to meet the unique needs of the program concerned;
(2) using the consented to factors and data would cause a violation of an express provision of law; or
(3) statutory requirements or responsibilities require a modification of the consented to factors and data.

§ 8286b. Omitted

CODIFICATION

Section, Pub. L. 96–294, title V, § 597, June 30, 1980, 94 Stat. 762, which required the President (who delegated the duty to the Secretary of Energy by Memorandum of June 23, 1993, 58 F.R. 34519) to report annually to Congress on activities carried out under this subchapter and on other efforts to coordinate Federal energy conservation programs, terminated, effective May 15, 2000, pursuant to section 3003 of Pub. L. 104–66, as amended, set out as a note under section 1113 of Title 31, Money and Finance. See, also, the 15th item on page 19 of House Document No. 103–7.

SUBCHAPTER VII—ENERGY SAVINGS PERFORMANCE CONTRACTS

§ 8287. Authority to enter into contracts

(a) In general

(1) The head of a Federal agency may enter into contracts under this subchapter solely for the purpose of achieving energy savings and benefits ancillary to that purpose. Each such contract may, notwithstanding any other provision of law, be for a period not to exceed 25 years. Such contract shall provide that the contractor shall incur costs of implementing energy savings measures, including at least the costs (if any) incurred in making energy audits, acquiring and installing equipment, and training personnel, in exchange for a share of any energy savings directly resulting from implementation of such measures during the term of the contract.

(2)(A) Contracts under this subchapter shall be energy savings performance contracts and shall require an annual energy audit and specify the terms and conditions of any Government payments and performance guarantees. Any such performance guarantee shall provide that the contractor is responsible for maintenance and repair services for any energy related equipment, including computer software systems.

(B) Aggregate annual payments by an agency to both utilities and energy savings performance contractors, under an energy savings performance contract, may not exceed the amount that the agency would have paid for utilities without an energy savings performance contract (as estimated through the procedures developed pursuant to this section) during contract years. The contract shall provide for a guarantee of savings to the agency, and shall establish payment schedules reflecting such guarantee, taking into account any capital costs under the contract.

(C) Federal agencies may incur obligations pursuant to such contracts to finance energy conservation measures provided guaranteed savings exceed the debt service requirements.

(D) A Federal agency may enter into a multi-year contract under this subchapter for a period not to exceed 25 years beginning on the date of the delivery order, without funding of cancellation charges before cancellation, if—

(i) such contract was awarded in a competitive manner pursuant to subsection (b)(2) of this section, using procedures and methods established under this subchapter;

(ii) funds are available and adequate for payment of the costs of such contract for the first fiscal year; and

(iii) such contract is governed by part 17.1 of the Federal Acquisition Regulation promulgated under section 1303 of title 41 or the applicable rules promulgated under this subchapter.
§ 8287

(E) **Funding options.**—In carrying out a contract under this subchapter, a Federal agency may use any combination of—

(i) appropriated funds; and

(ii) private financing under an energy savings performance contract.

(F) **Promotion of contracts.**—In carrying out this section, a Federal agency shall not—

(i) establish a Federal agency policy that limits the maximum contract term under subparagraph (D) to a period shorter than 25 years; or

(ii) limit the total amount of obligations under energy savings performance contracts or other private financing of energy savings measures.

(G) **Measurement and verification requirements for private financing.**—

(i) **In general.**—In the case of energy savings performance contracts, the evaluations and savings measurement and verification required under paragraphs (2) and (4) of section 8253(f) of this title shall be used by a Federal agency to meet the requirements for the need for energy audits, calculation of energy savings, and any other evaluation of costs and savings needed to implement the guarantee of savings under this section.

(ii) **Modification of existing contracts.**—

**Implementation**

(1)(A) The Secretary, with the concurrence of the Federal Acquisition Regulatory Council established under section 1302(a) of title 41, not later than 180 days after October 24, 1992, shall, by rule, establish appropriate procedures and methods for use by Federal agencies to select, monitor, and terminate contracts with energy service contractors in accordance with laws governing Federal procurement that will achieve the intent of this section in a cost-effective manner. In developing such procedures and methods, the Secretary, with the concurrence of the Federal Acquisition Regulatory Council, shall determine which existing regulations are inconsistent with the intent of this section and shall formulate substitute regulations consistent with laws governing Federal procurement.

