(D) No breakfast assistance payment may be made under this subsection for any breakfast served by a school unless such breakfast consists of a combination of foods which meet the minimum nutritional requirements prescribed by the Secretary under subsection (e) of this section.

(E) Free and reduced price policy statement—After the initial submission, a local educational agency shall not be required to submit a free and reduced price policy statement to a State educational agency under this chapter unless there is a substantive change in the free and reduced price policy of the local educational agency. A routine change in the policy of a local educational agency, such as an annual adjustment of the income eligibility guidelines for free and reduced price meals, shall not be sufficient cause for requiring the local educational agency to submit a policy statement.

(2)(A) The Secretary shall make additional payments for breakfasts served to children qualifying for a free or reduced price meal at schools that are in severe need.

(B) The maximum payment for each such free breakfast shall be the higher of—

(i) the national average payment established by the Secretary for free breakfasts plus 10 cents, or

(ii) 45 cents (as adjusted pursuant to section 1759a(a)(3)(B) of this title).

(C) The maximum payment for each such reduced price breakfast shall be thirty cents less than the maximum payment for each free breakfast as determined under clause (B) of this paragraph.

(3) The Secretary shall increase by 6 cents the annually adjusted payment for each breakfast served under this chapter and section 1766 of this title. These funds shall be used to assist States, to the extent feasible, in improving the nutritional quality of the breakfasts.

(4) Notwithstanding any other provision of law, whenever stocks of agricultural commodities are acquired by the Secretary or the Commodity Credit Corporation and are not likely to be sold by the Secretary or the Commodity Credit Corporation or otherwise used in programs of commodity sale or distribution, the Secretary shall make such commodities avail-
able to school food authorities and eligible institutions serving breakfasts under this chapter in a quantity equal in value to not less than 3 cents for each breakfast served under this chapter and section 1786 of this title.

(3) Expenditures of funds from State and local sources for the maintenance of the breakfast program shall not be diminished as a result of funds or commodities received under paragraph (3) or (4).

(c) Disbursement of apportioned funds by State; preference for schools in poor economic areas, for students traveling long distances daily, and for schools for improvement of nutrition and dietary practices of children of working mothers and from low-income families

Funds apportioned and paid to any State for the purpose of this section shall be disbursed by the State educational agency to schools selected by the State educational agency to assist such schools in operating a breakfast program and for the purpose of subsection (d) of this section. Disbursement to schools shall be made at such rates per meal or on such other basis as the Secretary shall prescribe. In selecting schools for participation, the State educational agency shall, to the extent practicable, give first consideration to those schools drawing attendance from areas in which poor economic conditions exist, to those schools in which a substantial proportion of the children enrolled must travel long distances daily, and to those schools in which there is a special need for improving the nutrition and dietary practices of children of working mothers and children from low-income families. Breakfast assistance disbursements to schools under this section may be made in advance or by way of reimbursement in accordance with procedures prescribed by the Secretary.

(d) Severe need assistance

(1) In general

Each State educational agency shall provide additional assistance to schools in severe need, which shall include only those schools (having a breakfast program or desiring to initiate a breakfast program) in which—

(A) during the most recent second preceding school year for which lunches were served, 40 percent or more of the lunches served to students at the school were served free or at a reduced price; or

(B) in the case of a school in which lunches were not served during the most recent second preceding school year, the Secretary otherwise determines that the requirements of subparagraph (A) would have been met.

(2) Additional assistance

A school, on the submission of appropriate documentation about the need circumstances in that school and the eligibility of the school for additional assistance, shall be entitled to receive the meal reimbursement rate specified in subsection (b)(2) of this section.

(e) Nutritional requirements; service free or at reduced price; compliance assistance

(1) Breakfasts served by schools participating in the school breakfast program under this section shall consist of a combination of foods and shall meet the minimum nutritional requirements prescribed by the Secretary on the basis of tested nutritional research, except that the minimum nutritional requirements shall be measured by not less than the weekly average of the nutrient content of school breakfasts. Such breakfasts shall be served free or at a reduced price to children in school under the same terms and conditions as are set forth with respect to the service of lunches free or at a reduced price in section 1758 of this title.

(B) The Secretary shall provide through State educational agencies technical assistance and training, including technical assistance and training in the preparation of foods high in complex carbohydrates and lower-fat versions of foods commonly used in the school breakfast program established under this section, to schools participating in the school breakfast program to assist the schools in complying with the nutritional requirements prescribed by the Secretary pursuant to subparagraph (A) and in providing appropriate meals to children with medically certified special dietary needs.

(2) At the option of a local school food authority, a student in a school under the authority that participates in the school breakfast program under this chapter may be allowed to refuse not more than one item of a breakfast that the student does not intend to consume. A refusal of an offered food item shall not affect the full charge to the student for a breakfast meeting the requirements of this section or the amount of payments made under this chapter to a school for the breakfast.

L. 94–105, set out as a note under section 1790 of this title.

§1786. Special supplemental nutrition program for women, infants, and children

(a) Congressional findings and declaration of purpose
Congress finds that substantial numbers of pregnant, postpartum, and breastfeeding women, infants, and young children from families with inadequate income are at special risk with respect to their physical and mental health by reason of inadequate nutrition or health care, or both. It is, therefore, the purpose of the program authorized by this section to provide, up to the authorization levels set forth in subsection (g) of this section, supplemental foods and nutrition education, including breastfeeding promotion and support, through any eligible local agency that applies for participation in the program. The program shall serve as an adjunct to good health care, during critical times of growth and development, to prevent the occurrence of health problems, including drug abuse, and improve the health status of these persons.

(7) “Nutrition education.”—The term “nutrition education” means individual and group sessions and the provision of material that are designed to improve health status and achieve positive change in dietary and physical activity habits, and that emphasize the relation-

State agencies may, with the approval of the Secretary, substitute different foods providing the nutritional equivalent of foods prescribed by the Secretary, to allow for different cultural eating patterns.

(15) "Homeless individual" means—

(A) an individual who lacks a fixed and regular nighttime residence; or

(B) an individual whose primary nighttime residence is—

(c) Grants-in-aid; cash grants; ratable reduction of amount an agency may distribute; affirmative action; regulations relating to dual receipt of benefits under commodity supplemental food program

(1) The Secretary may carry out a special supplemental nutrition program to assist State agencies through grants-in-aid and other means to provide, through local agencies, at no cost, supplemental foods, nutrition education, and
breastfeeding support and promotion to low-income pregnant, postpartum, and breastfeeding women, infants, and children who satisfy the eligibility requirements specified in subsection (d) of this section. The program shall be supplemental to—

(A) the supplemental nutrition assistance program;

(B) any program under which foods are distributed to needy families in lieu of supplemental nutrition assistance program benefits; and

(C) receipt of food or meals from soup kitchens, or shelters, or other forms of emergency food assistance.

(2) Subject to amounts appropriated to carry out this section under subsection (g) of this section—

(A) the Secretary shall make cash grants to State agencies for the purpose of administering the program, and

(B) any State agency approved eligible local agency that applies to participate in or expand the program under this section shall immediately be provided with the necessary funds to carry out the program.

(3) Nothing in this subsection shall be construed to permit the Secretary to reduce ratably the amount of foods that an eligible local agency shall distribute under the program to participants. The Secretary shall take affirmative action to ensure that the program is instituted in areas most in need of supplemental foods. The existence of a commodity supplemental food program under section 4 of the Agriculture and Consumer Protection Act of 1973 shall not preclude the approval of an application from an eligible local agency to participate in the program under this section nor the operation of such program within the same geographic area as that of the commodity supplemental food program, but the Secretary shall issue such regulations as are necessary to prevent dual receipt of benefits under the commodity supplemental food program and the program under this section.

(4) A State shall be ineligible to participate in programs authorized under this section if the Secretary determines that State or local sales taxes are collected within the State on purchases of food made to carry out this section.

(d) Eligible participants

(1) Participation in the program under this section shall be limited to pregnant, postpartum, and breastfeeding women, infants, and children from low-income families who are determined by a competent professional authority to be at nutritional risk.

(2)(A) The Secretary shall establish income eligibility standards to be used in conjunction with the nutritional risk criteria in determining eligibility of individuals for participation in the program. Any individual at nutritional risk shall be eligible for the program under this section only if such individual—

(i) is a member of a family with an income that is less than the maximum income limit prescribed under section 1738(b) of this title for free and reduced price meals;

(ii) receives supplemental nutrition assistance program benefits under the Food and Nutrition Act of 2008 [7 U.S.C. 2011 et seq.]; or

(ii) is a member of a family that receives assistance under the State program funded under part A of title IV of the Social Security Act [42 U.S.C. 601 et seq.] that the Secretary determines complies with standards established by the Secretary that ensure that the standards under the State program are comparable to or more restrictive than those in effect on June 1, 1995; or

(ii) receives medical assistance under title XIX of the Social Security Act [42 U.S.C. 1396 et seq.]; or

(ii) is a member of a family in which a pregnant woman or an infant receives such assistance.

(B) For the purpose of determining income eligibility under this section, any State agency may choose to exclude from income—

(i) any basic allowance—

(I) for housing received by military service personnel residing off military installations; or

(II) provided under section 403 of title 37 for housing that is acquired or constructed under subchapter IV of chapter 169 of title 10 or any related provision of law; and

(ii) any cost-of-living allowance provided under section 405 of title 37 to a member of a uniformed service who is on duty outside the contiguous States of the United States.

(C) COMBAT PAY.—For the purpose of determining income eligibility under this section, a State agency shall exclude from income any additional payment under chapter 5 of title 37, or otherwise designated by the Secretary to be appropriate for exclusion under this subparagraph, that is received by or from a member of the United States Armed Forces deployed to a designated combat zone, if the additional pay—

(i) is the result of deployment to or service in a combat zone; and

(ii) was not received immediately prior to serving in a combat zone.

(D) In the case of a pregnant woman who is otherwise ineligible for participation in the program because the family of the woman is of insufficient size to meet the income eligibility standards of the program, the pregnant woman shall be considered to have satisfied the income eligibility standards if, by increasing the number of individuals in the family of the woman by 1 individual, the income eligibility standards would be met.

(3) Certification.—

(A) Procedures.—

(i) IN GENERAL.—Subject to clause (ii), a person shall be certified for participation in accordance with general procedures prescribed by the Secretary.

(ii) BREASTFEEDING WOMEN.—A State may elect to certify a breastfeeding woman for a period of 1 year postpartum or until a woman discontinues breastfeeding, whichever is earlier.

(iii) CHILDREN.—A State may elect to certify participant children for a period of up to 1 year, if the State electing the option provided under this clause ensures that participant children receive required health and nutrition assessments.
(B) A State may consider pregnant women who meet the income eligibility standards to be presumptively eligible to participate in the program and may certify the women for participation immediately, without delaying certification until an evaluation is made concerning nutritional risk. A nutritional risk evaluation of such a woman shall be completed not later than 60 days after the woman is certified for participation. If it is subsequently determined that the woman does not meet nutritional risk criteria, the certification of the woman shall terminate on the date of the determination.

(C) PHYSICAL PRESENCE.—

(i) IN GENERAL.—Except as provided in clause (ii) and subject to the requirements of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and section 794 of title 29, each individual seeking certification or recertification for participation in the program shall be physically present at each certification or recertification determination in order to determine eligibility under the program.

(ii) WAIVERS.—If the agency determines that the requirement of clause (i) would present an unreasonable barrier to participation, a local agency may waive the requirement of clause (i) with respect to—

(I) an infant or child who—

(aa) was present at the initial certification visit; and

(bb) is receiving ongoing health care;

(II) an infant or child who—

(aa) was present at the initial certification visit;

(bb) was present at a certification or recertification determination within the 1-year period ending on the date of the certification or recertification determination described in clause (i); and

(cc) has one or more parents who work; and

(III) an infant under 8 weeks of age—

(aa) who cannot be present at certification for a reason determined appropriate by the local agency; and

(bb) for whom all necessary certification information is provided.

(D) INCOME DOCUMENTATION.—

(i) IN GENERAL.—Except as provided in clause (ii), in order to participate in the program pursuant to clause (i) of paragraph (2)(A), an individual seeking certification or recertification for participation in the program shall provide documentation of family income.

(ii) WAIVERS.—A State agency may waive the documentation requirement of clause (i), in accordance with criteria established by the Secretary, with respect to—

(I) an individual for whom the necessary documentation is not available; or

(II) an individual, such as a homeless woman or child, for whom the agency determines the requirement of clause (i) would present an unreasonable barrier to participation.

(E) ADJUNCT DOCUMENTATION.—In order to participate in the program pursuant to clause (ii) or (iii) of paragraph (2)(A), an individual seeking certification or recertification for participation in the program shall provide documentation of receipt of assistance described in that clause.

(F) PROOF OF RESIDENCY.—An individual residing in a remote Indian or Native village or an individual served by an Indian tribal organization and residing on a reservation or pueblo may, under standards established by the Secretary, establish proof of residency under this section by providing to the State agency the mailing address of the individual and the name of the remote Indian or Native village.

(e) Nutrition education and drug abuse education

(1) The State agency shall ensure that nutrition education and drug abuse education is provided to all pregnant, postpartum, and breastfeeding participants in the program and to parents or caretakers of infant and child participants in the program. The State agency may also provide nutrition education and drug abuse education to pregnant, postpartum, and breastfeeding women and to parents or caretakers of infants and children enrolled at local agencies operating the program under this section who do not participate in the program. A local agency participating in the program shall provide education or educational materials relating to the effects of drug and alcohol use by a pregnant, postpartum, or breastfeeding woman on the developing child of the woman.

(2) The Secretary shall prescribe standards to ensure that adequate nutrition education services and breastfeeding promotion and support are provided. The State agency shall provide training to persons providing nutrition education, including breastfeeding support and education, under this section.

(3) NUTRITION EDUCATION MATERIALS.—

(A) IN GENERAL.—The Secretary shall, after submitting proposed nutrition education materials to the Secretary of Health and Human Services for comment, issue such materials for use in the program under this section.

(B) SHARING OF MATERIALS WITH OTHER PROGRAMS.—

(i) COMMODITY SUPPLEMENTAL FOOD PROGRAM.—The Secretary may provide, in bulk quantity, nutrition education materials (including materials promoting breastfeeding) developed with funds made available for the program authorized under this section to State agencies administering the commodity supplemental food program established under section 5 of the Agriculture and Consumer Protection Act of 1973 (7 U.S.C. 612c note; Public Law 93–86) at no cost to that program.

(ii) CHILD AND ADULT CARE FOOD PROGRAM.—A State agency may allow the local agencies or clinics under the State agency to share nutrition educational materials with institutions participating in the child and adult care food program established under section 1766 of this title at no cost to that program, if a written materials sharing agreement exists between the relevant agencies.
(A) shall provide each local agency with materials showing the maximum income limits, according to family size, applicable to pregnant women, infants, and children up to age 5 under the medical assistance program established under title XIX of the Social Security Act [42 U.S.C. 1396 et seq.] (in this section referred to as the "medicaid program");

(B) shall provide to individuals applying for the program under this section, or reapplying at the end of their certification period, written information about the medicaid program and referral to such program or to agencies authorized to determine presumptive eligibility for such program, if such individuals are not participating in such program and appear to have family income below the applicable maximum income limits for such program; and

(C) may provide a local agency with materials describing other programs for which a participant in the program may be eligible.

(5) Each local agency shall maintain and make available for distribution a list of local resources for substance abuse counseling and treatment.

(f) Plan of operation and administration by State agency

(1)(A) Each State agency shall submit to the Secretary, by a date specified by the Secretary, an initial plan of operation and administration for a fiscal year. After submitting the initial plan, a State shall be required to submit to the Secretary for approval only a substantive change in the plan.

(B) To be eligible to receive funds under this section for a fiscal year, a State agency must receive the approval of the Secretary for the plan submitted for the fiscal year.

(C) The plan shall include—

(i) a description of the food delivery system of the State agency and the method of enrolling participants to receive supplemental foods under the program at any of the authorized retail stores under the program, to be administered in accordance with standards developed by the Secretary, including a description of the State agency’s vendor peer group system, competitive price criteria, and allowable reimbursement levels that demonstrate that the State is in compliance with the cost-containment provisions in subsection (h)(11) of this section;

(ii) procedures for accepting and processing vendor applications outside of the established timeframes if the State agency determines there will be inadequate access to the program, including in a case in which a previously authorized vendor sells a store under circumstances that do not permit timely notification to the State agency of the change in ownership;

(iii) a description of the financial management system of the State agency;

(iv) a plan to coordinate operations under the program with other services or programs that may benefit participants in, and applicants for, the program;

(v) a plan to provide program benefits under this section to, and to meet the special nutrition education needs of, eligible migrants, homeless individuals, and Indians;

(vi) a plan to expend funds to carry out the program during the relevant fiscal year;

(vii) a plan to provide program benefits under this section to unserved and underserved areas in the State (including a plan to improve access to the program for participants and prospective applicants who are employed, or who reside in rural areas), if sufficient funds are available to carry out this clause;

(viii) a plan for reaching and enrolling eligible women in the early months of pregnancy, including provisions to reach and enroll eligible migrants;

(ix) a plan to provide nutrition education and promote breastfeeding; and

(xi) such other information as the Secretary may reasonably require.

(D) The Secretary may not approve any plan that permits a person to participate simultaneously in both the program authorized under this section and the commodity supplemental food program authorized under sections 4 and 5 of the Agriculture and Consumer Protection Act of 1973 (7 U.S.C. 612c note).

(2) A State agency shall establish a procedure under which members of the general public are provided an opportunity to comment on the development of the State agency plan.

(3) The Secretary shall establish procedures under which eligible migrants may, to the maximum extent feasible, continue to participate in the program under this section when they are present in States other than the State in which they were originally certified for participation or who reside in rural areas), if sufficient funds are available to carry out this clause. Such accounts and records shall be necessary to enable the Secretary to determine whether there has been compliance with this section and to determine and evaluate the benefits of the nutritional assistance provided under this section. Such accounts and records shall be available at any reasonable time for inspection and audit by representatives of the Secretary and shall be preserved for such period of time, not in excess of five years, as the Secretary determines necessary.

(4) State agencies shall submit monthly financial reports and participation data to the Secretary.

(5) State and local agencies operating under the program shall keep such accounts and records, including medical records, as may be necessary to enable the Secretary to determine whether there has been compliance with this section and to determine and evaluate the benefits of the nutritional assistance provided under this section. Such accounts and records shall be available at any reasonable time for inspection and audit by representatives of the Secretary and shall be preserved for such period of time, not in excess of five years, as the Secretary determines necessary.

(6)(A) Local agencies participating in the program under this section shall notify persons of their eligibility or ineligibility for the program within twenty days of the date that the household, during office hours of a local agency, personally makes an oral or written request to par-
participate in the program. The Secretary shall establish a shorter notification period for categories of persons who, due to special nutritional risk conditions, must receive benefits more expeditiously.

(8) State agencies may provide for the delivery of vouchers to any participant who is not scheduled for nutrition education and breastfeeding counseling or a recertification interview through means, such as mailing, that do not require the participant to travel to the local agency to obtain vouchers. The State agency shall describe any plans for issuance of vouchers by mail in its plan submitted under paragraph (1). The Secretary may disapprove a State plan with respect to the issuance of vouchers by mail in any specified jurisdiction or part of a jurisdiction within a State only if the Secretary finds that such issuance would pose a significant threat to the integrity of the program under this section in such jurisdiction or part of a jurisdiction.

(7)(A) The State agency shall, in cooperation with participating local agencies, publicly announce and distribute information on the availability of program benefits (including the eligibility criteria for participation and the location of local agencies operating the program) to offices and organizations that deal with significant numbers of potentially eligible individuals (including health and medical organizations, hospitals and clinics, welfare and unemployment offices, social service agencies, farmworker organizations, Indian tribal organizations, organizations and agencies serving homeless individuals and shelters for victims of domestic violence, and religious and community organizations in low income areas).

(B) The information shall be publicly announced by the State agency and by local agencies at least annually.

(C) The State agency and local agencies shall distribute the information in a manner designed to provide the information to potentially eligible individuals who are most in need of the benefits, including pregnant women in the early months of pregnancy.

(D) Each local agency operating the program within a hospital and each local agency operating the program that has a cooperative arrangement with a hospital shall—

(i) advise potentially eligible individuals that receive inpatient or outpatient prenatal, maternity, or postpartum services, or accompany a child under the age of 5 who receives well-child services, of the availability of program benefits; and

(ii) to the extent feasible, provide an opportunity for individuals who may be eligible to be certified within the hospital for participation in such program.

(8)(A) The State agency shall grant a fair hearing, and a prompt determination thereafter, in accordance with regulations issued by the Secretary, to any applicant, participant, or local agency aggrieved by the action of a State or local agency as it affects participation.

(B) Any State agency that must suspend or terminate benefits to any participant during the participant’s certification period due to a shortage of funds for the program shall first issue a notice to such participant.

(9) If an individual certified as eligible for participation in the program under this section in one area moves to another area in which the program is operating, that individual’s certification of eligibility shall remain valid for the period for which the individual was originally certified.

(10) The Secretary shall establish standards for the proper, efficient, and effective administration of the program. If the Secretary determines that a State agency has failed without good cause to administer the program in a manner consistent with this section or to implement the approved plan of operation and administration under this subsection, the Secretary may withhold such amounts of the State agency’s funds for nutrition services and administration as the Secretary deems appropriate. Upon correction of such failure during a fiscal year by a State agency, any funds so withheld for such fiscal year shall be provided the State agency.

(11) SUPPLEMENTAL FOODS.—

(A) IN GENERAL.—The Secretary shall prescribe by regulation the supplemental foods to be made available in the program under this section.

(B) APPROPRIATE CONTENT.—To the degree possible, the Secretary shall assure that the fat, sugar, and salt content of the prescribed foods is appropriate.

(C) REVIEW OF AVAILABLE SUPPLEMENTAL FOODS.—As frequently as determined by the Secretary to be necessary to reflect the most recent scientific knowledge, but not less than every 10 years, the Secretary shall—

(i) conduct a scientific review of the supplemental foods available under the program; and

(ii) amend the supplemental foods available, as necessary, to reflect nutrition science, public health concerns, and cultural eating patterns.

(12) A competent professional authority shall be responsible for prescribing the appropriate supplemental foods, taking into account medical and nutritional conditions and cultural eating patterns, and, in the case of homeless individuals, the special needs and problems of such individuals.

(13) The Secretary may (A) provide nutrition education, breastfeeding promotion, and drug abuse education materials and instruction in languages other than English and (B) use appropriate foreign language materials in the administration of the program, in areas in which a substantial number of low-income households speak a language other than English.

(14) If a State agency determines that a member of a family has received an overissuance of food benefits under the program authorized by this section as the result of such member intentionally making a false or misleading statement or intentionally misrepresenting, concealing, or withholding facts, the State agency shall recover, in cash, from such member an amount that the State agency determines is equal to the value of the overissued food benefits, unless the State agency determines that the recovery of the benefits would not be cost effective.

(15) To be eligible to participate in the program authorized by this section, a manufacturer
of infant formula that supplies formula for the program shall—

(A) register with the Secretary of Health and Human Services under the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.); and

(B) before bidding for a State contract to supply infant formula for the program, certify with the State health department that the formula complies with such Act and regulations issued pursuant to such Act.

(16) The State agency may adopt methods of delivering benefits to accommodate the special needs and problems of homeless individuals.

(17) Notwithstanding subsection (d)(2)(A)(i) of this section, not later than July 1 of each year, a State agency may implement income eligibility guidelines under this section concurrently with the implementation of income eligibility guidelines under the medicare program established under title XIX of the Social Security Act (42 U.S.C. 1396 et seq.).

(18) Each local agency participating in the program under this section may provide information about other potential sources of food assistance in the local area to individuals who apply in person to participate in the program under this section, but who cannot be served because the program is operating at capacity in the local area.

(19) The State agency shall adopt policies that—

(A) require each local agency to attempt to contact each pregnant woman who misses an appointment to apply for participation in the program under this section, in order to reschedule the appointment, unless the phone number and the address of the woman are unavailable to such local agency; and

(B) in the case of local agencies that do not routinely schedule appointments for individuals seeking to apply or be recertified for participation in the program under this section, require each such local agency to schedule appointments for each employed individual seeking to apply or be recertified for participation in such program so as to minimize the time each such individual is absent from the workplace due to such application or request for recertification.

(20) Each State agency shall conduct monitoring reviews of each local agency at least biennially.

(21) USE OF CLAIMS FROM LOCAL AGENCIES, VENDORS, AND PARTICIPANTS.—A State agency may use funds recovered from local agencies, vendors, and participants, as a result of a claim arising under the program, to carry out the program during—

(A) the fiscal year in which the claim arises;

(B) the fiscal year in which the funds are collected; and

(C) the fiscal year following the fiscal year in which the funds are collected.

(22) The Secretary and the Secretary of Health and Human Services shall carry out an initiative to ensure that, in a case in which a State medicaid program uses coordinated care providers under a contract entered into under section 1903(m), or a waiver granted under section 1915(b), of the Social Security Act (42 U.S.C. 1396(m) or 1396n(b)), coordination between the program authorized by this section and the medicaid program is continued, including—

(A) the referral of potentially eligible women, infants, and children between the 2 programs; and

(B) the timely provision of medical information related to the program authorized by this section to agencies carrying out the program.

(23) INDIVIDUALS PARTICIPATING AT MORE THAN ONE SITE.—Each State agency shall implement a system designed by the State agency to identify individuals who are participating at more than one site under the program.

(24) HIGH RISK VENDORS.—Each State agency shall—

(A) identify vendors that have a high probability of program abuse; and

(B) conduct compliance investigations of the vendors.

(25) INFANT FORMULA BENEFITS.—A State agency may round up to the next whole can of infant formula to allow all participants under the program to receive the full-authorized nutritional benefit specified by regulation.

(26) NOTIFICATION OF VIOLATIONS.—If a State agency finds that a vendor has committed a violation that requires a pattern of occurrences in order to impose a penalty or sanction, the State agency shall notify the vendor of the initial violation in writing prior to documentation of another violation, unless the State agency determines that notifying the vendor would compromise an investigation.

(g) Authorization of appropriations

(1) IN GENERAL.—

(A) AUTHORIZATION.—There are authorized to be appropriated to carry out this section such sums as are necessary for each of fiscal years 2010 through 2015.

(B) ADVANCE APPROPRIATIONS; AVAILABILITY.—As authorized by section 1752 of this title, appropriations to carry out the provisions of this section may be made not more than 1 year in advance of the beginning of the fiscal year in which the funds will become available for disbursement to the States, and shall remain available for the purposes for which appropriated until expended.

(2)(A) Notwithstanding any other provision of law, unless enacted in express limitation of this subparagraph, the Secretary—

(i) in the case of legislation providing funds through the end of a fiscal year, shall issue—

(I) an initial allocation of funds provided by the enactment of such legislation not later than the expiration of the 20-day period beginning on the date of the enactment of such legislation; and

(II) subsequent allocations of funds provided by the enactment of such legislation not later than the beginning of each of the second, third, and fourth quarters of the fiscal year; and

(ii) in the case of legislation providing funds for a period that ends prior to the end of a fiscal year, shall issue an initial allocation of funds provided by the enactment of such legislation not later than the expiration of the 10-
day period beginning on the date of the enactment of such legislation.

(B) In any fiscal year—

(i) unused amounts from a prior fiscal year that are identified by the end of the first quarter of the fiscal year shall be recovered and reallocated not later than the beginning of the second quarter of the fiscal year; and

(ii) unused amounts from a prior fiscal year that are identified after the end of the first quarter of the fiscal year shall be recovered and reallocated on a timely basis.

(3) Notwithstanding any other provision of law, unless enacted in express limitation of this paragraph—

(A) the allocation of funds required by paragraph (2)(A)(i)(I) shall include not less than 1/3 of the amounts appropriated by the legislation described in such paragraph;

(B) the allocations of funds required by paragraph (2)(A)(i)(II) to be made not later than the beginning of the second and third quarters of the fiscal year shall each include not less than 1/5 of the amounts appropriated by the legislation described in such paragraph; and

(C) in the case of the enactment of legislation providing appropriations for a period of not more than 4 months, the allocation of funds required by paragraph (2)(A)(i)(II) shall include all amounts appropriated by such legislation except amounts reserved by the Secretary for purposes of carrying out paragraph (5).

(4) Of the sums appropriated for any fiscal year for programs authorized under this section, not less than nine-tenths of 1 percent shall be available first for services to eligible members of migrant populations. The migrant services shall be provided in a manner consistent with the priority system of a State for program participation.

(5) Of the sums appropriated for any fiscal year for the program under this section, one-half of 1 percent, not to exceed $15,000,000, shall be available to the Secretary for the purpose of evaluating program performance, evaluating health benefits, preparing reports on program participant characteristics, providing technical assistance to improve State agency administrative systems, administration of pilot projects, including projects designed to meet the special needs of migrants, Indians, and rural populations, and carrying out technical assistance and research evaluation projects of the programs under this section.

(h) Funds for nutrition services and administration

(1)(A) Each fiscal year, the Secretary shall make available, from amounts appropriated for such fiscal year under subsection (g)(1) of this section and amounts remaining from amounts appropriated under such subsection for the preceding fiscal year, an amount sufficient to guarantee a national average per participant grant for nutrition services and administration incurred by State and local agencies for such year.

(B)(i) The amount of the national average per participant grant for nutrition services and administration for any fiscal year shall be an amount equal to the amount of the national average per participant grant for nutrition services and administration issued for the preceding fiscal year, as adjusted.

(ii) Such adjustment, for any fiscal year, shall be made by revising the national average per participant grant for nutrition services and administration for the preceding fiscal year to reflect the percentage change between—

(I) the value of the index for State and local government purchases, as published by the Bureau of Economic Analysis of the Department of Commerce, for the 12-month period ending June 30 of the second preceding fiscal year; and

(II) the best estimate that is available as of the start of the fiscal year of the value of such index for the 12-month period ending June 30 of the previous fiscal year.

(C) REMAINING AMOUNTS.—

(i) IN GENERAL.—Except as provided in clause (ii), in any fiscal year, amounts remaining from amounts appropriated under subsection (g)(1) of this section and from amounts appropriated under such section for the preceding fiscal year, after carrying out subparagraph (A), shall be available for food benefits under this section, except to the extent that such amounts are needed to carry out the purposes of subsections (g)(4) and (g)(5) of this section.

(ii) BREAST PUMPS.—A State agency may use amounts made available under clause (i) for the purchase of breast pumps.

(2)(A) The Secretary shall allocate to each State agency from the amount described in paragraph (1)(A) an amount for costs of nutrition services and administration on the basis of a formula prescribed by the Secretary. Such formula—

(i) shall be designed to take into account—

(I) the varying needs of each State;

(II) the number of individuals participating in each State; and

(III) other factors which serve to promote the proper, efficient, and effective administration of the program under this section;

(ii) shall provide for each State agency—

(I) an estimate of the number of participants for the fiscal year involved; and

(II) a per participant grant for nutrition services and administration for such year;

(iii) shall provide for a minimum grant amount for State agencies; and

(iv) may provide funds to help defray reasonable anticipated expenses associated with innovations in cost containment or associated with procedures that tend to enhance competition.

(B)(i) Except as provided in clause (ii) and subparagraph (C), in any fiscal year, the total amount allocated to a State agency for costs of nutrition services and administration under the formula prescribed by the Secretary under subparagraph (A) shall constitute the State agency’s operational level for such costs for such year even if the number of participants in the program at such agency is lower than the estimate provided under subparagraph (A)(i)(I).
(ii) If a State agency's per participant expenditure for nutrition services and administration is more than 10 percent (except that the Secretary may establish a higher percentage for State agencies that are small) higher than its per participant grant for nutrition services and administration without good cause, the Secretary may reduce such State agency’s operational level for costs of nutrition services and administration.

(C) In any fiscal year, the Secretary may reallocate amounts provided to State agencies under subparagraph (A) for such fiscal year. When reallocation amounts under the preceding sentence, the Secretary may provide additional amounts to, or recover amounts from, any State agency.

(3)(A) Except as provided in subparagraphs (B) and (C), in each fiscal year, each State agency shall expend—

(1) for nutrition education activities and breastfeeding promotion and support activities, an aggregate amount that is not less than the sum of—

(I) $21 multiplied by the number of pregnant women and breastfeeding women participating in the program nationwide, based on the average number of pregnant women and breastfeeding women so participating during the last 3 months for which the Secretary has final data; and

(ii) the request is accompanied by documentation that other funds will be used to conduct nutrition education activities at a level commensurate with the level at which such activities would be conducted if the amount described in subparagraph (A)(ii) were expended for such activities.

(B) The Secretary may authorize a State agency to expend an amount less than the amount described in subparagraph (A)(ii) for purposes of breastfeeding promotion and support activities if—

(i) the State agency so requests; and

(ii) the request is accompanied by documentation that other funds will be used to conduct nutrition education activities at a level commensurate with the level at which such activities would be conducted if the amount described in subparagraph (A)(ii) were expended for such activities.

(C) The Secretary may authorize a State agency to expend for purposes of nutrition education an amount that is less than the difference between the aggregate amount described in subparagraph (A) and the amount expended by the State for breastfeeding promotion and support programs if—

(i) the State agency so requests; and

(ii) the request is accompanied by documentation that other funds will be used to conduct such activities.

(D) The Secretary shall limit to a minimal level any documentation required under this paragraph.

(E) For each fiscal year, the national minimum breastfeeding promotion expenditure means an amount that is—

(i) equal to $21 multiplied by the number of pregnant women and breastfeeding women participating in the program nationwide, based on the average number of pregnant women and breastfeeding women so participating during the last 3 months for which the Secretary has final data; and

(ii) adjusted for inflation on October 1, 1996, and each October 1 thereafter, in accordance with paragraph (1)(B)(ii).

(4) REQUIREMENTS.—

(A) IN GENERAL.—The Secretary shall—

(i) in consultation with the Secretary of Health and Human Services, develop a definition of breastfeeding for the purposes of the program under this section;

(ii) authorize the purchase of breastfeeding aids by State and local agencies as an allowable expense under nutrition services and administration;

(iii) require each State agency to designate an agency staff member to coordinate breastfeeding promotion efforts identified in the State plan of operation and administration;

(iv) require the State agency to provide training on the promotion and management of breastfeeding to staff members of local agencies who are responsible for counseling participants in the program under this section concerning breastfeeding;

(v) not later than 1 year after November 2, 1994, develop uniform requirements for the collection of data regarding the incidence and duration of breastfeeding among participants in the program;

(vi) partner with communities, State and local agencies, employers, health care professionals, and other entities in the private sector to build a supportive breastfeeding environment for women participating in the program under this section to support the breastfeeding goals of the Healthy People initiative; and

(vii) annually compile and publish breastfeeding performance measurements based on program participant data on the number of partially and fully breast-fed infants, including breastfeeding performance measurements for—

(I) each State agency; and

(II) each local agency;

(viii) in accordance with subparagraph (B), implement a program to recognize exemplary breastfeeding support practices at local agencies or clinics participating in the special supplemental nutrition program established under this section; and

(ix) in accordance with subparagraph (C), implement a program to provide performance bonuses to State agencies.

(B) EXEMPLARY BREASTFEEDING SUPPORT PRACTICES.—

(I) IN GENERAL.—In evaluating exemplary practices under subparagraph (A)(viii), the Secretary shall consider—

(I) performance measurements of breastfeeding;

(II) the effectiveness of a peer counselor program;
(III) the extent to which the agency or clinic has partnered with other entities to build a supportive breastfeeding environment for women participating in the program; and

(iv) such other criteria as the Secretary considers appropriate after consultation with State and local program agencies.

(ii) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out the activities described in clause (vii) of subparagraph (A) such sums as are necessary.

(C) PERFORMANCE BONUSES.—Following the publication of breastfeeding performance measurements under subparagraph (A)(vii), the Secretary shall provide performance bonus payments to not more than 15 State agencies that demonstrate, as compared to other State agencies participating in the program—

(I) the highest proportion of breast-fed infants; or

(II) the greatest improvement in proportion of breast-fed infants.

(ii) CONSIDERATION.—In providing performance bonus payments to State agencies under this subparagraph, the Secretary shall consider the proportion of fully breast-fed infants in the States.

(iii) USE OF FUNDS.—A State agency that receives a performance bonus under clause (I) shall treat the funds as program income; and

(II) may transfer the funds to local agencies for use in carrying out the program.

(iv) IMPLEMENTATION.—The Secretary shall provide the first performance bonuses not later than 1 year after December 13, 2010, and may subsequently revise the criteria for awarding performance bonuses; and 1

(5)(A) Subject to subparagraph (B), in any fiscal year that a State agency submits a plan to reduce average food costs per participant and to increase participation above the level estimated for the State agency, the State agency may, with the approval of the Secretary, convert amounts allocated for food benefits for such fiscal year to the costs of nutrition services and administration deemed necessary to the extent that conversion is necessary—

(i) to cover allowable expenditures in such fiscal year; and

(ii) to ensure that the State agency maintains the level established for the per participant grant for nutrition services and administration.

(B) If a State agency increases its participation level through measures that are not in the nutritional interests of participants or not otherwise allowable (such as reducing the quantities of foods provided for reasons not related to nutritional need), the Secretary may refuse to allow the State agency to convert amounts allocated for food benefits to defray costs of nutrition services and administration.

(C) For the purposes of this paragraph, the term "acceptable measures" includes use of cost containment measures, curtailment of vendor abuse, and breastfeeding promotion activities.

(D) REMOTE INDIAN OR NATIVE VILLAGES.—For noncontiguous States containing a significant number of remote Indian or Native villages, a State agency may convert amounts allocated for food benefits for a fiscal year to the costs of nutrition services and administration to the extent that the conversion is necessary to cover expenditures incurred in providing services (including the full cost of air transportation and other transportation) to remote Indian or Native villages and to provide breastfeeding support in remote Indian or Native villages.

(6) In each fiscal year, each State agency shall provide, from the amounts allocated to such agency for such year for costs of nutrition services and administration, an amount to each local agency for its costs of nutrition services and administration. The amount to be provided to each local agency under the preceding sentence shall be determined under allocation standards developed by the State agency in cooperation with the several local agencies, taking into account factors deemed appropriate to further proper, efficient, and effective administration of the program, such as—

(A) local agency staffing needs;

(B) density of population;

(C) number of individuals served; and

(D) availability of administrative support from other sources.

(7) The State agency may provide in advance to any local agency any amounts for nutrition services and administration deemed necessary for successful commencement or significant expansion of program operations during a reasonable period following approval of—

(A) a new local agency;

(B) a new cost containment measure; or

(C) a significant change in an existing cost containment measure.

(8)(A)(i) Except as provided in subparagraphs (B) and (C)(iii), any State that provides for the purchase of foods under the program at retail grocery stores shall, with respect to the procurement of infant formula, use—

(I) a competitive bidding system; or

(II) any other cost containment measure that yields savings equal to or greater than savings generated by a competitive bidding system when such savings are determined by comparing the amounts of savings that would be provided over the full term of contracts offered in response to a single invitation to submit both competitive bids and bids for other cost containment systems for the sale of infant formula.

(ii) In determining whether a cost containment measure other than competitive bidding yields equal or greater savings, the State, in accordance with regulations issued by the Secretary, may take into account other cost factors (in addition to rebate levels and procedures for adjusting rebate levels when wholesale price levels change), such as—

(I) the number of infants who would not be expected to receive the primary contract in—

1 So in original. The "" and "" probably should be a period.
fiant formula under a competitive bidding system;

(II) the number of cans of infant formula for which no rebate would be provided under another rebate system; and

(iii) differences in administrative costs relating to the implementation of the various cost containment systems (such as costs of converting a computer system for the purpose of operating a cost containment system and costs of preparing participants for conversion to a new or alternate cost containment system).

(iii) COMPETITIVE BIDDING SYSTEM.—A State agency using a competitive bidding system for infant formula shall award contracts to bidders offering the lowest net price for a specific infant formula for which manufacturers submit a bid unless the State agency demonstrates to the satisfaction of the Secretary that the weighted average retail price for different brands of infant formula in the State does not vary by more than 5 percent.

(iv) SIZE OFSTATE ALLIANCES.—

(I) IN GENERAL.—Except as provided in subclauses (II) through (IV), no State alliance may exist among States if the total number of infants served by States participating in the alliance as of October 1, 2003, or such subsequent date determined by the Secretary for which data is available, would exceed 100,000.

(II) ADDITION OF INFANT PARTICIPANTS.—In the case of a State alliance that exists on June 30, 2004, the alliance may continue and may expand to serve more than 100,000 infants but, except as provided in clause (III), may not expand to include any additional State agency.

(III) ADDITION OF SMALL STATE AGENCIES AND INDIAN STATE AGENCIES.—Except as provided in paragraph (9)(B)(I)(II), any State alliance may expand to include any State agency that served less than 5,000 infant participants as of October 1, 2003, or such subsequent date determined by the Secretary for which data is available, or any Indian State agency, if the State agency or Indian State agency requests to join the State alliance.

(IV) SECRETARIAL WAIVER.—The Secretary may waive the requirements of this clause not earlier than 30 days after submitting to the Committee on Education and the Workforce of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate a written report that describes the cost-containment and competitive benefits of the proposed waiver.

