The Federal Government shall recognize and manage the historic properties in its ownership as assets that can support department and agency missions while contributing to the vitality and economic well-being of America’s heritage by actively advancing the property management needs of such properties, and the steps underway or planned to meet those management needs. The administration shall also include an evaluation of the compatibility of the agency’s types of historic properties to contribute to community economic development initiatives, including heritage tourism, taking into account agency mission needs, public access considerations, and the long-term preservation of the historic properties. § 471i. Pinelands National Reserve

(a) Congressional findings

The Congress finds that—

(1) the Pinelands area in New Jersey, containing approximately 1,000,000 acres of pine-oak forest, extensive surface and ground water resources of high quality, and a wide diversity of rare plant and animal species, provides significant ecological, natural, cultural, recreational, educational, agricultural, and public health benefits;

(2) there is a national interest in protecting and preserving these benefits for the residents of and visitors to the area;

(3) a primary responsibility for protecting and enhancing these benefits resides with the State of New Jersey and the various local units of government having jurisdiction over the area;

(4) in view of the longstanding Federal practice of assisting the States in creating, pro-

tecting, preserving, and enhancing areas of significant regional and urban importance, and in view of the national significance of this resource, the Federal Government has an interest in assisting the State of New Jersey and its local units of government in fulfilling their responsibilities and in avoiding adverse Federally approved or assisted impacts before these responsibilities can be undertaken;

(5) the State of New Jersey and its local units of government have authority to prevent or minimize adverse uses of the land and water resources of the Pinelands area and can, to a great extent, protect the health, safety, and general welfare by the use of such authority; and

(6) there is a demonstrated need to protect, preserve and enhance the land and water resources of the Pinelands area through a new program which combines the capabilities and resources of the local, State and Federal governments and the private sector and provides an alternative to large-scale direct Federal acquisition and management in cases where such acquisition and management is inappropriate.

(b) Purposes

The purposes of this section are—

(1) to protect, preserve and enhance the significant values of the land and water resources of the Pinelands area;

(2) to encourage and assist the State of New Jersey and its local units of government in the development of a comprehensive management plan for the Pinelands area in order to assure orderly public and private development in the area consistent with the findings of this section;

(3) to provide, during the development of this comprehensive plan, Federal financial assistance for the acquisition of lands in the Pinelands area that have critical ecological values which are in immediate danger of being adversely affected or destroyed;

(4) to encourage and assist the State and its local units of local government in developing a governmental mechanism to implement this comprehensive plan, and to provide Federal financial assistance for the acquisition of lands consistent with the comprehensive plan;

(5) to encourage adequate coordination of all government programs affecting the land and water resources of the Pinelands area.

(c) Pinelands National Reserve and Federal Project Review Area; establishment; map, availability

There is hereby established the Pinelands National Reserve which shall consist of the approximately 1,000,000-acre area generally depicted on the map entitled “Pinelands National Reserve Boundary Map” numbered NPS/80.011A and dated September 1978. Within the Pinelands National Reserve, there is hereby established the Federal Project Review Area, which shall consist of the approximately 486,000 acre area also depicted on the map. The map shall be on file and available for public inspection in the offices of the Department of the Interior in Washington, and in the offices of the State of New Jersey planning entity established pursuant to subsection (d) of this section, and in locations throughout the Pinelands National Reserve as determined by the planning entity.

This section is the sole authorization for the acquisition of such property, which is the subject of the Agreement dated September 28, 1996 between the United States of America (hereinafter “United States”), the State of California, MAXXAM, Inc., and the Pacific Lumber Company. Of the entire Elk River Property, the United States and the State of California are to retain approximately 1,125 acres and transfer the remaining approximately 7,755 acres of Elk River Property to the Pacific Lumber Company. Any funds appropriated by the Federal Government to acquire lands or interests in lands that enlarge the Headwaters Forest by more than five acres per each acquisition shall be subject to specific authorization enacted subsequent to this Act, except that such funds may be used pursuant to existing authorities to acquire such lands up to five acres per each acquisition or interests in
lands that may be necessary for roadways to provide access to the Headwaters Forest.

(b) Effective period of authorization

The authorization in subsection (a) of this section expires March 1, 1999 and shall become effective only—

United States, No. 96-257L (Fed. Cls.) and Salmon Creek Corp. v. California Board of Forestry, No. 96-CS-1057 (Cal. Super. Ct.);
(4) when the incidental take permit under section 10(a) of the Endangered Species Act [16 U.S.C. 1539(a)] (based upon a multispecies Habitat Conservation Plan covering Pacific Lumber Company timber property, including applicable portions of the Elk River Property) is issued by the United States Fish and Wildlife Service and the National Marine Fisheries Service;
(5) after an appraisal of all lands and interests therein to be acquired by the United States has been undertaken, such appraisal shall be reviewed for a period not to exceed 30 days by the Comptroller General of the United States, and such appraisal has been provided to the Committee on Resources of the House of Representatives, the Committee on Energy and Natural Resources of the Senate, and the Committees on Appropriations of the House and Senate;
(6) after the Secretary of the Interior issues an opinion of value to the Committee on Resources of the House of Representatives, the Committee on Energy and Natural Resources of the Senate, and the Committees on Appropriations of the House and Senate.
(7) after the Secretary of the Interior issues an opinion of value to the Committee on Resources of the House of Representatives, the Committee on Energy and Natural Resources of the Senate, and the Committees on Appropriations of the House and Senate for the land and property to be acquired by the Federal Government. Such opinion of value shall also include the total value of all compensation (including tax benefits) proposed to be provided for the acquisition;
(8) when adequate provision has been made for public access to the property.

(c) Acquisition

Notwithstanding any other provision of law, the amount paid by the United States to acquire identified lands and interests in lands referred to in subsection (a) of this section may differ from the value contained in the appraisal required by subsection (b)(5) of this section if the Secretary of the Interior certifies, in writing, to Congress that such action is in the best interest of the United States.

(d) Habitat conservation plan

(1) Applicable standards

Within 60 days after November 14, 1997, the Secretary of the Interior and the Secretary of Commerce shall report to the Committee on Energy and Natural Resources of the Senate and the Committee on Resources of the House of Representatives on the scientific and legal standards and criteria for threatened, endangered, and candidate species under the Endangered Species Act [16 U.S.C. 1531 et seq.] and any other species used to develop the habitat conservation plan (hereinafter “HCP”) and the section 10(a) [16 U.S.C. 1539(a)] incidental take permit for the Pacific Lumber Company land.

(2) Report

If the Pacific Lumber Company submits an application for an incidental take permit under section 10(a) of the Endangered Species Act [16 U.S.C. 1539(a)] for the transaction authorized by subsection (a) of this section, and the permit is not issued, then the United States Fish and Wildlife Service and the National Marine Fisheries Service shall set forth the substantive rationale or rationales for why the measures proposed by the applicant for such permit did not meet the issuance criteria for the species at issue. Such report shall be submitted to the Congress within 60 days of the decision not to issue such permit or by May 1, 1999, whichever is earlier.

(3) HCP standards

If a section 10(a) permit for the Pacific Lumber Company HCP is issued, it shall be deemed to be unique to the circumstances associated with the acquisition authorized by this section and shall not establish a higher or lesser standard for any other multispecies HCPs than would otherwise be established under existing law.

For the purpose of achieving the policies set forth in the Multiple-Use Sustained-Yield Act of 1960 (74 Stat. 215; 16 U.S.C. 528–531) and the Forest and Rangeland Renewable Resources Planning Act of 1974 (88 Stat. 476) (16 U.S.C. 1600 et seq.), the Secretary of Agriculture, under such rules and regulations as he may prescribe, may sell, at not less than the appraised value, trees, portions of trees, or forest products located on National Forest System lands.

(b) Designation on map; prospectus
All advertised timber sales shall be designated on maps, and a prospectus shall be available to the public and interested potential bidders.

(c) Terms and conditions of contract
The length and other terms of the contract shall be designed to promote orderly harvesting consistent with the principles set out in section 6 of the Forest and Rangeland Renewable Resources Planning Act of 1974, as amended (16 U.S.C. 1604). Unless there is a finding by the Secretary of Agriculture that better utilization of the various forest resources (consistent with the provisions of the Multiple-Use Sustained-Yield Act of 1960 (16 U.S.C. 528–531)) will result, sales contracts shall be for a period not to exceed ten years: Provided, That such period may be adjusted at the discretion of the Secretary to provide additional time due to time delays caused by an act of an agent of the United States or by other circumstances beyond the control of the purchaser. The Secretary shall require the purchaser to file as soon as practicable after execution of a contract for any advertised sale with a term of two years or more, a plan of operation, which shall be subject to concurrence by the Secretary. The Secretary shall not extend any contract period with an original term of two years or more unless he finds (A) that the purchaser has diligently performed in accordance with an approved plan of operation or (B) that the substantial overriding public interest justifies the extension.

(d) Advertisement of sales; exceptions
The Secretary of Agriculture shall advertise all sales unless he determines that extraordinary conditions exist, as defined by regulation, or that the appraised value of the sale is less than $10,000. If, upon proper offering, no satisfactory bid is received for a sale, or the bidder fails to complete the purchase, the sale may be offered and sold without further advertisement.

(e) Bidding methods; purposes; oral auction procedures; monitoring and enforcement for prevention of collusive practices
(1) In the sale of trees, portions of trees, or forest products from National Forest System lands (hereinafter referred to in this subsection as “national forest materials”), the Secretary of Agriculture shall select the bidding method or methods which—
(A) insure open and fair competition;
(B) insure that the Federal Government receive not less than the appraised value as required by subsection (a) of this section;
(C) consider the economic stability of communities whose economies are dependent on such national forest materials, or achieve such other objectives as the Secretary deems necessary; and

The Secretary shall select or alter the bidding method or methods as he determines necessary to achieve the objectives stated in clauses (A), (B), (C), and (D) of this paragraph.

(2) In those instances when the Secretary selects oral auction as the bidding method for the sale of any national forest materials, he shall require that all prospective purchasers submit written sealed qualifying bids. Only prospective purchasers whose written sealed qualifying bids are equal to or in excess of the appraised value of such national forest materials may participate in the oral bidding process.

(3) The Secretary shall monitor bidding patterns involved in the sale of national forest materials. If the Secretary has a reasonable belief that collusive bidding practices may be occurring, then—

(A) he shall report any such instances of possible collusive bidding or suspected collusive bidding practices to the Attorney General of the United States with any and all supporting data;
(B) he may alter the bidding methods used within the affected area; and
(C) he shall take such other action as he deems necessary to eliminate such practices within the affected area.

(f) Research and demonstration projects

The Secretary of Agriculture, under such rules and regulations as he may prescribe, is authorized to dispose of, by sale or otherwise, trees, portions of trees, or other forest products related to research and demonstration projects.

(g) Designation, marking, and supervision of harvesting personnel

Designation, marking when necessary, and supervision of harvesting of trees, portions of trees, or forest products shall be conducted by persons employed by the Secretary of Agriculture. Such persons shall have no personal interest in the purchase or harvest of such products and shall not be directly or indirectly in the employment of the purchaser thereof.

(h) Utilization standards, methods of measurement, and harvesting practices; monetary deposits by purchasers of salvage harvests; nature, purposes and availability of designated surplus as surplus to Treasury

The Secretary of Agriculture shall develop utilization standards, methods of measurement, and harvesting practices for the removal of trees, portions of trees, or forest products to provide for the optimum practical use of the wood material. Such standards, methods, and practices shall reflect consideration of opportunities to promote more effective wood utilization, regional conditions, and species characteristics and shall be compatible with multiple use resource management objectives in the affected area. To accomplish the purpose of this subsection in situations involving salvage of insect-infested, dead, damaged, or down timber, and to remove associated trees for stand improvement, the Secretary is authorized to require the purchasers of such timber to make monetary deposits, as a part of the payment for the timber, to be deposited in a designated fund from which sums are to be used, to cover the cost to the United States for design, engineering, and supervision of the construction of needed roads and the cost for Forest Service sale preparation and supervision of the harvesting of such timber. Deposits of money pursuant to this subsection are to be available until expended to cover the cost to the United States of accomplishing the purposes for which deposited: Provided, That such deposits shall not be considered as moneys received from the national forests within the meaning of sections 500 and 501 of this title: And provided further, That sums found to be in excess of the cost of accomplishing the purposes for which deposited on any national forest shall be transferred to miscellaneous receipts in the Treasury of the United States.

(i) Purchaser credit for permanent road construction; right of election of small business concerns; estimated cost; date of completion; use of funds for construction; effective date

(1) For sales of timber which include a provision for purchaser credit for construction of permanent roads with an estimated cost in excess of $20,000, the Secretary of Agriculture shall promulgate regulations requiring that the notice of sale afford timber purchasers qualifying as “small business concerns” under the Small Business Act, as amended [15 U.S.C. 631 et seq.], and the regulations issued thereunder, an estimate of the cost and the right, when submitting a bid, to elect that the Secretary build the proposed road.

(2) If the purchaser makes such an election, the price subsequently paid for the timber shall include all of the estimated cost of the road. In the notice of sale, the Secretary of Agriculture shall set a date when such road shall be completed which shall be applicable to either construction by the purchaser or the Secretary, depending on the election. To accomplish requested work, the Secretary is authorized to use from any receipts from the sale of timber a sum equal to the estimate for timber purchaser credits, and such additional sums as may be appropriated for the construction of roads, such funds to be available until expended, to construct a road that meets the standards specified in the notice of sale.

(3) The provisions of this subsection shall become effective on October 1, 1976.

The Small Business Act, referred to in subsec. (i)(1), is Pub. L. 95-526, § 211 et seq., July 18, 1978, 92 Stat. 2349, which is classified generally to chapter 14A (§ 631 et seq.) of Title 15, Commerce and Trade. L. 102-486, set out as an Abolition of Office of Federal Inspector note under section 719e of Title 15, Commerce and Trade. Functions and authority vested in Secretary of Energy subsequently transferred to Federal Coordinator for Alaska Natural Gas Transportation Projects by section 720d(c) of Title 15.

Nothing in sections 473 to 478, 479 to 482 and 551 of this title shall be construed as prohibiting the egress or ingress of actual settlers residing within the boundaries of national forests, or from crossing the same to and from their property or homes; and such wagon roads and other improvements may be constructed thereon as may be necessary to reach their homes and to utilize their property under such rules and regulations as may be prescribed by the Secretary of Agriculture. Nor shall anything in such sections prohibit any person from entering upon such national forests for all proper and lawful purposes, including that of prospecting, locating, and developing the mineral resources thereof. Such persons must comply with the rules and regulations covering such national forests.

Enforcement functions of Secretary or other official in Department of Agriculture, insofar as they involve lands and programs under jurisdiction of that Department, related to compliance with provisions of sections 473, 474 to 482, and 551 of this title with respect to preconstruction, construction, and initial operation of transportation system for Canadian and Alaskan natural gas transferred to Federal Inspector, Office of Federal Inspector for Alaska Natural Gas Transportation System, until one anniversary of date of initial operations of Alaska Natural Gas Transportation System, see Reorg. Plan No. 1 of 1979, §§102(f), 203(a), 44 F.R. 33683, 33686, 93 Stat. 1373, 1376, effective July 1, 1979, set out in the Appendix to Title 5, Government Organization and Employees, Office of Federal Inspector for the Alaska Natural Gas Transportation System abolished and functions and authority vested in Inspector transferred to Secretary of Energy by section 3012(b) of Pub. Act Feb. 1, 1905, transferred certain functions with regard to administration of public forests from Secretary of the Interior to Secretary of Agriculture.

When the Secretary of Agriculture determines that a tract of National Forest System land in Alaska or in the eleven contiguous Western States is located adjacent to or contiguous to an established community, and that transfer of such land would serve indigenous community objectives that outweigh the public objectives and values which would be served by maintaining such tract in Federal ownership, he may, upon application, set aside and designate as a townsites an area of not to exceed six hundred and forty acres of National Forest System land for any one application. After public notice, and satisfactory showing of need therefor by any county, city, or other local governmental subdivision, the Secretary may offer such area for sale to a governmental subdivision at a price not less than the fair market value thereof: Provided, however. That the Secretary may condition conveyances of townsites upon the enactment, maintenance, and enforcement of a valid ordinance which assures any land so conveyed will be controlled by the governmental subdivision so that use of the area will not interfere with the protection, management, and development of adjacent or contiguous National Forest System lands.

Amendment

1976—Pub. L. 94–579 substituted provisions setting forth the procedures applicable to designation of townsites from any national forest lands or lands administered by the Secretary of Agriculture under the Bankhead-Jones Farm Tenant Act.

Savings Provision

 Amendment by Pub. L. 94–579 not to be construed as terminating any valid lease, permit, patent, etc., existing on Oct. 21, 1976, see note set out under section 1701 of Title 43, Public Lands.

Sections

§ 479. Sites for schools and churches

The settlers residing within the exterior boundaries of national forests, or in the vicinity thereof, may maintain schools and churches within such national forest, and for that purpose may occupy any part of the said national forest, not exceeding two acres for each schoolhouse and one acre for a church.

Amendment

Amendment by Pub. L. 94–579 not to be construed as terminating any valid lease, permit, patent, etc., existing on Oct. 21, 1976, see note set out under section 1701 of Title 43, Public Lands.
(4) the total acreage to be conveyed does not exceed the amount reasonably necessary for the proposed use;

(5) the land is to be used for an established or proposed project that is described in detail in the application to the Secretary, and the conveyance would serve public objectives (either locally or at large) that outweigh the objectives and values which would be served by maintaining such land in Federal ownership;

(6) the applicant is financially and otherwise capable of implementing the proposed project;

(7) the land to be conveyed has been identified for disposal in an applicable land and resource management plan under the Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1600 et seq.); and

(8) an opportunity for public participation in a disposal under this section has been provided, including at least one public hearing or meeting, to provide for public comments.

(b) Acreage limitation

A conveyance under this section may not exceed 80 acres. However, this limitation shall not be construed to preclude an entity from submitting a subsequent application under this section for an additional land conveyance if the entity can demonstrate to the Secretary a need for additional land.

(c) Costs and mineral rights

(1) A conveyance under this section shall be for a nominal cost. The conveyance may not include the transfer of mineral or water rights.

(2) If necessary, the exact acreage and legal description of the real property conveyed under this section shall be determined by a survey satisfactory to the Secretary and the applicant. The cost of the survey shall be borne by the applicant.

(d) Review of applications

When the Secretary receives an application under this section, the Secretary shall—

(1) before the end of the 14-day period beginning on the date of the receipt of the application, provide notice of that receipt to the applicant; and

(2) before the end of the 120-day period beginning on that date—

(A) make a final determination whether or not to convey land pursuant to the application, and notify the applicant of that determination; or

(B) submit written notice to the applicant containing the reasons why a final determination has not been made.

(e) Reversionary interest

If, at any time after lands are conveyed pursuant to this section, the entity to whom the lands were conveyed attempts to transfer title to or control over the lands to another or the lands are devoted to a use other than the use for which the lands were conveyed, title to the lands shall revert to the United States.

§ 480. Civil and criminal jurisdiction

The jurisdiction, both civil and criminal, over persons within national forests shall not be affected or changed by reason of their existence, except so far as the punishment of offenses against the United States therein is concerned; the intent and meaning of this provision being that the State wherein any such national forest is situated shall not, by reason of the establishment thereof, lose its jurisdiction, nor the inhabitants thereof their rights and privileges as citizens, or be absolved from their duties as citizens of the State.

**AMENDMENTS**

1912—Act May 7, 1912, changed provisions of original act as to modes of reimbursement of owners of lands taken.

**TRANSFER OF LANDS IN CALAVERAS BIG TREES NATIONAL FOREST TO STATE OF CALIFORNIA**

"SEC. 1. FINDINGS AND PURPOSE.

"(a) FINDINGS.—The Congress finds and declares that:

"(1) in order to protect certain outstanding examples of ponderosa pine, sugar pine, and giant sequoia trees located in the North and South Calaveras Groves, on the western slope of the Sierra Nevada Mountains, the State of California has established the Calaveras Big Trees State Park;

"(2) for similar purposes, the United States has designated certain adjacent Federal lands, amounting to approximately 397 acres, as the Calaveras Big Trees National Forest; and

"(3) this National Forest (managed as part of the Stanislaus National Forest) is the smallest National Forest in the United States and could be more appropriately and efficiently managed as part of the Calaveras Big Trees State Park.

"(b) PURPOSE.—The purpose of this Act is to improve the management of the lands located in the Calaveras Big Trees National Forest, and to protect certain examples of ponderosa pine, sugar pine, and giant sequoia trees, by unifying the management of the lands in such National Forest and in the California Calaveras Big Trees State Park.

"SEC. 2. LAND CONVEYANCE.

"(a) CONVEYANCE.—Subject to valid existing rights and the provisions of this Act, the Secretary of Agriculture (hereinafter in this Act referred to as the 'Secretary') is authorized and directed to convey all right, title, and interest of the United States in and to lands and interests therein within the Calaveras Big Trees National Forest, as generally depicted on a map numbered 20435 and dated June 5, 1989, prepared by the California Department of Parks and Recreation, to the State of California for inclusion within the Calaveras Big Trees State Park.

"(b) MAP AND DESCRIPTION.—As soon as practicable after the enactment of this Act (Oct. 17, 1990), the Secretary shall submit a map and legal description of the lands referred to in subsection (a) to the Committee on Interior and Insular Affairs [now Committee on Natural Resources] of the United States House of Representatives, and the Committee on Energy and Natural Resources of the Senate. Such map and legal description shall have the same force and effect as if included in this Act, except that any clerical or typographical errors in such map or legal description may be corrected. The Secretary shall place such map and legal description on file, and make them available for public inspection, in the Office of the Chief of the Forest Service.

"(c) CONDITIONS OF CONVEYANCE.—Conveyance of the lands and interests described in subsection (a) of this section shall be subject to the following conditions:

"(1) The conveyance shall take place only if within two years after the date of enactment of this Act (Oct. 17, 1990), there is concluded an agreement between the State of California and the Secretary whereby the State of California agrees to provide to the United States, in exchange for the lands described in subsection (a) and pursuant to terms and conditions which the Secretary deems acceptable, consideration of approximately equal value. Such consideration shall include either lands in California that the Secretary finds suitable for addition to, and are contiguous to, one or more units of the National Forest System, cash payment, or monetary grants awarded to the United States after June 1, 1990, or any combination thereof.

"(2) No harvest of timber (except as may be necessary for the control of fire, insects, or disease) and no mining, mineral leasing, or geothermal exploration or development shall be permitted on such lands.

"(3) Any action by the State of California to convey any portion of such lands or interests to any entity other than the United States shall be void ab initio and shall result in the reversion to the United States of all right, title, and interest in such lands.

"(4) Any action by the State of California to permit the use of any portion of such lands for any purpose prohibited by this subsection or any purpose incompatible with the continued ability of such lands to support ponderosa pine, sugar pine, or giant sequoia trees, shall result in the reversion of all right, title, and interest in such lands to the United States. Any such lands which revert to the United States shall be incorporated into the Stanislaus National Forest and managed to preserve and protect the stands of ponderosa pine, sugar pine, and giant sequoia trees located on such lands.

"(5) The Secretary, acting through the Forest Service, shall be afforded by appropriate officials of the State of California reasonable opportunities to collect seeds from trees located on such lands for scientific or silvicultural purposes.

"(6) The Secretary, upon prior notification to the State of California, shall be entitled at any time to enter upon such lands for the purpose of monitoring the management of such lands and the compliance of the State of California with the provisions of this subsection.

"(7) The conveyance shall be subject to the following reservations or exceptions:

"(A) any existing rights-of-way as authorized by the Act of August 30, 1890 (43 U.S.C. 945); and

"(B) any existing rights-of-way to provide the United States and its assigns access to federally owned lands.

"(d) ENFORCEMENT.—Upon the request of the Secretary, the Attorney General shall bring any action or take any other steps necessary to enforce the provisions of subsection (c) of this section.

"(e) TIMING, VALUE, AND STATUS.—(1) Conveyance of lands to the State of California pursuant to this Act shall occur when the agreement described in paragraph (1) of subsection (c) has been reached. The restrictions and conditions specified in paragraphs (2), (3), (4), (5), (6), and (7) of subsection (c) shall be included in the instruments of conveyance of lands to the State of California.

"(2) Effective upon the conveyance to the State of California of lands described in subsection (a) of this section, or two years after the date of enactment of this Act [Oct. 17, 1990], whichever is sooner, the National Forest designation of such lands shall terminate. Any such lands not conveyed to the State of California shall thereupon be incorporated into the Stanislaus National Forest and managed to preserve and protect the stands of ponderosa pine, sugar pine, and giant sequoia trees located on such lands.

"(3) Any lands conveyed to the United States pursuant to this Act shall be deemed national forest lands and managed according to the laws governing the management of the National Forest System. If any such lands are outside existing boundaries of one or more National Forests, the Secretary shall modify such boundaries as he deems appropriate to include such lands.

"(4) Values of the respective lands exchanged between the United States and the State of California pursuant to this Act shall be of 'approximately equal value' as that term is defined by regulations implementing the Act of January 12, 1983, known as the Small Tracts Act (16 U.S.C. 521c-521h)."
§ 495. Leases of lands for sanitariums or hotels

The Secretary of Agriculture is authorized, under such rules and regulations as he from time to time may make, to rent or lease to responsible persons or corporations applying therefor suitable spaces and portions of ground near, or adjacent to, mineral, medicinal, or other springs, within any national forest established within the United States, or hereafter to be established, and where the public is accustomed or desires to frequent, for health or pleasure, for the purpose of erecting upon such leased ground sanitariums or hotels, to be opened for the reception of the public. REFERENCES IN TEXT
This section, referred to in subsecs. (a), (b), and (e), was in the original “this Act”, meaning Pub. L. 99–522, Oct. 22, 1986, 100 Stat. 3000, known as the National Forest Ski Area Permit Act of 1986, which enacted this section and notes set out under this section. § 497c. Ski area permit rental charge

(a) In general

The Secretary of Agriculture shall charge a rental charge for all ski area permits issued pursuant to section 3 of the National Forest Ski Area Permit Act of 1986 (16 U.S.C. 497b), the Act of March 4, 1915 (38 Stat. 1101, chapter 144; 16 U.S.C. 497), or the Act of June 4, 1897 (30 Stat. 34, chapter 2), on National Forest System lands. Permit rental charges for permits issued pursuant to the National Forest Ski Area Permit Act of 1986 shall be calculated as set forth in subsection (b) of this section. Permit rental charges for existing ski area permits issued pursuant to the Act of March 4, 1915, and the Act of June 4, 1897, shall be calculated in accordance with those existing permits: Provided, That a permittee may, at the permittee's option, use the calculation method set forth in subsection (b) of this section.

(b) Formula

(1) The ski area permit rental charge (SAPRC) shall be calculated by adding the permittee's gross revenues from lift ticket/year-round ski area use pass sales plus revenue from ski school operations (LT+SS) and multiplying such total by the slope transport feet percentage (STFP) subject to the permit rental charge. The ski area permit rental charge set forth in this Act shall be calculated as generally described in the Forest Service Manual in effect as of January 1, 1992. Revenues from Nordic ski operations shall be included or excluded from the rental charge calculation according to the percentage of trails physically located on national forest lands.