(B) The procedures and methods established pursuant to subparagraph (A) shall be the procedures and contracting methods for selection, by an agency, of a contractor to provide energy savings performance services. Such procedures and methods shall provide for the calculation of energy savings based on sound engineering and financial practices.

(2) The procedures and methods established pursuant to paragraph (1)(A) shall—

(A) allow the Secretary to—

(i) request statements of qualifications, which shall, at a minimum, include prior experience and capabilities of contractors to perform the proposed types of energy savings services and financial and performance information, from firms engaged in providing energy savings services; and

(ii) from the statements received, designate and prepare a list, with an update at least annually, of those firms that are qualified to provide energy savings services;

(B) require each agency to use the list prepared by the Secretary pursuant to subparagraph (A)(ii) unless the agency elects to develop an agency list of firms qualified to provide energy savings performance services using the same selection procedures and methods as are required of the Secretary in preparing such lists; and

(C) allow the head of each agency to—

(i) select firms from the list prepared pursuant to subparagraph (A)(ii) or the list prepared by the agency pursuant to subparagraph (B) to conduct discussions concerning a particular proposed energy savings project, including requesting a technical and price proposal from such selected firms for such project;

(ii) select from such firms the most qualified firm to provide energy savings services based on technical and price proposals and any other relevant information;

(iii) permit receipt of unsolicited proposals for energy savings performance contracting services from a firm that such agency has determined is qualified to provide such services under the procedures established pursuant to paragraph (1)(A), and require agency facility managers to place a notice in the Commerce Business Daily announcing they have received such a proposal and invite other similarly qualified firms to submit competing proposals; and

(iv) enter into an energy savings performance contract with a firm qualified under clause (iii), consistent with the procedures and methods established pursuant to paragraph (1)(A).

(3) A firm not designated as qualified to provide energy savings services under paragraph (2)(A)(i) or paragraph (2)(B) may request a review of such decision to be conducted in accordance with procedures to be developed by the board of contract appeals of the General Services Administration.

(c) **Task or delivery orders**

(1) The head of a Federal agency may issue a task or delivery order under an energy savings performance contract by—

(A) notifying all contractors that have received an award under such contract that the agency proposes to discuss energy savings performance services for some or all of its facilities and, following a reasonable period of time to provide a proposal in response to the notice, soliciting from such contractors the submission of expressions of interest in, and contractor qualifications for, performing site surveys or investigations and feasibility designs and studies, and including in the notice summary information concerning energy use for any fa-
ilities that the agency has specific interest in including in such task or delivery order; 
(B) reviewing all expressions of interest and qualifications submitted pursuant to the notice under subparagraph (A); 
(C) selecting two or more contractors (from among those reviewed under subparagraph (B)) to conduct discussions concerning the contractors’ respective qualifications to implement potential energy conservation measures, including— 
(i) requesting references and specific detailed examples with respect to similar efforts and the resulting energy savings of such similar efforts; and 
(ii) requesting an explanation of how such similar efforts relate to the scope and content of the task or delivery order concerned; 
(D) selecting and authorizing— 
(i) more than one contractor (from among those selected under subparagraph (C)) to conduct site surveys, investigations, feasibility designs and studies, or similar assessments for the energy savings performance contract services (or for discrete portions of such services), for the purpose of allowing each such contractor to submit a firm, fixed-price proposal to implement specific energy conservation measures; or 
(ii) one contractor (from among those selected under subparagraph (C)) to conduct a site survey, investigation, feasibility design and study, or similar assessment for the purpose of allowing the contractor to submit a firm, fixed-price proposal to implement specific energy conservation measures; 
(E) providing a debriefing to any contractor not selected under subparagraph (D); 
(F) negotiating a task or delivery order for energy savings performance contracting services with the contractor or contractors selected under subparagraph (D) based on the energy conservation measures identified; and 
(G) issuing a task or delivery order for energy savings performance contracting services to such contractor or contractors. 
(2) The issuance of a task or delivery order for energy savings performance contracting services pursuant to paragraph (1) is deemed to satisfy the task and delivery order competition requirements in section 2304c(d) of title 10 and section 4106(d) of title 41. 
(3) The Secretary may issue guidance as necessary to agencies issuing task or delivery orders pursuant to paragraph (1). 