(v) FIRST CHOICE OF ISSUANCE.—The State agency shall use the primary contract infant formula as the first choice of issuance (by formula type), with all other infant formulas issued as an alternative to the primary contract infant formula.

(vi) REBATE INVOICES.—Effective beginning October 1, 2004, each State agency shall have a system to ensure that infant formula rebate invoices, under competitive bidding, provide a reasonable estimate or an actual count of the number of units sold to participants in the program under this section.

(vii) SEPARATE SOLICITATIONS.—In soliciting bids for infant formula under a competitive bidding system, any State agency, or State alliance, that served under the program a monthly average of more than 100,000 infants during the preceding 12-month period shall solicit bids from infant formula manufacturers under procedures that require that bids for rebates or discounts are solicited for milk-based and soy-based infant formula separately.

(viii) CENT-FOR-CENT ADJUSTMENTS.—A bid solicitation for infant formula under the program shall require the manufacturer to adjust for price changes subsequent to the opening of the bidding process in a manner that requires—

(I) a cent-for-cent increase in the rebate amounts if there is an increase in the lowest national wholesale price for a full truckload of the particular infant formula; and

(II) a cent-for-cent decrease in the rebate amounts if there is a decrease in the lowest national wholesale price for a full truckload of the particular infant formula.

(ix) LIST OF INFANT FORMULA WHOLESALERS, DISTRIBUTORS, RETAILERS, AND MANUFACTURERS.—The State agency shall maintain a list of—

(I) infant formula wholesalers, distributors, and retailers licensed in the State in accordance with State law (including regulations); and

(II) infant formula manufacturers registered with the Food and Drug Administration that provide infant formula.

(x) PURCHASE REQUIREMENT.—A vendor authorized to participate in the program under this section shall only purchase infant formula from the list described in clause (ix).

(B)(i) The Secretary shall waive the requirements of subparagraph (A) in the case of any State that demonstrates to the Secretary that—

(I) compliance with subparagraph (A) would be inconsistent with efficient or effective operation of the program operated by such State under this section; or

(II) the amount by which the savings yielded by an alternative cost containment system would be less than the savings yielded by a competitive bidding system is sufficiently minimal that the difference is not significant.

(ii) The Secretary shall prescribe criteria under which a waiver may be granted pursuant to clause (i).

(iii) The Secretary shall provide information on a timely basis to the Committee on Education and Labor of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate on waivers that have been granted under clause (i).

(C)(i) The Secretary shall provide technical assistance to small Indian State agencies carrying out this paragraph in order to assist such agencies to achieve the maximum cost containment savings feasible.

(ii) The Secretary shall also provide technical assistance, on request, to State agencies that desire to consider a cost containment system that covers more than 1 State agency.

(iii) The Secretary may waive the requirement of subparagraph (A) in the case of any Indian
State agency that has not more than 1,000 participants.
(D) No State may enter into a cost containment contract (in this subparagraph referred to as the “original contract”) that prescribes conditions that would void, reduce the savings under, or otherwise limit the original contract if the State solicited or secured bids for, or entered into, a subsequent cost containment contract to take effect after the expiration of the original contract.
(E) The Secretary shall offer to solicit bids on behalf of State agencies regarding cost-containment contracts to be entered into by infant formula manufacturers and State agencies. The Secretary shall make the offer to State agencies once every 12 months. Each such bid solicitation shall only take place if two or more State agencies request the Secretary to perform the solicitation. For such State agencies, the Secretary shall solicit bids and select the winning bidder for a cost containment contract to be entered into by State agencies and infant formula manufacturers or suppliers.
(F) In soliciting bids for contracts for infant formula for the program authorized by this section, the Secretary shall solicit bids from infant formula manufacturers under procedures in which bids for rebates or discounts are solicited for milk-based and soy-based infant formula separately, except where the Secretary determines that such solicitation procedures are not in the best interest of the program.
(G) To reduce the costs of any supplemental foods, the Secretary may make available additional funds to State agencies out of the funds otherwise available under paragraph (1)(A) for nutrition services and administration in an amount not exceeding one half of 1 percent of the amounts to help defray reasonable anticipated expenses associated with innovations in cost containment or associated with procedures that tend to enhance competition.
(H)(i) Any person, company, corporation, or other legal entity that submits a bid to supply infant formula to carry out the program authorized by this section and announces or otherwise discloses the amount of the bid, or the rebate or discount practices of such entities, in advance of the time the bids are opened by the Secretary or otherwise available under paragraph (1)(A) for nutrient services and administration of the State agency that has not more than 1,000 participants.
(ii) The Secretary shall determine the length of the disqualification, and the amount of the civil penalty referred to in clause (i) based on such factors as the Secretary by regulation determines appropriate.
(iii) Any person, company, corporation, or other legal entity disqualified under clause (i) shall remain obligated to perform any requirements under any contract to supply infant formula existing at the time of the disqualification and until each such contract expires by its terms.
(I) Not later than the expiration of the 180-day period beginning on October 24, 1992, the Secretary shall prescribe regulations to carry out this paragraph.
(J) A State shall not incur any interest liability to the Federal Government on rebate funds for infant formula and other foods if all interest earned by the State on the funds is used for program purposes.
(K) Reporting.—Effective beginning October 1, 2011, each State agency shall report rebate payments received from manufacturers in the month in which the payments are received, rather than in the month in which the payments were earned.
(9) Cost containment measure.—
(A) Definition of cost containment measure.—In this subsection, the term “cost containment measure” means a competitive bidding, rebate, direct distribution, or home delivery system implemented by a State agency as described in the approved State plan of operation and administration of the State agency.
(B) Solicitation and rebate billing requirements.—Any State agency instituting a cost containment measure for any authorized food, including infant formula, shall—
(i) in the bid solicitation—
(I) identify the composition of State alliances for the purposes of a cost containment measure; and
(ii) have a system to ensure that rebate invoices under competitive bidding provide a reasonable estimate or an actual count of the number of units sold to participants in the program under this section;
(iii) open and read aloud all bids at a public proceeding on the day on which the bids are due; and
(iv) unless otherwise exempted by the Secretary, provide a minimum of 30 days between the publication of the solicitation and the date on which the bids are due.
(C) State alliances for authorized foods other than infant formula.—Program requirements relating to the size of State alliances under paragraph (8)(A)(iv) shall apply to cost containment measures established for any authorized food under this section.
(10) Funds for infrastructure, management information systems, and special nutrition education.—
(A) In general.—For each of fiscal years 2010 through 2015, the Secretary shall use for the purposes specified in subparagraph (B) $139,000,000 (as adjusted annually for inflation by the same factor used to determine the national average per participant grant for nutri-
tion services and administration for the fiscal year under paragraph (1)(B).

(B) PURPOSES.—Subject to subparagraph (C), of the amount made available under subparagraph (A) for a fiscal year—

(i) $14,000,000 shall be used for—

(1) infrastructure for the program under this section;

(II) special projects to promote breastfeeding, including projects to assess the effectiveness of particular breastfeeding promotion strategies; and

(III) special State projects of regional or national significance to improve the services of the program;

(ii) $35,000,000 shall be used to establish, improve, or administer management information systems for the program, including changes necessary to meet new legislative or regulatory requirements of the program, of which up to $5,000,000 may be used for Federal administrative costs; and

(iii) $90,000,000 shall be used for special nutrition education (such as breastfeeding peer counselors and other related activities), of which not more than $10,000,000 of any funding provided in excess of $50,000,000 shall be used to make performance bonus payments under paragraph (4)(C).

(C) ADJUSTMENT.—Each of the amounts referred to in clauses (i), (ii), and (iii) of subparagraph (B) shall be adjusted annually for inflation by the same factor used to determine the national average per participant grant for nutrition services and administration for the fiscal year under paragraph (1)(B).

(D) PROPORTIONAL DISTRIBUTION.—The Secretary shall distribute funds made available under subparagraph (A) in accordance with the proportional distribution described in subparagraphs (B) and (C).

(II) VENDOR COST CONTAINMENT.—

(A) PEER GROUPS.—

(I) IN GENERAL.—The State agency shall—

(1) establish a vendor peer group system;

(II) in accordance with subparagraphs (B) and (C), establish competitive price criteria and allowable reimbursement levels for each vendor peer group; and

(III) if the State agency elects to authorize any types of vendors described in subparagraph (D)(ii)(I)—

(aa) distinguish between vendors described in subparagraph (D)(ii)(I) and other vendors by establishing—

(AA) separate peer groups for vendors described in subparagraph (D)(ii)(I); or

(BB) distinct competitive price criteria and allowable reimbursement levels for vendors described in subparagraph (D)(ii)(I) within a peer group that contains both vendors described in subparagraph (D)(ii)(I) and other vendors; and

(bb) establish competitive price criteria and allowable reimbursement levels that comply with subparagraphs (B) and (C), respectively, and that do not result in higher food costs if program participants redeem supplemental food vouchers at vendors described in subparagraph (D)(ii)(I) rather than at vendors other than vendors described in subparagraph (D)(ii)(I).

Nothing in this paragraph shall be construed to compel a State agency to achieve lower food costs if program participants redeem supplemental food vouchers at vendors described in subparagraph (D)(ii)(I) rather than at vendors other than vendors described in subparagraph (D)(ii)(I).

(ii) EXEMPTIONS.—The Secretary may exempt from the requirements of clause (i)—

(I) a State agency that elects not to authorize any types of vendors described in subparagraph (D)(ii)(I) and that demonstrates to the Secretary that—

(aa) compliance with clause (i) would be inconsistent with efficient and effective operation of the program administered by the State under this section; or

(bb) an alternative cost-containment system would be as effective as a vendor peer group system; or

(II) a State agency—

(aa) in which the sale of supplemental foods that are obtained with food instruments from vendors described in subparagraph (D)(ii)(I) constituted less than 5 percent of total sales of supplemental foods that were obtained with food instruments in the State in the year preceding a year in which the exemption is effective; and

(bb) that demonstrates to the Secretary that an alternative cost-containment system would be as effective as the vendor peer group system and would not result in higher food costs if program participants redeem supplemental food vouchers at vendors described in subparagraph (D)(ii)(I) rather than at vendors other than vendors described in subparagraph (D)(ii)(I).

(B) COMPETITIVE PRICING.—

(I) IN GENERAL.—The State agency shall establish competitive price criteria for each peer group for the selection of vendors for participation in the program that—

(I) ensure that the retail prices charged by vendor applicants for the program are competitive with the prices charged by other vendors; and

(II) consider—

(aa) the shelf prices of the vendor for all buyers; or

(bb) the prices that the vendor bid for supplemental foods, which shall not exceed the shelf prices of the vendor for all buyers.

(ii) PARTICIPANT ACCESS.—In establishing competitive price criteria, the State agency shall consider participant access by geographic area.

(iii) SUBSEQUENT PRICE INCREASES.—The State agency shall establish procedures to ensure that a retail store selected for par-
§ 1786  TITLE 42—THE PUBLIC HEALTH AND WELFARE  Page 4172

ticipation in the program does not, subse-
quently to selection, increase prices to levels
that would make the store ineligible for se-
lection to participate in the program.

(C) ALLOWABLE REIMBURSEMENT LEVELS.—
(i) IN GENERAL.—The State agency shall es-

tablish allowable reimbursement levels for supple-
mental foods for each vendor peer group that ensure—

(I) that payments to vendors in the ven-
dor peer group reflect competitive retail
prices; and

(II) that the State agency does not reim-
burse a vendor for supplemental foods at a
level that would make the vendor ineligible
for authorization under the criteria
established under subparagraph (B).

(ii) PRICE FLUCTUATIONS.—The allowable
reimbursement levels may include a factor
to reflect fluctuations in wholesale prices.

(iii) PARTICIPANT ACCESS.—In establishing
allowable reimbursement levels, the State
agency shall consider participant access in a
geographic area.

(D) EXEMPTIONS.—The State agency may ex-
empt from competitive price criteria and al-
lowable reimbursement levels established
under this paragraph—

(i) pharmacy vendors that supply only ex-
empt infant formula or medical foods that
are eligible under the program; and

(ii) vendors—

(I)(aa) for which more than 50 percent of
the annual revenue of the vendor from the
sale of food items consists of revenue from
the sale of supplemental foods that are ob-
tained with food instruments; or

(bb) who are new applicants likely to
meet the criteria of item (aa) under cri-
tera approved by the Secretary; and

(II) that are nonprofit.

(E) COST CONTAINMENT.—If a State agency
elects to authorize any types of vendors de-
scribed in subparagraph (D)(ii)(I), the State
agency shall demonstrate to the Secretary,
and the Secretary shall certify, that the com-
petitive price criteria and allowable reim-
bursement levels established under this para-
graph for vendors described in subparagraph
(D)(ii)(I) do not result in average payments per
voucher to vendors described in subparagraph
(D)(ii)(I) that are higher than average pay-
ments per voucher to comparable vendors
other than vendors described in subparagraph
(D)(ii)(I).

(F) LIMITATION ON PRIVATE RIGHTS OF AC-
TION.—Nothing in this paragraph may be con-
strued as creating a private right of action.

(G) IMPLEMENTATION.—A State agency shall
comply with this paragraph not later than 18

(12) ELECTRONIC BENEFIT TRANSFER.—

using a card or other access device approved
by the Secretary that permits electronic ac-

(ii) PROGRAM.—The term ‘program’ means the
special supplemental nutrition program
established by this section.

(B) REQUIREMENTS.—

(i) IN GENERAL.—Not later than October 1,
2020, each State agency shall be required to
implement electronic benefit transfer sys-

tems throughout the State, unless the Sec-

tary grants an exemption under subpara-
graph (C) for a State agency that is facing
unusual barriers to implement an electronic

(ii) RESPONSIBILITY.—The State agency
shall be responsible for the coordination and
management of the electronic benefit trans-
fer system of the agency.

(C) EXEMPTIONS.—

(i) IN GENERAL.—To be eligible for an ex-
emption from the statewide implementation
requirements of subparagraph (B)(i), a State
agency shall demonstrate to the satisfaction
of the Secretary 1 or more of the following:

(I) There are unusual technological bar-
riers to implementation.

(II) Operational costs are not affordable
within the nutrition services and adminis-

(III) It is in the best interest of the pro-
gram to grant the exemption.

(ii) SPECIFIC DATE.—A State agency re-
esting an exemption under clause (i) shall
specify a date by which the State agency an-
ticipates statewide implementation de-
scribed in subparagraph (B)(i).

(D) REPORTING.—

(i) IN GENERAL.—Each State agency shall
submit to the Secretary electronic benefit
transfer project status reports to demon-
strate the progress of the State toward
statewide implementation.

(ii) CONSULTATION.—If a State agency
requests an exemption under clause (i) shall
specify a date by which the State agency ant-
icipates statewide implementation de-
scribed in subparagraph (B)(i).

(iii) REQUIREMENTS.—At a minimum, a
status report submitted under clause (i) shall
contain—

(I) an annual outline of the electronic
benefit transfer implementation goals and
objectives of the State;

(II) appropriate updates in accordance
with approval requirements for active
electronic benefit transfer State agencies;

(E) IMPOSITION OF COSTS ON VENDORS.—

(i) COST PROHIBITION.—Except as otherwise
provided in this paragraph, the Secretary
may not impose, or allow a State agency to
impose, the costs of any equipment or sys-
tem required for electronic benefit transfers
on any authorized vendor in order to trans-
act electronic benefit transfers if the vendor
equipment or system is used solely to sup-
port the program.
(ii) Cost-sharing.—The Secretary shall establish criteria for cost-sharing by State agencies and vendors of costs associated with any equipment or system that is not solely dedicated to transacting electronic benefit transfers for the program.

(iii) Fees.—
   (I) In general.—A vendor that elects to accept electronic benefit transfers using multifunction equipment shall pay commercial transaction processing costs and fees imposed by a third-party processor that the vendor elects to use to connect to the electronic benefit transfer system of the State.
   (II) Interchange fees.—No interchange fees shall apply to electronic benefit transfer transactions under this paragraph.

(iv) Statewide operations.—After completion of statewide expansion of a system for transacting of electronic benefit transfers—
   (I) a State agency may not be required to incur ongoing maintenance costs for vendors using multifunction systems and equipment to support electronic benefit transfers; and
   (II) any retail store in the State that applies for authorization to become a program vendor shall be required to demonstrate the capability to accept program benefits electronically prior to authorization, unless the State agency determines that the vendor is necessary for participant access.

(F) Minimum lane coverage.—
   (i) In general.—The Secretary shall establish minimum lane coverage guidelines for vendor equipment and systems used to support electronic benefit transfers.
   (ii) Provision of equipment.—If a vendor does not elect to accept electronic benefit transfers using its own multifunction equipment, the State agency shall provide such equipment as is necessary to solely support the program to meet the established minimum lane coverage guidelines.

(G) Technical standards.—The Secretary shall—
   (i) establish technical standards and operating rules for electronic benefit transfer systems; and

(iii) Use of funds.—The Secretary shall use the funds provided under clause (i) for development, hosting, hardware and software configuration, and support of the database required under subparagraph (A).

(14) Incentive items.—A State agency shall not authorize or make payments to a vendor described in paragraph (11)(D)(ii)(I) that provides incentive items or other free merchandise, except food or merchandise of nominal value (as determined by the Secretary), to program participants unless the vendor provides to the State agency proof that the vendor obtained the incentive items or merchandise at no cost.

(i) Division of funds formula; reallocation of unspent funds; use of State allocation to buy supplemental foods; use of amounts available for succeeding fiscal year
   (1) By the beginning of each fiscal year, the Secretary shall divide, among the State agencies, the amounts made available for food benefits under subsection (h) of this section on the basis of a formula determined by the Secretary.
   (2) Each State agency’s allocation, as so determined, shall constitute the State agency’s authorized operational level for that year, except that the Secretary shall reallocate funds periodically if the Secretary determines that a State agency is unable to spend its allocation.
   (3)(A) Notwithstanding paragraph (2) and subject to subparagraph (B)—
      (i)(I) not more than 1 percent (except as provided in subparagraph (C)) of the amount of funds allocated to a State agency under this section for supplemental foods for a fiscal year may be expended by the State agency for allowable expenses incurred under this section for supplemental foods during the preceding fiscal year; and
      (II) not more than 1 percent of the amount of funds allocated to a State agency under this section for nutrition services and administration for a fiscal year may be expended by the State agency for allowable expenses incurred under this section for supplemental foods and nutrition services and administration during the preceding fiscal year; and
      (ii)(I) for each fiscal year, of the amounts allocated to a State agency for nutrition services and administration, an amount equal to not more than 3 percent of the amount allocated to the State agency under this section for nutrition services and administration for a fiscal year may be expended by the State agency for allowable expenses incurred under this section for supplemental foods and nutrition services and administration during the subsequent fiscal year; and
      (II) for each fiscal year, of the amounts allocated to a State agency for nutrition services and administration, an amount equal to not more than ½ of 1 percent of the amount allocated to the State agency under this section for the fiscal year may be expended by the State agency, with the prior approval of the
Secretary, for the development of a management information system, including an electronic benefit transfer system, during the subsequent fiscal year.

(B) Any funds made available to a State agency in accordance with subparagraph (A)(i) for a fiscal year shall not affect the amount of funds allocated to the State agency for such year.

(C) The Secretary may authorize a State agency to expend not more than 5 percent of the amount of funds allocated to a State under this section for supplemental foods for a fiscal year for expenses incurred under this section for supplemental foods during the preceding fiscal year, if the Secretary determines that there has been a significant reduction in infant formula cost containment savings provided to the State agency that would affect the ability of the State agency to at least maintain the level of participation by eligible participants served by the State agency.

(4) For purposes of the formula, if Indians are served by the health department of a State, the formula shall be based on the State population inclusive of the Indians within the State boundaries.

(5) If Indians residing in the State are served by a State agency other than the health department of the State, the population of the tribes within the jurisdiction of the State being so served shall not be included in the formula for such State, and shall instead be included in the formula for the State agency serving the Indians.

(6) Notwithstanding any other provision of this section, the Secretary may use a portion of a State agency’s allocation to purchase supplemental foods for donation to the State agency under this section.

(7) In addition to any amounts expended under paragraph (5)(A)(i), any State agency using cost containment measures as defined in subsection (h)(9) of this section may temporarily use amounts made available to such agency for the first quarter of a fiscal year to defray expenses for costs incurred during the final quarter of the preceding fiscal year. In any fiscal year, any State agency that uses amounts made available for a succeeding fiscal year under the authority of the preceding sentence shall restore or reimburse such amounts when such agency receives payment as a result of its cost containment measures for such expenses.

(8) TEMPORARY SPENDING AUTHORITY.—During each of fiscal years 2012 and 2013, the Secretary may authorize a State agency to expend more than the amount otherwise authorized under paragraph (3)(C) for expenses incurred under this section for supplemental foods during the preceding fiscal year, if the Secretary determines that—

(A) there has been a significant reduction in infant formula cost containment savings for the preceding fiscal year due to the implementation of subsection (h)(8)(K); and

(B) the reduction would affect the ability of the State agency to serve all eligible participants.

(j) Initiative to provide program services at community and migrant health centers

(1) The Secretary and the Secretary of Health and Human Services (referred to in this subsection as the “Secretaries”) shall jointly establish and carry out an initiative for the purpose of providing both supplemental foods, nutrition education, and breastfeeding support and promotion under the special supplemental nutrition program and health care services to low-income pregnant, postpartum, and breastfeeding women, infants, and children at substantially more community health centers and migrant health centers.

The Secretary may negotiate with an Indian State agency a lower percentage of matching funds than is required under the preceding sentence, but not lower than 10 percent of the administrative cost of the program, if the Indian State agency demonstrates to the Secretary financial hardship for the affected Indian tribe, band, group, or council.

(4) Subject to paragraph (6), the Secretary shall establish a formula for determining the amount of the grant to be awarded under this subsection to each State for which a State plan is approved under paragraph (6), according to the number of recipients proposed to participate in this subsection, and award grants accordingly. benefits received by any recipient under the program may not be—
(i) less than $10 per year; or
(ii) more than $30 per year.

(D) The coupon issuance process under the
program shall be designed to ensure that coupons are targeted to areas with—
(i) the highest concentration of eligible individuals;

(i) redeemed only by producers authorized by the State to participate in the program; and
(ii) redeemed only to purchase fresh nutritious unprepared food for human consumption.

The Secretary shall inform each State of the award of funds as prescribed by subparagraph (G) by February 15 of each year.

(B)(i) Subject to the availability of appropriations, if a State provides the amount of matching funds required under paragraph (3), the State shall receive assistance under this subsection in an amount that is not less than the amount of such assistance that the State received in the most recent fiscal year in which it received such assistance.
(ii) If amounts appropriated for any fiscal year pursuant to the authorization contained in paragraph (10) for grants under this subsection are not sufficient to pay to each State for which a State plan is approved under paragraph (6) the amount that the Secretary determines each such State is entitled to under this subsection, each State’s grant shall be ratably reduced, except that (if sufficient funds are available) each State shall receive at least $75,000 or the amount that the State received for the prior fiscal year if that amount is less than $75,000.

(C) In providing funds to a State that received assistance under this subsection in the previous fiscal year, the Secretary shall consider—
(i) the availability of any such assistance not spent by the State during the program year for which the assistance was received;
(ii) documentation that demonstrates that—
(I) there is a need for an increase in funds; and
(II) the use of the increased funding will be consistent with serving nutritionally at-risk persons and expanding the awareness and use of farmers’ markets;
(iii) demonstrated ability to satisfactorily operate the existing program; and
(iv) whether, in the case of a State that intends to use any funding provided under subparagraph (G)(i) to increase the value of the Federal share of the benefits received by a recipient, the funding provided under subparagraph (G)(i) will increase the rate of coupon redemption.

(F)(i) An amount equal to 75 percent of the funds available after satisfying the requirements of subparagraph (B) shall be made available to States participating in the program whose State plan is approved by the Secretary. If this amount is greater than that necessary to satisfy the approved State plans, the unallocated amount shall be applied toward satisfying...
any unmet need of States that have not participated in the program in the prior fiscal year, and whose State plans have been approved.

(ii) An amount equal to 25 percent of the funds available after satisfying the requirements of subparagraph (B) shall be reallocated to States that have not participated in the program in the prior fiscal year, and whose State plans have been approved by the Secretary. If this amount is greater than that necessary to satisfy the approved State plans for new States, the unallocated amount shall be applied toward satisfying any unmet need of States whose State plans have been approved.

(iii) In any fiscal year, any funds that remain unallocated after satisfying the requirements of clauses (i) and (ii) shall be reallocated in the following fiscal year according to procedures established pursuant to paragraph (10)(B)(ii).

(7)(A) The value of the benefit received by any recipient under any program for which a grant is received under this subsection may not affect the eligibility or benefit levels for assistance under other Federal or State programs.

(B) Any programs for which a grant is received under this subsection shall be supplementary to the supplemental nutrition assistance program carried out under the Food and Nutrition Act of 2008 (7 U.S.C. 2011 et seq.) and to any other Federal or State program under which foods are distributed to needy families in lieu of supplemental nutrition assistance program benefits.

(8) For each fiscal year, the Secretary shall collect from each State that receives a grant under this subsection information relating to—

(B) the rate of redemption of coupons distributed under the program;

(C) the average amount distributed in coupons to each recipient;

(D) the change in consumption of fresh fruits and vegetables by recipients, if the information is available;

(E) the effects of the program on farmers’ markets, if the information is available; and

(F) any other information determined to be necessary by the Secretary.

(9) FUNDING.—

(A) AUTHORIZATION OF APPROPRIATIONS.—

There are authorized to be appropriated to carry out this subsection such sums as are necessary for each of fiscal years 2015 through 2015.

(B)(1)(I) Each State shall return to the Secretary any funds made available to the State that are unobligated at the end of the fiscal year for which the funds were originally allocated. The unexpended funds shall be returned to the Secretary by February 1st of the following fiscal year.

(ii)(I) the vendor had, at the time of the violation under paragraph (1), an effective policy and program in effect to prevent violations described in paragraph (1); and
(II) the ownership of the vendor was not aware of, did not approve of, and was not involved in the conduct of the violation.

WIC Infant Formula Protection; Findings and Purposes

(a) Findings.—

(1) the domestic infant formula industry is one of the most concentrated manufacturing industries in the United States;

(2) only three pharmaceutical firms are responsible for almost all domestic infant formula production;

(3) coordination of pricing and marketing strategies is a potential danger where only a very few companies compete regarding a given product;

(4) improved competition among suppliers of infant formula to the special supplemental food program (special supplemental nutrition program) for women, infants, and children (WIC) can save substantial additional sums to be used to put thousands of additional eligible women, infants, and children on the WIC program; and

(5) barriers exist in the infant formula industry that inhibit the entry of new firms and thus limit competition.

(b) Purposes.—It is the purpose of this title [amending this section and enacting provisions set out as notes under this section and section 1771 of this title] to enhance competition among infant formula manufacturers and to reduce the per unit costs of infant formula for the special supplemental nutrition program for women, infants, and children (WIC).”

L. 102–512.

MESSAGE OF THE PRESIDENT

To the Congress of the United States:

I transmit herewith Reorganization Plan No. 2 of 1962, prepared in accordance with the provisions of the Reorganization Act of 1949, as amended, and providing for certain reorganizations in the field of science and technology.

Part I of the reorganization plan establishes the Office of Science and Technology as a new unit within the
Executive Office of the President; places at the head thereof a Director appointed by the President by and with the advice and consent of the Senate and makes provision for a Deputy Director similarly appointed; and transfers to the Director certain functions of the National Science Foundation under sections 3(a)(1) and 3(a)(6) of the National Science Foundation Act of 1950. The arrangements incorporated in part I of the reorganization plan will constitute an important development in executive branch organization for science and technology. Under those arrangements the President will have permanent staff resources capable of advising and assisting him on matters of national policy affected by or pertaining to science and technology. Considering the rapid growth and far-reaching scope of Federal activities in science and technology, it is imperative that the President have adequate staff support in developing policies and evaluating programs in order to assure that science and technology are used most effectively in the interests of national security and general welfare.

To this end it is contemplated that the Director will assist the President in discharging the responsibility of the President for the proper coordination of Federal science and technology functions. More particularly, it is expected that he will advise and assist the President as the President may request with respect to—

(1) The National Science Foundation was established in 1950. The Foundation was created to meet a widely recognized need for an organization to develop and encourage a national policy for the promotion of basic research and education in the sciences, to support basic research, to evaluate research programs undertaken by Federal agencies, and to perform related functions.

(2) The Office of the Special Assistant to the President for Science and Technology was established in 1957. The Special Assistant serves as Chairman of both the President's Science Advisory Committee and the Federal Council for Science and Technology, mentioned below.

(3) At the same time, the Science Advisory Committee, composed of eminent non-Government scientists and engineers, and located within the Office of Defense Mobilization, was reconstituted in the White House Office as the President's Science Advisory Committee.

(4) The Federal Council for Science and Technology, composed of policy officials of the principal agencies engaged in scientific and technical activities, was established in 1959.

The National Science Foundation has proved to be an effective instrument for administering sizable programs in support of basic research and education in the sciences and has set an example for other agencies through the administration of its own programs. However, the Foundation, being at the same organizational level as other agencies, cannot satisfactorily coordinate Federal science policies or evaluate programs of other agencies. Science policies, transcending agency lines, need to be coordinated and shaped at the level of the Executive Office of the President drawing upon new and outside of Federal activities in science and technology. Similarly, staff efforts at that higher level are required for the evaluation of Government programs in science and technology.

Thus the further steps contained in part I of the reorganization plan are now needed in order to meet most effectively new and expanding requirements brought about by the rapid and far-reaching growth of the Government's research and development programs. These requirements call for the further strengthening of science organization at the Presidential level and for the adjustment of the National Science Board to the changed conditions. The Foundation will continue to originate policy proposals and recommendations concerning the support of basic research and education in the sciences, and the new Office will look to the Foundation to provide studies and information on which sound national policies in science and technology can be based.

Part I of the reorganization plan will permit some strengthening of the staff and consultant resources now available to the President in respect of scientific and technical factors affecting executive branch policies and will also facilitate communication with the Congress.

Part II of the reorganization plan provides for certain reorganizations within the National Science Foundation which will strengthen the capability of the Director of the Foundation to exert leadership and otherwise further the effectiveness of administration of the Foundation. Specifically:

(1) There is established a new office of Director of the National Science Foundation and that Director, ex officio, is made a member of the National Science Board on a basis coordinate with that of other Board members.

(2) There is substituted for the now-existing Executive Committee of the National Science Board a new Executive Committee composed of the Director of the National Science Foundation, ex officio, as a voting member and Chairman of the Committee, and of four other members elected by the National Science Board from among its appointive members.

(3) Committees advisory to each of the divisions of the Foundation will make their recommendations to the Director only rather than to both the Director and the National Science Board.

After investigation I have found and hereby declare that each reorganization included in Reorganization Plan No. 2 of 1962 is necessary to accomplish one or more of the purposes set forth in section 2(a) of the Reorganization Act of 1949, as amended. I have found and hereby declare that it is necessary to include in the reorganization plan, by reason of reorganizations made thereby, provisions for the appointment and compensation of the Director and Deputy Director of the Office of Science and Technology and of the Director of the National Science Foundation. The rate of compensation fixed for each of these officers is that which I have found to prevail in respect of comparable officers in the executive branch of the Government.

The functions abolished by the provisions of section 29(b) of the reorganization plan are provided for in sections 4(a), 5(a), 6(a), 6(b), and 8(d) of the National Science Foundation Act of 1950.

The taking effect of the reorganizations included in the reorganization plan will provide sound organizational arrangements and will make possible more effective and efficient administration of Government programs in science and technology. It is, however, impracticable to itemize at this time the reductions in expenditures which it is probable will be brought about by such taking effect.
I recommend that the Congress allow the reorganization plan to become effective.

JOHN F. KENNEDY.

**EX. ORD. NO. 10521. ADMINISTRATION OF SCIENTIFIC RESEARCH**

Section 1. The National Science Foundation (hereinafter referred to as the Foundation) shall from time to time recommend to the President policies for the promotion and support of basic research and education in the sciences, including policies with respect to furnishing guidance toward defining the responsibilities of the Federal Government in the conduct and support of basic scientific research.

Section 2. The Foundation shall continue to make comprehensive studies and recommendations regarding the nation's research effort and its resources for scientific activities, including facilities and scientific personnel, and its foreseeable scientific needs, with particular attention to the extent of the Federal Government's activities and the resulting effects upon trained scientific personnel. In making such studies, the Foundation shall make full use of existing sources of information and research facilities within the Federal Government.

Section 3. The Foundation, in concert with each Federal agency concerned, shall review the basic scientific research programs and activities of the Federal Government in order, among other purposes, to formulate methods for strengthening the administration of such programs and activities by the responsible agencies, and to study areas of basic research where gaps or undesirable overlapping of support may exist, and shall recommend to the heads of agencies concerning the support given basic research.

Section 4. As now or hereafter authorized or permitted by law, the Foundation shall be increasingly responsible for providing support by the Federal Government for general-purpose basic research through contracts and grants. The conduct and support by other Federal agencies of basic research in areas which are closely related to their missions is recognized as important and desirable, especially in response to current national needs, and shall continue.

Section 5. The Foundation, in consultation with educational institutions, the heads of Federal agencies, and the Commissioner of Education of the Department of Health, Education, and Welfare [now Secretary of Education], shall study the effects upon educational institutions of Federal policies and administration of contracts and grants for scientific research and development, and shall recommend policies and procedures which will promote the attainment of general national research objectives and realization of the research needs of Federal agencies while safeguarding the strength and independence of the Nation's institutions of learning.

Section 6. The head of each Federal agency engaged in scientific research shall make certain that effective, executive, organizational, and fiscal practices exist to ensure (a) that the Foundation is consulted on policies concerning the support of basic research, (b) that approved scientific research programs conducted by the agency are reviewed continuously in order to preserve priorities in research efforts and to adjust programs to meet changing conditions without imposing unnecessary added burdens on budgetary and other resources, (c) that applied research and development shall be undertaken with sufficient consideration of the underlying basic research and such other factors as relative urgency, project costs, and availability of manpower and facilities, and (d) that, subject to considerations of security and applicable laws, adequate dissemination shall be made within the Federal Government of reports on the nature and progress of research projects as an aid to the efficiency and economy of the overall Federal scientific research program.

Section 7. Federal agencies supporting or engaging in scientific research shall, with the assistance of the Foundation, cooperate in an effort to improve the methods of classification and reporting of scientific research projects and activities, subject to the requirements of security of information.

Section 8. To facilitate the efficient use of scientific research equipment and facilities held by Federal agencies:

(a) the head of each such agency engaged in scientific research shall, to the extent practicable, encourage and facilitate the sharing with other Federal agencies of major equipment and facilities; and

(b) a Federal agency shall procure new major equipment or facilities for scientific research purposes only after taking suitable steps to ascertain that the need cannot be met adequately from existing inventories or facilities of its own or of other agencies; and

(c) the Interdepartmental Committee on Scientific Research and Development shall take necessary steps to ensure that each Federal agency engaged directly in scientific research is kept informed of selected major equipment and facilities which could serve the needs of more than one agency. Each Federal agency possessing such equipment and facilities shall maintain appropriate records to assist other agencies in arranging for their joint use or exchange.

Section 9. The heads of the respective Federal agencies shall make such reports concerning activities within the purview of this order as may be required by the President.

**EXECUTIVE ORDER NO. 10807**

**ABOLITION OF FEDERAL COUNCIL FOR SCIENCE AND TECHNOLOGY**

§ 1862a. Findings and purpose

(a) The Congress finds that—

(1) the fundamental research and related education program supported by the Federal Government and conducted by the Nation's universities and colleges are essential to our national security, and to our health, economic welfare, and general well-being;

(2) many national research and related education programs conducted by universities and colleges are now hindered by obsolete research buildings and equipment, and many institutions lack sufficient resources to repair, renovate, or replace their laboratories;
§ 1862b. Establishment of Program

(a) Establishment; purpose

(1) To carry out sections 1862a to 1862d of this title, the Director shall establish and carry out a new Academic Research Facilities Modernization Program (hereafter in sections 1862a to 1862d of this title referred to as the "Program"), under which awards are made to institutions of higher education, independent nonprofit research institutions, and research museums, and consortia thereof, for the repair, renovation, or, in exceptional cases, replacement of obsolete science and engineering facilities primarily devoted to research.

(2) Such awards shall, consistent with the functions of the Foundation set forth in section 1862 of this title and through established Foundation selection procedures, serve to—

(A) promote the modernization of graduate academic science and engineering research laboratories and related facilities so as to facilitate and support research in the scientific and engineering disciplines;

(B) assist those academic institutions that historically have received relatively little Federal research and development funds to improve their academic science and engineering infrastructures and broaden and strengthen the Nation's science and engineering base; and

(C) promote the modernization of undergraduate academic science and engineering research laboratories and related facilities so as to facilitate and support research in the scientific and engineering disciplines.

(b) Improvement projects; maximum amounts

(1) The Program shall be carried out through projects which involve the repair, renovation, or, in exceptional cases, replacement of specific science and engineering facilities devoted primarily to research at eligible institutions, or consortia thereof, and for which funds are awarded in response to specific proposals submitted by such eligible institutions or consortia in accordance with procedures prescribed by the Director pursuant to section 1862c of this title.

(2) Awards made under the Program shall not exceed $7,000,000 to any institution or consortium over any period of 5 years for the repair, renovation, or, in exceptional cases, replacement of academic research facilities.

(3) The Director shall, in making awards under the Program, consider the extent to which that institution or consortium has received funds for the repair, renovation, or replacement of academic facilities from any other Federal funding source within the 5-year period immediately preceding the application. The Director shall give priority to institutions or consortia that have not received such funds in the preceding 5 years.

(4) The Director shall, in awarding funds under sections 1862a to 1862d of this title, consider the distribution of funds among institutions of different sizes and geographical locations.

(c) Criteria for award of funds

Criteria for the award of funds to any institution for a project under the Program shall include—

(1) the quality of the research and training to be carried out in the facility or facilities involved;

(2) the need for the proposed repair, renovation, or, in exceptional cases, replacement based on an analysis of the age and condition of existing research facilities and equipment;

(3) the congruence of the institution's research and training activities with the future research needs of the Nation and the research mission of the Foundation;
(4) the contribution that the project will make toward meeting national, regional, and institutional research and related training needs;

(5) in the case of an institution that historically has received relatively little Federal research and development funding, the contribution the proposed project will make to improving the institution’s academic scientific and engineering infrastructure and broadening the Nation’s science and engineering base; and

(6) the impact of the award on the overall geographic distribution of awards made under the Program, with the objective of avoiding undue concentration of awards.

CODIFICATION

(5) Professional development is a necessary component of efforts to produce system-wide improvements in mathematics, engineering, and science education in secondary, elementary, and postsecondary settings.

(b) Core strategies

In carrying out activities designed to achieve the goals described in subsection (a) of this section, the Foundation shall use the following core strategies:

(1) Develop intellectual capital, both people and ideas, with particular emphasis on groups and regions that traditionally have not participated fully in science, mathematics, and engineering.

(2) Strengthen the scientific infrastructure by investing in facilities planning and modernization, instrument acquisition, instrument design and development, and shared-use research platforms.

(3) Integrate research and education through activities that emphasize and strengthen the natural connections between learning and inquiry.

(4) Promote partnerships with industry, elementary and secondary schools, community colleges, colleges and universities, other agencies, State and local governments, and other institutions involved in science, mathematics, and engineering to enhance the delivery of math and science education and improve the technological literacy of the citizens of the United States.

§ 1862p–9. Experimental Program to Stimulate Competitive Research

(a) Findings
The Congress finds that—
(1) The National Science Foundation Act of 1950 [42 U.S.C. 1861 et seq.] stated, “it shall be an objective of the Foundation to strengthen research and education in the sciences and engineering, including independent research by individuals, throughout the United States, and to avoid undue concentration of such research and education,”;
(2) National Science Foundation funding remains highly concentrated, with 27 States and 2 jurisdictions, taken together, receiving only about 10 percent of all NSF research funding; each of these States received only a fraction of one percent of Foundation’s research dollars each year;
(3) the Nation requires the talent, expertise, and research capabilities of all States in order to prepare sufficient numbers of scientists and engineers, remain globally competitive and support economic development.
(b) Continuation of program

The Director shall continue to carry out EPSCoR, with the objective of helping the eligible States to develop the research infrastructure that will make them more competitive for Foundation and other Federal research funding. The program shall continue to increase as the National Science Foundation funding increases.

(c) Congressional reports

The Director shall report to the appropriate committees of Congress on an annual basis, using the most recent available data—
(1) the total amount made available, by State, under EPSCoR;
(2) the amount of co-funding made available to EPSCoR States;
(3) the total amount of National Science Foundation funding made available to all institutions and entities within EPSCoR States; and
(4) efforts and accomplishments to more fully integrate the 29 EPSCoR jurisdictions in major activities and initiatives of the Foundation.

(d) Coordination of EPSCoR and similar Federal programs

(1) Another finding

The Congress finds that a number of Federal agencies have programs, such as Experimental Programs to Stimulate Competitive Research and the National Institutes of Health Institutional Development Award program, designed to increase the capacity for and quality of science and technology research and training at academic institutions in States that historically have received relatively little Federal research and development funding.

