For complete classification of title V to the Code, see Tables.

§ 423l–2. Findings and purpose

(a) Findings

The Congress finds the following:

(1) In the Act of March 2, 1936 (Chapter 113; 49 Stat. 1155; 16 U.S.C. 423j)), Congress authorized the establishment of the Richmond National Battlefield Park, and the boundaries of the battlefield park were established to permit the inclusion of all military battlefield areas related to the battles fought during the Civil War in the vicinity of the City of Richmond, Virginia. The battlefield park originally included the area then known as the Richmond Battlefield State Park.

(2) The total acreage identified in 1936 for consideration for inclusion in the battlefield park consisted of approximately 225,000 acres in and around the City of Richmond. A study undertaken by the congressionally authorized Civil War Sites Advisory Committee determined that of these 225,000 acres, the historically significant areas relating to the campaigns against and in defense of Richmond encompass approximately 38,000 acres.

(3) In a 1996 general management plan, the National Park Service identified approximately 7,121 acres in and around the City of Richmond that satisfy the National Park Service criteria of significance, integrity, feasibility, and suitability for inclusion in the battlefield park. The National Park Service later identified an additional 186 acres for inclusion in the battlefield park.

(4) There is a national interest in protecting and preserving sites of historical significance associated with the Civil War and the City of Richmond.

(5) The Commonwealth of Virginia and its local units of government have authority to prevent or minimize adverse uses of these historic resources and can play a significant role in the protection of the historic resources related to the campaigns against and in defense of Richmond.

(6) The preservation of the New Market Heights Battlefield in the vicinity of the City of Richmond is an important aspect of American history that can be interpreted to the public. The Battle of New Market Heights represents a premier landmark in black military history as 14 black Union soldiers were awarded the Medal of Honor in recognition of their valor during the battle. According to National Park Service historians, the sacrifices of the United States Colored Troops in this battle helped to ensure the passage of the Thirteenth Amendment to the United States Constitution to abolish slavery.

(b) Purpose

It is the purpose of sections 423l–1 to 423l–6 of this title—

(1) to revise the boundaries for the Richmond National Battlefield Park based on the findings of the Civil War Sites Advisory Committee and the National Park Service; and

(2) to direct the Secretary of the Interior to work in cooperation with the Commonwealth of Virginia, the City of Richmond, other political subdivisions of the Commonwealth, other public entities, and the private sector in the management, protection, and interpretation of the resources associated with the Civil War and the Civil War battles in and around the City of Richmond, Virginia.

§ 423l–3. Richmond National Battlefield Park; boundaries

(a) Establishment and purpose

For the purpose of protecting, managing, and interpreting the resources associated with the Civil War battles in and around the City of Richmond, Virginia, there is established the Richmond National Battlefield Park consisting of approximately 7,307 acres of land, as generally depicted on the map entitled “Richmond National Battlefield Park Boundary Revision”, numbered 367N.E.F.A.80026A, and dated September 2000. In acquiring lands and interests in lands under sections 423l–1 to 423l–6 of this title, the Secretary shall acquire the minimum interest necessary to achieve the purposes for which the battlefield is established.

(2) Special rule for private lands

Privately owned lands or interests in lands may be acquired under sections 423l–1 to 423l–6 of this title only with the consent of the owner.

(b) Easements

(1) Outside boundaries

The Secretary may acquire an easement on property outside the boundaries of the battlefield park and around the City of Richmond, with the consent of the owner, if the Secretary determines that the easement is necessary to protect core Civil War resources as identified by the Civil War Sites Advisory Committee. Upon acquisition of the easement, the Secretary shall revise the boundaries of the battlefield park to include the property subject to the easement.

(2) Inside boundaries

To the extent practicable, and if preferred by a willing landowner, the Secretary shall use permanent conservation easements to acquire interests in land in lieu of acquiring land in fee simple and thereby removing land from non-Federal ownership.

(c) Visitor center

The Secretary may acquire the Tredegar Iron Works buildings and associated land in the City of Richmond for use as a visitor center for the battlefield park.

(c) Cooperative agreements

The Secretary may enter into cooperative agreements with the Commonwealth of Virginia, its political subdivisions (including the City of Richmond), private property owners, and other members of the private sector to develop mechanisms to protect and interpret the historical resources within the battlefield park in a manner that would allow for continued private ownership and use where compatible with the purposes for which the battlefield is established.

(d) Technical assistance

The Secretary may provide technical assistance to the Commonwealth of Virginia, its political subdivisions, nonprofit entities, and private property owners for the development of comprehensive plans, land use guidelines, special studies, and other activities that are consistent with the identification, protection, interpretation, and commemoration of historically significant Civil War resources located inside and outside of the boundaries of the battlefield park. The technical assistance does not authorize the Secretary to own or manage any of the resources outside the battlefield park boundaries.

Any lands or interests in lands owned by the State of Tennessee or any political subdivision thereof may be acquired only by donation. Lands and interests therein acquired pursuant to sections 426n to 426p of this title shall become part of the battlefield, subject to all the laws and regulations applicable thereto.

(2)(A) Before acquiring any lands under sections 426n to 426p of this title where the surface of such lands has been substantially disturbed or which are believed by the Secretary to contain hazardous substances, the Secretary shall prepare a report on the potential hazardous substances associated with such lands and the estimated cost of restoring such lands, together with a plan of the remedial measures necessary to allow acquisition of such lands to proceed in a timely manner, consistent with the requirements of subparagraph (B). The Secretary shall submit such report to the Committee on Energy and Natural Resources of the United States Senate and the Committee on Natural Resources of the United States House of Representatives.

(B) The Secretary shall not acquire any lands under sections 426n to 426p of this title if the Secretary determines that such lands, or any portion thereof, have become contaminated with hazardous substances (as defined in the Comprehensive Environmental Response, Compensation, and Liability Act (42 U.S.C. 9601)).

The right retained may be for a definite term which shall not exceed 25 years or, in lieu thereof, for a term ending at the death of the owner or the death of the spouse, whichever is later. The owner shall elect the term to be retained. The Secretary shall pay the owner the fair market value of the property on the date of such acquisition, less the fair market value of the term retained by the owner.

(B) Any right of use and occupancy retained pursuant to this section may, during its existence, be conveyed or transferred, but all rights of use and occupancy shall be subject to such terms and conditions as the Secretary deems appropriate to assure the use of the property in accordance with the purposes of sections 426n to 426p of this title. Upon his determination that the property, or any portion thereof, has ceased to be so used in accordance with such terms and conditions, the Secretary may terminate the right of use and occupancy by tendering to the holder of such right an amount equal to the fair market value, as of the date of the tender, of that portion of the right which remains unexpired on the date of termination.

(C) This paragraph applies only to owners who have reached the age of majority.

(D) As used in this paragraph, the term “improved property” means a detached, year-round noncommercial residential dwelling, the construction of which was begun before December 31, 1991, together with so much of the land on which the dwelling is situated, such land being in the same ownership as the dwelling, as the Secretary shall designate to be reasonably necessary for the enjoyment of the dwelling for the sole purpose of noncommercial residential use, together with any structures accessory to the dwelling which are situated on the land so designated.

With respect to areas within the 1954 boundaries of the park, as identified on the map referred to in section 429b of this title, the Secretary may not acquire fee simple title to such areas without the consent of the owner so long as the lands continue to be devoted to a use which is the same as that in effect on September 1, 1980. § 430f–4. Jurisdiction of lands

Upon the delivery and acceptance of the conveyance herein authorized, any jurisdiction heretofore ceded to the United States by the State of Tennessee over the lands conveyed shall thereby cease and determine and shall thereafter vest and be in the State of Tennessee.

CHANGE OF NAME

Word “park” substituted in text for “monument” pursuant to Pub. L. 95–625, § 611, which is classified to section 441e–1 of this title and which redesignated Badlands National Monument as Badlands National Park.

§ 441l. Exchange of lands; transfer from Federal agency to administrative jurisdiction of Secretary; terms and conditions of purchase

Inasmuch as (A) most of the lands added to the Badlands National Park by section 441l of this title are inside the boundaries of the Pine Ridge Sioux Indian Reservation, (B) such lands are also within a tract of land forty-three miles long and twelve and one-half miles wide which is in the north-western part of such Indian reservation and has been used by the United States Air Force as a gunnery range since the early part of World War II, (C) the tribal lands within such gunnery range were leased by the Federal Government and the other lands within such gun-
nery range were purchased by the Federal Government from the individual owners (mostly Indians), (D) the Department of the Air Force has declared most of such gunnery range lands excess to its needs and such excess lands have been requested by the National Park Service under sections 3302, 3307(e), 3501(b), 3509, 3906, 4710, and 4711 of subtitle I of title 41, (E) the leased tribal lands and the excess lands within the enlarged Badlands National Park are needed for the park, (F) the other excess lands in such gunnery range should be restored to the former Indian owners of such lands, and (G) the tribe is unwilling to sell its tribal lands for inclusion in the national park, but is willing to exchange them or interests therein for the excess gunnery range lands, which, insofar as the lands within the gunnery range formerly held by the tribe are concerned, should be returned to Indian ownership in any event, the Congress hereby finds that such exchange would be in the national interest and authorizes the following actions:

(a) All Federal lands and interests in lands within the Badlands National Park gunnery range that are outside the boundaries of the park and that heretofore or hereafter are declared excess to the needs of the Department of the Air Force shall be transferred to the administrative jurisdiction of the Secretary of the Interior without a transfer of funds.

(b) Any former Indian or non-Indian owner of a tract of such land, whether title was held in trust or fee, may purchase such tract from the Secretary of the Interior under the following terms and conditions:

1. The purchase price to a former Indian owner shall be the total amount paid by the United States to acquire such trust and all interests therein, plus interest thereon from the date of acquisition at a rate determined by the Secretary of the Treasury taking into consideration the average market yield of all outstanding marketable obligations of the United States at the time the tract was acquired by the United States, adjusted to the nearest one-eighth of 1 per centum. The purchase price to a former non-Indian owner shall be present fair market value of the tract as determined by the Secretary of the Interior.

2. Not less than $100 or 20 per centum of the purchase price, whichever is less, shall be paid at the time of purchase, and the balance shall be payable in not to exceed 20 years with interest at a rate determined by the Secretary of the Treasury taking into account the current average market yield on outstanding marketable obligations of the United States with twenty years remaining to date of maturity, adjusted to the nearest one-eighth of 1 per centum.

3. Title to the tract purchased shall be held in trust for the purchaser if it was held in trust status at the time the tract was acquired by the United States; otherwise, the title to the tract purchased shall be conveyed to the purchaser subject to a mortgage and such other security instruments as the Secretary deems appropriate. If a tract purchased under this subsection is offered for resale during the following ten-year period, the tribe must be given the first right to purchase it.

4. The unpaid balance of the purchase price shall be a lien against the land if the title is held in trust and against all rents, bonuses, and royalties received therefrom. In the event of default in the payment of any installment of the purchase price the Secretary may take such action to enforce the lien as he deems appropriate, including foreclosure and conveyance of the land to the Oglala Sioux Tribe.

5. An application to purchase the tract must be filed with the Secretary of the Interior under the following terms and conditions:

6. No application may be filed by more than five of the former owners of an interest in the tract. If more than one such application is filed for a tract the applicants must agree on not more than five of the former owners who shall make the purchase, and failing such agreement all such applications for the tract shall be rejected by the Secretary.

7. “Former owner” means, for the purposes of subsection (b) of this section, each person from whom the United States acquired an interest in the tract, or if such person is deceased, his spouse, or if such spouse is deceased, his children.

(a) Findings

The Congress finds that—

(1) the R.M.S. Titanic, the ocean liner which sank on her maiden voyage after striking an iceberg on April 14, 1912, should be designated as an international maritime memorial to the men, women, and children who perished aboard her;

(2) the recent discovery of the R.M.S. Titanic, lying more than twelve thousand feet beneath the ocean surface, demonstrates the practical applications of ocean science and engineering;

(3) the R.M.S. Titanic, well preserved in the cold, oxygen-poor waters of the deep North Atlantic Ocean, is of major national and international cultural and historical significance, and merits appropriate international protection; and

(4) the R.M.S. Titanic represents a special opportunity for deep ocean scientific research and exploration.

(b) Purposes

The Congress declares that the purposes of sections 450rr to 450rr–6 of this title are—

(1) to encourage international efforts to designate the R.M.S. Titanic as an international maritime memorial to those who lost their lives aboard her in 1912;

(2) to direct the United States to enter into negotiations with other interested nations to establish an international agreement which will provide for the designation of the R.M.S. Titanic as an international maritime memorial, and protect the scientific, cultural, and historical significance of the R.M.S. Titanic;

(3) to encourage, in those negotiations or in other fora, the development and implementation of international guidelines for conducting research on, exploration of, and if appropriate, salvage of the R.M.S. Titanic; and

(4) to express the sense of the United States Congress that, pending such international agreement or guidelines, no person should physically alter, disturb, or salvage the R.M.S. Titanic in any research or exploratory activities which are conducted.

§ 450ss. Findings and purposes

Congress finds that—

(1) few events in the past quarter-century have rocked Americans' perception of themselves and their institutions, and brought together the people of our Nation with greater intensity than the April 19, 1995, bombing of the Alfred P. Murrah Federal Building in downtown Oklahoma City;

(2) the resulting deaths of 168 people, some of whom were children, immediately touched thousands of family members whose lives will forever bear scars of having those precious to them taken away so brutally;

(3) suffering with such families are countless survivors, including children, who struggle not only with the suffering around them, but their own physical and emotional injuries and with shaping a life beyond April 19;

(4) such losses and struggles are personal and, since they resulted from so public an attack, they are also shared with a community, a Nation, and the world;

(5) the story of the bombing does not stop with the attack itself or with the many losses it caused. The responses of Oklahoma's public servants and private citizens, and those from throughout the Nation, remain as a testament to the sense of unity, compassion, even heroism, that characterized the rescue and recovery following the bombing;

(6) during the days immediately following the Oklahoma City bombing, Americans and people from around the world of all races, political philosophies, religions and walks of life responded with unprecedented solidarity and selflessness; and

(7) given the national and international impact and reaction, the Federal character of the site of the bombing, and the significant percentage of the victims and survivors who were Federal employees, the Oklahoma City Memorial will be established, designed, managed and maintained to educate present and future generations, through a public/private partnership, to work together efficiently and respectfully in developing a National Memorial relating to all aspects of the April 19, 1995, bombing in Oklahoma City.

§ 459b–1. Acquisition of property

(a) Authority of Secretary; manner and place; concurrence of State owner; transfer from Federal agency to administrative jurisdiction of Secretary

The Secretary of the Interior (hereinafter referred to as “Secretary”) is authorized to acquire by purchase, gift, condemnation, transfer from any Federal agency, exchange, or otherwise, the land, waters, and other property, and improvements thereon and any interest therein, within the area which is described in section 459b of this title or which lies within the boundaries of the seashore as described pursuant to
section 459b–2 of this title (both together hereinafter in sections 459b to 459b–8 of this title referred to as “such area”). Any property, or interest therein, owned by the Commonwealth of Massachusetts, by any of the towns referred to in section 459b of this title, or by any other political subdivision of said Commonwealth may be acquired only with the concurrence of such owner. Notwithstanding any other provision of law, any Federal property located within such area may, with the concurrence of the agency having custody thereof, be transferred without consideration to the administrative jurisdiction of the Secretary for use by him in carrying out the provisions of sections 459b to 459b–8 of this title.

(b) Use of funds; fair market value

The Secretary is authorized (1) to use donated and appropriated funds in making acquisitions under sections 459b to 459b–8 of this title, and (2) to pay therefor not more than the fair market value of any acquisitions which he makes by purchase under sections 459b to 459b–8 of this title.

(c) Exchange of property; cash equalization payments; reports to Congress

In exercising his authority to acquire property by exchange, the Secretary may accept title to any non-Federal property located within such area and convey to the grantor of such property any federally owned property under the jurisdiction of the Secretary within such area. The properties so exchanged shall be approximately equal in fair market value: Provided, That the Secretary may accept cash from or pay cash to the grantor in such an exchange in order to equalize the values of the properties exchanged.

The Secretary shall report to the Congress on every exchange carried out under authority of sections 459b to 459b–8 of this title within thirty days from its consummation, and each such report shall include a statement of the fair market values of the properties involved and of any cash equalization payment made or received.

(d) Exchange of property; addition to Cape Cod National Seashore

The Secretary may convey to the town of Provincetown, Massachusetts, a parcel of real property consisting of approximately 7.62 acres of Federal land within such area in exchange for approximately 11.157 acres of land outside of such area, as depicted on the map entitled “Cape Cod National Seashore Boundary Revision Map”, dated May, 1967, and numbered 69930.501, to allow for the establishment of a municipal facility to serve the town that is restricted to solid waste transfer and recycling facilities and for other municipal activities that are compatible with National Park Service laws and regulations. (2) The beneficial owner or owners, not being a corporation, of a freehold estate in improved property which property the Secretary acquires by condemnation, who held, on September 1, 1959, with respect to such property, an estate of the same nature and quality, may elect, as an alternative and not in addition to whatever right of election he or they might have under

(3) Where such property is held by a natural person or persons for his or their own life or lives or for the life or lives of another or others (such person or persons being hereinafter called “the life tenant”), with remainder in another or others, any right of election provided for in paragraph (2) of this subsection shall be exercised by the concurrence of the life tenant and the remainderman or remaindermen.

(4) The beneficial owner or owners of a term of years in improved property which the Secretary acquires by condemnation may elect, as a condition to such acquisition, to retain the right of use and occupancy of the said property for noncommercial residential purposes for a term not to exceed the remainder of his or their said term of years, or a term of twenty-five years, whichever shall be the lesser. The owner or owners of the freehold estate or estates in such property may, subject to the right provided for in the preceding sentence, exercise such right or rights of election as remain to them under paragraphs (1) and (2) of this subsection.

(5) No right of election accorded by paragraphs (1), (2), or (4) of this subsection shall be exercised to impair substantially the interests of holders of encumbrances, liens, assessments, or other charges upon or against the property.

(6) Any right or rights of use and occupancy retained pursuant to paragraphs (1), (2), and (4) of this subsection shall be held to run with the land, and may be freely transferred and assigned.

(7) In any case where a right of use and occupancy for life or for a fixed term of years is retained as provided in paragraph (1), (2), or (4) of this subsection, the compensation paid by the Secretary for the property shall not exceed the fair market value of the property on the date of its acquisition by the Secretary, less the fair market value of the property on the date of the said right retained.

(8) The Secretary shall have authority to terminate any right of use and occupancy of property, retained as provided in paragraph (1), (2), or (4) of this subsection, at any time after the date when any use occurs with respect to such property which fails to conform or is in any manner opposed to or inconsistent with any applicable standard contained in regulations issued pursuant to section 459b–4 of this title and in effect on said date: Provided, That no use which is in conformity with the provisions of a zoning bylaw approved in accordance with said section 459b–4 which is in force and applicable to such property shall be held to fail to conform or be opposed to or inconsistent with any such standard. In the event that the Secretary exercises the authority conferred by this paragraph, he shall pay to the owner of the right so terminated an amount equal to the fair market value of the portion of said right which remained on the date of termination.

(b) Suspension of authority for one year and during existence of zoning regulations

(1) The Secretary’s authority to acquire property by condemnation shall be suspended with respect to all improved property located within such area in all of the towns referred to in section 459b of this title for one year following August 7, 1961.

(2) Thereafter such authority shall be suspended with respect to all improved property located within such area in any one of such towns during all times when such town shall have in force and applicable to such property a duly adopted, valid zoning bylaw approved by the Secretary in accordance with the provisions of section 459b–4 of this title.

(c) Suspension of authority respecting property used for commercial or industrial purposes

The Secretary’s authority to acquire property by condemnation shall be suspended with respect to any particular property which is used for commercial or industrial purposes during any periods when such use is permitted by the Secretary and during the pendency of the first application for such permission made to the Secretary after August 7, 1961 provided such application is made not later than the date of establishment of the seashore.

(d) “Improved property” defined

The term “improved property,” wherever used in sections 459b to 459b–8 of this title, shall mean a detached, one-family dwelling the construction of which was begun before September 1, 1959 (hereinafter referred to as “dwelling”), together with so much of the land on which the dwelling is situated, the said land being in the same ownership as the dwelling, as the Secretary shall designate to be reasonably necessary for the enjoyment of the dwelling for the sole purpose of noncommercial residential use, together with any improvements accessory to the dwelling which are situated on the land so designated. The amount of the land so designated shall in every case be at least three acres in area, or all of such lesser amount as may be held in the same ownership as the dwelling, and in making such designation the Secretary shall take into account the manner of noncommercial residential use in which the dwelling and land have customarily been enjoyed: Provided, however, That the Secretary may exclude from the land so designated any beach or waters, together with so much of the land adjoining such beach or waters as the Secretary may deem necessary for public access thereto.

(e) Acquisition of clear, marketable and encumbrance-free title

Nothing in this section or elsewhere in sections 459b to 459b–8 of this title shall be construed to prohibit the use of condemnation as a means of acquiring a clear and marketable title, free of any and all encumbrances.

§ 459b–4. Zoning regulations

(a) Standards for approval; submission to Congress and municipalities; publication in Federal Register; approval of local bylaws; revocation of approval

As soon after August 7, 1961, as may be practicable, the Secretary shall issue regulations specifying standards for approval by him of zoning bylaws for purposes of section 459b–3 of this title. The Secretary may issue amended regulations specifying standards for approval by him of zoning bylaws whenever he shall consider such amended regulations to be desirable due to changed or unforeseen conditions.

All regulations and amended regulations proposed to be issued under authority of the two preceding sentences of this subsection shall be submitted to the Congress and to the towns named in section 459b of this title at least ninety days before they become effective and the Secretary shall, before promulgating any such proposed regulations or amended regulations in final form, take due account of any suggestions for their modification which he may receive during said ninety-day period. All such regulations and amended regulations shall, both in their proposed form and in their final form, be published in the Federal Register.

The Secretary shall approve any zoning bylaw and any amendment to any approved zoning bylaws submitted to him which conforms to the standards contained in the regulations in effect at the time of the adoption by the town of such bylaw or such amendment unless before the time of adoption he has submitted to the Congress and the towns and published in the Federal Register as aforesaid proposed amended regulations with which the bylaw or amendment would not be in conformity, in which case he may withhold his approval pending completion of the review and final publication provided for in this subsection and shall thereafter approve the bylaw or amendment only if it is in conformity with the amended regulations in their final form. Such approval shall not be withdrawn or revoked, nor shall its effect be altered for purposes of section 459b–3 of this title by issuance of any such amended regulations after the date of such approval, so long as such bylaw or such amendment remains in effect as approved.

(b) Commercial and industrial use prohibition; acreage, frontage, setback and miscellaneous requirements

The standards specified in such regulations and amended regulations for approval of any zoning bylaw or zoning bylaw amendment shall contribute to the effect of (1) prohibiting the commercial and industrial use, other than any commercial or industrial use which is permitted by the Secretary, of all property within the boundaries of the seashore which is situated within the town adopting such bylaw; and (2) promoting the preservation and development, in accordance with the purposes of sections 459b to 459b–8 of this title, of the area comprising the seashore, by means of acreage, frontage, and setback requirements and other provisions which may be required by such regulations to be included in a zoning bylaw consistent with the laws of Massachusetts.

(c) Adverse provisions and absence of notice for variance as requiring disapproval of local bylaws

No zoning bylaw or amendment of a zoning bylaw shall be approved by the Secretary which (1) contains any provision which he may consider adverse to the preservation and development, in accordance with the purposes of sections 459b to 459b–8 of this title, of the area comprising the seashore, or (2) fails to have the effect of providing that the Secretary shall receive notice of any variance granted under and any exception made to the application of such bylaw or amendment.

(d) Termination of suspension of authority for acquisition by condemnation because of nonconforming variances and uses; agreements concerning exercise of said authority

If any improved property with respect to which the Secretary's authority to acquire by condemnation has been suspended by reason of the adoption and approval, in accordance with the foregoing provisions of this section, of a zoning bylaw applicable to such property (hereinafter referred to as "such bylaw")—

(1) is made the subject of a variance under or an exception to such bylaw, which variance or exception fails to conform or is in any manner opposed to or inconsistent with any applicable standard contained in the regulations issued pursuant to this section and in effect at the time of the passage of such bylaw, or

(2) is property upon or with respect to which there occurs any use, commencing after the date of the publication by the Secretary of such regulations, which fails to conform or is in any manner opposed to or inconsistent with any applicable standard contained in such regulations (but no use which is in conformity with the provisions of such bylaw shall be held to fail to conform or be opposed to or inconsistent with any such standard),

the Secretary may, at any time and in his discretion, terminate the suspension of his authority to acquire such improved property by condemnation: Provided, however, That the Secretary may agree with the owner or owners of such property to refrain from the exercise of the said authority during such time and upon such terms and conditions as the Secretary may deem to be in the best interests of the development and preservation of the seashore.

§ 459b–5. Certificate of suspension of authority for acquisition by condemnation

The Secretary shall furnish to any party in interest requesting the same, a certificate indicating, with respect to any property located within the seashore as to which the Secretary's authority to acquire such property by condemnation has been suspended in accordance with the pro-

(b) Preservation of seashore; incompatible visitor conveniences restricted; provisions for public enjoyment and understanding; developments for recreational activities; public use areas

(1) In order that the seashore shall be permanently preserved in its present state, no development or plan for the convenience of visitors shall be undertaken therein which would be incompatible with the preservation of the unique flora and fauna or the physiographic conditions now prevailing or with the preservation of such historic sites and structures as the Secretary may designate: Provided, That the Secretary may provide for the public enjoyment and understanding of the unique natural, historic, and scientific features of Cape Cod within the seashore by establishing such trails, observation points, and exhibits and providing such services as he may deem desirable for such public enjoyment and understanding: Provided further, That the Secretary may develop for appropriate public use such portions of the seashore as he deems especially adaptable for camping, swimming, boating, sailing, hunting, fishing, the appreciation of historic sites and structures and natural features of Cape Cod, and other activities of similar nature.