References in Text

Codification

The following substitutions were made on authority of Pub. L. 111–350, §6(c), Jan. 4, 2011, 124 Stat. 3854, which Act enacted Title 41, Public Contracts:

In subsec. (b)(1)(A), “section 1302(a) of title 41” substituted for “section 25(a) of the Office of Federal Procurement Policy Act”.

In subsec. (c)(2), “section 4106(d) of title 41” substituted for “section 303(d) of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 253(d))”.

Amendments

Subsec. (a)(2)(D)(iii), Pub. L. 110–140, §511(a), redesignated cl. (iv) as (iii) and struck out former cl. (iii) which read as follows: “30 days before the award of any such contract that contains a clause setting forth a cancellation ceiling in excess of $10,000,000, the head of such agency gives written notification of such proposed contract and of the proposed cancellation ceiling for such contract to the appropriate authorizing and appropriating committees of the Congress and—”

Subsec. (a)(2)(F), (G). Pub. L. 110–140, §513(2), added subpars. (F) and (G).

Text read as follows: “The authority to enter into new contracts under this section shall cease to be effective on October 1, 2016.”

1998—Subsec. (c). Pub. L. 105–388 substituted “on October 1, 2003” for “five years after the date procedures and methods are established under subsection (b) of this section”.  

1996—Subsec. (b)(3). Pub. L. 104–106 struck out at end “Procedures developed by the board of contract appeals under this paragraph shall be substantially equivalent to procedures established under section 179(f) of title 40.”

Subsec. (c). Pub. L. 104–316 struck out par. (1) designation before “The authority to” and struck out par. (2) which required Comptroller General of the United States to report annually for five years on implementation of this section, including an assessment of various energy issues.

1992—Pub. L. 102–486 inserted subsec. (a) designation and heading, designated existing provisions as par. (1), and added par. (2) and subsecs. (b) and (c).

Effective Date of 2011 Amendment

Effective Date of 2007 Amendment
Amendment by Pub. L. 110–140 effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as an Effective Date note under section 1824 of Title 2, The Congress.

Effective Date of 1996 Amendment

Architect of the Capitol as Agency Electing To Develop List of Firms Qualified To Provide Energy Saving Services and as Agency Head Selecting From List

Review
Pub. L. 108–375, div. A, title X, §1090(f), Oct. 28, 2004, 118 Stat. 2068, provided that: "Not later than 180 days after the date of enactment of this Act [Oct. 28, 2004], the Secretary of Energy shall prepare a review of the Energy Savings Performance Contract program to identify statutory, regulatory, and administrative obstacles that prevent Federal agencies from fully utilizing the program. In addition, this review shall identify all areas for increasing program flexibility and effectiveness, including audit and measurement verification requirements, accounting for energy use in determining savings, contracting requirements, including the identification of additional qualified contractors, and energy efficiency services covered. The Secretary shall report these findings to Congress and shall implement identified administrative and regulatory changes to increase program flexibility and effectiveness to the extent that such changes are consistent with statutory authority."

Extension of Authority
Pub. L. 109–58, div. A, title I, §105(b), Aug. 8, 2005, 119 Stat. 611, provided that: "Any energy savings performance contract entered into under section 801 of the National Energy Conservation Policy Act (42 U.S.C. 8287) after October 1, 2003, and before the date of enactment of this Act [Aug. 8, 2005], shall be considered to have been entered into under that section." Pub. L. 108–375, div. A, title X, §1090(g), Oct. 28, 2004, 118 Stat. 2068, provided that: "Any energy savings performance contract entered into under section 801 of the National Energy Conservation Policy Act (42 U.S.C. 8287) after October 1, 2003, and before the date of enactment of this Act [Oct. 28, 2004], shall be deemed to have been entered into pursuant to such section 801 as amended by subsection (a) of this section."

Energy Efficiency Incentive

(a) Energy Conservation Incentive.—In order to provide additional incentive for the Secretary of a military department to enter into contracts under title VIII of the National Energy Conservation Policy Act (42 U.S.C. 8287 et seq.), the Secretary may use the energy cost savings realized by the United States during the first five years under any such contract in the manner provided in subsection (b). The amount of savings available for use under subsection (b) shall be determined as provided in subsection (c) and shall remain available for obligation until expended. (106 Stat. 1026, see 106, set out as follows:

"(1) One-half of the amount of such savings may be used for the acquisition of energy conserving measures for military installations, and such measures may be in addition to any such energy conserving measures acquired for military installations under contracts entered into under title VIII of the National Energy Conservation Policy Act.