SAPF = ((LT + SS) x STFP) + GRAF = AGR; AGR x %_BRACKETS

(2) In cases where ski areas are only partially located on national forest lands, the slope transport feet percentage on national forest land referred to in this subsection shall be calculated as generally described in the Forest Service Manual in effect as of January 1, 1992. Revenues from Nordic ski operations shall be included or excluded from the rental charge calculation according to the percentage of trails physically located on national forest lands.

(3) In order to ensure that the rental charge remains fair and equitable to both the United States and the ski area permittees, the adjusted gross revenue figures for each revenue bracket in paragraph (1) shall be adjusted annually by the percent increase or decrease in the national Consumer Price Index for the preceding calendar year. No later than 3 years after November 12, 1996, and every 5 years thereafter the Secretary shall submit to the Committee on Energy and Natural Resources of the United States Senate and the Committee on Resources of the United States House of Representatives a report analyzing whether the ski area permit rental charge required by this section is returning a fair market value rental to the United States together with any recommendations the Secretary may have for modifications of the system.

(c) Payment

The rental charge set forth in subsection (b) of this section shall be due on June 1 of each year and shall be paid or prepaid by the permittee on a monthly, quarterly, annual or other schedule as determined appropriate by the Secretary in consultation with the permittee. Unless mutually agreed otherwise by the Secretary and the permittee, the payment or prepayment schedule shall conform to the permittee's schedule in effect prior to November 12, 1996. To reduce costs to the permittee and the Forest Service, the Secretary shall each year provide the permittee with a standardized form and worksheets (including annual rental charge calculation brackets and rates) to be used for rental charge calculation and submitted with the rental charge payment. Information provided on such forms shall be compiled by the Secretary annually and kept in the Office of the Chief, United States Forest Service.

(d) Effective date

The ski area permit rental charge set forth in this section shall become effective on June 1, 1996 and cover receipts retroactive to June 1, 1995: Provided, That if a permittee has paid rental charges for the period June 1, 1995, to June 1, 1996, under the graduated rate rental charge system formula in effect prior to November 12, 1996, such rental charges shall be credited toward the new rental charge due on June 1, 1996. In order to ensure increasing rental charge receipt levels to the United States during transition from the graduated rate rental charge system formula to the formula of this section, the rental charge paid by any individual permittee shall be—

(1) for the 1995–1996 permit year, either the rental charge paid for the preceding 1994–1995 base year or the rental charge calculated pursuant to this section, whichever is higher;
(j) Withdrawal from mining laws

If an individual permittee’s adjusted gross revenue for the 1995–1996, 1996–1997, or 1997–1998 permit years falls more than 10 percent below the adjusted gross revenue for the 1994–1995 base year, the rental charge paid shall be the rental charge calculated pursuant to this section, whichever is higher.

If an individual permittee’s adjusted gross revenue for the 1995–1996, 1996–1997, or 1997–1998 permit years falls more than 10 percent below the adjusted gross revenue for the 1994–1995 base year, the rental charge paid shall be the rental charge calculated pursuant to this section, whichever is higher.

(c) Non-national forest land operations

Under no circumstances shall revenue, or sub-lease revenue (other than lift ticket, area use pass, or ski school sales) obtained from operations physically located on non-national forest land be included in the ski area permit rental charge calculation.

(f) “Revenue” and “sales” defined; limitations

To reduce administrative costs of ski area permittees and the Forest Service “revenue” and “sales”, as used in this section, shall mean actual income from sales and shall not include sales of operating equipment, refunds, rent paid to the permittee by subleasees, sponsor contributions to special events or any amounts attributable to employee gratuities or employee lift tickets, discounts, or other goods or services (except for bartered goods and complimentary lift tickets offered for commercial or other promotional purposes) for which the permittee does not receive money.

(g) Minimum rental charge

In cases where an area of national forest land is under a ski area permit but the permittee does not have revenue or sales qualifying for rental charge payment pursuant to subsection (a) of this section, the permittee shall pay an annual minimum rental charge of $2 for each national forest acre under permit or a percentage of appraised land value, as determined appropriate by the Secretary.

(h) Five-year phase-in of increase

Where the new rental charge provided for in subsection (b)(1) of this section results in an increase in permit rental charge greater than one-half of 1 percent of the permittee’s adjusted gross revenue as determined under subsection (b)(1) of this section, the new rental charge shall be phased in over a five-year period in a manner providing for increases of approximately equal increments.

(i) Construction with National Environmental Policy Act of 1969

To reduce Federal costs in administering the provisions of this section, the reissuance of a ski area permit to provide activities similar in nature and amount to the activities provided under the previous permit shall not constitute a major Federal action for the purposes of the National Environmental Policy Act of 1969 (42 U.S.C. 4331 et seq.).

(j) Withdrawal from mining laws

Subject to valid existing rights, all lands located within the boundaries of ski area permits issued prior to, on or after November 12, 1996, pursuant to authority of the Act of March 4, 1915 (38 Stat. 1101, chapter 144; 16 U.S.C. 497), and the Act of June 4, 1897, or the National Forest Ski Area Permit Act of 1986 (16 U.S.C. 497b) are hereby and henceforth automatically withdrawn from all forms of appropriation under the mining laws and from disposition under all laws pertaining to mineral and geothermal leasing and all amendments thereto. Such withdrawal shall continue for the full term of the permit and any modification, reissuance, or renewal thereof. Unless the Secretary requests otherwise of the Secretary of the Interior, such withdrawal shall be canceled automatically upon expiration or other termination of the permit and the land automatically restored to all appropriation not otherwise restricted under the public land laws.

§ 498. Cooperative work agreements: disposal of moneys received; refund of excess; payment from appropriation; conflict of interest

On or after June 30, 1914, all moneys received as contributions toward cooperative work in forest investigations, or the protection, management, and improvement of the National Forest System, shall be covered into the Treasury and shall constitute a special fund, which is appropriated and made available until expended, as the Secretary of Agriculture may direct, for the payment of the expenses of said investigations, protection, management, or improvements by the Forest Service, and for refunds to the contributors of amounts heretofore or hereafter paid in by them in excess of their share of the cost of said investigations, protection, management, or improvements. Payment for work undertaken pursuant to this section may be made from any appropriation of the Forest Service that is available for similar work if a written agreement so provides and reimbursement will be provided by a cooperator in the same fiscal year as the expenditure by the Forest Service. A reimbursement received from a cooperator that covers the proportionate share of the cooperator of the cost of the work shall be deposited to the credit of the appropriation of the Forest Service from which the payment was initially made or, if the appropriation is no longer available, to the credit of an appropriation of the Forest Service that is available for similar work if a written agreement so establishes written rules that establish criteria to be used to determine whether the acceptance of contributions of money under this section would adversely affect the ability of an officer or employee of the Department of Agriculture to carry out a duty or program of the officer or employee in a fair and objective manner or would compromise, or appear to compromise, the integrity of the program, officer, or employee. The Secretary of Agriculture shall establish written rules that protect the interests of the Forest Service in cooperative work agreements.

§ 499. Disposal of money received by or on account of Forest Service; refund of excess and moneys erroneously collected; receipts from permits

All money received by or on account of the Forest Service for timber, or from any other source of national-forest revenue, including moneys received from sale of products from or for the use of lands in national forests created under section 471(b)1 of this title, and moneys received on account of permits for hunting, fishing, or camping on lands acquired under authority of sections 513 to 517 and 521 of this title, shall be covered into the Treasury of the United States as a miscellaneous receipt and there is hereby appropriated and made available as the Secretary of Agriculture may direct out of any funds in the Treasury not otherwise appropriated, so much as may be necessary to make refunds to depositors of money heretofore or hereafter deposited by them to secure the purchase price on the sale of any products or for the use of any land or resources of the national forests in excess of amounts found actually due from them to the United States and also so much as may be necessary to refund or pay over to the rightful claimants such sums as may be found by the Secretary of Agriculture to have been erroneously collected for the use of any lands, or for timber or other resources sold from

lands located within, but not a part of, the national forests, or for alleged illegal acts done upon such lands, which acts are subsequently found to have been proper and legal.

REFERENCES IN TEXT
Section 471(b) of this title, referred to in text, was repealed by section 704(a) of Pub. L. 94–579, title VII, Oct. 21, 1976, 90 Stat. 2792. For further details, see Codification note below.

CODIFICATION
Section is a combination provision the basis for which is Act Mar. 4, 1907, which superseded previous provisions relating to the disposal of money received from sale of products or use of any land or resources of the forest reserves, contained in Act Feb. 1, 1905, ch. 288, §5, 33 Stat. 628.

Act Mar. 4, 1911, is the source of the last portion of the section beginning with the words, “and also so much as may be necessary.” etc. That Act provides that so much of the former Act “which provides for refund to the Secretary of Agriculture to depositors of moneys to secure the purchase price of timber or the use of lands or resources of the national forests such sums as may be found to be in excess of the amounts found actually due the United States, be, and is hereby, amended hereafter to appropriate and to include so much.”

The words of this section reading, “including moneys received from sale of products from or use of lands in national forests created under section 471(b) of this title” were derived from the fourth sentence of section 9 of Act of June 7, 1924, which reads as follows: “All receipts from the sale of products from or for the use of lands in such national forests shall be covered into the Treasury as miscellaneous receipts, forest reserve fund, and shall be disposed of in like manner as the receipts from other national forests as provided by existing law.” Section 471(b) of this title, referred to in text, was based on the first and fifth sentences of section 9 of the 1924 act, and was repealed by section 704(a) of Pub. L. 94–579. Section 905 of this title is based on the second and third sentences of section 9 of the 1924 act.

The words “and moneys received on account of permits for hunting, fishing, or camping on lands acquired under authority of sections 513 to 517 and 521 of this title,” are from a provision of Act Mar. 4, 1917, which reads, “Hereafter, all moneys received on account of permits for hunting, fishing, or camping, on lands acquired under authority of said Act [Act Mar. 1, 1911, ch. 186, 36 Stat. 561] or any amendment or extension thereof, shall be disposed of as is provided by existing law for the disposition of receipts from national forests.”

AMENDMENTS
1928—Act May 29, 1928, struck out provision which required the Secretary of Agriculture to make an annual report to Congress of the amounts refunded under this section.

§ 500. Payment and evaluation of receipts to State or Territory for schools and roads; moneys received; projections of revenues and estimated payments
On and after May 23, 1908, an amount equal to the annual average of 25 percent of all amounts received for the applicable fiscal year and each of the preceding 6 fiscal years from each national forest shall be paid, at the end of such year, by the Secretary of the Treasury to the State or Territory in which such national forest is situated, to be expended as the State or Territorial legislature may prescribe for the benefit of the public schools and public roads of the county or counties in which such national forest is situated: Provided, That any national forest is in more than one State or Territory or county the distributive share to each from the proceeds of such forest shall be proportional to its area therein. In sales of logs, ties, poles, posts, cordwood, pulpwood, and other forest products the amounts made available for schools and roads by this section shall be based upon the stumpage value of the timber. Beginning October 1, 1976, the term “moneys received” shall include all collections under the Act of June 9, 1930, and all amounts earned or allowed any purchaser of national forest timber and other forest products within such State as purchaser credits, for the construction of roads on the National Forest Transportation System within such national forests or parts thereof in connection with any Forest Service timber sales contract. The Secretary of Agriculture shall, from time to time as he goes through his process of developing the budget revenue estimates, make available to the States his current projections of revenues and payments estimated to be made under the Act of May 23, 1908, as amended, or any other special Acts making payments in lieu of taxes, for their use for local budget planning purposes.

The Congress hereby finds and declares that the construction and maintenance of an adequate system of roads and trails within and near the national forests and other lands administered by the Forest Service is essential if increasing demands for timber, recreation, and other uses of such lands are to be met; that the existence of such a system would have the effect, among other things, of increasing the value of timber and other resources tributary to such roads; and that such a system is essential to enable the Secretary of Agriculture (hereinafter called the Secretary) to provide for intensive use, protection, development, and management of these lands under principles of multiple use and sustained yield of products and services.

§ 533. Grant of easements for road rights-of-way; authority of Secretary of Agriculture; regulations

The Secretary is authorized, under such regulations as he may prescribe, subject to the provisions of sections 532 to 538 of this title, to grant permanent or temporary easements for specified periods or otherwise for road rights-of-way (1) over national forest lands and other lands administered by the Forest Service, and (2) over any other related lands with respect to which the Department of Agriculture has rights under the terms of the grant to it.

TRANSFER OF FUNCTIONS

Enforcement functions of Secretary or other official in Department of Agriculture, insofar as they involve lands and programs under jurisdiction of that Department, related to compliance with construction and utilization of national forest roads under sections 532 to 538 of this title with respect to pre-construction, construction, and initial operation of transportation system for Canadian and Alaskan natural gas transferred to Federal Inspector, Office of Federal Inspector for Alaska Natural Gas Transportation System, under section 719e of Title 15, Commerce and Trade, see Reorg. Plan No. 1 of 1977, §§102(f), 203(a), 44 F.R. 33663, 33666, 93 Stat. 1373, 1376, effective July 1, 1977, set out in the Appendix to Title 5, Government Organization and Employees, Office of Federal Inspector for the Alaska Natural Gas Transportation System abolished and functions and authority vested in Inspector transferred to Secretary of Energy by section 3012(b) of Pub. L. 102–486, set out as an Abolition of Office of Federal Inspector note under section 719e of Title 15, Commerce and Trade. Functions and authority vested in Secretary of Energy subsequently transferred to Federal Coordinator for Alaska Natural Gas Transportation Projects by section 720d(f) of Title 15.

§ 534. Termination and cancellation of easements; notice; hearing

An easement granted under sections 532 to 538 of this title may be terminated by consent of the owner of the easement, by condemnation, or after a five-year period of nonuse the Secretary may, if he finds the owner has abandoned the easement, make a determination to cancel it. Before the Secretary may cancel an easement for nonuse the owner of such easement must be notified of the determination to cancel and be given, upon his request made within sixty days after receipt of the notice, a hearing in accordance with such rules and regulations as may be issued by the Secretary.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Secretary or other official in Department of Agriculture under sections 532 to 538 of this title to Federal Inspector, Office of Federal Inspector for Alaska Natural Gas Transportation System, and subsequently to Secretary of Energy, then to Federal Coordinator for Alaska Natural Gas Transportation Projects, see Transfer of Functions note set out under section 533 of this title.

§ 535. Forest development roads; acquisition, construction, and maintenance; maximum economy; methods of financing; cost arrangements for construction standards; transfer of unused effective purchaser credit for road construction

The Secretary is authorized to provide for the acquisition, construction, and maintenance of forest development roads within and near the national forests and other lands administered by the Forest Service in locations and according to specifications which will permit maximum economy in harvesting timber from such lands tributary to such roads and at the same time meet the requirements for protection, development, and management thereof, and for utilization of the other resources thereof. Financing of such
roads may be accomplished (1) by the Secretary utilizing appropriated funds, (2) by requirements on purchasers of national forest timber and other products, including provisions for amortization of road costs in contracts, (3) by cooperative financing with other public agencies and with private agencies or persons, or (4) by a combination of these methods: Provided. That where roads of a higher standard than that needed in the harvesting and removal of the timber and other products covered by the particular sale are to be constructed, the purchaser of the national forest timber and other products shall not be required to bear that part of the costs necessary to meet such higher standard, and the Secretary is authorized to make such arrangements to this end as may be appropriate. The Secretary is authorized, under such rules and regulations as he shall prescribe, to permit the transfer of unused effective purchaser credit for road construction earned after December 16, 1975, from one timber sale to a purchaser to another timber sale to the same purchaser within the same National Forest.

AMENDMENTS
1975—Pub. L. 94–154 authorized the Secretary to permit the transfer of unused effective purchaser credit for road construction earned after Dec. 16, 1975, from one timber sale to a purchaser to another timber sale to the same purchaser within the same National Forest.

TRANSFER OF FUNCTIONS
For transfer of certain enforcement functions of Secretary or other official in Department of Agriculture under sections 532 to 538 of this title to Federal Inspector, Office of Federal Inspector for Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, then to Federal Coordinator for Alaska Natural Gas Transportation Projects, see Transfer of Functions note set out under section 533 of this title.

FINANCING OF FOREST DEVELOPMENT ROADS
Financing of forest development roads authorized by cl. (b) of this section deemed "budget authority" and "budget outlays" as defined in section 621(a) of Title 2, the Congress, and effective for purpose specified in section 651(a) of Title 2, see section 1608 of this title.

§ 535a. Forest development roads: prohibition on credits; inclusion of construction costs in notice of sale; special election by small business concerns; construction standards; authorization of harvesting; treatment of road value

(a) Prohibition on timber purchaser road credits

In financing any forest development road pursuant to section 535 of this title, the Secretary of Agriculture may not provide effective credit for road construction to any purchaser of national forest timber or other forest products.

(b) Construction of roads by timber purchasers

(1) Whenever the Secretary of Agriculture makes a determination that a forest development road referred to in subsection (a) of this section shall be constructed or paid for, in whole or in part, by a purchaser of national forest timber or other forest products, the Secretary shall include notice of the determination in the notice of sale of the timber or other forest products. The notice of sale shall contain, or announce the availability of, sufficient information related to the road described in the notice to permit a prospective bidder on the sale to calculate the likely cost that would be incurred by the bidder to construct or finance the construction of the road so that the bidder may reflect such cost in the bid.

(2) If there is an increase or decrease in the cost of roads constructed by the timber purchaser, caused by variations in quantities, changes or modifications subsequent to the sale of timber made in accordance with applicable timber sale contract provisions, then an adjustment to the price paid for timber harvested by the purchaser shall be made. The adjustment shall be applied by the Secretary as soon as practicable after any such design change is implemented.

(c) Special election by small business concerns

(1) A notice of sale referred to in subsection (b) of this section containing specified road construction of $50,000 or more, shall give a purchaser of national forest timber or other forest products that qualifies as a "small business concern" under the Small Business Act (15 U.S.C. 631 et seq.), and regulations issued thereunder, the option to elect that the Secretary of Agriculture build the roads described in the notice. The Secretary shall provide the small business concern with an estimate of the cost that would be incurred by the Secretary to construct the roads on behalf of the small business concern. The notice of sale shall also include the date on which the roads described in the notice will be completed by the Secretary if the election is made.

(2) If the election referred to in paragraph (1) is made, the purchaser of national forest timber or other forest products shall pay to the Secretary of Agriculture, in addition to the price paid for the timber or other forest products, an amount equal to the estimated cost of the roads which otherwise would be paid by the purchaser as provided in the notice of sale. Pending receipt of such amount, the Secretary may use receipts from the sale of national forest timber or other forest products and such additional sums as may be appropriated for the construction of roads, such funds to be available until expended, to accomplish the requested road construction.

(d) Authorization of harvesting

In each sale of national forest timber or other forest products referred to in this section, the Secretary of Agriculture is encouraged to authorize harvest of the timber or other forest products in a unit included in the sale as soon as road work for that unit is completed and the road work is approved by the Secretary.

(e) Construction standard

For any forest development road that is to be constructed or paid for by a purchaser of national forest timber or other forest products, the Secretary of Agriculture may not require the purchaser to design, construct, or maintain the road (or pay for the design, construction, or
maintenance of the road) to a standard higher than the standard, consistent with applicable 
environmental laws and regulations, that is suf-
ficient for the harvesting and removal of the 
timber or other forest products, unless the Sec-
retary bears that part of the cost necessary to 
meet the higher standard.

(f) Treatment of road value

For any forest development road that is con-
structed or paid for by a purchaser of national 
forest timber or other forest products, the esti-
imated cost of the road construction, including 
subsequent design changes, shall be considered 
to be money received for purposes of the pay-
ments required to be made under section 500 of 
this title. To the extent that the appraised value 
of road construction determined under this sub-
section reflects funds contributed by the Sec-
retary of Agriculture to build the road to a high-
er standard pursuant to subsection (e) of this 
section, the Secretary shall modify the ap-
praisal of the road construction to exclude the 
effect of the Federal funds.

(g) Effective date

(1) This section and the requirements of this 
section shall take effect (and apply thereafter) 
upon the earlier of—
(A) April 1, 1999; or 
(B) the date that is the later of— 
(i) the effective date of regulations issued 
by the Secretary of Agriculture to imple-
ment this section; and 
(ii) the date on which new timber sale con-
tract provisions designed to implement this 
section, that have been published for public 
comment, are approved by the Secretary.

(2) Notwithstanding paragraph (1), any sale of 
national forest timber or other forest products 
for which notice of sale is provided before the ef-
fective date of this section, and any effective 
purchaser road credit earned pursuant to a con-
tract resulting from such a notice of sale or 
otherwise earned before that effective date shall 
remain in effect, and shall continue to be sub-
ject to section 535 of this title and section 472(b)(1) 
of this title, and rules issued thereunder, as in 
effect on the day before October 21, 1998.

§ 538. User fees fund for delayed payments to 
grantors

Whenever the agreement under which the 
United States has obtained for the use of, or in 
connection with, the national forests and other 
lands administered by the Forest Service a 
right-of-way or easement for a road or an exist-
ing road or the right to use an existing road pro-
vides for delayed payments to the Government’s 
grantor, any fees or other collections received 
by the Secretary for the use of the road may be 
placed in a fund to be available for making pay-
ments to the grantor.

§ 539. Additions to existing national forests; ad-
ministration

(a) The following units of the National Forest 
System are hereby expanded:

(1) Chugach National Forest by the addition of 
four areas, Nellie Juan, College Fjord, Cop-
per/Rude River, and Controller Bay, contain-
ing approximately one million nine hundred thousand acres of public land, as generally depicted on the map entitled “Chugach National Forest additions—proposed”, and dated October 1978; and

(2) Tongass National Forest by the addition of three areas, Kates Needle, Juneau Icefield, and Brabazon Range, containing approximately one million four hundred and fifty thousand acres of public lands, as generally depicted on the map entitled “Tongass National Forest additions—proposed”, and dated October 1978.

(b) Subject to valid existing rights, lands added to the Tongass and Chugach National Forests by this section shall be administered by the Secretary in accordance with the applicable provisions of this Act and the laws, rules, and regulations applicable to the national forest system: Provided, That the conservation of fish and wildlife and their habitat shall be the primary purpose for the management of the Copper/Rude River addition and the Copper River-Bering River portion of the existing Chugach National Forest, as generally depicted on the map appropriately referenced and dated October 1978. Provided, That the taking of fish and wildlife shall be permitted within zones established by this subsection pursuant to the provisions of this Act and other applicable State and Federal law. Multiple use activities shall be permitted in a manner consistent with the conservation of fish and wildlife and their habitat as set forth in special regulations which shall be promulgated by the Secretary.

CHUGACH NATIONAL FOREST BOUNDARY CHANGE

“(a) Boundary Adjustment.—The boundary of the Chugach National Forest, Alaska, is modified to include the approximately 9,300 acres as generally depicted on the map entitled ‘Official Map, Boundary Modification, Chugach National Forest’ and dated September 1988. The map shall be on file and available for public inspection in the Office of the Chief of the Forest Service, Department of Agriculture.

“(b) Administration.—Subject to valid existing rights, all Federal lands brought within the boundary of the Chugach National Forest by subsection (a) are added to and shall be administered as part of the Chugach National Forest.

“(c) Terms and Conditions.—(1) Nothing in this Act [see Short Title of 1992 Amendment note set out under section 1601 of Title 43, Public Lands] shall be construed to affect the validity of, or the terms and conditions of, any right-of-way, easement, lease, license, or permit on lands transferred by this section that is in existence on the date of enactment of this Act [Oct. 14, 1992].

“(2) Notwithstanding any other provision of law, the Secretary of the Interior shall delegate, as necessary, to the Secretary of Agriculture the authority to renew or reissue the authorizations described in paragraph (1).

The change of administrative jurisdiction over these lands resulting from subsection (a) shall not constitute a ground for the denial of renewal of renewal or reissuance of the authorizations described in paragraph (1).

“(d) Land and Water Conservation Fund Act.—For purposes of section 7 of the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 460l–9), the boundary of the Chugach National Forest, as modified by this section, shall be treated as if it were the boundary of the Chugach National Forest as of January 1, 1965.”

§539a. Mining and mineral leasing on certain national forest lands

Subject to valid existing rights, the minerals in public lands within the Copper River addition to the Chugach National Forest, are hereby withdrawn from location, entry, and patent under the United States mining laws. With respect to such areas, the Secretary, under such reasonable regulations as he deems appropriate, may permit the removal of nonleasable minerals from the lands in the manner prescribed by Reorganization Plan Numbered 3 of 1946 and section 520 of this title, and the removal of leasable minerals from such lands in accordance with the mineral leasing laws, if the Secretary finds that such disposition would not have significant adverse effects on the administration of the area. All receipts derived from disposal of nonleasable minerals under this section shall be paid into the same funds or accounts in the Treasury of the United States and shall be distributed in the same manner as provided for receipts from national forests.

§539b. Fisheries on national forest lands in Alaska

(a) Regulations for protection and maintenance of habitats

The Secretary of Agriculture shall, in consultation with the Secretaries of Commerce and the Interior, and with the State of Alaska, pursuant to his existing authority to manage surface resources, promulgate such reasonable regulations as he determines necessary after consideration of existing laws and regulations to maintain the habitats, to the maximum extent feasible, of anadromous fish and other foodfish, and to maintain the present and continued productivity of such habitat when such habitats are affected by mining activities on national forest lands in Alaska. The Secretary of Agriculture, in consultation with the State, shall assess the effects on the populations of such fish in determinations made pursuant to this subsection.

(b) Approved plan for mining operations; requirements; review; modification; suspension of activities

Because of the large scale of contemplated mining operations and the proximity of such operations to important fishery resources, with respect to mining operations in the Quartz Hill
area of the Tongass National Forest, the regulations of the Secretary shall, pursuant to this subsection, include a requirement that all mining operations involving significant surface disturbance shall be in accordance with an approved plan of operations. Before approving any proposed plan or distinct stages of such plan of operations for any such claims when any fishery habitat or fishery value may be affected, the Secretary shall, in consultation with the Secretaries of Commerce and the Interior and the State of Alaska, determine—

(1) that such plan or stages of such plan are based upon and shall include studies or information which he determines are adequate for—

(A) evaluating the water quality and water quantity, fishery habitat, and other fishery values of the affected area; and

(B) evaluating to the maximum extent feasible and relevant, the sensitivity to environmental degradation from activities carried out under such plan of the fishery habitat as it affects the various life stages of anadromous fish and other foodfish and their major food chain components;

(2) that such plan adequately identifies the risks the operations under such plan or such stages might pose to and the benefits the operations under such plan might provide to—

(A) the natural stability and the present and continued productivity of anadromous fish and other foodfish;

(B) fishery habitat, including but not limited to water quality and water quantity; and

(C) other fishery values;

(3) that such plan includes provisions which he determines are adequate for the purposes of—

(A) preventing significant adverse environmental impacts to the fishery habitat (including but not limited to water quality and water quantity) or other fishery values; and

(B) maintaining present and continued productivity of the habitat of anadromous fish and other foodfish which might be affected by the mining and other activities proposed to be conducted in accordance with such plan or such stages of the plan of operations;

(4)(A) the Secretary shall ensure, to the maximum extent feasible, that the cumulative effects of activities carried out under the operating plan will not interfere with the ability to collect baseline information needed by the Secretary to evaluate the effects of various stages of the operating plan on the fishery habitat and productivity of such habitats;

(B) the Secretary shall review such plan and mining activities on at least an annual basis. With respect to any mining or associated activities, the Secretary, if he determines upon notice and hearing, that the activities are harmful to the continued productivity of anadromous fish, or other foodfish populations or fishery habitat, shall require a modification of the plan to eliminate or mitigate, if necessary, the harmful effects of such activities; and

(5) upon a finding by the Secretary that a mining activity conducted as a part of a mining operation exists which constitutes a threat of irreparable harm to anadromous fish, or other foodfish populations or their habitat, and that immediate correction is required to prevent such harm, he may require such activity to be suspended for not to exceed seven days, provided the activity may be resumed at the end of said seven-day period unless otherwise required by a United States district court.