(2) In developing the seashore the Secretary shall provide public use areas in such places and manner as he determines will not diminish for its owners or occupants the value or enjoyment of any improved property located within the seashore.

(c) Hunting and fishing regulations; navigation

The Secretary may permit hunting and fishing, including shellfishing, on lands and waters under his jurisdiction within the seashore in such areas and under such regulations as he may prescribe during open seasons prescribed by applicable local, State and Federal law. The Secretary shall consult with officials of the Commonwealth of Massachusetts and any political subdivision thereof who have jurisdiction of hunting and fishing, including shellfishing, prior to the issuance of any such regulations, and the Secretary is authorized to enter into coopera-

tive arrangements with such officials regarding such hunting and fishing, including shellfishing, as he may deem desirable, except that the Secretary shall leave all aspects of the propagation and taking of shellfish to the towns referred to in section 459b of this title.

The Secretary shall not interfere with navigation of waters within the boundaries of the Cape Cod National Seashore by such means and in such areas as is now customary.

AMENDED DESCRIPTION OF BOUNDARIES OF POINT REYES NATIONAL SEASHORE: PUBLICATION IN FEDERAL REGISTER

Pub. L. 93–550, title II, § 202, Dec. 26, 1974, 88 Stat. 1744, provided that: ‘’The Secretary of the Interior shall, as soon as practicable after the date of enactment of this title (Dec. 26, 1974), publish an amended description of the boundaries of the Point Reyes National Seashore in the Federal Register, and thereafter he shall take such action with regard to such amended description and the map referred to in section 201 of this title (amending section 459c–1 of this title) as is required in the second sentence of subsection (b) of section 4 of the act of September 13, 1962, as amended [subsec. § 459c–5. Owner’s reservation of right of use and occupancy for fixed term of years or life

(a) Election of term; fair market value; termination; notice; lease of Federal lands; restrictive covenants, offer to prior owner or leaseholder

Except for property which the Secretary specifically determines is needed for interpretive or resources management purposes of the seashore, the owner of improved property or of agricultural property on the date of its acquisition by the Secretary under sections 459c to 459c–7 of this title may, as a condition of such acquisition, retain for himself and his or her heirs and assigns the right of use and occupancy for a definite term of not more than twenty-five years, or, in lieu thereof, for a term ending at the death of the owner or the death of his or her spouse, whichever is later. The owner shall elect the term to be reserved. Unless the property is wholly or partly donated to the United States, the Secretary shall pay to the owner the fair market value of the property on the date of acquisition minus the fair market value on that date of the right retained by the owner. A right retained pursuant to this section shall be subject to termination by the Secretary upon his or her determination that it is being exercised in a manner inconsistent with the purposes of sections 459c to 459c–7 of this title, and it shall terminate by operation of law upon the Secretary’s notifying the holder of the right of such determination and tendering to him or her an amount equal to the fair market value of that portion of the right which remains unexpired. Where appropriate in the discretion of the Secretary, he or she may lease federally owned land (or any interest therein) which has been acquired by the Secretary under sections 459c to 459c–7 of this title, and which was agricultural land prior to its acquisition. Such lease shall be subject to such restrictive covenants as may be necessary to carry out the purposes of sections 459c to 459c–7 of this title. Any land to be leased by the Secretary under this section shall be offered first for such lease to the person who owned such land or was a leaseholder thereon immediately before its acquisition by the United States.

(b) ‘‘Improved and agricultural property’’ defined

As used in sections 459c to 459c–7 of this title, the term ‘‘improved property’’ shall mean a private noncommercial dwelling, including the land on which it is situated, whose construction was begun before September 1, 1959, or, in the case of areas added by action of the Ninety-fifth Congress, May 1, 1978, and, in case of areas added by action of the Ninety-sixth Congress, May 1, 1979, and structures accessory thereto (hereinafter in this subsection referred to as ‘‘dwelling’’), together with such amount and locus of the property adjoining and in the same ownership as such dwelling as the Secretary designates to be reasonably necessary for the enjoyment of such dwelling for the sole purpose of noncommercial residential use and occupancy.

In making such designation the Secretary shall take into account the manner of noncommercial residential use and occupancy in which the dwelling and such adjoining property has usually been enjoyed by its owner or occupant. The term ‘‘agricultural property’’ as used in sections 459c to 459c–7 of this title means lands which were in regular use for, or were being converted to agricultural, ranching, or dairying purposes as of May 1, 1978, or, in the case of areas added by action of the Ninety-sixth Congress, May 1, 1979, together with residential and other structures related to the above uses of the property that were in existence or under construction as of May 1, 1978.

(c) Payment deferral; scheduling; interest rate

In acquiring those lands authorized by the Ninety-fifth Congress for the purposes of sections 459c to 459c–7 of this title, the Secretary may, when agreed upon by the landowner involved, defer payment or schedule payments over a period of ten years and pay interest on the unpaid balance at a rate not exceeding that paid by the Treasury of the United States for borrowing purposes.

(d) Lands donated by State of California

The Secretary is authorized to accept and manage in accordance with sections 459c to 459c–7 of this title, any lands and improvements within or adjacent to the seashore which are donated by the State of California or its political subdivisions. He is directed to accept any such lands offered for donation which comprise the Tomales Bay State Park, or lie between said park and Fish Hatchery Creek. The boundaries of the seashore shall be changed to include any such donated lands.

(e) Fee or admission charge prohibited

Notwithstanding any other provision of law, no fee or admission charge may be levied for admission of the general public to the seashore.

1980—Subsec. (a). Pub. L. 96–199, § 101(a)(2), substituted “Except for property which the Secretary specifically determines is needed for interpretive or resources management purposes of the seashore, the” for “The” in first sentence.

Subsec. (b). Pub. L. 96–199, § 101(a)(3), inserted “or, in the case of areas inserted by action of the Ninety-sixth Congress, May 1, 1979,” after “May 1, 1978” and “that were in existence or under construction as of May 1, 1978” after “related to the above uses of the property”.

Except as otherwise provided in sections 459c to 459c–7 of this title, the property acquired by the Secretary under such sections shall be administered by the Secretary without impairment of its natural values, in a manner which provides for such recreational, educational, historic preservation, interpretation, and scientific research opportunities as are consistent with, based upon, and supportive of the maximum protection, restoration, and preservation of the natural environment within the area, subject to the provisions of sections 1, 2, 3, and 4 of this title, as amended and supplemented, and in accordance with other laws of general application relating to the national park system as defined by sections 1b to 1d of this title, except that authority otherwise available to the Secretary for the conservation and management of natural resources may be utilized to the extent he finds such authority will further the purposes of sections 459c to 459c–7 of this title.

(b) Hunting and fishing regulations

The Secretary may permit hunting and fishing on lands and waters under his jurisdiction within the seashore in such areas and under such regulations as he may prescribe during open seasons prescribed by applicable local, State, and Federal law. § 459e. Fire Island National Seashore

(a) Purposes; authorization for establishment

For the purpose of conserving and preserving for the use of future generations certain relatively unspoiled and undeveloped beaches, dunes, and other natural features within Suffolk County, New York, which possess high values to the Nation as examples of unspoiled areas of great natural beauty in close proximity to large concentrations of urban population, the Secretary of the Interior is authorized to establish an area to be known as the ‘Fire Island National Seashore’.

(b) Boundaries

The boundaries of the national seashore shall extend from the easterly boundary of the main unit of Robert Moses State Park eastward to Moriches Inlet and shall include not only Fire Island proper, but also such islands and marshlands in the Great South Bay, Bellport Bay, and Moriches Bay adjacent to Fire Island as Sexton Island, West Island, Hollins Island, Ridge Island, Pelican Island, Pattersquash Island, and Reeves Island and such other small and adjacent islands, marshlands, and wetlands as would lend themselves to contiguity and reasonable administration within the national seashore and, in addition, the waters surrounding said area to a distance of one thousand feet in the Atlantic Ocean and up to four thousand feet in Great South Bay and Moriches Bay and, in addition, mainland terminal and headquarters sites, not to exceed a total of twelve acres, on the Patchogue River within Suffolk County, New York, all as delineated on a map identified as ‘Fire Island National Seashore’, numbered OGP–0004, dated May 1978. The Secretary shall publish said map in the Federal Register, and it may also be examined in the offices of the Department of the Interior.

The Secretary shall pay not more than the fair market value, as determined by him, for any privately owned improved property or interest therein acquired by purchase.

(d) Exchange of property; cash equalization payments

When acquiring land by exchange the Secretary may accept title to any nonfederally owned land located within the boundaries of the national seashore and convey to the grantor any federally owned land under the jurisdiction of the Secretary. The lands so exchanged shall be approximately equal in fair market value, but the Secretary may accept cash from or pay cash to the grantor in order to equalize the values of the lands exchanged.

(e) Limitation of condemnation power during existence of zoning ordinance; Davis Park-Smith Point County Park area exception; beneficial owner’s election of alternatives as condition for acquisition

With one exception the Secretary shall not acquire any privately owned improved property or...
interests therein within the boundaries of the seashore or any property or interests therein within the communities delineated on the boundary map mentioned in section 459e of this title, except beach or waters and adjoining land within such communities which the Secretary determines are needed for public access to the beach, without the consent of the owners so long as the appropriate local zoning agency shall have in force and applicable to such property a duly adopted, valid, zoning ordinance that is satisfactory to the Secretary. The sole exception to this limitation on the power of the Secretary to condemn improved property where appropriate zoning ordinances exist shall be in the approximately eight-mile area from the easterly boundary of the Smith Point County Park, in the town of Brookhaven, to the westerly boundary of the Brookhaven town park at Davis Park, in the town of Brookhaven, to the westerly boundary of the Smith Point County Park. In this area only, when the Secretary deems it advisable for carrying out the purposes of sections 459e to 459e–9 of this title or to improve the contiguity of the park land and ease its administration, the Secretary may acquire any land improvements therein by condemnation. In every case in which the Secretary exercises this right of condemnation of improved property the beneficial owner or owners (not being a corporation) of any improved property so condemned, provided he, she, or they held the same or a greater estate in the property on July 1, 1963, may elect as a condition of such acquisition by the Secretary any one of the following three alternatives:

(1) that the Secretary shall take the said property in fee simple absolute and pay the fair market value thereof as of the date of such taking;

(2) that the owner or owners shall retain a life estate in said property, measured on the life of the sole owner or on the life of any one person among multiple owners (notice of the person so designated to be filed in writing with the Secretary within six months after the taking) or on the life of the survivor in title of any estate held on July 1, 1963, as a tenancy by the entirety. The price in such case shall be diminished by the actuarial fair market value of the life estate retained, determined on the basis of standard actuarial methods;

(3) that the owner or owners shall retain an estate for twenty-five years. The price in this case shall likewise be diminished by the value of the estate retained.

(f) "Improved property" defined

The term "improved property" as used in sections 459e to 459e–9 of this title shall mean any building, the construction of which was begun before July 1, 1963, and such amount of land, not in excess of two acres in the case of a residence or ten acres in the case of a commercial or industrial use, on which the building is situated as the Secretary considers reasonably necessary to the use of the building: Provided, That the Secretary may exclude from improved properties any beach or waters, together with so much of the land adjoining such beach or waters as he deems necessary for public access thereto.

(g) Undeveloped tracts and property; suspension of condemnation authority; natural state

The authority of the Secretary to condemn undeveloped tracts within the Dune District as depicted on map entitled "Fire Island National Seashore" numbered OGP-0004 dated May, 1978, is suspended so long as the owner or owners of the undeveloped property therein maintain the property in its natural state. Undeveloped property within the Dune District that is acquired by the Secretary shall remain in its natural state.

(h) Sale of property acquired by condemnation; excepted properties; proceeds available for acquisition of property

(1)(A) The Secretary shall sell any property described in subparagraph (B) of this paragraph acquired by condemnation under sections 459e to 459e–9 of this title to the highest bidder; except that—

(i) no property shall be sold at less than its fair market value; and

(ii) no property shall be sold unless it is sold subject to covenants or other restrictions that will ensure that the use of such property conforms—

(I) to the standards specified in regulations issued under section 459e–2(a) of this title which are in effect at the time of such sale, and

(II) to any approved zoning ordinance or amendment thereof to which such property is subject.

(B) The property referred to in subparagraph (A) of this paragraph is any property within the boundaries of the national seashore as delineated on the map mentioned in section 459e of this title except—

(i) property within the Dune district referred to in subsection (g) of this section;

(ii) beach or waters and adjoining land within the exempt communities referred to in the first sentence of subsection (e) of this section; and

(iii) property within the eight-mile area described in the second sentence of subsection (e) of this section; and

(iv) any property acquired prior to October 1, 1982, that the Secretary determines should be retained to further the purpose of sections 459e to 459e–9 of this title.

(2) Notwithstanding any other provision of law, all moneys received from sales under paragraph (1) of this subsection may be retained and shall be available to the Secretary, without further appropriation, only for purposes of acquiring property under sections 459e to 459e–9 of this title.

(i) Injunctive relief; termination

(1) Upon or after the commencement of any action for condemnation with respect to any property under sections 459e to 459e–9 of this title, the Secretary, through the Attorney General of the United States, may apply to the United States District Court for the Eastern District of New York for a temporary restrain-
ing order or injunction to prevent any use of, or construction upon, such property that—

(A) fails, or would result in a failure of such property, to conform to the standards specified in regulations issued under section 459e–2(a) of this title in effect at the time such use or construction began; or

(B) in the case of undeveloped tracts in the Dune district referred to in subsection (g) of this section, would result in such undeveloped property not being maintained in its natural state.

(2) Any temporary restraining order or injunction issued pursuant to such an application shall terminate in accordance with the provisions of section 459e–2(g) of this title.

A right of use and occupancy reserved pursuant to this section shall be subject to termination by the Secretary upon his determination that the use and occupancy is not consistent with an applicable zoning ordinance approved by the Secretary in accordance with the provisions of section 459e–2 of this title, and upon tender to the owner of the right an amount equal to the fair market value of that portion of the right which remains unexpired on the date of termination.

In order to preserve and protect the outstanding natural, scenic, scientific, ecologic, and historic values of certain lands, shoreline, and waters of the State of Florida, and to provide for public outdoor recreation use and enjoyment of the same, there is hereby established the Canaveral National Seashore (hereinafter referred to as the "seashore"), as generally depicted on the map entitled "Boundary Map, Canaveral National Seashore", dated August 1974 and numbered NS–CAN–40,000A. Such seashore shall comprise approximately sixty-seven thousand five hundred acres within the area more particularly described by a line beginning at the intersection of State Highway 3 and State Road 402, thence generally easterly following State Road 402 to a point one-half mile offshore in the Atlantic Ocean, thence northwesterly along a line which is at each point one-half mile distant from the high water mark to Bethune Beach, thence in a generally westerly direction through Turner Flats and Shipyard Canal, thence northwesterly to the Intracoastal Waterway, thence southerly along the Intracoastal Waterway to the boundary of the Kennedy Space Center, thence southwesterly to United States Highway 1, thence southerly along State Highway 3 to the point of beginning. The boundary map shall be on file and available for public inspection in the offices of the United States Fish and Wildlife Service and National Park Service, Department of the Interior, Washington, District of Columbia. After advising the Committee on Energy and Natural Resources of the Senate and the Committee on Natural Resources of the House of Representatives, in writing, at least sixty days prior to making any boundary revisions, the Secretary may from time to time make minor revisions in the boundaries of the seashore by publication of a revised map or other boundary description in the Federal Register: Provided, That the total acreage included within the boundaries shall not exceed that enumerated in this section.

Within the boundaries of the seashore, the Secretary may acquire lands, waters, and interests therein by donation, purchase with donated or appropriated funds, exchange, or transfer. Any property owned by the State of Florida or any political subdivision thereof may be acquired only by donation. It is the intent and purpose of sections 459j to 459i–8 of this title that the Secretary shall have sole authority to develop and improve those State owned lands donated now and in the future in accordance with the intent and purposes of sections 459j to
§ 459j–3. Designation of hunting, fishing and trapping zones; regulations; consultation with appropriate State agencies

The Secretary shall permit hunting, fishing, and trapping on lands and waters under his jurisdiction within the boundaries of the seashore in accordance with the appropriate laws of the State of Florida and the United States to the extent applicable, except that he may designate zones where, and establish periods when, no hunting, fishing, or trapping shall be permitted for reasons of public safety, administration, fish and wildlife management, public use and enjoyment, protection of the resource, or competing public use. Except in emergencies, any regulations prescribing any such restrictions shall be put into effect only after consultation with the appropriate State agency responsible for hunting, fishing, and trapping activities.

§ 459j–4. Administration, protection, and development

(a) Conservation and management of natural resources

The seashore shall be administered, protected, and developed in accordance with the provisions of sections 1, 2, 3, and 4 of this title, as amended and supplemented, except that any other statutory authority available to the Secretary for the conservation management of natural resources may be utilized to the extent he finds such authority will further the purposes of sections 459j to 459l–8 of this title.

(b) Administration of lands in Merritt Island National Wildlife Refuge

Notwithstanding any other provisions of sections 459j to 459l–8 of this title, lands and waters in the Merritt Island National Wildlife Refuge as described in subsection (c)(2) of this section which are part of the seashore shall be administered for refuge purposes through the United States Fish and Wildlife Service pursuant to the National Wildlife Refuge System Administration Act, as amended (80 Stat. 926; 16 U.S.C. 668dd–668ee), except that the Secretary may utilize such additional authority as may be available to him for the conservation and management of wildlife and natural resources, the development of outdoor recreation opportunities, and interpretive education as he deems appropriate, consistent with the preservation of natural and wildlife values.

(c) Division of management authority between National Park Service and United States Fish and Wildlife Service

The Secretary shall cause to be issued a well defined division of management authority between the National Park Service and the United States Fish and Wildlife Service. It is the intent and purpose of sections 459j to 459l–8 of this title that such management authority, generally, shall be as follows:

1. The National Park Service shall administer those lands and waters described as follows: beginning at the intersection of State Highway 3 and State Road 402; thence easterly along State Road 402 and continuing easterly in a straight line to a point one-half mile offshore in the Atlantic Ocean, following the southern boundary of the seashore created in section 1; thence westerly along the boundary of the seashore created in section 1, which line is at each point one-half mile distance from the high water mark, to Bethune Beach; thence inland in a generally, westerly direction through Turner Flats and Shipyard Canal; thence westerly to the Intracoastal Waterway; thence southerly along the Intracoastal Waterway to the boundary of the Kennedy Space Center; then southwesterly to United States Highway 1; thence southerly along State Highway 3 to the northern boundary of H. M. Gomez Grant; thence easterly along the northern boundary of H. M. Gomez Grant and continuing easterly in a straight line to a point of intersection with the line between the marsh and the dunes; thence southerly along the line between the marsh and the dunes to a point approximately one-half mile north of the southern boundary of the seashore created in section 1; thence westerly in a straight line to connect with and to follow the Government Railroad to its intersection with State Highway 3; thence southerly along State Highway 3 to the point of beginning. The portion of land bounded by the northern boundary of the H. M. Gomez Grant is hereby transferred to the Secretary of the Interior and may be used for the purpose of establishing such facilities as are needed for the administration of the seashore, for the construction of the principal visitor center which shall be designated as the “Spessard L. Holland Visitor Center”, and for a central access to the seashore: Provided, however, That the Secretary of the Interior, upon the request of the Administrator of the National Aeronautics and Space Administration, shall close this area or any part thereof to the public when necessary for space operations. In administering the shoreline and adjacent lands the Secretary shall retain such lands in their natural and primitive condition, shall prohibit vehicular traffic on the beach except for administrative purposes, and shall develop only those facilities which he deems essential for public health and safety.

2. The United States Fish and Wildlife Service shall administer the remaining lands described in section 459j of this title.

Kennedy Space Center falling within the boundaries of the seashore as defined in section 459j of this title shall become a part of the seashore, and within ninety days thereafter, the Administrator, National Aeronautics and Space Administration, shall grant to the Secretary for carrying out the intent and purpose of sections 459j to 459j–8 of this title such use of said portions as the Administrator determines is not inconsistent with public safety and the needs of the space and defense programs of the Nation. Notwithstanding any other provision of law, any lands within the seashore which the Administrator determines to be excess to the needs of such agency shall be transferred to the Secretary of the Interior for administration in accordance with the provisions of sections 459j to 459j–8 of this title: Provided, That any portions of the John F. § 459j–8. Authorization of appropriations; reports to Congressional committees

(a) Acquisition of lands and interests in lands

There are hereby authorized to be appropriated such sums as may be necessary to carry out the purposes of sections 459j to 459j–8 of this title, but not more than $7,941,000 for the acquisition of lands and interests in lands. In order to avoid excessive costs resulting from delays in the acquisition program, the Secretary shall make every reasonable effort to promptly acquire the privately owned lands within the seashore. Until all such lands are acquired, he shall report, in writing on June 30 of each year to the Committee on Energy and Natural Resources of the Senate and the Committee on Natural Resources of the House of Representatives, the following information:

The Congress finds and declares it to be desirable that all American people of present and future generations be assured adequate outdoor recreation resources, and that it is desirable for all levels of government and private interests to

ENVIRONMENTAL QUALITY COUNCIL

A 21ST CENTURY STRATEGY FOR AMERICA’S GREAT OUTDOORS

Memorandum of President of the United States, Apr. 16, 2010, 75 F.R. 20767, provided:

Memorandum for the Secretary of the Interior[,] the Secretary of Agriculture[,] the Administrator of the Environmental Protection Agency[,] and the Chair of the Council on Environmental Quality

Americans are blessed with a vast and varied natural heritage. From mountains to deserts and from sea to shining sea, America’s great outdoors have shaped the rugged independence and sense of community that define the American spirit. Our working landscapes, cultural sites, parks, coasts, wild lands, rivers, and streams are gifts that we have inherited from previous generations. They are the places that offer us refuge from daily demands, renew our spirits, and enhance our fondest memories, whether they are fishing with a grandchild in a favorite spot, hiking a trail with a friend, or enjoying a family picnic in a neighborhood park. They also are our farms, ranches, and forests—the working lands that have fed and sustained us for generations. Americans take pride in these places, and share a responsibility to preserve them for our children and grandchildren.

Today, however, we are losing touch with too many of the places and proud traditions that have helped to make America special. Farms, ranches, forests, and other valuable natural resources are disappearing at an alarming rate. Families are spending less time together enjoying their natural surroundings. Despite our conservation efforts, too many of our fields are becoming fragmented, too many of our rivers and streams are becoming polluted, and we are losing our connection to the parks, wild places, and open spaces we grew up with and cherish. Children, especially, are spending less time outside running and playing, fishing and hunting, and connecting to the outdoors just down the street or outside of town.

Across America, communities are uniting to protect the places they love, and developing new approaches to saving and enjoying the outdoors. They are bringing together farmers and ranchers, land trusts, recreation and conservation groups, sportsmen, community park groups, governments and industry, and people from all over the country to develop new partnerships and innovative programs to protect and restore our outdoors legacy. However, these efforts are often scattered and sometimes insufficient. The Federal Government, the Nation’s largest land manager, has a responsibility to engage with these partners to help develop a conservation agenda worthy of the 21st Century. We must look to the private sector and nonprofit organizations, as well as towns, cities, and States, and the people who live and work in them, to identify the places that mean the most to Americans, and leverage the support of the Federal Government to help these community-driven efforts to succeed. Through these partnerships, we will work to connect these outdoor spaces to each other, and to reconnect Americans to them.

For these reasons, it is hereby ordered as follows:

Section 1. Establishment.

(a) There is established the America’s Great Outdoors Initiative (Initiative), to be led by the Secretaries of the Interior and Agriculture, the Administrator of the Environmental Protection Agency, and the Chair of the Council on Environmental Quality (CEQ) and implemented in coordination with the agencies listed in section 2(b) of this memorandum. The Initiative may include the heads of other executive branch departments, agencies, and offices (agencies) as the President may, from time to time, designate.

(b) The goals of the Initiative shall be to:

(i) Reconnect Americans, especially children, to America’s rivers and waterways, landscapes of national significance, ranches, farms and forests, great parks, and coasts and beaches by exploring a variety of efforts, including:

(A) promoting community-based recreation and conservation, including local parks, greensways, beaches, and waterways;

(B) advancing job and volunteer opportunities related to conservation and outdoor recreation; and

(C) supporting existing programs and projects that educate and engage Americans in our history, culture, and natural bounty.

(ii) Build upon State, local, private, and tribal priorities for the conservation of land, water, wildlife, historic, and cultural resources, creating corridors and connectivity across these outdoor spaces, and for enhancing neighborhood parks; and determine how the Federal Government can best advance those priorities through public private partnerships and locally supported conservation strategies.

(iii) Use science-based management practices to restore and protect our lands and waters for future generations.

Sinc. 2. Functions. The functions of the Initiative shall include:

(a) Outreach. The Initiative shall conduct listening and learning sessions around the country where land and waters are being conserved and community parks are being established in innovative ways. These sessions should engage the full range of interested groups, including tribal leaders, farmers and ranchers, sportsmen, community park groups, foresters, youth groups, businesspeople, educators, State and local governments, and recreation and conservation groups. Special attention should be given to bringing young Americans into the conversation. These listening sessions will inform the reports required in subsection (c) of this section.

(b) Interagency Coordination. The following agencies shall work with the Initiative to identify existing resources and align policies and programs to achieve its goals:

(i) the Department of Defense;

(ii) the Department of Commerce;

(iii) the Department of Housing and Urban Development;

(iv) the Department of Health and Human Services;

(v) the Department of Labor;

(vi) the Department of Transportation;

(vii) the Department of Education; and

(viii) the Office of Management and Budget (OMB).