(2) One-half of the amount of such savings may be used for any morale, welfare, or recreation facility or service that is normally provided with appropriated funds, or for any minor military construction project (as defined in section 2605(a) of title 10, United States Code, that will enhance the quality of life of members of the Armed Forces at the military installation at which the energy cost savings were realized.

(c) Determination of Amount of Savings.—Not more than 90 days after the end of each of the first five years during which energy savings measures have been in operation under a contract entered into by the Secretary of a military department under title VIII of the National Energy Conservation Policy Act, the Secretary of the military department concerned shall determine the amount of energy cost savings realized by the United States under the terms of the contract during that year by reason of the energy savings measures acquired and installed at that installation pursuant to that contract."

§ 8287a. Payment of Costs
Any amount paid by a Federal agency pursuant to any contract entered into under this subchapter may be paid only from funds appropriated or otherwise made available to the agency for fiscal year 1986 or any fiscal year thereafter for the payment of energy, water, or wastewater treatment expenses (and related operation and maintenance expenses).

Amendments
2004—Pub. L. 108–375 inserted " water, or wastewater treatment" after "payment of energy".

§ 8287b. Reports
Each Federal agency shall periodically furnish the Secretary of Energy with full and complete information on its activities under this subchapter, and the Secretary shall include in the report submitted to Congress under section 8260 of this title a description of the progress made by each Federal agency in—

(1) including the authority provided by this subchapter in its contracting practices; and

(2) achieving energy savings under contracts entered into under this subchapter.

References in Text
Section 8260 of this title, referred to in text, was omitted in the general revision of part B (§8251 et seq.) of subchapter III of this chapter by Pub. L. 100–615, §2(a), Nov. 5, 1988, 102 Stat. 3183.

§ 8287c. Definitions
For purposes of this subchapter, the following definitions apply:

1 See References in Text note below.
(1) The term “Federal agency” means each authority of the Government of the United States, whether or not it is within or subject to review by another agency.

(2) The term ‘‘energy savings’’ means—

(A) a reduction in the cost of energy, water, or wastewater treatment, from a base cost established through a methodology set forth in the contract, used in an existing federally owned building or buildings or other federally owned facilities as a result of—

(i) the lease or purchase of operating equipment, improvements, altered operation and maintenance, or technical services;

(ii) the increased efficient use of existing energy sources by cogeneration or heat recovery, excluding any cogeneration process for other than a federally owned building or buildings or other federally owned facilities; or

(iii) the increased efficient use of existing water sources in either interior or exterior applications;

(B) the increased efficient use of an existing energy source by cogeneration or heat recovery;

(C) if otherwise authorized by Federal or State law (including regulations), the sale or transfer of electrical or thermal energy generated on-site from renewable energy sources or cogeneration, but in excess of Federal needs, to utilities or non-Federal energy users; and

(D) the increased efficient use of existing water sources in interior or exterior applications.

(3) The terms ‘‘energy savings contract’’ and ‘‘energy savings performance contract’’ mean a contract that provides for the performance of services for the design, acquisition, installation, testing, operation, and, where appropriate, maintenance and repair, of an identified energy conservation measure or series of measures at one or more locations. Such contracts shall, with respect to an agency facility that is a public building as such term is defined in section 8259 of this title; or

(a) an energy conservation measure, as defined in section 8259 of this title; or

(b) a water conservation measure that improves the efficiency of water use, is lifecycle cost-effective, and involves water conservation, water recycling or reuse, more efficient treatment of wastewater or stormwater, improvements in operation or maintenance efficiencies, retrofit activities, or other related activities, not at a Federal hydroelectric facility.

(4) The term ‘‘energy or water conservation measure’’ means—

(A) an energy conservation measure, as defined in section 8259 of this title; or

(B) a water conservation measure that improves the efficiency of water use, is lifecycle cost-effective, and involves water conservation, water recycling or reuse, more efficient treatment of wastewater or stormwater, improvements in operation or maintenance efficiencies, retrofit activities, or other related activities, not at a Federal hydroelectric facility.

