§ 838a. Definitions

As used in this chapter—

(a) The term “Administrator” means the Administrator, Bonneville Power Administration.

(b) The term “electric peaking capacity or electric energy, or both.”

(c) The term “major transmission facilities” means transmission facilities intended to be used to provide services not previously provided by the Bonneville Power Administration with its own facilities.

TRANSFER OF FUNCTIONS

Functions of Secretary of the Interior with respect to Bonneville Power Administration transferred to Secretary of Energy by section 7152(a)(1)(D), (2) of Title 42, The Public Health and Welfare, with Bonneville Power Administration.

REFERENCES IN TEXT

Public Law 88–552, referred to in subsec. (a), is act Aug. 31, 1964, 78 Stat. 756, as amended, which is classified generally to chapter 12F (§837 et seq.) of this title. For complete classification of this Act to the Code, see Tables.

Public Law 88–552, referred to in subsec. (a), is act Aug. 31, 1964, 78 Stat. 756, as amended, which is classified generally to chapter 12F (§837 et seq.) of this title. For complete classification of this Act to the Code, see Tables.

Administration to be preserved as a distinct organizational entity within Department of Energy and headed by an Administrator.

§ 838b. Operation and maintenance of Federal transmission system; construction of improvements, betterments, additions and replacements; criteria

The Secretary of Energy, acting by and through the Administrator, shall operate and maintain the Federal transmission system within the Pacific Northwest and shall construct improvements, betterments, and additions to and replacements of such system within the Pacific Northwest as he determines are appropriate and required to:

(a) integrate and transmit the electric power from existing or additional Federal or non-Federal generating units;
(b) provide service to the Administrator's customers;
(c) provide interregional transmission facilities; or
(d) maintain the electrical stability and electrical reliability of the Federal system: Provided, however, That the Administrator shall not construct any transmission facilities outside the Pacific Northwest, excepting customer service facilities within any contiguous areas, not in excess of seventy-five airline miles from said region, which are a part of the service area of a distribution cooperative which has (i) no generating facilities, and (ii) a distribution system from which it serves both within and without said region, nor shall he commence construction of any major transmission facility within the Pacific Northwest, unless the expenditure of the funds for the initiation of such construction is specifically approved by Act of Congress.

Transfer of Functions

“Secretary of Energy” substituted in text for “Secretary of the Interior” pursuant to Pub. L. 95–91, § 302(a)(1)(D), which is classified to section 7152(a)(1)(D) of Title 42, The Public Health and Welfare.

§ 838c. Acquisition by condemnation of transmission facilities

(a) Approval by Congress; exceptions

Unless specifically authorized by Act of Congress, the Administrator shall not expend funds made available under this chapter, other than funds specifically appropriated by the Congress for such purpose, to acquire any operating transmission facility by condemnation: Provided, That this provision shall not restrict the acquisition of the right to cross such a facility by condemnation.

(b) Notice of request for approval for construction or condemnation to contracting or interconnected entities in Pacific Northwest

At least sixty days prior to the time a request for approval or authority under this section or section 838b of this title is sent to Congress, the Administrator shall give notice of such request to entities in the Pacific Northwest with which the Administrator has power sales or exchange contracts or transmission contracts or which have a transmission interconnection with the Federal transmission system.

Transfer of Functions

Functions of Secretary of the Interior with respect to Bonneville Power Administration transferred to Secretary of Energy by section 7152(a)(1)(D), (2) of Title 42, The Public Health and Welfare, with Bonneville Power Administration to be preserved as a distinct organizational entity within Department of Energy and headed by an Administrator.

§ 838d. Transmission of non-Federal power

The Administrator shall make available to all utilities on a fair and nondiscriminatory basis, any capacity in the Federal transmission system which he determines to be in excess of the capacity required to transmit electric power generated or acquired by the United States.

Transfer of Functions

Functions of Secretary of the Interior with respect to Bonneville Power Administration transferred to Secretary of Energy by section 7152(a)(1)(D), (2) of Title 42, The Public Health and Welfare, with Bonneville Power Administration to be preserved as a distinct organizational entity within Department of Energy and headed by an Administrator.