(2) Coordination required

The EPSCoR Interagency Coordinating Committee, chaired by the National Science Foundation, shall—
(A) coordinate EPSCoR and Federal EPSCoR-like programs to maximize the impact of Federal support for building competitive research infrastructure, and in order to achieve an integrated Federal effort;
(B) coordinate agency objectives with State and institutional goals, to obtain continued non-Federal support of science and technology research and training;
(C) develop metrics to assess gains in academic research quality and competitiveness, and in science and technology human resource development;
(D) conduct a cross-agency evaluation of EPSCoR and other Federal EPSCoR-like programs and accomplishments, including management, investment, and metric-measuring strategies implemented by the different agencies aimed to increase the number of new investigators receiving peer-reviewed funding, broaden participation, and empower knowledge generation, dissemination, application, and national research and development competitiveness;
(E) coordinate the development and implementation of new, novel workshops, outreach activities, and follow-up mentoring activities among EPSCoR or EPSCoR-like programs for colleges and universities in EPSCoR States and territories in order to increase the number of proposals submitted and successfully funded and to enhance statewide coordination of EPSCoR and Federal EPSCoR-like programs;
(F) coordinate the development of new, innovative solicitations and programs to facilitate collaborations, partnerships, and mentoring activities among faculty at all levels in non-EPSCoR and EPSCoR States and jurisdictions;
(G) conduct an evaluation of the roles, responsibilities, and degree of autonomy that program officers or managers (or the equivalent position) have in executing EPSCoR programs at the different Federal agencies and the impacts these differences have on the number of EPSCoR State and jurisdiction faculty participating in the peer review process and the percentage of successful awards by individual EPSCoR State jurisdiction and individual researcher; and
(H) conduct a survey of colleges and university faculty at all levels regarding their knowledge and understanding of EPSCoR, and their level of interaction with and knowledge about their respective State or Jurisdictional EPSCoR Committee.

(3) Meetings and reports

The Committee shall meet at least twice each fiscal year and shall submit an annual report to the appropriate committees of Congress describing progress made in carrying out paragraph (2).

(e) Federal agency reports

Each Federal agency that administers an EPSCoR or Federal EPSCoR-like program shall submit to the OSTP as part of its Federal budget submission—
(1) a description of the program strategy and objectives;
(2) a description of the awards made in the previous year, including—
(A) the percentage of reviewers and number of new reviewers from EPSCoR States;
(B) the percentage of new investigators from EPSCoR States;
(C) the number of programs or large collaborator awards involving a partnership of organizations and institutions from EPSCoR and non-EPSCoR States; and
(3) an analysis of the gains in academic research quality and competitiveness, and in science and technology human resource development, achieved by the program in the last year.

(f) National Academy of Sciences study

(1) In general

The Director shall contract with the National Academy of Sciences to conduct a study on all Federal agencies that administer an Experimental Program to Stimulate Competitive Research or a program similar to the Experimental Program to Stimulate Competitive Research.

(2) Matters to be addressed

The study conducted under paragraph (1) shall include the following:

(b) NSF website

The National Science Foundation shall create and maintain a website accessible to the public that links to each website mentioned under (a).

(c) Trade secret information

Notwithstanding subsection (a), an institution shall not be required to reveal confidential, trade secret, or proprietary information on its website.

AMENDMENTS

§ 1885. Congressional statement of findings and declaration of policy respecting equal opportunities in science and engineering

(a) The Congress finds that it is in the national interest to promote the full use of human resources in science and engineering and to ensure the full development and use of the scientific and engineering talents and skills of men and women, equally, of all ethnic, racial, and economic backgrounds, including persons with disabilities.

(b) The Congress declares it is the policy of the United States to encourage men and women, equally, of all ethnic, racial, and economic backgrounds, including persons with disabilities, to acquire skills in science, engineering, and mathematics, to have equal opportunity in education, training, and employment in scientific and engineering fields, and thereby to promote scientific and engineering literacy and the full use of the human resources of the Nation in science and engineering. To this end, the Congress declares that the highest quality science and engineering over the long-term requires substantial support, from currently available research and educational funds, for increased participation in science and engineering by women, minorities, and persons with disabilities. The Congress further declares that the impact on women, minorities, and persons with disabilities, which is produced by advances in science and engineering must be included as essential factors in national and international science, engineering, and economic policies.

§ 1962–2. Congressional statement of objectives

It is the intent of Congress that the objectives of enhancing regional economic development, the quality of the total environment, including its protection and improvement, the well-being of the people of the United States, and the national economic development are the objectives to be included in federally financed water resource projects (including shore protection projects such as projects for beach nourishment, including the replacement of sand), and in the evaluation of benefits and cost attributable thereto, giving due consideration to the most feasible alternative means of accomplishing these objectives.

Conciliation

Section was enacted as part of the Flood Control Act of 1970 and not as a part of the Water Resources Planning Act which comprises this chapter.

Amendments

1996—Pub. L. 104–303 inserted “(including shore protection projects such as projects for beach nourishment, including the replacement of sand)” after “water resource projects”.

§ 1962–3. Water resources principles and guidelines

(a) National water resources planning policy

It is the policy of the United States that all water resources projects should reflect national priorities, encourage economic development, and protect the environment by—
(1) seeking to maximize sustainable economic development;
(2) seeking to avoid the unwise use of floodplains and flood-prone areas and minimizing adverse impacts and vulnerabilities in any case in which a floodplain or flood-prone area must be used; and
(3) protecting and restoring the functions of natural systems and mitigating any unavoidable damage to natural systems.

(b) Principles and guidelines

(1) Principles and guidelines defined

In this subsection, the term “principles and guidelines” means the principles and guidelines contained in the document prepared by the Water Resources Council pursuant to section 1962a–2 of this title, entitled “Economic and Environmental Principles and Guidelines for Water and Related Land Resources Implementation Studies”, and dated March 10, 1983.

(2) In general

Not later than 2 years after November 8, 2007, the Secretary shall issue revisions, consistent with paragraph (3), to the principles and guidelines for use by the Secretary in the formulation, evaluation, and implementation of water resources projects.

(3) Considerations

In developing revisions to the principles and guidelines under paragraph (2), the Secretary shall evaluate the consistency of the principles and guidelines with, and ensure that the principles and guidelines address, the following:
(A) The use of best available economic principles and analytical techniques, including techniques in risk and uncertainty analysis.
(B) The assessment and incorporation of public safety in the formulation of alternatives and recommended plans.

(C) Assessment methods that reflect the value of projects for low-income communities and projects that use nonstructural approaches to water resources development and management.

(D) The assessment and evaluation of the interaction of a project with other water resources projects and programs within a region or watershed.

(E) The use of contemporary water resources paradigms, including integrated water resources management and adaptive management.

(F) Evaluation methods that ensure that water resources projects are justified by public benefits.

(4) Consultation and public participation

In carrying out paragraph (2), the Secretary shall—

(A) consult with the Secretary of the Interior, the Secretary of Agriculture, the Secretary of Commerce, the Secretary of Housing and Urban Development, the Secretary of Transportation, the Administrator of the Environmental Protection Agency, the Secretary of Energy, the Secretary of Homeland Security, the National Academy of Sciences, and the Council on Environmental Quality; and

(B) solicit and consider public and expert comments.

(5) Publication

The Secretary shall—

(A) submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives copies of—

(i) the revisions to the principles and guidelines for use by the Secretary; and

(ii) an explanation of the intent of each revision, how each revision is consistent with this section, and the probable impact of each revision on water resources projects carried out by the Secretary; and

(B) make the revisions to the principles and guidelines for use by the Secretary available to the public, including on the Internet.

(6) Effect

Subject to the requirements of this subsection, the principles and guidelines as revised under this subsection shall apply to water resources projects carried out by the Secretary instead of the principles and guidelines for such projects in effect on the day before November 8, 2007.

(7) Applicability

After the date of issuance of the revisions to the principles and guidelines, the revisions shall apply—

(A) to all water resources projects carried out by the Secretary, other than projects for which the Secretary has commenced a feasibility study before the date of such issuance; and

(B) at the request of a non-Federal interest, to a water resources project for which the Secretary has commenced a feasibility study before the date of such issuance; and

(C) to the reevaluation or modification of a water resources project, other than a reevaluation or modification that has been commenced by the Secretary before the date of such issuance.

(8) Existing studies

Revisions to the principles and guidelines issued under paragraph (2) shall not affect the validity of any completed study of a water resources project.

(9) Recommendation

Upon completion of the revisions to the principles and guidelines for use by the Secretary, the Secretary shall make a recommendation to Congress as to the advisability of repealing subsections (a) and (b) of section 1962d-17 of this title.

CODIFICATION

Section was enacted as part of the Water Resources Development Act of 2007, and not as part of the Water Resources Planning Act which comprises this chapter.

“Secretary” Defined

Secretary means the Secretary of the Army, see section 2 of Pub. L. 110–114, set out as a note under section 2201 of Title 33, Navigation and Navigable Waters.

SUBCHAPTER I—WATER RESOURCES COUNCIL

§ 1962a. Establishment; composition; other Federal agency participation; designation of Chairman

There is hereby established a Water Resources Council (hereinafter referred to as the “Council”) which shall be composed of the Secretary of the Interior, the Secretary of Agriculture, the Secretary of Commerce, the Secretary of Housing and Urban Development, the Secretary of Transportation, the Administrator of the Environmental Protection Agency, and the Secretary of Energy. The Chairman of the Council shall request the heads of other Federal agencies to participate with the Council when matters affecting their responsibilities are considered by the Council. The Chairman of the Council shall be designated by the President.

AMENDMENTS

TRANSFER OF FUNCTIONS

“Secretary of Energy” substituted for “Chairman of the Federal Power Commission” in text pursuant to
The Council shall—

(a) maintain a continuing study and prepare an assessment biennially, or at such less frequent intervals as the Council may determine, of the adequacy of supplies of water necessary to meet the water requirements in each water resource region in the United States and the national interest therein; and

(b) maintain a continuing study of the relation of regional or river basin plans and programs to the requirements of larger regions of the Nation and of the adequacy of administrative and statutory means for the coordination of the water and related land resources policies and programs of the several Federal agencies; it shall appraise the adequacy of existing and proposed policies and programs to meet such requirements; and it shall make recommendations to the President with respect to Federal policies and programs.

§ 1962a–2. Principles, standards, and procedures for Federal projects

(a) Establishment, consultation, revision

The Council shall establish, after such consultation with other interested entities, both Federal and non-Federal, as the Council may find appropriate, and with the approval of the President, principles, standards, and procedures for Federal participants in the preparation of comprehensive regional or river basin plans and for the formulation and evaluation of Federal water and related land resources projects. Such procedures may include provision for Council revision of plans for Federal projects intended to be proposed in any plan or revision thereof being prepared by a river basin planning commission.

(b) Economic evaluation; primary criterion

The Council shall develop standards and criteria for economic evaluation of water resource projects. For the purpose of those standards and criteria, the primary direct navigation benefits of a water resource project are defined as the product of the savings to shippers using the waterway and the estimated traffic that would use the waterway. “Savings to shippers” means the difference between (1) the freight rates or charges prevailing at the time of the study for the movement by the alternative means, and (2) those which would be charged on the proposed waterway. Estimated traffic that would use the waterway will be based on those freight rates, taking into account projections of the economic growth of the area.

A partnership agreement described in paragraph (1) may include a provision for liquidated damages in the event of a failure of one or more parties to perform.

(3) Obligation of future appropriations

In any partnership agreement described in paragraph (1) and entered into by a State, or a body politic of the State which derives its powers from the State constitution, or a governmental entity created by the State legislature, the agreement may reflect that it does not obligate future appropriations for such performance and payment when obligating future appropriations would be inconsistent with constitutional or statutory limitations of the State or a political subdivision of the State.

(A) In general

A partnership agreement described in paragraph (1) may provide with respect to a project that the Secretary shall credit toward the non-Federal share of the cost of the project, including a project implemented without specific authorization in law, the value of in-kind contributions made by the non-Federal interest, including—

(i) the costs of planning (including data collection), design, management, mitigation, construction, and construction services that are provided by the non-Federal interest for implementation of the project;

In any case in which the non-Federal interest is to receive credit under subparagraph (A)(ii) for the cost of work carried out by the non-Federal interest and such work has not been carried out as of November 8, 2007, the Secretary and the non-Federal interest shall enter into an agreement under which the non-Federal interest shall carry out such work, and only work carried out following the execution of the agreement shall be eligible for credit.

(D) Limitations

Credit authorized under this paragraph for a project—

(i) shall not exceed the non-Federal share of the cost of the project;

(ii) shall not alter any other requirement that a non-Federal interest provide 50% of the costs of a study for, or construction of which was commenced before November 16, 1986, including projects initiated after November 16, 1986, without specific authorization in law.

(E) Applicability

In general

This paragraph shall apply to water resources projects authorized after November 16, 1986, including projects initiated after November 16, 1986, without specific authorization in law.

(ii) Limitation

In any case in which a specific provision of law provides for a non-Federal interest to receive credit toward the cost of a project for water resources projects authorized after November 16, 1986, without specific authorization in law, the specific provision of law shall apply instead of this paragraph.

(b) Definition of non-Federal interest

The term “non-Federal interest” means—

(1) a legally constituted public body (including a federally recognized Indian tribe); or

Every agreement entered into pursuant to this section shall be enforceable in the appropriate district court of the United States.

(d) Nonperformance of terms of agreement by non-Federal interest; notice; reasonable opportunity for performance; performance by Chief of Engineers

After commencement of construction of a project, the Chief of Engineers may undertake performance of those items of cooperation necessary to the functioning of the project for its purposes, if he has first notified the non-Federal interest of its failure to perform the terms of its agreement and has given such interest a reasonable time after such notification to so perform.

(e) Delegation of authority

Not later than June 30, 2008, the Secretary shall issue policies and guidelines for partnership agreements that delegate to the district engineers, at a minimum—

1. the authority to approve any partnership agreement that has appeared in an agreement previously approved by the Secretary;

2. the authority to approve any partnership agreement the specific terms of which are dictated by law or by a final feasibility study, final environmental impact statement, or other final decision document for a water resources project;

3. the authority to approve any partnership agreement that complies with the policies and guidelines issued by the Secretary; and

4. the authority to sign any partnership agreement for any water resources project unless, within 30 days of the date of authorization of the project, the Secretary notifies the district engineer in which the project will be carried out that the Secretary wishes to retain the prerogative to sign the partnership agreement for that project.

(f) Report to Congress

Not later than 2 years after November 8, 2007, and every year thereafter, the Secretary shall submit to Congress a report detailing the following:

2. make each partnership agreement entered into after November 8, 2007, available to the public, including on the Internet, not later than 7 days after the date on which such agreement is entered into.

(h) Effective date

This section shall not apply to any project the construction of which was commenced before
January 1, 1972, or to the assurances for future demands required by the Water Supply Act of 1958, as amended [43 U.S.C. 396b].

formance, operation, and maintenance, as well
as necessary replacements in accordance with
this section upon full payment by such non-Fed-
eral public authorities as required under sub-
section (g)(1) of this section. Such conveyance
shall, pursuant to the agreement required by sub-
section (g) of this section, to the maximum
extent possible, occur immediately upon the
project’s availability for generation of all or a
substantial portion of the authorized hydro-
electric power of the project, and shall include
such Federal requirements, reservations, and
provisions for access rights to the project and
its records as the Secretary finds advisable to
complete any portion of project construction re-
mainning at the time of conveyance and to assure
that the project will be operated and maintained
in a responsible and safe manner to accomplish,

Every provision of law and every administrative action in conflict with this section is hereby repealed to the extent of such conflict.

(b) Interest rate for prior authorized projects ascribed to non-Federal share of project costs; continuation of rate

In the case of any project authorized before January 3, 1969, if the appropriate non-Federal share of project costs, the discount rate to be used in the computation of benefits and costs for such project shall be the rate in effect immediately prior to December 24, 1968, and that rate shall continue to be used for such project until construction has been completed, unless otherwise provided by a statute enacted after March 7, 1974.

§ 1962d–18. Study of depletion of natural resources of regions of Colorado, Kansas, New Mexico, Oklahoma, Texas, and Nebraska utilizing Ogallala aquifer; plans; reports to Congress; authorization of appropriation

In order to assure an adequate supply of food to the Nation and to promote the economic vitality of the High Plains Region, the Secretary of Commerce (hereinafter referred to in this section as the “Secretary”), acting through the Economic Development Administration, in cooperation with the Secretary of the Army, acting through the Chief of Engineers, and appropriate Federal, State, and local agencies, and the private sector, is authorized and directed to study the depletion of the natural resources of those regions of the States of Colorado, Kansas, New Mexico, Oklahoma, Texas, and Nebraska presently utilizing the declining water resources of the Ogallala aquifer,¹ and to develop plans to increase water supplies in the area and report thereon to Congress, together with any recommendations for further congressional action. In formulating these plans, the Secretary is directed to consider all past and ongoing studies, plans, and work on depleted water resources in the region, and to examine the feasibility of various alternatives to provide adequate water supplies in the area including, but not limited to, the transfer of water from adjacent areas, such portion to be conducted by the Chief of Engineers to assure the continued economic growth and vitality of the region. The Secretary shall report on the costs of reasonably available options, the benefits of various options, and the costs of inaction. If water transfer is found to be a part of a reasonable solution, the Secretary, as

part of his study, shall include a recommended plan for allocating and distributing water in an equitable fashion, taking into account existing water rights and the needs for future growth of all affected areas. An interim report, with recommendations, shall be transmitted to the Congress no later than October 1, 1978, and a final report, with recommendations, shall be transmitted to Congress not later than July 1, 1980. § 1962d–20. Prohibition on Great Lakes diversions

(a) Congressional findings and declarations

The Congress finds and declares that—

(1) the Great Lakes are a most important natural resource to the eight Great Lakes States and two Canadian provinces, providing water supply for domestic and industrial use, clean energy through hydropower production, an efficient transportation mode for moving products into and out of the Great Lakes region, and recreational uses for millions of United States and Canadian citizens;

(2) the Great Lakes need to be carefully managed and protected to meet current and future needs within the Great Lakes basin and Canadian provinces;

(3) any new diversions of Great Lakes water for use outside of the Great Lakes basin will have significant economic and environmental impacts, adversely affecting the use of this resource by the Great Lakes States and Canadian provinces; and

(4) four of the Great Lakes are international waters and are defined as boundary waters in the Boundary Waters Treaty of 1909 between the United States and Canada, and as such any new diversion of Great Lakes water in the United States would affect the relations of the Government of the United States with the Government of Canada.

(b) Congressional declaration of purpose and policy

It is therefore declared to be the purpose and policy of the Congress in this section—

(1) to take immediate action to protect the limited quantity of water available from the Great Lakes system for use by the Great Lakes States and in accordance with the Boundary Waters Treaty of 1909;

(2) to encourage the Great Lakes States, in consultation with the Provinces of Ontario and Quebec, to develop and implement a mechanism that provides a common conservation standard embodying the principles of water conservation and resource improvement for making decisions concerning the withdrawal and use of water from the Great Lakes Basin;

(3) to prohibit any diversion of Great Lakes water by any State, Federal agency, or private entity for use outside the Great Lakes basin unless such diversion is approved by the Governor of each of the Great Lakes States; and

(4) to prohibit any Federal agency from undertaking any studies that would involve the transfer of Great Lakes water for any purpose for use outside the Great Lakes basin.

(c) “Great Lakes State” defined

As used in this section, the term “Great Lakes State” means each of the States of Illinois, Indiana, Michigan, Minnesota, Ohio, Pennsylvania, New York, and Wisconsin.

(d) Approval by Governors for diversion of water

No water shall be diverted or exported from any portion of the Great Lakes within the United States, or from any tributary within the United States of any of the Great Lakes, for use outside the Great Lakes basin unless such diversion or export is approved by the Governor of each of the Great Lakes States.

(e) Approval of Governors for diversion studies

No Federal agency may undertake any study, or expend any Federal funds to contract for any study, of the feasibility of diverting water from any portion of the Great Lakes within the United States, or from any tributary within the United States of any of the Great Lakes, for use outside the Great Lakes basin unless such study or expenditure is approved by the Governor of each of the Great Lakes States. The prohibition of the preceding sentence shall not apply to any study or data collection effort performed by the Corps of Engineers or other Federal agency under the direction of the International Joint Commission in accordance with the Boundary Waters Treaty of 1909.

(f) Previously authorized diversions

This section shall not apply to any diversion of water from any of the Great Lakes which is authorized on November 17, 1986.

SUBCHAPTER I—GENERALLY

§ 1971. Voting rights

(a) Race, color, or previous condition not to affect right to vote; uniform standards for voting qualifications; errors or omissions from papers; literacy tests; agreements between Attorney General and State or local authorities; definitions

(1) All citizens of the United States who are otherwise qualified by law to vote at any election by the people in any State, Territory, district, county, city, parish, township, school dis-
strict, municipality, or other territorial subdivision, shall be entitled and allowed to vote at all such elections, without distinction of race, color, or previous condition of servitude; any constitution, law, custom, usage, or regulation of any State or Territory, or by or under its authority, to the contrary notwithstanding.

(2) No person acting under color of law shall—
(A) in determining whether any individual is qualified under State law or laws to vote in any election, apply any standard, practice, or procedure different from the standards, practices, or procedures applied under such law or laws to other individuals within the same county, parish, or similar political subdivision who have been found by State officials to be qualified to vote;
(B) deny the right of any individual to vote in any election because of an error or omission on any record or paper relating to any application, registration, or other act requisite to voting, if such error or omission is not material in determining whether such individual is qualified under State law to vote in such election;
(C) employ any literacy test as a qualification for voting in any election unless (i) such test is administered to each individual and is conducted wholly in writing, and (ii) a certified copy of the test and of the answers given by the individual is furnished to him within twenty-five days of the submission of his request made within the period of time during which records and papers are required to be retained and preserved pursuant to title III of the Civil Rights Act of 1960 [42 U.S.C. 1974 et seq.]; Provided, however, That the Attorney General may enter into agreements with appropriate State or local authorities that preparation, conduct, and maintenance of such tests in accordance with the provisions of applicable State or local law, including such special provisions as are necessary in the preparation, conduct, and maintenance of such tests for persons who are blind or otherwise physically handicapped, meet the purposes of this subparagraph and constitute compliance therewith.

(3) For purposes of this subsection—
(A) the term “vote” shall have the same meaning as in subsection (e) of this section;
(B) the phrase “literacy test” includes any test of the ability to read, write, understand, or interpret any matter.

(b) Intimidation, threats, or coercion

No person, whether acting under color of law or otherwise, shall intimidate, threaten, coerce, or attempt to intimidate, threaten, or coerce any other person for the purpose of interfering with the right of such other person to vote or to vote as he may choose, or of causing such other person to vote for, or not to vote for, any candidate for the office of President, Vice President, presidential elector, Member of the Senate, or Member of the House of Representatives, Delegates or Commissioners from the Territories or possessions, at any general, special, or primary election held solely or in part for the purpose of selecting or electing any such candidate.

(c) Preventive relief; injunction; rebuttable literacy presumption; liability of United States for costs; State as party defendant

Whenever any person has engaged or there are reasonable grounds to believe that any person is about to engage in any act or practice which would deprive any other person of any right or privilege secured by subsection (a) or (b) of this section, the Attorney General may institute for the United States, or in the name of the United States, a civil action or other proper proceeding for preventive relief, including an application for a permanent or temporary injunction, restraining order, or other order. If in any such proceeding literacy is a relevant fact there shall be a rebuttable presumption that any person who has not been adjudged an incompetant and who has completed the sixth grade in a public school in, or a private school accredited by, any State or territory, the District of Columbia, or the Commonwealth of Puerto Rico where construction is carried on predominantly in the English language, possesses sufficient literacy, comprehension, and intelligence to vote in any election. In any proceeding hereunder the United States shall be liable for costs the same as a private person. Whenever, in a proceeding instituted under this subsection any official of a State or subdivision thereof is alleged to have committed any act or practice constituting a deprivation of any right or privilege secured by subsection (a) of this section, the act or practice shall also be deemed that of the State and the State may be joined as a party defendant and, if, prior to the institution of such proceeding, such official has resigned or has been relieved of his office and no successor has assumed such office, the proceeding may be instituted against the State.

(d) Jurisdiction; exhaustion of other remedies

The district courts of the United States shall have jurisdiction of proceedings instituted pursuant to this section and shall exercise the same without regard to whether the party aggrieved shall have exhausted any administrative or other remedies that may be provided by law.

(e) Order qualifying person to vote; application; hearing; voting referees; transmittal of report and order; certificate of qualification; definitions

In any proceeding instituted pursuant to subsection (c) of this section in the event the court finds that any person has been deprived on account of race or color of any right or privilege secured by subsection (a) of this section, the court shall upon request of the Attorney General and after each party has been given notice and the opportunity to be heard make a finding whether such deprivation was or is pursuant to a pattern or practice. If the court finds such pattern or practice, any person of such race or color resident within the affected area shall, for one year and thereafter until the court subsequently finds that such pattern or practice has ceased, be entitled, upon his application therefor, upon order declaring him qualified to vote, upon proof that at any election or elections (1) he is qualified under State law to vote, and (2) he has since such finding by the court been (a) deprived of or
denied under color of law the opportunity to register to vote or otherwise to qualify to vote, or (b) found not qualified to vote by any person acting under color of law. Such order shall be effective as to any election held within the longest period for which such applicant could have been registered or otherwise qualified under State law at which the applicant’s qualifications would under State law entitle him to vote.

Notwithstanding any inconsistent provision of State law or the action of any State officer or court, an applicant so declared qualified to vote shall be permitted to vote in any such election. The Attorney General shall cause to be transmitted certified copies of such order to the appropriate election officers. The refusal by any such officer with notice of such order to permit any person so declared qualified to vote to vote at an appropriate election shall constitute contempt of court.

An application for an order pursuant to this subsection shall be heard within ten days, and the execution of any order disposing of such application shall not be stayed except by order beyond the date of any election at which the applicant would otherwise be enabled to vote.

The court may appoint one or more persons who are qualified voters in the judicial district, to be known as voting referees, who shall subscribe to the oath of office required by section 3331 of title 5, to serve for such period as the court shall determine, to receive such applications and to take evidence and report to the court findings as to whether or not at any election or elections (1) any such applicant is qualified under State law to vote, and (2) he has since the finding by the court heretofore specified been (a) deprived of or denied under color of law the opportunity to register to vote or otherwise to qualify to vote, or (b) found not qualified to vote by any person acting under color of law. In a proceeding before a voting referee, the applicant shall be heard ex parte at such times and places as the court shall direct. His statement under oath shall be prima facie evidence as to his age, residence, and his prior efforts to register or otherwise qualify to vote. Where proof of literacy or an understanding of other subjects is required by valid provisions of State law, the answer of the applicant, if written, shall be included in such report to the court; if oral, it shall be taken down stenographically and a transcription included in such report to the court.

Upon receipt of such report, the court shall cause the Attorney General to transmit a copy thereof to the State attorney general and to each party to such proceeding together with an order to show cause within ten days, or such shorter time as the court may fix, why an order of the court should not be entered in accordance with such report. Upon the expiration of such period, such order shall be entered unless prior to that time there has been filed with the court and served upon all parties a statement of exceptions to such report. Exceptions as to matters of fact shall be considered only if supported by a duly verified copy of a public record or by affidavit of persons having personal knowledge of such facts or by statements or matters contained in such report; those relating to matters of law shall be supported by an appropriate memorandum of law. The issues of fact and law raised by such exceptions shall be determined by the court or, if the due and speedy administration of justice requires, they may be referred to the voting referee to determine in accordance with procedures prescribed by the court. A hearing as to an issue of fact shall be held only in the event that the proof in support of the exception disclose the existence of a genuine issue of material fact. The applicant’s literacy and understanding of other subjects shall be determined solely on the basis of answers included in the report of the voting referee.

The court, or at its direction the voting referee, shall issue to each applicant so declared qualified a certificate identifying the holder thereof as a person so qualified.

Any voting referee appointed by the court pursuant to this subsection shall to the extent not inconsistent herewith have all the powers conferred upon a master by rule 53(c) of these Rules of Civil Procedure. The compensation to be allowed to any persons appointed by the court pursuant to this subsection shall be fixed by the court and shall be payable by the United States.

Applications pursuant to this subsection shall be determined expeditiously. In the case of any application filed twenty or more days prior to an election which is undetermined by the time of such election, the court shall issue an order authorizing the applicant to vote provisionally:

Provided, however, That such applicant shall be qualified to vote under State law. In the case of an application filed within twenty days prior to an election, the court, in its discretion, may make such an order. In either case the order shall make appropriate provision for the impounding of the applicant’s ballot pending determination of the application. The court may take any other action, and may authorize such referee or such other person as it may designate to take any other action, appropriate or necessary to carry out the provisions of this subsection and to enforce its decrees. This subsection shall in no way be construed as a limitation upon the existing powers of the court.

When used in the subsection, the word “vote” includes all action necessary to make a vote effective including, but not limited to, registration or other action required by State law prerequisite to voting, casting a ballot, and having such ballot counted and included in the appropriate totals of votes cast with respect to candidates for public office and propositions for which votes are received in an election; the words “affected area” shall mean any subdivision of the State in which the laws of the State relating to voting are or have been to any extent administered by a person found in the proceeding to have violated subsection (a) of this section; and the words “qualified under State law” shall mean qualified according to the laws, customs, or usages of the State, and shall not, in any event, imply qualifications more stringent than those used by the persons found in the proceeding to have violated subsection (a) in qualifying persons other than those of the race or
color against which the pattern or practice of discrimination was found to exist.

(f) Contempt; assignment of counsel; witnesses

Any person cited for an alleged contempt pursuant to this Act shall be allowed to make his full defense by counsel learned in the law; and the court before which he is cited or tried, or some judge thereof, shall immediately, upon his re-
quest, assign to him such counsel, not exceeding two, as he may desire, who shall have free access to him at all reasonable hours. He shall be al-
lowed, in his defense to make any proof that he can produce by lawful witnesses, and shall have the like process of the court to compel his wit-
nesses to appear at his trial or hearing, as is usually granted to compel witnesses to appear on behalf of the prosecution. If such person shall be found by the court to be financially unable to provide for such counsel, it shall be the duty of the court to provide such counsel.

(g) Three-judge district court: hearing, determina-
tion, expedition of action, review by Su-
preme Court; single-judge district court: hear-
ing, determination, expedition of action

In any proceeding instituted by the United States in any district court of the United States under this section in which the Attorney General requests a finding of a pattern or practice of discrimination pursuant to subsection (e) of this section the Attorney General, at the time he files the complaint, or any defendant in the pro-
ceeding, within twenty days after service upon him of the complaint, may file with the clerk of such court a request that a court of three judges be convened to hear and determine the entire case. A copy of the request for a three-judge court shall be immediately furnished by such clerk to the chief judge of the circuit (or in his absence, the presiding circuit judge of the circuit) in which the case is pending. Upon receipt of the copy of such request it shall be the duty of the chief judge of the circuit or the presiding circuit judge, as the case may be, to designate immediately three judges in such circuit, of whom at least one shall be a circuit judge and another of whom shall be a district judge of the circuit in which the proceeding was instituted, to hear and determine such case, and it shall be the duty of the judges so designated to assign the case for hearing at the earliest practicable date, to participate in the hearing and determination thereof, and to cause the case to be in every way expedited. An appeal from the final judgment of such court will lie to the Supreme Court. In any proceeding brought under subsection (c) of this section to enforce subsection (b) of this section, or in the event neither the Attor-
ney General nor any defendant files a request for a three-judge court in any proceeding au-
thorized by this subsection, it shall be the duty of the chief judge of the district (or in his absence, the acting chief judge) in which the case is pending immediately to designate a judge in such district to hear and determine the case. In the event that no judge in the district is avail-
able to hear and determine the case, the chief judge of the district, or the acting chief judge, as the case may be, shall certify this fact to the chief judge of the circuit (or, in his absence, the acting chief judge) who shall then designate a
district or circuit judge of the circuit to hear and determine the case.

It shall be the duty of the judge designated pursuant to this section to assign the case for hearing at the earliest practicable date and to cause the case to be in every way expedited.

**SUBCHAPTER I—ENFORCEMENT OF VOTING RIGHTS**

§ 1973. Denial or abridgement of right to vote on account of race or color through voting qualifications or prerequisites; establishment of violation

(a) No voting qualification or prerequisite to voting or standard, practice, or procedure shall
be imposed or applied by any State or political subdivision in a manner which results in a denial or abridgement of the right of any citizen of the United States to vote on account of race or color, or in contravention of the guarantees set forth in section 1973b(h)(2) of this title, as provided in subsection (b) of this section.

(b) A violation of subsection (a) of this section is established if, based on the totality of circumstances, it is shown that the political processes affecting the nomination or election in the State or political subdivision are not equally open to participation by members of a class of citizens protected by subsection (a) of this section in that its members have less opportunity than other members of the electorate to participate in the political process and to elect representatives of their choice. The extent to which members of a protected class have been elected to office in the State or political subdivision is one circumstance which may be considered: Provided, That nothing in this section establishes a right to have members of a protected class elected in numbers equal to their proportion in the population.

AMENDMENTS

1982—Pub. L. 97–205 redesignated existing provisions as subsec. (a), struck out the comma after “voting”, substituted “in a manner which results in a denial or abridgement of” for “to deny or abridge”, inserted “as provided in subsection (b) of this section” after “in contravention of the guarantees set forth in section 1973b(h)(2) of this title”, and added subsec. (b).

1975—Pub. L. 94–73 substituted “race or color” for “race or color or language minority”.

EFFECTIVE DATE OF 1982 AMENDMENT

Section 6 of Pub. L. 97–205 provided that: “Except as otherwise provided in this Act, the amendments made by this Act [see Short Title note set out under section 1971 of this title] shall take effect on the date of the enactment of this Act [June 29, 1982].”

SHORT TITLE

This subchapter and subchapters I-B and I-C of this chapter known as the “Voting Rights Act of 1965”, see Short Title note set out under section 1971 of this title.

CONGRESSIONAL PURPOSE AND FINDINGS

Pub. L. 109–246, § 2, July 27, 2006, 120 Stat. 577, provided that: “(a) PURPOSE.—The purpose of this Act [see Short Title note set out under section 1971 of this title] is to ensure that the right of all citizens to vote, including the right to register to vote and cast meaningful votes, is preserved and protected as guaranteed by the Constitution.

(b) FINDINGS.—The Congress finds the following:

(1) Significant progress has been made in eliminating first-generation barriers experienced by minority voters, including increased numbers of registered minority voters, minority voter turnout, and minority representation in Congress, State legislatures, and local elected offices. This progress is the direct result of the Voting Rights Act of 1965 [this subchapter and subchapters I-B and I-C of this chapter].

(2) However, vestiges of discrimination in voting continue to exist as demonstrated by second generation barriers constructed to prevent minority voters from fully participating in the electoral process.

(3) The continued evidence of racially polarized voting in each of the jurisdictions covered by the expiring provisions of the Voting Rights Act of 1965 demonstrates that racial and language minorities remain politically vulnerable, warranting the continued protection of the Voting Rights Act of 1965.

(4) Evidence of continued discrimination includes—

(A) The hundreds of objections interposed, requests for more information submitted following voting changes withdrawn from consideration by jurisdictions covered by the Voting Rights Act of 1965, and section 5 [42 U.S.C. 1973c] enforcement actions undertaken by the Department of Justice in covered jurisdictions since 1982 that prevented election practices, such as annexation, at-large voting, and the use of multi-member districts, from being enacted to dilute minority voting strength;

(B) The number of requests for declaratory judgments denied by the United States District Court for the District of Columbia;

(C) The continued filing of section 2 [42 U.S.C. 1973] cases that originated in covered jurisdictions; and

(D) The litigation pursued by the Department of Justice since 1982 to enforce sections 4(e), 4(f)(4), and 203 of such Act [42 U.S.C. 1973(e), (f)(4), 1973aa–1a] to ensure that all language minority citizens have full access to the political process.

(6) The evidence clearly shows the continued need for Federal oversight in jurisdictions covered by the Voting Rights Act of 1965 since 1982, as demonstrated in the counties certified by the Attorney General for Federal examiner and observer coverage and the tens of thousands of Federal observers that have been dispatched to observe elections in covered jurisdictions.

(7) Despite the progress made by minorities under the Voting Rights Act of 1965, the evidence before Congress reveals that 40 years has not been a sufficient amount of time to eliminate the vestiges of discrimination following nearly 100 years of disregard for the dictates of the 15th amendment and to ensure that the right of all citizens to vote is protected as guaranteed by the Constitution.

(8) Present day discrimination experienced by racial and language minority voters is contained in evidence, including the objections interposed by the Department of Justice in covered jurisdictions; the litigation filed to prevent dilutive techniques from adversely affecting minority voters; the enforcement actions filed to protect language minority; and the tens of thousands of Federal observers dispatched to monitor polls in jurisdictions covered by the Voting Rights Act of 1965.

(9) The record compiled by Congress demonstrates that, without the continuation of the Voting Rights Act of 1965 protections, racial and language minority citizens will be deprived of the opportunity to exercise their right to vote, or will have their votes diluted, undermining the significant gains made by minorities in the last 40 years.”

SEPARABILITY

§ 1973a. Proceeding to enforce the right to vote

(a) Authorization by court for appointment of Federal observers

Whenever the Attorney General or an aggrieved person institutes a proceeding under any statute to enforce the voting guarantees of the fourteenth or fifteenth amendment in any State or political subdivision the court shall authorize the appointment of Federal observers by the Director of the Office of Personnel Management in accordance with section 1973d of this title to serve for such period of time and for such political subdivisions as the court shall determine is appropriate to enforce the voting guarantees of the fourteenth or fifteenth amendment (1) as part of any interlocutory order if the court determines that the appointment of such observers is necessary to enforce such voting guarantees or (2) as part of any final judgment if the court finds that violations of the fourteenth or fifteenth amendment justifying equitable relief have occurred in such State or subdivision: Provided, That such qualification, prerequisite, standard, practice, or procedure may be enforced if the qualification, prerequisite, standard, practice, or procedure has been submitted by the chief legal officer or other appropriate official of such State or subdivision to the Attorney General and the Attorney General has not interposed an objection within sixty days after such submission, except that neither the court’s finding nor the Attorney General’s failure to object shall bar a subsequent action to enjoin enforcement of such qualification, prerequisite, standard, practice, or procedure.

(b) Suspension of use of tests and devices which deny or abridge the right to vote

If in a proceeding instituted by the Attorney General or an aggrieved person under any statute to enforce the voting guarantees of the fourteenth or fifteenth amendment in any State or political subdivision the court finds that a test or device has been used for the purpose or with the effect of denying or abridging the right of any citizen of the United States to vote on account of race or color, or in contravention of the voting guarantees set forth in section 1973b(f)(2) of this title, it shall suspend the use of tests and devices in such State or political subdivisions as the court shall determine is appropriate and for such period as it deems necessary.

(c) Retention of jurisdiction to prevent commencement of new devices to deny or abridge the right to vote

If in any proceeding instituted by the Attorney General or an aggrieved person under any statute to enforce the voting guarantees of the fourteenth or fifteenth amendment in any State or political subdivision the court finds that violations of the fourteenth or fifteenth amendment justifying equitable relief have occurred within the territory of such State or political subdivision, the court, in addition to such relief as it may grant, shall retain jurisdiction for such period as it may deem appropriate and during such period no voting qualification or prerequisite to voting or standard, practice, or procedure with respect to voting different from that in force or effect at the time the proceeding was commenced shall be enforced unless and until the court finds that such qualification, prerequisite, standard, practice, or procedure does not have the purpose and will not have the effect of denying or abridging the right to vote on account of race or color, or in contravention of the voting guarantees set forth in section 1973b(f)(2) of this title: Provided, That such qualification, prerequisite, standard, practice, or procedure may be enforced if the qualification, prerequisite, standard, practice, or procedure has been submitted by the chief legal officer or other appropriate official of such State or subdivision to the Attorney General and the Attorney General has not interposed an objection within sixty days after such submission, except that neither the court’s finding nor the Attorney General’s failure to object shall bar a subsequent action to enjoin enforcement of such qualification, prerequisite, standard, practice, or procedure.

§ 1973b. Suspension of the use of tests or devices in determining eligibility to vote

(a) Action by State or political subdivision for declaratory judgment of no denial or abridgement; three-judge district court; appeal to Supreme Court; retention of jurisdiction by three-judge court

(1) To assure that the right of citizens of the United States to vote is not denied or abridged on account of race or color, no citizen shall be denied the right to vote in any Federal, State, or local election because of his failure to comply with any test or device in any State with respect to which the determinations have been made under the first two sentences of subsection (b) of this section or in any political subdivision of such State (as such subdivision existed on the date such determinations were made with respect to such State), though such determinations were not made with respect to such subdivision as a separate unit, or in any political subdivision with respect to which such determinations have been made as a separate unit, unless the United States District Court for the District of Columbia issues a declaratory judgment under this section. No citizen shall be denied the right to vote in any Federal, State, or local election because of his failure to comply with any test or device in any State with respect to which the determinations have been made under the third sentence of subsection (b) of this section or in any political subdivision of such State (as such subdivision existed on the date such determinations were made with respect to such State), though such determinations were not made with respect to such subdivision as a separate unit, or in any political subdivision with respect to which such determinations have been made as a separate unit, unless the United States District Court for the District of Columbia issues a declaratory judgment under this section. No citizen shall be denied the right to vote in any Federal, State, or local election because of his failure to comply with any test or device in any State with respect to which the determinations have been made under the second sentence of this subsection (f)(2) of this section.