(c) Authority of State of Alaska to manage fish and wildlife

Nothing in this section shall enlarge or diminish the responsibility and authority of the State of Alaska to manage fish and wildlife or to exercise its other responsibilities under applicable law.

(d) Authority of Secretary of Agriculture to manage national forests

Except as specifically provided in subsection (b) of this section nothing in this section shall enlarge or diminish the responsibilities and authorities of the Secretary of Agriculture to manage the national forests.

§ 539c. Cooperative fisheries planning; report to Congress

(a) The Secretary of Agriculture is directed to implement a cooperative planning process for the enhancement of fisheries resources through fish hatchery and aquaculture facilities and activities in the Tongass National Forest. Participation in this process shall include but not be limited to the State of Alaska and appropriate nonprofit aquaculture corporations. The Secretary may contract with private, nonprofit associations for services in such planning.

(b) Each subsequent revision of National Forest management plans under the Forest and Rangeland Renewable Resources Planning Act of 1974 [16 U.S.C. 1600 et seq.] and the National Forest Management Act of 1976 shall contain a report on the status of the planning process undertaken under this paragraph, including, but not limited to, a description of current hatchery and aquaculture projects, an analysis of the success of these projects, and a prioritized list of projects anticipated for the duration of the management plan. The report shall be submitted by the Secretary to the Congress with recommendations for any legislative action which the Secretary may deem necessary to implement the proposed hatchery and aquaculture projects.

§ 539d. National forest timber utilization program

(a) Tongass National Forest timber supply; satisfaction of certain market demands

Subject to appropriations, other applicable law, and the requirements of the National Forest Management Act of 1976 (Public Law 94–588), except as provided in subsection (d) of this section, the Secretary shall, to the extent consistent with providing for the multiple use and sustained yield of all renewable forest resources, seek to provide a supply of timber from the Tongass National Forest which (1) meets the annual market demand for timber from such forest and (2) meets the market demand from such forest for each planning cycle.

(b) Insured and guaranteed loan program for purchasers of national forest materials in Alaska; authorization of appropriations

(1) The Secretary is authorized and directed to establish a special program of insured or guaranteed loans to purchasers of national forest materials in Alaska to assist such purchasers in the acquisition of equipment and the implementation of new technologies which lead to the utilization of wood products which might otherwise not be utilized. The Secretary is authorized to promulgate such regulations as he deems appropriate to define eligibility requirements for the participation in the loan program and the terms and conditions applicable to loans made under the program. Except as otherwise provided in this section or regulations promulgated specifically for this loan program, such program shall be carried out in a manner which is consistent with other authorities available to the Secretary.

(2) To carry out the special loan program established by this section, there are hereby authorized beginning after the fiscal year 1980 to be appropriated $5,000,000 from National Forest Fund receipts, to be deposited in a special fund in the Treasury of the United States to remain available until expended. Repayments of principal and interest and other recoveries on loans authorized by this section shall be credited to this fund and shall remain available until expended in order to carry out the purposes of this section.

(c) Study on increase of timber yields on national forest lands in Alaska; transmittal to Congress

Within three years after December 2, 1980, the Secretary shall prepare and transmit to the Senate and House of Representatives a study of opportunities (consistent with the laws and regulations applicable to the management of the National Forest System) to increase timber yields on national forest lands in Alaska.

(d) Identification of lands not suited for timber production; consideration of economic factors unnecessary

All provisions of section 6(k) of the National Forest Management Act of 1976 (16 U.S.C. 1604(k)) shall apply to the Tongass National Forest except that the Secretary need not consider economic factors in the identification of lands not suited for timber production.

(e) Protection of riparian habitat; maintenance of buffer zones in Tongass National Forest; relocation of prior independent sale or released volume

In order to assure protection of riparian habitat, the Secretary shall maintain a buffer zone of no less than one hundred feet in width on each side of all Class I streams in the Tongass National Forest, and on those Class II streams which flow directly into a Class I stream, within which commercial timber harvesting shall be prohibited, except where independent national forest timber sales have already been sold prior to March 1, 1990, or where volume has been released prior to March 1, 1990, to either the Alaska Pulp Corporation or the Ketchikan Pulp Company pursuant to the long-term timber sale contracts numbered 12–11–010–1545 and A10fs–1042 respectively. If such an independent timber sale or released volume is within the buffer zone, the Secretary shall make every effort to relocate such independent sale or released volume to an area outside of the buffer zone. The Secretary shall use best management practices, as defined in the Region 10 Soil and Water Conservation handbook (FSH 2509.22), January 1990, to assure the protection of riparian habitat on streams or portions of streams not protected by such buffer zones. For the purposes of this subsection, the terms ‘‘Class I streams’’ and ‘‘Class II streams’’ mean the same as they do in the Region 10 Aquatic Habitat Management Handbook (FSH 2609.24), June 1986.

(f) Timber supply from Tongass National Forest for purchasers qualifying as ‘‘small business concerns’’

Subject to appropriations, the provisions of this Act and other applicable law (including but not limited to the requirements of the National Forest Management Act of 1976 (Public Law 94–588)) and in order to assure the continuation of the Small Business Administration timber sale program, the Secretary shall, in consultation with the Administrator of the Small Business Administration and to the extent consistent with providing for the multiple use and sustained yield of all renewable forest resources, seek to provide a supply of timber from the Tongass National Forest to those purchasers qualifying as ‘‘small business concerns’’ under the Small Business Act as amended (15 U.S.C. 631 et seq.).

§ 539f. Nonprofit organization user of national forest lands

(a) Permits for organization camps; waiver of charges; performance of services; loss of entitlement

Notwithstanding any other provision of law, the Secretary of Agriculture is directed to waive annually without charge all or a portion of payment or rental fees required under terms of a permit for use of certain lands of the National Forest System as organization camps by local units of the Boy Scouts of America or such other nonprofit organization when such local units of the Boy Scouts of America or such nonprofit organization are willing to perform services, as the Secretary prescribes and determines will yield a valuable benefit to the public and to the program of the Secretary of such lands. If the Secretary determines that a local unit of the Boy Scouts of America or such other nonprofit organization has not fully performed such services, such organization shall not be entitled in the subsequent year to waiver under the provisions of this section.

(b) “Other nonprofit organization” defined

In order to provide for public outdoor recreation use and enjoyment of certain areas within the Sierra National Forest and the Sequoia National Forest, to protect those areas’ natural, archaeological, and scenic resources, and to provide for appropriate fish and wildlife management of those areas, there is hereby established the Kings River Special Management Area (hereinafter in this Act referred to as the “special management area”). The special management area shall be administered by the Secretary of Agriculture (hereinafter in this Act referred to as “the Secretary”) through the Sierra National Forest.

The Secretary of Agriculture may from time to time make minor revisions of the boundary of the special management area.

(c) Administration

The Secretary shall administer the special management area in accordance with this Act and with the provisions of law generally applicable to units of the National Forest System. In the case of any conflict between the provisions of such Acts, the provisions of this Act shall govern. In the administration of the special management area the Secretary may utilize such statutory authority as may be available to him for the conservation of wildlife and natural resources as he deems necessary to carry out the purposes of this Act. Nothing in this Act shall be construed to prohibit grazing within the special management area to the same extent, and in accordance with the same rules and regulations as applicable in the absence of this Act. The Secretary may permit the cutting of timber within the special management area only in those cases where in the judgment of the Secretary the cutting of such timber is required in order to control the attacks of fire, insects, or diseases or to otherwise conserve the scenery or the natural or historical objects in the area.

(d) Mining and mineral leasing

Subject to valid existing rights, lands within the special management area are withdrawn from location, entry, and patent under the mining laws of the United States, from the operation of the mineral leasing laws of the United States and from operation of the Geothermal Steam Act of 1970 [30 U.S.C. 1001 et seq.].

(e) Hunting and fishing

The Secretary shall permit hunting and fishing on lands and waters within the special management area in accordance with applicable Federal and State law. The Secretary may designate zones where, and establish periods when, such activities will not be permitted for reasons...
of public safety, administration, fish and wildlife management or public use and enjoyment. Except in emergencies, regulations issued by the Secretary under this subsection shall be put into effect only after consultation with the appropriate State agencies responsible for hunting and fishing activities.

(f) Management plan

After consultation with the State of California, the Secretary shall publish a management plan for the special management area within three years after November 3, 1987. The plan shall provide for public outdoor recreation use and enjoyment of the special management area, protect the area’s natural, archeological, and scenic resources, and provide for appropriate fish and wildlife management within the area. The plan shall contain provisions for management of vegetation within the area designed to enhance the wildlife carrying capacity of the area. The plan shall permit off-road vehicular use of off-road trails to the same extent and in the same locations as was permitted before November 3, 1987. The plan shall provide for the development of hiking trails in the special management area and shall include a trail from Garlic Creek to Little Tehapiite Valley.

(g) Access to private lands

If any State or privately owned land or any valid mining claim or other valid occupancy is within the special management area, or if State or private subsurface rights underlie public lands within the special management area, the Secretary shall provide the State or private owner, claimant, or occupier and their successors in interest such rights as may be necessary to assure adequate and feasible access for economic and other purposes to the site concerned. Such rights shall be subject to reasonable regulations issued by the Secretary to protect the natural and other values of the special management area, taking into account the traditional and customary means of access used prior to November 3, 1987.

(h) Specific protections

In recognition of the dispute that exists over whether a dam project should be constructed in the segment of the Main Stem of the Kings River from the point at elevation 1,595 feet above mean sea level downstream to the point at elevation 990 feet above mean sea level, Congress declares its intention at this time not to designate that segment of the Kings River as a component of the Wild and Scenic Rivers System. Notwithstanding any other provision of law, no Federal lands may be used for the construction of any dam or diversion within the boundaries of the special management area without specific authority of the Congress. In order to protect the natural, cultural, recreational, fishery, and wildlife values of the river segment referred to in this subsection, that segment shall be subject to the provisions of section 1278(a) of this title, in the same manner as if it were designated. Nothing in this Act shall preclude the Kings River Conservation District from conducting studies as it may deem appropriate.

§ 539h. Greer Spring Special Management Area

(a) Objectives and establishments

In order to provide for public outdoor recreation use, including fishing and hunting, in a natural setting, and the enjoyment of certain areas within the Mark Twain National Forest, to protect those areas’ natural, archaeological, and scenic resources, and to provide for appropriate resource management of those areas, there is hereby established the Greer Spring Special Management Area (hereinafter referred to as “the special management area”). The Secretary shall manage the special management area in accordance with this Act, and with provisions of law generally applicable to units of the National Forest System to the extent consistent with this Act.

(b) Area included

The special management area shall consist of lands, waters, and interests therein within the area referred to on the map as “The Greer Spring Special Management Area”. The Secretary is authorized to make minor revisions to the boundary of the special management area.

(c) Timber harvesting

The Secretary shall permit the harvesting of timber within the special management area only in those cases where, in the judgment of the Secretary, the harvesting of timber is required in order to control insects or disease, for public safety, for salvage sales, or to accomplish the objectives of the special management area as described in subsection (a) of this section. To the extent practicable, timber harvesting shall be conducted only by the individual tree selection method.

(d) Hunting and fishing

The Secretary shall permit hunting and fishing on lands and waters within the special management area in accordance with applicable Federal and State law.

(e) Mining and mineral leasing

Subject to valid, existing rights, lands within the special management areas are withdrawn from location, entry, and patent under the mining laws of the United States, and from the operation of the mineral and geothermal leasing laws of the United States.

(f) Vehicular access

The Secretary shall construct and maintain only those roads within the special management area and corridor which are indicated on the
map: Provided, That the Secretary shall provide access to such roads, or to timber harvesting pursuant to subsection (c) of this section, in such a manner as to minimize environmental impact.

No later than one year after August 13, 1993, the Secretary shall identify such routes and trails and shall prepare and make available to the public a map showing such routes and trails. Nothing in this subsection shall be construed as precluding the Secretary from closing any trail or route from use for purposes of resource protection or public safety.

(B) permitting hunting and fishing;

(C) providing opportunities for primitive and semi-primitive recreation and scientific research and study;

(D) protecting and enhancing populations of fish, wildlife and native plant species; and

(E) allowing for traditional uses by native American peoples;

(2) commercial timber harvest and road construction shall be prohibited;

(3) the Area shall be closed to the use of motor vehicles, except as may be necessary for administrative purposes or in emergencies (including rescue operations) to protect public health and safety; and

“SEC. 601. SHORT TITLE.

“SEC. 602. FINDINGS AND PURPOSE.

“(a) FINDINGS.—Congress finds that—

“(1) certain parcels of private land located in central and southwest Washington are intermingled with National Forest System land owned by the United States and administered by the Secretary of Agriculture as parts of the Mt. Baker-Snoqualmie National Forest, Wenatchee National Forest, and Gifford Pinchot National Forest;

“(2) the private land surface estate and some subsurface is owned by the Plum Creek Timber Company, L.P. in an intermingled checkerboard pattern, with the United States or Plum Creek owning alternate square mile sections of land or fractions of square mile sections;

“(3) the checkerboard land ownership pattern in the area has frustrated sound and efficient land management on both private and National Forest lands by complicating fish and wildlife habitat management, watershed protection, recreation use, road construction and timber harvest, boundary administration, and protection and management of threatened and endangered species and old growth forest habitat;

“(4) acquisition by the United States of certain parcels of land that have been offered by Plum Creek for addition to the Mt. Baker-Snoqualmie National Forest and Wenatchee National Forest will serve important public objectives, including—

“(A) enhancement of public access, aesthetics and recreation opportunities within or near areas of very heavy public recreational use including—

“(i) the Alpine Lakes Wilderness Area;

“(ii) the Pacific Crest Trail;

“(iii) Snoqualmie Pass;

“(iv) Cle Elum Lake, Kachess Lake and Keechelus Lake; and

“(v) other popular recreation areas along the Interstate 90 corridor east of the Seattle-Tacoma Metropolitan Area;

“(B) protection and enhancement of old growth forests and habitat for threatened, endangered and sensitive species, including a net gain of approximately 28,500 acres of habitat for the northern spotted owl;

“(C) consolidation of National Forest holdings for more efficient administration and to meet a broad array of ecosystem protection and other public land management goals, including net public gains of approximately 283 miles of stream ownership, 14 miles of the route of the Pacific Crest Trail, 20,000 acres of unroded land, and 7,360 acres of riparian land; and

“(D) a significant reduction in administrative costs to the United States through—

“(i) consolidation of Federal land holdings for more efficient land management and planning;

“(ii) elimination of approximately 300 miles of boundary identification and posting;

“(iii) reduced right-of-way, special use, and other permit processing and issuance for roads and other facilities on National Forest System land; and

“(iv) other administrative cost savings;

“(5) Plum Creek has selected certain parcels of National Forest System land that are logical for consolidation into Plum Creek ownership utilizing a land exchange because the parcels—

“(A) are intermingled with parcels owned by Plum Creek; and

“(B) are generally located in less environmentally sensitive areas than the Plum Creek offered land; and

“INDINGS.—Congress finds that—
“(ii) have lower public recreation and other public values than the Plum Creek offered land;

“(6) time is of the essence in consummating a land exchange because delays may force Plum Creek to road or log the offered land and thereby diminish the public values for which the offered land is to be acquired; and

“(7) it is in the public interest to complete the land exchange at the earliest practicable date so that the offered land can be acquired and preserved by the United States for permanent public management, use, and enjoyment.

“(b) PURPOSE.—It is the purpose of this Act to further the public interest by authorizing, directing, facilitating, and expediting the consummation of the Interstate 90 land exchange so as to ensure that the offered land is expeditiously acquired for permanent public use and enjoyment.

“SEC. 603. DEFINITIONS.

“In this Act:

“(1) OFFERED LAND.—The term ‘offered land’ means all right, title and interest, including the surface and subsurface interests, in land described in section 604(a) conveyed into the private ownership of the United States under this Act.

“(2) Certain land administered, as of the date of enactment of this Act, by the Secretary of Agriculture as part of the Gifford Pinchot National Forest, Washington, and comprising approximately 5,197 acres, as generally depicted on a map entitled ‘Interstate 90 Land Exchange’, dated October 1998.

“(3) Certain land administered, as of the date of enactment of this Act, by the Secretary of Agriculture as part of the Wenatchee National Forest, Washington, and comprising approximately 5,527 acres, as generally depicted on a map entitled ‘Interstate 90 Land Exchange’, dated October 1998.

“(c) OFFERED LAND TITLE.—If Plum Creek conveys title acceptable to the Secretary to less than all rights and interests in the offered lands, but conveys title acceptable to the Secretary to less than all rights and interests that Plum Creek owns and acquires under previous agreements in the lands described in subsection (d), the offered lands, and lands on the east and west sides of Cle Elum Lake, comprising approximately 252 acres, described as Township 21 North, Range 14 East, Section 5, and Lost Lake lands comprising approximately 272 acres, described as Township 21 North, Range 11 East, W½ of Section 3, the Secretary shall convey Plum Creek all rights and interest in the selected land after the values of the offered and selected land are equalized. It is the intention of Congress that any portion of such donated land which the Secretary determines qualifies as wilderness be, upon the date of its acquisition by the United States, incorporated in and managed as part of the adjacent Alpine Lakes Wilderness (as designated by Public Law 94–357) in accordance with section 6(a) of the Wilderness Act (16 U.S.C. 1135).

“SEC. 665. EXCHANGE VALUATION, APPRAISALS AND EQUALIZATION.

“(a) EQUAL VALUE EXCHANGE.—

“(1) IN GENERAL.—The values of the offered and selected land—

“(A) shall be equal; or

“(B) if the values are not equal, shall be equalized as set forth in subsections (c)–(e).

“(2) APPRAISAL ASSUMPTION.—In order to ensure the equitable and uniform appraisal of both the offered and selected land directed for exchange by this Act, all appraisals shall determine the highest and best use of the offered and selected land in accordance with applicable provisions of the Washington State Forest Practices Act and rules and regulations thereunder, including alternative measures for protecting critical habitat pursuant to a habitat conservation plan as provided in Washington Administrative Code 225-16-080–(6).

“(c) EQUALIZATION IF SURPLUS OF OFFERED LAND.—

“(1) IN GENERAL.—If the final appraised value of the offered land or lands and interest in lands conveyed by Plum Creek under section 604(c), except for the Cle Elum and Lost Lake lands, exceeds the final appraised value of the selected land, Plum Creek shall delete offered land parcels from the exchange in the exact order each land Section (or offered portion thereof) is listed in paragraph (2) until the values are approximately equal.

(a) Findings and purpose

(1) Findings

The Congress finds the following:

(A) The lands covered by this section include important resources and values, including wildlife habitat, clean water, open space, and opportunities for solitude.

(B) These lands also include areas that are suitable for recreational uses, including use of snowmobiles in times of adequate snow cover as well as use of other motorized and nonmotorized mechanical devices.

(C) These lands should be managed in a way that affords permanent protection to their resources and values while permitting continued recreational uses in appropriate locales and subject to appropriate regulations.

(2) Purpose

The purpose of this section is to provide for management of certain lands in the Arapaho/Roosevelt National Forest in a manner consistent with the 1997 Revised Land and Resources Management Plan for this forest in order to protect the natural qualities of these areas.

(b) Designation

The approximately 16,000 acres of land in the Arapaho/Roosevelt National Forest generally depicted on the map entitled “Proposed James Peak Protection Area”, dated September 2001, are hereby designated as the James Peak Protection Area (hereafter in this Act referred to as the “Protection Area”).

(c) Map and boundary description

As soon as practicable after August 21, 2002, the Secretary shall file with the Committee on Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a map and a boundary description of the Protection Area. The map and boundary description shall have the same force and effect as if included in this Act, except that the Secretary may correct clerical and typographical errors in the map and boundary description. The map and boundary description shall be on file and available for public inspection in the office of the Chief of the Forest Service, Department of Agriculture, and in the office of the Forest Supervisor of the Arapaho/Roosevelt National Forest.

(d) Management

(1) In general

Except as otherwise provided in this section, the Protection Area shall be managed and administered by the Secretary in the same manner as the management area prescription designations identified for these lands in the 1997 Revision of the Land and Resource Management Plan for the Arapaho/Roosevelt National Forest and the Pawnee National Grasslands.

(iii) the operation of the mineral leasing, mineral materials, and geothermal leasing laws, and all amendments thereto.

Not later than two years after August 21, 2002, the Secretary, in consultation with interested parties, shall complete a review and inventory of all roads and trails in the Protection Area on which use was allowed on September 10, 2001, except those lands managed under the management prescription referred to in subparagraph (F). During the review and inventory, the Secretary may—

(I) connect existing roads and trails in the inventoried area to other existing roads and trails in the inventoried area for the purpose of mechanized and other nonmotorized use on any lands within the Protection Area as long as there is no net gain in the total mileage of either roads or trails open for public use within the Protection Area; and

(II) close or remove roads or trails within the Protection Area that the Secretary determines to be undesirable, except those roads or trails managed pursuant to paragraph (i) of this subsection or subsection (e)(3) of this section.

(ii) Nonpermanent roads as needed for fire, insect or disease control projects, or protection of public health or safety.

(F) Special interest area

The management prescription applicable to the lands described in the 1997 Revision of the Land and Resource Management Plan as the James Peak Special Interest Area shall also be applicable to all the lands in the Protection Area that are bounded on the north by Rollins Pass Road, on the east by the Continental Divide, and on the west by the 11,300 foot elevation contour as shown on the map referred to in subsection (b) of this section. In addition, motorized vehicle use shall not be permitted on any part of the Rogers Pass trail.

(E) Timber harvesting

(D) New roads and trails

No new roads or trails shall be established within the Protection Area except those which the Secretary shall establish as follows:

(i) Roads and trails established to replace roads or trails of the same character and scope which have become nonserviceable through reasons other than neglect.

The Secretary shall allow for maintenance of rights-of-ways and access roads located within the Protection Area to the extent necessary to operate the natural gas pipeline permitted under the Arapaho/Roosevelt National Forest master permit numbered 4138.01 in a manner that avoids negative impacts on public safety and allows for compliance with Federal pipeline safety requirements. Such maintenance may include vegetation management, road maintenance, ground stabilization, and motorized vehicle access.

(3) Permanent Federal ownership

All right, title, and interest of the United States, held on or acquired after August 21, 2002, to lands within the boundaries of the Protection Area shall be retained by the United States.

CONVEYANCE OF LANDS BETWEEN SKAMANIA COUNTY AND THE UNITED STATES
"Upon the condition that Skamania County conveys title acceptable to the Secretary of Agriculture to all right, title and interest in lands identified on a map dated September 29, 1998 entitled ‘Skamania County Lands to be Transferred’, such lands being located on Table Mountain lying within the Columbia River Gorge National Scenic Area, there is hereby conveyed to Skamania County, notwithstanding any other provision of law, the Wind River Nursery Site lands and facilities and all interests therein, except for the corridor of the Pacific Crest National Scenic Trail, as depicted on a map dated September 29, 1998, entitled ‘Wind River Conveyance’, which is on file and available for public inspection in the Office of the Chief, USDA Forest Service, Washington, D.C.
"The conveyance of lands to Skamania County shall become automatically effective upon a determination by the Secretary that Skamania County has conveyed acceptable title to the United States to the Skamania County lands. Lands conveyed to the United States shall become part of the Gifford Pinchot National Forest and shall have the status of lands acquired under the Act of March 1, 1911, (commonly called the Weeks Act) [see Short Title note set out under section 552 of this title] and shall be managed in accordance with the laws and regulations applicable to the National Forest System."
ional Scenic Area, the Secretary of Agriculture may, until September 30, 2000, accept title to such lands deemed appropriate by the Secretary within the States of Oregon and Washington, regardless of the State in which the transferred lands are located, following existing exchange authorities.

WIND RIVER NURSERY

“(a) The Secretary of Agriculture is authorized and directed to negotiate with Skamania County for the exchange of lands or interests in lands constituting the Wind River Nursery Site within the Gifford Pinchot National Forest, Washington.

“(b) In return for the Nursery Site properties, Skamania County is authorized and directed to negotiate with the Forest Service the conveyance of approximately 120 acres of high biodiversity, special management lands located near Table Mountain within the Columbia River Gorge National Scenic Area, title to which must be acceptable to the Secretary of Agriculture.

“(c) Before this exchange can occur, it must be of equal value and the Secretary and the Skamania County Board of Commissioners must agree on the exact parcels of land to be included in the exchange. An agreement signed by the Secretary of Agriculture and the Skamania County Board of Commissioners describing the properties involved and a certification that the exchange is of equal value must be completed no later than September 30, 1999.

“(d) During this two-year negotiating period, the Wind River Nursery property shall not be conveyed to another party. The Forest Service shall maintain the site in a tenantable condition.

“(e) Except as provided herein, the exchange shall be for equal value in accordance with land exchange authorities applicable to the National Forest System.

“(f) The Secretary is directed to equalize values by not only cash and exchange of lands, easements, reservations, and other interests in lands, but also by full value credit for such services as Skamania County provides to the Gifford Pinchot and Columbia River Gorge National Scenic Area and as the Secretary and Skamania County deem appropriate. The Secretary may accept services in lieu of cash when the Secretary can discern cash value for the services and when the Secretary determines such services would provide direct benefits to lands and resources under the jurisdiction of the Secretary.

“(g) Any cash equalization which Skamania County elect to make may be made up to 50 percent of the fair market value of the Federal property, and such cash equalization may be made in installments over a period not to exceed 25 years. Payments received as partial consecution shall be deposited into the fund in the Treasury established under the Act of December 4, 1967 [16 U.S.C. 484a], commonly known as the Sisk Act, and shall be available for expenditure as provided in the Act except that the Secretary may not use those funds to purchase lands within Skamania County.

“(h) In defining the Federal estate to be conveyed, the Secretary may require such additional terms and conditions as deemed necessary in connection with assuring equal value and public interest considerations in this exchange including, but not limited to, continued research use of the Wind River Experimental Forest and protection of natural, cultural, and historic resources, existing administrative sites, and a scenic corridor for the Pacific Crest National Scenic Trail.