§ 838e. Acquisition of property

Subject to the provisions of section 838c of this title the Administrator may purchase or lease or otherwise acquire and hold such real and personal property in the name of the United States as he deems necessary or appropriate to carry out his duties pursuant to law.

Transfer of Functions

Functions of Secretary of the Interior with respect to Bonneville Power Administration transferred to Secretary of Energy by section 7152(a)(1)(D), (2) of Title 42, The Public Health and Welfare, with Bonneville Power Administration to be preserved as a distinct organizational entity within Department of Energy and headed by an Administrator.

§ 838f. Marketing of Federal power; sales agent

The Administrator is hereby designated as the marketing agent for all electric power generated by Federal generating plants in the Pacific Northwest, constructed by, under construction by, or presently authorized for construction by the Bureau of Reclamation or the United States Corps of Engineers except electric power required for the operation of each Federal project and except electric power from the Green Springs project of the Bureau of Reclamation.

Transfer of Functions

Functions of Secretary of the Interior with respect to Bonneville Power Administration transferred to Secretary of Energy by section 7152(a)(1)(D), (2) of Title 42, The Public Health and Welfare, with Bonneville Power Administration to be preserved as a distinct organizational entity within Department of Energy and headed by an Administrator.
Power marketing functions of Bureau of Reclamation, including construction, operation, and maintenance of transmission lines and attendant facilities, transferred to Secretary of Energy by section 7152a(a)(1)(D), (3) of Title 42, and are to be exercised by Secretary through a separate Administration within Department of Energy.

§ 838g. Schedules of rates and charges for sale of Federal power and transmission of non-Federal power; confirmation and approval; criteria for modification and establishment

Schedules of rates and charges for the sale, including dispositions to Federal agencies, of all electric power made available to the Administrator pursuant to section 838f of this title or otherwise acquired, and for the transmission of non-Federal electric power over the Federal transmission system, shall become effective upon confirmation and approval thereof by the Secretary of Energy. Such rate schedules may be modified from time to time by the Secretary of Energy, acting by and through the Administrator, subject to confirmation and approval by the Secretary of Energy, and shall be fixed and established (1) with a view to encouraging the widest possible diversified use of electric power at the lowest possible rates to consumers consistent with sound business principles, (2) having regard to the recovery (upon the basis of the application of such rate schedules to the capacity of the electric facilities of the projects) of the cost of producing and transmitting such electric power, including the amortization of the capital investment allocated to power over a reasonable period of years and payments provided for in section 838i(b)(9) of this title, and (3) at levels to produce such additional revenues as may be required, in the aggregate with all other revenues of the Administrator, to pay when due the principal of, premiums, discounts, and expenses in connection with the issuance of and receipts, collections, and recoveries of the Administrator in cash from all sources, including trust funds, (2) all proceeds derived from the sale of bonds by the Administrator, (3) any appropriations made by the Congress for the fund, and (4) the following funds which are hereby transferred to the Administrator: (i) all moneys in the special account in the Treasury established pursuant to Executive Order Numbered 8526 dated August 26, 1940, (ii) the unexpended balances in the continuing fund established by the provisions of section 832 of this title, and (iii) the unexpended balances of funds appropriated or otherwise made available for the Bonneville Power Administration. All funds transferred hereunder shall be available for expenditure by the Secretary of Energy, acting by and through the Administrator, as authorized in this chapter and any other Act relating to the Federal Columbia River transmission system, subject to such limitations as may be prescribed by any applicable appropriation act effective during such period as may elapse between their transfer and the approval by the Congress of the first subsequent annual budget program of the Administrator.