(c) Reports. The Initiative shall submit, through the Chair of the CEQ, the following reports to the President:

(i) Report on America’s Great Outdoors. By November 15, 2010, the Initiative shall submit a report that includes:

(A) a review of successful and promising nonfederal conservation approaches;

(B) an analysis of existing Federal resources and programs that could be used to complement those approaches;

(C) proposed strategies and activities to achieve the goals of the Initiative; and

(D) an action plan to meet the goals of the Initiative.

The report should reflect the constraints in resources available in, and be consistent with, the Federal budget. It should recommend efficient and effective use of existing resources, as well as opportunities to leverage...
nonfederal public and private resources and nontraditional conservation programs.

(ii) Annual reports. By September 30, 2011, and September 30, 2012, the Initiative shall submit reports on its progress in implementing the action plan developed pursuant to subsection (c)(i)(D) of this section.

(a) This memorandum shall be implemented consistent with applicable law and subject to the availability of any necessary appropriations.

(b) This memorandum does not create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

(c) The heads of executive departments and agencies shall assist and provide information to the Initiative, consistent with applicable law, as may be necessary to carry out the functions of the Initiative. Each executive department and agency shall bear its own expenses of participating in the Initiative.

(d) Nothing in this memorandum shall be construed to impair or otherwise affect the functions of the Director of the OMB relating to budgetary, administrative, or legislative proposals.

(e) The Chair of the CEQ is authorized and directed to publish this memorandum in the Federal Register.

BARACK OBAMA.

§ 460–8. Financial assistance to States

The Secretary of the Interior (hereinafter referred to as the “Secretary”) is authorized to provide financial assistance to the States from moneys available for State purposes. Payments may be made to the States by the Secretary as hereafter provided, subject to such terms and conditions as he considers appropriate and in the public interest to carry out the purposes of this part, for outdoor recreation: (1) planning, (2) acquisition of land, waters, or interests in land or waters, or (3) development.

(2) At any time, the remaining appropriation shall be apportioned on the basis of need to individual States by the Secretary in such amounts as in his judgment will best accomplish the purposes of this part. The determination of need shall include among other things a consideration of the proportion which the population of each State bears to the total population of the United States and of the use of outdoor recreation resources of individual States by persons from outside the State as well as a consideration of the Federal resources and programs in the particular States.

(3) The total allocation to an individual State under paragraphs (1) and (2) of this subsection shall not exceed 10 per centum of the total amount allocated to the several States in any one year.

(4) The Secretary shall notify each State of its apportionments; and the amounts thereof shall be available thereafter for payment to such State for planning, acquisition, or development projects as hereafter prescribed. Any amount of any apportionment that has not been paid or obligated by the Secretary during the fiscal year in which such notification is given and for two fiscal years thereafter shall be reapportioned by the Secretary in accordance with paragraph (2) of this subsection, without regard to the 10 per centum limitation to an individual State specified in this subsection.

(5) For the purposes of paragraph (1) of this subsection, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands (when such islands achieve Commonwealth status) shall be treated collectively as one State, and shall receive shares of such apportionment in proportion to their populations. The above listed areas shall be treated as States for all other purposes of sections 460–4 to 460–6a and 460–7 to 460–10e of this title.

(c) Matching requirements

Payments to any State shall cover not more than 50 per centum of the cost of planning, acquisition, or development projects that are undertaken by the State. The remaining share of the cost shall be borne by the State in a manner and with such funds or services as shall be satisfactory to the Secretary. No payment may be made to any State for or on account of any cost or obligation incurred or any service rendered prior to September 3, 1964.

(d) Comprehensive State plan; necessity; adequacy; contents; correlation with other plans; factors for formulation of Housing and Home Finance Agency financed plans; planning projects; wetlands consideration; wetlands priority plan

A comprehensive statewide outdoor recreation plan shall be required prior to the consideration by the Secretary of financial assistance for acquisition or development projects. The plan shall be adequate if, in the judgment of the Secretary, it encompasses and will promote the purposes of this part: Provided, That no plan shall be approved unless the Governor of the respective State certifies that ample opportunity for public participation in plan development and revision has been accorded. The Secretary shall develop, in consultation with others, criteria for public participation, which criteria shall constitute the basis for the certification by the Governor. The plan shall contain:

1. The name of the State agency that will have authority to represent and act for the State in dealing with the Secretary for purposes of this part;
2. An evaluation of the demand for and supply of outdoor recreation resources and facilities in the State;
3. A program for the implementation of the plan; and
4. Other necessary information, as may be determined by the Secretary.

The plan shall take into account relevant Federal resources and programs and shall be correlated so far as practicable with other State, regional, and local plans. Where there exists or is in preparation for any particular State a comprehensive plan financed in part with funds supplied by the Housing and Home Finance Agency, any statewide outdoor recreation plan prepared for purposes of this part shall be based upon the same population, growth, and other pertinent factors as are used in formulating the Housing and Home Finance Agency financed plans.

The Secretary may provide financial assistance to any State for projects for the preparation of a comprehensive statewide outdoor recreation plan when such plan is not otherwise available or for the maintenance of such plan.

For fiscal year 1988 and thereafter each comprehensive statewide outdoor recreation plan shall specifically address wetlands within that State as an important outdoor recreation resource as a prerequisite to approval, except that a revised comprehensive statewide outdoor recreation plan shall not be required by the Secretary, if a State submits, and the Secretary, acting through the Director of the National Park Service, approves, as a part of and as an addendum to the existing comprehensive statewide outdoor recreation plan, a wetlands priority plan developed in consultation with the State agency with responsibility for fish and wildlife resources and consistent with the national wetlands priority conservation plan developed under section 3921 of this title or, if such national plan has not been completed, consistent with the provisions of that section.

(e) Projects for land and water acquisition; development

In addition to assistance for planning projects, the Secretary may provide financial assistance to any State for the following types of projects or combinations thereof if they are in accordance with the State comprehensive plan:

1. For the acquisition of land, waters, or interests in land or waters, or wetland areas and interests therein as identified in the wetlands provisions of the comprehensive plan (other than lands, waters, or interests in land or waters acquired from the United States for less than fair market value), but not including incidental costs relating to acquisition.

²So in original. Probably should be followed by a period.
Whenever a State provides that the owner of a single-family residence may, at his option, elect to retain a right of use and occupancy for not less than six months from the date of acquisition of such residence and such owner elects to retain such a right, such owner shall be deemed to have waived any benefits under sections 4623, 4624, 4625, and 4626 of title 42 and for the purposes of those sections such owner shall not be considered a displaced person as defined in section 4601(6) of title 42.

(2) For development of basic outdoor recreation facilities to serve the general public, including the development of Federal lands under lease to States for terms of twenty-five years or more: Provided. That no assistance shall be available under this part to enclose or shelter facilities normally used for outdoor recreation activities, but the Secretary may permit local funding, and after September 28, 1976, not to exceed 10 per centum of the total amount allocated to a State in any one year to be used for sheltered facilities for swimming pools and ice skating rinks in areas where the Secretary determines that the severity of climatic conditions and the increased public use thereby made possible justifies the construction of such facilities.

(f) Requirements for project approval; conditions on progress payments; payments to Governors or State officials or agencies; State transfer of funds to public agencies; conversion of property to other uses; reports to Secretary; accounting; records; audit; discrimination prohibited

(1) Payments may be made to States by the Secretary only for those planning, acquisition, or development projects that are approved by him. No payment may be made by the Secretary for or on account of any project with respect to which financial assistance has been given or promised under any other Federal program or activity, and no financial assistance may be given under any other Federal program or activity for or on account of any project with respect to which such assistance has been given or promised under this part. The Secretary may make payments from time to time in keeping with the rate of progress toward the satisfactory completion of individual projects: Provided. That the approval of all projects and all payments, or any commitments relating thereto, shall be withheld until the Secretary receives appropriate written assurance from the State that the State has the ability and intention to finance its share of the cost of the particular project, and to operate and maintain by acceptable standards, at State expense, the particular properties or facilities acquired or developed for public outdoor recreation use. (2) Payments for all projects shall be made by the Secretary to the Governor of the State or to a State official or agency designated by the Governor or by State law having authority and responsibility to accept and to administer funds paid hereunder for approved projects. If consistent with an approved project, funds may be transferred by the State to a political subdivision or other appropriate public agency. (3) No property acquired or developed with assistance under this section shall, without the approval of the Secretary, be converted to other than public outdoor recreation uses. The Secretary shall approve such conversion only if he finds it to be in accord with the then existing comprehensive statewide outdoor recreation plan and only upon such conditions as he deems necessary to assure the substitution of other recreation properties of at least equal fair market value and of reasonably equivalent usefulness and location: Provided. That wetland areas and interests therein as identified in the wetlands provisions of the comprehensive plan and proposed to be acquired as suitable replacement property within that same State that is otherwise acceptable to the Secretary, acting through the Director of the National Park Service, shall be considered to be of reasonably equivalent usefulness with the property proposed for conversion.

(4) No payment shall be made to any State until the State has agreed to (1) provide such reports to the Secretary, in such form and containing such information, as may be reasonably necessary to enable the Secretary to perform his duties under this part, and (2) provide such fiscal control and fund accounting procedures as may be necessary to assure proper disbursement and accounting for Federal funds paid to the State under this part.

(5) Each recipient of assistance under this part shall keep such records as the Secretary shall prescribe, including records which fully disclose the amount and the disposition by such recipient of the proceeds of such assistance, the total cost of the project or undertaking in connection with which such assistance is given or used, and the amount and nature of that portion of the cost of the project or undertaking supplied by other sources, and such other records as will facilitate an effective audit.

(6) The Secretary, and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access for the purpose of audit and examination to any books, documents, papers, and records of the recipient that are pertinent to assistance received under this part.

(8) With respect to properties acquired or developed with assistance from the fund, discrimination on the basis of residence, including preferential reservation or membership systems, is prohibited except to the extent that reasonable differences in admission and other fees may be maintained on the basis of residence.

(b) Acquisition restrictions

Appropriations from the fund pursuant to this section shall not be used for acquisition unless such acquisition is otherwise authorized by law: Provided, however, That appropriations from the fund may be used for preacquisition work in instances where authorization is imminent and where substantial monetary savings could be realized.

(c) Boundary changes; donations; authority of Secretary

(1) Whenever the Secretary of the Interior determines that to do so will contribute to, and is necessary for, the proper preservation, protection, interpretation, or management of an area of the national park system, he may, following timely notice in writing to the Committee on Resources of the House of Representatives and to the Committee on Energy and Natural Resources of the Senate of his intention to do so, and by publication of a revised boundary map or other description in the Federal Register, (i) make minor revisions of the boundary of the area, and moneys appropriated from the fund shall be available for acquisition of any lands, waters, and interests therein added to the area by such boundary revision subject to such statutory limitations, if any, on methods of acquisi-

Prior to making a determination under this subsection, the Secretary shall consult with the duly elected governing body of the county, city, town, or other jurisdiction or jurisdictions having primary taxing authority over the land or interest to be acquired as to the impacts of such proposed action, and he shall also take such steps as he may deem appropriate to advance local public awareness of the proposed action. Lands, waters, and interests therein acquired in accordance with this subsection shall be administered as part of the area to which they are added, subject to the laws and regulations applicable thereto.

(2) For the purposes of clause (i) of paragraph (1), in all cases except the case of technical boundary revisions (resulting from such causes as survey error or changed road alignments), the authority of the Secretary under such clause (i) shall apply only if each of the following conditions is met:

(A) The sum of the total acreage of lands, waters, and interests therein to be added to the area and the total such acreage to be deleted from the area does not exceed 5 percent of the total Federal acreage authorized to be included in the area and is less than 500 acres in size.

(B) The acquisition, if any, is not a major Federal action significantly affecting the quality of the human environment, as determined by the Secretary.

(C) The sum of the total appraised value of the lands, waters, and interests therein to be added to the area and the total appraised value of the lands, waters, and interests therein to be deleted from the area does not exceed $750,000.

(D) The proposed boundary revision is not an element of a more comprehensive boundary modification proposal.

(E) The proposed boundary has been subject to a public review and comment period.

(F) The Director of the National Park Service obtains written consent for the boundary modification from all property owners whose lands, waters, or interests therein, or a portion of whose lands, waters, or interests therein, will be added to or deleted from the area by the boundary modification.

(G) The lands abut other Federal lands administered by the Director of the National Park Service.

Minor boundary revisions involving only deletions of acreage owned by the Federal Government and administered by the National Park Service may be made only by Act of Congress.

PART C—WATER RESOURCES PROJECTS

§ 460l–12. Recreation and fish and wildlife benefits of Federal multiple-purpose water resources projects; Congressional declaration of policy

It is the policy of the Congress and the intent of this part (a) in investigating and planning any Federal navigation, flood control, reclamation, hydroelectric, or multiple-purpose water resource project, full consideration shall be given to the opportunities, if any, which the project affords for outdoor recreation and for fish and wildlife enhancement and that, wherever any such project can reasonably serve either or both of these purposes consistently with the provisions of this part, it shall be constructed, operated, and maintained accordingly; (b) planning with respect to the development of the recreational use of the project area with the use of existing and planned Federal, State, or local public recreation developments; and (c) project construction agencies shall encourage non-Federal public bodies to administer project land and water areas for recreation and fish and wildlife enhancement purposes and operate, maintain, and replace facilities provided for those purposes unless such areas or facilities are included or proposed for inclusion within a national recreation area, or are appropriate for administration by a Federal agency as a part of the national forest system, as a part of the public lands classified for retention in Federal ownership, or in connection with an authorized Federal program for the conservation and development of fish and wildlife.

This part, referred to in text, was in the original ‘‘this Act’’, meaning Pub. L. 89–72, which enacted sections 460l–12 to 460l–21 of this title and amended sections 460l–5(a) and 662(d) of this title.

SHORT TITLE

Section 12 of Pub. L. 89–72 provided: ‘‘This Act [enacting this section and sections 460l–13 to 460l–21 of this title and amending sections 460l–5(a) and 662(d) of this title], may be cited as the ‘Federal Water Project Recreation Act’.’’

§ 460l–13. Non-Federal administration of project land and water areas

(a) Allocation of costs

If, before authorization of a project, non-Federal public bodies indicate their intent in writing to agree to administer project land and water areas for recreation or fish and wildlife enhancement or for both of these purposes pursuant to the plan for the development of the project approved by the head of the agency having administrative jurisdiction over it and to bear not less than one-half the separable costs of the project allocated to recreation, and to bear one-quarter of such costs allocated to fish and wildlife enhancement and not less than one-half the costs of operation, maintenance, and replacement incurred therefor—

(1) the benefits of the project to said purpose or purposes shall be taken into account in determining the economic benefits of the project;

(2) costs shall be allocated to said purpose or purposes and to other purposes in a manner which will insure that all project purposes share equitably in the advantages of multiple-purpose construction: Provided, That the costs allocated to recreation or fish and wildlife enhancement shall not exceed the lesser of the benefits from those functions or the costs of providing recreation or fish and wildlife enhancement benefits or reasonably equivalent use and location by the least costly alternative means; and

(3) not more than one-half the separable costs of the project allocated to recreation and exactly three-quarters of such costs allocated to fish and wildlife enhancement and all the joint costs of the project allocated to recreation and fish and wildlife enhancement shall be borne by the United States and be nonreimbursable.

Projects authorized during the calendar year 1965 may include recreation and fish and wildlife enhancement on the foregoing basis without the required indication of intent. Execution of an agreement as aforesaid shall be a prerequisite to commencement of construction of any project to which this subsection is applicable.

(b) Non-Federal share of costs

The non-Federal share of the separable costs of the project allocated to recreation and fish and wildlife enhancement shall be borne by non-Federal interests, under either or both of the following methods as may be determined appropriate by the head of the Federal agency having jurisdiction over the project: (1) payment, or provision of lands, interests therein, or facilities for the project; or (2) repayment, with interest at a rate comparable to that for other interest-bearing functions of Federal water resource projects, within fifty years of first use of project recreation or fish and wildlife enhancement facilities: Provided, That the source of repayment may be limited to entrance and user fees or charges collected at the project by non-Federal interests if the fee schedule and the portion of fees dedicated to repayment are established on a basis calculated to achieve repayment as aforesaid and are made subject to review and renegotiation at intervals of not more than five years.

Amendments

1992—Subsec. (a). Pub. L. 102–575 substituted “not less than one-half the costs of operation” for “all the costs of operation” in introductory provisions.

1974—Subsec. (a). Pub. L. 93–251 substituted in text preceding item (1) “separable costs of the project allocated to recreation, and to bear one-quarter of such
costs allocated to fish and wildlife enhancement” for “separable costs of the project allocated to either of both of said purposes, as the case may be” and in item (3) “separable costs of the project allocated to recreation and exactly three-quarters of such costs allocated to fish and wildlife enhancement” for “separable costs”, respectively.

Effective Date of 1974 Amendment

Section 77(b) of Pub. L. 93–251 provided that: “The amendments made by this section [amending this section and section 460–14 of this title] shall apply to all projects the construction of which is not substantially completed on the date of enactment of this Act [Mar. 7, 1974].”

Cost Sharing Requirements

Section 77(c) of Pub. L. 93–251 provided that: “In the case of any project (1) authorized subject to specific cost-sharing requirements which were based on the same percentages as those established in the Federal Water Project Recreation Act [section 460–12 et seq. of this title], and (2) construction of which is not substantially completed on the date of enactment of this Act [Mar. 7, 1974], the cost-sharing requirements for such project shall be the same percentages as are established by the amendments made by subsection (a) of this section [to subsec. (a) of this section and section 460–14(b)(1) of this title] for projects which are subject to the Federal Water Project Recreation Act [section 460–12 et seq. of this title].”

§ 460–14. Facilities or project modifications to be provided without written indication of intent

(a) Other project purposes as justification; public health and safety requirement of minimum facilities at access points; basis for calculation of benefits; nonreimbursable costs

No facilities or project modifications which will furnish recreation or fish and wildlife enhancement benefits shall be provided in the absence of the indication of intent with respect thereto specified in section 460–13(a) of this title unless (1) such facilities or modifications serve other project purposes and are justified thereby without regard to such incidental recreation or fish and wildlife enhancement benefits as they may have or (2) they are minimum facilities which are required for the public health and safety and are located at access points provided by roads existing at the time of project construction or constructed for the administration and management of the project. Calculation of the recreation and fish and wildlife enhancement benefits in any such case shall be based on the number of visitor-days anticipated in the absence of recreation and fish and wildlife enhancement facilities or modifications except as hereinafter provided and on the value per visitor-day of the project without such facilities or modifications. Project costs allocated to recreation and fish and wildlife enhancement on this basis shall be nonreimbursable.

(b) Preservation of recreation and fish and wildlife enhancement potential; execution of agreements within ten year period; disposition of lands in absence of such agreements, prohibition against uses conflicting with project purposes, and preference to uses promoting and not detracting from such potential

Notwithstanding the absence of an indication of intent as specified in section 460–13(a) of this title, lands may be provided in connection with project construction to preserve the recreation and fish and wildlife enhancement potential of the project.

(1) If non-Federal public bodies execute an agreement after initial operation of the project (which agreement shall provide that the non-Federal public bodies will administer project land and water areas for recreation or fish and wildlife enhancement or both pursuant to the plan for the development of the project approved by the head of the agency having administrative jurisdiction over it and will bear not less than one-half the costs of lands, facilities, and project modifications provided for recreation, and will bear one-quarter of such costs for fish and wildlife enhancement, and not less than one-half the costs of planning studies, and the costs of operation, maintenance, and replacement attributable thereto) the remainder of the costs of lands, facilities, and project modifications provided pursuant to this paragraph shall be nonreimbursable. Such agreement and subsequent development, however, shall not be the basis for any reallocation of joint costs of the project to recreation or fish and wildlife enhancement.

(2) If, within ten years after initial operation of the project, there is not an executed agreement as specified in paragraph (1) of this subsection, the head of the agency having jurisdiction over the project may utilize the lands for any lawful purpose within the jurisdiction of his agency, or may offer the land for sale to its immediate prior owner or his immediate heirs at its appraised fair market value as approved by the head of the agency at the time of offer or, if a firm agreement by said owner or his immediate heirs is not executed within ninety days of the date of the offer, may transfer custody of the lands to another Federal agency for use for any lawful purpose within the jurisdiction of that agency, or may lease the lands to a non-Federal public body, or may transfer the lands to the Administrator of General Services for disposition in accordance with the surplus property laws of the United States. In no case shall the lands be used or made available for use for any purpose in conflict with the purposes for which the project was constructed, and in every case except that of an offer to purchase made, as hereinafter provided, by the prior owner or his heirs preference shall be given to uses which will preserve and promote the recreation and fish and wildlife enhancement potential of the project or, in the absence thereof, will not detract from that potential.

(c) Expansion or modification of existing facilities

(1) Any recreation facility constructed under this part may be expanded or modified if—

(A) the facility is inadequate to meet recreational demands; and

(B) a non-Federal public body executes an agreement which provides that such public body—

(i) will administer the expanded or modified facilities pursuant to a plan for develop-
ment for the project that is approved by the agency with administrative jurisdiction over the project; and

(ii) will bear not less than one-half of the planning and capital costs of such expansion or modification and not less than one-half of the costs of the operation, maintenance, and replacement attributable to the expansion of the facility.

(2) The Federal share of the cost of expanding or modifying a recreational facility described in paragraph (1) may not exceed 50 percent of the total cost of expanding or modifying the facility.

The Secretary of the Interior is authorized to transfer jurisdiction over project lands within or adjacent to the exterior boundaries of national forests and facilities thereon to the Secretary of Agriculture for recreation and other national forest system purposes; and such transfer shall be made in each case in which the project reservoir area is located wholly within the exterior boundaries of a national forest unless the Secretaries of Agriculture and Interior jointly determine otherwise. Where any project lands are transferred hereunder to the jurisdiction of the Secretary of Agriculture, the lands involved shall become national forest lands: Provided, That the lands and waters within the flow lines of any reservoir or otherwise needed or used for the operation of the project for other purposes shall continue to be administered by the Secretary of the Interior to the extent he determines to be necessary for such operation. Nothing contained in this part shall be taken to authorize or to sanction the construction under the Federal reclamation laws or under any Rivers and Harbors or Flood Control Act of any project in which the sum of the allocations to recreation and fish and wildlife enhancement exceeds the sum of the allocations to irrigation, hydroelectric power, municipal, domestic and industrial water supply, navigation, and flood control, except that this section shall not apply to any such project for the enhancement of anadromous fisheries, shrimp, or for the conservation of migratory birds protected by treaty, when each of the other functions of such a project has, of itself, a favorable benefit-cost ratio.

§ 460m. Establishment

For the purpose of conserving and interpreting unique scenic and other natural values and objects of historic interest, including preservation of portions of the Current River and the Jacks Fork River in Missouri as free-flowing streams, preservation of springs and caves, management of wildlife, and provisions for use and enjoyment of the outdoor recreation resources thereof by the people of the United States, the Secretary of the Interior (hereinafter referred to as the “Secretary”) shall designate for establishment as the Ozark National Scenic Riverways the area (hereinafter referred to as “such area”) generally depicted on map numbered NR OZA 7002 entitled “Proposed Ozark National Rivers” dated December 1963 which map is on file for public inspection in the office of the National Park Service, Department of the Interior: Provided, That the area so designated shall not include more than sixty-five thousand acres of land now in private ownership and that no lands shall be designated within two miles of the present boundaries of the municipalities of Eminence and Van Buren, Missouri. The Secretary, with the concurrence of the State, shall designate for inclusion in the Ozark National Scenic Riverways, the lands composing Big Springs, Alley Springs, and Round Spring State Parks, and the Secretary is hereby directed to negotiate with the State for the donation and the inclusion of such park lands in the Ozark National Scenic Riverways.

(Pub. L. 88–492, §1, Aug. 27, 1964, 78 Stat. 608.)

§ 460m–1. Acquisition of lands, easements, etc.; exchange of lands; consent of State; reservation to State; administrative jurisdiction of Federal lands or waters

The Secretary may, within the area designated or altered pursuant to section 460m–3 of this title, acquire lands and interests therein, including scenic easements, by such means as he may deem to be in the public interest: Provided, That the area so designated may only be acquired with the consent of the owner of the lands or waters thereof: And provided further, That any parcel of land containing not more than five hundred acres, which borders either the Current River or the Jacks Fork River, and which is being primarily used for agricultural purposes, shall be acquired by the Secretary in its entirety unless the owner of any such parcel consents to the acquisition of a part thereof. Property so acquired which lies outside the boundary generally depicted on the map referred to in section 460m of this title may be exchanged by the Secretary for any land of approximately equal value within the boundaries. Lands and waters owned by the State of Missouri within such area may be acquired with the consent of the State and, notwithstanding any other provision of law, subject to provision for reversion to such State conditioned upon continued use of the property for National Scenic Riverway. Federally owned lands or water lying within such area shall, upon establishment of the area pursuant to section 460m–3 of this title, be transferred to the administrative jurisdiction of the Secretary, without transfer of funds, for administration as part of the Ozark National Scenic Riverways.

§ 460m–2. Reservation of use and occupancy of improved property for noncommercial residential purposes; term; valuation

Any owner or owners, including beneficial owners (hereinafter in this section referred to as “owner”), of improved property on the date of its acquisition by the Secretary, as a condition to such acquisition, retain the right of use and occupancy of the improved property for noncommercial residential purposes for a term ending at the death of such owner, or the death of his spouse, or at the death of the survivor of either of them. The owner shall elect the term to be reserved. The Secretary shall pay to the owner the fair market value of the property on the date of such acquisition, less the fair market value on such date of the right retained by the owner.

§ 460m–3. Establishment; notice in Federal Register; alteration of boundaries; acreage limitation

When the Secretary determines that lands and waters, or interests therein, have been acquired by the United States in sufficient quantity to provide an administrable unit, he shall declare establishment of the Ozark National Scenic Riverways by publication of notice in the Federal Register. The Secretary may thereafter alter such boundaries from time to time, except that the total acreage in the Ozark National Scenic Riverways shall not exceed sixty-five thousand acres, exclusive of land donated by the State of Missouri or its political subdivisions and of federally owned land transferred pursuant to section 460m–1 of this title.