(B) no final judgment of any court of the United States, other than the denial of declaratory judgment under this section, has determined that denials or abridgements of the right to vote on account of race or color have occurred anywhere in the territory of such State or political subdivision or (in the case of a State or subdivision seeking a declaratory judgment under the second sentence of this subsection) that denials or abridgements of the right to vote in contravention of the guarantees of subsection (f)(2) of this section have occurred anywhere in the territory of such State or subdivision and no consent decree, settlement, or agreement has been entered into resulting in any abandonment of a voting practice challenged on such grounds; and no declaratory judgment under this section shall be entered during the pendency of an action commenced before the filing of an action under this section and alleging such denials or abridgements of the right to vote;

(C) no Federal examiners or observers under subchapters I–A to I–C of this chapter have been assigned to such State or political subdivision;

(D) such State or political subdivision and all governmental units within its territory have complied with section 1973c of this title, including compliance with the requirement that no change covered by section 1973c of this title has been enforced without preclearance under section 1973c of this title, and have repealed all changes covered by section 1973c of this title to which the Attorney General has successfully objected or as to which the United States District Court for the District of Columbia has denied a declaratory judgment;

(E) the Attorney General has not interposed any objection (that has not been overturned by a final judgment of a court) and no declaratory judgment has been denied under section 1973c of this title, with respect to any submission by or on behalf of the plaintiff or any governmental unit within its territory under section 1973c of this title, and no such submissions or declaratory judgment actions are pending; and

(F) such State or political subdivision and all governmental units within its territory—

(i) have eliminated voting procedures and methods of election which inhibit or dilute equal access to the electoral process;

(ii) have engaged in constructive efforts to eliminate intimidation and harassment of persons exercising rights protected under subchapters I–A to I–C of this chapter; and

(iii) have engaged in other constructive efforts, such as expanded opportunity for convenient registration and voting for every person of voting age and the appointment of minority persons as election officials throughout the jurisdiction and at all stages of the election and registration process.

(2) To assist the court in determining whether to issue a declaratory judgment under the subsection, the plaintiff shall present evidence of minority participation, including evidence of the levels of minority group registration and voting, changes in such levels over time, and disparities between minority-group and non-minority-group participation.

(3) No declaratory judgment shall issue under this subsection with respect to such State or political subdivision if such plaintiff and governmental units within its territory have, during
the period beginning ten years before the date the judgment is issued, engaged in violations of any provision of the Constitution or laws of the United States or any State or political subdivision with respect to discrimination in voting on account of race or color or (in the case of any State or subdivision seeking a declaratory judgment under the second sentence of this subsection) in contravention of the guarantees of subsection (f)(2) of this section unless the plaintiff establishes that any such violations were trivial, were promptly corrected, and were not repeated.

(4) The State or political subdivision bringing such action shall publicize the intended commencement and any proposed settlement of such action in the media serving such State or political subdivision and in appropriate United States post offices. Any aggrieved party may as of right intervene at any stage in such action.

(5) An action pursuant to this subsection shall be heard and determined by a court of three judges in accordance with the provisions of section 2284 of title 28 and any appeal shall lie to the Supreme Court. The court shall retain jurisdiction of any action pursuant to this subsection for ten years after judgment and shall reopen the action upon motion of the Attorney General or any aggrieved person alleging that conduct has occurred which, had that conduct occurred during the ten-year periods referred to in this subsection, would have precluded the issuance of a declaratory judgment under this subsection. The court, upon such reopening, shall vacate the declaratory judgment issued under this section if, after the issuance of such declaratory judgment, a final judgment against the State or subdivision with respect to which such declaratory judgment was issued, or against any governmental unit within that State or subdivision, determines that denials or abridgments of the right to vote on account of race or color have occurred anywhere in the territory of such State or political subdivision or (in the case of a State or subdivision which sought a declaratory judgment under the second sentence of this subsection) that denials or abridgments of the right to vote in contravention of the guarantees of subsection (f)(2) of this section have occurred anywhere in the territory of such State or subdivision, or if, after the issuance of such declaratory judgment, a consent decree, settlement, or agreement has been entered into resulting in any abandonment of a voting practice challenged on such grounds.

(6) If, after two years from the date of the filing of a declaratory judgment under this subsection, no date has been set for a hearing in such action, and that delay has not been the result of an avoidable delay on the part of counsel for any party, the chief judge of the United States District Court for the District of Columbia may request the Judicial Council for the Circuit of the District of Columbia to provide the necessary judicial resources to expedite any action filed under this section. If such resources are unavailable within the circuit, the chief judge shall file a certificate of necessity in accordance with section 292(d) of title 28.

(7) The Congress shall reconsider the provisions of this section at the end of the fifteen-year period following the effective date of the amendments made by the Fannie Lou Hamer, Rosa Parks, Coretta Scott King, César E. Chávez, Barbara C. Jordan, William C. Velásquez, and Dr. Hector P. Garcia Voting Rights Act Reauthorization and Amendments Act of 2006.

(8) The provisions of this section shall expire at the end of the twenty-five-year period following the effective date of the amendments made by the Fannie Lou Hamer, Rosa Parks, Coretta Scott King, César E. Chávez, Barbara C. Jordan, William C. Velásquez, and Dr. Hector P. Garcia Voting Rights Act Reauthorization and Amendments Act of 2006.

(9) Nothing in this section shall prohibit the Attorney General from consenting to an entry of judgment if based upon a showing of objective and compelling evidence by the plaintiff, and upon investigation, he is satisfied that the State or political subdivision has complied with the requirements of subsection (a)(1) of this section. Any aggrieved party may as of right intervene at any stage in such action.

(b) Required factual determinations necessary to allow suspension of compliance with tests and devices; publication in Federal Register

The provisions of subsection (a) of this section shall apply in any State or in any political subdivision of a State which (1) the Attorney General determines maintained on November 1, 1964, any test or device, and with respect to which (2) the Director of the Census determines that less than 50 per centum of the persons of voting age residing therein were registered on November 1, 1964, or that less than 50 per centum of such persons voted in the presidential election of November 1964. On and after August 6, 1970, in addition to any State or political subdivision of a State determined to be subject to subsection (a) of this section pursuant to the previous sentence, the provisions of subsection (a) of this section shall apply in any State or any political subdivision of a State which (i) the Attorney General determines maintained on November 1, 1968, any test or device, and with respect to which (ii) the Director of the Census determines that less than 50 per centum of the persons of voting age residing therein were registered on November 1, 1968, or that less than 50 per centum of such persons voted in the presidential election of November 1968. On and after August 6, 1975, in addition to any State or political subdivision of a State determined to be subject to subsection (a) of this section pursuant to the previous two sentences, the provisions of subsection (a) of this section shall apply in any State or any political subdivision of a State which (i) the Attorney General determines maintained on November 1, 1972, any test or device, and with respect to which (ii) the Director of the Census determines that less than 50 per centum of the citizens of voting age were registered on November 1, 1972, or that less than 50 per centum of such persons voted in the Presidential election of November 1972.

A determination or certification of the Attorney General or of the Director of the Census under this section or under section 1973f or 1973k of this title shall not be reviewable in any court...
and shall be effective upon publication in the Federal Register.

(c) "Test or device" defined
The phrase "test or device" shall mean any requirement that a person as a prerequisite for voting or registration for voting (1) demonstrate the ability to read, write, understand, or interpret any matter, (2) demonstrate any educational achievement or his knowledge of any particular subject, (3) possess good moral character, or (4) prove his qualifications by the voucher of registered voters or members of any other class.

(d) Required frequency, continuation and probable recurrence of incidents of denial or abridgment to constitute forbidden use of tests or devices
For purposes of this section no State or political subdivision shall be determined to have engaged in the use of tests or devices for the purpose or with the effect of denying or abridging the right to vote on account of race or color, or in contravention of the guarantees set forth in subsection (f)(2) of this section if (1) incidents of such use have been few in number and have been promptly and effectively corrected by State or local action, (2) the continuing effect of such incidents has been eliminated, and (3) there is no reasonable probability of their recurrence in the future.

(e) Completion of requisite grade level of education in American-flag schools in which the predominant classroom language was other than English
(1) Congress hereby declares that to secure the rights under the fourteenth amendment of persons educated in American-flag schools in which the predominant classroom language was other than English, it is necessary to prohibit the States from conditioning the right to vote of such persons on ability to read, write, understand, or interpret any matter in the English language.

(2) No person who demonstrates that he has successfully completed the sixth primary grade in a public school in, or a private school accredited by, any State or territory, the District of Columbia, or the Commonwealth of Puerto Rico in which the predominant classroom language was other than English, shall be denied the right to vote in any Federal, State, or local election because of his inability to read, write, understand, or interpret any matter in the English language, except that in States in which State law provides that a different level of education is presumptive of literacy, he shall demonstrate that he has successfully completed an equivalent level of education in a public school in, or a private school accredited by, any State or territory, the District of Columbia, or the Commonwealth of Puerto Rico in which the predominant classroom language was other than English.

(f) Congressional findings of voting discrimination against language minorities; prohibition of English-only elections; other remedial measures
(1) The Congress finds that voting discrimination against citizens of language minorities is pervasive and national in scope. Such minority citizens are from environments in which the dominant language is other than English. In addition they have been denied equal educational opportunities by State and local governments, resulting in severe disabilities and continuing illiteracy in the English language. The Congress further finds that, where State and local officials conduct elections only in English, language minority citizens are excluded from participating in the electoral process. In many areas of the country, this exclusion is aggravated by acts of physical, economic, and political intimidation. The Congress declares that in order to enforce the guarantees of the fourteenth and fifteenth amendments to the United States Constitution, it is necessary to eliminate such discrimination by prohibiting English-only elections, and by prescribing other remedial devices.

(2) No voting qualification or prerequisite to voting, or standard, practice, or procedure shall be imposed or applied by any State or political subdivision to deny or abridge the right of any citizen of the United States to vote because he is a member of a language minority group.

(3) In addition to the meaning given the term under subsection (c) of this section, the term "test or device" shall also mean any practice or requirement by which any State or political subdivision provided any registration or voting notices, forms, instructions, assistance, or other materials or information relating to the electoral process, including ballots, only in the English language, where the Director of the Census determines that more than five per centum of the citizens of voting age residing in such State or political subdivision are members of a single language minority. With respect to subsection (b) of this section, the term "test or device", as defined in this subsection, shall be employed only in making the determinations under the third sentence of that subsection.

(4) Whenever any State or political subdivision subject to the prohibitions of the second sentence of subsection (a) of this section provides any registration or voting notices, forms, instructions, assistance, or other materials or information relating to the electoral process, including ballots, it shall provide them in the language of the applicable language minority group as well as in the English language: Provided, That where the language of the applicable minority group is oral or unwritten or in the case of Alaskan Natives and American Indians, if the predominate language is historically unwritten, the State or political subdivision is only required to furnish oral instructions, assistance, or other information relating to registration and voting.

Subsec. (f)(4). Pub. L. 94–73, §320, inserted provisions that on and after August 6, 1975, in addition to any State or political subdivision of a State determined to be subject to subsection (a) pursuant to the previous two sentences, the provisions of subsection (a) shall apply in any State or any political subdivision of a State which the Attorney General determines maintained on November 1, 1972, any test or device, and with respect to which the Director of the Census determines that less than 50 per centum of such persons voted in the Presidential election of November, 1972.

§ 1973c. Alteration of voting qualifications; procedure and appeal; purpose or effect of diminishing the ability of citizens to elect their preferred candidates

(a) Whenever a State or political subdivision with respect to which the prohibitions set forth in section 1973b(a) of this title based upon determinations made under the first sentence of section 1973b(b) of this title are in effect shall enact or seek to administer any voting qualification or prerequisite to voting, or standard, practice, or procedure with respect to voting different from that in force or effect on November 1, 1964, or whenever a State or political subdivision with respect to which the prohibitions set forth in section 1973b(a) of this title based upon determinations made under the second sentence of section 1973b(b) of this title are in effect shall enact or seek to administer any voting qualification or prerequisite to voting, or standard, practice, or procedure with respect to voting different from that in force or effect on November 1, 1968, or whenever a State or political subdivision with respect to which the prohibitions set forth in section 1973b(a) of this title based upon determinations made under the third sentence of section 1973b(b) of this title are in effect shall enact or seek to administer any voting qualification or prerequisite to voting, or standard, practice, or procedure with respect to voting different from that in force or effect on November 1, 1972, such State or subdivision may institute an action in the United States District Court for the District of Columbia for a declaratory judgment that such qualification, prerequisite, standard, practice, or procedure neither has the purpose nor will have the effect of denying or abridging the right to vote on account of race or color, or in contravention of the guarantees set forth in section 1973b(f)(2) of this title, to elect their preferred candidates of choice denies or abridges the right to vote within the meaning of subsection (a) of this section.

(c) The term “purpose” in subsections (a) and (b) of this section shall include any discriminatory purpose.

(d) The purpose of subsection (b) of this section is to protect the ability of citizens to elect their preferred candidates of choice.

Neither an affirmative indication by the Attorney General that no objection will be made, nor the Attorney General’s failure to object, nor a declaratory judgment entered under this section shall bar a subsequent action to enjoin enforcement of such qualification, prerequisite, standard, practice, or procedure. In the event the Attorney General affirmatively indicates that no objection will be made within the sixty-day period following receipt of a submission, the Attorney General may reserve the right to examine the submission if additional information comes to his attention during the remain-
nder of the sixty-day period which would otherwise require objection in accordance with this section.

1970—Pub. L. 91–285 inserted “based upon determination made under the first sentence of section 1973b(b) of this title” after “section 1973(a) of this title” and “or whenever a State or political subdivision with respect to which the prohibitions set forth in section 1973(b) of this title based upon determinations made under the second sentence of section 1973(b) of this title are in effect shall enact or seek to administer any practice or procedure with respect to voting different from that in force or effect on November 1, 1964,” after “1964.”.

§ 1973f. Use of observers

(a) Assignment

Whenever—

(1) a court has authorized the appointment of observers under section 1973(a)(a) of this title for a political subdivision; or

(2) the Attorney General certifies with respect to any political subdivision named in, or included within the scope of, determinations made under section 1973(b) of this title, unless a declaratory judgment has been rendered under section 1973(a)(a) of this title, that—

(A) the Attorney General has received written meritorious complaints from residents, elected officials, or civic participation organizations that efforts to deny or abridge the right to vote under the color of law on account of race or color, or in contravention of the guarantees set forth in section 1973b(2) of this title are likely to occur; or

(B) in the Attorney General’s judgment (considering, among other factors, whether the ratio of nonwhite persons to white persons registered to vote within such subdivision appears to the Attorney General to be reasonably attributable to violations of the 14th or 15th amendment or whether substantial evidence exists that bona fide efforts are being made within such subdivision to comply with the 14th or 15th amendment), the assignment of observers is otherwise necessary to enforce the guarantees of the 14th or 15th amendment;

the Director of the Office of Personnel Management shall assign as many observers for such subdivision as the Director may deem appropriate.

(b) Status

Except as provided in subsection (c), such observers shall be assigned, compensated, and separated without regard to the provisions of any statute administered by the Director of the Office of Personnel Management, and their service under subchapters I–A to I–C shall not be considered employment for the purposes of any statute administered by the Director of the Office of Personnel Management, except the provisions of section 7324 of title 5 prohibiting partisan political activity.

(c) Designation

The Director of the Office of Personnel Management is authorized to, after consulting the head of the appropriate department or agency, designate suitable persons in the official service of the United States, with their consent, to serve in these positions.

(1) enter and attend at any place for holding an election in such subdivision for the purpose of observing whether persons who are entitled to vote are being permitted to vote; and

(2) enter and attend at any place for tabulating the votes cast at any election held in such subdivision for the purpose of observing whether votes cast by persons entitled to vote are being properly tabulated.

(e) Investigation and report

Observers shall investigate and report to the Attorney General, and if the appointment of observers has been authorized pursuant to section 1973(a)(a) of this title, to the court.

§ 1973h.Poll taxes

(a) Congressional finding and declaration of policy against enforced payment of poll taxes as a device to impair voting rights

The Congress finds that the requirement of the payment of a poll tax as a precondition to vot-
ing (i) precludes persons of limited means from voting or imposes unreasonable financial hardship upon such persons as a precondition to their exercise of the franchise, (ii) does not bear a reasonable relationship to any legitimate State interest in the conduct of elections, and (iii) in some areas has the purpose or effect of denying persons the right to vote because of race or color. Upon the basis of these findings, Congress declares that the constitutional right of citizens to vote is denied or abridged in some areas by the requirement of the payment of a poll tax as a precondition to voting.

(b) Authority of Attorney General to institute actions for relief against enforcement of poll tax requirement

In the exercise of the powers of Congress under section 5 of the fourteenth amendment, section 2 of the fifteenth amendment and section 2 of the twenty-fourth amendment, the Attorney General is authorized and directed to institute forthwith in the name of the United States such actions, including actions against States or political subdivisions, for declaratory judgment or injunctive relief against the enforcement of any requirement of the payment of a poll tax as a precondition to voting, or substitute therefor enacted after November 1, 1964, as will be necessary to implement the declaration of subsection (a) of this section and the purposes of this section.

(c) Jurisdiction of three-judge district courts; appeal to Supreme Court

The district courts of the United States shall have jurisdiction of such actions which shall be heard and determined by a court of three judges in accordance with the provisions of section 2204 of title 28 and any appeal shall lie to the Supreme Court. It shall be the duty of the judges designated to hear the case to assign the case to the earliest practicable date, to participate in the hearing and determination thereof, and to cause the case to be in every way expedited.

(b) Intimidation, threats, or coercion

(d) Falsification or concealment of material facts or giving of false statements in matters within jurisdiction of examiners or hearing officers; penalties

Whoever, in any matter within the jurisdiction of an examiner or hearing officer knowingly and willfully falsifies or conceals a material fact, or makes any false, fictitious, or fraudulent statements or representations, or makes or uses any false writing or document knowing the same to contain any false, fictitious, or fraudulent statement or entry, shall be fined not more than $10,000 or imprisoned not more than five years, or both.

(e) Voting more than once

(1) Whoever votes more than once in an election referred to in paragraph (2) shall be fined not more than $10,000 or imprisoned not more than five years, or both.

(2) The prohibition of this subsection applies with respect to any general, special, or primary election held solely or in part for the purpose of selecting or electing any candidate for the office of President, Vice President, presidential elector, Member of the United States Senate, Member of the United States House of Representatives, Delegate from the District of Columbia, Guam, or the Virgin Islands, or Resident Commissioner of the Commonwealth of Puerto Rico.

(3) As used in this subsection, the term ‘‘votes more than once’’ does not include the casting of an additional ballot if all prior ballots of that voter were invalidated, nor does it include the voting in two jurisdictions under section 1973aa–1 of this title, to the extent two ballots are not cast for an election to the same candidacy or office.

(a) No citizen shall be denied, because of his failure to comply with any test or device, the right to vote in any Federal, State, or local election conducted in any State or political subdivision of a State.

(b) As used in this section, the term “test or device” means any requirement that a person as a prerequisite for voting or registration for voting (1) demonstrate the ability to read, write, understand, or interpret any matter, (2) demonstrate any educational achievement or his knowledge of any particular subject, (3) possess good moral character, or (4) prove his qualifications by the voucher of registered voters or members of any other class.

AMENDMENTS

1975—Subsec. (a). Pub. L. 94–73 struck out “Prior to August 6, 1975,” and “as to which the provisions of section 1973aa(a) of this title are not in effect by reason of determinations made under section 1973bb(b) of this title”.

§ 1973aa-1. Residence requirements for voting

(a) Congressional findings

The Congress hereby finds that the imposition and application of the durational residency requirement as a precondition to voting for the offices of President and Vice President, and the lack of sufficient opportunities for absentee registration and absentee balloting in presidential elections—

(1) denies or abridges the inherent constitutional right of citizens to vote for their President and Vice President;

(2) denies or abridges the inherent constitutional right of citizens to enjoy their free movement across State lines;

(3) denies or abridges the privileges and immunities guaranteed to the citizens of each State under article IV, section 2, clause 1, of the Constitution;

(4) in some instances has the impermissible purpose or effect of denying citizens the right to vote for such officers because of the way they may vote;

(5) has the effect of denying to citizens the equality of civil rights, and due process and equal protection of the laws that are guaranteed to them under the fourteenth amendment; and

(6) does not bear a reasonable relationship to any compelling State interest in the conduct of presidential elections.

(b) Congressional declaration: durational residency requirement, abolishment; absentee registration and balloting standards, establishment

Upon the basis of these findings, Congress declares that in order to secure and protect the above-stated rights of citizens under the Constitution, to enable citizens to better obtain the enjoyment of such rights, and to enforce the guarantees of the fourteenth amendment, it is necessary (1) to completely abolish the durational residency requirement as a precondition to voting for President and Vice President, and (2) to establish nationwide, uniform standards relative to absentee registration and absentee balloting in presidential elections.
(c) Prohibition of denial of right to vote because of durational residency requirement or absentee balloting

No citizen of the United States who is otherwise qualified to vote in any election for President and Vice President shall be denied the right to vote for electors for President and Vice President, or for President and Vice President, in such election because of the failure of such citizen to comply with any durational residency requirement of such State or political subdivision; nor shall any citizen of the United States be denied the right to vote for electors for President and Vice President, or for President and Vice President, in such election because of the failure of such citizen to be physically present in such State or political subdivision at the time of such election, if such citizen shall have complied with the requirements prescribed by the law of such State or political subdivision providing for the casting of absentee ballots in such election.

(d) Registration: time for application; absentee balloting; time of application and return of ballots

For the purposes of this section, each State shall provide by law for the registration or other means of qualification of all duly qualified residents of such State who apply, not later than thirty days immediately prior to any presidential election, for registration or qualification to vote for the choice of electors for President and Vice President or for President and Vice President in such election; and each State shall provide by law for the casting of absentee ballots for the choice of electors for President and Vice President, or for President and Vice President, by all duly qualified residents of such State who may be absent from their election district or unit in such State on the day such election is held and who have applied therefor not later than seven days immediately prior to such election and have returned such ballots to the appropriate election official of such State within ten days after the thirtieth day next preceding such election and, for that reason, does not satisfy the registration requirements of such State or political subdivision he shall be allowed to vote for the choice of electors for President and Vice President, or for President and Vice President, in such election, (1) in person in the State or political subdivision in which he resided immediately prior to his removal if he had satisfied, as of the date of his change of residence, the requirements to vote in that State or political subdivision, or (2) by absentee ballot in the State or political subdivision in which he resided immediately prior to his removal if he satisfies, but for his non-resident status and the reason for his absence, the requirements for absentee voting in that State or political subdivision.

(f) Absentee registration requirement

No citizen of the United States who is otherwise qualified to vote by absentee ballot in any State or political subdivision in any election for President and Vice President shall be denied the right to vote for the choice of electors for President and Vice President, or for President and Vice President, in such election because of any requirement of registration that does not include a provision for absentee registration.

(g) State or local adoption of less restrictive voting practices

Nothing in this section shall prevent any State or political subdivision from adopting less restrictive voting practices than those that are prescribed herein.

(h) “State” defined

The term “State” as used in this section includes each of the several States and the District of Columbia.

(i) False registration, and other fraudulent acts and conspiracies: application of penalty for false information in registering or voting

The provisions of section 1973(i)(c) of this title shall apply to false registration, and other fraudulent acts and conspiracies, committed under this section.

§ 1973aa–1a. Bilingual election requirements

(a) Congressional findings and declaration of policy

The Congress finds that, through the use of various practices and procedures, citizens of language minorities have been effectively excluded from participation in the electoral process. Among other factors, the denial of the right to vote of such minority group citizens is ordinarily directly related to the unequal educational opportunities afforded them resulting in high illiteracy and low voting participation. The Congress declares that, in order to enforce the guarantees of the fourteenth and fifteenth amendments to the United States Constitution, it is necessary to eliminate such discrimination by prohibiting these practices, and by prescribing other remedial devices.

(b) Bilingual voting materials requirement

(1) Generally

Before August 6, 2002, no covered State or political subdivision shall provide voting materials only in the English language.

(2) Covered States and political subdivisions

(A) Generally

A State or political subdivision is a covered State or political subdivision for the purposes of this subsection if the Director of the Census determines, based on the 2010 American Community Survey census data and subsequent American Community Survey data in 5-year increments, or comparable census data, that—

(i)(I) more than 5 percent of the citizens of voting age of such State or political subdivision are members of a single lan-
guage minority and are limited-English proficient;
(II) more than 10,000 of the citizens of voting age of such political subdivision are members of a single language minority and are limited-English proficient; or
(III) in the case of a political subdivision that contains all or any part of an Indian reservation, more than 5 percent of the American Indian or Alaska Native citizens of voting age within the Indian reservation are members of a single language minority and are limited-English proficient; and
(ii) the illiteracy rate of the citizens in the language minority as a group is higher than the national illiteracy rate.

(B) Exception
The prohibitions of this subsection do not apply in any political subdivision that has less than 5 percent voting age limited-English proficient citizens of each language minority which comprises over 5 percent of the statewide limited-English proficient population of voting age citizens, unless the political subdivision is a covered political subdivision independently from its State.

(3) Definitions
As used in this section—
(A) the term “voting materials” means registration or voting notices, forms, instructions, assistance, or other materials or information relating to the electoral process, including ballots;
(B) the term “limited-English proficient” means unable to speak or understand English adequately enough to participate in the electoral process;
(C) the term “Indian reservation” means any area that is an American Indian or Alaska Native area, as defined by the Census Bureau for the purposes of the 1990 decennial census;
(D) the term “citizens” means citizens of the United States; and
(E) the term “illiteracy” means the failure to complete the 5th primary grade.

(4) Special rule
The determinations of the Director of the Census under this subsection shall be effective upon publication in the Federal Register and shall not be subject to review in any court.

(c) Requirement of voting notices, forms, instructions, assistance, or other materials and ballots in minority language
Whenever any State or political subdivision subject to the prohibition of subsection (b) of this section provides any registration or voting notices, forms, instructions, assistance, or other materials or information relating to the electoral process, including ballots, it shall provide them in the language of the applicable minority group as well as in the English language: Provided, That where the language of the applicable minority group is oral or unwritten or in the case of Alaskan natives and American Indians, if the predominant language is historically unwritten, the State or political subdivision is only required to furnish oral instructions, assistance, or other information relating to registration and voting.

(d) Action for declaratory judgment permitting English-only materials
Any State or political subdivision subject to the prohibition of subsection (b) of this section, which seeks to provide English-only registration or voting materials or information, including ballots, may file an action against the United States in the United States District Court for a declaratory judgment permitting such provision. The court shall grant the requested relief if it determines that the illiteracy rate of the applicable language minority group within the State or political subdivision is equal to or less than the national illiteracy rate.

(e) Definitions
For purposes of this section, the term “language minorities” or “language minority group” means persons who are American Indian, Asian American, Alaskan Natives, or of Spanish heritage.

(b)(i) of this section) for members of a single language minority who do not speak or understand English adequately enough to participate in the electoral process when such a determination can be made by the Director of the Census based on the 1980 and subsequent census data.”

After consulting with the Attorney General, the Presidential designee shall approve a waiver request under paragraph (1) if the Presidential designee determines each of the following requirements are met:

(A) The comprehensive plan under subparagraph (D) of such paragraph provides absent uniformed services voters and overseas voters sufficient time to receive absentee ballots they have requested and submit marked absentee ballots to the appropriate State election official in time to have that ballot counted in the election for Federal office.

(d) Second ballot submission; instruction to absent uniformed services voter or overseas voter

An absent uniformed services voter or overseas voter who submits a Federal write-in absentee ballot and later receives a State absentee ballot, may submit the State absentee ballot. The Presidential designee shall assure that the instructions for each Federal write-in absentee ballot clearly state that an absent uniformed services voter or overseas voter who submits a Federal write-in absentee ballot and later receives and submits a State absentee ballot should make every reasonable effort to inform the appropriate State election official that the voter has submitted more than one ballot.

(e) Use of approved State absentee ballot in place of Federal write-in absentee ballot

The Federal write-in absentee ballot shall not be valid for use in a general, special, primary, or runoff election for Federal office if the State involved provides a State absentee ballot that—

(1) at the request of the State, is approved by the Presidential designee for use in place of the Federal write-in absentee ballot; and

(2) is made available to absent uniformed services voters and overseas voters at least 60
days before the deadline for receipt of the State ballot under State law.

(f) Prohibiting refusal to accept ballot for failure to meet certain requirements

Ex. Ord. No. 11063. Equal Opportunity in Housing

WHEREAS the granting of Federal assistance for the provision, rehabilitation, or operation of housing and related facilities from which Americans are excluded because of their race, color, creed, or national origin is unfair, unjust, and inconsistent with the public policy of the United States as manifested in its Constitution and laws; and

WHEREAS the Congress in the Housing Act of 1949 [see Short Title note set out under section 1411 of this title] has declared that the general welfare and security of the Nation and the health and living standards of its people require the realization as soon as feasible of the goal of a decent home and a suitable living environment for every American family; and

WHEREAS discriminatory policies and practices result in segregated patterns of housing and necessarily produce other forms of discrimination and segregation which deprive many Americans of equal opportunity in the exercise of their unalienable rights to life, liberty, and the pursuit of happiness; and

WHEREAS the executive branch of the Government, in faithfully executing the laws of the United States which authorize Federal financial assistance, directly or indirectly, for the provision, rehabilitation, and operation of housing and related facilities, is charged with an obligation and duty to assure that those laws are fairly administered and that benefits thereunder are made available to all Americans without regard to their race, color, creed, or national origin:

NOW, THEREFORE, by virtue of the authority vested in me as President of the United States by the Constitution and laws of the United States, it is ordered as follows:

PART I—PREVENTION OF DISCRIMINATION

SECTION 101. I hereby direct all departments and agencies in the executive branch of the Federal Government, insofar as their functions relate to the provision, rehabilitation, or operation of housing and related facilities, to take all action necessary and appropriate to prevent discrimination because of race, color, religion (creed), sex, disability, familial status or national origin in

(a) the sale, leasing, rental, or other disposition of residential property and related facilities (including land to be developed for residential use), or in the use or occupancy thereof, if such property and related facilities are—

(i) owned or operated by the Federal Government, or

(ii) provided in whole or in part with the aid of loans, advances, grants, or contributions hereafter agreed to be made by the Federal Government, or

(iii) provided in whole or in part by loans hereafter insured, guaranteed, or otherwise secured by the credit of the Federal Government, or

(iv) provided by the development or the redevelopment of real property purchased, leased, or otherwise obtained from a State or local public agency receiving Federal financial assistance for slum clearance or urban renewal with respect to such real property under a loan of grant contract hereafter entered into; and

(b) in the lending practices with respect to residential property and related facilities (including land to be developed for residential use) of lending institutions, including, but not limited to, housing or community development banks, where Federal financial assistance has been provided by the Federal Government.

Sect. 102. I hereby direct the Department of Housing and Urban Development and all other executive departments and agencies to use their good offices and to take other appropriate action permitted by law, including the institution of appropriate litigation, if required, to promote the abandonment of discriminatory practices with respect to residential property and related facilities hereafter provided with Federal financial assistance of the types referred to in Section 101(a)(i), (iii), and (iv).

PART II—IMPLEMENTATION BY DEPARTMENTS AND AGENCIES

Sect. 201. Each executive department and agency subject to this order is directed to submit to the President's Committee on Equal Opportunity in Housing established pursuant to Part IV of this order (hereinafter sometimes referred to as the Committee), within thirty days from the date of this order, a report outlining all current programs administered by it which are affected by this order.

Sect. 202. Each such department and agency shall be primarily responsible for obtaining compliance with the purposes of this order as the order applies to programs administered by it, and is directed to cooperate with the Committee, to furnish it, in accordance with law, such information and assistance as it may request in the performance of its functions, and to report to it at such intervals as the Committee may require.

Sect. 203. Each such department and agency shall, within thirty days from the date of this order, issue such rules and regulations, adopt such procedures and policies, and make such exemptions and exceptions as may be consistent with law and necessary or appropriate to effectuate the purposes of this order. Each such department and agency shall consult with the Committee in order to achieve such consistency and uniformity as may be feasible.

PART III—ENFORCEMENT

Sect. 301. The Committee, any subcommittee thereof, and any officer or employee designated by any executive department or agency subject to this order may hold such hearings, public or private, as the Committee, department, or agency may deem advisable for compliance, enforcement, or educational purposes.

Sect. 302. If any executive department or agency subject to this order concludes that any person or firm (including but not limited to any individual, partnership, association, trust, or corporation) or any State or local public agency has violated any rule, regulation, or procedure issued or adopted pursuant to this order, or any nondiscrimination provision included in any agreement or contract pursuant to any such rule, regulation, or procedure, it shall endeavor to end and remedy such violation by informal means, including conference, conciliation, and persuasion unless similar efforts made by another Federal department or agency have been unsuccessful. In conformity with rules, regulations, procedures, or policies issued or adopted by it pursuant to Section 201 hereof, a department or agency may take such action as may be appropriate under its governing laws, including, but not limited to, the following:

It may—

(a) cancel or terminate in whole or in part any agreement or contract with such person, firm, or State or local public agency providing for a loan, grant, contribution, or other Federal aid, or for the payment of a commission or fee;

(b) refrain from extending any further aid under any program administered by it and affected by this order.
until it is satisfied that the affected person, firm, or State or local public agency will comply with the rules, regulations, and procedures issued or adopted pursuant to this order, and any nondiscrimination provisions included in any agreement or contract;

(c) refuse to approve a lending institution or any other lender as a beneficiary under any program administered by it which is affected by this order or revoke such approval if previously given.

Sec. 303. In appropriate cases executive departments and agencies shall refer to the Attorney General violations of any rules, regulations, or procedures issued or adopted pursuant to this order, or violations of any nondiscrimination provisions included in any agreement or contract, for such civil or criminal action as he may deem appropriate. The Attorney General is authorized to furnish legal advice concerning this order to the Committee and to any department or agency requesting such advice.

Sec. 304. Any executive department or agency affected by this order may also invoke the sanctions provided in Section 302 where any person or firm, including a lender, has violated the rules, regulations, or procedures issued or adopted pursuant to this order, or the nondiscrimination provisions included in any agreement or contract, with respect to any program affected by this order administered by any other executive department or agency.

PART IV—ESTABLISHMENT OF THE PRESIDENT'S COMMITTEE ON EQUAL OPPORTUNITY IN HOUSING

PART V—POWERS AND DUTIES OF THE PRESIDENT'S COMMITTEE ON EQUAL OPPORTUNITY IN HOUSING

Sec. 502. (a) The Committee shall take such steps as it deems necessary and appropriate to promote the coordination of the activities of departments and agencies under this order. In so doing, the Committee shall consider the overall objectives of Federal legislation relating to housing and the right of every individual to participate without discrimination because of race, color, religion (creed), sex, disability, familial status or national origin in the ultimate benefits of the Federal programs subject to this order.

(b) The Committee may confer with representatives of any department or agency, State or local public agency, civic, industry, or labor group, or any other group directly or indirectly affected by this order; examine the relevant rules, regulations, procedures, policies, and practices of any department or agency subject to this order and make such recommendations as may be necessary or desirable to achieve the purposes of this order.

(c) The Committee shall encourage educational programs by civic, educational, religious, industry, labor, and other nongovernmental groups to eliminate the basic causes of discrimination in housing and related facilities provided with Federal assistance.

SHORT TITLE OF 1994 AMENDMENT

SHORT TITLE

Pub. L. 95–341, as amended, which enacted this section, section 1996a of this title, and a provision set out as a note under section 1971 of this title, is popularly known as the American Indian Religious Freedom Act.

FEDERAL IMPLEMENTATION OF PROTECTIVE AND PRESERVATION FUNCTIONS RELATING TO NATIVE AMERICAN RELIGIOUS CULTURAL RIGHTS AND PRACTICES; PRESIDENTIAL REPORT TO CONGRESS

Section 2 of Pub. L. 95–341 provided that the President direct the various Federal departments, agencies, and other instrumentalities responsible for administering relevant laws to evaluate their policies and procedures in consultation with native traditional religious leaders to determine changes necessary to preserve Native American religious cultural rights and practices and report to the Congress 12 months after Aug. 11, 1978.

EX. ORD. NO. 13007. INDIAN SACRED SITES

Ex. Ord. No. 13007, May 24, 1966, 61 F.R. 26771, provided:

By the authority vested in me as President by the Constitution and the laws of the United States, in furtherance of Federal treaties, and in order to protect and preserve Indian religious practices, it is hereby ordered:

SECTION 1. Accommodation of Sacred Sites. (a) In managing Federal lands, each executive branch agency with statutory or administrative responsibility for the management of Federal lands shall, to the extent practicable, permitted by law, and not clearly inconsistent with essential agency functions, (1) accommodate access to and ceremonial use of Indian sacred sites by Native American religious cultural rights and practices, and report to the Congress 12 months after Aug. 11, 1978.

§ 1996a. Traditional Indian religious use of peyote

(a) Congressional findings and declarations

The Congress finds and declares that—

(1) for many Indian people, the traditional ceremonial use of the peyote cactus as a religious sacrament has for centuries been integral to a way of life, and significant in perpetuating Indian tribes and cultures;

(2) since 1965, this ceremonial use of peyote by Indians has been protected by Federal regulation;

(3) while at least 28 States have enacted laws which are similar to, or are in conformance with, the Federal regulation which protects the ceremonial use of peyote by Indian religious practitioners, 22 States have not done so, and this lack of uniformity has created...
hardship for Indian people who participate in such religious ceremonies;
(4) the Supreme Court of the United States, in the case of Employment Division v. Smith, 494 U.S. 872 (1990), held that the First Amendment does not protect Indian practitioners who use peyote in Indian religious ceremonies, and also raised uncertainty whether this religious practice would be protected under the compelling State interest standard; and
(5) the lack of adequate and clear legal protection for the religious use of peyote by Indians may serve to stigmatize and marginalize Indian tribes and cultures, and increase the risk that they will be exposed to discriminatory treatment.

(b) Use, possession, or transportation of peyote
(1) Notwithstanding any other provision of law, the use, possession, or transportation of peyote by an Indian for bona fide traditional ceremonial purposes in connection with the practice of a traditional Indian religion is lawful, and shall not be prohibited by the United States or any State. No Indian shall be penalized or discriminated against on the basis of such use, possession or transportation, including, but not limited to, denial of otherwise applicable benefits under public assistance programs.
(2) This section does not prohibit such reasonable regulation and registration by the Drug Enforcement Administration of those persons who cultivate, harvest, or distribute peyote as may be consistent with the purposes of this section and section 1996 of this title.
(3) This section does not prohibit application of the provisions of section 481.111(a) of Vernons Texas Health and Safety Code Annotated, in effect on October 6, 1994, insofar as those provisions pertain to the cultivation, harvest, and distribution of peyote.
(4) Nothing in this section shall prohibit any Federal department or agency, in carrying out its statutory responsibilities and functions, from promulgating regulations establishing reasonable limitations on the use or ingestion of peyote prior to or during the performance of duties by sworn law enforcement officers or personnel directly involved in public transportation or any other safety-sensitive positions where the performance of such duties may be adversely affected by such use or ingestion. Such regulations shall be adopted only after consultation with representatives of traditional Indian religions for which the sacramental use of peyote is integral to their practice. Any regulation promulgated pursuant to this section shall be subject to the balancing test set forth in section 3 of the Religious Freedom Restoration Act (Public Law 103–141; 42 U.S.C. 2000bb–1).
(5) This section shall not be construed as requiring prison authorities to permit, nor shall it be construed to prohibit prison authorities from permitting, access to peyote by Indians while incarcerated within Federal or State prison facilities.
(6) Subject to the provisions of the Religious Freedom Restoration Act (Public Law 103–141; 42 U.S.C. 2000bb–1) [42 U.S.C. 2000bb et seq.], this section shall not be construed to prohibit States from enacting or enforcing reasonable traffic safety laws or regulations.

(7) Subject to the provisions of the Religious Freedom Restoration Act (Public Law 103–141; 42 U.S.C. 2000bb–1), this section does not prohibit the Secretary of Defense from promulgating regulations establishing reasonable limitations on the use, possession, transportation, or distribution of peyote to promote military readiness, safety, or compliance with international law or laws of other countries. Such regulations shall be adopted only after consultation with representatives of traditional Indian religions for which the sacramental use of peyote is integral to their practice.

§ 1997f. Priorities for use of funds

It is the intent of Congress that deplorable conditions in institutions covered by this subchapter amounting to deprivation of rights protected by the Constitution or laws of the United States be corrected, not only by litigation as contemplated in this subchapter, but also by the voluntary good faith efforts of agencies of Federal, State, and local governments. It is the further intention of Congress that where Federal
funds are available for use in improving such institutions, priority should be given to the correction or elimination of such unconstitutional or illegal conditions which may exist. It is not the intent of this provision to require the redirection of funds from one program to another or from one State to another.