(b) Authorized purposes of expenditures

The Administrator may make expenditures from the fund, which shall have been included in his annual budget submitted to Congress, without further appropriation and without fiscal year limitation, but within such specific directives or limitations as may be included in appropriation acts, for any purpose necessary or appropriate to carry out the duties imposed upon the Administrator pursuant to law, including but not limited to—

(1) construction, acquisition, and replacement of (i) the transmission system, including facilities and structures appurtenant thereto, and (ii) additions, improvements, and betterments thereto (hereinafter in this chapter referred to as “transmission system”);

(2) operation, maintenance, repair, and relocation, to the extent such relocation is not provided for under subsection (1) above, of the transmission system;
§ 838i

1. So in original. The word "or" probably should not appear.

(c) Restriction on use of expenditures to authorized purposes; expenditures of moneys received in trust; applicability of provisions relating to control of Government corporations

Moneys heretofore or hereafter appropriated shall be used only for the purposes for which appropriated, and moneys received by the Administrator in trust shall be used only for carrying out such trust. The provisions of chapter 91 of title 31 shall be applicable to the Administrator in the same manner as they are applied to the wholly owned Government corporations named in section 9101 of title 31, but nothing in section 9105(d)2 of title 31 shall be construed as affecting the powers granted in subsection (b)(11) of this section and in sections 832a(f), 832i(b), and 832k(a) of this title.

(d) Audit of financial transactions by Comptroller General; report to Congress

Notwithstanding the provisions of sections 9105 and 9106 of title 31, the financial transactions of the Administrator shall be audited by the Comptroller General at such times and to such extent as the Comptroller General deems necessary, and reports of the results of each such audit shall be made to the Congress within 6½ months following the end of the fiscal year covered by the audit.

which is classified to section 7152(a)(1)(D) of Title 42, The Public Health and Welfare.

Functions of Secretary of the Interior with respect to Bonneville Power Administration transferred to Secretary of Energy by section 7152(a)(1)(D), (2) of Title 42, with Bonneville Power Administration to be preserved as a distinct organizational entity within Department of Energy and headed by an Administrator.

**AUTHORITY TO INCUR OBLIGATIONS IN EXCESS OF APPROPRIATIONS AND CASH IN FUND**

Pub. L. 100–371, title III, July 19, 1988, 102 Stat. 869, provided that: “Without fiscal year limitation, the Bonneville Power Administration continues to be authorized to incur obligations for authorized purposes and may do so in excess of borrowing authority and cash in the Bonneville Power Administration Fund.

§ 838j. Investment of excess moneys; deposit of moneys

(a) If the Administrator determines that moneys in the fund are in excess of current needs he may request the investment of such amounts as he deems advisable by the Secretary of the Treasury in direct, general obligations of, or obligations guaranteed as to both principal and interest by, the United States of America.

(b) With the approval of the Secretary of the Treasury, the Administrator may deposit moneys of the fund in any Federal Reserve bank or other depository for funds of the United States of America, or in such other banks and financial institutions and under such terms and conditions as the Administrator and the Secretary of the Treasury may mutually agree.

§ 838k. Bonneville Power Administration bonds

(a) Issuance and sale; terms and conditions; interest rate; limitation on aggregate principal amount outstanding

The Administrator is authorized to issue and sell to the Secretary of the Treasury from time to time in the name and for and on behalf of the Bonneville Power Administration bonds, notes, and other evidences of indebtedness (in this chapter collectively referred to as “bonds”) to assist in financing the construction, acquisition, and replacement of the transmission system, to implement the Administrator’s authority pursuant to the Pacific Northwest Electric Power Planning and Conservation Act [16 U.S.C. 839 et seq.] (including his authority to provide financial assistance for conservation measures, renewable resources, and fish and wildlife, but not including the authority to acquire under section 6 of that Act [16 U.S.C. 839d]) electric power from a generating facility having a planned capability greater than 50 average megawatts), and to issue and sell bonds to refund such bonds. Such bonds shall be in such forms and denominations, bear such maturities, and be subject to such terms and conditions as may be prescribed by the Secretary of the Treasury taking into consideration the current average market yield on outstanding marketable obligations of the United States of comparable maturities, plus an amount in the judgment of the Secretary of the Treasury to provide for a rate comparable to the rates prevailing in the market for similar bonds issued by Government corporations. Beginning in fiscal year 1982, if the Administrator fails to repay by the end of any fiscal year all of the amounts projected immediately prior to such year to be repaid to the Treasury by the end of such year under the repayment criteria of the Secretary of Energy and if such failure is due to reasons other than (A) a decrease in power sale revenues due to fluctuating streamflows or (B) other reasons beyond the control of the Administrator, the Secretary of the Treasury may increase the interest rate applicable to the outstanding bonds issued by the Administrator during such fiscal year. Such increase shall be effective commencing with the fiscal year immediately following the fiscal year during which such failure occurred and shall not exceed 1 percent for each such fiscal year during which such repayments are not in accord with such criteria. The Secretary of the Treasury shall take into account amounts that the Administrator has repaid in advance of any repayment criteria in determining whether to increase such rate. Before such rate is increased, the Secretary of the Treasury, in consultation with the Administrator and the Federal Energy Regulatory Commission, must be satisfied that the Administrator will have the ability to pay such increased rate, taking into account the Administrator’s obligations. Such increase shall terminate with the fiscal year in which repayments (including repayments of the increased rate) are in accordance with the repayment criteria of the Secretary of Energy. The aggregate principal amount of any such bonds outstanding at any one time shall not exceed $1,250,000,000 prior to October 1, 1981. Such aggregate principal limitation shall be increased by an additional $1,250,000,000 after October 1, 1981, as provided in advance in annual appropriation Acts, and such increased amount shall be reserved for the purpose of providing funds for conservation and renewable resource loans and grants under a special revolving account created therefor in the Fund. The funds from such revolving account shall not be deemed State or local funds.