§ 460m–4. Cooperative land development programs; hunting and fishing

(a) Development of comprehensive plans

In furtherance of the purposes of this subchapter, the Secretary is authorized to cooperate with the State of Missouri, its political subdivisions, and other Federal agencies and organizations in formulating comprehensive plans for the Ozark National Scenic Riverways and for
the related watershed of the Current and Jacks Fork Rivers in Missouri, and to enter into agreements for the implementation of such plans. Such plans may provide for land use and development programs, for preservation and enhancement of the natural beauty of the landscape, and for conservation of outdoor resources in the watersheds of the Current and Jacks Fork Rivers.

(b) Establishment of hunting and fishing zones and periods

The Secretary shall permit hunting and fishing on lands and waters under his jurisdiction within the Ozark National Scenic Riverways area in accordance with applicable Federal and State laws. The Secretary may designate zones where, and establish periods when, no hunting shall be permitted, for reasons of public safety, administration, or public use and enjoyment, and shall issue regulations after consultation with the Conservation Commission of the State of Missouri.

§ 460m–5. Administration

The Ozark National Scenic Riverways shall be administered in accordance with the provisions of sections 1, 2, 3, and 4 of this title, as amended and supplemented, and in accordance with other laws of general application relating to the areas administered and supervised by the Secretary through the National Park Service; except that authority otherwise available to the Secretary for the conservation and management of natural resources may be utilized to the extent he finds such authority will further the purposes of this subchapter.

§ 460m–6. Free-roaming horses

(a) In general

The Secretary, in accordance with this section, shall allow free-roaming horses in the Ozark National Scenic Riverways. Within 180 days after November 12, 1996, the Secretary shall enter into an agreement with the Missouri Wild Horse League or another qualified nonprofit entity to provide for management of free-roaming horses. The agreement shall provide for cost-effective management of the horses and limit Federal expenditures to the costs of monitoring the agreement. The Secretary shall issue permits for adequate pastures to accommodate the historic population level of the free-roaming horse herd, which shall be not less than the number of horses in existence on November 12, 1996, nor more than 50.

(b) Removal of horses

The Secretary may not remove, or assist in, or permit the removal of any free-roaming horses from Federal lands within the boundary of the Ozark National Scenic Riverways unless—

1. the entity with whom the Secretary has entered into the agreement under subsection (a) of this section, following notice and a 90-day response period, substantially fails to meet the terms and conditions of the agreement;

2. the number of free-roaming horses exceeds 50; or

3. in the case of an emergency or to protect public health and safety, as defined in the agreement.

(c) Construction; liability of United States

Nothing in this section shall be construed as creating liability for the United States for any damages caused by the free-roaming horses to property located inside or outside the boundaries of the Ozark National Scenic Riverways.

(a), was in the original “enactment of this section” and “the date of enactment of this section”, respectively, which were translated as meaning the date of enactment of Pub. SUBCHAPTER LXXI—BUFFALO NATIONAL RIVER

§ 460m–8. Establishment

For the purposes of conserving and interpreting an area containing unique scenic and scientific features, and preserving as a free-flowing stream an important segment of the Buffalo River in Arkansas for the benefit and enjoyment of present and future generations, the Secretary of the Interior (hereinafter referred to as the “Secretary”) may establish and administer the Buffalo National River. The boundaries of the national river shall be as generally depicted on the drawing entitled “Proposed Buffalo National River” numbered NR–BUP–7103 and dated December 1967, which shall be on file and available for public inspection in the offices of the National Park Service, Department of the Interior. The Secretary is authorized to make minor revisions of the boundaries of the national river when necessary, after advising the Committee on Natural Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate in writing, but the total acreage within such boundaries shall not...
exceed ninety-five thousand seven hundred and thirty acres. 

AMENDMENTS
1994—Pub. L. 103–437 substituted “Committee on Natural Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate” for “Committees on Interior and Insular Affairs of the United States House of Representatives and the United States Senate”.

§ 460m–9. Acquisition of lands and waters

(a) Donation, purchase, and exchange; reimbursement of State of Arkansas

Within the boundaries of the Buffalo National River, the Secretary may acquire lands and waters or interests therein by donation, purchase or exchange, except that lands owned by the State of Arkansas or a political subdivision thereof may be acquired only by donation: Provided, That the Secretary may, with funds appropriated for development of the area, reimburse such State for its share of the cost of facilities developed on State park lands if such facilities were developed in a manner approved by the Secretary and if the development of such facilities commenced subsequent to March 1, 1972: Provided further, That such reimbursement shall not exceed a total of $375,900. When an individual tract of land is only partly within the boundaries of the national river, the Secretary may acquire all of the tract by any of the above methods in order to avoid the payment of severance costs. Land so acquired outside of the boundaries of the national river may be exchanged by the Secretary for non-Federal lands within the national river boundaries, and any portion of the land not utilized for such exchanges may be disposed of in accordance with the provisions of chapters 1 to 11 of title 40 and division C (except sections 3302, 3307(e), 3501(b), 3509, 3906, 4710, and 4711) of subtitle I of title 41.

With the concurrence of the agency having custody thereof, any Federal property within the boundaries of the national river may be transferred without consideration to the administrative jurisdiction of the Secretary for administration as part of the national river.

(b) Retention of rights

Except for property which the Secretary determines to be necessary for the purposes of administration, development, access or public use, an owner or owners (hereafter referred to as “owner”) of any improved property which is used solely for noncommercial residential purposes on the date of its acquisition by the Secretary or any owner of lands used solely for agricultural purposes (including, but not limited to, grazing) may retain, as a condition of the acquisition of such property or lands, a right of use and occupancy of such property for such residential or agricultural purposes. The term of the right retained shall expire upon the death of the owner or the death of his spouse, whichever occurs later, or in lieu thereof, after a definite term which shall not exceed twenty-five years after the date of acquisition. The owner shall elect, at the time of conveyance, the term of the right reserved. The Secretary shall pay the owner the fair market value of the property on the date of such acquisition, less the fair market value of the term retained by the owner. Such right may, during its existence, be conveyed or transferred, but all rights of use and occupancy shall be subject to such terms and conditions as the Secretary deems appropriate to assure the use of such property in accordance with the purposes of this subchapter. Upon a determination that the property, or any portion thereof, has ceased to be used in accordance with such terms and conditions, the Secretary may terminate the right of use and occupancy by tendering to the holder of such right an amount equal to the fair market value, as of the date of the tender, of that portion of the right which remains unexpired on the date of termination.

(c) “Improved property” defined

As used in this section the term “improved property” means a detached year-round one-family dwelling which serves as the owner’s permanent place of abode at the time of acquisition, and construction of which was begun before September 3, 1969, together with so much of the land on which the dwelling is situated, the said land being in the same ownership as the dwelling, as the Secretary shall designate to be reasonably necessary for the enjoyment of the dwelling for the sole purpose of noncommercial residential use.

CODIFICATION

§ 460m–10. Hunting and fishing; rules and regulations

The Secretary shall permit hunting and fishing on lands and waters under his jurisdiction within the boundaries of the Buffalo National River in accordance with applicable Federal and State laws, except that he may designate zones where and establish periods when, no hunting or fishing shall be permitted for reasons of public safety, administration, fish or wildlife management, or public use and enjoyment. Except in emergencies, any rules and regulations of the Secretary pursuant to this section shall be put into effect only after consultation with the Arkansas Fish and Game Commission.

§ 460m–11. Water resource projects

The Federal Energy Regulatory Commission shall not license the construction of any dam, water conduit, reservoir, powerhouse, transmission line, or other project works under the Federal Power Act (41 Stat. 1063), as amended (16 U.S.C. 791a et seq.), on or directly affecting the Buffalo National River and no department or
agency of the United States shall assist by loan, grant, license, or otherwise in the construction of any water resources project that would have a direct and adverse effect on the values for which such river is established, as determined by the Secretary. Nothing contained in the foregoing sentence, however, shall preclude licensing of, or assistance to, developments below or above the Buffalo National River or on any stream tributary thereto which will not invade the area or unreasonably diminish the scenic, recreational, and fish and wildlife values present in the area on March 1, 1972. No department or agency of the United States shall recommend authorization of any water resources project that would have a direct and adverse effect on the values for which such river is established, as determined by the Secretary, nor shall such department or agency request appropriations to begin construction on any such project, whether heretofore or hereafter authorized, without, at least sixty days in advance, (i) advising the Secretary, in writing, of its intention so to do and (ii) reporting to the Committee on Natural Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate, respectively, the nature of the project involved and the manner in which such project would conflict with the purposes of this subchapter or would affect the national river and the values to be protected by it under this subchapter.

In addition, the Secretary may acquire by any of the foregoing methods not to exceed ten acres outside the boundaries of the national river for an administrative headquarters site, and funds appropriated for land acquisition shall be available for the acquisition of the administrative headquarters site. The authority of the Secretary to condemn in fee, improved properties as defined in subsection (c) of this section shall not be invoked as long as the owner of such improved property holds and uses it in a manner compatible with the purposes of this subchapter. The Secretary may acquire any such improved property without the consent of the owner whenever he finds that such property has undergone, since January 1, 1978, or is imminently about to undergo, changes in land use which are incompatible with the purposes of the national river. The Secretary may acquire less than fee interest in any improved or unimproved property within the boundaries of the national river.

(b) Non-federally owned lands; cooperative agreements affecting properties of historical significance

On non-federally owned lands within the national river boundaries, the Secretary is authorized to enter into cooperative agreements with organizations or individuals to mark or interpret properties of significance to the history of the Gorge area.

(c) “Improved property” defined

For the purposes of this Act, the term “improved property” means (i) a detached single family dwelling, the construction of which was begun before January 1, 1977 (hereafter referred to as “dwelling”), together with so much of the land on which the dwelling is situated, the said land being in the same ownership as the dwelling, as the Secretary shall designate to be reasonably necessary for the enjoyment of the dwelling for the sole purpose of noncommercial residential use, together with any structures necessary to the dwelling which are situated on the land so designated, or (ii) property developed for agricultural uses, together with any structures accessory thereto which were so used on or before January 1, 1977, or (iii) commercial and small business properties which were so used or, before January 1, 1977, the purpose of which is determined by the Secretary to contribute to visitor use and enjoyment of the national river. In determining when and to what extent a property is to be considered an “improved property”, the Secretary shall take into consideration the manner of use of such buildings and lands prior to January 1, 1977, and shall designate such lands as are reasonably necessary for the continued enjoyment of the property in the same manner and to the same extent as existed prior to such date.

(d) Owner’s reservation of right of use and occupancy for fixed term of years or for life; election by owner; fair market value; termination; notification

The owner of an improved property, as defined in this subchapter, on the date of its acquisition, as a condition of such acquisition, may retain for himself, his heirs and assigns, a right of use and occupancy of the improved property for non-commercial residential, or agricultural purposes, or the continuation of existing commercial operations, as the case may be, for a definite term of not more than twenty-five years, or, in lieu thereof, for a term ending at the death of the owner or the death of his spouse, whichever is later. The owner shall elect the term to be reserved. Unless the property is wholly or partially donated, the Secretary shall pay to the owner the fair market value of the property on the date of its acquisition, less the fair market value of the property on that date of the right retained by the owner. A right retained by the owner pursuant to this section shall be subject to termination by the Secretary upon his determination that it is being exercised in a manner inconsistent with the purposes of this subchapter, and it shall terminate by operation of law upon notification by the Secretary to the holder of the right of such determination and tendering to him the amount equal to the fair market value of that portion which remains unexpired.

No restriction shall be imposed on such access based on the time of day, except to the extent required to protect public health and safety.

(b) Interim measures

Pending completion of the developments and improvements referred to in subsection (a) of this section, the Secretary shall permit the motorized towing of whitewater rafts in the section of the national river between Thurmond and Cunard when the volume of flow in the river is less than three thousand cubic feet per second.

§ 460m–28. Flow management

(a) Findings

The Congress finds that adjustments of flows from Bluestone Lake project during periods of low flow are necessary to respond to the congressional mandate contained in section 460m–23 of this title and that such adjustments could enhance the quality of the recreational experience in the segments of the river below the lake during those periods as well as protect the biological resources of the river.

(b) Report to Congress required

The Report to the Congress, in conjunction with the Secretary of the Interior, shall conduct a study and prepare a report under this section. The report shall be submitted to the Committee on Energy and Natural Resources of the United States Senate and the Committee on Interior and Insular Affairs of the United States House of Representatives not later than December 31, 1989. The purpose of such adjustment shall be to improve recreation (including, but not limited to, fishing and whitewater recreation) in the New River Gorge National River. Any such adjustments in the timing of flows which are proposed in such report shall be consistent with other project purposes and shall not have significant adverse effects on fishing or on any other form of recreation in Bluestone Lake or in any segment of the river below Bluestone Lake. The study shall assess the effects of such flow adjustments on the quality of recreation on the river in the segments of the river between Hinton and Thurmond and between Thurmond and the downstream boundary of the New River Gorge National River, taking into account the levels of recreational visitation in each of such segments.

(d) Test procedures

As part of the study under this section, the Secretary of the Army shall conduct test releases from Bluestone Lake project during twenty-four hour periods during the summer of 1989 when flows are less than three thousand cubic feet per second from the project. All such adjustments shall conform to the criteria specified in subsection (c) of this section. The tests shall provide adjustments in the timing of daily flows from Bluestone Lake project which permit flows higher than the twenty-four-hour average to reach downstream recreational segments of the river during morning and afternoon hours. The tests shall develop specific data on the effects of flow adjustments on the speed of the current and on water surface levels in those segments. No test shall be conducted when flows from the lake are less than one thousand seven hundred cubic feet per second and no test shall reduce flows below that level.

§ 460m–29. Glade Creek visitor facility

In order to provide for public use and enjoyment of the scenic and natural resources of the New River Gorge National River and in order to provide public information to visitors with respect to the national river and associated State parklands, the Secretary is authorized and directed to construct a scenic overlook and visitor information facility at a suitable location accessible from Interstate 64 in the vicinity of Glade Creek within the boundary of the national river. DELAWARE WATER GAP NATIONAL RECREATION AREA CITIZEN ADVISORY COMMISSION

§ 460o–1. Acquisition of lands

(a) Authority of Secretary of Army; transfer of jurisdiction over lands to Secretary of the Interior; authority of such Secretary; retention of use and occupancy rights; termination and transfer of authority and funds; acquisition priorities

The Secretary of the Army is authorized and directed to acquire, by such means as he may deem to be in the public interest, and as a part of his acquisition of properties for the project, lands and interests therein within the boundaries of the area, as generally depicted on the drawing entitled "Proposed Tocks Island National Recreation Area," dated and numbered September 1962, NRA–TI–7100, which drawing is on file in the Office of the National Park Service, Department of the Interior. In acquiring these lands, the Secretary of the Army may utilize such statutory authorities as are available to him for the acquisition of project lands: Provided, That the Secretary of the Army shall acquire no lands or interests in land by exchange for lands or interests in land in Federal ownership unless the latter are in the States of Pennsylvania, New Jersey, or New York. Periodically, and as soon as practicable after such lands and interests within the area are acquired, the Secretary of the Army shall transfer jurisdiction thereover to the Secretary of the Interior for the purposes of this subchapter. Beginning on November 10, 1978, the Secretary of the Interior is authorized to acquire for purposes of the recreation area established under this subchapter all lands and interests therein within the exterior boundaries of the area depicted on the drawing referred to in this subsection (including any lands within such exterior boundaries designated for acquisition by the Secretary of the Army in connection with the project referred to in this subsection). In exercising such authority, the Secretary of the Interior may permit the retention of rights of use and occupancy in the sane manner as provided in the case of acquisitions by the Secretary of the Army under subsection (d) of this section. On November 10, 1978, the acquisition authorities of any other Federal agency contained in this subsection shall terminate and the head of any other Federal agency shall transfer to the Secretary of the Interior jurisdiction over all lands and interests therein acquired by said agency under the authority of this subchapter, or any other authority of law which lands are within the exterior boundaries of the area depicted on the drawing referred to in this subsection. On November 10, 1978, all unexpended balances available to any other Federal agency for acquisition of land within the exterior boundaries referred to in the preceding sentence shall be transferred to the Secretary of the Interior to be used for such purposes. In carrying out his acquisition authority under this section the Secretary shall give priority to the following:

(1) completion of acquisition of lands for which condemnation proceedings have been started pursuant to the authorization of the project referred to in this subsection;
(2) acquisition of lands of beneficial owners, not being a corporation, who in the judgment of the Secretary would suffer hardship if acquisition of their lands were delayed;
(3) acquisition of lands on which, in the judgment of the Secretary, there is an imminent danger of development that would be incompatible with the purposes of the recreation area;
(4) acquisition of lands of beneficial owners, not being a corporation, who are willing to sell their lands provided they are able to continue to use it for noncommercial residential purposes for a limited period of time which will not, in the judgment of the Secretary, unduly interfere with the development of public use facilities for such national recreation area, pursuant to the authorization for such area;
(5) acquisition of scenic easements when, in the judgment of the Secretary, such easements are sufficient to carry out the purposes
for which such national recreation area was authorized; and

(6) acquisition of lands necessary to preserve the integrity of the recreation area.

(b) Omission of designated lands from area

Notwithstanding the provisions of subsection (a) of this section, the Secretary of the Interior is authorized, after consultation with appropriate public officials of the affected political subdivisions of the States of Pennsylvania or New Jersey, as the case may be, to designate not more than three hundred acres adjacent and contiguous to the Borough of Milford, Pennsylvania, and not more than one thousand acres in Sussex County, New Jersey, for omission from the Delaware Valley National Recreation Area and the lands so designated shall not be acquired for said national recreation area under authority of this subchapter.

(c) Extension of boundaries; study and report to Congress

The Secretary of the Interior shall investigate, study, and report to the President and the Congress on the feasibility and usefulness of extending the boundaries of the Delaware Water Gap National Recreation Area to include, in whole or in part, that portion of Tocks Island Reservoir which lies upstream from the northern terminus of the national recreation area as shown on the map hereinbefore referred to and lands adjacent to said portion of said reservoir. No such extension of boundaries, however, shall be made until authorized by Act of Congress.

(d) Noncommercial residential occupancy for life or fixed term of years; price for property; “improved residential property” defined; waiver of relocation assistance benefits or rights

The beneficial owner, not being a corporation, of a freehold interest acquired before January 1, 1965, in improved residential property within the area to be acquired by the Secretary of the Army under authority of this subchapter, the continued use of which property for noncommercial residential purposes for a limited time will not, in the judgment of the Secretary of the Interior, unduly interfere with the development of public-use facilities for the national recreation area and will not, in the judgment of the Secretary of the Army, unduly interfere with the operation of the Tocks Island Reservoir project, may retain a right of use and occupancy of such property for noncommercial residential purposes for, as said owner may elect, either (i) a period terminating upon his death or the death of his spouse, whichever occurs later, or (ii) a term of not more than twenty-five years: Provided, That in no case shall the period or term for which such right of use and occupancy is retained extend beyond the term of the freehold interest acquired by the United States. The price payable to the owner of such property shall be reduced by an amount equal to the value of the right retained. As used in this subchapter “improved residential property” means a single-family year-round dwelling, the construction of which was begun before January 21, 1963, which dwelling serves as the owner’s permanent place of abode at the time of its acquisition by the United States, together with not more than three acres of land on which the dwelling and appurtenant buildings are located which land the Secretary of the Interior or the Secretary of the Army, as the case may be, finds is reasonably necessary for the owner’s continued use and occupancy of the dwelling: Provided, further, That whenever an owner of property elects to retain a right of use and occupancy pursuant to this subchapter, such owner shall be deemed to have waived any benefits or rights under the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 [42 U.S.C. 4601 et seq.].

The two Secretaries shall engage in mutual consultation with respect to such acquisition and to exchange transactions so as to promote uniform policies therefor insofar as practicable, taking into consideration the purposes of the
recreation area as a whole, the responsibility of the Secretary of the Interior for the administration of federally owned minerals and of the Central Valley project, and the responsibility of the Secretary of Agriculture for the administration of national forests.

(b) Exchange of property; cash equalization payments; value of mineral interests

When the public interests will be benefited thereby, the Secretary of the Interior and the Secretary of Agriculture are each authorized to accept title to any non-Federal property within any part of the recreation area and in exchange therefor convey to the grantor of such property any federally owned property under his jurisdiction within the State of California which he classifies as suitable for exchange or other disposal, notwithstanding any other provision of law. The properties so exchanged shall be approximately equal in fair market value: Provided, That the Secretary of the Interior or the Secretary of Agriculture, as the case may be, may accept cash from or pay cash to the grantor in such exchange in order to equalize the value of the properties exchanged. The Secretary of Agriculture shall obtain the concurrence of the Secretary of the Interior with respect to the value of any mineral interests in any such exchange proposed to be made by the Secretary of Agriculture.

(c) Reservation of use and occupancy of improved property for noncommercial residential purposes; term; valuation

Any owner or owners of improved residential property on the date of its acquisition by either Secretary may, as a condition to such acquisition, retain the right of use and occupancy of the property by himself and members of his immediate family for noncommercial residential purposes for a term ending at the death of such owner, the death of his spouse, or the day his last surviving child reaches the age of thirty, whichever is the latest. The value of the right retained shall be taken into consideration by the respective Secretary in determining the value of the property being acquired.

(d) Limitation of acquisition of improved property during existence of zoning ordinance; "improved property" defined

Privately owned "improved property" or interests therein shall not be acquired under this subchapter without the consent of the owner so long as an appropriate local zoning agency shall have in force and applicable to such property a duly adopted, valid, zoning ordinance that is approved by the Secretary having jurisdiction of the unit wherein the property is located. The term "improved property" as used in this subchapter shall mean any building or group of related buildings the actual construction of which was begun before February 7, 1963, together with not more than three acres of the land in the same ownership on which the building or group of buildings is situated: Provided, That the respective Secretary may exclude from improved property any shore or waters, together with so much of the land adjoining such shore or waters as he deems necessary for public access thereto.

(e) Zoning regulations; amendments; standards for ordinances; commercial or industrial use prohibition; use; acreage, frontage, setback, density, height, or other requirements; notice of variances; approval of ordinances

Standards specified in such regulations shall have the object of (1) prohibiting new commercial or industrial uses, other than commercial or industrial uses which the Secretaries consider to be consistent with the purposes of this subchapter; (2) promoting the protection and development of properties for purposes of this subchapter by means of use, acreage, frontage, setback, density, height, or other requirements; and (3) providing that the appropriate Secretary shall receive notice of any variance granted under, or any exception made to, the application of the zoning ordinance. Following issuance of such regulations, each Secretary shall approve any zoning ordinance or any amendment to an approved zoning ordinance submitted to him that conforms to the standards contained in the regulations in effect at the time of adoption of the ordinance or amendment. Such approval shall remain effective for so long as such ordinance or amendment remains in effect as approved.

(f) Termination of suspension of authority for acquisition without owner's consent because of nonconforming variances and uses

The suspension of the respective Secretary's authority to acquire any improved property without the owner's consent shall automatically cease if (1) such property is made the subject of a variance or exception to any applicable zoning ordinance that does not conform to any applicable standard contained in regulation issued pursuant to this section; or (2) if such property is put to any use which does not conform to any applicable zoning ordinance.

(g) Certificate of suspension of authority for acquisition without owner's consent

Each Secretary shall furnish to any party in interest upon request a certificate indicating the property with respect to which the Secretary's authority to acquire without the owner's consent is suspended.

Within the Shasta and Clair Engle-Lewiston units any owner of unimproved property who proposes to develop his property or a part thereof for service to the public may submit to the Secretary of Agriculture a development plan which shall set forth the manner in which and the time by which the property is to be developed and the use to which it is proposed to be put. If upon review of such plan the Secretary determines that the development and use of the property in the manner prescribed conforms to a zoning ordinance approved in accordance with the provisions of this section and that such use
and development would serve the purposes of this subchapter, the Secretary of Agriculture may in his discretion issue to such owner a certificate to that effect. Upon the issuance of any such certificate and so long as such property is developed, maintained, and used in conformity therewith, the authority of the Secretary of Agriculture to acquire such property or any interest therein without the consent of the owner shall be suspended. This subsection shall not apply to any property which the Secretary of Agriculture determines to be needed for easements and rights-of-way for access, utilities, or facilities, or for administrative sites, campgrounds, or other areas needed for use by the United States for visitors to the national recreation area.

All receipts derived from permits and leases issued under the authority of this section on
lands administered by the Secretary of Agriculture shall be paid into the same funds or accounts in the Treasury of the United States and shall be distributed in the same manner as provided for other receipts from the lands affected by the lease or permit, except that any receipts derived from permits or leases issued on those or other lands in the recreation area under the Mineral Leasing Act of February 25, 1920, as amended, or the Act of August 7, 1947, shall be disposed of as provided in the applicable Act; and receipts from the disposition of nonleasable minerals from public lands under the jurisdiction of the Secretary of the Interior shall be disposed of in the same manner as moneys received from the sale of public lands.

Such term also includes any structures accessory to the dwelling which are situated on the land so designated. The maps referred to in this section shall be on file and available for public inspection in the Office of the Director of the National Park Service, Department of the Interior. The Secretary shall designate the land referred to in subparagraph (B). The amount of land so designated shall in every case be not more than three acres in area, and in making such designation the Secretary shall take into account the manner of noncommercial residential use in which the dwelling and land have customarily been enjoyed: Provided, That the Secretary may exclude from the land so designated any beach or waters, together with so much of the land adjoining such beach or waters, as he may deem necessary for public access thereto or public use thereof. All rights of use and occupancy shall be subject to such terms and conditions as the Secretary deems appropriate to ensure the use of such property in accordance with the purposes of this subchapter.