“(i) This authorization is predicated on Skamania County’s Board of Commissioners’ commitment to give foremost consideration to preservation of the overall integrity of the site and conservation of the educational and research potential of the site, including providing for access to and assurance of the continuing administration and operation of forestry research on the adjacent Thornton Munger Research Natural Area.

“(j) The Secretary is further directed to cooperate with Skamania County to address applicable Federal and State environmental laws.

“(k) Notwithstanding the processes involved with the National Environmental Policy Act [of 1969, 42 U.S.C. 4321 et seq.] and the State Environmental Policy Act, should the Secretary of Agriculture and the Skamania County Board of Commissioners fail to reach an agreement on an equal value exchange defined under the terms of this legislation by September 30, 1999, the Wind River Nursery Site shall remain under Forest Service ownership and be maintained by the Forest Service in a tenantable condition.”

§ 567a. Cooperation by Secretary of Agriculture with States in acquisition and administration of State forests

For the purpose of stimulating the acquisition, development, and proper administration and management of State forests and of insuring coordinated effort by Federal and State agencies in carrying out a comprehensive national program of forest-land management, the Secretary of Agriculture is authorized to enter into cooperative agreements with appropriate officials of any State or States for acquiring in the name of the United States, by purchase or otherwise, such forest lands within the cooperating State as in his judgment the State is adequately prepared to administer, develop, and manage as State forests in accordance with the provisions of sections 567a to 567c of this title and with such other terms not inconsistent therewith as he shall prescribe, such acquisition to include the mapping, examination, appraisal, and surveying of such lands and the doing of all things necessary to perfect title thereto in the United States: Provided, That, since it is the declared policy of Congress to maintain and, where it is in the national interest to extend the national-forest system, nothing herein shall be construed to modify, limit, or change in any manner whatsoever the future ownership and administration by the United States of existing national forests and related facilities, or hereafter to restrict or prevent their extension through the acquisition by purchase or otherwise of additional lands for any national-forest purpose: Provided further, That sections 567a to 567c of this title shall not be construed to limit or repeal any legislation authorizing land exchanges by the Federal Government, and private lands acquired by exchange within the limits of any area subject to a cooperative agreement of the character herein authorized shall hereafter be subject to the provisions of sections 567a to 567c of this title.

(Aug. 29, 1935, ch. 808, §1, 49 Stat. 963.)

§ 567b. Conditions and requirements for cooperation in acquisition and management of State forests

No cooperative agreement shall be entered into or continued in force under the authority of sections 567a to 567c of this title or any land acquired hereunder turned over to the cooperating State for administration, development, and management unless the State concerned, as a consideration for the benefits extended to it thereunder, complies in a manner satisfactory to the Secretary of Agriculture with the following conditions and requirements which shall constitute a part of every such agreement:

(a) In order to reduce the need for public expenditures in the acquisition of lands which may be brought into public ownership through the enforcement of appropriate tax delinquency laws, and, by bringing about the handling of such lands upon a sound social and economic basis, to terminate a system of indeterminate and unsound ownership injurious to the public and public interest alike, no additional lands shall be acquired within any State by the United States under sections 567a to 567c of this title after June 30, 1942, unless the State concerned has prior thereto provided by law for the reversion of title to the State or a political unit thereof of tax-delinquent lands and for blocking into State or other public forests the areas which are more suitable for public than private ownership, and which in the public interest should be devoted primarily to the production of timber crops and/or the maintenance of forests for watershed protection, and for the enforcement of such law: Provided, That in the administration of sections 567a to 567c of this title prior to June 30, 1942, preference will be given to States applying for cooperation hereunder which provided by law for such reversion of title under tax delinquency laws.

(b) In order to insure a stable and efficient organization for the development and administration of the lands acquired under sections 567a to 567c of this title, the State shall provide for the employment of a State forester, who shall be a trained forester of recognized standing.

1 See References in Text note below.
(c) The Secretary of Agriculture and the appropriate authorities of each cooperating State shall work out a mutually satisfactory plan defining forest areas within the State which can be most effectively and economically administered by said State, which plan shall constitute a part of the cooperative agreement between the United States and the State concerned: Provided, That nothing herein shall be held to prevent the Secretary of Agriculture from later agreeing with the proper State authorities to desirable modifications in such plan.

(d) No payment of Federal funds shall be made for land selected for purchase by the United States under sections 567a to 567c of this title until such proposed purchase has been submitted to and approved by the National Forest Reservation Commission created by section 513 of this title.

(e) Subject to the approval of the National Forest Reservation Commission, the Secretary of Agriculture is authorized to pay out of any available money appropriated for carrying out the purposes of sections 567a to 567c of this title to any State, county, and/or town taxes, exclusive of penalties, due or accrued on any forest lands acquired by the United States under donations from the owners thereof and which lands are to be included in a State or other public forest pursuant to said sections.

(f) The State shall prepare such standards of forest administration, development, and management as are necessary to insure maximum feasible utility for timber production and watershed protection, and are acceptable to the Secretary of Agriculture and shall apply the same to lands acquired and placed under the jurisdiction of the State pursuant to sections 567a to 567c of this title.

(g) That with the exception of such Federal expenditures as may be made for unemployment relief, the State shall pay without assistance from the Federal Government the entire future cost of administering, developing, and managing all forest lands acquired and over which it has been given jurisdiction under sections 567a to 567c of this title.

(h) During the period any cooperative agreement made under sections 567a to 567c of this title remains in force, one-half of the gross proceeds from all lands covered by said agreement and to which the United States holds title shall be paid by the State to the United States and covered into the Treasury. All such payments shall be credited to the purchase price the State is to pay the United States for said land, such purchase price to be an amount equal to the total sum expended by the United States in acquiring said lands. Upon payments of the full purchase price, either as herein provided or otherwise, title to said lands shall be transferred from the Federal Government to the State, and the Secretary of Agriculture is authorized to take such action and incur such expenditures, as may be necessary to effectuate such transfer.

(i) Upon the request of the State concerned, any agreement made pursuant to sections 567a to 567c of this title may be terminated by the Secretary of Agriculture. The Secretary of Agriculture may, with the consent and approval of the National Forest Reservation Commission, after due notice given the State and an opportunity for hearing by said Commission, terminate any such agreement for violations of its terms and/or the provisions of said sections of this title. If such agreement is terminated, the United States shall notify the State for so much of the State funds as have been expended in the administration, development, and management of the lands involved as the Secretary of Agriculture may decide to be fair and equitable.

(j) The State shall furnish the Secretary of Agriculture with such annual, periodic, or special reports as he may require respecting the State’s operations under its agreement with him.

(k) When a State or political unit thereof acquires under tax delinquency laws title to forest lands without cost to the United States and which lands are included within a State or other public forest, the Secretary of Agriculture, on behalf of the Federal Government, may contribute annually out of any funds made available under sections 567a to 567c of this title not to exceed one-half the cost of administering, developing, and managing said lands.

SUBCHAPTER III—RESEARCH PROGRAMS
§ 582a. Congressional findings
It is recognized that research in forestry is the driving force behind progress in developing and utilizing the resources of the Nation's forest and related rangelands. The production, protection, and utilization of the forest resources depend on strong technological advances and continuing

1 See References in Text note below.
development of the knowledge necessary to increase the efficiency of forestry practices and to extend the benefits that flow from forest and related rangelands. It is recognized that the total forestry research efforts of the several State colleges and universities and of the Federal Government are more fully effective if there is close coordination between such programs, and it is further recognized that forestry schools are especially vital in the training of research workers in forestry. It is also recognized that the provisions of this subchapter are essential to assist in providing the research background that undergirds the Forest and Rangeland Renewable Resources Planning Act of 1974 [16 U.S.C. 1600 et seq.], the Renewable Resources Extension Act of 1978 [16 U.S.C. 1671 et seq.], and the Soil and Water Resources Conservation Act of 1977 [16 U.S.C. 2001 et seq.].

To enable the Secretary to carry out the provisions of this subchapter there are authorized to be appropriated such sums as the Congress may from time to time determine to be necessary but not exceeding in any one fiscal year one-half the amount appropriated for Federal forestry research conducted directly by the Department of Agriculture for the fiscal year preceding the year in which the budget is presented for such appropriation. Funds appropriated and made available to the States under this subchapter shall be in addition to allotments or grants that may be made under other authorities.

§ 582a–3. Matching funds; reappropriation to other qualifying institutions; reductions

The amount paid by the Federal Government to any State-certified institutions eligible for assistance under this subchapter shall not exceed during any fiscal year the amount available to and budgeted for expenditure by such college or university during the same fiscal year for forestry research from non-Federal sources, except that for the fiscal years ending June 30, 1971, and June 30, 1972, the matching funds requirement hereof shall not be applicable to the Virgin Islands and Guam, and sums authorized for such years for the Virgin Islands and Guam may be used to pay the total cost of programs for forestry research. The Secretary is authorized to make such expenditures on the certificate of the appropriate official of the college or university having charge of the forestry research for which the expenditures as herein provided are to be made. If any or all of the colleges or universities certified for receipt of funds under this subchapter fails to make available and budget for expenditure for forestry research in any fiscal year sums at least as much as the amount for which it would be eligible for such year under this subchapter, the difference between the Federal funds available and the funds made available and budgeted for expenditure by the college or university shall be reappropriated by the Secretary to other eligible colleges or universities of the same State if there be any which qualify therefor and, if there be none, the Secretary shall reapportion such differences to the qualifying colleges and universities of other States participating in the forestry research program. If in any year the amount made available by a State from its own funds (including any revenue-sharing funds) to a State-certified institution eligible for assistance under this subchapter is reduced because of an increase in the allotment made available under this subchapter, the allotment of such State-certified institution from the next succeeding appropriation shall be reduced in an equivalent amount. The Secretary shall reappropriate the amount of such reduction to other eligible colleges and universities of the same State if there be any that qualify therefor and, if there be none, the Secretary shall reappropriate such amount to the qualifying colleges and universities of other States participating in the forestry research program.

**AMENDMENTS**

1981—Pub. 1972—Pub. L. 92–318 provided that for fiscal years ending June 30, 1971, and June 30, 1972, the matching funds requirement shall not be applicable to the Virgin Islands and Guam and sums authorized for such years for the Virgin Islands and Guam may be used to pay the total cost of programs for forestry research.

Such selection shall be made in the same manner as provided for the selection of the county executive director under section 7.21(b)(2) of title 7, Code of Federal Regulations, as in effect on January 1, 1994. Regulations governing payments or grants under this subsection shall be as simple and direct as possible, and, whenever practicable, shall be classified on the following two bases:

(i) Soil-depleting practices.

(ii) Soil-building practices.

(F) Mandatory duties of Secretary

In carrying out this section, the Secretary shall—

(i) insofar as practicable, protect the interests of tenants and sharecroppers;

(ii) accord such encouragement to producer-owned and producer-controlled cooperative associations as will be in harmony with the policy toward cooperative associations set forth in Federal laws and as will tend to promote efficient methods of marketing and distribution;

(iii) in every practicable manner, protect the interests of small producers; and

(iv) in every practical way, encourage and provide for soil-conserving and soil-rebuilding practices.

(G) Discretionary authorities of Secretary

In carrying out this section, the Secretary may use other approved agencies.

(H) Limitations

In carrying out this section, the Secretary shall not have the authority to acquire any land or any right or interest in land.

(e) Apportionment of acreage allotments

(1) In apportioning acreage allotments under this section in the case of wheat and corn, the National and State allotments and the allotments to counties shall be apportioned annually on the basis of the acreage seeded for the production of the commodity during the ten calendar years immediately preceding the calendar year in which the national acreage allotment is determined (plus, in applicable years, the acreage diverted under previous agricultural adjustment and conservation programs), with adjustments for abnormal weather conditions and trends in acreage during the applicable period.

(2) In the case of wheat, the allotment to any county shall be apportioned annually by the Secretary, through the local committees, among the farms within such county on the basis of tillable acres, crop-rotation practices, type of soil, and topography. Not more than 3 percent of such county allotment shall be apportioned to farms on which wheat has not been planted during any of the three marketing years immediately preceding the marketing year in which the allotment is made. Notwithstanding any other provision of this section, the allotments established, or which would have been established, for any farm acquired in 1940 or thereafter by the United States for national-defense
purposes shall be placed in an allotment pool and shall be used only to establish allotments for other farms owned or acquired by the owner of the farm so acquired by the United States. The allotments so made for any farm, including a farm on which wheat has not been planted during any of the three marketing years preceding the marketing year in which the allotment is made, shall compare with the allotments established for other farms in the same area which are similar except for the past acreage of wheat.

(3) In the case of corn, the allotment to any county shall be apportioned annually by the Secretary, through the local committees, among the farms within such county on the basis of tillable acreage, type of soil, topography, and crop rotation practices.

(5) In determining normal yield per acre for any county under this section in the case of wheat or corn, the normal yield shall be the average yield per acre therefor for such commodity during the ten calendar years immediately preceding the calendar year in which such yield is determined, adjusted for abnormal weather conditions and trends in yields. If for any reason there is no actual yield, or the data therefor are not available for any year, then an appraised yield for such year, determined in accordance with regulations of the Secretary, shall be used. If, on account of drought, flood, insect pests, plant disease, or other uncontrollable natural causes, the yield in any year of such ten-year period is less than 75 per centum of the average (computed without regard to such year), such year shall be eliminated in calculating the normal yield per acre. Such normal yield per acre for any county need be redetermined only when the actual average yield for the ten calendar years immediately preceding the calendar year in which such yield is being reconsidered differs by at least 5 per centum from the actual average yield for the ten years upon which the existing normal yield per acre for the county was based.

(6) In determining normal yield per acre for any farm under this section in the case of wheat or corn, the normal yield shall be the average yield per acre thereon for such commodity during the ten calendar years immediately preceding the calendar year in which such yield is determined, adjusted for abnormal weather conditions and trends in yields. If for any such year the data are not available, or there is no actual yield, then the normal yield for the farm shall be appraised in accordance with regulations of the Secretary, taking into consideration abnormal weather conditions, the normal yield for the county, and the yield in years for which data are available.

(g) Assignment of payments

A payment that may be made to a producer under this section may be assigned only in accordance with regulations issued by the Secretary. This subsection shall not authorize any suit against or impose any liability on the Secretary, any disbursing agent, or any agency of the United States if payment is made to the producer without regard to the existence of any such assignment.

Congressional Findings Respecting the Agricultural Stabilization and Conservation County and Community Committee System
Pub. L. 97–218, title IV, §401, July 20, 1982, 96 Stat. 216, provided that: “Congress finds that agricultural stabilization and conservation county and community committees have served, and should continue to serve, a vital function in implementing, at the local level, farm commodity, soil conservation, and related programs; and that, by assisting the United States Department of Agriculture to conduct such programs effectively, such committees provide substantial benefits to agriculture and the Nation. Congress further finds that the agricultural stabilization and conservation county and community committee system has developed, over the years, into a highly efficient mechanism for implementing such programs at the local level. Therefore, it is the sense of Congress that the Secretary of Agriculture should ensure that the structure and operations of the agricultural stabilization and conservation county and community committees, as heretofore developed to enable such committees to meet the responsibilities assigned them under section 8(b) of the Soil Conservation and Domestic Allotment Act [subsection (b) of this section], and related statutes and regulations, be preserved and strengthened.”

§ 590z–1. Prerequisites for construction of project

(a) Investigation and report to President

No construction of a project may be undertaken pursuant to the authority of this subchapter unless and until the Secretary has made an investigation thereof and has submitted to the President his report and findings on

(i) the engineering feasibility of the proposed construction;

(ii) the estimated cost of the proposed construction;

(iii) the part of the estimated cost which properly can be allocated to irrigation;

(iv) the part of the estimated cost which properly can be allocated to flood control as provided by section 332 of this title;

(v) the part of the estimated cost which probably can be repaid by the water users in accordance with the requirements of section 590z–2 of this title;

(vi) the part of the estimated cost which can properly be allocated to the irrigation of Indian trust and tribal lands, and be repayable in accordance with existing law relating to Indian lands;

(vii) the part of the estimated cost which can properly be allocated to flood control as recommended by the Secretary after consulta-
tion with the Chief of Engineers, Department of the Army.

In connection with each such investigation, report, and finding, the Secretary shall consult with the Secretary of Agriculture regarding participation in the proposed project by the Department of Agriculture under the authority of sections 590z–3 and 590z–4 of this title; and the Secretary shall also transmit to the President a report by the Secretary of Agriculture to the President on the participation, if any, proposed by the Department of Agriculture. The project shall be deemed authorized and may be undertaken pursuant to this subchapter if (1) the Secretary finds and certifies to the President that the project has engineering feasibility and that the water users probably can repay, in accordance with the requirements of section 590z–2 of this title an amount equal to or in excess of that part of the estimated cost allocated by him to irrigation to be met by expenditure of moneys appropriated pursuant to section 590z–10(1) of this title; and (2) the President has approved said report and findings and has found that services, labor, materials, easements, and other property, including money, for the construction of the project, should be made available to the Department of the Interior by the Works Projects Administration or other Federal agencies, to the extent found necessary by the Secretary to make up the difference between the estimated cost of project construction and (i) the part thereof to be met by expenditure of moneys appropriated pursuant to section 590z–10(1) of this title, together with (ii) such services, materials, money, easements, and other property as non-Federal agencies or parties have agreed to contribute and the Secretary has found acceptable under section 590z of this title.

(b) Construction of physical features

No actual construction of the physical features of a project shall be undertaken unless and until (1) the Secretary has found that lands or interests in lands, deemed necessary for the construction and operation of the major features of the projects have been secured, or sufficient progress made in their procurement to indicate the probability that all these lands or interests in lands can be secured, with titles and at prices satisfactory to him; and (2) the Secretary has found (i) that water rights adequate for the purposes of the project have been acquired with titles and at prices satisfactory to him, or that such water rights have been initiated and in his judgment can be perfected in conformity with State law and any applicable interstate agreements and in a manner satisfactory to him; and (ii) that such water rights can be utilized for the purposes of the project in conformity with State law and any applicable interstate agreements and in a manner satisfactory to him.

(c) Division of project

Any part of a project hereunder may be designated as a division of the project by the Secretary if he, after consultation with the Secretary of Agriculture, deems this desirable for orderly and efficient construction or administration. The term "project", as used in subsection (b) of this section and section 590z–2 of this title, shall be deemed to mean also "division of a project", designated as provided in this subsection. Any project authorized for construction from appropriations under the head "Water Conservation and Utility Projects" in the Interior Department Appropriation Act, 1940 [ch. 119] (53 Stat. 685), hereinafter called the 1940 water conservation appropriation, may be designated by the Secretary, upon agreement with the Secretary of Agriculture, a project under this subchapter, and shall thereupon be subject to all the provisions and requirements thereof, except those of subsections (a) and (b) of this section.

TRANSFER OF FUNCTIONS

section have been executed. Where practicable in the judgment of the Secretary, the repayment contract shall be with a water users’ organization or organizations satisfactory in form and powers to the Secretary; and otherwise the repayment contract shall be with the individual landowners. The contract or contracts shall contain such provisions as the Secretary deems necessary to carry out the purposes of this subchapter and to protect the interests of the United States.

(b) "Reimbursable construction costs" defined

The term "reimbursable construction costs," as used in this subchapter means that part of the costs of investigating, constructing, and operating and maintaining the project, which are allocated by the Secretary to irrigation, and which are met by expenditures of moneys thereto appropriated under the authority of section 590z–10(1) of this title, plus such amounts as the President, under section 590z(1) of this title, may determine to be reimbursable: Provided, That administrative expenses incurred in the District of Columbia in connection with the investigation construction, or operation and maintenance of a project shall not be included in the reimbursable construction costs nor shall they be charged to the water users in any way.

(c) Terms

The repayment contract or contracts for a project shall, in their aggregate, provide for repayment to the United States of the total amount of the reimbursable construction costs of the project allocated to irrigation. Each such contract shall provide, among other things, that—

(1) The Secretary shall fix a development period for each project of not to exceed ten years from and including the first calendar year in which water is delivered for the lands in said project; and during the development period water shall be delivered to the lands in the project involved at a charge per acre-foot, or other charge, to be fixed by the Secretary each year and to be paid in advance of delivery of water. Such charges shall be fixed with a view of returning such amounts as in the Secretary’s judgment are justified by the rate of project development, including as a minimum the return over the full development period of that part of the cost of operating and maintaining the project, during said period, allocated by the Secretary to irrigation; and collections of such charges in excess of the cost of the operation and maintenance during the development period, as thereafter determined by the Secretary, shall be credited to the reimbursable construction costs of the project in the manner determined by the Secretary.

(2) The United States shall operate and maintain the project during the development period fixed for it. After the development period, the United States shall operate and maintain the project as long as is deemed necessary by the Secretary, and shall be paid in advance for each year that part of the estimated cost of operating and maintaining the project for such year allocated by the Secretary to irrigation. In the event charges due the United States are not paid when due the United States may, at its election, suspend operations in whole or in part.

(3) The repayment of the reimbursable construction costs, except as to Indian lands which shall be repayable in accordance with existing law relating to Indian lands, shall be spread in not to exceed forty annual installments, of the number and amounts fixed by the Secretary; and the first annual installment under each contract shall become due and payable on the date fixed by the Secretary, in the year next following the last year of the development period fixed under subsection (c)(1) of this section: Provided, That the provisions of this subsection shall not be construed to modify the provisions of special legislation pertaining to any particular project.

(4) The water users or their organization will take such measures as the Secretary deems proper to secure the adoption of proper accounting, to protect the condition of project works, and to provide for the proper use thereof, and to protect project lands against deterioration due to improper use of water. Delinquencies in any payments due to the United States shall be penalized by a penalty of not less than one-half of 1 per centum per month. No water shall be delivered to or for any land or party while either said land or the organization in which it is located or said party is in arrears in the advance payment of operation and maintenance charges or development period charges under subsection (c)(1) of this section, or in arrears for more than twelve months in the payment of an installment of the reimbursable construction costs.

(5) The Secretary shall establish the size of farm units of irrigable lands on each project in accordance with his findings of the area sufficient in size for the support of a family on the lands to be irrigated. No water may be delivered to or for more than the farm unit area of irrigable lands in the project owned by a single landowner: Provided, That this subsection shall not apply to the United States or any agency or instrumentality thereof, corporate or otherwise. No water shall be delivered to or for any land, in a project area, transferred or disposed of subsequent to approval of the project by the President, and within three years from the time water becomes available, unless and until it has been shown to the satisfaction of the Secretary or his duly authorized representative that the land has been transferred or disposed of at a price not exceeding the appraised value as determined by the Secretary or his duly authorized representatives, and upon proof of fraudulent representation as to the true consideration involved the Secretary is authorized to cancel the water right attaching to the land involved: Provided further, That nothing herein shall be construed to create authority to interfere with the delivery of water under prior rights.

Codification

The first sentence of this section is from section 1 of act June 3, 1878.

'The words of this section reading ‘bona fide residents of the States of Colorado, Nevada, New Mexico, Arizona, Utah, Wyoming, North Dakota, South Dakota, Idaho, or Montana,’ read in the original section, ‘bona fide residents of the State of Colorado, or Nevada, or either of the Territories of New Mexico, Arizona, Utah, Wyoming, Dakota, Idaho, or Montana.’’

A proviso at the close of section 1 of act June 3, 1878, was combined with a similar proviso in act Jan. 11, 1921, to form the last sentence of this section.

Act of Jan. 11, 1921, is the source of the remainder of the section.

As originally enacted that act began with the following language: ‘‘Section 1 of an Act entitled ‘An Act authorizing the citizens of Colorado, Nevada, and the Territories to fell and remove timber on the public domain for mining and domestic purposes,’ approved June 3, 1878, chapter 150, page 88, volume 20, United States Statutes at Large, and section 8 of an Act entitled ‘An Act to repeal timber-culture laws, and for other purposes,’ approved March 3, 1891, as amended by an Act approved March 3, 1891, chapter 599, page 1093, volume 26, United States Statutes at Large, and the several Acts amendatory thereof, be, and the same are hereby, extended so that,’ etc.

This language was omitted as having been given effect by the combination of the remaining language of the act with section 1 of act June 3, 1878, to form this section, by section 612 of this title.

In the section as originally enacted the words “Territory of Alaska” read “District of Alaska,” and the words “the Territory of,” preceded the word “Utah.” Act July 1, 1898, amended section in the manner set out in section 611 of this title.

Act Mar. 3, 1919, ch. 111, amended section in the manner set out in section 608 of this title.

AMENDMENTS

§618. Timber contract payment modification

(a) Statement of purpose, authorization, scope, qualifications, financial requirements, etc., for buy-out

(1) Notwithstanding any other provisions of law, in order to retain jobs, to preserve free competition, to utilize the potential productive capacity of plants, to preserve small communities dependent on a single economic sector to assure an open and competitive market for future sales of Government timber, and to lessen the impact of unemployment, the Secretary of Agriculture for national forest lands and the Secretary of the Interior for public lands under their respective jurisdictions are authorized and directed to permit a requesting purchaser to return to the Government a volume of the purchaser's timber contracts as determined under paragraph (2) upon payment of a buy-out charge from such purchaser in an amount as determined under paragraph (3). The purchaser shall be released from further obligation to cut, remove, and pay for timber under such contract upon payment, or arrangement for payment as provided under paragraph (3), of such buy-out charge and completion of any obligation required pursuant to paragraph (4)(B). The Government does not hereby surrender any other claim against a purchaser which arose under a contract prior to effectuation of this release and not in connection with this release from obligation to cut, harvest and pay for timber.

(2)(A) To qualify for buy-out under this section, a timber sales contract must have been bid prior to January 1, 1982, for an original contract period of 10 years or less, and be held as of June 1, 1984: Provided, That any such contract that was defaulted after January 1, 1981 may qualify for buy-out under this section so long as (i) settlement for damages has not been reached between the purchaser and the United States; and (ii) the purchaser's loss on all of its qualifying timber sales contracts, as determined in paragraph (3)(A), is in excess of 50 per centum of the net book worth of the purchaser. A contract is qualified for buy-out notwithstanding the fact that it was reformulated after October 1, 1983, pursuant to Bureau of Land Management Instrucional Memorandum 83–743 or is included in a Forest Service multisale plan pursuant to the President's program of July 28, 1983.

(B) A purchaser holding more than twenty-seven million three hundred thousand board feet of net merchantable sawtimber as of January 1, 1982, in qualifying contracts as provided in subparagraph (A) shall be entitled to buy out up to 50 per centum of such timber volume up to a maximum of two hundred million board feet.

(C) A purchaser holding twenty-seven million three hundred thousand or less board feet of net merchantable sawtimber as of January 1, 1982, in qualifying contracts as provided in subparagraph (A) shall be entitled to buy out up to fifteen million board feet of such timber volume or one contract, whichever is greater in volume.

(D) So long as the volume limitation of two hundred million board feet is not exceeded, the percentage limitation of subparagraph (B) or the volume limitation of subparagraph (C) may be exceeded by a volume amount not to exceed the volume of the smallest volume contract bought out by the purchaser if the purchaser could not otherwise attain his percentage or volume entitlement.

(E) Timber returned to the Government pursuant to this subsection shall be available for resale by the Government upon payment, or arrangement for payment, of the buy-out charge and completion of obligations, if any, under paragraph (4)(B).