1-102. No individual, on the basis of race, sex, color, national origin, disability, religion, age, sexual orientation, or status as a parent, shall be excluded from participation in, or be denied the benefits of, or be subjected to discrimination in, a Federally conducted education or training program or activity.

2-204. “Military education or training programs” are those education and training programs conducted by the Department of Defense or, where the armed forces of the United States is concerned, the Department of Transportation, for the primary purpose of educating or training members of the armed forces or meeting a statutory requirement to educate or train Federal, State, or local civilian law enforcement officials pursuant to 10 U.S.C. Chapter 18. 2-205. “Armed Forces” means the armed forces of the United States.

2-206. “Status as a parent” refers to the status of an individual who, with respect to an individual who is under the age of 18 or who is 18 or older but is incapable of self-care because of a physical or mental disability, is:

The Department of Defense shall develop procedures to protect the rights of and to provide redress to civilians not otherwise protected by existing Federal law from discrimination on the basis of race, sex, color, national origin, disability, religion, age, sexual orientation, or status as a parent and who participate in military education or training programs or activities conducted by the Department of Defense.

3-302. This order does not apply to, affect, interfere with, or modify the operation of any otherwise lawful affirmative action plan or program.

3-303. An individual shall not be deemed subjected to discrimination by reason of his or her exclusion from the benefits of a program established consistent with Federal law or limited by Federal law to individuals of a particular race, sex, color, disability, national origin, age, religion, sexual orientation, or status as a parent different from his or her own.

3-304. This order does not apply to ceremonial or similar education or training programs or activities of schools conducted by the Department of the Interior, Bureau of Indian Affairs, that are culturally relevant to the children represented in the school. “Culturally relevant” refers to any class, program, or activity that is fundamental to a tribe’s culture, customs, traditions, heritage, or religion.

No such rule, regulation, or order shall become effective unless and until approved by the President. EX. ORD. NO. 13166. IMPROVING ACCESS TO SERVICES FOR PERSONS WITH LIMITED ENGLISH PROFICIENCY

Ex. Ord. No. 13166, Aug. 11, 2000, 65 F.R. 5021, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, and to improve access to federally conducted and federally assisted programs and activities for persons who, as a result of national origin, are limited in their English proficiency (LEP), it is hereby ordered as follows:

Sect. 1. Goals.
The Federal Government provides and funds an array of services that can be made accessible to otherwise eligible persons who are not proficient in the English language. The Federal Government is committed to improving the accessibility of these services to eligible LEP persons, a goal that reinforces its equally important commitment to promoting programs and activities designed to help individuals learn English. To this end, each Federal agency shall examine the services it provides and develop and implement a system by which LEP persons can meaningfully access those services consistent with, and without unduly burdening, the fundamental mission of the agency. Each Federal agency shall also work to ensure that recipients of Federal financial assistance (recipients) provide meaningful access to their LEP applicants and beneficiaries. To assist the agencies with this endeavor, the Department of Justice has today issued a general guidance document (LEP Guidance), which sets forth the compliance standards that recipients must follow to ensure that the programs and activities they normally provide in English are accessible to LEP persons and thus do not discriminate on the basis of national origin in violation of Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d et seq.), as amended, and its implementing regulations. As described in the LEP Guidance, recipients must take reasonable steps to ensure meaningful access to their programs and activities by LEP persons.

Sect. 2. Federally Conducted Programs and Activities.
Each Federal agency shall prepare a plan to improve access to its federally conducted programs and activities by eligible LEP persons. Each plan shall be consistent with the standards set forth in the LEP Guidance, and shall include the steps the agency will take to ensure that eligible LEP persons can meaningfully access the agency’s programs and activities. Agencies shall develop and begin to implement these plans within 120 days of the date of this order, and shall send copies of their plans to the Department of Justice, which shall serve as the central repository of the agencies’ plans.

Sect. 3. Federally Assisted Programs and Activities.
Each agency providing Federal financial assistance shall draft title VI guidance specifically tailored to its recipients that is consistent with the LEP Guidance issued by the Department of Justice. This agency-specific guidance shall detail how the general standards established in the LEP Guidance will be applied to the agency’s recipients. The agency-specific guidance shall take into account the types of services provided by the recipients, the individuals served by the recipients, and other factors set out in the LEP Guidance. Agencies that already have developed title VI guidance that the Department of Justice determines is consistent with the LEP Guidance shall examine their existing guidance, as well as their programs and activities, to determine if additional guidance is necessary to comply with this order. The Department of Justice shall consult with the agencies in creating their guidance and, within 120 days of the date of this order, each agency shall submit its specific guidance to the Department of Justice for review and approval. Following approval by the Department of Justice, each agency shall publish its guidance document in the Federal Register for public comment.

Sect. 4. Consultations.
In carrying out this order, agencies shall ensure that stakeholders, such as LEP persons and their representative organizations, recipients, and other appropriate individuals or entities, have an adequate opportunity to provide input. Agencies will evaluate the particular needs of the LEP persons they and their recipients serve and the burdens of compliance on the agency and its recipients. This input from stakeholders will assist the agencies in developing an approach to ensuring meaningful access by LEP persons that is practical and, effective, fiscally responsible, responsive to the particular circumstances of each agency, and can be readily implemented.

Sect. 5. Judicial Review.
This order is intended only to improve the internal management of the executive branch and does not create any right or benefit, substantive or procedural, enforceable at law or equity by a party against the United States, its agencies, its officers or employees, or any person.

William J. Clinton.

§ 2000d-2. Judicial review; administrative procedure provisions

Any department or agency action taken pursuant to section 2000d-1 of this title shall be subject to such judicial review as may otherwise be provided by law for similar action taken by such department or agency on other grounds. In the case of action, not otherwise subject to judicial review, terminating or refusing to grant or to continue financial assistance upon a finding of failure to comply with any requirement imposed pursuant to section 2000d-1 of this title, any person aggrieved (including any State or political subdivision thereof and any agency of either) may obtain judicial review of such action in accordance with chapter 7 of title 5, and such action shall not be deemed committed to unreviewable agency discretion within the meaning of that chapter.

Nothing contained in this subchapter shall be construed to authorize action under this subchapter by any department or agency with respect to any employment practice of any employer, employment agency, or labor organization except where a primary objective of the Federal financial assistance is to provide employment.

Nothing in this subchapter shall add to or detract from any existing authority with respect...

(B) the entire plant or other comparable, geographically separate facility to which Federal financial assistance is extended, in the case of any other corporation, partnership, private organization, or sole proprietorship; or

EX. ORD. NO. 13171, HISPANIC EMPLOYMENT IN THE FEDERAL GOVERNMENT

Ex. Ord. No. 13171, Oct. 12, 2000, 65 F.R. 62151, provided:

by the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to improve the representation of Hispanics in Federal employment, within merit system principles and consistent with the application of appropriate veterans’ preference criteria, to achieve a Federal workforce drawn from all segments of society, it is hereby ordered as follows:

SIC. 1. Policy. It is the policy of the executive branch to recruit qualified individuals from appropriate sources in an effort to achieve a workforce drawn from all segments of society. Pursuant to this policy, this Administration notes that Hispanics remain underrepresented in the Federal workforce: they make up only 6.4 percent of the Federal civilian workforce, roughly half of their total representation in the civilian labor force. This Executive Order, therefore, affirms ongoing policies and recommends additional policies to eliminate the underrepresentation of Hispanics in the Federal workforce.

SIC. 2. Responsibilities of Executive Departments and Agencies. The head of each executive department and agency (agency) shall establish and maintain a program and ensure that selection factors are appropriate, further partnerships and cooperation among Federal, public, and private sector employers, and appropriate Hispanic organizations whenever such partnerships and cooperation are possible and would promote the Federal employment of qualified individuals. In developing the long-term comprehensive strategies required by section 2 of this order, agencies shall, as appropriate, consult with and seek information and advice from experts in the areas of special targeted recruitment and diversity in employment.

SIC. 4. Responsibilities of the Office of Personnel Management. The Office of Personnel Management is required by law and regulations to undertake a Government-wide minority recruitment effort. Pursuant to that on-going effort and in implementation of this order, the Director of OPM shall:

(a) provide Federal human resources management policy guidance to address Hispanic underrepresentation where it occurs;

(b) take the lead in promoting diversity to executive agencies for such actions as deemed appropriate to promote equal employment opportunity;

(c) within 180 days from the date of this order, prescribe such regulations as may be necessary to carry out the purposes of this order;

(d) within 60 days from the date of this order, establish an Intergency Task Force, chaired by the Director and composed of agency officials at the Deputy Secretary level, or the equivalent. This Task Force shall meet semi-annually to:

(1) review best practices in strategic human resource management planning, including alignment with agency GPRA plans;

(2) assess overall executive branch progress in complying with the requirements of this order;

(3) provide advice on ways to increase Hispanic community involvement; and

(4) recommend any further actions, as appropriate, in eliminating the underrepresentation of Hispanics in the Federal workforce where it occurs; and

(e) issue an annual report with findings and recommendations to the President on the progress made by agencies on matters related to this order. The first annual report shall be issued no later than 1 year from the date of this order.

SIC. 5. Judicial Review. This order is intended only to improve the internal management of the executive branch. It does not create any right or benefit, substantive or procedural, enforceable in law or equity except as may be identified in existing laws and regulations, by a party against the United States, its agencies, its officers or employees, or any other person.

WILLIAM J. CLINTON.
EX. ORD. NO. 13506. ESTABLISHING A WHITE HOUSE COUNCIL ON WOMEN AND GIRLS

Ex. Ord. No. 13506, Mar. 11, 2009, 74 F.R. 12171, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, I hereby order as follows:

SECTION 1. Policy. Over the past generation, our society has made tremendous progress in eradicating barriers to women’s success. A record number of women are attending college and graduate school. Women make up a growing share of our workforce, and more women are corporate executives and business owners than ever before, helping boost the U.S. economy and foster U.S. competitiveness around the world. Today, women are serving at the highest levels of all branches of our Government.

Despite this progress, certain inequalities continue to persist. On average, American women continue to earn only about 78 cents for every dollar men make, and women are still significantly underrepresented in the science, engineering, and technology fields. Far too many women lack health insurance, and many are unable to take time off to care for a new baby or an ailing family member. Violence against women and girls remains a global epidemic. The challenge of ensuring equal educational opportunities for women and girls endures. As the current economic crisis has swept across our Nation, women have been particularly affected. These issues do not concern just women. When jobs do not offer family leave, that affects men who wish to help care for their families. When women earn less than men for the same work, that affects families who have to work harder to make ends meet. When our daughters do not have the same educational and career opportunities as our sons, that affects entire communities, our economy, and our future as a Nation.

The purpose of this order is to establish a coordinated Federal response to issues that particularly impact the lives of women and girls, including assisting women-owned businesses to compete internationally and working to increase the participation of women in the science, engineering, and technology workforce, and to ensure that Federal programs and policies adequately take those impacts into account. The Council shall be responsible for providing recommendations to the President on the effects of pending legislation and executive branch policy proposals; for suggesting changes to Federal programs or policies to address issues of special importance to women and girls; for reviewing and recommending changes to policies that have a distinct impact on women in the Federal workforce; and for assisting in the development of legislative and policy proposals of special importance to women and girls. The functions of the Council are advisory only.

The Council shall work across executive departments and agencies to provide a coordinated Federal response to issues that have a distinct impact on the lives of women and girls, including assisting women-owned businesses to compete internationally and working to increase the participation of women in the science, engineering, and technology workforce, and to ensure that Federal programs and policies adequately take those impacts into account. The Council shall be responsible for providing recommendations to the President on the effects of pending legislation and executive branch policy proposals; for suggesting changes to Federal programs or policies to address issues of special importance to women and girls; for reviewing and recommending changes to policies that have a distinct impact on women in the Federal workforce; and for assisting in the development of legislative and policy proposals of special importance to women and girls. The functions of the Council are advisory only.

Sect. 2. White House Council on Women and Girls. There is established within the Executive Office of the President a White House Council on Women and Girls (Council).

(a) Membership of the Council. The Council shall consist of the following members:

(1) the Senior Advisor and Assistant to the President for Intergovernmental Affairs and Public Liaison, who shall serve as Chair of the Council;
(2) the Secretary of State;
(3) the Secretary of the Treasury;
(4) the Secretary of Defense;
(5) the Attorney General;
(6) the Secretary of the Interior;
(7) the Secretary of Agriculture;
(8) the Secretary of Commerce;
(9) the Secretary of Labor;
(10) the Secretary of Health and Human Services;
(11) the Secretary of Housing and Urban Development;
(12) the Secretary of Transportation;
(13) the Secretary of Energy;
(14) the Secretary of Education;
(15) the Secretary of Veterans Affairs;
(16) the Secretary of Homeland Security;
(17) the Representative of the United States of America to the United Nations;
(18) the United States Trade Representative;
(19) the Director of the Office of Management and Budget;
(20) the Administrator of the Environmental Protection Agency;
(21) the Chair of the Council of Economic Advisers;
(22) the Director of the Office of Personnel Management;
(23) the Administrator of the Small Business Administration;
(24) the Assistant to the President and Director of the Domestic Policy Council;
(25) the Assistant to the President for Economic Policy and Director of the National Economic Council; and
(26) the heads of such other executive branch departments, agencies, and offices as the President may, from time to time, designate.

A member of the Council may designate, to perform the Council functions of the member, a senior-level official who is a part of the member’s department, agency, or office, and who is a full-time officer or employee of the Federal Government. At the direction of the Chair, the Council may establish subgroups consisting exclusively of Council members or their designees under this section, as appropriate.

(b) Administration of the Council. The Department of Commerce shall provide funding and administrative support for the Council to the extent permitted by law and within existing appropriations. The Chair shall convene regular meetings of the Council, determine its agenda, and direct its work. The Chair shall designate an Executive Director of the Council, who shall coordinate the work of the Council and head any staff assigned to the Council.

Sect. 3. Mission and Functions of the Council. The Council shall work across executive departments and agencies to provide a coordinated Federal response to issues that have a distinct impact on the lives of women and girls, including assisting women-owned businesses to compete internationally and working to increase the participation of women in the science, engineering, and technology workforce, and to ensure that Federal programs and policies adequately take those impacts into account. The Council shall be responsible for providing recommendations to the President on the effects of pending legislation and executive branch policy proposals; for suggesting changes to Federal programs or policies to address issues of special importance to women and girls; for reviewing and recommending changes to policies that have a distinct impact on women in the Federal workforce; and for assisting in the development of legislative and policy proposals of special importance to women and girls. The functions of the Council are advisory only.

Sect. 4. Outreach. Consistent with the objectives set out in this order, the Council, in accordance with applicable law, in addition to regular meetings, shall conduct outreach with representatives of nonprofit organizations, State and local government agencies, elected officials, and other interested persons that will assist with the Council’s development of a detailed set of recommendations.

Sect. 5. Federal Interagency Plan. The Council shall, within 150 days of the date of this order, develop and submit to the President a Federal interagency plan with recommendations for interagency action consistent with the goals of this order. The Federal interagency plan shall include an assessment by each member executive department, agency, or office of the status and scope of its efforts to further the progress and advancement of women and girls. Such an assessment shall include a report on the status of any offices or programs that have been created to develop, implement, or monitor targeted initiatives concerning women or girls. The Federal interagency plan shall also include recommendations for issues, programs, or initiatives that should be further evaluated or studied by the Council. The Council shall review and update the Federal interagency plan periodically, as appropriate, and shall present to the President any updated recommendations or findings.

Sect. 6. General Provisions. (a) The heads of executive departments and agencies shall assist and provide information to the Council, consistent with applicable law, as may be necessary to carry out the functions of the Council. Each executive department and agency shall bear its own expense for participating in the Council.

(b) Nothing in this order shall be construed to impair or otherwise affect:
§ 2000e–1. Exemption

(a) Inapplicability of subchapter to certain aliens and employees of religious entities

This subchapter shall not apply to an employer with respect to the employment of aliens outside any State, or to a religious corporation, association, educational institution, or society with respect to the employment of individuals of a particular religion to perform work connected with the carrying on by such corporation, association, educational institution, or society of its activities.

(b) Compliance with statute as violative of foreign law

(3) For purposes of this subsection, the determination of whether an employer controls a corporation shall be based on—

(A) the interrelation of operations;

(B) the common management;

(C) the centralized control of labor relations; and

(D) the common ownership or financial control, of the employer and the corporation.

§ 2000e–2. Unlawful employment practices

(a) Employer practices

It shall be an unlawful employment practice for an employer—

1. to fail or refuse to hire or to discharge any individual, or otherwise to discriminate against any individual with respect to his compensation, terms, conditions, or privileges of employment, because of such individual’s race, color, religion, sex, or national origin; or

MESSAGE OF THE PRESIDENT
To the Congress of the United States:
I am submitting to you today Reorganization Plan No. 1 of 1978. This Plan makes the Equal Employment Opportunity Commission the principal Federal agency in fair employment enforcement. Together with actions I shall take by Executive Order, it consolidates Federal equal employment opportunity activities and lays, for the first time, the foundation of a unified, coherent Federal structure to combat job discrimination in all its forms.

In 1940 President Roosevelt issued the first Executive Order forbidding discrimination in employment by the Federal government. Since that time the Congress, the courts and the Executive Branch—spurred by the courage and sacrifice of many people and organizations—has taken historic steps to extend equal employment opportunity protection throughout the private as well as public sector. But each new prohibition against discrimination unfortunately has brought with it a further dispersal of Federal equal employment opportunity responsibility. This fragmentation of authority among a number of Federal agencies has meant confusion and ineffective enforcement for employees, regulatory duplication and needless expense for employers. Fair employment is too vital for haphazard enforcement. My Administration will aggressively enforce our civil rights laws. Although discrimination in any area has severe consequences, limiting economic opportunity affects access to education, housing and health care. I, therefore, ask you to join with me in the administration of the civil rights laws and to begin that effort by reorganizing the enforcement of those laws which ensure an equal opportunity to a job.

Eighteen government units now exercise important responsibilities under statutes, Executive Orders and regulations relating to equal employment opportunity: The Equal Employment Opportunity Commission (EEOC) enforces Title VII of the Civil Rights Act of 1964, [section 2000e et seq. of this title] which bans employment discrimination based on race, national origin, sex or religion. The EEOC acts on individual complaints and also initiates private sector cases involving a “pattern or practice” of discrimination.

The Department of Labor and 11 other agencies enforce Executive Order 11246 [set out as a note under section 2000e of this title]. This prohibits discrimination in employment on the basis of race, national origin, sex, or religion and requires affirmative action by government contractors. While the Department now coordinates enforcement of this “contract compliance” program, it is actually administered by eleven other departments and agencies. The Department also administers those statutes requiring contractors to take affirmative action to employ handicapped people, disabled veterans and Vietnam veterans.

In addition, the Labor Department enforces the Equal Pay Act of 1963 (section 206(d) of Title 29, Labor), which prohibits employers from paying unequal wages based on sex, and the Age Discrimination in Employment Act of 1967 (section 621 et seq. of Title 29), which forbids age discrimination against persons between the ages of 40 and 65. The Department of Justice litigates Title VII cases involving public sector employers—State and local governments. The Department also represents the Federal government in lawsuits against Federal contractors and grant recipients who are in violation of Federal nondiscrimination prohibitions. The Civil Service Commission (CSC) enforces Title VII and all other nondiscrimination and affirmative action requirements for Federal employment. The CSC rules on complaints filed by individuals and monitors affirmative action plans submitted annually by other Federal agencies. The Equal Employment Opportunity Coordinating Council includes representatives from EEOC, Labor, Justice, CSC and the Civil Rights Commission. It is charged with coordinating the Federal equal employment opportunity enforcement effort and with eliminating overlap and inconsistent standards.

In addition to these major government units, other agencies enforce various equal employment opportunity requirements which apply to specific programs. The Department of the Treasury, for example, administers the anti-discrimination prohibitions applicable to recipients of revenue sharing funds. These programs have had only limited success. Some of the past deficiencies include:
—inefficient and ineffective enforcement for employees, regulatory duplication and needless expense for employers.
—confusion on the part of workers about how and where to redress their grievances.
—lack of accountability.

I am proposing today a series of steps to bring coherence to the equal employment enforcement effort. These steps, to be accomplished by the Reorganization Plan and Executive Orders, constitute an important step toward consolidation of equal employment opportunity enforcement. They will be implemented over the next two years, so that the agencies involved may continue their internal reforms. Its experience and broad scope make the EEOC suitable for the role of principal Federal agency in fair-em-
employment enforcement. Located in the Executive Branch and responsible to the President, the EEOC has developed considerable expertise in the field of employment discrimination since Congress created it by the Civil Rights Act of 1964 (section 2000e–4 of this title). The Commission has played a pioneer role in defining both employment discrimination and its appropriate remedies.

While it has had management problems in past administrations, the EEOC’s new leadership is making substantial progress in correcting them. In the last seven months the Commission has redesigned its internal structures and adopted proven management techniques. Early experience with these procedures indicates a high degree of success in reducing and expediting new cases. At my direction, the Office of Management and Budget is actively assisting the EEOC to ensure that these reforms continue.

The Reorganization Plan I am submitting will accomplish the following:

On July 1, 1978, abolish the Equal Employment Opportunity Coordinating Council (42 U.S.C. 2000e–14) and transfer its duties to the EEOC (no positions or funds shifted).

On October 1, 1978, shift enforcement of equal employment opportunity for Federal employees from the CSC to the EEOC (100 positions and $6.5 million shifted).

On July 1, 1979, shift responsibility for enforcing both the Equal Pay Act and the Age Discrimination in Employment Act from the Labor Department to the EEOC (198 positions and $5.3 million shifted for Equal Pay; 119 positions and $3.5 million for Age Discrimination).

Clarify the Attorney General’s authority to initiate “pattern or practice” suits under Title VII in the public sector.

In addition, I will issue an Executive Order on October 1, 1978, to consolidate the contract compliance program—now the responsibility of Labor and eleven “compliance agencies”—into the Labor Department (1,517 positions and $53.1 million shifted).

These proposed transfers and consolidations reduce from fifteen to three the number of Federal agencies having important equal employment opportunity responsibilities under Title VII of the Civil Rights Act of 1964 and Federal contract compliance provisions.

Each element of my Plan is important to the success of the entire proposal.

By abolishing the Equal Employment Opportunity Coordinating Council and transferring its responsibilities to the EEOC, this plan places the Commission at the center of equal opportunity enforcement. With these new responsibilities, the EEOC can give coherence and direction to the government’s enforcement efforts by developing strong uniform enforcement standards to apply throughout the government: standardized data collection procedures, joint training programs, programs to ensure the sharing of enforcement related data among agencies, and methods and priorities for complaint and compliance reviews. Such direction has been absent in the Equal Employment Opportunity Coordinating Council.

It should be stressed, however, that affected agencies will be consulted before EEOC takes any action. When the Plan has been approved, I intend to issue an Executive Order which will provide for consultation, as well as a procedure for reviewing major disputed issues within the Executive Office of the President. The Attorney General’s responsibility to advise the Executive Branch on legal issues will also be preserved.

Transfer of the Civil Service Commission’s equal employment opportunity responsibilities to EEOC is needed to ensure that: (1) Federal employees have the same rights and remedies as those in the private sector and in State and local government; (2) Federal agencies meet the same standards as are required of other employers; and (3) potential conflicts between an agency’s equal employment opportunity and personnel management functions are minimized.

The Equal Pay Act now administered by the Labor Department, prohibits employers from paying unequal wages based on sex. Title VII of the Civil Rights Act, which is enforced by EEOC, contains a broader ban on sex discrimination. The transfer of Equal Pay responsibility from the Labor Department to the EEOC will minimize overlap and centralize enforcement of statutory prohibitions against sex discrimination in employment.

The transfer will strengthen efforts to combat sex discrimination. Such efforts would be enhanced still further by passage of the Equal Rights Amendment, which I support, that would prohibit employers from excluding women disabled by pregnancy from participating in disability programs.

There is now virtually complete overlap in the employments, labor organizations, and employment agencies covered by Title VII and by the Age Discrimination in Employment Act. This overlap is burdensome to employers and confusing to victims of discrimination. The proposed transfer of the age discrimination program from the Labor Department to the EEOC will eliminate the duplication.

The Plan I am proposing will not affect the Attorney General’s responsibility to enforce Title VII against State or local governments or to represent the Federal government in suits against Federal contractors and grant recipients. In 1972, the Congress determined that the Attorney General should be involved in suits against State and local governments. This proposal reinforces that judgment and clarifies the Attorney General’s authority to initiate litigation against State or local governments engaged in a “pattern or practice” of discrimination. This in no way diminishes the EEOC’s existing authority to investigate complaints filed against State or local governments and, where appropriate, to refer them to the Attorney General. The Justice Department and the EEOC will cooperate so that the Department sue valid referrals, as well as on its own “pattern or practice” cases.

A critical element of my proposals will be accomplished by Executive Order rather than by the Reorganization Plan. This involves consolidation in the Executive Office of the responsibility to ensure that Federal contractors comply with Executive Order 11296. Consolidation will achieve the following: promote consistent standards, procedures, and reporting requirements; remove contractors from the jurisdiction of multiple agencies; prevent an agency’s equal employment objectives from being outweighed by its procurement and construction objectives; and produce more effective law enforcement through unification of planning, training and sanctions. By 1981, after I have had an opportunity to review the manner in which both the EEOC and the Labor Department are exercising their new responsibilities, I will determine whether further action is appropriate.

Finally, the responsibility for enforcing grant-related equal employment provisions will remain with the agencies administering the grant programs. With the EEOC acting as coordinator of Federal equal employment programs, we will be able to bring all actions and declarations to a minimum. The Federal Government will be able to see that a university’s employment practices are not subject to duplicative investigations under both Title
IX of the Education Amendments of 1972 [section 1681 et seq. of Title 20, Education] and the contract compliance program. Because of the similarities between the Executive Order program and those statutes requiring Federal contractors to take affirmative action to employ handicapped individuals and disabled and Vietnam veterans, I have determined that enforcement of these statutes should remain in the Labor Department.

Each of the changes set forth in the Reorganization Plan accompanying this message is necessary to accomplish one or more of the purposes set forth in Section 903(a) of Title 5 of the United States Code. I have taken care to determine that all functions abolished by this Plan will be done only under the statutory authority provided by Section 903(b) of Title 5 of the United States Code.

I do not anticipate that the reorganizations contained in this Plan will result in any significant change in expenditures. They will result in a more efficient and effective way of doing business in the area of job discrimination, but it is designed to give this agency sufficient time to absorb its new responsibilities. This reorganization will produce consistent agency standards, as well as increased accountability. Combined with the intense commitment of those charged with these responsibilities, it will become possible for us to accelerate this nation's progress in ensuring equal job opportunities for all our people.

JIMMY CARTER.

§ 2000e–5. Enforcement provisions

(a) Power of Commission to prevent unlawful employment practices

The Commission is empowered, as hereinafter provided, to prevent any person from engaging in any unlawful employment practice as set forth in subsection (b) of this section.

(b) Charges by persons aggrieved or member of Commission of unlawful employment practices by employers, etc.; filing; allegations; notice to respondent; contents of notice; investigation by Commission; contents of charges; prohibition on disclosure of charges; determination of reasonable cause; conference, conciliation, and persuasion for elimination of unlawful practices; prohibition on disclosure of informal endeavors to end unlawful practices; use of evidence in subsequent proceedings; penalties for disclosure of information; time for determination of reasonable cause

Whenever a charge is filed by or on behalf of a person claiming to be aggrieved, or by a member of the Commission, alleging that an employer, employment agency, labor organization, or joint labor-management committee controlling apprenticeship or other training or retraining, including on-the-job training programs, has engaged in an unlawful employment practice, the Commission shall serve a notice of the charge (including the date, place and circumstances of the alleged unlawful employment practice) on such employer, employment agency, labor organization, or joint labor-management committee (hereinafter referred to as the “respondent”) within ten days, and shall make an investigation thereof. Charges shall be in writing under oath or affirmation and shall contain such information and be in such form as the Commission requires. Charges shall not be made public by the Commission if the Commission determines after such investigation that there is not reasonable cause to believe that the charge is true, it shall dismiss the charge and promptly notify the person claiming to be aggrieved and the respondent of its action. In determining whether reasonable cause exists, the Commission shall accord substantial weight to final findings and orders made by State or local authorities in proceedings commenced under State or local law pursuant to the requirements of subsections (c) and (d) of this section. If the Commission determines after such investigation that there is reasonable cause to believe that the charge is true, the Commission shall endeavor to eliminate any such alleged unlawful employment practice by informal methods of conference, conciliation, and persuasion. Nothing said or done during and as a part of such informal endeavors may be made public by the Commission, its officers or employees, or used as evidence in a subsequent proceeding without the written consent of the persons concerned. Any person who makes public information in violation of this subsection shall be fined not more than $1,000 or imprisoned for not more than one year, or both. The Commission shall make its determination on reasonable cause as promptly as possible and, so far as practicable, not later than one hundred and twenty days from the filing of the charge or, where applicable under subsection (c) or (d) of this section, from the date upon which the Commission is authorized to take action with respect to the charge.

(c) State or local enforcement proceedings; notification of State or local authority; time for filing charges with Commission; commencement of proceedings

In the case of an alleged unlawful employment practice occurring in a State, or political subdivision of a State, which has a State or local law prohibiting the unlawful employment practice alleged and establishing or authorizing a State or local authority to grant or seek relief from such practice or to institute criminal proceedings with respect thereto upon receiving notice thereof, no charge may be filed under subsection (a) of this section by the person aggrieved before the expiration of sixty days after such proceedings have been commenced under the State or local law, unless such proceedings have been earlier terminated, provided that such sixty-day period shall be extended to one hundred and twenty days during the first year after the effective date of such State or local law. If any requirement for the commencement of such proceedings is imposed by a State or local authority other than a requirement of the filing of a written and signed statement of the facts upon which the proceeding is based, the proceeding shall be deemed to have been commenced for the purposes of this subsection at the time such statement is sent by registered mail to the appropriate State or local authority.

(d) State or local enforcement proceedings; notification of State or local authority; time for action on charges by Commission

In the case of any charge filed by a member of the Commission alleging an unlawful employment practice occurring in a State or political subdivision of a State which has a State or local law prohibiting the practice alleged and establishing or authorizing a State or local authority to grant or seek relief from such practice or to institute criminal proceedings with respect thereto upon receiving notice thereof, the Commission shall, before taking any action with respect to such charge, notify the appropriate State or local officials and, upon request, afford them a reasonable time, but not more than sixty days (provided that such sixty-day period shall be extended to one hundred and twenty days during the first year after the effective day of such State or local law), unless a shorter period is requested, to act under such State or local law to remedy the practice alleged.

(e) Time for filing charges; time for service of notice of charge on respondent; filing of charge by Commission with State or local agency; seniority system

(1) A charge under this section shall be filed within one hundred and eighty days after the al-

1So in original. Probably should be subsection “(b)”. 
§ 2000e-5  TITLE 42—THE PUBLIC HEALTH AND WELFARE  Page 420

(1) If within thirty days after a charge is filed with the Commission or within thirty days after expiration of any period of reference under subsection (c) or (d) of this section, the Commission has been unable to secure from the respondent a conciliation agreement acceptable to the Commission, the Commission may bring a civil action against any respondent not a government, governmental agency, or political subdivision, or a political subdivision, to intervene in any civil action brought by the Commission or the Attorney General in a case involving a government, governmental agency, or political subdivision, shall so notify the person aggrieved, the person against whom such charge is made within ten days thereafter, except that in a case of an unlawful employment practice with respect to which the person aggrieved has initially instituted proceedings with a State or local agency with authority to grant or seek relief from such practice or to institute criminal proceedings with respect thereto upon receiving notice thereof, such charge shall be filed by or on behalf of the person aggrieved within three hundred days after the alleged unlawful employment practice occurred, or within thirty days after receiving notice that the State or local agency has terminated the proceedings under the State or local law, whichever is earlier, and a copy of such charge shall be filed by the Commission with the State or local agency.

(2) For purposes of this section, an unlawful employment practice occurs, with respect to a seniority system that has been adopted for an intentionally discriminatory purpose in violation of this subchapter (whether or not that discriminatory purpose is apparent on the face of the seniority provision), when the seniority system is adopted, when an individual becomes subject to the seniority system, or when a person aggrieved is injured by the application of the seniority system or provision of the system.

(3)(A) For purposes of this section, an unlawful employment practice occurs with respect to discrimination in compensation in violation of this subchapter, when a discriminatory compensation decision or other practice is adopted, when an individual is affected by application of a discriminatory compensation decision or other practice, or when an individual is affected by application of a discriminatory compensation decision or other practice, including each time wages, benefits, or other compensation is paid, resulting in whole or in part from such a decision or other practice. (B) In addition to any relief authorized by section 1981a of this title, liability may accrue and an aggrieved person may obtain relief as provided in subsection (g)(1), including recovery of back pay for up to two years preceding the filing of the charge, where the unlawful employment practices that have occurred during the charge filing period are similar or related to unlawful employment practices with regard to discrimination in compensation that occurred outside the time for filing a charge.

(f) Civil action by Commission, Attorney General, or person aggrieved; preconditions; procedures; appointment of attorney; payment of fees, costs, or security; intervention; stay of Federal proceedings; action for appropriate temporary or preliminary relief pending final disposition of charge; jurisdiction and venue of United States courts; designation of judicially to hear and determine cases; assignment of cases for hearing; expedition of cases; appointment of master

(1) If within thirty days after a charge is filed with the Commission or within thirty days after expiration of any period of reference under subsection (c) or (d) of this section, the Commission...
relief shall be issued in accordance with rule 65 of the Federal Rules of Civil Procedure. It shall be the duty of a court having jurisdiction over proceedings under this section to assign cases for hearing at the earliest practicable date and to cause such cases to be in every way expedited.

(3) Each United States district court and each United States court of a place subject to the jurisdiction of the United States shall have jurisdiction of actions brought under this subchapter. Such an action may be brought in any judicial district in the State in which the unlawful employment practice is alleged to have been committed, in the judicial district in which the employment records relevant to such practice are maintained and administered, or in the judicial district in which the aggrieved person would have worked but for the alleged unlawful employment practice, but if the respondent is not found within any such district, such an action may be brought within the judicial district in which the unlawful employment practice is alleged to have been committed, in the judicial district in which the respondent has his principal office. For purposes of sections 1404 and 1406 of title 28, the judicial district in which the respondent has his principal office shall in all cases be considered a district in which the action might have been brought.

(4) It shall be the duty of the chief judge of the district (or in his absence, the acting chief judge) in which the case is pending immediately to designate a judge in such district to hear and determine the case. In the event that no judge in the district is available to hear and determine the case, the chief judge of the district, or the acting chief judge, as the case may be, shall certify this fact to the chief judge of the circuit (or in his absence, the acting chief judge) who shall then designate a district or circuit judge of the circuit to hear and determine the case.

(5) It shall be the duty of the judge designated pursuant to this subsection to assign the case for hearing at the earliest practicable date and to cause the case to be in every way expedited. If such judge has not scheduled the case for trial within one hundred and twenty days after issue has been joined, that judge may appoint a master pursuant to rule 53 of the Federal Rules of Civil Procedure.

(g) Injunctions; appropriate affirmative action; equitable relief; accrual of back pay; reduction of back pay; limitations on judicial orders

(1) If the court finds that the respondent has intentionally engaged in or is intentionally engaging in an unlawful employment practice charged in the complaint, the court may enjoin the respondent from engaging in such unlawful employment practice, and order such affirmative action as may be appropriate, which may include, but is not limited to, reinstatement or hiring of employees, with or without back pay (payable by the employer, employment agency, or labor organization, as the case may be, responsible for the unlawful employment practice), or any other equitable relief as the court deems appropriate. Back pay liability shall not accrue from a date more than two years prior to the filing of a charge with the Commission. Interim earnings or amounts earnable with reasonable diligence by the person or persons discriminated against shall operate to reduce the back pay otherwise allowable.

(2)(A) No order of the court shall require the admission or reinstatement of an individual as a member of a union, or the hiring, reinstatement, or promotion of an individual as an employee, or the payment to him of any back pay, if such individual was refused admission, suspended, or expelled, or was refused employment or advancement or was suspended or discharged for any reason other than discrimination on account of race, color, religion, sex, or national origin or in violation of section 2000e–3(a) of this title.

(B) On a claim in which an individual proves a violation under section 2000e–2(m) of this title and a respondent demonstrates that the respondent would have taken the same action in the absence of the impermissible motivating factor, the court—

(i) may grant declaratory relief, injunctive relief (except as provided in clause (ii)), and attorney’s fees and costs demonstrated to be directly attributable only to the pursuit of a claim under section 2000e–2(m) of this title; and

(ii) shall not award damages or issue an order requiring any admission, reinstatement, hiring, promotion, or payment, described in subparagraph (A).

(h) Provisions of chapter 6 of title 29 not applicable to civil actions for prevention of unlawful practices

The provisions of chapter 6 of title 29 shall not apply with respect to civil actions brought under this section.

(i) Proceedings by Commission to compel compliance with judicial orders

In any case in which an employer, employment agency, or labor organization fails to comply with an order of a court issued in a civil action brought under this section, the Commission may commence proceedings to compel compliance with such order.

(j) Appeals

Any civil action brought under this section and any proceedings brought under subsection (f) of this section shall be subject to appeal as provided in sections 1291 and 1292, title 28.

(k) Attorney’s fee; liability of Commission and United States for costs

In any action or proceeding under this subchapter the court, in its discretion, may allow the prevailing party, other than the Commission or the United States, a reasonable attorney’s fee (including expert fees) as part of the costs, and the Commission and the United States shall be liable for costs the same as a private person.

EFFECTIVE DATE OF 1991 AMENDMENT

Section 14 of Pub. L. 92–261 provided that: ‘‘The amendments made by this Act to section 706 of the Civil Rights Act of 1964 [this section] shall be applicable with respect to charges pending with the Commission on the date of enactment of this Act [Mar. 24, 1972] and all charges filed thereafter.’’

FINDINGS

Pub. L. 111–2, § 2, Jan. 29, 2009, 123 Stat. 5, provided that: ‘‘Congress finds the following:

‘‘(1) The Supreme Court in Ledbetter v. Goodyear Tire & Rubber Co., 550 U.S. 618 (2007), significantly impairs statutory protections against discrimination in compensation that Congress established and that have been bedrock principles of American law for decades. The Ledbetter decision undermines those statutory protections by unduly restricting the time period in which victims of discrimination can challenge and recover for discriminatory compensation decisions or other practices, contrary to the intent of Congress.

‘‘(2) The limitation imposed by the Court on the filing of discriminatory compensation claims ignores the reality of wage discrimination and is at odds with the robust application of the civil rights laws that Congress intended.

‘‘(3) With regard to any charge of discrimination under any law, nothing in this Act [amending this section and section 2000e–16 of this title and sections 626, 633a, and 794a of Title 29, Labor, and enacting provisions set out as notes under this section and section 2000a of this title] is intended to preclude or limit an aggrieved person’s right to introduce evidence of an unlawful employment practice that has occurred outside the time for filing a charge of discrimination.

‘‘(4) Nothing in this Act is intended to change current law treatment of when pension distributions are considered paid.’’

APPLICATION TO OTHER LAWS
Pub. L. 111–2, § 5(a), (b), Jan. 29, 2009, 123 Stat. 6, provided that:

‘‘(b) REHABILITATION ACT OF 1973.—The amendments made by section 3 shall apply to claims of discrimination in compensation brought under sections 501 and 504 of the Rehabilitation Act of 1973 (29 U.S.C. 791, 794), pursuant to—

‘‘(1) sections 501(g) and 504(d) of such Act (29 U.S.C. 791(g), 794(d)), respectively, which adopt the standards

§ 2000e–7. Effect on State laws

Nothing in this subchapter shall be deemed to exempt or relieve any person from any liability, duty, penalty, or punishment provided by any present or future law of any State or political subdivision of a State, other than any such law which purports to require or permit the doing of any act which would be an unlawful employment practice under this subchapter.

§ 2000e–8. Investigations

(a) Examination and copying of evidence related to unlawful employment practices

In connection with any investigation of a charge filed under section 2000e–5 of this title, the Commission or its designated representative shall at all reasonable times have access to, for the purposes of examination, and the right to copy any evidence of any person being investigated or proceeded against that relates to unlawful employment practices covered by this subchapter and is relevant to the charge under investigation.

(b) Cooperation with State and local agencies administering State fair employment practices laws; participation in and contribution to research and other projects; utilization of services; payment in advance or reimbursement; agreements and rescission of agreements

The Commission may cooperate with State and local agencies charged with the administration of State fair employment practices laws and, with the consent of such agencies, may, for the purpose of carrying out its functions and duties under this subchapter and within the limitation of funds appropriated specifically for such purpose, engage in and contribute to the cost of research and other projects of mutual interest undertaken by such agencies, and utilize the services of such agencies and their employees, and, notwithstanding any other provision of law, pay by advance or reimbursement such agencies and their employees for services rendered to assist the Commission in carrying out this subchapter.

In furtherance of such cooperative efforts, the Commission may enter into written agreements with such State or local agencies and such agreements may include provisions under which the Commission shall refrain from processing a charge in any cases or class of cases specified in such agreements or under which the Commission shall relieve any person or class of persons in such State or locality from requirements imposed under this section. The Commission shall rescind any such agreement whenever it determines that the agreement no longer serves the interest of effective enforcement of this subchapter.