Section, Pub. L. 89-761, § 5, Nov. 5, 1966, 80 Stat. 1310, authorized Secretary to set standards for and to approve use of local zoning ordinances with regard to preservation and development of lakeshore areas and in event of nonconforming variances, to terminate suspension of his authority to acquire improved property by condemnation.

In the case of improved property within the boundaries of the map dated December 1980 and numbered 626–91014 the retention of a retained right under clause numbered (A) shall only be available to homeowners of record as of October 1, 1980, who have attained the age of majority as of that date and make a bona fide written offer not later than October 1, 1985, to sell to the Secretary. Where any such owner retains a right of use and occupancy as herein provided, such right during its existence may be conveyed or leased for noncommercial residential purposes. The Secretary shall pay to the owner the fair market value of the property on the date of such acquisition, less the fair market value on such date of the right retained by the owner.

(2) In the case of property included within the boundaries of the lakeshore after 1980, any owner or owners of record of improved property may retain a right of use and occupancy for non-commercial residential purposes for a term ending at either of the following:

(i) A fixed term not to extend beyond September 30, 2010, or such lesser fixed term as the owner or owners may elect at the time of acquisition.

Nonpayment of property taxes, validly assessed, on any retained right of use and occupancy shall also be grounds for termination of such right by the Secretary. In the event the Secretary terminates a right of use and occupancy under this subsection he shall pay to the owners of the retained right so terminated an amount equal to the fair market value of the portion of said right which remained unexpired on the date of termination. With respect to any right of use and occupancy in existence on the effective date of this sentence, standards for retention of such rights in effect at the time such rights were reserved shall constitute the terms and conditions referred to in section 460u–3 of this title.

(c) Extension of use and occupancy rights

With respect to improved properties acquired prior to December 28, 1980, and upon which a valid existing right of use and occupancy has been reserved for a term of more than twenty years, the Secretary may, in his discretion, extend the term of such retained right for a period of not more than nine years upon receipt of payment prior to September 30, 1983, from the holder of the retained right. The amount of such payment shall be equivalent to the amount discounted from the purchase price paid by the Secretary for the identical period of time under the terms of the original sale adjusted by a general index adopted by the Secretary reflecting overall value trends within Indiana Dunes National Lakeshore between the time of the original sale and the time of the retained right of extension offered by this subsection.

(a) Authority of Secretary; manner of acquisition; procedure for lands partly within designated area

The Secretary is authorized to acquire by donation, purchase with donated or appropriated funds, transfer funds, transfer from any Federal agency, or exchange lands and interests therein for the purposes of this subchapter. When an individual tract of land is only partly within the area designated, the Secretary may acquire the entire tract by any of the above methods to avoid the payment of severance costs. Land so acquired outside the designated area may be exchanged by the Secretary for non-Federal lands within such area, and any portion of the land not utilized for such exchanges may be disposed of in accordance with the provisions of chapters 1 to 11 of title 40 and division C (except sections 3302, 3307(e), 3501(b), 3509, 3906, 4710, and 4711) of subtitle I of title 41.

(b) Sale offers; hardship from delay; time and manner of purchase

An individual owning property within the lakeshore may notify the Secretary that the continued ownership by such individual of that property would result in hardship to him, and the Secretary shall immediately consider such evidence and shall within one year following the submission of such notice, subject to the availability of funds, purchase such property offered for a price which does not exceed its fair market value.

(c) State donations; transfer from Federal agency to administrative jurisdiction of Secretary

The Secretary shall, at the request of any township or county in or adjacent to the lakeshore affected by this subchapter, assist and consult with the appropriate officers and employees of such township or county in establishing zoning bylaws for the purpose of this subchapter. Such assistance may include payments to the county or township for technical aid.

(b) Suspension of condemnation power over improved property

No improved property within the area designated for inclusion in the lakeshore shall be acquired by the Secretary by condemnation so long as the affected county or township has in force and applicable thereto a duly adopted, valid zoning bylaw approved by the Secretary in accordance with the provisions of subsection (d) of this section and the use of improved property is in compliance therewith. In the event that the affected county or township does not have in effect and applicable to any improved property a duly adopted, valid zoning bylaw so approved, the Secretary shall be prohibited from acquiring such property by condemnation, if the owner thereof notifies the Secretary in writing of such owner’s agreement to use his property in a manner consistent with the applicable standard set forth in subsection (d) of this section, and such prohibition against condemnation shall remain in effect for so long as such property is so used.

(c) Notification of owner by Secretary of use of property inconsistent with applicable bylaws or standards; requirements of notice; discontinuance of use by owner; condemnation upon failure to discontinue use

If the Secretary determines that any such property referred to in subsection (b) of this section covered by any such bylaw is being used in a way which is not in substantial compliance with such bylaw, or that any such property referred to in subsection (b) of this section with respect to which an agreement has been made is being used in a manner which is not substantially consistent with such applicable standards, he shall so notify the owner of any such property in writing. Such notice shall contain a detailed statement as to why the Secretary believes that such use is not in substantial compliance with such zoning bylaw or why such use is not substantially consistent with such applicable standards, as the case may be. Any such owner shall have sixty days following the receipt by him of that written notification within which to discontinue the use referred to in such notification. Discontinuance of such use within such sixty-day period shall have the effect of prohibiting the Secretary from acquiring such property by condemnation by reason of such use. In any case in which such use is not discontinued within such sixty-day period, the Secretary may, in his discretion, acquire such property by condemnation.

(d) Conditions for approval by Secretary

Any zoning bylaw or amendment thereto submitted to the Secretary for approval for the pur-

(2) are consistent with the objectives and purposes of this subchapter so that, to the extent possible under Michigan law, the scenic and scientific values of the lakeshore area will be protected;

(3) are designed to preserve the lakeshore character of the area by appropriate restrictions upon the burning of cover, cutting of timber (except tracts managed for sustained yield), removal of sand or gravel, and dumping, storage, or piling of refuse and other unsightly objects or other uses which would detract from the natural or traditional lakeshore scene;

(4) provide that no construction, reconstruction, moving, alteration, or enlargement of any property, including improved property as defined in this subchapter, within the lakeshore area shall be permitted, if such construction, reconstruction, moving, alteration, or enlargement would afford less than a fifty-foot setback from all streets measured at a right angle with the street line, and a twenty-five-foot distance from all contiguous properties. Any owner or zoning authority may request the Secretary of the Interior to determine whether a proposed move, alteration, construction, reconstruction, or enlargement of any such property would subject such property to acquisition by condemnation, and the Secretary, within sixty days of the receipt of such request, shall advise the owner or zoning authority in writing whether the intended use will subject the property to acquisition by condemnation; and

(5) have the effect of providing that the Secretary shall receive notice of any variance granted under, and of any exception made to the application of, such bylaw or amendment.

(e) Withdrawal or revocation of approval by Secretary; retroactive effect

The approval of any bylaw or amendment pursuant to subsection (d) of this section shall not be withdrawn or revoked by the Secretary for so long as such bylaw or amendment remains in effect as approved. Any such bylaw or amendment so approved shall not be retroactive in its application.

§ 460x–9. Right of retention of residential use in improved lands

(a) Limited term; conforming use; payment for right; sale or lease of right

Any owner or owners of improved property situated within the area designated for inclusion in the lakeshore on the date of its acquisition by the Secretary may, as a condition of such acquisition, retain, for a term of not to exceed twenty-five years, or for a term ending at the death of such owner or owners, the right of use and occupancy of such property for any residential purpose which is not incompatible with the purposes of this subchapter, or which does not impair the usefulness and attractiveness of the area designated for inclusion. The Secretary shall pay to the owner the value of the property on the date of such acquisition, less the value on such date of the right retained by the owner. Where any such owner retains a right of use and occupancy as herein provided, such right during its existence may be conveyed or leased for non-commercial residential purposes in accordance with the provisions of this section.

(b) Option to retain use of land; notice to Secretary; payment

Any person who is—

(1) an owner of improved property described in section 460x–10(a)(2) of this title which is situated within the area designated for inclusion in the lakeshore on the date of its acquisition by the Secretary; or

(2) an occupier of improved property described in section 460x–10(a)(2) of this title which is situated within the area designated for inclusion in the lakeshore on the date of its acquisition by the Secretary, in situations where the fee ownership of such improved property has been heretofore acquired by the United States (whether by donation, purchase, condemnation, exchange or otherwise); may retain, for a term not to exceed twenty-five years from January 1, 1973, or for a term ending on the death of such owner or occupier, the right of use or occupancy of such property for any residential purpose which is not incompatible with the purposes of this subchapter or which does not impair the usefulness and attractiveness of the area designated for inclusion. Such owner or occupier must notify the Secretary of any intention to exercise such option within 60 days after receipt of the notice referred to in section 460x–10(c)(3) of this title. In situations where the United States has not heretofore acquired fee title to the improved property, the Secretary shall pay to the owner the value of the property on the date of such acquisition, less the value on such date of the right retained by the owner. In situations where the United States has heretofore acquired fee title to the improved property, the occupier may notify the Secretary that such occupier elects to retain continued use and occupancy of such property pursuant to this section, in which event the occupier shall pay to the Secretary the value of the additional right retained, which value shall be based upon the value of the property at the time of its acquisition by the Secretary.

(c) Limitation on use in instrument evidencing right; Secretary's power of termination of right

Any deed or other instrument used to transfer title to property, with respect to which a right of use and occupancy is retained under this section, and any instrument evidencing any right of use and occupancy retained by any occupier under this section, shall provide that such property shall not be used for any purpose which is
incompatible with purposes of this subchapter, or which impairs the usefulness and attractiveness of such area, and if it should be so used, that the Secretary many\(^1\) terminate such right. In the event the Secretary exercises his power of termination under this subsection he shall pay to the owner of the right terminated an amount equal to the value of that portion of such right which remained unexpired on the date of such termination.

(d) Transfer of right to member of immediate family; owner option to terminate; payment by Secretary; "member of the immediate family" defined

(1) Any owner or occupier of improved property who retains a right of use and occupancy under subsection (b) of this section may convey or lease such right during its existence to a member of such owner or occupier’s immediate family for noncommercial residential purposes which are not incompatible with the purposes of this subchapter and which do not impair the usefulness and attractiveness of the area designated for inclusion.

(2) Any owner or occupier of improved property who has retained a right of use and occupancy under subsection (b) of this section may terminate such right at any time, and the Secretary shall pay, within 120 days after the date of such termination, to the owner of the right terminated an amount equal to the value of that portion of such right which remained unexpired on the date of such termination.

(3) As used in this subchapter, the term “member of the immediate family”\(^1\) means spouse, brother, sister, or child, including persons bearing such relationships through adoption, and step-child.

L. 97–361 substituted provisions granting owners and occupiers of improved lakeshore property described in section 460x–10 of this title the right of retention of a compatible residential use for a limited term upon notification of the Secretary and payment for the right retained for former provisions which were redesignated as subsec. (c) and amended.

Subsec. (c). Pub. L. 97–361 redesignated subsec. (b) as (c), and amended it to apply expressly to any instrument evidencing any right of use and occupancy retained by any occupier under this section.

§ 460x–10. Improved property

(a) General definition

As used in this subchapter, the term “improved property” means a detached, one-family dwelling, construction of which—

(1) was begun before December 31, 1964, or

(2) for the purposes of section 460x–9(b) of this title, was begun on or after December 31, 1964, and before October 21, 1970, and has been openly and continuously used, at least during the summer months of each year when similar dwellings in the area are used, as a residential dwelling since such construction was completed, and with respect to the portion of such period after any acquisition of such property by the United States, by the owner, or a member of the immediate family of the owner, of such dwelling on the date of such acquisition, together with so much of the land on which the dwelling is situated, such land being in the same ownership as the dwelling, as the Secretary shall designate to be reasonably necessary for the enjoyment of the dwelling for the sole purpose of noncommercial residential use, together with any structures accessory to the dwelling which are situated on the lands so designated. The amount of land so designated shall in every case be at least three acres in area, or all of such lesser acreage as may be held in the same ownership as the dwelling, and in making such designation the Secretary shall take into account the manner of noncommercial residential use in which the dwelling and land have customarily been enjoyed.

(b) Authorization to exclude beach lands

The Secretary may exclude from the land designated under subsection (a) of this section any beach or waters on Lake Michigan, together with so much of the land adjoining any such beach or waters as the Secretary may deem necessary for public access thereto. If the Secretary makes such exclusion, an appropriate buffer zone shall be provided between any residence and the public access or beach.

(c) Authorization to exclude recently improved property; termination, compensation, and notice

(1) The Secretary may exclude from the category of “improved property” under this subchapter any property described in subsection (a)(2) of this section which the Secretary determines is in an area required for public use or development in the immediate future. In making any such determination the Secretary shall take into account the proximity of such property to any other improved property, the development or public use of the lakeshore and the related timetable therefor, and the anticipated availability in the immediate future of funds related to such development or public use.

(2)(A) With respect to any improved property, as defined in subsection (a)(2) of this section, with respect to which the occupier has retained a right of use and occupancy under section 460x–9(b) of this title, the Secretary may terminate such right 90 days after notifying in writing the occupier, if the Secretary determines that such improved property is needed for public use or development under this subchapter. In making any such determination the Secretary shall take into account the proximity of such property to any other improved property, the development or public use requirements of the lakeshore and related timetable therefor, and the current availability of funds for the proposed public use or development.

(B) The Secretary shall pay to the owner of the right terminated an amount equal to the value of that portion of such right which remained unexpired on the date of such termination.

\(^1\) So in original. Probably should be “may”.
(a)(2) The Secretary must, within 60 days after October 22, 1982, notify in writing any owner or occupier of property described in subsection (a)(2) of this section that an option to retain rights with respect to such property exists under section 460x–9(b) of this title, whether such property shall be subject to any action by the Secretary under paragraph (1) of this subsection, the nature of such proposed action, the reasons for such proposed action, and the contemplated timetable therefor.

(B) With respect to any proposed action to be taken under paragraph (2) of this subsection, if the Secretary determines within 60 days after October 22, 1982, after taking into account timetable and funding projections, that, consistent with the General Management Plan dated October 1979, public use or development is anticipated before 1986 for an area containing any improved property described in subsection (a)(2) of this section, the Secretary shall include notice of such determination in any notification under subparagraph (A) of this paragraph. Any failure of the Secretary to so notify an occupier pursuant to this subparagraph shall not preclude the Secretary from taking action under paragraph (2) at some future date.

AMENDMENTS

1982—Pub. L. 97–361 designated existing proviso as subsec. (a), added cl. (2), designated existing proviso as subsec. (b), and added subsec. (c).

(3) that the plan will be based on a weighing of the relative values to be obtained by utilization and development of the resources for alternative possible uses, and will be made with the object of obtaining the greatest values on a continuing basis, and that due consideration will be given to intangible values as well as to tangible values such as dollar return or production per unit.

(4) that secondary or collateral uses may be permitted to the extent that such uses are compatible with and do not unduly impair the primary or dominant uses, according to a seasonal schedule or otherwise.

(5) that management of the renewable resources will be such as to obtain a sustained, regular, or periodic yield or supply of products or services without impairment of the productivity, or the enjoyment or carrying capacity of the land.

(6) that the plan will be reviewed and reevaluated periodically.

(7) that the resources to be considered are all the natural resources including but not limited to the soils, bodies of water including the shorelines thereof, forest growth including timber, vegetative cover including forage, fish, and other wildlife, and geological resources including minerals.

Subchapter LXXXVIII—Glen Canyon National Recreation Area

§ 460dd. Establishment; boundaries; publication in Federal Register

(a) In order to provide for public outdoor recreation use and enjoyment of Lake Powell and lands adjacent thereto in the States of Arizona and Utah and to preserve scenic, scientific, and historic features contributing to public enjoyment of the area, there is established the Glen Canyon National Recreation Area (hereafter referred to as the "recreation area") to comprise the area generally depicted on the drawing entitled "Boundary Map Glen Canyon National Recreation Area," numbered GLC–91,006 and dated August 1972, which is on file and available for public inspection in the office of the National Park Service, Department of the Interior. The Secretary of the Interior (hereafter referred to as the "Secretary") may revise the boundaries of the recreation area from time to time by publication in the Federal Register of a revised drawing or other boundary description,
but the total acreage of the national recreation area may not exceed 1,256,000 acres.

(b) In addition to the boundary change authority under subsection (a) of this section, the Secretary may acquire approximately 152 acres of private land in exchange for approximately 370 acres of land within the boundary of Glen Canyon National Recreation Area, as generally depicted on the map entitled “Page One Land Exchange Proposal”, number 608/60573a-2002, and dated May 16, 2002. The map shall be on file and available for public inspection in the appropriate offices of the National Park Service. Upon conclusion of the exchange, the boundary of the recreation area shall be revised to reflect the exchange.

AMENDMENTS
2003—Pub. L. 108–43 designated existing provisions as subsec. (a), substituted “1,256,000 acres” for “one million two hundred and thirty-six thousand eight hundred and eighty acres”, and added subsec. (b).

§ 460dd–1. Acquisition of property

(a) Authority of Secretary; donation or exchange of State lands; concurrence of tribal council respecting trust lands

Within the boundaries of the recreation area, the Secretary may acquire lands and interests in lands by donation, purchase, or exchange. The Secretary shall administer, protect, and develop the recreation area in accordance with the provisions of sections 1, 2, 3, and 4 of this title, as amended and supplemented, and with any other statutory authority available to him for the conservation and management of natural resources to the extent he finds such authority will further the purposes of this subchapter: Provided, however, That nothing in this subchapter shall affect or interfere with the authority of the Secretary granted by Public Law 485, Eighty-fourth Congress, second session [43 U.S.C. 620 et seq.], to operate Glen Canyon Dam and Reservoir in accordance with the purposes of the Colorado River Storage Project Act [43 U.S.C. 620 et seq.] for river regulation, irrigation, flood control, and generation of hydroelectric power.

§ 460dd–4. Hunting and fishing

The Secretary shall permit hunting, fishing, and trapping on lands and waters under his jurisdiction within the boundaries of the recreation area in accordance with applicable laws of the United States and the States of Utah and Arizona, except that the Secretary may designate zones where, and establish periods when, no hunting, fishing, or trapping shall be permitted for reasons of public safety, administration, or public use and enjoyment. Except in emergencies, any regulation of the Secretary pursuant to this section shall be put into effect only after consultation with the appropriate State fish and game department.

§ 460dd–5. Mineral and grazing leases; Bureau of Land Management administration and policies

The administration of mineral and grazing leases within the recreation area shall be by the Bureau of Land Management. The same policies followed by the Bureau of Land Management in issuing and administering mineral and grazing leases on other lands under its jurisdiction shall be followed in regard to the lands within the boundaries of the recreation area, subject to the provisions of sections 460dd–2(a) and 460dd–3 of this title.

§ 460dd–6. Easements and rights-of-way

The Secretary shall grant easements and rights-of-way on a nondiscriminatory basis upon, over, under, across, or along any component of the recreation area unless he finds that the route of such easements and rights-of-way would have significant adverse effects on the administration of the recreation area.

§ 460dd–7. Proposed road study

(a) Criteria and environmental impact of specific route

The Secretary, together with the Highway Department of the State of Utah, shall conduct a study of proposed road alignments within and adjacent to the recreation area. Such study shall locate the specific route of a scenic, low-speed road, hereby authorized, from Glen Canyon City to Bullfrog Basin, crossing the Escalante River south of the point where the river has entered Lake Powell when the lake is at the three thousand seven hundred-foot level. In determining the route for this road, special care shall be taken to minimize any adverse environmental impact and said road is not required to meet ordinary secondary road standards as to grade, alignment, and curvature. Turnouts, overlooks, and scenic vistas may be included in the road plan. In no event shall said route cross the Escalante River north of Stephens Arch.

(b) Timetable

The study shall include a reasonable timetable for the engineering, planning, and construction of the road authorized in subsection (a) of this section and the Secretary of the Interior shall adhere to said timetable in every way feasible to him.

(c) Markers and other interpretative devices

The Secretary is authorized to construct and maintain markers and other interpretative devices consistent with highway safety standards.

(d) Additional roads

The study specified in subsection (a) of this section shall designate what additional roads are appropriate and necessary for full utilization of the area for the purposes of this subchapter and to connect with all roads of ingress to, and egress from the recreation area.

(e) Report to Congress

The findings and conclusions of the Secretary and the Highway Department of the State of Utah, specified in subsection (a) of this section, shall be submitted to Congress within two years of October 27, 1972, and shall include recommendations as to the suitability or nonsuitability of any area within the recreation area for preservation as wilderness, and any designation of any such area as wilderness shall be in accordance with said Wilderness Act [16 U.S.C. 1131 et seq.].

§ 460dd–8. Report to President

Within two years from October 27, 1972, the Secretary shall report to the President, in accordance with subsections 3(c) and 3(d) of the Wilderness Act [16 U.S.C. 1132(c) and (d)], his recommendations as to the suitability or nonsuitability of any area within the recreation area for preservation as wilderness, and any designation of any such area as wilderness shall be in accordance with said Wilderness Act [16 U.S.C. 1131 et seq.].

§ 460dd–9. Authorization of appropriations; limitation

There are hereby authorized to be appropriated such sums as may be necessary to carry out the purposes of this subchapter, not to exceed, however, $400,000 for the acquisition of lands and interests in lands and not to exceed $37,325,400 for development. The sums authorized in this section shall be available for acquisition and development undertaken subsequent to the approval of this subchapter.

§ 460ee. Establishment
(a) "Secretary" defined; statement of purposes; boundaries; acquisition of outside sites for administrative, visitor orientation, and recreation facilities

As used in this section the term "Secretary" shall mean the Secretary of the Army, acting through the Chief of Engineers. The Secretary, in accordance with the national recreation area concept included in the interagency report prepared pursuant to section 218 of the Flood Control Act of 1968 (Public Law 90–483) by the Corps of Engineers, the Department of the Interior, and the Department of Agriculture, as modified by this section, is authorized and directed to establish on the Big South Fork of the Cumberland River in Kentucky and Tennessee the Big South Fork National River and Recreation Area (hereafter in this section referred to as the "National Area") for the purposes of conserving and interpreting an area containing unique cultural, historic, geologic, fish and wildlife, archeologic, scenic, and recreational values, preserving as a natural, free-flowing stream the Big South Fork of the Cumberland River, major portions of its Clear Fork and New River stems, and portions of their various tributaries for the benefit and enjoyment of present and future generations, the preservation of the natural integrity of the scenic gorges and valleys, and the development of the area's potential for healthful outdoor recreation. The boundaries shall be as generally depicted on the drawing prepared by the Corps of Engineers and entitled "Big South Fork National River and Recreation Area" identified as map number BSF–NRRA(1)(A) and dated October 1972, which shall be on file and available for public inspection in the office of the District Engineer, U.S. Army Engineer District, Nashville, Tennessee. The Secretary may acquire sites at locations outside such boundaries as he determines necessary, for administrative and visitor orientation facilities. The Secretary may also acquire a site outside such boundaries at or near the location of the historic Tabard Inn in Ruby, Tennessee, including such lands as he deems necessary, for the establishment of a lodge with recreational facilities as provided in subsection (e)(3) of this section.

(b) Transfer of responsibility for planning, acquisition, and development, and administrative jurisdiction to Secretary of the Interior; boundary revisions; acreage limitation

Effective upon November 15, 1990, responsibility for all planning, acquisition, and development, as well as administrative jurisdiction over all Federal lands, water, interests therein, and improvements thereon, within the National Area is hereby transferred to the Secretary of the Interior. The Secretary may complete all acquisition and development activities in progress on November 15, 1990, and the Secretary and the Secretary of the Interior may, by mutual agreement, provide for an orderly and phased assumption of responsibilities (including but not limited to land acquisition and the construction of necessary access roads, day-use facilities, campground facilities, lodges, and administrative buildings) and available funds by the Secretary of the Interior in furtherance of the purposes of this section. The Secretary of the Interior shall administer the National Area in accordance with sections 1, 2, 3, and 4 of this title, as amended and supplemented. The authorities set forth in this section which were available to the Secretary immediately prior to November 15, 1990, shall after November 15, 1990, be available to the Secretary of the Interior. In the administration of the National Area the Secretary may utilize such statutory authority available to him for the conservation and management of wildlife and natural resources as he deems appropriate to carry out the purposes of this section. The Secretary of the Interior may, after transfer to him, revise the boundaries from time to time, but the total acreage within such boundaries shall not exceed one hundred and twenty-five thousand acres. Following such transfer the authorities available to the Secretary in subsection (c) of this section shall likewise be available to the Secretary of the Interior.

c) Acquisition of property; tracts; exchange and disposal of property; transfer from Federal agency to administrative jurisdiction of Secretary; residential property, right of use and occupancy; fair market value; transfer or assignment; lifetime residence of tenant or spouse; accrual of obligation or rental to United States; "improved property" defined; mineral rights

(1) Within the boundaries of the National Area, the Secretary may acquire lands and waters or interests therein by donation, purchase with donated or appropriated funds, or exchange or otherwise, except that lands (other than roads and rights-of-way for roads) owned by the United States of Kentucky and Tennessee or any political subdivisions thereof which were in public ownership on October 22, 1976, may be acquired only by donation. When an individual tract of land is only partly within the boundaries of the National Area, the Secretary may acquire all of the tract by any of the above methods in order to avoid the payment of severance costs. Land so acquired outside of the boundaries of the National Area may be exchanged by the Secretary for non-Federal lands within the National Area boundaries, and any portion of the land not utilized for such exchanges may be disposed of in accordance with the provisions of chapters 1 to 11 of title 40 and division C (except sections 3302, 3307(e), 3501(b), 3509, 3906, 4710, and 4711) of sub-title I of title 41. Notwithstanding any other provision of law, any Federal property within the boundaries of the National Area shall be transferred without consideration to the administrative jurisdiction of the Secretary for the purposes of this section.