(3)(A) Sums collected by the appropriate Secretary in connection with the buy-out of contracts pursuant to this subsection shall be deposited in and paid from the Treasury in the same manner as moneys received from timber sales from such lands and shall be determined as follows: The purchaser's loss on any qualifying timber sales contracts shall be determined by the Forest Service or the Bureau of Land Management by subtracting the current delivered log value (as determined by such agency) from the delivered log cost based on the current contract return (as determined by such agency) of any such contracts. If such loss is—

(i) in excess of 100 per centum of the net book worth of the purchaser, the buy-out cost shall be $10 per one thousand board feet of currently held volume bought out;

(ii) in excess of 50 per centum up to 100 per centum of the net book worth of the purchaser, the buy-out cost shall be 10 per centum of the contract overbid but at least $10 per one thousand board feet of currently held volume bought out; or

(iii) up to 50 per centum or less of the net book worth of the purchaser, the buy-out cost shall be 15 per centum for the purchaser's first one hundred twenty-five million up to one hundred fifty million, 25 per centum for additional board feet above one hundred fifty million, 25 per centum for additional board feet above one hundred fifty million up to one hundred seventy-five million, and 30 per centum for additional board feet above one hundred seventy-five million up to two hundred million, of the contract overbid but at least $10 per one thousand board feet of currently held volume bought out.

(B) For purposes of this paragraph, the term "net book worth" does not include the value of any outstanding uncut Federal timber sales contracts.
(C) Net book worth shall be, subject to agency verification, as determined by an independent certified public accountant in accordance with generally accepted accounting standards for the timber industry.

(D) A purchaser may elect to pay the buy-out cost imposed by subparagraph (A)(iii) in lieu of utilizing loss and net book worth determinations.

(E) Where a purchaser is not able to obtain sufficient credit elsewhere to finance the buy-out charge at reasonable rates and terms, purchaser may, upon payment of 5 per centum of the buy-out charge, pay the remainder of the buy-out charge in equal quarterly payments over a period not to exceed 5 years at an interest rate adjusted with each payment equal to the average market yield of outstanding Treasury obligations with remaining years to maturity of five years payment must be secured by bond, deposited securities or other forms of security acceptable to the appropriate Secretary in an amount sufficient to cover the entire buy-out payment.

(F) For purposes of this paragraph, the term “contract overbid” is the difference between the advertised contract rate and the rate the purchaser bid.

(4)(A) Contracts returned pursuant to this subsection under which no harvest has begun shall be returned in full.

(B) Contracts returned to the appropriate Secretary pursuant to this subsection under which harvest has begun, shall be returned conditionally and shall not be considered as part of the outstanding volume of timber under contract for the purposes of this Act. The return shall become final after the purchaser has completed stages of contractual obligations for the units on which the harvest has begun, including work on roads, to logical stopping points as determined by the Secretary after consultation with the purchaser. All remaining unharvested units must be returned.

(C) The appropriate Secretary may reject return of a contract on which harvest has begun if he determines, in his discretion, that the remaining unharvested portion is substantially unrepresentative of the original sale as a whole in terms of species, logging methods, or other appropriate criteria, and that accepting the return of such contract would seriously disadvantage the Government.

(5)(A) Timber from returned or defaulted contracts shall be offered for resale in an orderly fashion as part of, and not in addition to, the normal congressionally authorized timber sales program, and in a manner which does not disrupt regional markets or artificially depress domestic timber prices. Timber from returned or defaulted contracts shall be given preference for resale in the Forest Service timber sales programs.

(b) Extension of time for performance of contracts; covered contracts; damages for default

(1) Timber contracts bid prior to January 1, 1982, not bought out pursuant to subsection (a) of this section and included in the President’s program of July 28, 1983, shall not be subject to any further extension of time for performance except as permitted under the President’s program of July 28, 1983, as implemented by the Secretary of Agriculture and the Secretary of the Interior, providing for the extension of certain timber sale contracts and requiring the phased harvesting of such extended contracts, which program is hereby ratified except as modified by paragraph (2).

(2) Notwithstanding any other provision of law, timber contracts extended pursuant to the President’s program of July 28, 1983, as implemented by the Secretary of Agriculture shall not be subject to inclusion of additional provisions for calculating damages for default.
(c) Monitoring of bidding patterns on timber sale contracts; discouragement of bids; reporting requirements

The Secretary of Agriculture and the Secretary of the Interior shall monitor bidding patterns on timber sale contracts and take action to discourage bidding at such a rate as would indicate that the bidder, if awarded the contract, would be unable to perform the obligations as required, or that the bid is otherwise for the purpose of speculation. Each Secretary shall include in the annual report to Congress information concerning actions taken under this subsection.

(d) Cash down-payment and periodic payments for contracts; effective date

Effective January 1, 1985, in any contract for the sale of timber from the National Forests, the Secretary of Agriculture shall require a cash down-payment at the time the contract is executed and periodic payments to be made over the remaining period of the contract.

SHORT TITLE

Section 1 of Pub. L. 98–478 provided: ‘‘That this Act [enacting this section and sections 539f and 619 of this title] may be cited as ‘Federal Timber Contract Payment Modification Act.’’’

ADMINISTRATIVE APPEALS OF TIMBER SALES

Pub. L. 99–591, § 101(h) [title III, § 320], Oct. 18, 1986, 100 Stat. 3341–242, 3341–287, provided that: ‘‘To assure that National Forest and Bureau of Land Management timber included in sales defaulted by the purchaser, or returned under the Federal Timber Contract Payment Modification Act (Public Law 98–478) (see Short Title note above), is available for resale in a timely manner, such sales shall be subject only to one level of administrative appeal. This limitation shall not abridge the right of judicial review. Actions on such administrative appeals should be completed within 90 days of receipt of the notice of appeal. Sales that are reoffered shall be modified, including minor additions or deletions, as appropriate, to reduce adverse environmental impacts, pursuant to current land management plans and guidelines, and such modifications in themselves should not be construed to require the preparation of new or supplemental environmental assessments. This section shall not apply to any decision on the determination of damages due to the Government for defaulted or canceled contracts.’’

§ 619. Emergency stumpage rate redeterminations in Alaska

(a) Application; applicable period

Emergency stumpage rate redetermination shall be made upon the written application of the purchaser of National Forest timber in Alaska, bid after January 1, 1974, and rates established as a result thereof shall be effective for timber scaled during a period between January 1, 1981, and five years from October 16, 1984.

(b) Competitive effect of modification of contracts

In making the emergency rate redeterminations the Secretary may modify existing contract terms, including the amount of the bid premium, in order to provide rates which will permit the holders of contracts bid after January 1, 1974, to be competitive with other purchasers of National Forest timber.

(c) Excepted contracts

The provisions of this section shall not apply to contracts held by the holders of 50-year timber sale contracts in Alaska.

§ 620. Findings and purposes

(a) Findings

The Congress makes the following findings:

(1) Timber is essential to the United States.

(2) Forests, forest resources, and the forest environment are exhaustible natural resources that require efficient and effective conservation efforts.

(3) In the interest of conserving those resources, the United States has set aside millions of acres of otherwise harvestable timberlands in the western United States, representing well over 100,000,000,000 board feet of otherwise harvestable timber.

(4) In recent years, administrative, statutory, or judicial action has been taken to set aside an increased amount of otherwise harvestable timberlands for conservation purposes.

(5) In the next few months and years, additional amounts of otherwise harvestable timberlands may be set aside for conservation purposes, pursuant to the Endangered Species Act of 1973 [16 U.S.C. 1531 et seq.], the National Forest Management Act of 1976, or other expected statutory, administrative, and judicial actions.

(6) There is evidence of a shortfall in the supply of unprocessed timber in the western United States.

(7) There is reason to believe that any shortfall which may already exist may worsen unless action is taken.

(8) In conjunction with the broad conservation actions expected in the next few months and years, conservation action is necessary with respect to exports of unprocessed timber.

(b) Purposes

The purposes of sections 620 to 620j of this title are—

(1) to promote the conservation of forest resources in conjunction with State and Federal resources management plans, and other actions or decisions, affecting the use of forest resources;

(2) to take action essential for the acquisition and distribution of forest resources or products in short supply in the western United States;

(3) to take action necessary, to meet the goals of Article XI 2.(a) of the GATT 1994 (as defined in section 3501(1)(B) of title 19), to ensure sufficient supplies of certain forest re-
sources or products which are essential to the United States;
(4) to continue and refine the existing Federal policy of restricting the export of unprocessed timber harvested from Federal lands in the western United States; and
(5) to effect measures aimed at meeting these objectives in conformity with the obligations of the United States under the WTO Agreement and the multilateral trade agreements (as such terms are defined in paragraphs (9) and (4), respectively, of section 3501 of title 19).

§620a. Restrictions on exports of unprocessed timber originating from Federal lands

(a) Prohibition on export of unprocessed timber originating from Federal lands

No person who acquires unprocessed timber originating from Federal lands west of the 100th meridian in the contiguous 48 States may export such timber from the United States, or sell, trade, exchange, or otherwise convey such timber to any other person for the purpose of exporting such timber from the United States, unless such timber has been determined under subsection (b) of this section to be surplus to the needs of timber manufacturing facilities in the United States.

(b) Surpluses

(1) Determinations by Secretary concerned

The prohibition contained in subsection (a) of this section shall not apply to specific quantities of grades and species of unprocessed timber originating from Federal lands which the Secretary concerned determines to be surplus to domestic manufacturing needs.

(2) Procedures

Any determination under paragraph (1) shall be made in regulations issued in accordance with section 553 of title 5. Any such determination shall be reviewed at least once in every 3-year period. The Secretary concerned shall publish notice of such review in the Federal Register, and shall give the public an opportunity to comment on such review.

§620b. Limitations on substitution of unprocessed Federal timber for unprocessed timber exported from private lands

(a) Direct substitution

(1) Except as provided in paragraph (3) and subsection (c) of this section, no person may purchase directly from any department or agency of the United States unprocessed timber originating from Federal lands which the Secretary concerned determines to be surplus to domestic manufacturing needs.

(A) such unprocessed timber is to be used in substitution for exported unprocessed timber originating from private lands; or
(B) such person has, during the preceding 24-month period, exported unprocessed timber originating from private lands.

(2) Notwithstanding paragraph (1)—

(A) Federal timber purchased pursuant to a contract entered into between the purchaser and the Secretary concerned before the date on which regulations to carry out this subsection are issued under section 620f of this title shall be governed by the regulations of the Secretary concerned in effect before such date that restrict the substitution of unprocessed timber originating from Federal lands for exported timber originating from private lands;
(B) in the 1-year period beginning on August 20, 1990, any person who operates under a Cooperative Sustained Yield Unit Agreement, and who has an historic export quota shall be limited to entering into contracts under such a quota to a volume equal to not more than 66 percent of the person’s historic export quota used during fiscal year 1989;
(C) a person referred to in subparagraph (B) shall reduce the person’s remaining substitution volume by an equal amount each year thereafter such that no volume is substituted under such a quota in fiscal year 1995 or thereafter; and
(D) the 24-month period referred to in paragraph (1)(B) shall not apply to any person who—
   (i) before August 20, 1990, has, under an historic export quota approved by the Secretary concerned, purchased unprocessed timber originating from Federal lands west of the 100th meridian in the contiguous 48 States in substitution for exported unprocessed timber originating from private lands;
   (ii) certifies to the Secretary concerned, within 3 months after August 20, 1990, that the person will, within 6 months after August 20, 1990, cease exporting unprocessed timber originating from private lands; and
   (iii) ceases exports in accordance with such certification.

(3) APPLICABILITY.—In the case of the purchase by a person of unprocessed timber originating from Federal lands west of the 119th meridian in the State of Washington, paragraph (1) shall apply only if—
   (A) the private lands referred to in paragraph (1) are owned by the person; or
   (B) the person has the exclusive right to harvest timber from the private lands described in paragraph (1) during a period of more than 7 years, and may exercise that right at any time of the person’s choosing.

(b) Indirect substitution

(1) In general

Except as provided in paragraph (2), no person may, beginning 21 days after August 20, 1990, purchase from any other person unprocessed timber originating from Federal lands west of the 100th meridian in the contiguous 48 States if such person would be prohibited from purchasing such timber directly from a department or agency of the United States. Acquisitions of western red cedar which are domestically processed into finished products to be sold into domestic or international markets are exempt from the prohibition contained in this paragraph.

(2) Exceptions

(A) The Secretary of Agriculture shall, as soon as practicable but not later than 9 months after August 20, 1990, establish, by rule, a limited amount of unprocessed timber originating from Federal lands described in subparagraph (B) which may be purchased by a person otherwise covered by the prohibition contained in paragraph (1). Such limit shall equal—
   (i) the amount of such timber acquired by such person, based on the higher of the applicant’s actual timber purchasing receipts or the appropriate Federal agency’s records, during fiscal years 1988, 1989, and 1990, divided by 3, or
   (ii) 15 million board feet,

whichever is less, except that such limit shall not exceed such person’s proportionate share, with respect to all persons covered under this paragraph, of 50 million board feet.

(B) The Federal lands referred to in subparagraph (A) are Federal lands administered by the United States Forest Service Region 6 that are located north of the Columbia River from its mouth and east to its first intersection with the 119th meridian, and from that point north of the 46th parallel and east.

(C) Any person may sell, trade, or otherwise exchange with any other person the rights obtained under subparagraph (A), except that such rights may not be sold, traded, or otherwise exchanged to persons already in possession of such rights obtained under subparagraph (A).

(D) Federal timber purchased from Federal lands described in subparagraph (B) pursuant to a contract entered into between the purchaser and the Secretary of Agriculture before the date on which regulations to carry out this subsection are issued under section 620f of this title shall be governed by the regulations of the Secretary of Agriculture in effect before such date that restrict the substitution of unprocessed timber originating from Federal lands for exported timber originating from private lands.

(c) Sourcing areas

(1) In general

The prohibitions contained in subsections (a) and (b) of this section shall not apply with respect to the acquisition of unprocessed timber originating from Federal lands within a sourcing area west of the 100th meridian in the contiguous 48 States approved by the Secretary concerned under this subsection by a person who—

   (A) in the previous 24 months, has not exported unprocessed timber originating from private lands within the sourcing area; and

   (B) during the period in which such approval is in effect, does not export unprocessed timber originating from private lands within the sourcing area.

The Secretary concerned may waive the 24-month requirement set forth in subparagraph (A) for any person who, within 3 months after August 20, 1990, certifies that, within 6 months after August 20, 1990, such person will, for a period of not less than 3 years, cease exporting unprocessed timber originating from private lands within the sourcing area.

(2) Requirements for application for sourcing areas

The Secretaries concerned shall, not later than 3 months after August 20, 1990, prescribe procedures to be used by a person applying for approval of a sourcing area under paragraph

§ 620b
(1). Such procedures shall require, at a minimum, the applicant to provide—

(A) information regarding the location of private lands (except private land located in the northwestern private timber open market area) from which such person has, within the previous year, harvested or otherwise acquired unprocessed timber which has been exported from the United States; and

(B) information regarding the location of each timber manufacturing facility owned or operated by such person within the proposed sourcing area boundaries at which the applicant proposes to process timber originating from Federal lands.

The prohibition contained in subsection (a) of this section shall not apply to a person before the date which is 1 month after the procedures referred to in this paragraph are prescribed. With respect to any person who submits an application in accordance with such procedures by the end of the time period set forth in the preceding sentence, the prohibition contained in subsection (a) of this section shall not apply to such person before the date on which the Secretary concerned approves or disapproves such application.

(3) Grant of approval for sourcing areas for processing facilities located outside the northwestern private timber open market area

(A) In general

For each applicant, the Secretary concerned shall, on the record and after an opportunity for a hearing, not later than 4 months after receipt of the application for a sourcing area, either approve or disapprove the application. The Secretary concerned may approve such application only if the Secretary determines that the area that is the subject of the application, in which the timber manufacturing facilities at which the applicant desires to process timber originating from Federal lands are located, is geographically and economically separate from any geographic area from which that person harvests for export any unprocessed timber originating from private lands.

(B) For timber manufacturing facilities located in Idaho

Except as provided in subparagraph (D), in making a determination referred to in subparagraph (A), the Secretary concerned shall consider the private timber export and the Federal timber sourcing patterns for the applicant’s timber manufacturing facilities, as well as the Federal timber sourcing patterns for the timber manufacturing facilities of other persons in the same local vicinity of the applicant, and the relative similarity of such Federal timber sourcing patterns. Private timber sourcing patterns shall not be a factor in such determinations in States other than Idaho.

(D) Area not included

In deciding whether to approve or disapprove an application, the Secretary shall not—

(i) consider land located in the northwestern private timber open market area; or

(ii) condition approval of the application on the inclusion of any such land in the applicant’s sourcing area, such land being includable in the sourcing area only to the extent requested by the applicant.

(4) Denial of application for sourcing areas for processing facilities located outside the northwestern private timber open market area

(A) Subject to subparagraph (B), and notwithstanding any other provision of law, in the 9-month period after receiving disapproval of an application submitted pursuant to this subsection, the applicant may purchase unprocessed timber originating from Federal lands in the area which is the subject of the application in an amount not to exceed 75 percent of the annual average of such person’s purchases of unprocessed timber originating from Federal lands in the same area during the 5 full fiscal years immediately prior to submission of the application. In the subsequent 6-month period, such person may purchase not more than 25 percent of such annual average, after which time the prohibitions contained in subsection (a) of this section shall fully apply.

(B) If a person referred to in subparagraph (A) certifies to the Secretary concerned, within 90 days after receiving disapproval of such application, that such person shall, within 15 months after such disapproval, cease the export of unprocessed timber originating from private lands from the geographic area determined by the Secretary for which the application would have been approved, such person may continue to purchase unprocessed timber originating from Federal lands in the area which is the subject of the application, without being subject to the restrictions of subparagraph (A), except that such purchases during that 15-month period may not exceed 125 percent of the annual average of such person’s purchases of unprocessed timber originating from Federal lands in the same area during the 5 full fiscal years immediately prior to submission of the application which was disapproved.

(C) For timber manufacturing facilities located in States other than Idaho

Except as provided in subparagraph (D), in making the determination referred to in subparagraph (A), the Secretary concerned shall consider the private timber export and the Federal timber sourcing patterns for the applicant’s timber manufacturing facilities, as well as the Federal timber sourcing patterns for the timber manufacturing facilities of other persons in the same local vicinity of the applicant, and the relative similarity of such Federal timber sourcing patterns. Private timber sourcing patterns shall not be a factor in such determinations in States other than Idaho.
geographic area determined by the Secretary concerned for which the application would have been approved in amounts that exceed 125 percent of the annual average of such person's exports of unprocessed timber from such private lands during the 5 full fiscal years immediately prior to submission of the application.

(5) Review of determinations for sourcing areas for processing facilities located outside the northwestern private timber open market area

Determinations made under paragraph (3) shall be reviewed, in accordance with the procedures prescribed in sections 620 to 620j of this title, not less often than every 5 years.

(6) Sourcing areas for processing facilities located in the northwestern private timber open market area

(A) Establishment

In the northwestern private timber open market area—

(i) A sourcing area boundary shall be a circle around the processing facility of the sourcing area applicant or holder;

(ii) the radius of the circle—

(I) shall be the furthest distance that the sourcing area applicant or holder proposes to haul Federal timber for processing at the processing facility; and

(II) shall be determined solely by the sourcing area applicant or holder;

(iii) a sourcing area shall become effective on written notice to the Regional Forester for Region 6 of the Forest Service of the location of the boundary of the sourcing area;

(iv) the 24-month requirement in paragraph (1)(A) shall not apply;

(v) a sourcing area holder—

(I) may adjust the radius of the sourcing area not more frequently than once every 24 months; and

(II) shall provide written notice to the Regional Forester for Region 6 of the adjusted boundary of its sourcing area before using the adjusted sourcing area; and

(vi) a sourcing area holder that relinquishes a sourcing area may not reestablish a sourcing area for that processing facility before the date that is 24 months after the date on which the sourcing area was relinquished.

(B) Transition

With respect to a portion of a sourcing area established before November 14, 1997, that contains Federal timber under contract before November 14, 1997, and is outside the boundary of a new sourcing area established under subparagraph (A)—

(i) that portion shall continue to be a sourcing area only until unprocessed Federal timber from the portion is no longer in the possession of the sourcing area holder; and

(ii) unprocessed timber from private land in that portion shall be exportable immediately after unprocessed timber from Fed-

eral land in the portion is no longer in the possession of the sourcing area holder.

(7) Relinquishment and termination of sourcing areas

(A) In general

A sourcing area may be relinquished at any time.

(B) Effective date

A relinquishment of a sourcing area shall be effective as of the date on which written notice is provided by the sourcing area holder to the Regional Forester with jurisdiction over the sourcing area where the processing facility of the holder is located.

(C) Exportability

(i) In general

On relinquishment or termination of a sourcing area, unprocessed timber from private land within the former boundary of the relinquished or terminated sourcing area is exportable immediately after unprocessed timber from Federal land from within that area is no longer in the possession of the former sourcing area holder.

(ii) No restriction

The exportability of unprocessed timber from private land located outside of a sourcing area shall not be restricted or in any way affected by relinquishment or termination of a sourcing area.

(d) Domestic transportation and processing of private timber

Nothing in this section restricts or authorizes any restriction on the domestic transportation or processing of timber harvested from private land, except that the Secretary may prohibit processing facilities located in the State of Idaho that have sourcing areas from processing timber harvested from private land outside of the boundaries of those sourcing areas.

(A) Prohibition

Subject to subparagraph (B), each order of the Secretary of Commerce under paragraph (1) or (2) shall also prohibit, notwithstanding any other provision of law, any person from purchasing, directly or indirectly, unprocessed timber originating from public lands in a State if—

(i) such unprocessed timber would be used in substitution for exported unprocessed timber originating from private lands in that State; or

(ii) such person has, during the preceding 24-month period, exported unprocessed timber originating from private lands in that State.

(B) Exemption

The prohibitions referred to in subparagraph (A) shall not apply in a State on or after the date on which—

Not later than June 1, 1995, the Secretary of Commerce, in conjunction with the Secretaries of Agriculture and Interior, shall issue a report to the Congress on the effects of the re-allocation, as a result of the enactment of sections 620 to 620j of this title, of public lands timber resources to the domestic timber processing sector, the ability of the domestic timber processing sector to meet domestic demand for forest products, the volume of trans-shipment of timber originating from public lands across State borders, the effectiveness of rules issued and administered by the Secretary of Commerce pursuant to sections 620 to 620j of this title and the effectiveness of State programs authorized under subsection (d) of this section, and trends in growth and productivity in the domestic timber processing sector.

(e) Federal program

(1) Administration by the Secretary of Commerce

(A) In general

Subject to subparagraph (B), the Secretary of Commerce shall, as soon as possible after July 1, 1993—

(i) determine the species, grades, and geographic origin of unprocessed timber to be prohibited from export in each State that is subject to an order issued under subsection (a) of this section;

(ii) administer the prohibitions consistent with sections 620 to 620j of this title;

(iii) ensure that the species, grades, and geographic origin of unprocessed timber prohibited from export within each State is representative of the species, grades, and geographic origin of timber comprising the total timber sales program of the State; and

(iv) issue such regulations as are necessary to carry out this section.

(B) Exemption

The actions and regulations of the Secretary under subparagraph (A) shall not apply with respect to a State that is admin-

(1) Authorization of new State programs
Notwithstanding subsection (c) of this section, the Governor of any State may submit a program to the Secretary of Commerce for approval that—
(A) implements, with respect to unprocessed timber originating from public lands in that State, the prohibition on exports set forth in the Secretary's order under subsection (a) of this section; and
(B) assures that the species, grades, and geographic origin of unprocessed timber prohibited from export within the State is representative of the species, grades, and geographic origin of timber comprising the total timber sales program of the State.

(2) Approval of State programs
(A) Program approval
Not later than 30 days after the submission of a program under paragraph (1), the Secretary of Commerce shall approve the program unless the Secretary finds that the program will result in the export of unprocessed timber from public lands in violation of sections 620 to 620j of this title and publishes that finding in the Federal Register.

(B) State program in lieu of Federal program
If the Secretary of Commerce approves a program submitted under paragraph (1), the Governor of the State for which the program was submitted, or such other official of that State as the Governor may designate, may administer and enforce the program, which shall apply in that State in lieu of the regulations issued under subsection (c) of this section.

(C) Prior State programs
Not later than 30 days after July 1, 1993, the Governor of any State that had, before May 4, 1993, issued regulations under this subsection as in effect before May 4, 1993, may provide the Secretary of Commerce with written notification that the State has a program that was in effect on May 3, 1993, and that meets the requirements of paragraph (1). Upon such notification, that State may administer and enforce that program in that State until the end of the 9-month period beginning on the date on which the Secretary of Commerce issues regulations under subsection (c) of this section, and that program shall, during the period in which it is so administered and enforced, apply in that State in lieu of the regulations issued under subsection (c) of this section. Such Governor may submit, with such notification, the program for approval by the Secretary under paragraph (1).

(B) January 1, 1991, with respect to States with annual sales volumes greater than 400,000,000 board feet; or

(f) Western red cedar
Nothing in this section shall be construed to supersede subsection 2406(i) of title 50, Appendix.

(j) Surplus timber
The prohibitions on exports contained in orders of the Secretary of Commerce issued under subsection (a) of this section shall not apply to specific quantities of grades and species of unprocessed timber originating from public lands which the Secretary concerned determines by rule to be surplus to the needs of timber manufacturing facilities in the United States. Any such determination may, by rule, be withdrawn by the Secretary concerned if the Secretary determines that the affected timber is no longer surplus to the needs of timber manufacturing facilities in the United States.

(k) Suspension of prohibitions
Notwithstanding any other provision of this section, beginning on January 1, 1998, and annually thereafter, if the President finds, upon re-
view of the purposes and implementation of sections 620 to 620j of this title, that the prohibitions on exports required by subsection (a) of this section no longer promote the purposes of sections 620 to 620j of this title, then the President may suspend such prohibitions, except that such suspension shall not take effect until 90 days after the President notifies the Congress of such finding.

(i) Existing authority not affected

Nothing in sections 620 to 620j of this title shall be construed to limit the authority of the President or the United States Trade Representative to take action authorized by law to respond appropriately to any measures taken by a foreign government in connection with sections 620 to 620j of this title.

(2) Temporary authority

The Secretary of Commerce shall, after notice and an opportunity for a hearing, issue an order referred to in subsection (a) of this section not later than September 30, 1993. The Department of the Interior shall be responsible for coordinating any interagency efforts to address continuing executive branch actions necessary to achieve the objectives of this memorandum. We must continue to be committed to greater intergovernmental communication and cooperation. In addition to working more closely with tribal governments, we must enlist the assistance of, and cooperate with, State and local governments to achieve the objectives of this memorandum. I therefore request that the Department of the Interior work with State fish and game agencies and other relevant State and local authorities to facilitate the objectives of this memorandum.

With commitment and cooperation by all of the agencies in the executive branch and with tribal governments, I am confident that we will be able to accomplish meaningful progress in the distribution of eagles for Native American religious purposes.