(c) Execution, retention, and preservation of records; reports to Commission; training programs; records; appointment to labor-management committee or order to relieve or order or order for undue hardship; procedure for exemption; judicial action to compel compliance

Every employer, employment agency, and labor organization subject to this subchapter shall (1) make and keep such records relevant to the determinations of whether unlawful employment practices have been or are being committed, (2) preserve such records for such periods, and (3) make such reports therefrom as the Commission shall prescribe by regulation or order, after public hearing, as reasonable, necessary, or appropriate for the enforcement of this subchapter or the regulations or orders thereunder. The Commission shall, by regulation, require each employer, labor organization, and joint labor-management committee subject to this subchapter which controls an apprenticeship or other training program to maintain such records as are reasonably necessary to carry out the purposes of this subchapter. In ruling on applications for exempt status, the Commission shall consider, and shall be guided in its decision by, among other factors, whether there is a sufficient goal and means of achieving the objective to which the exemption is applied.

Any employer, employment agency, labor organization, or joint labor-management committee which believes that the application to it of any regulation or order issued under this section would result in undue hardship may apply to the Commission for an exemption from the application of such regulation or order, and, if such application for an exemption is denied, bring a civil action in the United States district court for the district where such records are kept. If the Commission or the court, as the case may be, finds that the application of the regulation or order to the employer, employment agency, or labor organization in question would impose an undue hardship, the Commission or the court, as the case may be, may grant appropriate re-
lief. If any person required to comply with the provisions of this subsection fails or refuses to do so, the United States district court for the district in which such person is found, resides, or transacts business, shall, upon application of the Commission, or the Attorney General in a case involving a government, governmental agency or political subdivision, have jurisdiction to issue to such person an order requiring him to comply.

(d) Consultation and coordination between Commission and interested State and Federal agencies in prescribing recordkeeping and reporting requirements; availability of information furnished pursuant to recordkeeping and reporting requirements; conditions on availability

In prescribing requirements pursuant to subsection (c) of this section, the Commission shall consult with other interested State and Federal agencies and shall endeavor to coordinate its requirements with those adopted by such agencies. The Commission shall furnish upon request and without cost to any State or local agency charged with the administration of a fair employment practice law information obtained pursuant to subsection (c) of this section from any employer, employment agency, labor organization, or joint labor-management committee subject to the jurisdiction of such agency. Such information shall be furnished on condition that it not be made public by the recipient agency prior to the institution of a proceeding under State or local law involving such information. If this condition is violated by a recipient agency, the Commission may decline to honor subsequent requests pursuant to this subsection.

(e) Prohibited disclosures; penalties

It shall be unlawful for any officer or employee of the Commission to make public in any manner whatever any information obtained by the Commission pursuant to its authority under this section prior to the institution of any proceeding under this subchapter involving such information. Any officer or employee of the Commission who shall make public in any manner whatever any information in violation of this subsection shall be guilty, of a misdemeanor and upon conviction thereof, shall be fined not more than $1,000, or imprisoned not more than one year.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION GUIDELINES ON RELIGIOUS HARASSMENT

Pub. L. 111–117, div. B, title V, § 506, Mar. 11, 2009, 123 Stat. 5126, provided that: "Hereafter, none of the funds made available in this or any other Act may be used to implement, administer, or enforce any guidelines of the Equal Employment Opportunity Commission covering harassment based on religion, when it is made known to the Federal entity or official to which such funds are made available that such guidelines do not differ in any respect from the proposed guidelines published by the Commission on October 1, 1993 (58 Fed. Reg. 51266)."

Similar provisions were contained in the following prior appropriation acts:

"(a) FINDINGS.—The Congress finds that—

"(1) the liberties protected by our Constitution include religious liberty protected by the first amendment; 

"(2) citizens of the United States profess the beliefs of almost every conceivable religion; 

"(3) Congress has historically protected religious expression even from governmental action not intended to be hostile to religion; 

"(4) the Supreme Court has written that 'the free exercise of religion means, first and foremost, the right to believe and profess whatever religious doctrine one desires';

"(5) the Supreme Court has firmly settled that under our Constitution the public expression of ideas may not be prohibited merely because the content of the ideas is offensive to some;

"(6) Congress enacted the Religious Freedom Restoration Act of 1993 [42 U.S.C. 2000bb et seq.] to restate and make clear again our intent and position that religious liberty is and should forever be granted protection from unwarranted and unjustified government intrusions and burdens;

"(7) the Equal Employment Opportunity Commission has written proposed guidelines to title VII of the Civil Rights Act of 1964 [42 U.S.C. 2000e et seq.], published in the Federal Register on October 1, 1993, that expand the definition of religious harassment beyond established legal standards set forth by the Supreme Court, and that may result in the infringement of religious liberty;

"(8) such guidelines do not appropriately resolve issues related to religious liberty and religious expression in the workplace;

"(9) properly drawn guidelines for the determination of religious harassment should provide appropriate guidance to employers and employees and assist in the continued preservation of religious liberty as guaranteed by the first amendment;

"(10) the Commission states in its proposed guidelines that it retains wholly separate guidelines for the determination of sexual harassment because the Commission believes that sexual harassment raises issues about human interaction that are to some extent unique; and

"(11) the subject of religious harassment also raises issues about human interaction that are to some extent unique in comparison to other harassment.

"(1) the category of religion shall be withdrawn from the proposed guidelines at this time;

"(2) any new guidelines for the determination of religious harassment shall be drafted so as to make explicitly clear that symbols or expressions of religious belief consistent with the first amendment and the Religious Freedom Restoration Act of 1993 [42 U.S.C. 2000bb et seq.] are not to be restricted and do not constitute proof of harassment;

"(3) the Commission shall hold public hearings on such new proposed guidelines; and

"(4) the Commission shall receive additional public comment before issuing similar new regulations.

§ 2000e–13. Application pending of Commission of sections 111 and 1114 of title 18; punishment for violation of section 1114 of title 18

(3) collect protected genetic information as a part of a lawful program, the primary purpose of which is to carry out identification purposes.

Sec. 4. Miscellaneous

1–601. The head of each department and agency shall take appropriate action to disseminate this policy and, to this end, shall designate a high level official responsible for carrying out its responsibilities under this order.

1–602. Nothing in this order shall be construed to:

(a) limit the rights or protections of an individual under the Rehabilitation Act of 1973 (29 U.S.C. 701, et seq.), the Privacy Act of 1974 (5 U.S.C. 552a), or other applicable law; or

(b) require specific benefits for an employee or dependent under the Federal Employees Health Benefits Program or similar program.

MESSAGE OF THE PRESIDENT

To the Congress of the United States:

I transmit herewith Reorganization Plan No. 1 of 1966, prepared in accordance with the Reorganization Act of 1949, as amended, and providing for reorganization of community relations functions in the area of civil rights.

After a careful review of the activities of the Federal agencies involved in the field of civil rights, it became clear that the elimination of duplication and undesirable overlap required the consolidation of certain functions.

As a first step, I issued Executive Orders 11246 and 11247 on September 24, 1965, Executive Order 11246 simplified and clarified executive branch assignments of responsibility for enforcing civil rights policies and placed responsibility for the Government-wide coordination of the enforcement activities of executive agencies in the Secretary of Labor with respect to employment by Federal contractors and in the Civil Service Commission with respect to employment by Federal agencies.

Executive Order 11247 directed the Attorney General to assist Federal agencies in coordinating their enforcement activities with respect to title VI of the Civil Rights Act of 1964, which prohibits discrimination in federally assisted programs.
As a further step for strengthening the operation and coordination of our civil rights programs, I now recommend transfer of the functions of the Community Relations Service, established in 1961 in the Department of Commerce under title X of the Civil Rights Act of 1964, to the Attorney General and transfer of the Service, including the Office of Director, to the Department of Justice.

The Community Relations Service was located in the Department of Commerce by the Congress on the assumption that a primary need would be the conciliation of disputes arising out of the public accommodations title of the act. That decision was appropriate on the basis of information available at that time. The need for conciliation in this area has not been as great as anticipated because of the voluntary progress that has been made by businessmen and business organizations.

To the effective, assistance to communities in the identification and conciliation of disputes should be closely and tightly coordinated. Thus, in any particular situation that arises within a community, representatives of Federal agencies whose programs are involved should coordinate their efforts through a single agency. In recent years, the Civil Rights Division of the Justice Department has played such a coordinating role in many situations, and has done so with great effectiveness.

Placing the Community Relations Service within the Justice Department will enhance the ability of the Justice Department to coordinate and conciliate and will ensure that the Federal Government speaks with a unified voice in those tense situations where the good offices of the Federal Government are called upon to assist.

In this, as in other areas of Federal operations, we will move more surely and rapidly toward our objectives if we improve Federal organization and the arrangements for interagency coordination. The accompanying reorganization plan has that purpose.

The present distribution of Federal civil rights responsibilities clearly indicates that the activities of the Community Relations Service will fit most appropriately in the Department of Justice.

The Department of Justice has primary program responsibilities in civil rights matters and deep and broad experience in the conciliation of civil rights disputes. Congress has assigned it a major role in the implementation of the Civil Rights Act of 1957, 1960, and 1964, and the Voting Rights Act of 1965. The Department of Justice performs related functions under other acts of Congress. Most of these responsibilities require not only litigation, but also efforts at persuasion, negotiation, and explanation, especially with local governments and law enforcement authorities. In addition, under the Law Enforcement Assistance Act the Department will be supporting local programs in the area of police-community relations.

The test of the effectiveness of an enforcement agency is not how many legal actions are initiated and won, but whether there is compliance with the law. Thus, every such agency necessarily engages in extensive efforts to obtain compliance with the law and the avoidance of disputes. In fact, title VI of the Civil Rights Act of 1964 requires each agency concerned to attempt to obtain compliance by voluntary means before taking further action.

Among the heads of Cabinet departments the President looks principally to the Attorney General for advice and judgment on civil rights issues. The latter is expected to be familiar with civil rights problems in all parts of the Nation and to make recommendations for executive and legislative action.

The Attorney General already has responsibility with respect to a major portion of Federal conciliation efforts in the civil rights field. Under Executive Order 11247, he coordinates the Government-wide enforcement of title VI of the Civil Rights Act of 1964, which relies heavily on the achievement of compliance through persuasion and negotiation.

In the light of these facts, the accompanying reorganization plan would transfer the functions of the Community Relations Service and of its Director to the Attorney General. In so providing, the plan, of course, follows the established pattern of Federal organization by vesting all the transferred powers in the head of the department. The Attorney General will provide for the organization of the Community Relations Service as a separate unit within the Department of Justice.

The functions transferred by the reorganization plan would be carried out with full regard for the provisions of section 1003 of title X of the Civil Rights Act of 1964 relating to (1) cooperation with appropriate State or local, public, or private agencies; (2) the confidentiality of information acquired with the understanding that it would be so held; and (3) the limitation on the performance of investigative or prosecutive functions by personnel of the Service.

This transfer will benefit both the Department of Justice and the Community Relations Service in the fulfillment of their existing functions.

The Attorney General will benefit in his role as the President's adviser by obtaining an opportunity to anticipate and meet problems before the need for legal action arises.

The Community Relations Service, brought into closer relationship with the Attorney General and the Civil Rights Division of the Department of Justice, will gain thereby becoming a primary resource in a coordinated effort in civil rights under the leadership of the Attorney General. The Community Relations Service will have direct access to the extensive information, experience, staff, and facilities within the Department and in other Federal agencies.

Finally, the responsibility for coordinating major Government activities under the Civil Rights Act aimed at voluntary and peaceful resolution of discriminatory practices will be centered in one department. Thus, the reorganization will permit the most efficient and effective utilization of resources in this field. Together the Service and the Department will have a larger capacity for accomplishment than they do apart.

Although the reorganizations provided for in the reorganization plan will not of themselves result in immediate savings, the improvement achieved in administration will permit a fuller and more effective utilization of manpower and will in the future allow the performance of the affected functions at lower costs than would otherwise be possible.

After investigation I have found and hereby declare that each organization included in Reorganization Plan No. 1 of 1966 is necessary to accomplish one or more of the purposes set forth in section 2(a) of the Reorganization Act of 1949, as amended.

I recommend that the Congress allow the reorganization plan to become effective.

LYNDON B. JOHNSON.

§ 2000g–1. Functions of Service

It shall be the function of the Service to provide assistance to communities and persons therein in resolving disputes, disagreements, or difficulties relating to discriminatory practices based on race, color, or national origin which impair the rights of persons in such communities under the Constitution or laws of the United States or which affect or may affect interstate commerce. The Service may offer its services in cases of such disputes, disagreements, or difficulties whenever, in its judgment, peaceful relations among the citizens of the community involved are threatened thereby, and it may offer its services either upon its own motion or upon the request of an appropriate State or local official or other interested person.

§ 2000g–2. Cooperation with other agencies; conciliation assistance in confidence and without publicity; information as confidential; restriction on performance of investigative or prosecuting functions; violations and penalties

(a) The Service shall, whenever possible, in performing its functions, seek and utilize the cooperation of appropriate State or local, public, or private agencies.

(b) The activities of all officers and employees of the Service in providing conciliation assistance shall be conducted in confidence and without publicity, and the Service shall hold confidential any information acquired in the regular performance of its duties upon the understanding that it would be so held. No officer or employee of the Service shall engage in the performance of investigatory or prosecuting functions of any department or agency in any litigation arising out of a dispute in which he acted on behalf of the Service. Any officer or other employee of the Service, who shall make public in any manner whatever any information in violation of this subsection, shall be deemed guilty of a misdemeanor and, upon conviction thereof, shall be fined not more than $1,000 or imprisoned not more than one year.

§ 2000g–3. Reports to Congress

Subject to the provisions of sections 2000a–4 and 2000g–2(b) of this title, the Director shall, on or before January 31 of each year, submit to the Congress a report of the activities of the Service during the preceding fiscal year.

§ 2000h. Criminal contempt proceedings; trial by jury, criminal practice, penalties, exceptions, intent; civil contempt proceedings

In any proceeding for criminal contempt arising under title II, III, IV, V, VI, or VII of this Act, the accused, upon demand therefor, shall be entitled to a trial by jury, which shall conform to the practice in criminal cases. Upon conviction, the accused shall not be fined more than $1,000 or imprisoned for more than six months.

This section shall not apply to contempt committed in the presence of the court, or so near thereto as to obstruct the administration of justice, nor to the misbehavior, misconduct, or disobedience of any officer of the court in regard to writings, orders, or process of the court. No person shall be convicted of criminal contempt hereunder unless the act or omission constituting such contempt shall have been intentional, as required in other cases of criminal contempt. Nor shall anything herein be construed to deprive courts of their power, by civil contempt proceedings, without a jury, to secure compliance with or to prevent obstruction of, as distinguished from punishment for violations of, any lawful writ, process, order, rule, decree, or command of the court in accordance with the prevailing usages of law and equity, including the power of detention.

§ 2000h–1. Double jeopardy; specific crimes and criminal contempt

No person should be put twice in jeopardy under the laws of the United States for the same act or omission. For this reason, an acquittal or conviction in a prosecution for a specific crime under the laws of the United States shall bar a proceeding for criminal contempt, which is based upon the same act or omission and which arises under the provisions of this Act; and an acquittal or conviction in a proceeding for criminal contempt, which arises under the provisions of this Act, shall bar a prosecution for a specific crime under the laws of the United States based upon the same act or omission.

§ 2000h–2. Intervention by Attorney General; denial of equal protection on account of race, color, religion, sex or national origin

(b) Scope of application

This section applies in any case in which—

“(2) A number of investigations remain ongoing by countries that are close United States allies in the war on terrorism regarding the conduct of officials, employees, and agents of the United States and of other countries related to conduct regarding detainees.

“(3) The Secretary of State has launched an initiative to try to address the differences between the United States and many of its allies regarding the treatment of detainees.

“(b) SENSE OF CONGRESS.—It is the sense of Congress that the Secretary, acting through the Legal Adviser of the Department of State, should continue to build on the Secretary’s efforts to engage United States allies to develop a common coalition approach, in compliance with Common Article 3 of the Geneva Conventions and other applicable legal principles, toward the detention and humane treatment of individuals detained during Operation Iraqi Freedom, Operation Enduring Freedom, or in connection with United States counterterrorist operations.

$2012. Congressional findings

The Congress of the United States makes the following findings concerning the development, use, and control of atomic energy:

(a) The development, utilization, and control of atomic energy for military and for all other
purposes are vital to the common defense and security.

(c) The processing and utilization of source, byproduct, and special nuclear material affect interstate and foreign commerce and must be regulated in the national interest.

(d) The processing and utilization of source, byproduct, and special nuclear material must be regulated in the national interest and in order to provide for the common defense and security and to protect the health and safety of the public.

(e) Source and special nuclear material, production facilities, and utilization facilities are affected with the public interest, and regulation by the United States of the production and utilization of atomic energy and of the facilities used in connection therewith is necessary in the national interest to assure the common defense and security and to protect the health and safety of the public.

(f) The necessity for protection against possible interstate damage occurring from the operation of facilities for the production or utilization of source or special nuclear material places the operation of those facilities in interstate commerce for the purposes of this chapter.

(g) Funds of the United States may be provided for the development and use of atomic energy under conditions which will provide for the common defense and security and promote the general welfare.

(i) In order to protect the public and to encourage the development of the atomic energy industry, in the interest of the general welfare and of the common defense and security, the United States may make funds available for a portion of the damages suffered by the public from nuclear incidents, and may limit the liability of those persons liable for such losses.

Prior Provisions

Provisions similar to those comprising this section were contained in section 1 of act Aug. 1, 1946, ch. 724, 69 Stat. 755, which was classified to section 1891 of this title, prior to the general amendment and renumbering of act Aug. 1, 1946, by act Aug. 30, 1954.

Amendments

1964—Subsec. (b). Pub. L. 88–489, §1, struck out subsec. (b) which found that use of United States property by others must be regulated in national interest and in order to provide for common defense and security and to protect health and safety of public.

Subsec. (h). Pub. L. 88–489, §2, struck out subsec. (h) which found it essential to common defense and security that title to all special nuclear material be in United States while such special nuclear material is within United States.

CONTROL AND REGULATION POWERS OF UNITED STATES AND OF ATOMIC ENERGY COMMISSION UNAFFECTED BY PRIVATE OWNERSHIP OF SPECIAL NUCLEAR MATERIALS

Section 20 of Pub. L. 88–489 provided that: "Nothing in this Act [amending this section and sections 2013, 2073 to 2078, 2135, 2153, 2201, 2233 and 2234 of this title, repealing section 2072 of this title, and enacting provisions set out as notes under this section and section 2072 of this title] shall be deemed to diminish existing authority of the United States, or of the Atomic Energy Commission under the Atomic Energy Act of 1954, as amended [this chapter], to regulate source, byproduct, and special nuclear material and production and utilization facilities, or to control such materials and facilities exported from the United States by imposition of governmental guarantees and security safeguards with respect thereto, in order to assure the common defense and security and to protect the health and safety of the public, or to reduce the responsibility of the Atomic Energy Commission to achieve such objectives."

§ 2013. Purpose of chapter

(c) a program for Government control of the possession, use, and production of atomic energy and special nuclear material, whether owned by the Government or others, so directed as to make the maximum contribution to the common defense and security and the national welfare, and to provide continued assurance of the Government's ability to enter into and enforce agreements with nations or groups of nations for the control of special nuclear materials and atomic weapons;

(d) a program to encourage widespread participation in the development and utilization of atomic energy for peaceful purposes to the maximum extent consistent with the common defense and security and with the health and safety of the public;

(e) a program of international cooperation to promote the common defense and security and to make available to cooperating nations the benefits of peaceful applications of atomic energy as widely as expanding technology and considerations of the common defense and security will permit; and

(f) a program of administration which will be consistent with the foregoing policies and programs, with international arrangements, and with agreements for cooperation, which will enable the Congress to be currently informed so as to take further legislative action as may be appropriate.

(m) Limitation of agreements and exemptions

No agreement entered into under subsection (b) of this section, and no exemption granted pursuant to subsection (f) of this section, shall affect the authority of the Commission under section 2201(b) or (i) of this title to issue rules, regulations, or orders to protect the common defense and security, to protect restricted data or to guard against the loss or diversion of special nuclear material. For purposes of section 2201(i) of this title, activities covered by exemptions granted pursuant to subsection (f) of this section shall be deemed to constitute activities authorized pursuant to this chapter; and special nuclear material acquired by any person pursuant to such an exemption shall be deemed to have been acquired pursuant to section 2073 of this title.

(n) “State” and “agreement” defined

As used in this section, the term “State” means any State, Territory, or possession of the United States, the Canal Zone, Puerto Rico, and the District of Columbia. As used in this section, the term “agreement” includes any amendment to any agreement.

(o) State compliance requirements: compliance with section 2113(b) of this title and health and environmental protection standards; procedures for licenses, rulemaking, and license impact analysis; amendment of agreements for transfer of State-collected funds; proceedings duplication restriction; alternative requirements

In the licensing and regulation of byproduct material, as defined in section 2014(e)(2) of this title, or of any activity which results in the production of byproduct material as so defined under an agreement entered into pursuant to subsection (b) of this section, a State shall require—

(1) compliance with the requirements of subsection (b) of section 2113 of this title (respecting ownership of byproduct material and land), and

(2) compliance with standards which shall be adopted by the State for the protection of the public health, safety, and the environment from hazards associated with such material which are equivalent, to the extent practicable, or more stringent than, standards adopted and enforced by the Commission for the same purpose, including requirements and standards promulgated by the Commission and the Administrator of the Environmental Protection Agency pursuant to sections 2113, 2114, and 2022 of this title, and

(3) procedures which—

(A) in the case of licenses, provide procedures under State law which include—

(i) an opportunity, after public notice, for written comments and a public hearing, with a transcript,

(ii) an opportunity for cross examination, and

(iii) a written determination which is based upon findings included in such determination and upon the evidence presented during the public comment period and which is subject to judicial review;

(B) in the case of rulemaking, provide an opportunity for public participation through written comments or a public hearing and provide for judicial review of the rule;

(C) require for each license which has a significant impact on the human environment a written analysis (which shall be available to the public before the commencement of any such proceedings) of the impact of such license, including any activities conducted pursuant thereto, on the environment, which analysis shall include—

(i) an assessment of the radiological and nonradiological impacts to the public health of the activities to be conducted pursuant to such license;

(ii) an assessment of any impact on any waterway and groundwater resulting from such activities;

(iii) consideration of alternatives, including alternative sites and engineering methods, to the activities to be conducted pursuant to such license; and

(iv) consideration of the long-term impacts, including decommissioning, decontamination, and reclamation impacts, as-
associated with activities to be conducted pursuant to such license, including the management of any byproduct material, as defined by section 2014(e)(2) of this title; and

(D) prohibit any major construction activity with respect to such material prior to complying with the provisions of subparagraph (C).

If any State under such agreement imposes upon any licensee any requirement for the payment of funds to such State for the reclamation or long-term maintenance and monitoring of such material, and if transfer to the United States of such material is required under paragraph (3) to conduct proceedings concerning any license or regulation which would duplicate proceedings conducted by the Commission. In adopting requirements pursuant to paragraph (2) of this subsection with respect to sites at which ores are processed primarily for such purpose. If such payments are required, they must be sufficient to ensure compliance with the standards established by the Commission pursuant to section 2201(x) of this title. No State shall be required under paragraph (3) to conduct proceedings concerning any license or regulation which would duplicate proceedings conducted by the Commission. The Commission determines that such alternatives will achieve a level of stabilization and containment of the sites concerned, and a level of protection for public health, safety, and the environment from radioactive and nonradiological hazards associated with such sites, which is equivalent to, to the extent practicable, or more stringent than the level which would be achieved by standards and requirements adopted and enforced by the Commission for the same purpose if, after notice and opportunity for public hearing, the Commission

It is the policy of the Federal Government that the responsibilities of the States under section 2021c of this title for the disposal of low-level radioactive waste can be most safely and effectively managed on a regional basis.

(2) Interstate compacts

To carry out the policy set forth in paragraph (1), the States may enter into such compacts as may be necessary to provide for the establishment and operation of regional disposal facilities for low-level radioactive waste.

(b) Applicability to Federal activities

(1) In general

(A) Activities of the Secretary

Except as provided in subparagraph (B), no compact or action taken under a compact shall be applicable to the transportation, management, or disposal of any low-level radioactive waste designated in section 2021c(a)(1)(B)(i)–(iii) of this title.

(B) Federal low-level radioactive waste disposed of at non-Federal facilities

Low-level radioactive waste owned or generated by the Federal Government that is disposed of at a regional disposal facility or non-Federal disposal facility within a State that is not a member of a compact shall be subject to the same conditions, regulations, requirements, fees, taxes, and surcharges imposed by the compact commission, and by the State in which such facility is located, in the same manner and to the same extent as any low-level radioactive waste not generated by the Federal Government.

(2) Federal low-level radioactive waste disposal facilities

Any low-level radioactive waste disposal facility established or operated exclusively for the disposal of low-level radioactive waste owned or generated by the Federal Government shall not be subject to any compact or any action taken under a compact.

(3) Effect of compacts on Federal law

Nothing contained in sections 2021b to 2021j of this title or any compact may be construed to confer any new authority on any compact commission or State—

(A) to regulate the packaging, generation, treatment, storage, disposal, or transportation of low-level radioactive waste in a manner incompatible with the regulations of the Nuclear Regulatory Commission or inconsistent with the regulations of the Department of Transportation;

(B) to regulate health, safety, or environmental hazards from source material, by-product material, or special nuclear material;

(C) to inspect the facilities of licensees of the Nuclear Regulatory Commission;

(D) to inspect security areas or operations at the site of the generation of any low-level
radioactive waste by the Federal Government, or to inspect classified information related to such areas or operations; or

(E) to require indemnification pursuant to the provisions of chapter 171 of title 28 (commonly referred to as the Federal Tort Claims Act), or section 2210 of this title, whichever is applicable.

(4) Federal authority

Except as expressly provided in sections 2021b to 2021j of this title, nothing contained in sections 2021b to 2021j of this title or any compact may be construed to limit the applicability of any Federal law or to diminish or otherwise impair the jurisdiction of any Federal agency, or to alter, amend, or otherwise affect any Federal law governing the judicial review of any action taken pursuant to any compact.

(5) State authority preserved

Except as expressly provided in sections 2021b to 2021j of this title, nothing contained in sections 2021b to 2021j of this title expands, diminishes, or otherwise affects State law.

(c) Restricted use of regional disposal facilities

Any authority in a compact to restrict the use of the regional disposal facilities under the compact to the disposal of low-level radioactive waste generated within the compact region shall not take effect before each of the following occurs:

(1) January 1, 1986; and

(2) the Congress by law consents to the compact.

(d) Congressional review

Each compact shall provide that every 5 years after the compact has taken effect the Congress may by law withdraw its consent.

§ 2021e. Limited availability of certain regional disposal facilities during transition and licensing periods

(a) Availability of disposal capacity

(1) Pressurized water and boiling water reactors

During the seven-year period beginning January 1, 1986 and ending December 31, 1992, subject to the provisions of subsections (b) through (g) of this section, each State in which there is located a regional disposal facility referred to in paragraphs (1) through (3)
of subsection (b) of this section shall make disposal capacity available for low-level radioactive waste generated by pressurized water and boiling water commercial nuclear power reactors in accordance with the allocations established in subsection (c) of this section.

(2) Other sources of low-level radioactive waste

During the seven-year period beginning January 1, 1986 and ending December 31, 1992, subject to the provisions of subsections (b) through (g) of this section, each State in which there is located a regional disposal facility referred to in paragraphs (1) through (3) of subsection (b) of this section shall make disposal capacity available for low-level radioactive waste generated by any source not referred to in paragraph (1).

(3) Allocation of disposal capacity

(A) During the seven-year period beginning January 1, 1986 and ending December 31, 1992, low-level radioactive waste generated within a sited compact region shall be accorded priority under this section in the allocation of available disposal capacity at a regional disposal facility referred to in paragraphs (1) through (3) of subsection (b) of this section and located in the sited compact region in which such waste is generated.

(B) Any State in which a regional disposal facility referred to in paragraphs (1) through (3) of subsection (b) of this section is located may, subject to the provisions of its compact, prohibit the disposal at such facility of low-level radioactive waste generated outside of the compact region if the disposal of such waste during the 7-year period beginning January 1, 1986, and ending December 31, 1989, would result in that facility disposing of a total annual volume of low-level radioactive waste in excess of 100 per centum of the average annual volume for such facility designated in subsection (b) of this section: Provided, however, That in the event that all three States in which regional disposal facilities referred to in paragraphs (1) through (3) of subsection (b) of this section act to prohibit the disposal of low-level radioactive waste pursuant to this subparagraph, each such State shall, in accordance with any applicable procedures of its compact, permit, as necessary, the disposal of additional quantities of such waste in increments of 10 per centum of the average annual volume for each such facility designated in subsection (b) of this section.

(C) Nothing in this paragraph shall require any disposal facility or State referred to in paragraphs (1) through (3) of subsection (b) of this section to accept low-level radioactive waste in excess of the total amounts designated in subsection (b) of this section.

(4) Cessation of operation of low-level radioactive waste disposal facility

No provision of this section shall be construed to obligate any State referred to in paragraphs (1) through (3) of subsection (b) of this section to accept low-level radioactive waste from any source in the event that the regional disposal facility located in such State ceases operations.

(b) Limitations

The availability of disposal capacity for low-level radioactive waste from any source shall be subject to the following limitations:

(1) Barnwell, South Carolina

The State of South Carolina, in accordance with the provisions of its compact, may limit the volume of low-level radioactive waste accepted for disposal at the regional disposal facility located at Barnwell, South Carolina to a total of 8,400,000 cubic feet of low-level radioactive waste during the 7-year period beginning January 1, 1986, and ending December 31, 1992 (as based on an average annual volume of 1,200,000 cubic feet of low-level radioactive waste).

(2) Richland, Washington

The State of Washington, in accordance with the provisions of its compact, may limit the volume of low-level radioactive waste accepted for disposal at the regional disposal facility located at Richland, Washington to a total of 9,800,000 cubic feet of low-level radioactive waste during the 7-year period beginning January 1, 1986, and ending December 31, 1992 (as based on an average annual volume of 1,400,000 cubic feet of low-level radioactive waste).

(3) Beatty, Nevada

The State of Nevada, in accordance with the provisions of its compact, may limit the volume of low-level radioactive waste accepted for disposal at the regional disposal facility located at Beatty, Nevada to a total of 1,400,000 cubic feet of low-level radioactive waste during the 7-year period beginning January 1, 1986, and ending December 31, 1992 (as based on an average annual volume of 200,000 cubic feet of low-level radioactive waste).

(c) Commercial nuclear power reactor allocations

(1) Amount

Subject to the provisions of subsections (a) through (g) of this section each commercial nuclear power reactor shall upon request receive an allocation of low-level radioactive waste disposal capacity (in cubic feet) at the facilities referred to in subsection (b) of this section during the 4-year transition period beginning January 1, 1986, and ending December 31, 1989, and during the 3-year licensing period beginning January 1, 1990, and ending December 31, 1992, in an amount calculated by multiplying the appropriate number from the following table by the number of months remaining in the applicable period as determined under paragraph (2).

(2) Method of calculation

For purposes of calculating the aggregate amount of disposal capacity available to a
commercial nuclear power reactor under this subsection, the number of months shall be computed beginning with the first month of the applicable period, or the sixteenth month after receipt of a full power operating license, whichever occurs later.

(3) Unused allocations

Any unused allocation under paragraph (1) received by a reactor during the transition period or the licensing period may be used at any time after such reactor receives its full power license or after the beginning of the pertinent period, whichever is later, but not in any event after December 31, 1992, or after commencement of operation of a regional disposal facility in the compact region or State in which such reactor is located, whichever occurs first.

(4) Transferability

Any commercial nuclear power reactor in a State or compact region that is in compliance with the requirements of subsection (e) of this section may assign any disposal capacity allocated to it under this subsection to any other person in each State or compact region. Such assignment may be for valuable consideration and shall be in writing, copies of which shall be filed at the affected compact commissions and States, along with the assignor’s unconditional written waiver of the disposal capacity being assigned.

(5) Unusual volumes

(A) The Secretary may, upon petition by the owner or operator of any commercial nuclear power reactor, allocate to such reactor disposal capacity in excess of the amount calculated under paragraph (1) if the Secretary finds and states in writing his reasons for so finding that making additional capacity available for such reactor through this paragraph is required to permit unusual or unexpected operating, maintenance, repair or safety activities.

(B) The Secretary may not make allocations pursuant to subparagraph (A) that would result in the acceptance for disposal of more than 800,000 cubic feet of low-level radioactive waste or would result in the total of the allocations made pursuant to this subsection exceeding 11,900,000 cubic feet over the entire seven-year interim access period.

(6) Limitation

During the seven-year interim access period referred to in subsection (a) of this section, the disposal facilities referred to in subsection (b) of this section shall not be required to accept more than 11,900,000 cubic feet of low-level radioactive waste generated by commercial nuclear power reactors.

(d) Use of surcharge funds for milestone incentives; consequences of failure to meet disposal deadline

(1) Surcharges

The disposal of any low-level radioactive waste under this section (other than low-level radioactive waste generated in a sited compact region) may be charged a surcharge by the State in which the applicable regional disposal facility is located, in addition to the fees and surcharges generally applicable for disposal of low-level radioactive waste in the regional disposal facility involved. Except as provided in subsection (e)(2) of this section, such surcharges shall not exceed—

(A) in 1986 and 1987, $10 per cubic foot of low-level radioactive waste;

(B) in 1988 and 1989, $20 per cubic foot of low-level radioactive waste;

(2) Milestone incentives

(A) Escrow account

Twenty-five per centum of all surcharge fees received by a State pursuant to paragraph (1) during the seven-year period referred to in subsection (a) of this section shall be transferred on a monthly basis to an escrow account held by the Secretary. The Secretary shall deposit all funds received in a special escrow account. The funds so deposited shall not be the property of the United States. The Secretary shall act as trustee for such funds and shall invest them in interest-bearing United States Government Securities with the highest available yield. Such funds shall be held by the Secretary until—

(i) paid or repaid in accordance with subparagraph (B) or (C); or

(ii) paid to the State collecting such fees in accordance with subparagraph (F).

(B) Payments

(i) JULY 1, 1986.—The twenty-five per centum of any amount collected by a State under paragraph (1) for low-level radioactive waste disposed of under this section during the period beginning on January 15, 1986, and ending June 30, 1986, and transferred to the Secretary under subparagraph (A), shall be paid by the Secretary in accordance with subparagraph (D) if the milestone described in subsection (e)(1)(A) of this section is met by the State in which such waste originated.

(ii) JANUARY 1, 1988.—The twenty-five per centum of any amount collected by a State under paragraph (1) for low-level radioactive waste disposed of under this section during the period beginning July 1, 1986 and ending December 31, 1987, and transferred to the Secretary under subparagraph (A), shall be paid by the Secretary in accordance with subparagraph (D) if the milestone described in subsection (e)(1)(B) of this section is met by the State in which such waste originated (or its compact region, where applicable).

(iii) JANUARY 1, 1990.—The twenty-five per centum of any amount collected by a State under paragraph (1) for low-level radioactive waste disposed of under this section during the period beginning January 1, 1988 and ending December 31, 1989, and transferred to the Secretary under subparagraph (A), shall be paid by the Secretary in accordance with subparagraph
(D) if the milestone described in subsection (e)(1)(C) of this section is met by the State in which such waste originated (or its compact region, where applicable).

(iv) The twenty-five per centum of any amount collected by a State under paragraph (1) for low-level radioactive waste disposed of under this section during the period beginning January 1, 1990 and ending December 31, 1992, and transferred to the Secretary under subparagraph (A), shall be paid by the Secretary in accordance with subparagraph (D) if, by January 1, 1993, the State in which such waste originated (or its compact region, where applicable) is able to provide for the disposal of all such low-level radioactive waste generated within such State or compact region.\footnote{So in original. Probably should be “subparagraph”}

(C) Failure to meet January 1, 1993 deadline

If, by January 1, 1993, a State (or, where applicable, a compact region) in which low-level radioactive waste is generated is unable to provide for the disposal of all such waste generated within such State or compact region—

(i) each State in which such waste is generated, upon the request of the generator or owner of the waste, shall take title to the waste, shall be obligated to take possession of the waste, and shall be liable for all damages directly or indirectly incurred by such generator or owner as a consequence of the failure of the State to take possession of the waste as soon after January 1, 1993 as the generator or owner notifies the State that the waste is available for shipment; or

(ii) if such State elects not to take title to, take possession of, and assume liability for such waste, pursuant to clause (i), twenty-five per centum of any amount collected by a State under paragraph (1) for low-level radioactive waste disposed of under this section during the period beginning January 1, 1990 and ending December 31, 1992 shall be repaid, with interest, to each generator from whom such surcharge was collected. Repayments made pursuant to this clause shall be made on a monthly basis, with the first such repayment beginning on February 1, 1993, in an amount equal to one thirty-sixth of the total amount required to be repaid pursuant to this clause, and shall continue until the State (or, where applicable, compact region) in which such low-level radioactive waste is generated is able to provide for the disposal of all such waste generated within such State or compact region or until January 1, 1996, whichever is earlier. If a State in which low-level radioactive waste is generated elects to take title to, take possession of, and assume liability for such waste pursuant to clause (i), such State shall be paid such amounts as are designated in subparagraph (B)(iv). If a State (or, where applicable, a compact region) in which low-level radioactive waste is generated provides for the disposal of such waste at any time after January 1, 1993 and prior to January 1, 1996, such State (or, where applicable, compact region) shall be paid in accordance with subparagraph (D) a lump sum amount equal to twenty-five per centum of any amount collected by a State under paragraph (1): Provided, however, That such payment shall be adjusted to reflect the remaining number of months between January 1, 1993 and January 1, 1996 for which such State (or, where applicable, compact region) provides for the disposal of such waste. If a State (or, where applicable, a compact region) in which low-level radioactive waste is generated is unable to provide for the disposal of all such waste generated within such State or compact region before January 1, 1996, each State in which such waste is generated, upon the request of the generator or owner of the waste, shall take title to the waste, be obligated to take possession of the waste, and be liable for all damages directly or indirectly incurred by such generator or owner as a consequence of the failure of the State to take possession of the waste as soon after January 1, 1996, as the generator or owner notifies the State that the waste is available for shipment.

(D) Recipients of payments

The payments described in subparagraphs (B) and (C) shall be paid within thirty days after the applicable date—

(i) if the State in which such waste originated is not a member of a compact region, to such State;

(ii) if the State in which such waste originated is a member of the compact region, to the compact commission serving such State.

(E) Uses of payments

(i) Limitations

Any amount paid under subparagraphs (B) or (C) may only be used to—

(I) establish low-level radioactive waste disposal facilities;

(II) mitigate the impact of low-level radioactive waste disposal facilities on the host State;

(III) regulate low-level radioactive waste disposal facilities; or

(IV) ensure the decommissioning, closure, and care during the period of institutional control of low-level radioactive waste disposal facilities.

(ii) Reports

(I) Recipient

Any State or compact commission receiving a payment under subparagraphs (B) or (C) shall, on December 31 of each year in which any such funds are expended, submit a report to the Department of Energy itemizing any such expenditures.

(II) Department of Energy

Not later than six months after receiving the reports under subclause (I), the
Secretary shall submit to the Congress a summary of all such reports that shall include an assessment of the compliance of each such State or compact commission with the requirements of clause (1).

(F) Payment to States

Any amount collected by a State under paragraph (1) that is placed in escrow under subparagraph (A) and not paid to a State or compact commission under subparagraphs (B) and (C) or not repaid to a generator under subparagraph (C) shall be paid from such escrow account to such State collecting such payment under paragraph (1). Such payment shall be made not later than 30 days after a determination of ineligibility for a refund is made.

(G) Penalty surcharges

No rebate shall be made under this subsection of any surcharge or penalty surcharge paid during a period of noncompliance with subsection (e)(1) of this section.

(e) Requirements for access to regional disposal facilities

(1) Requirements for non-sited compact regions and non-member States

Each non-sited compact region, or State that is not a member of a compact region that does not have an operating disposal facility, shall comply with the following requirements:

(A) By July 1, 1986, each such non-member State shall ratify compact legislation or, by the enactment of legislation or the certification of the Governor, indicate its intent to develop a site for the location of a low-level radioactive waste disposal facility within such State.

(B) By January 1, 1988

(i) each non-sited compact region shall identify the State in which its low-level radioactive waste disposal facility is to be located, or shall have selected the developer for such facility and the site to be developed, and each compact region or the State in which its low-level radioactive waste disposal facility is to be located shall develop a siting plan for such facility providing detailed procedures and a schedule for establishing a facility location and preparing a facility license application and shall delegate authority to implement such plan;

(ii) each non-member State shall develop a siting plan providing detailed procedures and a schedule for establishing a facility location and preparing a facility license application for a low-level radioactive waste disposal facility and shall delegate authority to implement such plan; and

(iii) The siting plan required pursuant to this paragraph shall include a description of the optimum way to attain operation of the low-level radioactive waste disposal facility involved, within the time period specified in sections 2021b to 2021j of this title. Such plan shall include a description of the objectives and a sequence of deadlines for all entities required to take action to implement such plan, including, to the extent practicable, an identification of the activities in which a delay in the start, or completion, of such activities will cause a delay in beginning facility operation. Such plan shall also identify, to the extent practicable, the processes for (1) screening for broad siting areas; (2) identifying and evaluating specific candidate sites; and (3) characterizing the preferred site(s), completing all necessary environmental assessments, and preparing a license application for submission to the Nuclear Regulatory Commission or an Agreement State.