(b) Payment of principal, premiums, and interest from net proceeds; “net proceeds” defined

The principal of, premiums, if any, and interest on such bonds shall be payable solely from the Administrator’s net proceeds as hereinafter defined. “Net proceeds” shall mean for the purposes of this section the remainder of the Administrator’s gross receipts from all sources after first deducting trust funds and the costs listed in section 838j(b)(2) through (b)(7), (b)(11), and (b)(12) of this title, and shall include reserve or other funds created from such receipts.

(c) Purchase and sale by Secretary of the Treasury; public debt transactions

The Secretary of the Treasury shall purchase forthwith any bonds issued by the Administrator under this chapter and for that purpose is authorized to use as a public debt transaction
the proceeds from the sale of any securities issued under chapter 31 of title 31, as now or hereafter in force, and the purposes for which securities may be issued under chapter 31 of title 31, as now or hereafter in force, are extended to include any purchases of the bonds issued by the Administrator under this chapter. The Secretary of the Treasury may, at any time, sell any of the bonds acquired by him under this chapter. All redemptions, purchases, and sales by the Secretary of the Treasury of such bonds shall be treated as public debt transactions of the United States.

CODIFICATION

AMENDMENTS
1980—Subsec. (a). Pub. L. 96–501, §8(d), inserted provision relating to the implementation of the Administrator’s authority pursuant to the Pacific Northwest Electric Power Planning and Conservation Act, inserted “issued by Government corporations” after “rates prevailing in the market for similar bonds”, increased the existing $1,250,000,000 aggregate principal limitation by an additional $1,250,000,000 after Oct. 1, 1981, to be used to provide funds for conservation and renewable resource loans and grants in a special revolving account created for that purpose, and inserted provision that, beginning in fiscal year 1982, if the Administrator fails to repay by the end of any fiscal year all of the amounts projected immediately prior to that year to be repaid to the Treasury by the end of that year under the repayment criteria of the Secretary of Energy and if that failure is due to reasons other than a decrease in power sales revenue due to fluctuating streamflows or other reasons beyond the control of the Administrator, the Secretary of the Treasury may increase the interest rate applicable to the outstanding bonds issued by the Administrator during that fiscal year.

Subsec. (b). Pub. L. 96–501, §8(c), substituted “(b)(11), and (b)(32)” of this title,” for ““and (b)(11) of this title,””.

EFFECTIVE DATE OF 1980 AMENDMENT

TRANSFER OF FUNCTIONS
Functions of Secretary of the Interior with respect to Bonneville Power Administration transferred to Secretary of Energy by section 7152(a)(1)(D), (2) of Title 42, The Public Health and Welfare, with Bonneville Power Administration to be preserved as a distinct organizational entity within Department of Energy and headed by an Administrator.