§ 668dd. National Wildlife Refuge System

(a) Designation; administration; continuance of resources-management-programs for refuge lands in Alaska; disposal of acquired lands; proceeds

(1) For the purpose of consolidating the authorities relating to the various categories of areas that are administered by the Secretary for the conservation of fish and wildlife, including species that are threatened with extinction, all lands, waters, and interests therein administered by the Secretary as wildlife refuges, areas for the protection and conservation of fish and wildlife that are threatened with extinction, wildlife ranges, game ranges, wildlife management areas, or waterfowl production areas are hereby designated as the “National Wildlife Refuge System” (referred to herein as the “System”), which shall be subject to the provisions of this section, and shall be administered by the Secretary through the United States Fish and Wildlife Service. With respect to refuge lands in the State of Alaska, those programs relating to the management of resources for which any other agency of the Federal Government exercises administrative responsibility through cooperative agreement shall remain in effect, subject to the direct supervision of the United States Fish and Wildlife Service, as long as such agency agrees to exercise such responsibility.

(2) The mission of the System is to administer a national network of lands and waters for the conservation, management, and where appropriate, restoration of the fish, wildlife, and plant resources and their habitats within the United States for the benefit of present and future generations of Americans.

(3) With respect to the System, it is the policy of the United States that—

(A) each refuge shall be managed to fulfill the mission of the System, as well as the specific purposes for which that refuge was established;

(B) compatible wildlife-dependent recreation is a legitimate and appropriate general public use of the System, directly related to the mission of the System and the purposes of many refuges, and which generally fosters refuge management and through which the American public can develop an appreciation for fish and wildlife;

(C) compatible wildlife-dependent recreational uses are the priority general public uses of the System and shall receive priority consideration in refuge planning and management; and

(D) when the Secretary determines that a proposed wildlife-dependent recreational use is a compatible use within a refuge, that activity should be facilitated, subject to such restrictions or regulations as may be necessary, reasonable, and appropriate.

(4) In administering the System, the Secretary shall—

(A) provide for the conservation of fish, wildlife, and plants, and their habitats within the System;

(B) ensure that the biological integrity, diversity, and environmental health of the System are maintained for the benefit of present and future generations of Americans;

(C) plan and direct the continued growth of the System in a manner that is best designed to accomplish the mission of the System, to contribute to the conservation of the ecosystems of the United States, to complement efforts of States and other Federal agencies to conserve fish and wildlife and their habitats, and to increase support for the System and participation from conservation partners and the public;

(D) ensure that the mission of the System described in paragraph (2) and the purposes of each refuge are carried out, except that if a conflict exists between the purposes of a refuge and the mission of the System, the conflict shall be resolved in a manner that first protects the purposes of the refuge, and, to the extent practicable, that also achieves the mission of the System;

(E) ensure effective coordination, interaction, and cooperation with owners of land adjoining refuges and the fish and wildlife agency of the States in which the units of the System are located;

(F) assist in the maintenance of adequate water quantity and water quality to fulfill the mission of the System and the purposes of each refuge;

(G) acquire, under State law, water rights that are needed for refuge purposes;

(H) recognize compatible wildlife-dependent recreational uses as the priority general public uses of the System through which the American public can develop an appreciation for fish and wildlife;

(I) ensure that opportunities are provided within the System for compatible wildlife-dependent recreational uses;

(J) ensure that priority general public uses of the System receive enhanced consideration over other general public uses in planning and management within the System;

(K) provide increased opportunities for families to experience compatible wildlife-dependent recreation, particularly opportunities for parents and their children to safely engage in traditional outdoor activities, such as fishing and hunting;

(L) continue, consistent with existing laws and interagency agreements, authorized or permitted uses of units of the System by other Federal agencies, including those necessary to facilitate military preparedness;

(M) ensure timely and effective cooperation and collaboration with Federal agencies and State fish and wildlife agencies during the course of acquiring and managing refuges; and

(N) monitor the status and trends of fish, wildlife, and plants in each refuge.

(5) No acquired lands which are or become a part of the System may be transferred or otherwise disposed of under any provision of law (except by exchange pursuant to subsection (b)(3) of this section) unless—

(A) the Secretary determines with the approval of the Migratory Bird Conservation Commission that such lands are no longer needed for the purposes for which the System was established; and

(B) such lands are transferred or otherwise disposed of for an amount not less than—

(i) the acquisition costs of such lands, in the case of lands of the System which were purchased by the United States with funds from the migratory bird conservation fund, or fair market value, whichever is greater; or

(ii) the fair market value of such lands (as determined by the Secretary as of the date of the transfer or disposal), in the case of lands of the System which were donated to the System.

The Secretary shall pay into the migratory bird conservation fund the aggregate amount of the proceeds of any transfer or disposal referred to in the preceding sentence.

(6) Each area which is included within the System on January 1, 1975, or thereafter, and which was or is—

(A) designated as an area within such System by law, Executive order, or secretarial order; or

(B) so included by public land withdrawal, donation, purchase, exchange, or pursuant to a cooperative agreement with any State or local government, any Federal department or agency, or any other governmental entity, shall continue to be a part of the System until otherwise specified by Act of Congress, except that nothing in this paragraph shall be construed as precluding—

(i) the transfer or disposal of acquired lands within any such area pursuant to paragraph (5) of this subsection;

(ii) the exchange of lands within any such area pursuant to subsection (b)(3) of this section; or

(iii) the disposal of any lands within any such area pursuant to the terms of any cooperative agreement referred to in subparagraph (B) of this paragraph.

(b) Administration; public accommodations contracts; acceptance and use of funds; exchange of properties; cash equalization payments

In administering the System, the Secretary is authorized to take the following actions:

(1) Enter into contracts with any person or public or private agency through negotiation for the provision of public accommodations when, and in such locations, and to the extent that the Secretary determines will not be inconsistent with the primary purpose for which the affected area was established.

(2) Accept donations of funds and to use such funds to acquire or manage lands or interests therein.

(3) Acquire lands or interests therein by exchange (A) for acquired lands or public lands, or for interests in acquired or public lands, under his jurisdiction which he finds to be suitable for disposition, or (B) for the right to remove, in accordance with such terms and conditions as he may prescribe, products from the acquired or public lands within the System. The values of the properties so exchanged either shall be approximately equal, or if they are not approximately equal the values shall be equalized by the payment of cash to the grantor or to the Secretary as the circumstances require.
(4) Subject to standards established by and the overall management oversight of the Director, and consistent with standards established by this Act, to enter into cooperative agreements with State fish and wildlife agencies for the management of programs on a refuge.

(5) Issue regulations to carry out this Act.

c) Prohibited and permitted activities; application of mining and mineral leasing laws, hunting or fishing regulations, and State laws or regulations

No person shall disturb, injure, cut, burn, remove, destroy, or possess any real or personal property of the United States, including natural growth, in any area of the System; or take or possess any fish, bird, mammal, or other wild vertebrate or invertebrate animals or part or nest or egg thereof within any such area; or enter, use, or otherwise occupy any such area for any purpose; unless such activities are performed by persons authorized to manage such area, or unless such activities are permitted either under subsection (d) of this section or by express provision of the law, proclamation, Executive order, or public land order establishing the area, or amendment thereof: Provided, That the United States mining and mineral leasing laws shall continue to apply to any lands within the System to the same extent they apply prior to October 15, 1966, unless subsequently withdrawn under other authority of law. With the exception of endangered species and threatened species listed by the Secretary pursuant to section 1533 of this title in States wherein a cooperative agreement does not exist pursuant to section 1533(c) of this title, nothing in this Act shall be construed to authorize the Secretary to control or regulate hunting or fishing of resident fish and wildlife on lands not within the System. The regulations permitting hunting and fishing of resident fish and wildlife within the System shall be, to the extent practicable, consistent with State fish and wildlife laws and regulations.

d) Use of areas; administration of migratory bird sanctuaries as game taking areas; rights of way, easements, and reservations; payment of fair market value

(1) The Secretary is authorized, under such regulations as he may prescribe, to—

(A) permit the use of any area within the System for any purpose, including but not limited to hunting, fishing, public recreation and accommodations, and access whenever he determines that such uses are compatible with the major purposes for which such areas were established: Provided, That not to exceed 40 per centum at any one time of any area that has been, or hereafter may be acquired, reserved, or set apart as an inviolate sanctuary for migratory birds, under any law, proclamation, Executive order, or public land order may be administered by the Secretary as an area within which the taking of migratory game birds may be permitted under such regulations as he may prescribe unless the Secretary finds that the taking of any species of migratory game birds in more than 40 percent of such area would be beneficial to the species; and

(B) permit the use of, or grant easements in, over, across, upon, through, or under any areas within the System for purposes such as but not necessarily limited to, powerlines, telephone lines, canals, ditches, pipelines, and roads, including the construction, operation, and maintenance thereof, whenever he determines that such uses are compatible with the purposes for which these areas are established.

(2) Notwithstanding any other provision of law, the Secretary may not grant to any Federal, State, or local agency or to any private individual or organization any right-of-way, easement, or reservation in, over, across, through, or under any area within the System in connection with any use permitted by him under paragraph (1)(B) of this subsection unless the grantee pays to the Secretary, at the option of the Secretary, either (A) in lump sum the fair market value determined by the Secretary as of the date of conveyance to the grantee) of the right-of-way, easement, or reservation; or (B) annually in advance the fair market rental value (determined by the Secretary) of the right-of-way, easement, or reservation. If any Federal, State, or local agency is exempted from such payment by any other provision of Federal law, such agency shall otherwise compensate the Secretary by any other means agreeable to the Secretary, including, but not limited to, making other land available or the loan of equipment or personnel; except that (A) any such compensation shall relate to, and be consistent with, the objectives of the National Wildlife Refuge System, and (B) the Secretary may waive such requirement for compensation if he finds such requirement impracticable or unnecessary. All sums received by the Secretary pursuant to this paragraph shall, after payment of any necessary expenses incurred by him in administering this paragraph, be deposited into the Migratory Bird Conservation Fund and shall be available to carry out the provisions for land acquisition of the Migratory Bird Conservation Act (16 U.S.C. 715 et seq.) and the Migratory Bird Hunting Stamp Act (16 U.S.C. 718 et seq.).

(3)(A)(i) Except as provided in clause (iv), the Secretary shall not initiate or permit a new use of a refuge or expand, renew, or extend an existing use of a refuge, unless the Secretary has determined that the use is a compatible use and that the use is not inconsistent with public safety. The Secretary may make the determinations referred to in this paragraph for a refuge concurrently with development of a conservation plan under subsection (e) of this section.

(ii) On lands added to the System after March 25, 1996, the Secretary shall identify, prior to acquisition, withdrawal, transfer, reclassification, or donation of any such lands, existing compatible wildlife-dependent recreational uses that the Secretary determines shall be permitted to continue on an interim basis pending completion of the comprehensive conservation plan for the refuge.

(iii) Wildlife-dependent recreational uses may be authorized on a refuge when they are compatible and not inconsistent with public safety. Except for consideration of consistency with State laws and regulations as provided for in subsection (m) of this section, no other determina-
tions or findings are required to be made by the refuge official under this Act or the Refuge Recreation Act for wildlife-dependent recreation to occur.

(iv) Compatibility determinations in existence on October 9, 1997, shall remain in effect until and unless modified.

(B) Not later than 24 months after October 9, 1997, the Secretary shall issue final regulations establishing the process for determining under subparagraph (A) whether a use of a refuge is a compatible use. These regulations shall—

(i) designate the refuge official responsible for making initial compatibility determinations;

(ii) require an estimate of the timeframe, location, manner, and purpose of each use;

(iii) identify the effects of each use on refuge resources and purposes of each refuge;

(iv) require that compatibility determinations be made in writing;

(v) provide for the expedited consideration of uses that will likely have no detrimental effect on the fulfillment of the purposes of a refuge or the mission of the System;

(vi) provide for the elimination or modification of any use as expeditiously as practicable after a determination is made that the use is not a compatible use;

(vii) require, after an opportunity for public comment, reevaluation of each existing use, other than those uses specified in clause (viii), if conditions under which the use is permitted change significantly or if there is significant new information regarding the effects of the use, but not less frequently than once every 10 years, to ensure that the use remains a compatible use, except that, in the case of any use authorized for a period longer than 10 years (such as an electric utility right-of-way), the reevaluation required by this clause shall examine compliance with the terms and conditions of the authorization, not examine the authorization itself;

(viii) require, after an opportunity for public comment, reevaluation of each compatible wildlife-dependent recreational use when conditions under which the use is permitted change significantly or if there is significant new information regarding the effects of the use, but not less frequently than in conjunction with each preparation or revision of a conservation plan under subsection (e) of this section or at least every 15 years, whichever is earlier; and

(ix) provide an opportunity for public review and comment on each evaluation of a use, unless an opportunity for public review and comment on the evaluation of the use has already been provided during the development or revision of a conservation plan for the refuge under subsection (e) of this section or has otherwise been provided during routine, periodic determinations of compatibility for wildlife-dependent recreational uses.

(4) The provisions of this Act relating to determinations of the compatibility of a use shall not apply to—

(A) overflights above a refuge; and

(B) activities authorized, funded, or conducted by a Federal agency (other than the United States Fish and Wildlife Service) which has primary jurisdiction over a refuge or a portion of a refuge, if the management of those activities is in accordance with a memorandum of understanding between the Secretary or the Director and the head of the Federal agency with primary jurisdiction over the refuge governing the use of the refuge.

(e) Refuge conservation planning program for non-Alaskan refuge lands

(1)(A) Except with respect to refuge lands in Alaska (which shall be governed by the refuge planning provisions of the Alaska National Interest Lands Conservation Act (16 U.S.C. 3101 et seq.)), the Secretary shall—

(i) propose a comprehensive conservation plan for each refuge or related complex of refuges (referred to in this subsection as a “planning unit”) in the System;

(ii) publish a notice of opportunity for public comment in the Federal Register on each proposed conservation plan;

(iii) issue a final conservation plan for each planning unit consistent with the provisions of this Act and, to the extent practicable, consistent with fish and wildlife conservation plans of the State in which the refuge is located; and

(iv) not less frequently than 15 years after the date of issuance of a conservation plan under clause (iii) and every 15 years thereafter, revise the conservation plan as may be necessary.

(B) The Secretary shall prepare a comprehensive conservation plan under this subsection for each refuge within 15 years after October 9, 1997.

(C) The Secretary shall manage each refuge or planning unit under plans in effect on October 9, 1997, to the extent such plans are consistent with this Act, until such plans are revised or superseded by new comprehensive conservation plans issued under this subsection.

(D) Uses or activities consistent with this Act may occur on any refuge or planning unit before existing plans are revised or new comprehensive conservation plans are issued under this subsection.

(E) Upon completion of a comprehensive conservation plan under this subsection for a refuge or planning unit, the Secretary shall manage the refuge or planning unit in a manner consistent with the plan and shall revise the plan at any time if the Secretary determines that conditions that affect the refuge or planning unit have changed significantly.

(2) In developing each comprehensive conservation plan under this subsection for a refuge or planning unit, the Secretary, acting through the Director, shall identify and describe—

(A) the purposes of each refuge comprising the planning unit;

(B) the distribution, migration patterns, and abundance of fish, wildlife, and plant populations and related habitats within the planning unit;

(C) the archaeological and cultural values of the planning unit;

(D) such areas within the planning unit that are suitable for use as administrative sites or visitor facilities;
(E) significant problems that may adversely affect the populations and habitats of fish, wildlife, and plants within the planning unit and the actions necessary to correct or mitigate such problems; and
(F) opportunities for compatible wildlife-dependent recreational uses.

(3) In preparing each comprehensive conservation plan under this subsection, and any revision to such a plan, the Secretary, acting through the Director, shall, to the maximum extent practicable and consistent with this Act—
(A) consult with adjoining Federal, State, local, and private landowners and affected State agency;
(B) coordinate the development of the conservation plan or revision with relevant State conservation plans for fish and wildlife and their habitats.

(4)(A) In accordance with subparagraph (B), the Secretary shall develop and implement a process to ensure an opportunity for active public involvement in the preparation and revision of comprehensive conservation plans under this subsection. At a minimum, the Secretary shall require that publication of any final plan shall include a summary of the comments made by States, owners of adjacent or potentially affected land, local governments, and any other affected persons, and a statement of the disposition of concerns expressed in those comments.

(B) Prior to the adoption of each comprehensive conservation plan under this subsection, the Secretary shall issue public notice of the draft proposed plan, make copies of the plan available at the affected field and regional offices of the United States Fish and Wildlife Service, and provide opportunity for public comment.

‘‘SEC. 302. FINDINGS AND PURPOSES. ‘‘(a) FINDINGS.—Congress finds that—

‘‘(1) President Theodore Roosevelt began the National Wildlife Refuge System by establishing the first refuge at Pelican Island, Florida, on March 14, 1933;

‘‘(2) the National Wildlife Refuge System is comprised of more than 93,000,000 acres of Federal land managed by the United States Fish and Wildlife Service in more than 532 individual refuges and thousands of waterfowl production areas located in all 50 States and the territories of the United States;

‘‘(3) the System is the only network of Federal land dedicated singularly to wildlife conservation and where wildlife-dependent recreation and environmental education are priority public uses;

‘‘(4) the System serves a vital role in the conservation of millions of migratory birds, dozens of endangered species and threatened species, some of the premier fisheries of the United States, marine mammals, and the habitats on which such species of fish and wildlife depend;

‘‘(5) each year the System provides millions of Americans with opportunities to participate in wildlife-dependent recreation, including hunting, fishing, and wildlife observation;

‘‘(6)(A) public visitation to national wildlife refuges is growing, with more than 35,000,000 visitors annually; and

‘‘(B) it is essential that visitor centers and public use facilities be properly constructed, operated, and maintained;

CONGRESSIONAL FINDINGS

Section 2 of Pub. L. 105–57 provided that: ‘‘The Congress finds the following: ‘‘(1) The National Wildlife Refuge System is comprised of over 92,000,000 acres of Federal lands that have been incorporated within 509 individual units located in all 50 States and the territories of the United States.

‘‘(2) The System was created to conserve fish, wildlife, and plants and their habitats and this conservation mission has been facilitated by providing American opportunities to participate in compatible wildlife-dependent recreation, including fishing and hunting, on System lands and to better appreciate the value of and need for fish and wildlife conservation.

‘‘(3) The System serves a pivotal role in the conservation of migratory birds, anadromous and interjurisdictional fish, marine mammals, endangered and threatened species, and the habitats on which these species depend.

‘‘(4) The System assists in the fulfillment of important international treaty obligations of the United States with regard to fish, wildlife, and plants and their habitats.

‘‘(5) The System includes lands purchased not only through the use of tax dollars but also through the proceeds from sales of Duck Stamps and national wildlife refuge entrance fees. It is a System that is financially supported by those benefiting from and utilizing it.

‘‘(6) When managed in accordance with principles of sound fish and wildlife management and administration, fishing, hunting, wildlife observation, and environmental education in national wildlife refuges have been and are expected to continue to be generally compatible uses.

‘‘(7) On March 25, 1996, the President issued Executive Order 12996 [set out below], which recognized ‘compatible wildlife-dependent recreational uses involving hunting, fishing, wildlife observation and photography, and environmental education and interpretation as priority public uses of the Refuge System’.

‘‘(8) Executive Order 12996 is a positive step and serves as the foundation for the permanent statutory changes made by this Act [see Short Title of 1997 Amendment note above].’’

STATUTORY CONSTRUCTION WITH RESPECT TO ALASKA

Section 9 of Pub. L. 105–57 provided that: ‘‘(a) In general.—Nothing in this Act [see Short Title of 1997 Amendment note above] is intended to affect—

‘‘(1) the provisions for subsistence uses in Alaska set forth in the Alaska National Interest Lands Conservation Act (Public Law 96–487) [see Short Title note set out under section 3101 of this title], including those in titles III [enacting provisions listed in a note set out under section 3145 of this title], and VIII [16 U.S.C. 3111 et seq.] of that Act;

‘‘(2) the provisions of section 102 of the Alaska National Interest Lands Conservation Act [16 U.S.C. 3122], the jurisdiction over subsistence uses in Alaska, or any assertion of subsistence uses in Alaska in the Federal courts; and

‘‘(b) Conflicts of laws.—If any conflict arises between any provision of this Act and any provision of the Alaska National Interest Lands Conservation Act, then the provision in the Alaska National Interest Lands Conservation Act shall prevail.’’

EX. ORD. NO. 12996. MANAGEMENT AND GENERAL PUBLIC USE OF NATIONAL WILDLIFE REFUGE SYSTEM

Ex. Ord. No. 12996, Mar. 25, 1996, 61 F.R. 13647, provided:

SECTION 1. The Mission of the National Wildlife Refuge System. The mission of the National Wildlife Refuge System ("Refuge System") is to preserve a national network of lands and waters for the conservation, management, and scientific study of fish, wildlife, and plant resources of the United States for the benefit of present and future generations.

SISC. 2. Guiding Principles. To help ensure a bright future for its treasured national heritage, I hereby affirm the following four guiding principles for the management and general public use of the Refuge System:

(a) Public Use. The Refuge System provides important opportunities for compatible wildlife-dependent recreational activities involving hunting, fishing, wildlife observation and photography, and environmental education and interpretation.

(b) Habitat. Fish and wildlife will not prosper without high-quality habitat, and without fish and wildlife, traditional uses of refuges cannot be sustained. The Refuge System will continue to conserve and enhance the quality and diversity of fish and wildlife habitat within refuges.

(c) Partnerships. America’s sportsmen and women were the first partners who insisted on protecting valuable wildlife habitat within wildlife refuges. Conservation partnerships with other Federal agencies, State agencies, tribes, organizations, industry, and the general public can make significant contributions to the growth and management of the Refuge System.

(d) Public Involvement. The public should be given a full and open opportunity to participate in decisions regarding acquisition and management of our National Wildlife Refuges.

SISC. 3. Directions to the Secretary of the Interior. To the extent consistent with existing laws and interagency agreements, the Secretary of the Interior, in carrying out his trustee and stewardship responsibilities for the Refuge System, is directed to:

(a) recognize compatible wildlife-dependent recreational activities involving hunting, fishing, wildlife observation and photography, and environmental education and interpretation as priority general public uses of the Refuge System through which the American public can develop an appreciation for fish and wildlife;

(b) provide expanded opportunities for these priority public uses within the Refuge System when they are compatible and consistent with sound principles of fish and wildlife management, and are otherwise in the public interest;

(c) ensure that such priority public uses receive enhanced attention in planning and management within the Refuge System;

(d) provide increased opportunities for families to experience wildlife-dependent recreation, particularly opportunities for parents and their children to safely engage in traditional outdoor activities, such as fishing and hunting;

(e) ensure that the biological integrity and environmental health of the Refuge System is maintained for the benefit of present and future generations of Americans;

(f) continue, consistent with existing laws and interagency agreements, authorized or permitted uses of units of the Refuge System by other Federal agencies, including those necessary to facilitate military preparedness;

(g) plan and direct the continued growth of the Refuge System in a manner that is best designed to accomplish the mission of the Refuge System, to contribute to the conservation of the ecosystems of the United States, and to increase support for the Refuge System and participation from conservation partners and the public;

(h) ensure timely and effective cooperation and collaboration with Federal agencies and State fish and wildlife agencies during the course of acquiring and managing National Wildlife Refuges;

(i) ensure appropriate public involvement opportunities will be provided in conjunction with refuge planning and management activities; and

Such apportionments shall be adjusted equitably so that no State shall receive less than one-half of 1 percent nor more than 5 percent of the total amount apportioned. The term fiscal year as used in this chapter shall be a period of twelve consecutive months from October 1 through the succeeding September 30, except that the period for enumeration of paid hunting-license holders shall be a State’s fiscal or license year.

(c) Apportionment of certain taxes

One-half of the revenues accruing to the fund under this chapter each fiscal year (beginning with the fiscal year 1975) from any tax imposed on pistols, revolvers, bows, and arrows shall be apportioned among the States in proportion to the ratio that the population of each State bears to the population of all the States: Provided, That each State shall be apportioned not more than 3 percent and not less than 1 percent of such revenues and Guam, the Virgin Islands, American Samoa, Puerto Rico, and the Northern Mariana Islands shall each be apportioned one-sixth of 1 percent of such revenues. (2)(A) The Secretary of the Interior, after making the apportionment under paragraph (1), shall apportion the remaining amount in the Wildlife Conservation and Restoration Account for each fiscal year among the States in the following manner:
   (i) one-third of which is based on the ratio to which the land area of such State bears to the total land area of all such States; and

(B) The amounts apportioned under this paragraph shall be adjusted equitably so that no such State shall be apportioned a sum which is less than one percent of the amount available for apportionment under this paragraph for any fiscal year or more than five percent of such amount.

(3) Of the amounts transferred to the Wildlife Conservation and Restoration Account, not to exceed 3 percent shall be available for any Federal expenses incurred in the administration and execution of programs carried out with such amounts.

   (ii) identifies the extent and condition of wildlife habitats and community types essential to conservation of species identified under paragraph (1);
   (iii) identifies the problems which may adversely affect the species identified under paragraph (1) or their habitats, and provides for priority research and surveys to identify factors which may assist in restoration and more effective conservation of such species and their habitats;

The Secretary, under such regulations as he may prescribe, may advance funds representing the United States pro rata share of such project that is a segment of a wildlife conservation and restoration program, including funds to develop such program.

(B) Not more than 10 percent of the amounts apportioned to each State under this section for a State’s wildlife conservation and restoration program may be used for wildlife-associated recreation.

TRANSFER OF FUNCTIONS

Reorg. Plan No. II of 1939, set out in the Appendix to Title 5, Government Organization and Employees, transferred functions of Secretary of Agriculture relating to conservation of wildlife, game, and migratory birds to Secretary of the Interior.

§ 669e. Submission and approval of plans and projects

(a) Setting aside funds

Any State desiring to avail itself of the benefits of this chapter shall, by its State fish and game department, submit programs or projects for wildlife restoration in either of the following two ways:

(1) The State shall prepare and submit to the Secretary of the Interior a comprehensive fish and wildlife resource management plan which shall insure the perpetuation of these resources for the economic, scientific, and recreational enrichment of the people. Such plan shall be for a period of not less than five years and be based on the projections of desires and needs of the people for a period of not less than fifteen years. It shall include provisions for updating at intervals of not more than three years and be provided in a format as may be required by the Secretary of the Interior. If the Secretary of the Interior finds that such plans conform to standards established by him and approves such plans, he may finance up to 75 per centum of the cost of implementing segments of those plans meeting the purposes of this chapter from funds apportioned under this chapter upon his approval of an annual agreement submitted to him.

(2) A State may elect to avail itself of the benefits of this chapter by its State fish and game department submitting to the Secretary of the Interior full and detailed statements of any wildlife restoration project proposed for that State. If the Secretary of the Interior finds that such project meets with the standards set by him and approves said project, the State fish and game department shall furnish to him such surveys, plans, specifications, and estimates therefor as he may require. If the Secretary of the Interior approves the plans, specifications, and estimates for the project, he shall notify the State fish and game department and immediately set aside so much of said fund as represents the share of the United States payable under this chapter on account of such project, which sum so set aside shall not exceed 75 per centum of the total estimated cost thereof.