(C) By January 1, 1990

(i) a complete application (as determined by the Nuclear Regulatory Commission or the appropriate agency of an agreement State) shall be filed for a license to operate a low-level radioactive waste disposal facility within each non-sited compact region or within each non-member State; or

(ii) the Governor (or, for any State without a Governor, the chief executive officer) of any State that is not a member of a compact region in compliance with clause (i), or has not complied with such clause by its own actions, shall provide a written certification to the Nuclear Regulatory Commission, that such State will be capable of providing for, and will provide for, the storage, disposal, or management of any low-level radioactive waste generated within such State and requiring disposal after December 31, 1992, and include a description of the actions that will be taken to ensure that such capacity exists.

(D) By January 1, 1992, a complete application (as determined by the Nuclear Regulatory Commission or the appropriate agency of an agreement State) shall be filed for a license to operate a low-level radioactive waste disposal facility within each non-sited compact region or within each non-member State.

(E) The Nuclear Regulatory Commission shall transmit any certification received under subparagraph (C) to the Congress and publish any such certification in the Federal Register.

(F) Any State may, subject to all applicable provisions, if any, of any applicable compact, enter into an agreement with the compact commission of a region in which a regional disposal facility is located to provide for the disposal of all low-level radioactive waste generated within such State, and, by virtue of such agreement, may, with the approval of the State in which the regional disposal facility is located, be deemed to be in compliance with subparagraphs (A), (B), (C), and (D).

(2) Penalties for failure to comply

(A) By July 1, 1986

If any State fails to comply with subparagraph (1)(A)——

(i) any generator of low-level radioactive waste within such region or non-member State shall, for the period beginning July 1, 1986, and ending December 31, 1986, be
charged 2 times the surcharge otherwise applicable under subsection (d) of this section; and
(ii) on or after January 1, 1987, any low-level radioactive waste generated within such region or non-member State may be denied access to the regional disposal facilities referred to in paragraphs (1) through (3) of subsection (b) of this section.

(B) By January 1, 1988
If any non-sited compact region or non-member State fails to comply with paragraph (1)(B)—
(i) any generator of low-level radioactive waste within such region or non-member State shall—
(I) for the period beginning January 1, 1988, and ending June 30, 1988, be charged 2 times the surcharge otherwise applicable under subsection (d) of this section; and
(II) for the period beginning July 1, 1988, and ending December 31, 1988, be charged 4 times the surcharge otherwise applicable under subsection (d) of this section; and
(ii) on or after January 1, 1989, any low-level radioactive waste generated within such region or non-member State may be denied access to the regional disposal facilities referred to in paragraphs (1) through (3) of subsection (b) of this section.

(C) By January 1, 1990
If any non-sited compact region or non-member State fails to comply with paragraph (1)(C), any low-level radioactive waste generated within such region or non-member State may be denied access to the regional disposal facilities referred to in paragraphs (1) through (3) of subsection (b) of this section.

(D) By January 1, 1992
If any non-sited compact region or non-member State fails to comply with paragraph (1)(D), any generator of low-level radioactive waste within such region or non-member State shall, for the period beginning January 1, 1992 and ending upon the filing of the application described in paragraph (1)(D), be charged 3 times the surcharge otherwise applicable under subsection (d) of this section.

(3) Denial of access
No denial or suspension of access to a regional disposal facility under paragraph (2) may be based on the source, class, or type of low-level radioactive waste.

(4) Restoration of suspended access; penalties for failure to comply
Any access to a regional disposal facility that is suspended under paragraph (2) shall be restored after the non-sited compact region or non-member State involved complies with such requirement. Any payment of surcharge penalties pursuant to paragraph (2) for failure to comply with the requirements of this subsection shall be terminated after the non-sited compact region or non-member State involved complies with such requirements.

(f) Monitoring of compliance and denial of access to non-Federal facilities for noncompliance; information requirements of certain States; proprietary information

(1) Administration
Each State and compact commission in which a regional disposal facility referred to in paragraphs (1) through (3) of subsection (b) of this section is located shall have authority—
(A) to monitor compliance with the limitations, allocations, and requirements established in this section; and
(B) to deny access to any non-Federal low-level radioactive waste disposal facilities within its borders to any low-level radioactive waste that—
(i) is in excess of the limitations or allocations established in this section; or
(ii) is not required to be accepted due to the failure of a compact region or State to comply with the requirements of subsection (e)(1) of this section.

(2) Availability of information during interim access period
(A) The States of South Carolina, Washington, and Nevada may require information from disposal facility operators, generators, intermediate handlers, and the Department of Energy that is reasonably necessary to monitor the availability of disposal capacity, the use and assignment of allocations and the applicability of surcharges.

(B) The States of South Carolina, Washington, and Nevada may, after written notice followed by a period of at least 30 days, deny access to disposal capacity to any generator or intermediate handler who fails to provide information under subsection (e)(1).

(C) PROPRIETARY INFORMATION—
(i) Trade secrets, proprietary and other confidential information shall be made available to a State under this subsection upon request only if such State—
(I) consents in writing to restrict the dissemination of the information to those who are directly involved in monitoring under subparagraph (A) and who have a need to know;
(II) accepts liability for wrongful disclosure; and
(III) demonstrates that such information is essential to such monitoring.

(ii) The United States shall not be liable for the wrongful disclosure by any individual or State of any information provided to such individual or State under this subsection.

(iii) Whenever any individual or State has obtained possession of information under this subsection, the individual shall be subject to the same provisions of law with respect to the disclosure of such information as would apply to an officer or employee of the United States or of any department or agency thereof and the State shall be sub-
§ 2021f  TITLE 42—THE PUBLIC HEALTH AND WELFARE

ject to the same provisions of law with re-
pect to the disclosure of such information
as would apply to the United States or any
department or agency thereof. No State or
State officer or employee who receives trade
secrets, proprietary information, or other
confidential information under sections
2021b to 2021j of this title may be required
disclose such information under State law.

(g) Nondiscrimination
Except as provided in subsections (b) through
(e) of this section, low-level radioactive waste
disposed of under this section shall be subject
without discrimination to all applicable legal
requirements of the compact region and State in
which the disposal facility is located as if such
low-level radioactive waste were generated with-
in such compact region.

CODIFICATION
Section was enacted as part of the Low-Level Radio-
active Waste Policy Act, and not as part of the Atomic
Energy Act of 1954 which comprises this chapter.

§ 2021f. Emergency access

(a) In general
The Nuclear Regulatory Commission may
grant emergency access to any regional disposal
facility or non-Federal disposal facility within a
State that is not a member of a compact for spe-
cific low-level radioactive waste, if necessary to
eliminate an immediate and serious threat to
the public health and safety or the common de-
fense and security. The procedure for granting
emergency access shall be as provided in this
section.

(b) Request for emergency access
Any generator of low-level radioactive waste,
or any Governor (or, for any State without a
Governor, the chief executive officer of the
State) on behalf of any generator or generators
located in his or her State, may request that the
Nuclear Regulatory Commission grant emer-
gency access to a regional disposal facility or a
non-Federal disposal facility within a State that
is not a member of a compact for specific low-
level radioactive waste. Any such request shall
contain any information and certifications the
Nuclear Regulatory Commission may require.

(c) Determination of Nuclear Regulatory Com-
mission
(1) Required determination
Not later than 45 days after receiving a re-
quest under subsection (b) of this section, the
Nuclear Regulatory Commission shall deter-
mine whether—
(A) emergency access is necessary because
of an immediate and serious threat to the
public health and safety or the common de-
fense and security; and
(B) the threat cannot be mitigated by any
alternative consistent with the public health
and safety, including storage of low-level
radioactive waste at the site of generation
or in a storage facility obtaining access to a
disposal facility by voluntary agreement,
purchasing disposal capacity available for
assignment pursuant to section 2021c of
this title or ceasing activities that generate
low-level radioactive waste.

(2) Required notification
If the Nuclear Regulatory Commission
makes the determinations required in para-
graph (1) in the affirmative, it shall designate
an appropriate non-Federal disposal facility or
facilities, and notify the Governor (or chief ex-
ecutive officer) of the State in which such fa-
cility is located and the appropriate compact
commission that emergency access is required.
Such notification shall specifically describe
the low-level radioactive waste as to source,
physical and radiological characteristics, and
the minimum volume and duration, not exceed-
ing 180 days, necessary to alleviate the
immediate threat to public health and safety
or the common defense and security. The Nu-
clear Regulatory Commission shall also notify
the Governor (or chief executive officer) of the
State in which the low-level radioactive waste
requiring emergency access was generated
that emergency access has been granted and
that, pursuant to subsection (e) of this sec-
ction, no extension of emergency access may be
granted absent diligent State action during
the period of the initial grant.

(d) Temporary emergency access
Upon determining that emergency access is
necessary because of an immediate and serious
threat to the public health and safety or the
common defense and security, the Nuclear Regu-
laratory Commission may at its discretion grant
temporary emergency access, pending its deter-
mination whether the threat could be mitigated
by any alternative consistent with the public
health and safety. In granting access under this
subsection, the Nuclear Regulatory Commission
shall provide the same notification and informa-
tion required under subsection (c) of this sec-
tion. Absent a determination that no alter-
native consistent with the public health and
safety would mitigate the threat, access granted
under this subsection shall expire 45 days after
the granting of temporary emergency access
under this subsection.

(e) Extension of emergency access
The Nuclear Regulatory Commission may
grant one extension of emergency access beyond
the period provided in subsection (c) of this sec-
tion, if it determines that emergency access
continues to be necessary because of an imme-
diate and serious threat to the public health and
safety or the common defense and security that
cannot be mitigated by any alternative consist-
ent with the public health and safety, and that
the generator of low-level radioactive waste
granted emergency access and the State in
which such low-level radioactive waste was gen-
erated have diligently though unsuccessfully
acted during the period of the initial grant to
eliminate the need for emergency access. Any
extension granted under this subsection shall be
for the minimum volume and duration the Nu-
clear Regulatory Commission finds necessary to
eliminate the immediate threat to public health
and safety or the common defense and security,
and shall not in any event exceed 180 days.
(f) Reciprocal access

Any compact region or State not a member of a compact that provides emergency access to non-Federal disposal facilities within its borders shall be entitled to reciprocal access to any subsequently operating non-Federal disposal facility that serves the State or compact region in which low-level radioactive waste granted emergency access was generated. The compact commission or State having authority to approve importation of low-level radioactive waste to the disposal facility to which emergency access was granted shall designate for reciprocal access an equal volume of low-level radioactive waste having similar characteristics to that provided emergency access.

(g) Approval by compact commission

Any grant of access under this section shall be submitted to the compact commission for the region in which the designated disposal facility is located for such approval as may be required under the terms of its compact. Any such compact commission shall act to approve emergency access not later than 15 days after receiving notification from the Nuclear Regulatory Commission, or reciprocal access not later than 15 days after receiving notification from the appropriate authority under subsection (f) of this section.

(h) Limitations

No State shall be required to provide emergency or reciprocal access to any regional disposal facility within its borders for low-level radioactive waste not meeting criteria established by the license or license agreement of such facility, or in excess of the approved capacity of such facility, or to delay the closing of any such facility pursuant to plans established before receiving a request for emergency or reciprocal access. No State shall, during any 12-month period, be required to provide emergency or reciprocal access to any regional disposal facility within its borders for more than 20 percent of the total volume of low-level radioactive waste accepted for disposal at such facility during the previous calendar year.

(i) Volume reduction and surcharges

Any low-level radioactive waste delivered for disposal under this section shall be reduced in volume to the maximum extent practicable and shall be subject to surcharges established in sections 2021b to 2021j of this title.

(j) Deduction from allocation

Any volume of low-level radioactive waste granted emergency or reciprocal access under this section, if generated by any commercial nuclear power reactor, shall be deducted from the low-level radioactive waste volume allocable under section 2021e(c) of this title.

(k) Agreement States

Any agreement under section 2021 of this title shall not be applicable to the determinations of the Nuclear Regulatory Commission under this section.

§ 2021g. Responsibilities of Department of Energy

(a) Financial and technical assistance

The Secretary shall, to the extent provided in appropriations Act, provide to those compact regions, host States, and nonmember States determined by the Secretary to require assistance for purposes of carrying out sections 2021b to 2021j of this title—

(1) continuing technical assistance to assist them in fulfilling their responsibilities under sections 2021b to 2021j of this title.

(b) Omitted

§ 2021h. Alternative disposal methods

(a) Not later than 12 months after January 15, 1986, the Nuclear Regulatory Commission shall, in consultation with the States and other interested persons, identify methods for the disposal of low-level radioactive waste other than shallow land burial, and establish and publish technical guidance regarding licensing of facilities that use such methods.

(b) Not later than 24 months after January 15, 1986, the Commission shall, in consultation with the States and other interested persons, identify and publish all relevant technical information regarding the methods identified pursuant to subsection (a) of this section that a State or compact must provide to the Commission in order to pursue such methods, together with the technical requirements that such facilities must meet, in the judgment of the Commission, if pursued as an alternative to shallow land burial.

1 So in original. Probably should be “determined.”
Such technical information and requirements shall include, but need not be limited to, site suitability, site design, facility operation, disposal site closure, and environmental monitoring, as necessary to meet the performance objectives established by the Commission for a licensed low-level radioactive waste disposal facility. The Commission shall specify and publish such requirements in a manner and form deemed appropriate by the Commission.

CODIFICATION
Section was enacted as part of the Low-Level Radioactive Waste Policy Act, and not as part of the Atomic Energy Act of 1954 which comprises this chapter.

§ 2021i. Licensing review and approval

In order to ensure the timely development of new low-level radioactive waste disposal facilities, the Nuclear Regulatory Commission or, as appropriate, agreement States, shall consider an application for a disposal facility license in accordance with the laws applicable to such application, except that the Commission and the agreement state(s) shall—

(1) not later than 12 months after January 15, 1986, establish procedures and develop the technical capability for processing applications for such licenses;

(2) to the extent practicable, complete all activities associated with the review and processing of any application for such a license (except for public hearings) no later than 15 months after the date of receipt of such application; and

(3) to the extent practicable, consolidate all required technical and environmental reviews and public hearings.

CODIFICATION
Section was enacted as part of the Low-Level Radioactive Waste Policy Act, and not as part of the Atomic Energy Act of 1954 which comprises this chapter.

§ 2021j. Radioactive waste below regulatory concern

(a) Not later than 6 months after January 15, 1986, the Commission shall establish standards and procedures, pursuant to existing authority, and develop the technical capability for considering and acting upon petitions to exempt specific radioactive waste streams from regulation by the Commission due to the presence of radionuclides in such waste streams in sufficiently low concentrations or quantities as to be below regulatory concern.

(b) The standards and procedures established by the Commission pursuant to subsection (a) of this section shall set forth all information required to be submitted to the Commission by licensees in support of such petitions, including, but not limited to—

(1) a detailed description of the waste materials, including their origin, chemical composition, position, physical state, volume, and mass; and

(2) the concentration or contamination levels, half-lives, and identities of the radionuclides present.

Such standards and procedures shall provide that, upon receipt of a petition to exempt a specific radioactive waste stream from regulation by the Commission, the Commission shall determine in an expeditious manner whether the concentration or quantity of radionuclides present in such waste stream requires regulation by the Commission in order to protect the public health and safety. Where the Commission determines that regulation of a radioactive waste stream is not necessary to protect the public health and safety, the Commission shall take such steps as may be necessary, in an expeditious manner, to exempt the disposal of such radioactive waste from regulation by the Commission.

§ 2022. Health and environmental standards for uranium mill tailings

(a) Promulgation and revision of rules for protection from hazards at inactive or depository sites

As soon as practicable, but not later than October 1, 1982, the Administrator of the Environmental Protection Agency (hereinafter referred to in this section as the “Administrator”) shall, by rule, promulgate standards of general application (including standards applicable to licenses under section 104(h) of the Uranium Mill Tailings Radiation Control Act of 1978 [42 U.S.C. 7914(h)]) for the protection of the public health, safety, and the environment from radiological and nonradiological hazards associated with residual radioactive materials (as defined in section 101 of the Uranium Mill Tailings Radiation Control Act of 1978 [42 U.S.C. 7911]) located at inactive uranium mill tailings sites and depository sites for such materials selected by the Secretary of Energy pursuant to title I of the Uranium Mill Tailings Radiation Control Act of 1978 [42 U.S.C. 7911 et seq.]. Standards promulgated pursuant to this subsection shall, to the maximum extent practicable, be consistent with the requirements of the Solid Waste Disposal Act, as amended [42 U.S.C. 6901 et seq.]. In establishing such standards, the Administrator shall consider the risk to the public health, safety, and the environment, the environmental and economic costs of applying such standards, and such other factors as the Administrator determines to be appropriate. The Administrator may periodically revise any standard promulgated pursuant to this subsection. After October 1, 1982, if the Administrator has not promulgated standards in final form under this subsection, any action of the Secretary of Energy under title I of the Uranium Mill Tailings Radiation Control Act of 1978 which is required to comply

1 So in original. Probably should be “States”. 
with, or be taken in accordance with, standards of the Administrator shall comply with, or be taken in accordance with, the standards proposed by the Administrator under this subsection until such time as the Administrator promulgates such standards in final form.

(b) Promulgation and revision of rules for protection from hazards at processing or disposal sites

(1) As soon as practicable, but not later than October 31, 1982, the Administrator shall, by rule, propose, and within 11 months thereafter promulgate in final form, standards of general application for the protection of the public health, safety, and the environment from radiological and nonradiological hazards associated with the processing and with the possession, transfer, and disposal of byproduct material, as defined in section 2014(e)(2) of this title, at sites at which ores are processed primarily for their source material content or which are used for the disposal of such byproduct material. If the Administrator fails to promulgate standards in final form under this subsection by October 1, 1983, the authority of the Administrator to promulgate such standards shall terminate, and the Commission may take actions under this chapter without regard to any provision of this chapter requiring such actions to comply with, or be taken in accordance with, standards promulgated by the Administrator. In any such case, the Commission shall promulgate, and from time to time revise, any such standards of general application which the Commission deems necessary to carry out its responsibilities in the conduct of its licensing activities under this chapter. Requirements established by the Commission under this chapter with respect to byproduct material as defined in section 2014(e)(2) of this title shall conform to such standards. Any requirements adopted by the Commission respecting such byproduct material before promulgation by the Commission of such standards shall be amended as the Commission deems necessary to conform to such standards in the same manner as provided in subsection (f)(5) of this section. Nothing in this subsection shall be construed to prohibit or suspend the implementation or enforcement by the Commission of any requirement of the Commission respecting byproduct material as defined in section 2014(e)(2) of this title pending promulgation by the Commission of any such standard of general application. In establishing such standards, the Administrator shall consider the risk to the public health, safety, and the environment, the environmental and economic costs of applying such standards, and such other factors as the Administrator determines to be appropriate.

(2) Such generally applicable standards promulgated pursuant to this subsection for nonradiological hazards shall provide for the protection of human health and the environment consistent with the standards required under subtitle C of the Solid Waste Disposal Act, as amended [42 U.S.C. 6901 et seq.], which are applicable to such hazards: Provided, however, That no permit issued by the Administrator is required under this chapter or the Solid Waste Disposal Act, as amended [42 U.S.C. 6901 et seq.], for the processing, possession, transfer, or disposal of byproduct material, as defined in section 2014(e)(2) of this title. The Administrator may periodically revise any standard promulgated pursuant to this subsection. Within three years after such revision of any such standard, the Commission and any State permitted to exercise authority under section 2021(b)(2) of this title shall apply such revised standard in the case of any license for byproduct material as defined in section 2014(e)(2) of this title or any revision thereof.

(c) Publication in Federal Register; notice and hearing; consultations; judicial review; time for petition; venue; copy to Administrator; record; administrative jurisdiction; review by Supreme Court; effective date of rule

(1) Before the promulgation of any rule pursuant to this section, the Administrator shall publish the proposed rule in the Federal Register, together with a statement of the research, analysis, and other available information in support of such proposed rule, and provide a period of public comment of at least thirty days for written comments thereon and an opportunity, after such comment period and after public notice, for any interested person to present oral data, views, and arguments at a public hearing. There shall be a transcript of any such hearing. The Administrator shall consult with the Commission and the Secretary of Energy before promulgation of any such rule.

(2) Judicial review of any rule promulgated under this section may be obtained by any interested person only upon such person filing a petition for review within sixty days after such promulgation in the United States court of appeals for the Federal judicial circuit in which such person resides or has his principal place of business. A copy of the petition shall be forthwith transmitted by the clerk of court to the Administrator. The Administrator thereupon shall file in the court the written submissions to, and transcript of, the written or oral proceedings in which such rule was based as provided in section 2112 of title 28. The court shall have jurisdiction to review the rule in accordance with chapter 7 of title 5 and to grant appropriate relief as provided in such chapter. The judgement of the court affirming, modifying, or setting aside, in whole or in part, any such rule shall be final, subject to judicial review by the Supreme Court of the United States upon certiorari or certification as provided in section 1254 of title 28.

(3) Any rule promulgated under this section shall not take effect earlier than sixty calendar days after such promulgation.

(d) Federal and State implementation and enforcement

Implementation and enforcement of the standards promulgated pursuant to subsection (b) of this section shall be the responsibility of the Commission in the conduct of its licensing activities under this chapter. States exercising authority pursuant to section 2021(b)(2) of this title shall implement and enforce such standards in accordance with subsection (o) of such section.
(e) Other authorities of Administrator unaffected

Nothing in this chapter applicable to byproduct material, as defined in section 2014(e)(2) of this title, shall affect the authority of the Administrator under the Clean Air Act of 1970, as amended [42 U.S.C. 7401 et seq.], or the Federal Water Pollution Control Act, as amended [33 U.S.C. 1251 et seq.].

(f) Implementation or enforcement of Uranium Mill Licensing Requirements

(1) Prior to January 1, 1983, the Commission shall not implement or enforce the provisions of the Uranium Mill Licensing Requirements published as final rules at 45 Federal Register 65521 to 65538 on October 3, 1980 (hereinafter in this subsection referred to as the “October 3 regulations”). After December 31, 1982, the Commission is authorized to implement and enforce the provisions of such October 3 regulations (and any subsequent modifications or additions to such regulations which may be adopted by the Commission), except as otherwise provided in paragraphs (2) and (3) of this subsection.

(2) Following the proposal by the Administrator of standards under subsection (b) of this section, the Commission shall review the October 3 regulations, and, not later than 90 days after the date of such proposal, suspend implementation and enforcement of any provision of such regulations which the Commission determines, after notice and opportunity for public comment, to require a major action or major commitment by licensees which would be unnecessary if—

(A) the standards proposed by the Administrator are promulgated in final form without modification, and

(B) the Commission’s requirements are modified to conform to such standards.

Such suspension shall terminate on the earlier of April 1, 1984 or the date on which the Commission amends the October 3 regulations to conform to final standards promulgated by the Administrator under subsection (b) of this section. During the period of such suspension, the Commission shall continue to regulate byproduct material (as defined in section 2014(e)(2) of this title) under this chapter on a licensee-by-licensee basis as the Commission deems necessary to protect public health, safety, and the environment.

(3) Not later than 6 months after the date on which the Administrator promulgates final standards pursuant to subsection (b) of this section, the Commission shall, after notice and opportunity for public comment, amend the October 3 regulations, and adopt such modifications, as the Commission deems necessary to conform to such final standards of the Administrator.

(4) Nothing in this subsection may be construed as affecting the authority or responsibility of the Commission under section 2114 of this title to promulgate regulations to protect the public health and safety and the environment.

radioactive waste, if the Nuclear Regulatory Commission, after October 24, 1992, exempts such waste from regulation.

(b) Relation to other State authority

This section may not be construed to imply preemption of existing State authority. Except as expressly provided in subsection (a) of this section, this section may not be construed to confer on any State any additional authority to regulate activities licensed by the Nuclear Regulatory Commission.

(c) Definitions

For purposes of this section:

1. The term “low-level radioactive waste” means radioactive material classified by the Nuclear Regulatory Commission as low-level radioactive waste on October 24, 1992.

2. The term “off-site incineration” means any incineration of radioactive materials at a facility that is located off the site where such materials were generated.

3. The term “State” means each of the several States, the District of Columbia, and any commonwealth, territory, or possession of the United States.

The Commission may determine from time to time that other material is special nuclear material in addition to that specified in the definition as special nuclear material. Before making any such determination, the Commission must find that such material is capable of releasing substantial quantities of atomic energy and must find that the determination that such material is special nuclear material is in the interest of the common defense and security, and the President must have expressly assented in writing to the determination. The Commission’s determination, together with the assent of the President, shall be submitted to the Energy Committees and a period of thirty days shall elapse while Congress is in session (in computing such thirty days, there shall be excluded the days on which either House is not in session because of an adjournment for more than three days) before the determination of the Commission may become effective: Provided, however, that the Energy Committees, after having received such determination, may by resolution in writing, waive the conditions of or all or any portion of such thirty-day period.

Prior Provisions
Provisions similar to this section were contained in section 1805(a)(1) of this title, prior to the general amendment and renumbering of act Aug. 1, 1946, by act Aug. 30, 1954.

Amendments

Section, act Aug. 1, 1946, ch. 724, § 52, as added Aug. 30, 1954, ch. 1073, § 1, 68 Stat. 929, related to Government ownership of all special nuclear material and provided for compensation of private owners of such material.
§ 2073. Domestic distribution of special nuclear material

(a) Licenses

The Commission is authorized (i) to issue licenses to transfer or receive in interstate commerce, transfer, deliver, acquire, possess, own, receive possession of or title to, import, or export under the terms of an agreement for cooperation arranged pursuant to section 2153 of this title, special nuclear material, (ii) to make special nuclear material available for the period of the license, and (iii) to distribute special nuclear material within the United States to qualified applicants requesting such material—

(1) for the conduct of research and development activities of the types specified in section 2051 of this title;

(2) for use in the conduct of research and development activities or in medical therapy under a license issued pursuant to section 2134 of this title;

(3) for use under a license issued pursuant to section 2133 of this title;

(4) for such other uses as the Commission determines to be appropriate to carry out the purposes of this chapter.

(b) Minimum criteria for licenses

The Commission shall establish, by rule, minimum criteria for the issuance of specific or general licenses for the distribution of special nuclear material depending upon the degree of importance to the common defense and security or to the health and safety of the public of—

(1) the physical characteristics of the special nuclear material to be distributed;

(2) the quantities of special nuclear material to be distributed; and

(3) the intended use of the special nuclear material to be distributed.

(c) Manner of distribution; charges for material sold; agreements; charges for material leased

(1) The Commission may distribute special nuclear material licensed under this section by sale, lease, lease with option to buy, or grant: Provided, however, That unless otherwise authorized by law, the Commission shall not after December 31, 1970, distribute special nuclear material except by sale to any person who possesses or operates a utilization facility under a license issued pursuant to section 2133 or 2134(b) of this title for use in the course of activities under such license; nor shall the Commission permit any such person after June 30, 1973, to continue leasing for use in the course of such activities special nuclear material previously leased to such person by the Commission.

(2) The Commission shall establish reasonable sales prices for the special nuclear material licensed and distributed by sale under this section. Such sales prices shall be established on a nondiscriminatory basis which, in the opinion of the Commission, will provide reasonable compensation to the Government for such special nuclear material.

(3) The Commission is authorized to enter into agreements with licensees for such period of time as the Commission may deem necessary or desirable to distribute to such licensees such quantities of special nuclear material as may be necessary for the conduct of the licensed activity. In such agreements, the Commission may agree to purchase any special nuclear material licensed and distributed by sale which is not consumed in the course of the licensed activity, or any uranium remaining after irradiation of such special nuclear material, at a repurchase price not to exceed the Commission’s sale price for comparable special nuclear material or uranium in effect at the time of delivery of such material to the Commission.

(4) The Commission may make a reasonable charge, determined pursuant to this section, for the use of special nuclear material licensed and distributed by lease under subsection (a)(1), (2) or (4) of this section and shall make a reasonable charge determined pursuant to this section for the use of special nuclear material licensed and distributed by lease under subsection (a)(3) of this section. The Commission shall establish criteria in writing for the determination of whether special nuclear material will be distributed by grant and for the determination of whether a charge will be made for the use of special nuclear material licensed and distributed by lease under subsection (a)(1), (2) or (4) of this section, considering, among other things, whether the licensee is a nonprofit or eleemosynary institution and the purposes for which the special nuclear material will be used.

(d) Determination of charges

In determining the reasonable charge to be made by the Commission for the use of special nuclear material licensed by lease to licensees of utilization or production facilities licensed pursuant to section 2133 or 2134 of this title, in addition to consideration of the cost thereof, the Commission shall take into consideration—

(1) the use to be made of the special nuclear material;

(2) the extent to which the use of the special nuclear material will advance the development of the peaceful uses of atomic energy;

(3) the energy value of the special nuclear material in the particular use for which the license is issued;

(4) whether the special nuclear material is to be used in facilities licensed pursuant to section 2133 or 2134 of this title; and

(5) with respect to special nuclear material consumed in a facility licensed pursuant to section 2133 of this title, the Commission shall make a further charge equivalent to the sale price for similar special nuclear material es-

§ 2074. Foreign distribution of special nuclear material

(a) Compensation; distribution to International Atomic Energy Agency; procedure for distribution; repurchase of unconsumed materials; price; purchase of materials produced outside United States; price

The Commission is authorized to cooperate with any nation or group of nations by distributing special nuclear material and to distribute such special nuclear material, pursuant to the terms of an agreement for cooperation to which such nation or group of nations is a party and which is made in accordance with section 2153 of this title. Unless hereafter otherwise authorized by law the Commission shall be compensated for special nuclear material so distributed at not less than the Commission’s published charges applicable to the domestic distribution of such material, except that the Commission to assist and encourage research on peaceful uses or for medical therapy may so distribute without
charge during any calendar year only a quantity of such material which at the time of transfer does not exceed in value $10,000 in the case of one nation or $50,000 in the case of any group of nations. The Commission may distribute to the International Atomic Energy Agency, or to any group of nations, only such amounts of special nuclear materials and for such period of time as are authorized by Congress: Provided, however, That, (i) notwithstanding this provision, the Commission is hereby authorized, subject to the provisions of section 2153 of this title, to distribute to the Agency five thousand kilograms of contained uranium-235, five hundred grams of uranium-233, and three kilograms of plutonium, together with the amounts of special nuclear material which will match in amount the sum of all quantities of special nuclear materials made available by all other members of the Agency to June 1, 1960; and (ii) notwithstanding the foregoing provisions of this subsection, the Commission may distribute to the International Atomic Energy Agency, or to any group of nations, such other amounts of special nuclear materials and for such other periods of time as are established in writing by the Commission: Provided, however, That before they are established by the Commission pursuant to this subdivision (ii), such proposed amounts and periods shall be submitted to the Congress and referred to the Energy Committees and a period of sixty days shall elapse while Congress is in session (in computing such sixty days, there shall be excluded the days on which either House is not in session because of an adjournment of more than three days): And provided further, That any such proposed amounts and periods shall not become effective if during such sixty-day period the Congress passes a concurrent resolution stating in substance that it does not favor the proposed action: And provided further, That prior to the elapse of the first thirty days of any such sixty-day period the Energy Committees shall submit to their respective houses reports of their views and recommendations respecting the proposed amounts and periods and an accompanying proposed concurrent resolution stating in substance that the Congress favors, or does not favor, as the case may be, the proposed amounts or periods. The Commission may agree to repurchase any special nuclear material distributed under a safe arrangement pursuant to this subsection which is not consumed in the course of the activities conducted in accordance with the agreement for cooperation, or any uranium remaining after irradiation of such special nuclear material, at repurchase price not to exceed the Commission’s sale price for comparable special nuclear material or uranium in effect at the time of delivery of such material to the Commission. The Commission may also agree to purchase, consistent with and within the period of the agreement for cooperation, special nuclear material produced in a nuclear reactor located outside the United States through the use of special nuclear material which was leased or sold pursuant to this subsection. Under any such agreement the Commission shall purchase only such material as is delivered to the Commission during any period when there is in effect a guaranteed purchase price for the same material produced in a nuclear reactor by a person licensed under section 2134 of this title, established by the Commission pursuant to section 2076 of this title, and the price to be paid shall be the price so established by the Commission and in effect for the same material delivered to the Commission.

(b) Distribution to persons outside United States of plutonium and other special nuclear material exempted under section 2077(d) of this title; compensation; reports

Notwithstanding the provisions of sections 2153 and 2154 of this title and section 125 of the Atomic Energy Act of 1954, the Commission is authorized to distribute to any person outside the United States (1) plutonium containing 80 per centum or more by weight of plutonium-238, and (2) other special nuclear material when it has, in accordance with subsection 2077(d) of this title, exempted certain classes or quantities of such other special nuclear material or kinds of uses or users thereof from the requirements for a license set forth in this chapter. Unless hereafter otherwise authorized by law, the Commission shall be compensated for special nuclear material so distributed at not less than the Commission’s published charges applicable to the domestic distribution of such material. The Commission shall not distribute any plutonium containing 80 per centum or more by weight of plutonium-238 to any person under this subsection if, in its opinion, such distribution would be inimical to the common defense and security. The Commission may require such reports regarding the use of material distributed pursuant to the provisions of this subsection as it deems necessary.

(c) Licensing or granting permission to others to distribute special nuclear material; conditions

The Commission is authorized to license or otherwise permit others to distribute special nuclear material to any person outside the United States under the same conditions, except as to charges, as would be applicable if the material were distributed by the Commission.

(d) Laboratory samples; medical devices; monitoring or other instruments; emergencies

The authority to distribute special nuclear material under this section other than under an export license granted by the Nuclear Regulatory Commission shall extend only to the following small quantities of special nuclear material (in no event more than five hundred grams per year of the uranium isotope 233, the uranium isotope 235, or plutonium contained in special nuclear material to any recipient):

(1) which are contained in laboratory samples, medical devices, or monitoring or other instruments; or

(2) the distribution of which is needed to deal with an emergency situation in which time is of the essence.

(e) Arrangements for storage or disposition of irradiated fuel elements

The authority in this section to commit United States funds for any activities pursuant to any subsequent arrangement under section
$2075  Acquisition of special nuclear material; payments; just compensation

The Commission is authorized, to the extent it deems necessary to effectuate the provisions of this chapter, to purchase without regard to the limitations in section 2074 of this title or any guaranteed purchase prices established pursuant to section 2076 of this title, and to take, requisition, condemn, or otherwise acquire any special nuclear material or any interest therein. Any contract of purchase made under this section may be made without regard to the provisions of section 6101 of title 41, upon certification by the Commission that such action is necessary in the interest of the common defense and security, or upon a showing by the Commission that advertising is not reasonably practicable. Partial and advance payments may be made under contracts for such purposes. Just compensation shall be made for any right, property, or interest in property taken, requisitioned, or condemned under this section: Providing, That the authority in this section to commit United States funds for any activities pursuant to any subsequent arrangement under section 2160(a)(2)(E) of this title shall be subject to the requirements of section 2160 of this title.

$2075. Guaranteed purchase prices

The Commission shall establish guaranteed purchase prices for plutonium produced in a nuclear reactor by a person licensed under section 2134 of this title and delivered to the Commission before January 1, 1971. The Commission shall also establish for such periods of time as it may deem necessary, but not to exceed ten years as to any such period, guaranteed purchase prices for uranium enriched in the isotope.
233 produced in a nuclear reactor by a person licensed under section 2133 or section 2134 and delivered to the Commission within the period of the guarantee. Guaranteed purchase prices established under this authority of this section shall not exceed the Commission's determination of the estimated value of plutonium or uranium enriched in the isotope 233 as fuel in nuclear reactors, and such prices shall be established on a nondiscriminatory basis: Provided, That the Commission is authorized to establish such guaranteed purchase prices only for such plutonium or uranium enriched in the isotope 233 as the Commission shall determine is produced through the use of special nuclear material which was leased or sold by the Commission pursuant to section 2073 of this title.

AMENDMENTS

1964—Pub. L. 88–489 substituted provisions which directed the Commission to establish guaranteed purchase prices for plutonium produced by a person licensed under section 2134 of this title and delivered to the Commission prior to Jan. 1, 1971, and for uranium enriched in the isotope 233, for such periods of time as it deems necessary, but not exceeding ten years as to any such period, if produced by a person licensed under said section 2134, and delivered within the period of the guarantee, provided that guaranteed prices established under this section shall not exceed the Commission's estimated value of enriched plutonium or uranium as fuel in reactors, and shall be on a nondiscriminatory basis, and authorized such guaranteed prices only for such enriched plutonium or uranium as is produced through use of material leased or sold pursuant to section 2074 of this title, or title I, Pub. L. 102–486, title IX, §902(a)(9), Oct. 24, 1992, 106 Stat. 2944.)

§ 2077. Unauthorized dealings in special nuclear material

(a) Handling by persons

Unless authorized by a general or specific license issued by the Commission, which the Commission is authorized to issue pursuant to section 2073 of this title, no person may transfer or receive in interstate commerce, transfer, deliver, acquire, own, possess, receive possession of or title to, or import into or export from the United States any special nuclear material.

(b) Engagement or participation in development or production

It shall be unlawful for any person to directly or indirectly engage or participate in the development or production of any special nuclear material outside of the United States except (1) as specifically authorized under an agreement for cooperation made pursuant to section 2153 of this title, including a specific authorization in a subsequent arrangement under section 2160 of this title, or (2) upon authorization by the Secretary of Energy after a determination that such activity will not be inimical to the interest of the United States: Provided, That any such determination by the Secretary of Energy shall be made only with the concurrence of the Department of State and after consultation with the Nuclear Regulatory Commission, the Department of Commerce, and the Department of Defense. The Secretary of Energy shall, within ninety days after March 10, 1978, establish orderly and expeditious procedures, including provision for necessary administrative actions and inter-agency memoranda of understanding, which are mutually agreeable to the Secretaries of State, Defense, and Commerce, and the Nuclear Regulatory Commission for the consideration of requests for authorization under this subsection. Such procedures shall include, at a minimum, explicit direction on the handling of such requests, express deadlines for the solicitation and collection of the views of the consulted agencies (with identified officials responsible for reviewing such deadlines), an interagency coordinating authority to monitor the processing of such requests, predetermined procedures for the expeditious handling of intra-agency and inter-agency disagreements and appeals to higher authorities, frequent meetings of inter-agency administrative coordinators to review the status of all pending requests, and similar administrative mechanisms. To the extent practicable, an applicant should be advised of all the information required of the applicant for the entire process for every agency's needs at the beginning of the process. Potentially controversial requests should be identified as quickly as possible so that any required policy decisions or diplomatic consultations can be initiated in a timely manner. An immediate effort should be undertaken to establish quickly any necessary standards and criteria, including the nature of any required assurances or evidentiary showings, for the decision required under this subsection. The processing of any request proposed and filed as of March 10, 1978, shall not be delayed pending the development and establishment of procedures to implement the requirements of this subsection. Any trade secrets or proprietary information submitted by any person seeking an authorization under this subsection shall be afforded the maximum degree of protection allowable by law: Provided further, That the export of component parts as defined in section 2154(v)(2) or (cc)(2) of this title shall be governed by sections 2139 and 2155 of this title: Provided further, That notwithstanding section 7172(d) of this title, the Secretary of Energy and not the Federal Energy Regulatory Commission, shall have sole jurisdiction within the Department of Energy over any matter arising from any function of the Secretary of Energy in this section, section 2074(d), section 2094, or section 2141(b) of this title.

§ 2078  TITLE 42—THE PUBLIC HEALTH AND WELFARE

(1) distribute any special nuclear material to any person for a use which is not under the jurisdiction of the United States except pursuant to the provisions of section 2074 of this title; or
(2) distribute any special nuclear material or issue a license pursuant to section 2073 of this title to any person within the United States if the Commission finds that the distribution of such special nuclear material or the issuance of such license would be inimical to the common defense and security or would constitute an unreasonable risk to the health and safety of the public.

(d) Establishment of classes of special nuclear material; exemption of materials, kinds of uses and users from requirement of license

The Commission is authorized to establish classes of special nuclear material and to exempt certain classes or quantities of special nuclear material or kinds of uses or users from the requirements for a license set forth in this section when it makes a finding that the exemption of such classes or quantities of special nuclear material or such kinds of uses or users would not be inimical to the common defense and security and would not constitute an unreasonable risk to the health and safety of the public.

(e) Transfer, etc., of special nuclear material

Special nuclear material, as defined in section 2014 of this title, produced in facilities licensed under section 2133 or 2134 of this title may not be transferred, reprocessed, used, or otherwise made available by any instrumentality of the United States or any other person for nuclear explosive purposes.