§838i. Bonneville Power Administration refi nancing

(a) Definitions
For the purposes of this section—

(1) “Administrator” means the Administrator of the Bonneville Power Administration;
(2) “capital investment” means a capitalized cost funded by Federal appropriations that—
(A) is for a project, facility, or separable unit or feature of a project or facility;
(B) is a cost for which the Administrator is required by law to establish rates to repay to the United States Treasury through the sale of electric power, transmission, or other services;
(C) excludes a Federal irrigation investment; and
(D) excludes an investment financed by the current revenues of the Administrator or by bonds issued and sold, or authorized to be issued and sold, by the Administrator under section 838k of this title;
(3) “new capital investment” means a capital investment for a project, facility, or separable unit or feature of a project or facility, placed in service after September 30, 1996;
(4) “old capital investment” means a capital investment the capitalized cost of which—
(A) was incurred, but not repaid, before October 1, 1996, and
(B) was for a project, facility, or separable unit or feature of a project or facility, placed in service before October 1, 1996;
(5) “repayment date” means the end of the period within which the Administrator’s rates are to assure the repayment of the principal amount of a capital investment; and
(6) “Treasury rate” means—
(A) for an old capital investment, a rate determined by the Secretary of the Treasury, taking into consideration prevailing market yields, during the month preceding October 1, 1996, on outstanding interest-bearing obligations of the United States with periods to maturity comparable to the period between October 1, 1996, and the repayment date for the old capital investment; and
(B) for a new capital investment, a rate determined by the Secretary of the Treasury, taking into consideration prevailing market yields, during the month preceding the beginning of the fiscal year in which the related project, facility, or separable unit or feature is placed in service, on outstanding interest-bearing obligations of the United States with periods to maturity comparable to the period between the beginning of the fiscal year and the repayment date for the new capital investment.

(b) New principal amounts

(1) Principal amount
Effective October 1, 1996, an old capital investment has a new principal amount that is the sum of—
(A) the present value of the old payment amounts for the old capital investment, calculated using a discount rate equal to the Treasury rate for the old capital investment; and
(B) an amount equal to $100,000,000 multiplied by a fraction whose numerator is the principal amount of the old payment

§838j. Bonneville Power Administration refi nancing
amounts for the old capital investment and whose denominator is the sum of the principal amounts of the old payment amounts for all old capital investments.

(2) Determination

With the approval of the Secretary of the Treasury based solely on consistency with this section, the Administrator shall determine the new principal amounts under subsection (b) of this section and the assignment of interest rates to the new principal amounts under subsection (c) of this section.

(3) Old payment amounts

For the purposes of this subsection, “old payment amounts” means, for an old capital investment, the annual interest and principal that the Administrator would have paid to the United States Treasury from October 1, 1994, if this section had not been enacted, assuming that—

(A) the principal were repaid—
   (i) on the repayment date the Administrator assigned before October 1, 1994, to the old capital investment, or
   (ii) with respect to an old capital investment for which the Administrator has not assigned a repayment date before October 1, 1994, on a repayment date the Administrator shall assign to the old capital investment in accordance with paragraph 18(d)(1) of the version of Department of Energy Order RA 6120.2 in effect on October 1, 1994; and
(B) interest were paid—
   (i) at the interest rate the Administrator assigned before October 1, 1994, to the old capital investment, or
   (ii) with respect to an old capital investment for which the Administrator has not assigned an interest rate before October 1, 1994, at a rate determined by the Secretary of the Treasury, taking into consideration prevailing market yields, during the month preceding the beginning of the fiscal year in which the related project, facility, or separable unit or feature is placed in service, on outstanding interest-bearing obligations of the United States with periods to maturity comparable to the period between the beginning of the fiscal year and the repayment date for the old capital investment.

(c) Interest rate for new principal amounts

As of October 1, 1996, the unpaid balance on the new principal amount established for an old capital investment under subsection (b) of this section bears interest annually at the Treasury rate for the old capital investment until the earlier of the date that the new principal amount is repaid or the repayment date for the new principal amount.

(d) Repayment dates

As of October 1, 1996, the repayment date for the new principal amount established for an old capital investment under subsection (b) of this section is no earlier than the repayment date for the old capital investment assumed in subsection (b)(3)(A) of this section.