(2) With the exception of property or any interest in property that the Secretary determines is necessary for purposes of administration, preservation, or public use, any owner or owners (hereafter in this section referred to as "owner") of improved property used solely for non-commercial residential purposes on the date of its acquisition by the Secretary may retain the
right of use and occupancy of such property for such purposes for a term, as the owner may elect, ending either (A) upon the death of the owner or his spouse, whichever occurs later, or (B) not more than twenty-five years from the date of acquisition. The Secretary shall pay to the owner the fair market value of the property on the date of such acquisition, less the fair market value on such date of the term retained by the owner. Such right: shall be subject to such terms and conditions as the Secretary deems appropriate to assure that the property is used in accordance with the purposes of this section; may be transferred or assigned; and may be terminated with respect to the entire property by the Secretary upon his determination that the property or any portion thereof has ceased to be used for noncommercial residential purposes, and upon tender to the holder of the right an amount equal to the fair market value, as of the date of the tender, of that portion of the right which remains unexpired on the date of termination. Any person residing upon improved property, subject to the right of acquisition by the Secretary as a tenant or by the sufferance of the owner or owners of the property may be allowed to continue in such residence for the lifetime of such person or his spouse, whichever occurs later, subject to the same restrictions as applicable to owners residing upon such property and provided that any obligation or rental incurred as consideration for such tenancy shall accrue during such term to the United States to be used in the administration of this section.

(3) As used in this section the term “improved property” means a detached year-round one-family dwelling which serves as the owner’s permanent place of abode at the time of acquisition, and construction of which was begun before January 1, 1974, together with so much of the land on which the dwelling is situated, such land being in the same ownership as the dwelling, as the Secretary shall designate to be reasonably necessary for the enjoyment of the dwelling for the sole purpose of noncommercial residential use, except that the Secretary may exclude from any improved property any waters or land fronting thereon, together with so much of the land adjoining such waters or land as he determines necessary for public access thereto.

(4) In any case where the Secretary determines that underlying minerals are removable consistent with the provisions of subsection (e)(3) of this section, the owner of the minerals underlying property acquired for the purposes of this section may retain such interest. The Secretary shall reserve the right to inspect and regulate the extraction of such minerals to insure that the values enumerated in subsection (a) of this section are not reduced and that the purposes declared in subsection (e)(1) of this section are not interfered with.

(d) Hunting, fishing, and trapping; rules and regulations after consultations with State agencies

The Secretary, and the Secretary of the Interior after jurisdiction over the National Area has been transferred to him under subsection (b) of this section, shall permit hunting, fishing, and trapping on lands and waters under his jurisdiction within the boundaries of the National Area in accordance with applicable Federal and State laws, except that he may designate zones where, and establish periods when, no hunting, fishing, or trapping shall be permitted for reasons of public safety, administration, fish or wildlife management, or public use and enjoyment. Except in emergencies, any rules and regulations of the Secretary or the Secretary of the Interior pursuant to this subsection shall be put into effect only after consultation with the appropriate State agency responsible for hunting, fishing, and trapping activities.

(e) Gorge areas division; restrictions, limited motorboat access, operation and maintenance of rail line, access routes, maintenance of roads for nonvehicular traffic, ingress and egress of residents, protection of values; adjacent areas division; restrictions, boundaries; Rugby area; Federal consultations with involved agencies respecting development and management of adjacent National Area; Blue Heron Mine community, restoration; rail and alternative transportation study; report to Congress

(1) The National Area shall be established and managed for the purposes of preserving and interpreting the scenic, biological, archeological, and historical resources of the river gorge areas and developing the natural recreational potential of the area for the enjoyment of the public and for the benefit of the economy of the region. The area within the boundary of the National Area shall be divided into two categories; namely, the gorge areas and adjacent areas as hereinafter defined.

(2)(A) Within the gorge area, no extraction of, or prospecting for minerals, petroleum products, or gas shall be permitted. No timber shall be cut within the gorge area except for limited clearing necessary for establishment of day-use facilities, historical sites, primitive campgrounds, and access roads. No structures shall be constructed within the gorge area except for structures associated with the improvement of historical sites specified in paragraphs (5), (6), and (8), except for day-use facilities and primitive campgrounds along the primary and secondary access routes specified herein and within 500 feet of such roads, and except for primitive campgrounds accessible only by water or on foot. No motorized transportation shall be allowed in the gorge area except on designated access routes, existing routes for administration of the National Area, existing routes for access to cemeteries; except that motorboat access into the gorge area shall be permitted up to a point one-tenth of a mile downstream from Devils’ Jumps and except for the continued operation and maintenance of the railroad currently operated and known as the K & T Railroad. The Secretary of the Interior shall impose limitations on the use of existing routes for access to cemeteries. The Secretary shall acquire such interest in the K & T Railroad right-of-way by easement as he deems necessary to protect the scenic, esthetic, and recreational values of the gorge area and the adjacent areas.

(B) Primary access routes into the gorge area may be constructed or improved upon the gen-
eral route of the following designated roads: Tennessee Highway Numbered 52, FAS 2451 (Leatherwood Ford Road), the road into the Blue Heron Community, and Kentucky Highway Numbered 92.

Secondary access roads in the gorge area may be constructed or improved upon the following routes: the roads from Smith Town, Kentucky, to Worley, Kentucky, the road crossing the Clear Fork at Burnt Mill Bridge, the road from Goad, Tennessee, to Zenith, Tennessee, the road from Co-Operative, Kentucky, to Kentucky Highway Numbered 92, the road entering the gorge across from the mouth of Alum Creek in Kentucky, the road crossing the Clear Fork at Peters Bridge, the road entering the gorge across from the mouth of Station Camp Creek. (D) All other existing roads in the gorge area shall be maintained for nonmotorized traffic only, except that nothing in this section shall abrogate the right of ingress and egress of those who remain in occupancy under subsection (c)(1) of this section.

(E) Road improvement or maintenance and any construction of roads or facilities in the gorge area as permitted by this section shall be accomplished by the Secretary in a manner that will protect the declared values of this unique natural scenic resource.

(3) In adjacent areas: the removal of timber shall be permitted only where required for the development or maintenance of public use and for administrative sites and shall be accomplished with careful regard for scenic and environmental values; prospecting for minerals and the extraction of minerals from the adjacent areas shall be permitted only where the adit to any such mine can be located outside the boundary of the National Area; no surface mining or strip mining shall be permitted; prospecting and drilling for petroleum products and natural gas shall be permitted in the adjacent area under such regulations as the Secretary or the Secretary of the Interior, after jurisdiction over the national river and recreation area has been transferred to him under subsection (b) of this section, may prescribe to minimize detrimental environmental impact, such regulations shall provide among other things for an area limitation for each such operation, zones where operations will not be permitted, and safeguards to prevent air and water pollution; no storage facilities for petroleum products or natural gas shall be located within the boundary of the National Area except as necessary and incidental to production; the Secretary is authorized to construct two lodges with recreational facilities within the adjacent areas so as to maximize and enhance public use and enjoyment of the National Area; construction of all roads and facilities in the adjacent areas shall be undertaken with careful regard for the maintenance of the scenic and esthetic values of the gorge area and the adjacent areas.

(4) The gorge area as set out in paragraphs (1) and (2) of this subsection shall consist of all lands and waters of the Big South Fork, Clear Fork, and New York River which lie between the gorge or valley rim on either side (where the rim is not clearly defined by topography, the gorge boundary shall be established at an elevation no lower than that of the nearest clearly demarked rim on the same side of the valley), and those portions of the main tributaries and streams in the watersheds of the Big South Fork, Clear Fork, and New River that lie within a gorge or valley rim on either side, except that no lands or waters north of Kentucky Highway Numbered 92 shall be included. The designated adjacent areas shall consist of the balance of the National Area.

(5) The Secretary, and the Secretary of the Interior, shall consult and cooperate with the Tennessee Historical Commission and the Rugby Restoration Association and with other involved agencies and associations, both public and private concerning the development and management of the National Area in the area adjacent to Rugby, Tennessee. Development within the area adjacent to Rugby, Tennessee, shall be designed toward preserving and enhancing the historical integrity of the community and any historical sites within the boundary of the National Area.

(6) The Secretary, or the Secretary of the Interior, after jurisdiction over the National Area has been transferred to him under subsection (b) of this section, shall provide for the restoration of the Blue Heron Mine community in a manner which will preserve and enhance the historical integrity of the community and will contribute to the public's understanding and enjoyment of its historical value. To that end the Secretary, or the Secretary of the Interior, after jurisdiction over the National Area has been transferred to him under subsection (b) of this section, may construct and improve structures within and may construct and improve a road into this community.

(7) The Secretary shall study the desirability and feasibility of reestablishing rail transportation on the abandoned O&W railbed or an alternative mode of transportation within the National Area upon the O&W roadbed, and shall report to Congress his recommendation with regard to development of this facility.

(8) IMPROVEMENT OF CHARIT CREEK LODGE AND HISTORIC STRUCTURES.—The Secretary of the Interior may make improvements to the Charit Creek Lodge and associated facilities and to historic structures determined to be eligible for listing in the National Register of Historic Places. Such improvements shall be made in a manner consistent with the historic scene and the limited ability of the National Area to accommodate additional use and development. Improvements to the Charit Creek Lodge and associated facilities shall be made within the approximately 30 acres of cleared land existing on November 15, 1990, and within carrying capacity limitations determined by the National Park Service.

(f) Federal power and water resources projects; license and other restrictions; limitations inapplicable to external areas

The Federal Energy Regulatory Commission shall not license the construction of any dam, water conduit, reservoir, powerhouse, transmission line, or other project works under the Federal Power Act (41 Stat. 1063) as amended (16 U.S.C. 791a et seq.), within or directly affecting
the National Area and no department or agency of the United States shall assist by loan, grant, license, or otherwise in the construction of any water resources project that would have a direct and adverse effect on the values for which the National Area was established, or request appropriations to begin construction of any such project, whether heretofore or hereafter authorized, without advising the Secretary or the Secretary of the Interior, after jurisdiction over the National Area has been transferred to him under subsection (b) of this section, in writing of its intention so to do at least sixty days in advance, and without specifically reporting to the Congress in writing at the time it makes its recommendations or requests in what respect construction of such project would be in conflict with the purposes of this section and would affect the National Area and the values to be protected under this section.

(g) Transportation facilities; study and establishment

The Secretary shall study transportation facilities in the region served by the National Area and shall establish transportation facilities to enhance public access to the National Area. In this connection the Secretary is authorized to acquire and maintain public roads, other than State highways, necessary to serve the public use facilities within the National Area, and to establish and maintain, at Federal cost an interior and circulating road system sufficient to meet the purposes of this section. Any existing public road, which at the time of its acquisition continues to be a necessary and essential part of the county highway system, may, upon mutual agreement between the Secretary and the owner of such road, be relocated outside of the National Area and if not so relocated such road shall be maintained at Federal expense and kept open at all times for general travel purposes. Nothing in this subsection shall abrogate the right of egress and ingress of those persons who may remain in occupancy under subsection (c) of this section. Nothing in this subsection shall preclude the adjustment, relocation, reconstruction, or abandonment of State highways situated in the National Area, with the concurrence of the agency having the custody of such highways upon entering into such arrangements as the Secretary or the Secretary of the Interior, after jurisdiction over the National Area has been transferred to him under subsection (b) of this section, deems appropriate and in the best interest of the general welfare.

(h) New River plan and programs; transmittal to Congress

In furtherance of the purpose of this subsection the Secretary in cooperation with the Secretary of Agriculture, the heads of other Federal departments and agencies involved, and the State of Tennessee and its political subdivisions, shall formulate a comprehensive plan for that portion of the New River that lies upstream from United States Highway Numbered 27. Such plan shall include, among other things, programs to enhance the environment and conserve and develop natural resources, and to minimize siltation and acid mine drainage. Such plan, with recommendations, including those as to costs and administrative responsibilities, shall be completed and transmitted to the Congress within one year from March 7, 1974.

(i) Water quality protection; interagency cooperation

The Secretary or the Secretary of the Interior, after jurisdiction over the National Area has been transferred to him under subsection (b) of this subsection, shall consult and cooperate with other departments and agencies of the United States and the States of Tennessee and Kentucky in the development of measures and programs to protect and enhance water quality within the National Area and to assure that such programs for the protection and enhancement of water quality do not diminish other values that are to be protected under this section.

(j) Real and personal property tax losses; reimbursement; authorization of appropriations

(1) Until such time as the transfer of jurisdiction to the Secretary of the Interior authorized by subsection (b) of this section becomes effective, the Secretary of the Interior, after jurisdiction over the National Area has been transferred to him under subsection (b) of this section, shall formulate a comprehensive plan for that portion of the New River that lies upstream from United States Highway Numbered 27. Such plan shall include, among other things, programs for the purpose of financially assisting the States of Tennessee and Kentucky, McCreary County, Kentucky, and Scott, Morgan, Pickett, and Fentress Counties in Tennessee, because of losses which these jurisdictions will sustain by reason of the fact that certain lands and other property within their boundaries may be included within the National Area established by this section and thereafter will no longer be subject to real and personal property taxes levied or imposed by them, payments shall be made to them on an annual basis in an amount equal to those taxes levied or imposed on such property for the last taxable year immediately preceding March 7, 1974.

(2) For the purpose of enabling the Secretary to make such payments during the fiscal years ending June 30, 1975, June 30, 1976, June 30, 1977, June 30, 1978, and June 30, 1979, there are authorized to be appropriated such sums as may be necessary.

(k) Authorization of appropriations; prohibition of appropriation from Land and Water Conservation Fund

§ 460ff. Establishment

For the purpose of preserving and protecting for public use and enjoyment, the historic, scenic, natural, and recreational values of the Cuyahoga River and the adjacent lands of the Cuyahoga Valley and for the purpose of providing for the maintenance of needed recreational open space necessary to the urban environment, the Cuyahoga Valley National Park, hereafter referred to as the “park”, shall be established within six months after December 27, 1974. In the management of the park, the Secretary of the Interior (hereafter referred to as the “Secretary”) shall utilize the park resources in a manner which will preserve its scenic, natural, and historic setting while providing for the recreational and educational needs of the visiting public.

AMENDMENTS

REDESIGNATION OF CUYAHOGA VALLEY NATIONAL RECREATION AREA

Pub. L. 106–291, title I, §149(a), (b), Oct. 11, 2000, 114 Stat. 956, provided that:

“(a) REDESIGNATION.—The Cuyahoga Valley National Recreation Area is redesignated as Cuyahoga Valley National Park.

“(b) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the Cuyahoga Valley National Recreation Area is deemed to be a reference to Cuyahoga Valley National Park.”

§ 460ff–1. Acquisition of land

(a) Composition and boundaries; boundary revisions; certain specific property

The park shall comprise the lands and waters generally depicted on the map entitled “Boundary Map, Cuyahoga Valley National Park, Ohio”, numbered 64–80,054 and dated July 1986, which shall be on file and available for inspection in the offices of the National Park Service, Department of the Interior, Washington, District of Columbia, and in the main public library of Akron, Ohio, and Cleveland, Ohio. After advising the Committee on Energy and Natural Resources of the Senate and the Committee on Natural Resources of the House of Representatives, in writing, the Secretary may make minor revisions of the boundaries of the park when necessary by publication of a revised drawing or other boundary description in the Federal Register: Provided, That with respect to the property known as the Hydraulic Brick Company located in Independence, Ohio, the Secretary shall have the first right of refusal to purchase such property for a purchase price not exceeding the fair market value of such property on the date it is offered for sale. When acquired such property shall be administered as part of the park, subject to the laws and regulations applicable thereto. The park shall also comprise any lands designated as “City of Akron Lands” on the map referred to in the first sentence which are offered as donations to the Department of the Interior or which become privately owned. The Secretary shall revise such map to depict such lands as part of the park.

(b) Manner of acquisition; scenic easements; donation of State lands; private lands essential to area; transfer of Federal property to Secretary

Within the boundaries of the park, the Secretary, after consultation with the Governor of the State of Ohio and the Advisory Commission established in section 460ff–4 of this title, may acquire lands, improvements, waters, or interests therein by donation, purchase with donated or appropriated funds, exchange, or transfer. The Secretary may not acquire fee title to any lands included within the park in 1986 which are designated on the map referred to in subsection (a) of this section as “Scenic Easement Acquisition Areas”. The Secretary may acquire only scenic easements in such designated lands. Unless consented to by the owner from which the easement is acquired, any such scenic easement may not prohibit any activity, the subdivision of any land, or the construction of any building or other facility if such activity, subdivision, or construction would have been permitted under laws and ordinances of the unit of local government in which such land was located on April 1, 1986, as such laws and ordinances were in effect on such date. Any lands or interests owned therein, as well as any lands hereafter acquired, by the State of Ohio or any political subdivision thereof (including any park district or other public entity) within the boundaries of the park may be acquired only by donation or exchange for equal value. In determining the exchange value of lands of the State or any political subdivision thereof under this subsection, the Secretary shall not include in the value of those lands amounts paid from the land and water conservation fund, if any, for the original acquisition of those lands by the State or political subdivision. The Secretary shall not acquire privately owned lands which are held and used for public recreation uses unless he determines that such lands are essential to carry out the purposes of this subchapter. Notwithstanding any other provisions of law, any Federal property located within the boundaries of the park may, with the concurrence of the agency having custody thereof, be transferred without transfer of funds to the administrative jurisdiction of the Secretary for the purposes of the park.

(c) Scenic easements or other interests in improved property; prerequisites to acquisition of fee title

With respect to improved properties, as defined in this subchapter, the Secretary may acquire scenic easements or such other interests as, in his judgment, are necessary for the purposes of the park. Fee title to such improved properties shall not be acquired unless the Sec-
retary finds that such lands are being used, or are threatened with uses, which are detrimental to the purposes of the park, or unless such acquisition is necessary to fulfill the purposes of this subchapter.

(d) Acquired lands partly outside boundaries; exchange for non-Federal lands within boundaries; report to General Services Administration for disposal

When any tract of land is only partly within the boundaries of the park, the Secretary may acquire all or any portion of the land outside of such boundaries in order to minimize the payment of severance costs. Land so acquired outside the boundaries may be exchanged by the Secretary for non-Federal lands within the boundaries. Any portion of the land acquired outside the boundaries and not utilized for exchange shall be reported to the General Services Administration for disposal under chapters 1 to 11 of title 40 and division C (except sections 3302, 3307(e), 3501(b), 3509, 3906, 4710, and 4711) of subtitle I of title 41: Provided, That no disposal shall be for less than the fair market value of the lands involved.

(e) “Improved property” defined; determination by Secretary

For the purposes of this subchapter, the term “improved property” means: (i) a detached single family dwelling, the construction of which was begun before January 1, 1975 (hereafter referred to as “dwelling”), together with so much of the land on which the dwelling is situated, the said land being in the same ownership as the dwelling, as the Secretary shall designate to be reasonably necessary for the enjoyment of the dwelling; or (ii) property developed for the sole purpose of noncommercial residential use, together with any structures necessary to the dwelling which are situated on the land so designated, or (iii) property developed for agricultural uses, together with any structures accessory thereto which were so used on or before January 1, 1975. In determining when and to what extent a property is to be considered an “improved property”, the Secretary shall take into consideration the manner of use of such buildings and lands prior to January 1, 1975, and shall designate such lands as are reasonably necessary for the continued enjoyment of the property in the same manner and to the same extent as existed prior to such date. In applying this subsection with respect to lands and interests therein added to the park by action of the Ninety-fifth Congress, the date “January 1, 1978,” shall be substituted for the date “January 1, 1975,” in each place it appears.

(f) Retention by owner of right of use and occupancy for noncommercial residential or agricultural purposes; terms; payment of fair market value; termination by Secretary for use inconsistent with statutory purpose

The owner of an improved property, as defined in this subchapter, on the date of its acquisition, as a condition of such acquisition, may retain for himself, his heirs and assigns, a right of use and occupancy of the improved property for non-commercial residential or agricultural purposes, as the case may be, for a definite term not more than twenty-five years, or, in lieu thereof, for a term ending at the death of the owner or the death of his spouse, whichever is later. The owner shall elect the term to be reserved. Unless the property is wholly or partially donated, the Secretary shall pay to the owner the fair market value of the property on the date of its acquisition, less the fair market value on that date of the right retained by the owner. A right retained by the owner pursuant to this section shall be subject to termination by the Secretary upon his determination that it is being exercised in a manner inconsistent with the purposes of this subchapter, and it shall terminate by operation of law upon notification by the Secretary to the holder of the right of such determination and tendering to him the amount equal to the fair market value of that portion which remains unexpired.

(g) Offers to sell by owners claiming undue hardship

In exercising his authority to acquire property under this subchapter, the Secretary shall give prompt and careful consideration to any offer made by an individual owning property within the park to sell such property, if such individual notifies the Secretary that the continued ownership of such property is causing, or would result in, undue hardship.

In the development of such plan, the Secretary shall consider the historic, archeological, and paleontological resources within the recreation area which offer significant opportunities for anthropological research. The Secretary shall inventory such resources and may recommend such areas as he deems suitable for listing in the National Register of Historic Places. The Secretary’s comprehensive plan shall include recommendations for future protection and controlled research use of all such resources.

(c) Scenic roads and other means of transit

The Secretary shall, as a part of his comprehensive planning process, conduct a detailed study of the need for, and alternative routes of, scenic roads and other means of transit to and within the recreation area. In conducting such study the Secretary shall consider the alternative for upgrading existing roads and shall, in particular, study the need for and alternative routes of roads or other means of transit providing access to scenic views of and from the western rim of Hells Canyon.

(d) Wilderness areas; review by Secretary; recommendations of President to Congress; notice of hearings and meetings

The Secretary shall review, as to their suitability or nonsuitability for preservation as wilderness, the areas generally depicted on the map referred to in section 460gg of this title as the “Lord Flat-Somers Point Plateau Wilderness Study Area”, and the “West Side Reservoir Face Wilderness Study Area”, and the “Mountain Sheep Wilderness Study Area” and report his findings to the President. The Secretary shall complete his review and the President shall, within five years from December 31, 1975, advise the United States Senate and House of Representatives of his recommendations with respect to the designation of lands within such area as wilderness. In conducting his review the Secretary shall comply with the provisions of section 1132(d) of this title and shall give public notice at least sixty days in advance of any hearings or other public meetings concerning the wilderness study area. The Secretary shall administer all Federal lands within the study areas so as not to preclude their possible future designation by the Congress as wilderness. Nothing contained herein shall limit the President in proposing, as part of this recommendation to Congress, the designation as wilderness of any additional area within the recreation area which is predominately of wilderness value.

(e) Public participation in reviews and preparation of plan; cooperation of other Federal agencies

In conducting the reviews and preparing the comprehensive management plan required by this section, the Secretary shall provide for full public participation and shall consider the views of all interested agencies, organizations, and individuals including but not limited to, the Nez Perce Tribe of Indians, and the States of Idaho, Oregon, and Washington. The Secretaries or Directors of all Federal departments, agencies, commissions having a relevant expertise are hereby authorized and directed to cooperate with the Secretary in his review and to make such studies as the Secretary may request on a cost reimbursable basis.

Further, in development of the management plan, the Secretary shall give full consideration to continuation of these ongoing activities in their respective areas.

§ 460hh–1. Acquisition of property

(a) Authority of Secretary; manner of acquisition

The Secretary may acquire land or interests in lands within the boundaries of the recreation
area by donation, purchase with donated or appropriated funds, or exchange. When any tract of land is only partly within such boundaries, the Secretary may acquire all or any portion of the land outside of such boundaries in order to minimize the payment of severance costs. Land so acquired outside of the boundaries may be exchanged by the Secretary for non-Federal lands within the boundaries, and any land so acquired and not utilized for exchange shall be reported to the General Services Administration for disposal under chapters 1 to 11 of title 40 and division C (except sections 3302, 3307(e), 3501(b), 3509, 3906, 4710, and 4711) of subtitle I of title 41. (d) Termination of right of use and occupancy; determination by Secretary

The Secretary may terminate a right to use and occupancy retained pursuant to this section upon his determination that such use and occupancy is being exercised in a manner not consistent with the purposes of this subchapter, and upon tender to the holder of the right an amount equal to the fair market value of that portion of the right which remains unexpired on the date of termination.

SUBCHAPTER XCIII—CHATTahooCHEE RIVER NATIONAL RECREATION AREA

§ 460ii. Establishment; boundaries; publication in Federal Register

The Congress finds the natural, scenic, recreational, historic, and other values of a forty-eight-mile segment of the Chattahoochee River and certain adjoining lands in the State of Georgia from Buford Dam downstream to Peachtree Creek are of special national significance, and that such values should be preserved and protected from developments and uses which would substantially impair or destroy them. In order to assure such preservation and protection for public benefit and enjoyment, there is hereby established the Chattahoochee River National Recreation Area (hereinafter referred to as the "recreation area"). The recreation area shall consist of the river and its bed together with the lands, waters, and interests therein within the boundary generally depicted on the map entitled "Chattahoochee River National Recreation Area", numbered CHAT–20,003, and dated September 1984, and on the maps entitled "Chattahoochee River National Recreation Area Interim Boundary Map #1", "Chattahoochee River National Recreation Area Interim Boundary Map #2", and "Chattahoochee River National Recreation Area Interim Boundary Map #3", and dated August 6, 1998, which shall be on file and available for public inspection in the office of the National Park Service, Department of the Interior. No sooner than 180 days after December 9, 1999, the Secretary of the Interior (hereafter referred to as the "Secretary") may modify the boundaries of the recreation area to include other land within the Chattahoochee River corridor by submitting a revised map or other boundary description to the Committee on Energy and Natural Resources of the United States Senate and the Committee on Resources of the United States House of Representatives. The revised map or other boundary description shall be prepared by the Secretary after consultation with affected landowners, the State of Georgia, and affected political subdivisions of the State. The revised boundaries shall take effect 180 days after the date of submission unless, within the 180-day period, Congress enacts a joint resolution disapproving the revised boundaries. The total area, exclusive of the river and its bed, within the recreation area may not exceed 10,000 acres. For purposes of facilitating Federal technical and other support to State and local governments to assist State and local efforts to protect the scenic, recreational, and natural values of a 2,000 foot wide corridor adjacent to each bank of the Chattahoochee River and its impoundments in the 48-mile segment referred to above, such corridor is hereby declared to be an area of national concern.