The Secretary of the Interior shall approve only such comprehensive plans or projects as may be substantial in character and design and the expenditure of funds hereby authorized shall be applied only to such approved comprehensive wildlife plans or projects and if otherwise applied they shall be replaced by the State before it may participate in any further apportionment under this chapter. No payment of any money apportioned under this chapter shall be made on any comprehensive wildlife plan or project until an agreement to participate therein shall have been submitted to and approved by the Secretary of the Interior.

(b) “Project” defined

If the State elects to avail itself of the benefits of this chapter by preparing a comprehensive fish and wildlife plan under option (1) of subsection (a) of this section, then the term “project” may be defined for the purposes of this chapter as a wildlife program, all other definitions notwithstanding.

(c) Costs

Administrative costs in the form of overhead or indirect costs for services provided by State central service activities outside of the State agency having primary jurisdiction over the wildlife resources of the State which may be charged against programs or projects supported by the fund established by section 669b of this title shall not exceed in any one fiscal year 3 per centum of the annual apportionment to the State.

Amendments

1970—Pub. L. 91–503 divided existing provisions into subsecs. (a) and (b), permitted advance payments to the States for work which has been adequately defined in a comprehensive fish and wildlife plan, and struck out requirements in provision covering joint determination of time and amounts of payments.

Transfer of Functions

§ 669g. Maintenance of projects; expenditures for management of wildlife areas and resources

(a) Maintenance of wildlife-restoration projects established under the provisions of this chapter shall be the duty of the States in accordance with their respective laws. Beginning July 1, 1945, the term “wildlife-restoration project”, as defined in section 669a of this title, shall include maintenance of completed projects. Notwithstanding any other provisions of this chapter, funds apportioned to a State under this chapter may be expended by the State for management (exclusive of law enforcement and public relations) of wildlife areas and resources. Funds from the Wildlife Conservation and Restoration Account may be used for a wildlife conservation education program, except that no such funds may be used for education efforts, projects, or programs that promote or encourage opposition to the regulated taking of wildlife.

(b) Each State may use the funds apportioned to it under section 669c(c) of this title to pay up to 75 per centum of the costs of a hunter safety program and the construction, operation, and maintenance of public target ranges, as a part of such program. The non-Federal share of such costs may be derived from license fees paid by hunters, but not from other Federal grant programs. The Secretary shall issue no later than the 120th day after the effective date of this subsection such regulations as he deems advisable relative to the criteria for the establishment of hunter safety programs and public target ranges under this subsection.

L. 106–553 inserted at end “Funds from the Wildlife Conservation and Restoration Account may be used for a wildlife conservation education program, except that no such funds may be used for education efforts, projects, or programs that promote or encourage opposition to the regulated taking of wildlife.”

1§ 669f. Payment of funds to States; laws governing construction and labor

(a) When the Secretary of the Interior shall find that any project approved by him has been completed or, if involving research relating to wildlife, is being conducted, in compliance with said plans and specifications, he shall cause to be paid to the proper authority of said State the amount set aside for said project. The Secretary of the Interior may, in his discretion, from time to time, make payments on said project as the same progresses; but these payments, including previous payments, if any, shall not be more than the United States pro rata share of the project in conformity with said plans and specifications. If a State has elected to avail itself of the benefits of this chapter by preparing a comprehensive fish and wildlife plan as provided for under subsection (b), and this plan has been approved by the Secretary of the Interior, then the Secretary of the Interior and in accordance with rules and regulations as he may prescribe, advance funds to the State for financing the United States pro rata share agreed upon between the State fish and game department and the Secretary.

(b) Any construction work and labor in each State shall be performed in accordance with its laws and under the direct supervision of the State fish and game department, subject to the inspection and approval of the Secretary of the Interior and in accordance with rules and regulations made pursuant to this chapter. The Secretary of the Interior and the State fish and game department of each State may jointly determine at what times and in what amounts payments shall be made under this chapter. Short Title

§ 670a Cooperative plan for conservation and rehabilitation

(a) Authority of Secretary of Defense

(1) Program

(A) In general

The Secretary of Defense shall carry out a program to provide for the conservation and rehabilitation of natural resources on military installations.

(B) Integrated natural resources management plan

(i) To facilitate the program, the Secretary of each military department shall prepare and implement an integrated natural resources management plan for each military installation in the United States under the jurisdiction of the Secretary, unless the Secretary determines that the absence of significant natural resources on a particular installation makes preparation of such a plan inappropriate.

(ii) The Secretary of a military department may, subject to the availability of appropriations, develop and implement an integrated natural resources management plan for a State-owned National Guard installation. Such a plan shall be developed and implemented in coordination with the chief executive officer of the State in which the State-owned National Guard installation is located. Such a plan is deemed, for purposes of any other provision of law, to be for lands or other geographical areas owned or controlled by the Department of Defense, or designated for its use.

(2) Cooperative preparation

The Secretary of a military department shall prepare each integrated natural resources management plan for which the Secretary is responsible in cooperation with the Secretary of the Interior, acting through the Executive officer of the State in which the installation is located. Such a plan is deemed, for purposes of any other provision of law, to be for lands or other geographical areas owned or controlled by the Department of Defense, or designated for its use.

(3) Purposes of program

(A) Consistent with the use of military installations and State-owned National Guard installations to ensure the preparedness of the Armed Forces, the Secretaries of the military departments shall carry out the program required by this subsection to provide for—

(i) the conservation and rehabilitation of natural resources on such installations;

(ii) the sustainable multipurpose use of the resources on such installations, which shall include hunting, fishing, trapping, and non-consumptive uses; and

(iii) subject to safety requirements and military security, public access to military installations to facilitate the use.

(B) In the case of a State-owned National Guard installation, such program shall be carried out in coordination with the chief executive officer of the State in which the installation is located.

(4) Effect on other law

Nothing in this subchapter—

(A)(i) affects any provision of a Federal law governing the conservation or protection of fish and wildlife resources; or

(ii) enlarges or diminishes the responsibility and authority of any State for the protection and management of fish and resident wildlife; or

(B) except as specifically provided in the other provisions of this section and in section 670b of this title, authorizes the Secretary of a military department to require a Federal license or permit to hunt, fish, or trap on a military installation.

(b) Required elements of plans

Consistent with the use of military installations and State-owned National Guard installations to ensure the preparedness of the Armed Forces, each integrated natural resources management plan prepared under subsection (a) of this section—

(1) shall, to the extent appropriate and applicable, provide for—

(A) fish and wildlife management, land management, forest management, and fish- and wildlife-oriented recreation;

(B) fish and wildlife habitat enhancement or modifications;

(C) wetland protection, enhancement, and restoration, where necessary for support of fish, wildlife, or plants;

(D) integration of, and consistency among, the various activities conducted under the plan;

(E) establishment of specific natural resource management goals and objectives and time frames for proposed action;

(F) sustainable use by the public of natural resources to the extent that the use is not inconsistent with the needs of fish and wildlife resources;

(G) public access to the installation that is necessary or appropriate for the use described in subparagraph (F), subject to requirements necessary to ensure safety and military security;

(H) enforcement of applicable natural resource laws (including regulations);

(I) no net loss in the capability of installation lands to support the military mission of the installation; and

(J) such other activities as the Secretary of the military department determines appropriate;

(2) must be reviewed as to operation and effect by the parties thereto on a regular basis, but not less often than every 5 years; and

(3) may, in the case of a military installation, stipulate the issuance of special State hunting and fishing permits to individuals and
require payment of nominal fees therefor, which fees shall be utilized for the protection, conservation, and management of fish and wildlife, including habitat improvement and related activities in accordance with the integrated natural resources management plan; except that—
(A) the Commanding Officer of the installation or persons designated by that Officer are authorized to enforce such special hunting and fishing permits and to collect, spend, administer, and account for fees for the permits, acting as agent or agents for the State if the integrated natural resources management plan so provides, and
(B) the fees collected under this paragraph may not be expended with respect to other than the military installation on which collected, unless the military installation is subsequently closed, in which case the fees may be transferred to another military installation to be used for the same purposes.

(c) Prohibitions on sale and lease of lands unless effects compatible with plan
After an integrated natural resources management plan is agreed to under subsection (a) of this section—
(1) no sale of land, or forest products from land, that is within a military installation covered by that plan may be made under section 2665(a) or (b) of title 10; and
(2) no leasing of land that is within the installation may be made under section 2667 of such title 10;
unless the effects of that sale or leasing are compatible with the purposes of the plan.

(d) Implementation and enforcement of integrated natural resources management plans
With regard to the implementation and enforcement of integrated natural resources management plans agreed to under subsection (a) of this section—
(1) neither Office of Management and Budget Circular A–76 nor any successor circular there-to applies to the procurement of services that are necessary for that implementation and enforcement; and
(2) priority shall be given to the entering into of contracts for the procurement of such implementation and enforcement services with Federal and State agencies having responsibility for the conservation or management of fish or wildlife.

(e) Applicability of other laws
Integrated natural resources management plans agreed to under the authority of this section and section 670b of this title shall not be deemed to be, nor treated as, cooperative agreements to which chapter 63 of title 31 applies.

(f) Reviews and reports
(1) Secretary of Defense
Not later than March 1 of each year, the Secretary of Defense shall review the extent to which integrated natural resources management plans were prepared or were in effect and implemented in accordance with this subchapter in the preceding year, and submit a report on the findings of the review to the committees. Each report shall include—

(G) contain such other terms and conditions as the Secretary concerned and the State agency deem necessary and appropriate to carry out the purposes of this subchapter.

A cooperative agreement may also provide for arrangements under which the Secretary concerned may authorize officers and employees of the State agency to enforce, or to assist in the enforcement of, section 670(a) of this title.

(4) Except where limited under a comprehensive plan or pursuant to cooperative agreement, hunting, fishing, and trapping shall be permitted with respect to resident fish and wildlife in accordance with applicable laws and regulations of the State in which such land is located on public land which is the subject of a conservation and rehabilitation program implemented under this subchapter.

§ 684. Game breeding areas in Wichita and Grand Canyon National Forests

The President of the United States is authorized to designate such areas in the Wichita National Forest and in the Grand Canyon National Forest as he shall, in his opinion, be set aside for the protection of game animals and birds and be recognized as a breeding place therefor.

Codification

Act Jan. 24, 1905, and act June 29, 1906, are identical in language throughout, except that the earlier act authorizes the setting aside of areas in Wichita National Forest, while the latter authorizes areas in Grand Canyon National Forest. The two acts have been combined to form this section and sections 685 and 686 of this title.

Codification

Words “in the Wichita National Forest and in the Grand Canyon National Forest” inserted, and “Secretary of the Interior and Secretary of Agriculture, respectively” substituted for “Secretary of Agriculture” because of Reorg. Plan No. II of 1939, which transferred Bureau of Biological Survey from Department of Agriculture to Department of the Interior. The successor to Wichita National Forest, which was then administered by that Bureau, was affected by the transfer. However, the successor to Grand Canyon National Forest was administered by Forest Service and was consequently not affected.

For successors to Wichita National Forest and Grand Canyon National Forest, see Presidential Designation note set out under section 684 of this title.

It is the purpose of sections 684 and 685 of this title to protect from trespass the public lands of the United States and the game animals and birds which may be thereon, and not to interfere with the operation of the local game laws as affecting private, State, or Territorial lands.

§ 687. Grand Canyon Game Preserve included in park

Such parts of the Grand Canyon National Game Preserve, designated under authority of section 684 of this title, as are by this Act included with the Grand Canyon National Park are excluded and eliminated from said game preserve.

(1) the Baca ranch comprises most of the Valles Caldera in central New Mexico, and constitutes a unique land mass, with significant scientific, cultural, historic, recreational, ecological, wildlife, fisheries, and productive values;

(2) the Valles Caldera is a large resurgent lava dome with potential geothermal activity;

(3) the land comprising the Baca ranch was originally granted to the heirs of Don Luis Maria Cabeza de Vaca in 1860;

(4) historical evidence, in the form of old logging camps and other artifacts, and the history of territorial New Mexico indicate the importance of this land over many generations for domesticated livestock production and timber supply;

(5) the careful husbandry of the Baca ranch by the current owners, including selective timbering, limited grazing and hunting, and the use of prescribed fire, have preserved a mix of healthy range and timber land with significant species diversity, thereby serving as a model for sustainable land development and use;

(6) the Baca ranch’s natural beauty and abundant resources, and its proximity to large municipal populations, could provide numerous recreational opportunities for hiking, fishing, camping, cross-country skiing, and hunting;

SUBCHAPTER I—GENERALLY

§ 701. Game and wild birds; preservation

The duties and powers of the Department of the Interior include the preservation, distribution, introduction, and restoration of game birds and other wild birds. The Secretary of the Interior is authorized to adopt such measures as may be necessary to carry out the purposes of this Act, and to purchase such game birds and other wild birds as may be required therefor, subject, however, to the laws of the various States and Territories. The object and purpose of this Act is to aid in the restoration of such birds in those parts of the United States adapted thereto where the same have become scarce or extinct, and also to regulate the introduction of American or foreign birds or animals in localities where they have not heretofore existed.

The Secretary of the Interior shall from time to time collect and publish useful information as to the propagation, uses, and preservation of such birds.

And the Secretary of the Interior shall make and publish all needful rules and regulations for
carrying out the purposes of this Act, and shall expend for said purposes such sums as Congress may appropriate therefor.

TRANSFER OF FUNCTIONS

Reorg. Plan No. II of 1939, set out in the Appendix to Title 5, Government Organization and Employees, transferred functions of Secretary of Agriculture relating to conservation of wildlife, game, and migratory birds to Secretary of the Interior.

EX. ORD. NO. 13186. RESPONSIBILITIES OF FEDERAL AGENCIES TO PROTECT MIGRATORY BIRDS

Ex. Ord. No. 13186, Jan. 10, 2001, 66 F.R. 3853, provided:

(a) the authority vested in me as President by the Constitution and the laws of the United States of America, and in furtherance of the purposes of the migratory bird conventions, the Migratory Bird Treaty Act (16 U.S.C. 703–711), the Bald and Golden Eagle Protection Acts (16 U.S.C. 668–688d), the Fish and Wildlife Coordination Act (16 U.S.C. 661–669c), the Endangered Species Act of 1973 (16 U.S.C. 1531–1544), the National Environmental Policy Act of 1969 (42 U.S.C. 4321–4347), and other pertinent statutes, it is hereby ordered as follows:

SECTION 1. Policy. Migratory birds are of great ecological and economic value to this country and to other countries. They contribute to biological diversity and bring tremendous enjoyment to millions of Americans who study, watch, feed, or hunt these birds throughout the United States and other countries. The United States has recognized the critical importance of this shared resource by ratifying international, bilateral conventions for the conservation of migratory birds. Such conventions include the Convention for the Protection of Migratory Birds with Great Britain on behalf of Canada 1916, the Convention for the Protection of Migratory Birds and Game Mammals—Mexico 1956, the Convention for the Protection of Birds and Their Environment—Japan 1972, and the Convention for the Conservation of Migratory Birds and Their Environment—Union of Soviet Socialist Republics 1976. These migratory bird conventions impose substantive obligations on the United States for the conservation of migratory birds and their habitats, and through the Migratory Bird Treaty Act (Act), the United States has implemented these migratory bird conventions with respect to the United States. This Executive Order directs executive departments and agencies to take certain actions to further implement the Act.

SIC. 2. Definitions. For purposes of this order:

(a) “Take” means take as defined in 50 C.F.R. 10.12, and includes both “intentional” and “unintentional” take.

(b) “Intentional take” means take that is the purpose of the activity in question.

(c) “Unintentional take” means take that results from, but is not the purpose of, the activity in question.

(e) “Migratory bird resources” means migratory birds and the habitats upon which they depend.

(f) “Migratory bird convention” means, collectively, the bilateral conventions (with Great Britain/Canada, Mexico, Japan, and Russia) for the conservation of migratory bird resources.

(g) “Federal agency” means an executive department or agency, but does not include independent establishments as defined by 5 U.S.C. 104.

(h) “Action” means a program, activity, project, official policy (such as a rule or regulation), or formal plan directly carried out by a Federal agency. Each Federal agency will further define what the term “action” means with respect to its own authorities and what programs should be included in the agency-specific Memoranda of Understanding required by this order. Actions delegated to or assumed by nonfederal entities, or carried out by nonfederal entities with Federal assistance, are not subject to this order. Such actions, however, continue to be subject to the Migratory Bird Treaty Act.

(i) “Species of concern” refers to those species listed in the periodic report “Migratory Nongame Birds of Management Concern in the United States,” priority migratory bird species as documented by established plans (such as Bird Conservation Regions in the North American Bird Conservation Initiative or Partners in Flight physiographic areas), and those species listed in 50 C.F.R. 17.11.

SIC. 3. Federal Agency Responsibilities. (a) Each Federal agency taking actions that have, or are likely to have, a measurable negative effect on migratory bird populations is directed to develop and implement, within 2 years, a Memorandum of Understanding (MOU) with the Fish and Wildlife Service (Service) that shall promote the conservation of migratory bird populations.

(b) In coordination with affected Federal agencies, the Service shall develop a schedule for completion of the MOUs within 180 days of the date of this order. The schedule shall give priority to completing the MOUs with agencies having the most substantive impacts on migratory birds.

(c) Each MOU shall establish protocols for implementation of the MOU and for reporting accomplishments. These protocols may be incorporated into existing actions; however, the MOU shall recognize that the agency may not be able to implement some elements of the MOU until such time as the agency has successfully included them in each agency’s formal planning processes (such as revision of agency land management plans, land use compatibility guidelines, integrated resource management plans, and fishery management plans), including public participation and NEPA analysis, as appropriate. This order and the MOUs to be developed by the agencies are intended to be implemented when new actions or renewal of contracts, permits, decrees, or other third party agreements are initiated as well as during the initiation of new, or revisions to, land management plans.

(d) Each MOU shall include an elevation process to resolve any dispute between the signatory agencies regarding a particular practice or activity.

(e) Pursuant to its MOU, each agency shall, to the extent permitted by law and subject to the availability of appropriations and within Administration budgetary limits, and in harmony with agency missions:

(1) support the conservation intent of the migratory bird conventions by integrating bird conservation principles, measures, and practices into agency activities and by avoiding or minimizing, to the extent practicable, adverse impacts on migratory bird resources when conducting agency actions;

(2) restore and enhance the habitat of migratory birds, as practicable;

(3) prevent or abate the pollution or detrimental alteration of the environment for the benefit of migratory birds, as practicable;

(4) design migratory bird habitat and population conservation principles, measures, and practices, into agency plans and planning processes (natural resource, land management, and environmental quality plan-
ting, including, but not limited to, forest and range-
land planning, coastal management planning, water-
shed planning, etc.) as practicable, and coordinate with
other agencies and nonfederal partners in planning ef-
forts;

(5) within established authorities and in conjunc-
tion with the adoption, amendment, or revision of agency
management plans and guidance, ensure that agency
plans and actions promote programs and recommenda-
tions of comprehensive migratory bird planning efforts
such as Partners-in-Flight, U.S. National Shorebird
Plan, North American Waterfowl Management Plan,
North American Colonial Waterbird Plan, and other
planning efforts, as well as guidance from other
sources, including the Food and Agricultural Organiza-
tion's International Plan of Action for Reducing Inci-
dental Catch of Seabirds in Longline Fisheries;

(6) ensure that environmental analyses of Federal ac-
tions required by the NEPA or other established envi-
ronmental review processes evaluate the effects of ac-
tions and agency plans on migratory birds, with em-
phasis on species of concern;

(7) provide notice to the Service in advance of con-
ducting an action that is intended to take migratory
birds, or annually report to the Service on the number of
individuals of each species of migratory birds inten-
tionally taken during the conduct of any agency ac-
tion, including but not limited to banding or marking,
scientific collecting, taxidermy, and depredation con-
trol;

(8) minimize the intentional take of species of con-
cern by: (i) delineating standards and procedures for
such take; and (ii) developing procedures for the review
and evaluation of take actions. With respect to inten-
tional take, the MOU shall be consistent with the ap-
propriate sections of 50 C.F.R. parts 10, 21, and 22;

(9) identify where unintentional take reasonably at-
tributable to agency actions is having, or is likely to
have, a measurable negative effect on migratory bird
populations, focusing first on species of concern, prior-
ity habitats, and key risk factors. With respect to
those actions so identified, the agency shall develop
and use principles, standards, and practices that will
lessen the amount of unintentional take, developing
any such conservation efforts in cooperation with the
Service. These principles, standards, and practices
shall be regularly evaluated and revised to ensure that
they are effective in lessening the detrimental effect of
agency actions on migratory bird populations. The
agency also shall inventory and monitor bird habitat
populations within the agency's capabilities and
authorities to the extent feasible to facilitate decisions
about the need for, and effectiveness of, conservation
efforts;

(10) within the scope of its statutorily-designated au-
thorities, control the import, export, and establish-
ment in the wild of live exotic animals and plants that
may be harmful to migratory bird resources;

(11) promote research and information exchange re-
lated to the conservation of migratory bird resources,
including coordinated inventorying and monitoring and
the collection and assessment of information on envi-
ronmental contaminants and other physical or biologi-
cal stressors having potential relevance to migratory
bird conservation. Where such information is collected
in the course of agency actions or supported through
Federal financial assistance, reasonable efforts shall be
made to share such information with the Service, the
Biological Resources Division of the U.S. Geological
Survey, and other appropriate repositories of such data
(e.g., the Cornell Laboratory of Ornithology);

(12) provide training and information to appropriate
employees on methods and means of avoiding or mini-
mizing the take of migratory birds and conserving and
restoring migratory bird habitat;

(13) promote migratory bird conservation in inter-
national activities and with other countries and inter-
national partners, in consultation with the Department
of State, as appropriate or relevant to the agency's au-
thorities;

(14) recognize and promote economic and recreational
values of birds, as appropriate; and

(15) develop partnerships with non-Federal entities
for further bird conservation.

(f) Notwithstanding the requirement to finalize an
MOU within 2 years, each agency is encouraged to im-
mediately begin implementing the conservation meas-
ures set forth above in subparagraphs (1) through (15) of
this section, as appropriate and practicable.

(g) Each agency shall advise the public of the avail-
ability of its MOU through a notice published in the
Federal Register.

Sec. 4. Council for the Conservation of Migratory Birds.

(a) The Secretary of Interior shall establish an inter-
agency Council for the Conservation of Migratory Birds
(Council) to oversee the implementation of this order.
The Council's duties shall include the following: (1)
sharing the latest resource information to assist in the
conservation and management of migratory birds; (2)
developing an annual report of accomplishments and
recommendations related to this order; (3) fostering
partnerships to further the goals of this order; and (4)
selecting an annual recipient of a Presidential Migra-
tory Bird Federal Stewardship Award for contributions
to the protection of migratory birds.

(b) The Council shall include representation, at the
bureau director/administrator level, from the Depart-
ments of the Interior, State, Commerce, Agriculture,
Transportation, Energy, Defense, and the Environ-
mental Protection Agency and from such other agen-
cies as appropriate.

Sec. 5. Application and Judicial Review.

(a) This order and the MOU to be developed by the agencies do not re-
quire changes to current contracts, permits, or other
third party agreements.

(b) This order is intended only to improve the inter-
nal management of the executive branch and does not
create any right or benefit, substantive or procedural,
separately enforceable at law or equity by a party
against the United States, its agencies or instrumen-
talities, its officers or employees, or any other person.

WILLIAM J. CLINTON.

§ 702. Importation of eggs of game birds for prop-
agation

The Secretary of the Interior shall have the power to authorize the importation of eggs of
game birds for purposes of propagation, and he shall prescribe all necessary rules and regulations
governing the importation of eggs of said birds for such purposes.

(June 3, 1902, ch. 983, 32 Stat. 285; 1939 Reorg.

(B) Treatment of introduced species

For purposes of paragraph (1), a migratory bird species that occurs in the United States or its territories solely as a result of intentional or unintentional human-assisted introduction shall not be considered native to the United States or its territories unless—

(i) it was native to the United States or its territories and extant in 1918;

(ii) it was extirpated after 1918 throughout its range in the United States and its territories; and

(iii) after such extirpation, it was reintroduced in the United States or its territories as a part of a program carried out by a Federal agency.

AMENDMENTS

“(1) IN GENERAL.—Not later than 90 days after the date of enactment of this section [Dec. 8, 2004], the Secretary of the Interior shall publish in the Federal Register a list of all nonnative, human-introduced bird species to which the Migratory Bird Treaty Act (16 U.S.C. 703 et seq.) does not apply. As necessary, the Secretary may update and publish the list of species exempted from protection of the Migratory Bird Treaty Act.

“(2) PUBLIC COMMENT.—Before publishing the list under paragraph (1), the Secretary shall provide adequate time for public comment.

“(3) EFFECT OF SECTION.—Nothing in this subsection shall delay implementation of other provisions of this section [amending this section and enacting provisions set out as notes under this section and section 710 of this title] or amendments made by this section that exclude nonnative, human-introduced bird species from the application of the Migratory Bird Treaty Act (16 U.S.C. 703 et seq.).”

RELATIONSHIP OF PUB. L. 108–447 TO TREATIES

Pub. L. 108–447, div. E, title I, §143(d), Dec. 8, 2004, 118 Stat. 3072, provided that: “It is the sense of Congress that the language of this section [amending this section and enacting provisions set out as notes under this section and section 710 of this title] is consistent with the intent and language of the 4 bilateral treaties implemented by this section.”
INCIDENTAL TAKING OF MIGRATORY BIRDS DURING MILITARY READINESS ACTIVITIES

"(a) INTERIM AUTHORITY FOR INCIDENTAL TAKINGS.—During the period described in subsection (c), section 2 of the Migratory Bird Treaty Act (16 U.S.C. 703) shall not apply to the incidental taking of a migratory bird by a member of the Armed Forces during a military readiness activity authorized by the Secretary of Defense or the Secretary of the military department concerned.

"(b) IDENTIFICATION OF MEASURES TO MINIMIZE IMPACT OF ACTIVITIES.—During the periods described in subsections (c) and (d), the Secretary of Defense shall, in consultation with the Secretary of the Interior, identify measures—

"(1) to minimize and mitigate, to the extent practicable, any adverse impacts of authorized military readiness activities on affected species of migratory birds; and

"(2) to monitor the impacts of such military readiness activities on affected species of migratory birds.

"(c) PERIOD OF APPLICATION FOR INTERIM AUTHORITY.—The period described in this subsection is the period beginning on the date of the enactment of this Act (Dec. 2, 2002) and ending on the date on which the Secretary of the Interior publishes in the Federal Register a notice that—

"(1) regulations authorizing the incidental taking of migratory birds by members of the Armed Forces have been prescribed in accordance with the requirements of subsection (d);

"(2) all legal challenges to the regulations and to the manner of their promulgation (if any) have been exhausted as provided in subsection (e); and

"(3) the regulations have taken effect.