(e) Prepayment limitations

During the period October 1, 1996, through September 30, 2001, the total new principal amounts of old capital investments, as established under subsection (b) of this section, that the Administrator may pay before their respective repayment dates shall not exceed $100,000,000.

(f) Interest rates for new capital investments during construction

(1) New capital investment

The principal amount of a new capital investment includes interest in each fiscal year of construction of the related project, facility, or separable unit or feature at a rate equal to the one-year rate for the fiscal year on the sum of—

(A) construction expenditures that were made from the date construction commenced through the end of the fiscal year, and
(B) accrued interest during construction.

(2) Payment

The Administrator is not required to pay, during construction of the project, facility, or separable unit or feature, the interest calculated, accrued, and capitalized under subsection (f)(1) of this section.

(3) One-year rate

For the purposes of this section, “one-year rate” for a fiscal year means a rate determined by the Secretary of the Treasury, taking into consideration prevailing market yields, during the month preceding the beginning of the fiscal year, on outstanding interest-bearing obligations of the United States with periods to maturity of approximately one year.

(g) Interest rates for new capital investments

The unpaid balance on the principal amount of a new capital investment bears interest at the Treasury rate for the new capital investment from the date the related project, facility, or separable unit or feature is placed in service until the earlier of the date the new capital investment is repaid or the repayment date for the new capital investment.

(h) Omitted

(i) Contract provisions

In each contract of the Administrator that provides for the Administrator to sell electric power, transmission, or related services, and that is in effect after September 30, 1996, the Administrator shall offer to include, or as the case may be, shall offer to amend to include, provisions specifying that after September 30, 1996—

(1) the Administrator shall establish rates and charges on the basis that—
   (A) the principal amount of an old capital investment shall be no greater than the new principal amount established under subsection (b) of this section;
   (B) the interest rate applicable to the unpaid balance of the new principal amount of an old capital investment shall be no greater than the interest rate established under subsection (c) of this section;
(C) any payment of principal of an old capital investment shall reduce the outstanding principal balance of the old capital investment in the amount of the payment at the time the payment is tendered; and

(D) any payment of interest on the unpaid balance of the new principal amount of an old capital investment shall be a credit against the appropriate interest account in the amount of the payment at the time the payment is tendered;

(2) apart from charges necessary to repay the new principal amount of an old capital investment as established under subsection (b) of this section and to pay the interest on the principal amount under subsection (c) of this section, no amount may be charged for return to the United States Treasury as repayment for or return on an old capital investment, whether by way of rate, rent, lease payment, assessment, user charge, or any other fee;

(3) amounts provided under section 1304 of title 31 shall be available to pay, and shall be the sole source for payment of, a judgment against or settlement by the Administrator or the United States on a claim for a breach of the contract provisions required by this Part; and

(4) the contract provisions specified in this Part do not—

(A) preclude the Administrator from recovering, through rates or other means, any tax that is generally imposed on electric utilities in the United States, or

(B) affect the Administrator’s authority under applicable law, including section 838(e) of this title, to—

(i) allocate costs and benefits, including but not limited to fish and wildlife costs, to rates or resources, or

(ii) design rates.

(j) Savings provisions

(1) Repayment

This section does not affect the obligation of the Administrator to repay the principal associated with each capital investment, and to pay interest on the principal, only from the “Administrator’s net proceeds,” as defined in section 838k(b) of this title.

(2) Payment of capital investment

Except as provided in subsection (e) of this section, this section does not affect the authority of the Administrator to pay all or a portion of the principal amount associated with a capital investment before the repayment date for the principal amount.

CODIFICATION

Section was enacted as part of the Omnibus Consolidated Rescissions and Appropriations Act of 1996, and not as part of the Federal Columbia River Transmission System Act which comprises this chapter.

Section is comprised of section 3201 of Pub. L. 104–134. Subsec. (c) of section 3201 of Pub. L. 104–134 amended section 6 of Pub. L. 103–436, which is not classified to the Code.

1 So in original. Probably should be “section,” or “section.”