L. 95–242 substituted “except (1) as specifically authorized under an agreement for cooperation made pursuant to section 2133 of this title, including a specific authorization in a subsequent arrangement under section 2160 of this title, or (2) upon authorization by the Secretary of Energy after a determination that such activity will not be inimical to the interest of the United States” for “except (1) under an agreement for cooperation made pursuant to section 2133 of this title, or (2) upon authorization by the Commission after a determination that such activity will not be inimical to the interest of the United States” in existing provisions and inserted proviso relating to determination by the Secretary of Energy, the procedures to be followed in processing authorization requests, the export of component parts, and the jurisdiction of the Secretary of Energy.

1964—Pub. L. 88–489 amended section generally, and among other changes, included all special nuclear materials within the section, struck out condition that such material be “the property of the United States”, included delivery, acquisition, ownership and receiving possession of or title to any special nuclear material within the acts prohibited to persons, prohibited the Commission from issuing a license pursuant to section 2073 of this title if the Commission finds that the issuance would be inimical to the common defense and security or would constitute an unreasonable risk to the health and safety of the public.

Performance of Functions Pending Development of Procedures

The performance of functions under this chapter, as amended by the Nuclear Non-Proliferation Act of 1978, Pub. L. 95–242, Mar. 10, 1978, 92 Stat. 120, not to be delayed pending development of procedures even though as many as 120 days (after Mar. 10, 1978) are allowed for establishing those procedures, see section 5(b) of Ex. Ord. No. 12058, May 11, 1978, 43 F.R. 20947, set out under section 3201 of Title 22, Foreign Relations and Intercourse.

§ 2078. Congressional review of guaranteed purchase price, guaranteed purchase price period, and criteria for waiver of charges

Before the Commission establishes any guaranteed purchase price or guaranteed purchase price period in accordance with the provisions of section 2076 of this title, or establishes any criteria for the waiver of any charge for the use of any special nuclear material licensed and distributed under section 2073 of this title, the proposed guaranteed purchase price, guaranteed purchase price period, or criteria for the waiver of such charge shall be submitted to the Energy Committees and a period of forty-five days shall elapse while Congress is in session (in computing such forty-five days there shall be excluded the days in which either House is not in session because of adjournment for more than three
days): Provided, however, That the Energy Committees, after having received the proposed guaranteed purchase price, guaranteed purchase price period, or criteria for the waiver of such charge, may by resolution in writing waive the conditions of, or all or any portion of, such forty-five-day period.

AMENDMENTS

1964—Pub. L. 88-489 substituted “guaranteed purchase and purchase for “fair” wherever appear, “licensed and distributed” for “licensed or distributed”, and provided that the Joint Committee resolution waiving the conditions of the forty-five-day period must be in writing.

SUBCHAPTER VI—SOURCE MATERIAL

§ 2091. Determination of source material

The Commission may determine from time to time that other material is source material in addition to those specified in the definition of source material. Before making such determination, the Commission must find that such material is essential to the production of special nuclear material and must find that the determination that such material is source material is in the interest of the common defense and security, and the President must have expressly assented in writing to the determination. The Commission’s determination, together with the assent of the President, shall be submitted to the Energy Committees and a period of thirty days shall elapse while Congress is in session (in computing such thirty days, there shall be excluded the days on which either House is not in session because of an adjournment of more than three days) before the determination of the Commission may become effective: Provided, however, That the Energy Committees, after having received such determination, may by resolution in writing waive the conditions of or all or any portion of such thirty-day period.

PRIOR PROVISIONS
Provisions similar to this section were contained in section 1805(b)(2) of this title, prior to the general amendment and renumbering of act Aug. 1, 1946, by act Aug. 30, 1954.

§ 2093. Domestic distribution of source material

(a) License

(2) for use in the conduct of research and development activities or in medical therapy under a license issued pursuant to section 2134 of this title;
(3) for use under a license issued pursuant to section 2133 of this title; or
(4) for any other use approved by the Commission as an aid to science or industry.

(b) Minimum criteria for licenses

The Commission shall establish, by rule, minimum criteria for the issuance of specific or general licenses for the distribution of source material depending upon the degree of importance to the common defense and security or to the health and safety of the public of—

(1) the physical characteristics of the source material to be distributed;
(2) the quantities of source material to be distributed; and
(3) the intended use of the source material to be distributed.

(c) Determination of charges

The Commission may make a reasonable charge determined pursuant to section 2201(m) of this title for the source material licensed and distributed under subsection (a)(1), (a)(2), or (a)(4) of this section and shall make a reasonable charge determined pursuant to section 2201(m) of this title, for the source material licensed and distributed under subsection (a)(3) of this section. The Commission shall establish criteria in writing for the determination of whether a charge will be made for the source material licensed and distributed under subsection (a)(1), (a)(2), or (a)(4) of this section, considering, among other things, whether the licensee is a nonprofit or eleemosynary institution and the purposes for which the source material will be used.

§ 2094. Foreign distribution of source material

The Commission is authorized to cooperate with any nation by distributing source material and to distribute source material pursuant to the terms of an agreement for cooperation to which such nation is a party and which is made in accordance with section 2153 of this title. Amendment by Pub. L. 95–242 effective Mar. 10, 1978, except as otherwise provided and regardless of any requirement for the promulgation of implementing regulations, see section 666(c) of Pub. L. 95–242, set out as an Effective Date note under section 3201 of Title 22, Foreign Relations and Intercourse.

Performance of Functions Pending Development of Procedures

The performance of functions under this chapter, as amended by the Nuclear Non-Proliferation Act of 1978, Pub. L. 95–242, Mar. 10, 1978, 92 Stat. 120, not to be delayed pending development of procedures even though as many as 120 days (after Mar. 10, 1978) are allowed for establishing those procedures, see section 5(b) of Ex. Ord. No. 12058, May 11, 1978, 43 F.R. 20947, set out under section 3201 of Title 22, Foreign Relations and Intercourse.

§ 2095. Reports

The Commission is authorized to issue such rules, regulations, or orders requiring reports of ownership, possession, extraction, refining, shipment, or other handling of source material as it may deem necessary, except that such reports shall not be required with respect to (a) any source material prior to removal from its place of deposit in nature, or (b) quantities of source material which in the opinion of the Commission are unimportant or the reporting of which will discourage independent prospecting for new deposits.

Prior Provisions

Provisions similar to this section were contained in section 1805(b)(3) of this title, prior to the general amendment and renumbering of act Aug. 1, 1946, by act Aug. 30, 1954.

§ 2096. Acquisition of source material; payments

The Commission is authorized and directed, to the extent it deems necessary to effectuate the provisions of this chapter—

(a) to purchase, take, requisition, condemn, or otherwise acquire supplies of source material;

(b) to purchase, condemn, or otherwise acquire any interest in real property containing deposits of source material; and

(c) to purchase, condemn, or otherwise acquire rights to enter upon any real property deemed by the Commission to have possibilities of containing deposits of source material in order to conduct prospecting and exploratory operations for such deposits.

Any purchase made under this section may be made without regard to the provisions of section 6101 of title 41, upon certification by the Commission that such action is necessary in the interest of the common defense and security, or upon a showing by the Commission that advertising is not reasonably practicable. Partial and advanced payments may be made under contracts for such purposes. The Commission may establish guaranteed prices for all source material delivered to it within a specified time. Just compensation shall be made for any right, property, or interest in property taken, requisitioned, condemned, or otherwise acquired under this section.

Codification

Prior Provisions

Provisions similar to this section were contained in section 1805(b)(4) of this title, prior to the general amendment and renumbering of act Aug. 1, 1946, by act Aug. 30, 1954.

§ 2097. Operations on lands belonging to United States

The Commission is authorized, to the extent it deems necessary to effectuate the provisions of this chapter, to issue leases or permits for prospecting for, exploration for, mining of, or removal of deposits of source material in lands belonging to the United States: Provided, however, That notwithstanding any other provisions of law, such leases or permits may be issued for lands administered for national park, monument, and wildlife purposes only when the Presi-
dent by Executive Order declares that the requirements of the common defense and security make such action necessary.

§ 2098. Public and acquired lands

(a) Conditions on location, entry, and settlement

No individual, corporation, partnership, or association, which had any part, directly or indirectly, in the development of the atomic energy program, may benefit by any location, entry, or settlement upon the public domain made after such individual, corporation, partnership, or association took part in such project, if such individual, corporation, partnership, or association, by reason of having had such part in the development of the atomic energy program, acquired confidential official information as to the existence of deposits of such uranium, thorium, or other materials in the specific lands upon which such location, entry, or settlement is made, and subsequently to August 30, 1954, made such location, entry, or settlement or caused the same to be made for his, or its, or their benefit.

(b) Reservation of mineral rights; release

Any reservation of radioactive mineral substances, fissionable materials, or source material, together with the right to enter upon the land and prospect for, mine, and remove the same, inserted pursuant to Executive Order 9613 of September 13, 1945, Executive Order 9701 of March 4, 1946, the Atomic Energy Act of 1946 [42 U.S.C. 1801 et seq.], or Executive Order 9908 of December 5, 1947, in any patent, conveyance, lease, permit, or other authorization or instrument disposing of any interest in public or acquired lands of the United States, is released, remised, and quitclaimed to the person or persons entitled upon August 19, 1958 under the applicable Federal or State laws: Provided, however, That in cases where any such reservation on acquired lands of the United States has been heretofore released, remised, or quitclaimed subsequent to August 12, 1954, in reliance upon authority deemed to have been contained in the Atomic Energy Act of 1946, as amended, or the Atomic Energy Act of 1954 [42 U.S.C. 1801 et seq.], as heretofore amended, the same shall be valid and effective in all respects to the same extent as if public lands and not acquired lands had been involved. The foregoing release shall be subject to any rights which may have been granted by the United States pursuant to any such reservation, but the releases shall be subrogated to the rights of the United States.

(c) Prior locations

Notwithstanding the provisions of the Atomic Energy Act of 1946, as amended [42 U.S.C. 1801 et seq.], and particularly section 5(b)(7) thereof [42 U.S.C. 1805(b)(7)], or the provisions of sections 501 to 505 of title 30, and particularly section 503 of title 30, any mining claim, heretofore located under the mining laws of the United States, for or based upon a discovery of a mineral deposit which is a source material and which, except for the possible contrary construction of said Atomic Energy Act, would have been locatable under such mining laws, shall, insofar as adversely affected by such possible contrary construction, be valid and effective, in all respects to the same extent as if said mineral deposit were a locatable mineral deposit other than a source material.

SUBCHAPTER VII—BYPRODUCT MATERIALS

§ 2111. Domestic distribution

(a) In general

No person may transfer or receive in interstate commerce, manufacture, produce, transfer, acquire, own, possess, import, or export any byproduct material, except to the extent authorized by this section, section 2112 or section 2114 of this title. The Commission is authorized to issue general or specific licenses to applicants seeking to use byproduct material for research or development purposes, for medical therapy, industrial uses, agricultural uses, or other useful applications as may be developed. The Commission may distribute, sell, loan, or lease such byproduct material as it owns to qualified applicants with or without charge: Provided, however, That, for byproduct material to be distributed by the Commission for a charge, the Commission shall establish prices on such equitable basis as, in the opinion of the Commission, (a) will provide reasonable compensation to the Government for such material, (b) will not discourage the use of such material or the development of sources of supply of such material independent of the Commission, and (c) will encourage research and development. In distributing such material, the Commission shall give preference to applicants proposing to use such material either in the conduct of research and development or in medical therapy. The Commission shall not permit the distribution of any byproduct material to any licensee, and shall recall or order the recall of any distributed material from any licensee, who is not equipped to observe or who fails to observe such safety standards to protect health as may be established by the Commission or who uses such material in violation of law or regulation of the Commission or in a manner other than as disclosed in the application therefor or approved by the Commission. The Commission is authorized to establish classes of byproduct material and to exempt certain classes or quantities of material or kinds of uses or users from the requirements for a license set forth in this section when it makes a finding that the exemption of such classes or quantities of such material or such kinds of uses or users will not constitute an unreasonable risk to the common defense and security and to the health and safety of the public.

(b) Requirements

(1) In general

Except as provided in paragraph (2), byproduct material, as defined in paragraphs (3) and (4) of section 2104(e) of this title, may only be transferred to and disposed of in a disposal facility that—

(A) is adequate to protect public health and safety; and

(B) (i) is licensed by the Commission; or

(ii) is licensed by a State that has entered into an agreement with the Commission under section 2021(b) of this title, if the licensing requirements of the State are compatible with the licensing requirements of the Commission.

(2) Effect of subsection

Nothing in this subsection affects the authority of any entity to dispose of byproduct material, as defined in paragraphs (3) and (4) of section 2104(e) of this title, at a disposal facility in accordance with any Federal or State solid or hazardous waste law, including the Solid Waste Disposal Act (42 U.S.C. 6901 et seq.).

(c) Treatment as low-level radioactive waste

Byproduct material, as defined in paragraphs (3) and (4) of section 2104(e) of this title, disposed of under this section shall not be considered to be low-level radioactive waste for the purposes of—

(1) section 2 of the Low-Level Radioactive Waste Policy Act (42 U.S.C. 2212b); or

(2) carrying out a compact that is—

(A) entered into in accordance with that Act (42 U.S.C. 2212b et seq.); and

(B) approved by Congress.

such byproduct material” before “The Commission shall not”.

§ 2112. Foreign distribution of byproduct material

(a) Cooperation with other Nations

The Commission is authorized to cooperate with any nation by distributing byproduct material, and to distribute byproduct material, pursuant to the terms of an agreement for cooperation, to which such nation is party and which is made in accordance with section 2153 of this title.

(b) Distribution to individuals

The Commission is also authorized to distribute byproduct material to any person outside the United States upon application therefor by such person and demand such charge for such material as would be charged for the material if it were distributed within the United States: Provided, however, That the Commission shall not distribute any such material to any person under this section if, in its opinion, such distribution would be inimical to the common defense and security: And provided further, That the Commission may require such reports regarding the use of material distributed pursuant to the provisions of this section as it deems necessary.

(c) Distributor's license

The Commission is authorized to license others to distribute byproduct material to any person outside the United States under the same conditions, except as to charges, as would be applicable if the material were distributed by the Commission.

§ 2113. Ownership and custody of certain byproduct material and disposal sites

(a) Specific assurances in license for pretermination actions

Any license issued or renewed after the effective date of this section under section 2092 or section 2111 of this title for any activity which results in the production of any byproduct material, as defined in section 2014(e)(2) of this title, shall contain such terms and conditions as the Commission determines to be necessary to assure that, prior to termination of such license—

(1) the licensee will comply with decontamination, decommissioning, and reclamation standards prescribed by the Commission for sites (A) at which ores were processed primarily for their source material content and (B) at which such byproduct material is deposited, and

(2) ownership of any byproduct material, as defined in section 2014(e)(2) of this title, which resulted from such licensed activity shall be transferred to (A) the United States or (B) in the State in which such activity occurred if such State exercises the option under subsection (b)(1) of this section to acquire land used for the disposal of byproduct material.

Any license which is in effect on the effective date of this section and which is subsequently terminated without renewal shall comply with paragraphs (1) and (2) upon termination.

(b) Transfer of title; health and environmental protection through maintenance of property and materials; use of public or subsurface estates; first refusal rights of transferor; maintenance, monitoring, and emergency measures and other authorized action; licensee-transferor liability for fraud or negligence; administrative and legal costs limitation; government retransfers under section 7914(h) of this title

(1)(A) The Commission shall require by rule, regulation, or order that prior to the termination of any license which is issued after the effective date of this section, title to the land, including any interests therein (other than land owned by the United States or by a State) which is used for the disposal of any byproduct material, as defined by section 2014(e)(2) of this title, pursuant to such license shall be transferred to—

(i) the United States, or

(ii) the State in which such land is located, at the option of such State, unless the Commission determines prior to such termination that transfer of title to such land and such byproduct material is not necessary or desirable to protect the public health, safety, or welfare or to minimize or eliminate danger to life or property. Such determination shall be made in accordance with section 2231 of this title. Notwithstanding any other provision of law or any such determination, such property and materials shall be maintained pursuant to a license issued by the Commission pursuant to section 2111 of this title in such manner as will protect the public health, safety, and the environment.

(B) If the Commission determines by order that use of the surface or subsurface estates, or both, of the land transferred to the United States or to a State under subparagraph (A) would not endanger the public health, safety, welfare, or environment, the Commission, pursuant to such regulations as it may prescribe, shall permit the use of the surface or subsurface estates, or both, of such land in a manner consistent with the provisions of this section. If the Commission permits such use of such land, it shall provide the person who transferred such land with the right of first refusal with respect to such use of such land.

(2) If transfer to the United States of title to such byproduct material and such land is required under this section, the Secretary of Energy or any Federal agency designated by the President shall, following the Commission’s determination of compliance under subsection (c) of this section, assume title and custody of such byproduct material and land transferred as provided in this subsection. Such Secretary or Federal agency shall maintain such material and land in such manner as will protect the public health and safety and the environment. Such custody may be transferred to another officer or instrumentality of the United States only upon approval of the President.
§ 2114

(3) If transfer to a State of title to such byproduct material is required in accordance with this subsection, such State shall, following the Commission's determination of compliance under subsection (d) of this section, assume title and custody of such byproduct material and land transferred as provided in this subsection. Such State shall maintain such material and land in such manner as will protect the public health, safety, and the environment.

(4) In the case of any such license under section 202(b) of this title, which was in effect on the effective date of this section, the Commission may require, before the termination of such license, such transfer of land and interests therein (as described in paragraph (1) of this subsection) to the United States or a State in which such land is located, at the option of such State, as may be necessary to protect the public health, welfare, and the environment from any effects associated with such byproduct material. In exercising the authority of this paragraph, the Commission shall take into consideration the status of the ownership of such land and interests therein and the ability of the licensee to transfer title and custody thereof to the United States or a State.

(5) The Commission may, pursuant to a license, or by rule or order, require the Secretary or other Federal agency or State having custody of such property and materials to undertake such monitoring, maintenance, and emergency measures as are necessary to protect the public health and safety and such other actions as the Commission deems necessary to comply with the standards promulgated pursuant to section 2114 of this title. The Secretary or such other Federal agency is authorized to carry out maintenance, monitoring, and emergency measures, but shall take no other action pursuant to such license, rule or order, with respect to such property and materials unless expressly authorized by Congress after November 8, 1978.

(6) The transfer of title to land or byproduct materials, as defined in section 2014(e)(2) of this title, to a State or the United States pursuant to this subsection shall not relieve any licensee of liability for any fraudulent or negligent acts done prior to such transfer.

(7) Material and land transferred to the United States or a State in accordance with this subsection shall be transferred without cost to the United States or a State (other than administrative and legal costs incurred in carrying out such transfer). Subject to the provisions of paragraph (1)(B) of this subsection, the United States or a State shall not transfer title to material or property acquired under this subsection to any person, unless such transfer is in the same manner as provided under section 7914(h) of this title.

(8) The provisions of this subsection respecting transfer of title and custody to land shall not apply in the case of lands held in trust by the United States for any Indian tribe or lands owned by such Indian tribe subject to a restriction against alienation imposed by the United States. In the case of such lands which are used for the disposal of byproduct material, as defined in section 2014(e)(2) of this title, the licensee shall be required to enter into such arrangements with the Commission as may be appropriate to assure the long-term maintenance and monitoring of such lands by the United States.

(c) Compliance with applicable standards and license requirements; determination upon termination of license

Upon termination of any license to which this section applies, the Commission shall determine whether or not the licensee has complied with all applicable standards and requirements under such license.

Section 209 of Pub. L. 95–604 provided that: "The Nuclear Regulatory Commission shall consolidate, to the maximum extent practicable, licenses and licensing procedures under amendments made by this title [see Effective Date of 1978 Amendment note set out under section 2014 of this title] with licenses and licensing procedures under other authorities contained in the Atomic Energy Act of 1954 [this chapter]."

§ 2114. Authorities of Commission respecting certain byproduct material

(a) Management function

The Commission shall insure that the management of any byproduct material, as defined in section 2014(e)(2) of this title, is carried out in such manner as—

1. That the Commission deems appropriate to protect the public health and safety and the environment from radiological and non-radiological hazards associated with the processing and with the possession and transfer of such material, taking into account the risk to the

public health, safety, and the environment, with due consideration of the economic costs
and such other factors as the Commission determines to be appropriate.1

(2) conforms with applicable general standards promulgated by the Administrator of the
Environmental Protection Agency under section 2022 of this title, and

(3) conforms to general requirements established by the Commission, with the concurrence
of the Administrator, which are, to the maximum extent practicable, at least comparable
to requirements applicable to the post-operation, transfer, and disposal of similar
hazardous material regulated by the Administrator under the Solid Waste Disposal Act, as
amended [42 U.S.C. 6901 et seq.].

(b) Rules, regulations, or orders for certain activities; civil penalty

In carrying out its authority under this section, the Commission is authorized to—

(1) by rule, regulation, or order require persons, officers, or instrumentalities exempted
from licensing under section 2111 of this title to conduct monitoring, perform remedial
work, and to comply with such other measures as may be deemed necessary or desirable to
protect health or to minimize danger to life or property, and in connection with the disposal
or storage of such byproduct material; and

(2) make such studies and inspections and to conduct such monitoring as may be necessary.

Any violation by any person other than the United States or any officer or employee of the
United States or a State of any rule, regulation, or order licensing provision, of the Commis-
sion established under this section or section 2113 of this title shall be subject to a civil penal-
ity in the same manner and in the same amount as violations subject to a civil penalty
under section 2282 of this title.

(c) Alternative requirements or proposals

In the case of sites at which ores are processed primarily for their source material content or
which are used for the disposal of byproduct material as defined in section 2014(e)(2) of this title,
a licensee may propose alternatives to specific requirements adopted and enforced by the Com-
mission under this chapter. Such alternative proposals may take into account local or regional
conditions, including geology, topography, hydrology and meteorology. The Commission
can treat such alternatives as satisfying Commission requirements if the Commission
determines that such alternatives will achieve a level of stabilization and containment of the
sites concerned, and a level of protection for public health, safety, and the environment from
radiological and nonradiological hazards associated with such sites, which is equivalent to, to
the extent practicable, or more stringent than the level which would be achieved by standards
and requirements adopted and enforced by the Commission for the same purpose and any final
standards promulgated by the Administrator of

the Environmental Protection Agency in accordance with section 2022 of this title.

APPLICATION OF ATOMIC ENERGY

§ 2121. Authority of Commission

(a) Research and development; weapons production; hazardous wastes; transfers of tech-
nologies

The Commission is authorized to—

(1) conduct experiments and do research and development work in the military application
of atomic energy;

(2) engage in the production of atomic weapons, or atomic weapon parts, except that such
activities shall be carried on only to the ex-
tent that the express consent and direction of
the President of the United States has been
obtained, which consent and direction shall
be obtained at least once each year;

(3) provide for safe storage, processing, transportation, and disposal of hazardous
waste (including radioactive waste) resulting
from nuclear materials production, weapons
production and surveillance programs, and
naval nuclear propulsion programs;

(4) carry out research on and development of technologies needed for the effective negotia-
tion and verification of international agree-
ments on control of special nuclear materials
and nuclear weapons; and

(5) under applicable law (other than this
paragraph) and consistent with other missions
of the Department of Energy, make transfers
of federally owned or originated technology to
State and local governments, private industry,
and universities or other nonprofit organiza-
tions so that the prospects for commercializa-
tion of such technology are enhanced.

(b) Material for Department of Defense use

The President from time to time may direct
the Commission (1) to deliver such quantities of

1 So in original.
special nuclear material or atomic weapons to the Department of Defense for such use as he deems necessary in the interest of national defense, or (2) to authorize the Department of Defense to manufacture, produce, or acquire any atomic weapon or utilization facility for military purposes: Provided, however, That such authorization shall not extend to the production of special nuclear material other than that incidental to the operation of such utilization facilities.

(c) Sale, lease, or loan to other Nations of materials for military applications

The President may authorize the Commission or the Department of Defense, with the assistance of the other, to cooperate with another nation and, notwithstanding the provisions of section 2077, 2092, or 2111 of this title, to transfer by sale, lease, or loan to such nation, in accordance with terms and conditions of a program approved by the President—

(1) nonnuclear parts of atomic weapons provided that such nation has made substantial progress in the development of atomic weapons, and other nonnuclear parts of atomic weapons systems involving Restricted Data provided that such transfer will not contribute significantly to that nation's atomic weapon design, development, or fabrication capability; for the purpose of improving that nation's state of training and operational readiness;

(2) utilization facilities for military applications; and

(3) source, byproduct, or special nuclear material for research on, development of, or use in utilization facilities for military applications; and

(4) source, byproduct, or special nuclear material for research on, development of, or use in atomic weapons: Provided, however, That the transfer of such material to that nation is necessary to improve its atomic weapon design, development, or fabrication capability: And provided further, That such nation has made substantial progress in the development of atomic weapons, whenever the President determines that the proposed cooperation and each proposed transfer arrangement for the nonnuclear parts of atomic weapons and atomic weapons systems, utilization facilities or source, byproduct, or special nuclear material will promote and will not constitute an unreasonable risk to the common defense and security, while such other nation is participating with the United States pursuant to an international arrangement by substantial and material contributions to the mutual defense and security: Provided, however, That the cooperation is undertaken pursuant to an agreement entered into in accordance with section 2153 of this title: And provided further, That if an agreement for cooperation arranged pursuant to this subsection provides for transfer of utilization facilities for military applications the Commission, or the Department of Defense with respect to cooperation it has been authorized to undertake, may authorize any person to transfer such utilization facilities for military applications in accordance with the terms and conditions of this subsection and of the agreement for cooperation.

(b) Facilities constructed or operated under section 2134(b)

Any license hereafter issued for a utilization or production facility for industrial or commercial purposes, the construction or operation of which was licensed pursuant to section 2134(b) of this title prior to enactment into law of this subsection, shall be issued under section 2134(b) of this title.

(c) Cooperative Power Reactor Demonstration facilities

Any license for a utilization or production facility for industrial or commercial purposes constructed or operated under an arrangement with the Commission entered into under the Cooperative Power Reactor Demonstration Program shall, except as otherwise specifically required by applicable law, be issued under section 2134(b) of this title.

§ 2133. Commercial licenses

(a) Conditions

The Commission is authorized to issue licenses to persons applying therefor to transfer or receive in interstate commerce, manufacture, produce, transfer, acquire, possess, use, import, or export under the terms of an agreement for cooperation arranged pursuant to section 2133 of this title, utilization or production facilities for industrial or commercial purposes. Such licenses shall be issued in accordance with the provisions of subchapter XV of this division and subject to such conditions as the Commission may by rule or regulation establish to effectuate the purposes and provisions of this chapter.

(b) Nonexclusive basis

The Commission shall issue such licenses on a nonexclusive basis to persons applying therefor (1) whose proposed activities will serve a useful purpose proportionate to the quantities of special nuclear material or source material to be utilized; (2) who are equipped to observe and who agree to observe such safety standards to protect health and to minimize danger to life or property as the Commission may by rule establish; and (3) who agree to make available to the Commission such technical information and data concerning activities under such licenses as the Commission may determine necessary to promote the common defense and security and to protect the health and safety of the public. All such information may be used by the Commission only for the purposes of the common defense and security and to protect the health and safety of the public.

(c) License period

Each such license shall be issued for a specified period, as determined by the Commission, depending on the type of activity to be licensed, but not exceeding forty years from the authorization to commence operations, and may be renewed upon the expiration of such period.

No license may be issued to an alien or any corporation or other entity if the Commission knows or has reason to believe it is owned, controlled, or dominated by an alien, a foreign corporation, or a foreign government. In any event, no license may be issued to any person within the United States if, in the opinion of the Commission, the issuance of a license to such person would be inimical to the common defense and security or to the health and safety of the public.

(f) Accident notification condition; license revocation; license amendment to include condition

Each license issued for a utilization facility under this section or section 2133(b) of this title shall require as a condition thereof that in case of any accident which could result in an unplanned release of quantities of fission products in excess of allowable limits for normal operation established by the Commission, the licensee shall immediately so notify the Commission. Violation of the condition prescribed by this subsection may, in the Commission’s discretion, constitute grounds for license revocation. In accordance with section 2237 of this title, the Commission shall promptly amend each license.

In issuing such licenses the Commission is directed to permit the widest amount of effective medical therapy possible with the amount of special nuclear material available for such purposes and to impose the minimum amount of regulation consistent with its obligations under this chapter to promote the common defense and security and to protect the health and safety of the public.

(b) Industrial and commercial purposes

As provided for in subsection (b) or (c) of section 2132 of this title, or where specifically authorized by law, the Commission is authorized to issue licenses under this subsection to persons applying therefor for utilization and production facilities for industrial and commercial purposes. In issuing licenses under this subsection, the Commission shall impose the minimum amount of such regulations and terms of license as will permit the Commission to fulfill its obligations under this chapter.

(c) Research and development activities

The Commission is authorized to issue licenses to persons applying therefor for utilization and production facilities useful in the conduct of research and development activities of the types specified in section 2051 of this title and which are not facilities of the type specified in subsection (b) of this section. The Commission is directed to impose only such minimum amount of regulation of the licensee as the Commission finds will permit the Commission to fulfill its obligations under this chapter to promote the common defense and security and to protect the health and safety of the public and will permit the conduct of widespread and diverse research and development.

(d) Limitations

No license under this section may be given to any person for activities which are not under or within the jurisdiction of the United States, except for the export of production or utilization facilities under terms of an agreement for cooperation arranged pursuant to section 2133 of this title or except under the provisions of section 2139 of this title. AMENDMENTS
1970—Subsec. (b). Pub. L. 91–560 substituted provisions authorizing the issue of licenses for utilization or production facilities for industrial or commercial purposes (i) where specifically authorized by law or (ii) where the facility was constructed or operated under an arrangement with the Commission entered into under the cooperative power reactor demonstration program, and the applicable statutory authorization does not require licensing under section 2133, or (iii) where the facility was theretofore licensed under section 2133(b), for provisions authorizing the issue of licenses for utilization and production facilities involved in the conduct of research and development activities resulting from the demonstration of the practical value of such facilities for industrial and commercial purposes.

§ 2135. Antitrust provisions governing licenses

(a) Violations of antitrust laws

Nothing contained in this chapter shall relieve any person from the operation of the following Acts, as amended, “An Act to protect trade and commerce against unlawful restraints and monopolies” approved July second, eighteen hundred and ninety-four; “An Act to protect trade and commerce against unlawful restraints and monopolies” approved August twenty-seven, eighteen hundred and ninety; sections seventy-three to seventy-six, inclusive, of an Act entitled “An Act to regulate the District of Columbia, and for other purposes” approved September twenty-six, nineteen hundred and ninety-four; “An Act to supplement existing laws against unlawful restraints and monopolies, and for other purposes” approved October fifteen, nineteen hundred and fourteen; and “An Act to create a Federal Trade Commission, to define its powers and duties, and for other purposes” approved September twenty-six, nineteen hundred and fourteen. In the event a licensee is found by a court of competent jurisdiction, either in an original action in that court or in a proceeding to enforce or review the findings or orders of any Government agency having jurisdiction under the laws cited above, to have violated any of the provisions of such laws in the conduct of the licensed activity, the Commission may suspend, revoke, or take such other action as it may deem necessary with respect to
any license issued by the Commission under the provisions of this chapter.

(b) Reports to Attorney General

The Commission shall report promptly to the Attorney General any information it may have with respect to any utilization of special nuclear material or atomic energy which appears to violate or to tend toward the violation of any of the foregoing Acts, or to restrict free competition in private enterprise.

(c) Transmissions to Attorney General of copies of license applications; publication of advice; factors considered; exceptions

(1) The Commission shall promptly transmit to the Attorney General a copy of any license application provided for in paragraph (2) of this subsection, and a copy of any written request provided for in paragraph (3) of this subsection; and the Attorney General shall, within a reasonable time, but in no event to exceed 180 days after receiving a copy of such application or written request, render such advice to the Commission as he determines to be appropriate in regard to the finding to be made by the Commission pursuant to paragraph (5) of this subsection. Such advice shall include an explanatory statement as to the reasons or basis therefor.

(2) Paragraph (1) of this subsection shall apply to an application for a license to construct or operate a utilization or production facility under section 2133 of this title: Provided, however, That paragraph (1) shall not apply to an application for a license to operate a utilization or production facility for which a construction permit was issued under section 2133 of this title unless the Commission determines such review is advisable on the ground that significant changes in the licensee's activities or proposed activities have occurred subsequent to the previous review by the Attorney General and the Commission under this subsection in connection with the construction permit for the facility.

(3) With respect to any Commission permit for the construction of a utilization or production facility issued pursuant to subsection (b) of section 2134 of this title prior to December 19, 1970, any person who intervened or who sought by timely written notice to the Commission to intervene in the construction permit proceeding for the facility to obtain a determination of antitrust considerations or to advance a jurisdictional basis for such determination shall have the right, upon a written request to the Commission, to obtain an antitrust review under this section of the application for an operating license. Such written request shall be made within 25 days after the date of initial Commission publication in the Federal Register of notice of the filing of an application for an operating license for the facility or December 19, 1970, whichever is later.

(4) Upon the request of the Attorney General, the Commission shall furnish or cause to be furnished such information as the Attorney General determines to be appropriate for the advice called for in paragraph (1) of this subsection.

(5) Promptly upon receipt of the Attorney General's advice, the Commission shall publish the advice in the Federal Register. Where the Attorney General advises that there may be adverse antitrust aspects and recommends that there be a hearing, the Attorney General or his designee may participate as a party in the proceedings thereafter held by the Commission on such licensing matter in connection with the subject matter of his advice. The Commission shall give due consideration to the advice received from the Attorney General and to such evidence as may be provided during the proceedings in connection with such subject matter, and shall make a finding as to whether the activities under the license would create or maintain a situation inconsistent with the antitrust laws as specified in subsection (a) of this section.

(6) In the event the Commission's finding under paragraph (5) is in the affirmative, the Commission shall also consider, in determining whether the license should be issued or continued, such other factors, including the need for power in the affected area, as the Commission in its judgment deems necessary to protect the public interest. On the basis of its findings, the Commission shall have the authority to issue or continue a license as applied for, to refuse to issue a license, to rescind a license or amend it, and to issue a license with such conditions as it deems appropriate.

(7) The Commission, with the approval of the Attorney General, may except from any of the requirements of this subsection such classes or types of licenses as the Commission may determine would not significantly affect the applicant's activities under the antitrust laws as specified in subsection (a) of this section.

(8) With respect to any application for a construction permit on file at the time of enactment into law of this subsection, which permit would be for issuance under section 2133 of this title, and with respect to any application for an operating license in connection with which a written request for an antitrust review is made as provided for in paragraph (3), the Commission, after consultation with the Attorney General, may, upon determination that such action is necessary in the public interest to avoid unnecessary delay, establish by rule or order periods for Commission notification and receipt of advice differing from those set forth above and may issue a construction permit or operating license in advance of consideration of and findings with respect to the matters covered in this subsection: Provided, That any construction permit or operating license so issued shall contain such conditions as the Commission deems appropriate to assure that any subsequent findings and orders of the Commission with respect to such matters will be given full force and effect.

(9) Applicability.—This subsection does not apply to an application for a license to construct or operate a utilization or production facility under section 2133 or 2134(b) of this title that is filed on or after August 8, 2005.

§ 2136 Classes of facilities

The Commission may—

(a) group the facilities licensed either under section 2133 or 2134 of this title into classes which may include either production or utilization facilities or both, upon the basis of the similarity of operating and technical characteristics of the facilities;

(b) define the various activities to be carried on at each such class of facility; and

(c) designate the amounts of special nuclear material available for use by each such facility.

§ 2137. Operators' licenses

The Commission shall—

(a) prescribe uniform conditions for licensing individuals as operators of any of the various classes of production and utilization facilities licensed in this chapter;

(b) determine the qualifications of such individuals;

(c) issue licenses to such individuals in such form as the Commission may prescribe; and

(d) suspend such licenses for violations of any provision of this chapter or any rule or regulation issued thereunder whenever the Commission deems such action desirable.

TECHNICAL CAPABILITY OF LICENSEE PERSONNEL IMPROVEMENT PLAN; STUDY OF LICENSE REQUIREMENT FOR PLANT MANAGERS AND SENIOR LICENSEE OFFICERS; REPORT TO CONGRESS

“(a) The Commission is authorized and directed to prepare a plan for improving the technical capability of licensee personnel to safely operate utilization facilities licensed under section 103 or 104b. of the Atomic Energy Act of 1954 (sections 2133 and 2134(b) of this title). In proposing such plan, the Commission shall consider the feasibility of requiring standard mandatory training programs for nuclear facility operators, including classroom study, apprenticeships at the facility, and emergency simulator training. Such plan shall include specific criteria for more intensive training and retraining of personnel licensed under section 107 of the Atomic Energy Act of 1954 (this section), and for the licensing of such personnel, to assure—

“(1) conformity with all conditions and requirements of the operating license;

“(2) early identification of accidents, events, or event sequences which may significantly increase the likelihood of an accident; and

“(3) effective response to any such event or sequence.

Such plan shall include provision for Commission review and approval of the qualifications of personnel conducting any required training and retraining program. The plan shall also include requirements for the renewal of operator licenses including, to the extent practicable, requirements that the operator—

“(A) has been actively and extensively engaged in the duties listed in such license;

“(B) has discharged such duties safely to the satisfaction of the Commission.

“(C) is capable of continuing such duties, and

“(D) has participated in a relicensing training program. Such plan shall include criteria for suspending or revoking operator licenses. In addition, the Commission
shall also consider the feasibility of requiring such licensed operator to pass a recertification test every six months including—

(a)(i) written questions, and

(ii) emergency simulator exams.

The Commission shall transmit to the Congress the plan required by this subsection within six months after the date of the enactment of this Act (June 30, 1980), and shall implement as expeditiously as practicable each element thereof not requiring legislative enactment.

(b) The Nuclear Regulatory Commission is authorized and directed to undertake a study of the feasibility and value of licensing, under section 107 of the Atomic Energy Act of 1954 (this section), plant managers of utilization facilities and senior licensees officers responsible for operation of such facilities. The Commission shall report to the Congress within six months of the date of enactment of this Act (June 30, 1980) on the findings and recommendations of the study required by this subsection, and shall expeditiously implement each such recommendation not requiring legislative enactment.’’

§ 2138. Suspension of licenses during war or national emergency

Whenever the Congress declares that a state of war or national emergency exists, the Commission is authorized to suspend any licenses granted under this chapter if in its judgment such action is necessary to the common defense and security. The Commission is authorized during such period, if the Commission finds it necessary to the common defense and security, to order the recapture of any special nuclear material or to order the operation of any facility licensed under section 2133 or 2134 of this title, and is authorized to order the entry into any plant or facility in order to recapture such material, or to operate such facility. Just compensation shall be paid for any damages caused by the recapture of any special nuclear material or by the operation of any such facility.

AMENDMENTS

1959—Pub. L. 86–373 struck out "distributed under the provisions of section 2073(a) of this title, before "or to order".”

§ 2139. Component and other parts of facilities

(a) Licenses for domestic activities

With respect to those utilization and production facilities which are so determined by the Commission pursuant to section 2014(v)(2) or 2014(cc)(2) of this title the Commission may issue general licenses for domestic activities required to be licensed under section 2131 of this title, if the Commission determines in writing that such general licensing will not constitute an unreasonable risk to the common defense and security.

(b) Export licenses

After consulting with the Secretaries of State, Energy, and Commerce, the Commission is authorized and directed to determine which component parts as defined in section 2014(v)(2) or 2014(cc)(2) of this title and which other items or substances are especially relevant from the standpoint of export control because of their significance for nuclear explosive purposes. Except as provided in section 2155(b)(2) of this title, no such component, substance, or item which is so determined by the Commission shall be exported unless the Commission issues a general or specific license for its export after finding, based on a reasonable judgment of the assurances provided and other information available to the Federal Government, including the Commission, that the following criteria or their equivalent are met: (1) IAEA safeguards as required by Article III (2) of the Treaty will be applied with respect to such component, substance, or item; (2) no such component, substance, or item will be used for any nuclear explosive device or for research on or development of any nuclear explosive device; and (3) no such component, substance, or item will be retransferred to the jurisdiction of any other nation or group of nations unless the prior consent of the United States is obtained for such retransfer; and after determining in writing that the issuance of each such general or specific license or category of licenses will not be inimical to the common defense and security: Provided, That a specific license shall not be required for an export pursuant to this section if the component, substance, or item is covered by a facility license issued pursuant to section 2155 of this title.

(c) Exports inimical to common defense and security of United States

The Commission shall not issue an export license under the authority of subsection (b) of this section if it is advised by the executive branch, in accordance with the procedures established under section 2155(a) of this title, that the export would be inimical to the common defense and security of the United States.

If, after March 10, 1978, the Congress fails to disapprove a proposed agreement for cooperation which exempts the recipient nation from the requirement set forth in subsection (a)(2) of this section, such failure to act shall constitute a failure to adopt a resolution of disapproval pursuant to section 2157(b)(3) of this title for purposes of the Commission's consideration of applications and requests under section 2155(a)(2) of this title and there shall be no congressional review pursuant to section 2157 of this title with respect to that state until the first such license or authorization which is issued after twelve months from the elapse of the sixty-day period in which the agreement for cooperation in question is reviewed by the Congress.