AMENDMENTS

1999—Pub. L. 106–154, §2(a)(3), substituted “may not exceed approximately 6,800 acres” for “may not exceed approximately 10,000 acres” in penultimate sentence.

Pub. L. 106–154, §2(a)(2), inserted fourth sentence and struck out former fourth sentence which read as follows: “Following reasonable notice in writing to the Committee on Natural Resources of the United States House of Representatives and to the Committee on Energy and Natural Resources of the United States Senate of his intention to do so, the Secretary of the Interior (hereinafter referred to as the ‘Secretary’) may, by publication of a revised map or other boundary description in the Federal Register, (1) make minor revisions in the boundary of the recreation area, and (2) revise the boundary to facilitate access to the recreation area, or to delete lands which would be of little or no benefit to the recreation area due to the existence of valuable improvements completely constructed prior to August 15, 1978.”

Pub. L. 106–154, §2(a)(1), in third sentence, inserted “and on the maps entitled ‘Chattahoochee River National Recreation Area Interim Boundary Map #1’, ‘Chattahoochee River National Recreation Area Interim Boundary Map #2’, and ‘Chattahoochee River Na-
tional Recreation Area Interim Boundary Map #3, and dated August 6, 1998,” after “numbered CHAT–20,003, and dated September 1984,”.

1984—Pub. L. 98–568 substituted “Natural Resources” for “Interior and Insular Affairs” after “Committee on”.

1978—Pub. L. 95–34 substituted “National Recreation Area Interim Boundary Map #3”, and dated September 1984,” for “CHAT–20,000, and dated July 1976” and “approximately 6,800 acres” for “six thousand three hundred acres” and inserted provision declaring the corridor area to be an area of national concern.

CHANGE OF NAME

Committee on Resources of House of Representatives changed to Committee on Natural Resources of House of Representatives by House Resolution No. 6, One Hundred Tenth Congress, Jan. 5, 2007.

FINDINGS AND PURPOSE

“(a) FINDINGS.—Congress finds that—

‘’(1) the Chattahoochee River National Recreation Area in the State of Georgia is a nationally significant resource;

‘’(2) the Chattahoochee River National Recreation Area has been adversely affected by land use changes occurring inside and outside the recreation area;

‘’(3) the population of the metropolitan Atlanta area continues to expand northward, leaving dwindling opportunities to protect the scenic, recreational, natural, and historical values of the 2,000-foot-wide corridor adjacent to each bank of the Chattahoochee River and its impoundments in the 48-mile segment known as the ‘area of national concern’;

‘’(4) the State of Georgia has enacted the Metropolitan River Protection Act to ensure protection of the corridor located within 2,000 feet of each bank of the Chattahoochee River, or the corridor located within the 100-year floodplain, whichever is larger;

‘’(5) the corridor located within the 100-year floodplain includes the area of national concern;

‘’(6) since establishment of the Chattahoochee River National Recreation Area, visitor use of the recreation area has shifted dramatically from waterborne to water-related and land-based activities;

‘’(7) the State of Georgia and political subdivisions of the State along the Chattahoochee River have indicated willingness to join in a cooperative effort with the United States to link existing units of the recreation area through a series of linear corridors to be established within the area of national concern and elsewhere on the river; and

‘’(8) if Congress appropriates funds in support of the cooperative effort described in paragraph (7), funding from the State, political subdivisions of the State, private foundations, corporate entities, private individuals, and other sources will be available to fund more than half the estimated cost of the cooperative effort.

(b) PURPOSES.—The purposes of this Act (amending this section and sections 460ii–1 to 460ii–5 of this title) are—

‘’(1) to increase the level of protection of the open spaces within the area of national concern along the Chattahoochee River and to enhance visitor enjoyment of the open spaces by adding land-based linear corridors to link existing units of the recreation area;

‘’(2) to ensure that the Chattahoochee River National Recreation Area is managed to standardize acquisition, planning, design, construction, and operation of the linear corridors; and

‘’(3) to authorize the appropriation of Federal funds to cover a portion of the costs of the Federal, State, local, and private cooperative effort to add additional areas to the recreation area so as to establish a series of linear corridors linking existing units of the recreation area and to protect other open spaces of the Chattahoochee River corridor.”

COMPLIANCE WITH CONGRESSIONAL BUDGET ACT

Section 2 of Pub. L. 98–568 provided that: “Any provision of any amendment made by this Act (enacting section 460ii–5 of this title and amending this section and sections 460ii–1, 460ii–3, and 460ii–4 of this title) which, directly or indirectly, authorizes the enactment of new budget authority described in section 402(a) of the Congressional Budget Act of 1974 [2 U.S.C. 652(a)] shall be effective only for fiscal years beginning after September 30, 1984.”

§ 460ii–1. Acquisition of property

(a) Manner of acquisition of lands, etc., within area

Within the recreation area the Secretary is authorized to acquire lands, waters, and interests therein by donation, purchase from willing sellers with donated or appropriated funds, or exchange. Property owned by the State of Georgia or any political subdivision thereof may be acquired only by donation.

(b) Manner of acquisition of lands partly within and partly without area; disposal of unutilized lands

When a tract of land lies partly within and partly without the boundaries of the recreation area, the Secretary may acquire the entire tract by any of the above methods in order to avoid the payment of severance costs. Land so acquired outside of the boundaries of the recreation area may be exchanged by the Secretary for non-Federal land within such boundaries, and any portion of the land not utilized for such exchanges may be disposed of in accordance with the provisions of chapters 1 to 11 of title 40 and division C (except sections 3302, 3307(e), 3501(b), 3509, 3906, 4710, and 4711) of subtitle I of title 41.

(c) Acquisition of improved property used for noncommercial residential purposes; retention by owners of right of use and occupancy for residential purposes; terms; payment of fair market value

Except for property which the Secretary determines to be necessary for the purposes of administration, development, access, or public use, an owner of improved property which is used solely for noncommercial residential purposes on the date of its acquisition by the Secretary may retain, as a condition of such acquisition, a right of use and occupancy of the property for such residential purposes. The right retained may be for a definite term which shall not exceed twenty-five years or, in lieu thereof, for a term ending at the death of the owner or the death of the spouse, whichever occurs later. The owner shall elect the term to be retained. The Secretary shall pay the owner the fair market value of the property on the date of such acquisition, less the fair market value of the term retained by the owner.

(d) Terms and conditions respecting rights of use and occupancy retained; termination of right of use and occupancy

Any right of use and occupancy retained pursuant to this section may, during its existence, be conveyed or transferred, but all rights of use and occupancy shall be subject to such terms and conditions as the Secretary deems appro-
private to assure the use of the property in accordance with the purposes of this subchapter. Upon his determination that the property, or any portion thereof, has ceased to be so used in accordance with such terms and conditions, the Secretary may terminate the right of use and occupancy by tendering to the holder of such right an amount equal to the fair market value, as of the date of the tender, of that portion of the right which remains unexpired on the date of termination.

(e) "Improved property" defined

As used in this section, the term "improved property" means a detached, year-round non-commercial residential dwelling, the construction of which was begun before January 1, 1975, together with so much of the land on which the dwelling is situated, the said land being in the same ownership as the dwelling, as the Secretary shall designate to be reasonably necessary for the enjoyment of the dwelling for the sole purpose of non-commercial residential use, together with any structures accessory to the dwelling which are situated on the land so designated.

"(f)(3) Effective on the date ten years after October 30, 1984, the exchange authority of paragraph (1) shall terminate. The exchange lands identified under paragraph (1) which have not been exchanged prior to such date shall be retained in Federal ownership as a part of the recreation area.

AMENDMENTS

1999—Subsec. (a). Pub. L. 106–154, §2(e)(1), substituted "of this subchapter" for "of this subchapter and chapter 43 of this title".

Subsec. (b). Pub. L. 106–154, §2(c), added subsec. (b) and struck out former subsec. (b) which read as follows:

"(b) The Secretary is authorized and encouraged to enter into cooperative agreements with the State or its political subdivisions whereby he may assist in the planning for and interpretation of non-Federal publicly owned lands within or adjacent to or related to the recreation area to assure that such lands are used in a manner consistent with the findings and purposes of this subchapter and chapter 43 of this title."
§ 460ii–3. Federal supervision of water resources projects

(a) Limitations on licensing and assistance authorities; criteria for upgrading, improving, etc., supply and quality enhancement programs

The Federal Energy Regulatory Commission shall not license the construction of any dam, water conduit, reservoir, powerhouse, transmission line, or other project works under the Federal Power Act (16 U.S.C. 791a et seq.), or on or directly affecting the recreation area, and no department or agency of the United States shall assist by loan, grant, license, or otherwise in the construction of any water resources project that would have a direct and adverse effect on the values for which such area is established, except where such project is determined by the State of Georgia to be necessary for water supply or water quality enhancement purposes and authorized by the United States Congress. Nothing contained in the foregoing sentence, however, shall preclude licensing of, or assistance to, developments upstream or downstream from the recreation area or on any stream tributary thereto which will not invade the recreation area or unreasonably diminish the scenic, recreational, and fish and wildlife values present therein on August 15, 1972. Nothing contained in this subsection shall preclude the upgrading, improvement, expansion or development of facilities or public works for water supply or water quality enhancement purposes if such action would not have a material adverse effect on the values for which the recreation area is established.

(b) Limitations on recommending authorizations and requesting appropriations; applicability of local considerations and criteria

No department or agency of the United States shall recommend authorization of any water resources project that would have a direct and adverse effect on the values for which such area is established, as determined by the Secretary, nor shall such department or agency request appropriations to begin construction of any such project, whether heretofore or hereafter authorized, without at least sixty days in advance, (1) advising the Secretary in writing of its intention to do so and (2) reporting to the Committee on Natural Resources of the United States House of Representatives and to the Committee on Energy and Natural Resources of the United States Senate the nature of the project involved and the manner in which such project would conflict with the purposes of this subchapter or would affect the recreation area and the values to be protected by it under this subchapter. It is not the intention of Congress by this subchapter to require the manipulation or reduction of lake water levels in Lake Sidney Lanier. Nothing in this subchapter shall be construed in any way to restrict, prohibit, or affect any recommendation of the Metropolitan Atlanta Water Resources Study as authorized by the Public Works Committee of the United States Senate on March 2, 1972.

(c) Expeditious acquisition of lands and interests in lands necessary for establishment, etc., of area

The Secretary is directed to proceed as expeditiously as possible to acquire the lands and interests in lands necessary to achieve the purposes of this subchapter and chapter 43 of this title.

(d) Mitigation funds for adverse impacts; excepted lands; limitation of amount; replacement lands

(1) Notwithstanding any other authority of law, any department, agency, or instrumentality of the United States or of the State of Georgia, or any other entity which may construct any project recommended in the study entitled "Metropolitan Atlanta Water Resources Management Study, Georgia: Report of Chief of Engineers," dated June 1, 1982, which directly adversely impacts any lands within the authorized recreation boundaries of the Bowman’s Island tract as shown on the map numbered and dated CHAT–20,003, September 1984, which were in Federal ownership as of September 1, 1984, shall, upon request by the Secretary, mitigate such adverse impacts. It is expressly provided that use of or adverse impact upon any other lands within the recreation area as result of any such project shall not require mitigation. Mitigation required by this paragraph shall be provided by payment to the United States of a sum not to exceed $3,200,000. The mitigation funds paid pursuant to this paragraph shall be utilized by the Secretary for the acquisition of replacement lands. Such replacement lands shall be acquired only after consultation with the Governor of Georgia.

(2) In acquiring replacement lands under paragraph (1) priority shall be given to acquisition of lands within the recreation area boundary and those lands within or adjacent to the 2,000 foot wide corridor referred to in section 460ii of this title. Any lands acquired pursuant to this subsection lying outside the boundaries of the recreation area shall, upon acquisition, be included within the recreation area and transferred to the Secretary for management under this subchapter. The Secretary shall publish a revised boundary map to include any lands added to the recreation area pursuant to this subsection.

(3) If lands as described in paragraph (2) are not available for acquisition, other lands within the State of Georgia may be acquired as replacement lands under paragraph (1) if such lands are transferred to the State of Georgia for permanent management for public outdoor recreation.

SUBCHAPTER XCV—SANTA MONICA MOUNTAINS NATIONAL RECREATION AREA

§ 460kk. Establishment

(a) Findings

The Congress finds that—

(1) there are significant scenic, recreational, educational, scientific, natural, archeological, and public health benefits provided by the Santa Monica Mountains and adjacent coastline area;

(2) there is a national interest in protecting and preserving these benefits for the residents of and visitors to the area; and

(3) the State of California and its local units of government have authority to prevent or minimize adverse uses of the Santa Monica Mountains and adjacent coastline area and can, to a great extent, protect the health, safety, and general welfare by the use of such authority.

(b) Establishment; management

There is hereby established the Santa Monica Mountains National Recreation Area (hereafter referred to as the “recreation area”). The Secretary shall manage the recreation area in a manner which will preserve and enhance its scenic, natural, and historical setting and its public health value as an airshed for the Southern California metropolitan area while providing for the recreational and educational need of the visiting public.

(c) Description; boundary revisions: notice to Congressional committees, publication in Federal Register; acquisition of property: manner, transfer from Federal agency to administrative jurisdiction of Secretary, exchange of lands with city of Los Angeles, development of municipal cultural resource management program; Nike Site transfer to Secretary

(1) The recreation area shall consist of the lands and waters and interests generally depicted as the recreation area on the map entitled “Santa Monica Mountains National Recreation Area and Santa Monica Mountains Zone, California, Boundary Map”, numbered 80,047–C and dated August 2001, which shall be on file and available for inspection in the offices of the National Park Service, Department of the Interior, Washington, District of Columbia, and in the offices of the General Services Administration in the Federal Office Building in West Los Angeles, California, and in the main public library in Ventura, California. After advising the Committee on Resources of the United States House of Representatives and the Committee on Energy and Natural Resources of the United States Senate, in writing, the Secretary may make minor revisions of the boundaries of the recreation area when necessary by publication of a revised drawing or other boundary description in the Federal Register.

(2)(A) Not later than ninety days after November 10, 1978, the Secretary, after consultation with the Governor of the State of California, the California Coastal Commission, and the Santa Monica Mountains Comprehensive Planning Commission, shall commence acquisition of
lands, improvements, waters, or interests therein within the recreation area. Such acquisition may be by donation, purchase with donated or appropriated funds, transfer from any Federal agency, exchange, or otherwise. Except as provided in subparagraph (B), any lands or interests therein owned by the State of California or any political subdivision thereof (including any park district or other public entity) may be acquired only by donation, except that such lands acquired after November 10, 1978, by the State of California or its political subdivisions may be acquired by purchase or exchange if the Secretary determines that the lands were acquired for purposes which further the national interest in protecting the area and that the purchase price or value on exchange does not exceed fair market value on the date that the State acquired the land or interest. Provided, however, That the value of any lands acquired by the Secretary under the exception in this sentence shall be deducted from the amount of moneys available for grants to the State under subsection (n) of this section. Lands within the “Wildlife Corridor Expansion Zone” identified on the boundary map referred to in paragraph (1) may be acquired only by donation or with donated funds. Notwithstanding any other provision of law, any Federal property located within the boundaries of the recreation area shall, with the concurrence of the head of the agency having custody thereof, be transferred without cost, to the administrative jurisdiction of the Secretary for the purposes of the recreation area.

(B) The Secretary shall negotiate, and carry out, and exchange with the city of Los Angeles (acting through its department of water and power) certain federally owned lands managed by the Bureau of Land Management in the vicinity of the Huiwee Reservoir in Inyo County for certain lands owned by the city of Los Angeles which are associated with the Upper Franklin Reservoir in the city of Los Angeles. Lands acquired by the Secretary pursuant to such exchange shall be transferred without cost to the administrative jurisdiction of the National Park Service for inclusion within the recreation area. The Secretary shall include in such exchange a provision for an easement to be granted to the city of Los Angeles for the existing water pipeline associated with the Upper Franklin Reservoir and for the city of Los Angeles to provide for replacement water to maintain the water elevations of the Franklin Reservoir to the current levels. The values of lands exchanged under this provision shall be equal, or shall be equalized, in the same manner as provided in section 1716 of title 43.

(C) The city shall assume full responsibility for the protection of cultural resources and shall develop a cultural resource management program for the public lands to be transferred to the city in the vicinity of the Huiwee Reservoir. The program shall be developed in consultation with the Secretary of the Interior, the California State Historic Preservation Officer, and the Advisory Council on Historic Preservation.

(3) The Administrator of the General Services Administration is hereby authorized and directed to transfer the site generally known as Nike Site 78 to the Secretary for inclusion in the recreation area. Provided, That the county of Los Angeles shall be permitted to continue to use without charge the facilities together with sufficient land as in the determination of the Secretary shall be necessary to continue to maintain and operate a fire suppression and training facility and shall be excused from payment for any use of the land and facilities on the site prior to November 10, 1978. At such time as the county of Los Angeles, California, relinquishes control of such facilities and adjacent land or ceases the operation of the fire suppression and training facility, the land and facilities shall be managed by the Secretary as a part of the recreation area.

(d) Identification and revision of areas: public ownership for critical purposes; land and area plan: submission to Congressional committees

(1) Within six months after November 10, 1978, the Secretary shall identify the lands, waters, and interests within the recreation area which must be acquired and held in public ownership for the following critical purposes: preservation of beaches and coastal uplands; protection of undeveloped inland stream drainage basins; connection of existing State and local government parks and other publicly owned lands to enhance their potential for public recreation use; protection of existing park roads and scenic corridors, including such right-of-way as is necessary for the protection of the Mulholland Scenic Parkway Corridor; protection of the public health and welfare; and development and interpretation of historic sites and recreation areas in connection therewith, to include, but not be limited to, parks, picnic areas, scenic overlooks, hiking trails, bicycle trails, and equestrian trails. The Secretary may from time to time revise the identification of such areas, and any such revisions shall become effective in the same manner as herein provided for revisions in the boundaries of the recreation area.

(2) By January 1, 1980, the Secretary shall submit, in writing, to the committees referred to in subsection (c) of this section and to the Committees on Appropriations of the United States Congress a detailed plan which shall indicate—

(A) the lands and areas identified in paragraph (1),

(B) the lands which he has previously acquired by purchase, donation, exchange, or transfer for the purpose of this recreation area,

(C) the annual acquisition program (including the level of funding) recommended for the ensuing five fiscal years, and

(D) the final boundary map for the recreation area.

(e) Improved property and scenic easement acquisitions

With respect to improved properties, as defined in this section, fee title shall not be acquired unless the Secretary finds that such lands are being used, or are threatened with uses, which are detrimental to the purposes of the recreation area, or unless each acquisition is necessary to fulfill the purposes of this section. The Secretary may acquire scenic easements to such improved property or such other interests
as, in his judgment are necessary for the purposes of the recreation area.

(f) “Improved property” defined

For the purposes of this section, the term “improved property” means—

(1) a detached single-family dwelling, the construction of which was begun before January 1, 1978 (hereafter referred to as “dwelling”), together with so much of the land on which the dwelling is situated as is in the same ownership as the dwelling and as the Secretary designates to be reasonably necessary for the enjoyment of the dwelling for the sole purpose of noncommercial residential use, together with any structures necessary to the dwelling which are situated on the land so designated, and

(2) property developed for agricultural uses, together with any structures accessory thereunto as were used for agricultural purposes on or before January 1, 1978.

In determining when and to what extent a property is to be treated as “improved property” for purposes of this section, the Secretary shall take into consideration the manner of use of such buildings and lands prior to January 1, 1978, and shall designate such lands as are reasonably necessary for the continued enjoyment of the property in the same manner and to the same extent as existed prior to such date.

(g) Owner’s reservation of right of use and occupancy for fixed term of years or life; election of term; fair market value; termination; notification

The owner of an improved property, as defined in this section, on the date of its acquisition, as a condition of such acquisition, may retain for herself or himself, her or his heirs and assigns, a right of use and occupancy of the improved property for noncommercial residential or agricultural purposes, as the case may be, for a definite term of not more than twenty-five years, or, in lieu thereof, for a term ending at the death of the owner or the death of her or his spouse, whichever is later. The owner shall elect the term to be reserved. Unless the property is wholly or partially donated, the Secretary shall pay to the owner the fair market value of the property on the date of its acquisition, less the fair market value on that date of the right retained by the owner. A right retained by the owner pursuant to this section shall be subject to termination by the Secretary upon his determination that it is being exercised in a manner inconsistent with the purposes of this section, and it shall terminate by operation of law upon notification by the Secretary to the holder of the right of such determination and tendering to him the amount equal to the fair market value of that portion which remains unexpired.

(h) Hardship sale offers

In exercising the authority to acquire property under this section, the Secretary shall give prompt and careful consideration to any offer made by an individual owning property within the recreation area to sell such property, if such individual notifies the Secretary that the continued ownership of such property is causing, or would result in, undue hardship.

(i) Administration

The Secretary shall administer the recreation area in accordance with this Act and provisions of laws generally applicable to units of the National Park System, including sections 1, 2, 3, and 4 of this title. In the administration of the recreation area, the Secretary may utilize such statutory authority available for the conservation and management of wildlife and natural resources as appropriate to carry out the purpose of this section. The fragile resource areas of the recreation area shall be administered on a low-intensity basis, as determined by the Secretary.

(j) Cooperative agreements for rescue, fire prevention and firefighting, and law enforcement services

The Secretary may enter into cooperative agreements with the State of California, or any political subdivision thereof, for the rendering, on a reimbursable basis, of rescue, firefighting, and law enforcement services and cooperative assistance by nearby law enforcement and fire preventive agencies.

(k) Donations

Notwithstanding any other provision of law, the Secretary is authorized to accept donations of funds, property, or services from individuals, foundations, corporations, or public entities for the purpose of land acquisition and providing services and facilities which the Secretary deems consistent with the purposes of this section.

(l) Report of Advisory Commission to Secretary

By January 1, 1981, the Santa Monica Mountains National Recreation Area Advisory Commission, established by this section, shall submit a report to the Secretary which shall—

(1) assess the capability and willingness of the State of California and the local units of government to manage and operate the recreation area,

(2) recommend any changes in ownership, management, and operation which would better accomplish the purposes of this section, and

(3) recommend any conditions, joint management agreements, or other land use mechanisms to be contingent on any transfer of land.

(m) Report of Secretary to Congressional committees

The Secretary, after giving careful consideration to the recommendations set forth by the Advisory Commission, shall, by January 1, 1982, submit a report to the committees referred to in subsection (c) of this section which shall incorporate the recommendations of the Advisory Commission as well as set forth the Secretary’s recommendations. Such report shall—

(1) assess the benefits and costs of continued management as a unit of the National Park System,

(2) assess the capability and willingness of the State of California and the local units of government to manage and operate the recreation area, and

(3) recommend any changes in ownership, management, and operation which would better accomplish the purposes of this section.
(n) Comprehensive plan; contents; approval considerations; environmental consultations; grants and funds; assurance and grant requirements; plan changes; liability for reimbursement of funds, approval by Secretary

(1) The Secretary shall request the Santa Monica Mountains Comprehensive Planning Commission to submit a comprehensive plan, prepared in accord with this section and title 7.75 of the California Government Code (commencing with section 67590), for the Santa Monica Mountains Zone generally depicted on the map referred to in subsection (c) of this section for approval.

(2) The comprehensive plan shall include, in addition to the requirements of California State law—

(A) an identification and designation of public and private uses which are compatible with and which would not significantly impair the significant scenic, recreational, educational, scientific, natural, archeological, and public health benefits present in the zone and which will not have an adverse impact on the recreation area or on the air quality of the south coast air basin;

(B) a specific minimum land acquisition program which shall include, but not be limited to, fee and less than fee acquisition of strategic and critical sites to be acquired by the Federal Government for public recreational and related uses; and a program for the complementary use of State and local authority to regulate the use of lands and waters within the Santa Monica Mountains Zone to the fullest extent practicable consistent with the purposes of this section; and

(C) a recreation transportation system which may include but need not be limited to existing public transit.

(3) No plan submitted to the Secretary under this section shall be approved unless the Secretary finds the plan consistent with paragraph (2) and finds that—

(A) the planning commission has afforded adequate opportunity, including public hearings, for public involvement in the preparation and review of the plan, and public comments were received and considered in the plan or revision as presented to him;

(B) the State and local units of government identified in the plan as responsible for implementing its provisions have the necessary authority to implement the plan and such State and local units of government have indicated their intention to use such authority to implement the plan;

(C) the plan, if implemented, would preserve significant natural, historical, and archeological benefits and, consistent with such benefits, provide increased recreational opportunities for persons residing in the greater Los Angeles-southern California metropolitan area; and

(D) implementation of the plan would not have a serious adverse impact on the air quality or public health of the greater Los Angeles region.

Before making his findings on the air quality and public health impacts of the plan, the Secretary shall consult with the Administrator of the Environmental Protection Agency.

(4) Following approval of the plan with respect to the Santa Monica Mountains Zone, upon receipt of adequate assurances that all aspects of that jurisdiction’s implementation responsibilities will be adopted and put into effect, the Secretary shall—

(A) provide grants to the State and through the State to local governmental bodies for acquisition of lands, waters, and interests therein identified in paragraph (2)(B), and for development of essential public facilities, except that such grants shall be made only for the acquisition of lands, waters, and interests therein, and related essential public facilities, for park, recreation, and conservation purposes; and

(B) provide, subject to agreements that in the opinion of the Secretary will assure additional preservation of the lands and waters of the zone, such funds as may be necessary to retire bonded indebtedness for water and sewer and other utilities already incurred by property owners which in the opinion of the Secretary would if left outstanding contribute to further development of the zone in a manner inconsistent with the approved plan developed by the planning commission.