2007—Par. (2). Pub. L. 110–140 substituted ‘‘means—’’ for ‘‘means’’ in introductory provisions, inserted subpar. (A) designation before ‘‘a reduction’’, redesignated former subpars. (A) to (C) as clss. (i) to (iii) of subpar. (A), respectively, and added subpars. (B) to (D).

2004—Par. (2). Pub. L. 108–375, §1090(c), amended par. (2) generally. Prior to amendment, par. (2) read as follows: ‘‘The terms ‘energy savings contract’ and ‘energy savings performance contract’ mean a contract which provides for the performance of services for the design, acquisition, installation, testing, operation, and, where appropriate, maintenance and repair, of an identified energy conservation measure or series of measures at one or more locations. Such contracts—

(A) may provide for appropriate software licensing agreements; and

(B) shall, with respect to an agency facility that is a public building as such term is defined in section 13(1) of the Public Buildings Act of 1959 (40 U.S.C. 612(1)), be in compliance with the prospectus requirements and procedures of section 7 of the Public Buildings Act of 1959 (40 U.S.C. 606).’’

Par. (3). Pub. L. 108–375, §1090(e), amended par. (4) generally. Prior to amendment, par. (4) read as follows: ‘‘The term ‘energy conservation measures’ has the meaning given such term in section 8259(4) of this title.’’

1999—Par. (1). Pub. L. 105–388 amended par. (1) generally. Prior to amendment, par. (1) read as follows: ‘‘The term ‘Federal agency’ means an agency defined in section 551(1) of title 5.’’

1992—Pub. L. 102–486, §155(b)(1), substituted ‘‘subchapter, the following definitions apply,’’ for ‘‘subchapter—’’ in introductory provisions

Par. (1). Pub. L. 102–486, §155(b)(2), substituted ‘‘The’’ for ‘‘the’’ and a period for ‘‘, and’’ at end.

Par. (2). Pub. L. 102–486, §155(b)(3), substituted ‘‘The term’’ for ‘‘the term’’.

Par. (3). Pub. L. 102–486, §155(b)(4), added pars. (3) and (4).

Effective Date of 2007 Amendment

Amendment by Pub. L. 110–140 effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as an Effective Date note under section 1823 of Title 2, The Congress.

§8287d. Assistance to Federal agencies in achieving energy efficiency in Federal facilities and operations

The Secretary in fiscal year 1999 and thereafter, shall continue the process begun in fiscal year 1998 of accepting funds from other Federal agencies in return for assisting agencies in achieving energy efficiency in Federal facilities and operations by the use of privately financed, energy savings performance contracts and other private financing mechanisms. The funds may be provided after agencies begin to realize energy cost savings; may be retained by the Secretary until expended; and may be used only for
the purpose of assisting Federal agencies in achieving greater efficiency, water conservation and use of renewable energy by means of privately financed mechanisms, including energy savings performance contracts and utility incentive programs. These recovered funds will continue to be used to administer even greater energy efficiency, water conservation and use of renewable energy by means of privately financed mechanisms such as utility efficiency service contracts and energy savings performance contracts. The recoverable funds will be used for all necessary program expenses, including contractor support and resources needed, to achieve overall Federal energy management program objectives for greater energy savings. Any such privately financed contracts shall meet the provisions of the Energy Policy Act of 1992, Public Law 102–486 regarding energy savings performance contracts and utility incentive programs.

8303. Territorial application.

SUBCHAPTER II—NEW FACILITIES

PART A—PROHIBITIONS

8311. Coal capability of new electric powerplants; certification of compliance.
8312. Repealed.

PART B—EXEMPTIONS

8321. Temporary exemptions.
8322. Permanent exemptions.
8323. General requirements for exemptions.
8324. Terms and conditions; compliance plans.

SUBCHAPTER III—EXISTING FACILITIES

PART A—PROHIBITIONS

8341. Existing electric powerplants.
8342. Repealed.
8343. Rules relating to case-by-case and category prohibitions.

PART B—EXEMPTIONS

8351. Temporary exemptions.

§ 8301

Findings; statement of purposes

(a) Findings

The Congress finds that—

(1) the protection of public health and welfare, the preservation of national security, and