"(d) INCIDENTAL TAKINGS AFTER INTERIM PERIOD.—(1) Not later than the expiration of the one-year period beginning on the date of the enactment of this Act, the Secretary of the Interior shall exercise the authority of that Secretary under section 3(a) of the Migratory Bird Treaty Act (16 U.S.C. 704(a)) to prescribe regulations to exempt the Armed Forces for the incidental taking of migratory birds during military readiness activities authorized by the Secretary of Defense or the Secretary of the military department concerned.

"(2) The Secretary of the Interior shall exercise authority under paragraph (1) with the concurrence of the Secretary of Defense.

"(e) LIMITATION ON JUDICIAL REVIEW.—An action seeking judicial review of regulations prescribed pursuant to this section or of the manner of their promulgation must be filed in the appropriate Federal court by not later than the expiration of the 120-day period beginning on the date on which such regulations are published in the Federal Register. Upon the expiration of such period and the exhaustion of any legal challenges to the regulations pursuant to any action filed in such period, there shall be no further judicial review of such regulations or of the manner of their promulgation.

"(f) MILITARY READINESS ACTIVITY.—(1) In this section the term ‘military readiness activity’ includes—

"(A) all training and operations of the Armed Forces that relate to combat; and

"(B) the adequate and realistic testing of military equipment, vehicles, weapons, and sensors for proper operation and suitability for combat use.

"(2) The term does not include—

"(A) the routine operation of installation operating support functions, such as administrative offices, military exchanges, commissaries, water treatment facilities, storage facilities, schools, housing, motor pools, laundries, morale, welfare, and recreation activities, shops, and mess halls;

"(B) the operation of industrial activities; or

"(C) the construction or demolition of facilities used for a purpose described in subparagraph (A) or (B)."

ARTIC TUNDRA HABITAT EMERGENCY CONSERVATION

"SECTION 1. SHORT TITLE.

"This Act may be cited as the ‘Arctic Tundra Habitat Emergency Conservation Act’.

"SEC. 2. FINDINGS AND PURPOSES.

"(a) FINDINGS.—The Congress finds the following:

"(1) The winter index population of mid-continent light geese was 800,000 birds in 1969, while the total population of such geese is more than 5,200,000 birds today.

"(2) The population of mid-continent light geese is expanding by over 5 percent each year, and in the absence of new wildlife management actions it could grow to more than 6,800,000 breeding light geese in 3 years.

"(3) The primary reasons for this unprecedented population growth are—

"(A) the expansion of agricultural areas and the resulting abundance of cereal grain crops in the United States;

"(B) the establishment of sanctuaries along the United States flyways of migrating light geese; and

"(C) a decline in light geese harvest rates.

"(4) As a direct result of this population explosion, the Hudson Bay Lowlands Salt-Marsh ecosystem in Canada is being systematically destroyed. This ecosystem contains approximately 135,000 acres of essential habitat for migrating light geese and many other avian species. Biologists have testified that one-third of this habitat has been destroyed, one-third is on the brink of devastation, and the remaining one-third is overgrazed.

"(5) The destruction of the Arctic tundra is having a severe negative impact on many avian species that breed or migrate through this habitat, including the following:

"(A) Canada Goose.

"(B) American Wigeon.

"(C) Dowitcher.

"(D) Hudsonian Godwit.

"(E) Stilt Sandpiper.

"(F) Northern Shoveler.

"(G) Red-Breasted Merganser.

"(H) Oldsquaw.

"(I) Parasitic Jaeger.

"(J) Whimbrel.

"(K) Yellow Rail.

"(6) It is essential that the current population of mid-continent light geese be reduced by 50 percent by the year 2005 to ensure that the fragile Arctic tundra is not irreversibly damaged.

"(b) PURPOSES.—The purposes of this Act are the following:

"(1) To reduce the population of mid-continent light geese.

"(2) To assure the long-term conservation of mid-continent light geese and the biological diversity of the ecosystem upon which many North American migratory birds depend.

"SEC. 3. FORCE AND EFFECT OF RULES TO CONTROL OVERABUNDANT MID-CONTINENT LIGHT GEESE POPULATIONS.

"(a) FORCE AND EFFECT.—

"(1) IN GENERAL.—The rules published by the Service on February 16, 1999, relating to use of additional hunting methods to increase the harvest of mid-continent light geese (64 Fed. Reg. 7507–7517) and the establishment of a conservation order for the reduction of mid-continent light goose populations (64 Fed. Reg. 7517–7528), shall have the force and effect of law.

"(b) PUBLIC NOTICE.—The Secretary, acting through the Director of the Service, shall take such action as is necessary to appropriately notify the public of the force and effect of the rules referred to in paragraph (1).
SEC. 4. COMPREHENSIVE MANAGEMENT PLAN.

SEC. 5. DEFINITIONS.

the Service to issue rules, under another law, to regulate the taking of mid-continent light geese.

This section shall not be construed to limit the authority of the Secretary or the Service to issue rules, under another law, to regulate the taking of mid-continent light geese.

(1) begins on the date of the enactment of this Act (Nov. 24, 1999); and

(2) ends on the latest of—

(A) the effective date of rules issued by the Service after such date of the enactment to control overabundant mid-continent light geese populations;

(B) the date of the publication of a final environmental impact statement for such rules under section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)); and

(c) RULE OF CONSTRUCTION.—This section shall not be construed to limit the authority of the Secretary or the Service to issue rules, under another law, to regulate the taking of mid-continent light geese.

SEC. 4. COMPREHENSIVE MANAGEMENT PLAN.

(a) IN GENERAL.—Not later than the end of the period described in subsection (b)(1), the Secretary shall prepare, and as appropriate implement, a comprehensive, long-term plan for the management of mid-continent light geese and the conservation of their habitat.

(1) a description of methods for monitoring the levels of populations and the levels of harvest of mid-continent light geese, and recommendations concerning long-term harvest levels;

(2) recommendations concerning other means for the management of mid-continent light goose populations, taking into account the reasons for the population growth specified in section 102(a)(3) (probably means section 2(a)(3));

(3) an assessment of, and recommendations relating to, conservation of the breeding habitat of mid-continent light geese;

(4) an assessment of, and recommendations relating to, conservation of native species of wildlife adversely affected by the overabundance of mid-continent light geese, including the species specified in section 102(a)(5) (probably means section 2(a)(5)); and

(5) an identification of methods for promoting collaboration with the Government of Canada, States, and other interested persons.

(c) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section $1,000,000 for each of fiscal years 2000 through 2002.

SEC. 5. DEFINITIONS.

“In this Act:

(MID-CONTINENT LIGHT GEESE.—The term ‘mid-continent light geese’ means Lesser snow geese (Anser caerulescens caerulescens) and Ross’ geese (Anser rossii) that primarily migrate between Canada and the States of Alabama, Arkansas, Colorado, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, New Mexico, North Dakota, Ohio, Oklahoma, South Dakota, Tennessee, Texas, Wisconsin, and Wyoming.

(2) SECRETARY.—The term ‘Secretary’ means the Secretary of the Interior.

(3) SERVICE.—The term ‘Service’ means the United States Fish and Wildlife Service.”

§ 704. Determination as to when and how migratory birds may be taken, killed, or possessed

(a) Subject to the provisions and in order to carry out the purposes of the conventions, referred to in section 703 of this title, the Secretary of the Interior is authorized and directed, from time to time, having due regard to the zones of temperature and to the distribution, abundance, economic value, breeding habits, and

times and lines of migratory flight of such birds, to determine when, to what extent, if at all, and by what means, it is compatible with the terms of the conventions to allow hunting, taking, capture, killing, possession, sale, purchase, shipment, transportation, carriage, or export of any such bird, or any part, nest, or egg thereof, and to adopt suitable regulations permitting and governing the same, in accordance with such determinations, which regulations shall become effective when approved by the President.

(b) It shall be unlawful for any person to—

(1) take any migratory game bird by the aid of baiting, or on or over any baited area, if the person knows or reasonably should know that the area is a baited area; or

(2) place or direct the placement of bait on or adjacent to an area for the purpose of causing, inducing, or allowing any person to take or attempt to take any migratory game bird by the aid of baiting on or over the baited area.

AMENDMENTS

1998—Pub. L. 105–312 designated existing provisions as subsec. (a) and added subsec. (b).

1936—Act June 20, 1936, substituted “conventions” for “‘convention’ in two places.

EFFECTIVE DATE OF 1936 AMENDMENT

Act June 20, 1936, ch. 634, § 2, 49 Stat. 1556, provided in part that the amendment by section 2 is effective as of the day aforesaid (June 30, 1937). See note under section 703 of this title.

TRANSFER OF FUNCTIONS

Transfer of functions of Secretary of Agriculture to Secretary of the Interior by Reorg. Plan. No. II of 1939, see Transfer of Functions note set out under section 701 of this title.

DELEGATION OF FUNCTIONS

For delegation to Secretary of the Interior of authority vested in President, see Ex. Ord. No. 10752, Feb. 12, 1958, 23 F.R. 973, set out as a note under section 715j of Title 15, Commerce and Trade.

§ 715s. Participation of local governments in revenue from areas administered by the United States Fish and Wildlife Service

(a) Separate fund in the United States Treasury; availability of funds until expended; “National Wildlife Refuge System” defined

Beginning with the next full fiscal year and for each fiscal year thereafter, all revenues received by the Secretary of the Interior from the sale or other disposition of animals, salmonoid carcasses,1 timber, hay, grass, or other products of the soil, minerals, shells, sand, or gravel, from other privileges, or from leases for public accommodations or facilities incidental to but not in conflict with the basic purposes for which those areas of the National Wildlife Refuge System were established, during each fiscal year in connection with the operation and management of those areas of the National Wildlife Refuge System, National Fish Hatcheries, or other areas, that are solely or primarily administered by him, through the United States Fish and Wildlife Service, shall be covered into the United States Treasury and be reserved in a separate fund for disposition as hereafter prescribed. Amounts in the fund shall remain available until expended, and may be expended by the Secretary without further appropriation in the manner hereafter prescribed. The National Wildlife Refuge System (hereafter referred to as the “System”) includes those lands and waters administered by the Secretary as wildlife refuges, lands acquired or reserved for the protection and conservation of fish and wildlife that are listed pursuant to section 1533 of this title as endangered species or threatened species, wildlife ranges, game ranges, wildlife management areas, and waterfowl production areas established under any law, proclamation, Executive, or public land order.

(b) Deduction of expenses

The Secretary may pay from the fund any necessary expenses incurred by him in connection with the revenue-producing and revenue-sharing measures.

(c) Payment to counties

(1) The Secretary shall pay out the fund, for each fiscal year beginning with the fiscal year ending September 30, 1979, to each county in which is situated any fee area whichever of the following amounts is greater:

(A) An amount equal to the product of 75 cents multiplied by the total acreage of that portion of the fee area which is located within such county;

(B) An amount equal to three-fourths of 1 per centum of the fair market value, as determined by the Secretary, of that portion of the fee area (excluding any improvements thereto made after the date of Federal acquisition) which is located within such county;

(C) An amount equal to 25 per centum of the net receipts collected by the Secretary in connection with the operation and management of such fee area during such fiscal year; but if

a fee area is located in two or more counties, the amount each such county is entitled to shall be the amount which bears to such 25 percent the same ratio as that portion of the fee area acreage which is within such county bears to the total acreage of such fee area.

(2) At the end of each fiscal year the Secretary shall pay out of the fund for such fiscal year to each county in which any reserve area is situated, an amount equal to 25 percent of the net receipts collected by the Secretary in connection with the operation and management of such area during such fiscal year: Provided, That when any such area is situated in more than one county the distributive share to each county from the aforesaid receipts shall be proportional to its acreage of such reserve area.

(3) For purposes of this section, the Commonwealth of Puerto Rico, Guam, and the Virgin Islands shall each be treated as a county.

(4)(A) For purposes of determining the fair market value of fee areas under paragraph (1)(B), the Secretary shall—

(i) appraise before September 30, 1979, all fee areas for which payments under this section were not authorized for fiscal years occurring before October 1, 1977; and

(ii) appraise all other fee areas, within five years after October 17, 1978, in the order in which such areas were first established by the Service.

After initial appraisal under clause (i) or (ii), each fee area shall thereafter be reappraised by the Secretary at least once during each five-year period occurring after the date of the initial appraisal. Until any fee area referred to in clause (ii) is initially appraised under this subparagraph, the fair market value of such area shall be deemed to be that adjusted cost of the area which was used to determine payments under this subsection for fiscal year 1977; and in no case may the amount of any payment to any local government under paragraph (1)(B) with respect to any fee area be less than the amount paid under paragraph (2)(A) of this subsection (as in effect on September 30, 1977) with respect to such area.

(B) The Secretary shall make the determinations required under this subsection in such manner as the Secretary considers to be equitable and in the public interest. All such determinations shall be final and conclusive.

(5)(A) Each county which receives payments under paragraphs (1) and (2) with respect to any fee area or reserve area shall distribute, under guidelines established by the Secretary, such payments on a proportional basis to those units of local government (including, but not limited to, school districts and the county itself in appropriate cases) which have incurred the loss or reduction of real property tax revenues by reason of the existence of such area. In any case in which a unit of local government other than the county acts as the collecting and distributing agency for real property taxes, the payments under paragraphs (1) and (2) shall be made to such other unit which shall distribute the payments in accordance with the guidelines.

(B) The Secretary may prescribe regulations under which payments under this paragraph may be made to units of local government in cases in which subparagraph (A) will not effect the purposes of this paragraph.

(C) Payments received by units of local government under this subsection may be used by such units for any governmental purpose.

(d) Authorization of appropriations equal to difference between amount of net receipts and aggregate amount of required payments

If the net receipts in the fund which are attributable to revenue collections for any fiscal year do not equal the aggregate amount of payments required to be made for such fiscal year under subsection (c) of this section to counties, there are authorized to be appropriated to the fund an amount equal to the difference between the total amount of net receipts and such aggregate amount of payments.

(e) Transfer and use of excess of net receipts over aggregate amount of required payments

If the net receipts in the fund which are attributable to revenue collections for any fiscal year exceed the aggregate amount of payments required to be made for such fiscal year under subsection (c) of this section to counties, the amount of such excess shall be transferred to the Migratory Bird Conservation Fund for use in the acquisition of suitable areas for migratory bird refuges under the provisions of the Migratory Bird Conservation Act (16 U.S.C. 715-715r).

(f) Terms, conditions, and regulations for execution of revenue producing activities; disposal of animals

The Secretary shall carry out any revenue producing activity referred to in subsection (a)(1), (2), and (3) of this section within any fee area or reserve area subject to such terms, conditions, or regulations, including sales in the open markets, as the Secretary determines to be in the best interest of the United States. The Secretary may, in accordance with such regulations as the Secretary may prescribe, dispose of animals which are surplus to any such area by exchange of the same or other kinds, gift or loan to public institutions for exhibition or propagation purposes, and for the advancement of knowledge and the dissemination of information relating to the conservation of wildlife.

REFERENCES IN TEXT

Beginning with the next full fiscal year and for each fiscal year thereafter, referred to in subsec. (a), probably means the next full fiscal year following Aug. 30, 1964, the date of enactment of Pub. L. 88–523, which amended this section.

The Migratory Bird Conservation Act, referred to in subsec. (e), is act Feb. 18, 1929, ch. 257, 45 Stat. 1222, which is classified generally to this subchapter. For complete classification of this Act to the Code, see section 715 of this title and Tables.

’’(3) other privileges; shall be covered’’ which was not enacted by the Congress but subsec. (a) was amended as provided in the 1978 Amendment note below.

Section was not enacted as part of the ‘‘Migratory Bird Conservation Act’’ which comprises this subchapter.

AMENDMENTS

1982—Subsec. (b). Pub. L. 97–238 struck out subsec. (b) which had provided for administration of payments to local governments for entitlement lands, reserve areas as entitlement lands, and payments received by any unit of local government to be deemed payments under specified provisions. See sections 6901 and 6903 of Title 31, Money and Finance.

1978—Subsec. (a). Pub. L. 95–469, §1(a)(1), authorized the separate fund in the United States Treasury to include revenues from sale or other disposition of salmonoid carcasses and extended the operation and management provision to areas of National Fish Hatcheries and other areas administered by the Secretary.

Subsec. (b). Pub. L. 95–469, §1(a)(2), substituted ‘‘revenue-producing and revenue-sharing measures’’ for ‘‘revenue-producing measures set forth in subsection (a) of this section’’.

Subsec. (c). Pub. L. 95–469, §1(a)(3), in revising subsec. (c), substituted pars. (1) to (5) for prior text consisting of introductory text authorizing expenditures solely for benefit of public schools and roads, now covered in par. (5)(C); par. (1) of first sentence, now included in par. (2); par. (2) of first sentence, now covered in pars. (1)(B), (C) and (D) in part; and second sentence now incorporated in par. (4)(B).

Subsec. (d). Pub. L. 95–469, §1(a)(3), substituted provision for authorization of appropriations equal to difference between amount of required payments for prior provision limiting amount payable to the counties to amount of net receipts in the fund for any fiscal year and a proportionate reduction of payments when net receipts are insufficient for aggregate amount of payments for any fiscal year.

Subsec. (e). Pub. L. 95–469, §1(a)(3), in revising subsec. (e), substituted provision authorizing use of surplus funds for acquisition of suitable areas for migratory bird refuges for prior provision making remaining funds available for such land acquisition and eliminated provision prohibiting funds available for the Management of the National Wildlife Refuge System or for enforcement of the Migratory Bird Treaty Act from being diminished by the amendments made by Pub. L. 93–509 to this subsection unless by specific congressional enactment.

Subsec. (f). Pub. L. 95–469, §1(a)(3), substituted ‘‘The Secretary shall carry out any revenue producing activity referred to in subsection (a)(1), (2), and (3) of this section within any fee area or reserve area subject to such terms, conditions, or regulations, including sales in the open markets, as the Secretary determines to be in the best interest of the United States.’’ for ‘‘The disposition or sale of surplus animals, minerals, and other products, the grant of privileges, and the carrying out of any other activities that result in the collection of revenues within any areas of the System may be accomplished upon such terms, conditions, including sales in the open markets, as the Secretary shall determine to be in the best interest of the United States.’’ and reenacted substance of second sentence, setting out provision for regulations at beginning rather than end of sentence.

1974—Subsec. (e). Pub. L. 93–509 substituted provisions that moneys remaining in the fund after all payments under this section are made for any fiscal year shall be transferred to the Migratory Bird Conservation Fund and shall be available for land acquisition under the Migratory Bird Conservation Act with exception that the funds available for the management of the National Wildlife Refuge System or for enforcement of the Migratory Bird Treaty Act shall not be diminished for provisions that moneys remaining in the fund after all payments are made for any fiscal year may be transferred by the Secretary thereafter for management of the System, including but not limited to the construction, improvement, repair, and alteration of buildings, roads, and other facilities, and for enforcement of the Migratory Bird Treaty Act.

1973—Subsec. (a). Pub. L. 93–205 substituted ‘‘listed pursuant to section 1333 of this title as endangered species or threatened species,’’ for ‘‘threatened with extinction.’’

1966—Subsec. (a). Pub. L. 89–669 defined the National Wildlife Refuge System to include lands acquired or reserved for the protection and conservation of fish and wildlife that are threatened with extinction.

1964—Pub. L. 88–523 substituted provisions designated as subsecs. (a) to (g) for former provisions constituting one paragraph consisting of a first clause with three provisions and a second clause; required in subsec. (a) all receipts from the National Wildlife Refuge System to be covered into a separate fund in the United States Treasury, made the fund available until expended for expenditures without further appropriation, and defined the National Wildlife Refuge System; incorporated the third proviso of the first clause and the second clause in subsec. (h) and the parenthetical matter of subsec. (c); incorporated in the reserved public lands provision of subsec. (c)(1) the formula of the first clause for returning twenty-five per centum of the net receipts from the System to the counties in which producing refuges are located for the benefit of the public schools and roads therein; incorporated the first
proviso of the first clause in subsec. (c)(1) proviso; substituted subsec. (c)(2) providing an option plan for payment of either 25 per centum of the net receipts from lands acquired in fee by the United States to the counties in which such acquired lands are located or three-fourths of 1 per centum of the adjusted cost of the acquired lands, whichever is higher, for the formula of the first clause for returning 25 per centum of the revenues; inserted provisions of subsecs. (d), (e), and (g); and incorporated the second proviso of the first clause in subsec. (f).

Harry S. Truman.

§ 742a. Declaration of policy

The Congress declares that the fish, shellfish, and wildlife resources of the Nation make a material contribution to our national economy and food supply, as well as a material contribution to the health, recreation, and well-being of our citizens; that such resources are a living, renewable form of national wealth that is capable of being maintained and greatly increased with proper management, but equally capable of destruction if neglected or unwisely exploited; that such resources afford outdoor recreation throughout the Nation and provide employment, directly or indirectly, to a substantial number of citizens; that the fishing industries strengthen the defense of the United States through the provision of a trained seafaring citizenry and action-ready fleets of seaworthy vessels; that the training and sport afforded by fish and wildlife resources strengthen the national defense by contributing to the general health and physical fitness of millions of citizens; and that properly developed, such fish and wildlife resources are capable of steadily increasing these valuable contributions to the life of the Nation.

The Congress further declares that the fishing industry, in its several branches, can prosper and thus fulfill its proper function in national life only if certain fundamental needs are satisfied by means that are consistent with the public interest and in accord with constitutional functions of governments. Among these needs are:

1. Freedom of enterprise—freedom to develop new areas, methods, products, and markets in accordance with sound economic principles, as well as freedom from unnecessary administrative or legal restrictions that unreasonably conflict with or ignore economic needs;

2. Protection of opportunity—maintenance of an economic atmosphere in which domestic production and processing can prosper; protection from subsidized competing products; protection of opportunity to fish on the high seas in accordance with international law;

3. Assistance—assistance consistent with that provided by the Government for industry generally, such as is involved in promoting good industrial relations, fair trade standards, harmonious labor relations, better health standards and sanitation; and including, but not limited to—

(a) services to provide current information on production and trade, market promotion and development, and an extension service,

(b) research services for economic and technologic development and resource conservation,

(c) resource management to assure the maximum sustainable production for the fisheries.

The Congress further declares that the provisions of this Act are necessary in order to accomplish the objective of proper resource development, and that this Act shall be administered with due regard to the inherent right of every citizen and resident of the United States to engage in fishing for his own pleasure, enjoyment, and betterment, and with the intent of maintaining and increasing the public opportunities for recreational use of our fish and wildlife resources, and stimulating the development of a strong, prosperous, and thriving fishery and fish processing industry.

"(4) by encouraging refuge educational programs, public awareness of the resources of the System and public participation in the conservation of those resources can be promoted.

"(b) PURPOSES.—The purposes of this Act are—

"(1) to encourage the use of volunteers to assist the United States Fish and Wildlife Service in the management of refuges within the System;

"(2) to facilitate partnerships between the System and non-Federal entities to promote public awareness of the resources of the System and public participation in the conservation of those resources; and

§ 757a. Anadromous, Great Lakes, and Lake Champlain fisheries

(a) Conservation, development, and enhancement; cooperative agreements; costs

For the purpose of conserving, developing, and enhancing within the several States the anadromous fishery resources of the Nation that are subject to depletion from water resources developments and other causes, or with respect to which the United States has made conservation commitments by international agreements, and for the purpose of conserving, developing, and enhancing the fish in the Great Lakes and Lake Champlain that ascend streams to spawn, the Secretary of the Interior is authorized to enter into cooperative agreements with one or more States, acting jointly or severally, that are concerned with the development, conservation, and enhancement of such fish, and, whenever he deems it appropriate, with other non-Federal interests. Such agreements shall describe (1) the actions to be taken by the Secretary and the cooperating parties, (2) the benefits that are expected to be derived by the States and other non-Federal interests, (3) the estimated cost of these actions, (4) the share of such costs to be borne by the Federal Government and by the States and other non-Federal interests: Provided, That, except as provided in subsection (c) of this section, the Federal share, including the operation and maintenance costs of any facilities constructed by the Secretary pursuant to sections 757a to 757f of this title, which he annually determines to be a proper Federal cost, shall not exceed 50 per centum of such costs exclusive of the value of any Federal land involved: Provided further, That the non-Federal share may be in the form of real or personal property, the value of which will be determined by the Secretary, as well as money, (5) the term of the agreement, (6) the terms and conditions for disposing of any real or personal property acquired by the Secretary during or at the end of the term of the agreement, and (7) such other terms and conditions as he deems desirable.

(1) The Secretary may also enter into agreements with the States for the operation of any facilities and management and administration of any lands or interests therein acquired or facilities constructed pursuant to sections 757a to 757f of this title.

(2) In carrying out responsibilities under this section, the Secretary shall conduct, promote, and encourage research in preparation for the implementation of the use of ecosystems and
interspecies approaches to the conservation and management of anadromous and Great Lakes fishery resources.

(c) Increase of Federal share

(1) Whenever two or more States having a common interest in any basin jointly enter into a cooperative agreement with the Secretary under subsection (a) of this section to carry out a research and development program to conserve, develop, and enhance anadromous fishery resources of the Nation, or fish in the Great Lakes and Lake Champlain that ascend streams to spawn, the Federal share of the program costs shall be increased to a maximum of 66% per cent. For the purpose of this subsection, the term "basin" includes rivers and their tributaries, lakes, and other bodies of water or portions thereof.

(2) In the case of any State that has implemented an interstate fisheries management plan for anadromous fishery resources, prepared by an interstate commission, the Federal share of any grant made under this section to carry out activities required by such plan shall be up to 90 percent. For purposes of this paragraph, the term "interstate commission" means:

The State of Idaho shall be eligible on an equal standing with other States for Federal funding for purposes authorized by sections 757a to 757f of this title.

CODIFICATION

Although the intent of Congress to amend this section is clear from the directory language of Pub. L.
98–146 which states that the sentence relating to the eligibility of the State of Idaho be added to “16 U.S.C. 757e”, that directory language has been editorially interpreted as directing the addition of that sentence to section 5 of Pub. L. 89–304, because Title 16 of the United States Code [this title] has never been enacted into positive law and its sections are therefore not susceptible of amendment as sections of “16 U.S.C.”—

and because section 5 of Pub. L. 89–304 is the statute which was classified to, and serves as the source for 16 U.S.C. 757e [this section].

Such recommendations and any enforcement measures initiated pursuant thereto by the Secretary of Health and Human Services shall be designed to enhance the quality of such waters, and shall take into consideration all other legitimate uses of such waters.

Congress finds the following:

(1) The National Fish Hatchery System (in this chapter referred to as the “System”)—

(A) consists of more than 60 hatcheries, seven fish technology centers, 9 fish health centers, and other fisheries program offices;

(B) plays an integral role in the recovery of more than 50 threatened species and endangered species and the restoration of over 100 native species;

(C) provides healthy fish populations that support recreational fishing opportunities, many of which are related to Federal water control structures; and

(D) works with over 250 partners to help mitigate the impacts of aquatic habitat loss and invasive species.

(2) The System faces many challenges, including aging facilities, some of which date back to the late 1800s, and maintenance of intensive infrastructures such as wells, pumps, valves, pipes, filters, heaters, chillers, and treatment systems that must keep clean water moving 24 hours a day, 365 days a year.