No grant for acquisition of land may be made under subparagraph (A) unless the Secretary receives satisfactory assurances that such lands acquired under subparagraph (A) shall not be converted to other than park, recreation, and conservation purposes without the approval of the Secretary and without provision for suitable replacement land.

(5) Grants under this section shall be made only upon application of the recipient State and shall be in addition to any other Federal financial assistance for any other program, and shall be subject to such terms and conditions as the Secretary deems necessary to carry out the purposes of this section. Any jurisdiction that implements changes to the approved plan which are inconsistent with the purposes of this section, or adopts or acquiesces in changes to laws, regulations or policies necessary to implement or protect the approved plan, without approval of the Secretary, may be liable for reimbursement of all funds previously granted or available to it under the terms of this section without regard to such additional terms and conditions or other requirements of law that may be applicable to such grants. During the life of the planning commission, changes to the plan must be submitted by the planning commission to the Secretary for approval. No such application for a grant may be made after the date five years from the date of the Secretary’s approval of the plan.

(o) Comments on undertakings prior to expenditure of Federal funds or issuance of licenses or permits

The head of any Federal agency having direct or indirect jurisdiction over a proposed Federal or federally assisted undertaking in the lands and waters within the Santa Monica Mountains Zone, generally depicted on the map referred to in subsection (c) of this section, and the head of any Federal agency having authority to license or permit any undertaking in such lands and wa-
ters shall, prior to the approval of the expenditure of any Federal funds on such undertaking, or prior to the issuance of any license or permit, as the case may be, afford the Secretary a reasonable opportunity to comment with regard to such undertaking and shall give due consideration to any comments made by the Secretary and to the effect of such undertaking on the findings and purposes of this section.

(p) State agency recommendations; consideration

The Secretary shall give full consideration to the recommendations of the California Department of Parks and Recreation, the Santa Monica Mountains Comprehensive Planning Commission, and the California Coastal Commission.

(q) Advisory Commission; establishment and termination; membership; term; notice, publication in newspapers; compensation and expenses; consultations of Secretary with Commission

(1) There is hereby established the Santa Monica Mountains National Recreation Area Advisory Commission (hereinafter referred to as the "Advisory Commission"). The Advisory Commission shall terminate ten years after the date of establishment of the recreation area.

(2) The Advisory Commission shall be composed of the following members to serve for terms of five years as follows:

(A) one member appointed by the Governor of the State of California;
(B) one member appointed by the mayor of the city of Los Angeles;
(C) one member appointed by the Board of Supervisors of Los Angeles County;
(D) one member appointed by the Board of Supervisors of Ventura County; and
(E) nine members appointed by the Secretary, one of whom shall serve as the Commission Chairperson.

(3) The Advisory Commission shall meet on a regular basis. Notice of meetings and agenda shall be published in local newspapers which have a distribution which generally covers the area. Commission meetings shall be held at locations and in such a manner as to insure adequate public involvement. Such locations shall be in the region of the Santa Monica Mountains and no more than twenty-five miles from it.

(4) Members of the Commission shall serve without compensation as such, but the Secretary may pay expenses reasonably incurred in carrying out their responsibilities under this Act on vouchers signed by the Chairperson.

(5) The Secretary, or his or her designee, shall from time to time but at least semiannually, meet and consult with the Advisory Commission on matters relating to the development of this recreation area and with respect to carrying out the provisions of this section.

(r) Authorization of appropriations for property acquisitions and State grants

There are authorized to be appropriated such sums as may be necessary for acquisition of lands and interests in land within the boundaries of the recreation area established under this section, but not more than $15,000,000 for fiscal year 1979, $40,000,000 for fiscal year 1980, $45,000,000 for fiscal year 1981, $10,000,000 for fiscal year 1982, and $15,000,000 for fiscal year 1983, such sums to remain available until expended. For grants to the State pursuant to subsection (n) of this section there are authorized to be appropriated not more than $10,000,000 for fiscal year 1979, $10,000,000 for fiscal year 1980, $5,000,000 for fiscal year 1981, and $5,000,000 for fiscal year 1982, such sums to remain available until expended. For the authorizations made in this subsection, any amounts authorized but not appropriated in any fiscal year shall remain available for appropriation in succeeding fiscal years.

(s) Authorization of appropriations for public facilities development

For the development of essential public facilities in the recreation area there are authorized to be appropriated not more than $500,000. The Congress expects that, at least until assessment of the report required by subsection (t) of this section, any further development of the area shall be accomplished by the State of California or local units of government, subject to the approval of the Director, National Park Service.

(t) General management plan; transmission to Congressional committees

Within two years from the date of establishment of the recreation area pursuant to this section, the Secretary shall, after consulting with the Advisory Commission, develop and transmit to the Committees referred to in subsection (c) of this section a general management plan for the recreation area consistent with the objectives of this section. Such plan shall indicate—

(1) a plan for visitor use including the facilities needed to accommodate the health, safety, education and recreation needs of the public;

(2) the location and estimated costs of all facilities;

(3) the projected need for any additional facilities within the area;

(4) any additions or alterations to the boundaries of the recreation area which are necessary or desirable to the better carrying out of the purposes of this section; and

SUBCHAPTER XCVI—RATTLESNAKE NATIONAL RECREATION AREA
§ 460l. Findings and declaration of policy

(a) The Congress finds that—
(1) certain lands on the Lolo National Forest in Montana have high value for watershed, water storage, wildlife habitat, primitive recreation, historical, scientific, ecological, and educational purposes. This national forest area has long been used as a wilderness by Montanans and by people throughout the Na-
tion who value it as a source of solitude, wild-
life, clean, free-flowing waters stored and used for municipal purposes for over a century, and primitive recreation, to include such activities as hiking, camping, backpacking, hunting, fishing, horse riding, and bicycling; and
(2) certain other lands on the Lolo National Forest, while not predominantly of wilderness quality, have high value for municipal water-
shed, recreation, wildlife habitat, and eco-
logical and educational purposes.

(b) Therefore, it is hereby declared to be the policy of Congress that, to further the purposes of the Wilderness Act of 1964 (16 U.S.C. 1131) and the National Forest Management Act of 1976 (16 U.S.C. 1600), the people of the Nation and Mont-
tana would best be served by national recreation area designation of the Rattlesnake area to in-
clude the permanent preservation of certain of these lands under established statutory designa-
tion as wilderness, and to promote the water-
shed, recreational, wildlife, and educational val-
ues of the remainder of these lands.

§ 460l–1. Rattlesnake Wilderness

(a) Designation of area
In furtherance of the purposes of the Wilder-
ness Act (78 Stat. 890; 16 U.S.C. 1131), certain lands within the Rattlesnake National Recre-
ation Area as designated by this subchapter, which comprise approximately 33,000 acres as generally depicted as the ‘Rattlesnake Wilder-
ness’ on a map entitled ‘‘Rattlesnake National Recreation Area and Wilderness—Proposed’’, and dated October 1, 1980, are hereby designated as wilderness and shall be known as the Rattle-
snake Wilderness.

(b) Administration
Subject to valid existing rights, the Rattle-
snake Wilderness as designated by this sub-
chapter shall be administered by the Secretary of Agriculture, hereafter referred to as the Sec-
retary, in accordance with the provisions of the Wilderness Act (16 U.S.C. 1131 et seq.) governing areas designated by that Act as wilderness: Pro-
duced, That any reference in such provisions to the effective date of the Wilderness Act shall be deemed to be a reference to the effective date of this subchapter.

REFERENCES IN TEXT

ment of Pub. L. 88–577, which enacted chapter 23 of this title.
The effective date of this subchapter, referred to in subsec. (b), means Oct. 19, 1980, the date of enact-
ment of Pub. L. 96–476, which enacted this subchapter.
§ 460ll–2. Rattlesnake National Recreation Area

An area of land as generally depicted as the “Rattlesnake National Recreation Area” on a map entitled “Rattlesnake National Recreation area and Wilderness—Proposed”, and dated October 1, 1980, is hereby established as the Rattlesnake National Recreation Area.

§ 460ll–3. Land acquisition and exchange

(a) Authority of Secretary of Agriculture

Within the boundaries of the Rattlesnake National Recreation Area and Rattlesnake Wilderness, the Secretary is authorized and directed to acquire with donated or appropriated funds including amounts appropriated from the Land and Water Conservation Fund, by exchange, gift, or purchase, such non-Federal lands, interests, or any other property, in conformance with the provisions of this section. Nothing in this subchapter shall be construed to limit or diminish the existing authority of the Secretary to acquire lands and interests therein within or contiguous to the Rattlesnake National Recreation Area or Rattlesnake Wilderness.

(b) Exchange of lands for bidding rights on coal lease sales or coal lease modifications; bidding rights as monetary credit; transfer or sale

(1) The Secretary of the Interior, in consultation with the Secretary of Agriculture, is authorized to consider and consummate an exchange with the owner of the private lands or interests therein within or contiguous to the boundaries of the Rattlesnake National Recreation Area and Rattlesnake Wilderness, as described in sections 460ll–1 and 460ll–2 of this title, by which the Secretary of the Interior may accept conveyance of title to these private lands for the United States and in exchange issue bidding rights that may be exercised in competitive coal lease sales, or in coal lease modifications, or both, under sections 2 and 3 of the Mineral Lands Leasing Act of 1920, as amended (30 U.S.C. 201(a), 203). Any lands so acquired shall become national forest lands under the jurisdiction of the Secretary of Agriculture to be managed in accordance with the provisions of this subchapter and other laws applicable to the management of national forest lands. Nothing in this subchapter shall be construed to limit or diminish any existing authority of the Secretaries of the Interior and Agriculture to acquire private lands and interests therein in the Rattlesnake National Recreation Area and Rattlesnake Wilderness. Nothing in this subchapter shall be construed to require any owner of the lands within or contiguous to the Rattlesnake National Recreation Area or Rattlesnake Wilderness to accept coal lease bidding rights in exchange for title to those private lands.

(2) The coal lease bidding rights to be issued may be exercised as payment of bonus or other payment required of the successful bidder for a competitive coal lease, or required of any applicant for a coal lease modification. The bidding rights shall equal the fair market value of the private lands or interests therein conveyed in exchange for their issuance. The use and exercise of the bidding rights shall be subject to the provisions of the Secretary of the Interior’s regulations governing coal lease bidding rights, to the extent that they are not inconsistent with this subchapter, that are in effect at the time the bidding rights are issued.

(3) If for any reason, including but not limited to the failure of the Secretary of the Interior to offer for lease lands in the Montana portion of the Powder River Coal Production Region as defined in the Federal Register of November 9, 1979 (44 F.R. 65196), or the failure of the holder of the bidding rights to submit a successful high bid for any such leases, any bidding rights issued in an exchange under this subchapter have not been exercised within two years from October 31, 1983, the bidding rights may be used as a monetary credit, which shall be considered “money” within the meaning of section 35 of the Mineral Lands Leasing Act of 1920 (30 U.S.C. 191), against that portion of bonus payments, rental or royalty payments paid into the Treasury of the United States and retained by the Federal Government on any Federal coal lease won or otherwise held by the applicant, its successors or assigns. The holder of the bidding rights shall pay the balance due on such bonus payments, rental or royalty payments in cash for transmission to the States in the same manner and in the same amounts as though the entire payment were made in cash under the provisions of the Mineral Lands Leasing Act of 1920 as amended [30 U.S.C. 181 et seq.]. The bidding rights may be transferred or sold at any time by the owner to any other party with all the rights of the owner to the credit, and after such transfer, the owner shall notify the Secretary.

(4) It is the intent of Congress that the exchange of bidding rights for the private lands or interests therein authorized by this subchapter shall occur within three years of October 19, 1980.

(5) In order to facilitate the exchange authorized by this subchapter, the Executive order captioned “Order of Withdrawal”, of June 6, 1929, creating “Coal Reserve No. 1, Montana, No. 1”, is hereby revoked to the extent that it constitutes a withdrawal of the lands therein from disposal under the Mineral Lands Leasing Act of 1920, as amended [30 U.S.C. 181 et seq.].

(c) Exchange of lands involving Burlington Northern, Inc.

The exchange of lands involving Burlington Northern, Inc. shall be in accordance with the agreement entitled “Statement of Intent” entered into by Burlington Northern, Inc. and the Regional Forester of the United States Forest Service, Region 1, signed September 18, 1980, and it is the intent of Congress that this exchange shall occur within three years of October 19, 1980.

(d) Non-Federal lands; water rights

(1) As non-Federal lands and interests in the Rattlesnake National Recreation Area are acquired, the lands shall become part of the Rattlesnake National Recreation Area. As non-Federal lands and interests in the Rattlesnake Wilderness are acquired, the lands shall become part of the Rattlesnake Wilderness. The Secretary shall publish from time to time a notice
of such classifications in the Federal Register. It is the intention of Congress that acquisition of the non-Federal lands shall be completed no later than three years after October 19, 1980.

(2) Nothing in this subchapter shall be construed to permit the Secretary to affect or diminish any water right which is vested under either State or Federal law on October 19, 1980, nor the rights of the owner of such water right to the customary and usual access, including necessary motorized use over and along existing roads and trails to any facilities used in connection therewith, and the right to operate and maintain such facilities.

(e) Exchange of land owned by Montana Power Company for bidding rights

The Secretary of the Interior, in consultation with the Secretary of Agriculture, shall consummate the exchange of the lands owned by the Montana Power Company within the boundaries of the Rattlesnake National Recreation Area and Rattlesnake Wilderness by issuing bidding rights to the Montana Power Company which shall equal the negotiated cash equivalent of the fair market value of such Montana Power Company lands, as provided in the agreement of April 4, 1983, signed by the authorized representatives of the Secretary of Agriculture, the Secretary of the Interior and the Montana Power Company, except that adjustments in the “Cash Equivalency Rate” referred to in said agreement shall not exceed a rate determined by the Secretary of the Interior taking into consideration the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the remaining period during which the bidding rights may be used.

§ 460ll–4. Filing of maps and descriptions

As soon as practicable after October 19, 1980, a map and legal description of the Rattlesnake National Recreational Area and a map and legal description of the Rattlesnake Wilderness shall be filed with the Committee on Interior and Insular Affairs of the House of Representatives and the Committee on Energy and Natural Resources of the United States Senate, and such maps and legal descriptions shall have the same force and effect as if included in this subchapter: Provided, however, That correction of clerical and typographical errors in such legal descriptions and maps may be made.

§ 460ll–5. Authorization of appropriations

Effective October 1, 1981, there is hereby authorized to be appropriated such funds as may be necessary to carry out the purposes of this subchapter.

§ 460mm. Establishment of conservation area

(a) In general

In order to provide for the immediate and future protection of the lands in Federal ownership within the framework of a program of multiple use and sustained yield and for the maintenance of environmental quality, the Steese National Conservation Area is hereby established.

(b) Boundaries; special values

§ 460mm–3. Rights of holders of unperfected mining claims
(a) “Unperfected mining claim” defined

The term “unperfected mining claim” as used in this section, means a mining claim which is located on lands within the boundaries of the White Mountains National Recreation Area or Steese National Conservation Area established pursuant to this subchapter with respect to which a valid mineral discovery within the meaning of the mining laws of the United States, was not made as of the date of the withdrawal of such area from further appropriation under the mining laws of the United States.

(b) Moratorium on contest proceedings

Any holder of an unperfected mining claim seeking to protect such claim pursuant to this section must have maintained and must continue to maintain such claim in compliance with applicable Federal and State laws, and where applicable, must have obtained and complied with any mining access permit requirements imposed by the Department of the Interior during the 1979 mining season. Prior to September 30, 1982, no unperfected mining claim
which has been maintained in accordance with this subsection shall be contested by the United States for failure to have made a valid mineral discovery within the meaning of the mining laws of the United States: Provided, That such claim shall be diligently prosecuted during this moratorium on contest proceedings as a condition for the moratorium. Any mining operation undertaken pursuant to this subsection, including but not limited to exploration, development, and extraction, shall be subject to such reasonable regulations as the Secretary may prescribe to assure that such operations will, to the maximum extent practicable, be consistent with protection of the scenic, scientific, cultural, and other resources of the Steese National Conservation Area or the White Mountains National Recreation Area or any affected conservation system units established or expanded by this Act.

(c) Valid mineral discovery

If the holder of an unperfected mining claim notifies the Secretary by filing an application for a patent that, as a result of mining operations in compliance with the requirements of subsection (b) of this section, he has made a valid mineral discovery of such claim within the meaning of the mining laws of the United States, and if the Secretary determines that such claim contains a valid mineral discovery, the holder of such claim shall be entitled to the issuance of a patent applying to such claim pursuant to the mining laws of the United States. The holder of such a patent shall also be entitled to the use of so much of the surface estate of the lands comprising the claim as may be necessary for mining purposes: Provided, That all mining operations conducted upon a claim after such a valid mineral discovery has been made, shall be in accordance with such reasonable regulations as may be issued by the Secretary pursuant to the authority granted in subsection (b) of this section.

(d) Validity determination

If an application for a patent is filed by the holder of an unperfected mining claim pursuant to subsection (c) of this section or if a contest proceeding is initiated by the United States after September 30, 1982, the validity of each claim shall be determined as of the date of the patent application or September 30, 1982, whichever is earlier, the holder of an unperfected mining claim not subject to a patent application filed prior to September 30, 1982, shall submit to the Secretary within one hundred and eighty days after such date all mineral data compiled during the contest proceeding moratorium which would support a valid mineral discovery within the meaning of the mining laws of the United States. Failure to submit such data within the one-hundred-and-eighty-day period shall preclude its consideration in a subsequent determination of the validity of such affected claim. Except as specifically provided for in this section, nothing shall alter the criteria applied under the general mining laws of the United States to adjudicate the validity of unperfected mining claims.

(e) Access to claims

Pursuant to the provisions of this section and section 3170 of this title, reasonable access shall be granted to an unperfected mining claim for purposes of making a valid discovery of mineral until September 30, 1982.

(f) Preference rights

The holder of any unperfected mining claim which was, prior to November 16, 1978, located, recorded, and maintained in accordance with applicable Federal and State laws on lands located within the boundaries of the Steese National Conservation Area, or the White Mountains National Recreation Area established by this subchapter, shall be entitled during a two-year period after the date that the Secretary exercises his authority under section 460mm–1 or 460mm–4 of this title to open an area containing such claim to mining, (1) to a preference right to re-record his claim under applicable law and to develop such claim under section 460mm–1 of this title or (2) to obtain a lease to remove nonleasable minerals from the claim under section 460mm–4 of this title.

Except as otherwise provided in this Act, the Secretary shall administer the recreation area in a manner which in his judgment will best provide for (1) public outdoor recreation benefits; (2) conservation of scenic, scientific, historic, fish and wildlife, and other values contributing to public enjoyment; and (3) such management, utilization, and disposal of natural resources and the continuation of such existing uses and developments as will promote, or are compatible with, or do not significantly impair public recreation and conservation of the scenic, scientific, historic, fish and wildlife, or other values contributing to public enjoyment. In administering the recreation area, the Secretary may utilize such statutory authorities available to him for the conservation and management of natural resources as he deems appropriate for recreation and preservation purposes and for resource development compatible therewith.
(b) Withdrawal of lands from selection and mining; exceptions

The lands within the recreation area, subject to valid existing rights, are hereby withdrawn from State selection under the Alaska Statehood Act or other law, and from location, entry, and patent under the United States mining laws. The Secretary under such reasonable regulations as he deems appropriate, may permit the removal of the nonleasable minerals from lands or interests in lands within the recreation area in the manner described by section 387 of title 43, and he may permit the removal of leasable minerals from lands or interests in lands within the recreation areas in accordance with the mineral leasing laws, if he finds that such disposition would not have significant adverse effects on the administration of the recreation areas.

SUBCHAPTER XCIX—ROBERT T. STAFFORD WHITE ROCKS NATIONAL RECREATION AREA

§ 460nn. Findings and purpose

(a) Congress finds that—

(1) Vermont is a beautiful but small and rural State, situated near four large cities with combined metropolitan populations of over fifteen million;

(2) geographic and topographic characteristics of Vermont provide opportunities for large numbers of people to experience the beauty of primitive areas, but also place unusual pressure to provide options to maximize the availability of such lands for a variety of forms of recreation;

(3) certain lands designated as the Big Branch and Peru Peak Wilderness Areas by title I of this Act are suitable for inclusion as part of the national recreation area; and

(4) certain other lands in the Green Mountain National Forest not designated as wilderness by this Act are of a predominantly roadless nature and possess outstanding wild values that are important for primitive and semi-primitive recreation, watershed protection, wildlife habitat, ecological study, education, and historic and archeological resources, and are deemed suitable for preservation and protection as part of a national recreation area.

(b) The purpose of this subchapter is to designate certain National Forest System lands in the State of Vermont as the Robert T. Stafford White Rocks National Recreation Area in order to preserve and protect their existing wilderness and wild values and to promote wild forest and aquatic habitat for wildlife, watershed protection, opportunities for primitive and semi-primitive recreation, and scenic, ecological, and scientific values.

Subchapter CIV—Klamath River Conservation Area

§ 460ss. Findings

The Congress finds that—

(1) the Klamath and Trinity Rivers have been placed under the California and National Wild and Scenic Rivers Systems to protect their outstanding anadromous fishery values;

(2) the Klamath and Trinity Rivers provide fishery resources necessary for Indian subsistence and ceremonial purposes, ocean commercial harvest, recreational fishing, and the economic health of many local communities;

(3) floods, the construction and operation of dams, diversions and hydroelectric projects, past mining, timber harvest practices, and roadbuilding have all contributed to sedimentation, reduced flows, and degraded water quality which has significantly reduced the anadromous fish habitat in the Klamath-Trinity River System;

(4) overlapping Federal, State, and local jurisdictions, inadequate enforcement of fishery harvest regulations, and ineffective fishery management have historically hampered fishery conservation efforts and prevented the Federal Government and the State of California from fulfilling their responsibilities to protect the rivers' anadromous fishery values;

(5) the Klamath-Trinity fall chinook salmon populations have declined by 80 percent from historic levels and steelhead trout have also undergone significant reductions;

(6) Klamath River Basin Fisheries Resource Plan has been developed by the Secretary acting through the Bureau of Indian Affairs;

(7) the Klamath Salmon Management Group, a group of agencies with fishery management responsibility, has established, in cooperation with the users of the Klamath-Trinity River Basin fishery resources, a sound framework for the future coordination of fishery harvest management;

(8) a new Klamath-Trinity River Basin Management authority, composed of the Klamath Salmon Management Group and representatives of users of the fishery resources of the Klamath-Trinity River Basin, is needed to ensure more effective long-term coordination of the Klamath-Trinity River fisheries under sound conservation and management principles that ensure adequate spawning escapement; and

(9) the Secretary has the authority to implement a restoration program only in the Trinity River Basin and needs additional authority to implement a restoration program in cooperation with State and local governments to restore anadromous fish populations to optimum levels in both the Klamath and Trinity River Basins; 1

(1) the control of fires and prevention of their spreading onto nearby private and Federal lands.

(b) Fire control; Memorandum of Agreement

The Secretary shall enter into a Memorandum of Agreement with local and State firefighting agencies and individuals to assure the best utilization of the firefighting resources available in the national recreation area for control of fire in the national recreation area.

(c) Hunting, fishing, and trapping

The Secretary shall permit hunting, fishing, and trapping on lands and waters under the Secretary's jurisdiction within the boundaries of the national recreation area designated by this subchapter in accordance with applicable laws of the United States and the State of Nebraska.

(d) Mining and mineral leasing laws

Subject to valid existing rights, all Federal lands within the national recreation area are hereby withdrawn from location, entry, and patent under the United States mining laws, and from disposition under all laws pertaining to mineral and geothermal leasing and all amendments thereto.

(e) State responsibilities with respect to wildlife and fish unaffected

Nothing in this subchapter shall be construed as affecting the jurisdiction or responsibilities of the State of Nebraska with respect to wildlife and fish in the national recreation area.

(f) Comprehensive management plan

Within eighteen months after October 20, 1986, the Secretary shall develop and submit to the Committee on Interior and Insular Affairs and the Committee on Agriculture of the United States House of Representatives and to the Committee on Energy and Natural Resources of the United States Senate a comprehensive management plan for the national recreation area designated by this subchapter.

(g) Public participation in development of management plan

In conducting the reviews and preparing the comprehensive management plan required by subsection (d) 1 of this section, the Secretary shall provide for full public participation, and shall consider the views of all interested agencies, organizations, and individuals.

§ 460uu–42. Acquisition of lands and interests

Within the monument and the conservation area, the Secretary is authorized to acquire lands and interests in lands by donation, purchase with donated or appropriated funds, exchange, or transfer from any other Federal agency, except that such lands or interests therein owned by the State of New Mexico or a political subdivision thereof may be acquired only by exchange. (B) that the exchange is in the public interest.

(b) Location of Federal mineral interests

The Federal mineral interests to be exchanged under this section underlie the lands, comprising approximately 15,008 acres, depicted as “Proposed for transfer to Santa Fe Pacific” on the map referenced in subsection (d) of this section.

(c) Temporary closure to public of lands for protection of religious activities

In order to implement this section and in furtherance of the American Indian Religious Freedom Act [42 U.S.C. 1996, 1996a], the Secretary, upon the request of an appropriate Indian tribe, may from time to time temporarily close to general public use one or more specific portions of the monument or the conservation area in order to protect the privacy of religious activities in such areas by Indian people. Any such closure shall be made so as to affect the smallest practicable area for the minimum period necessary for such purposes. Not later than seven days after the initiation of any such closure, the Secretary shall provide written notification of such action to the Energy and Natural Resources Committee of the United States Senate and the Natural Resources Committee of the House of Representatives.

SUBCHAPTER CVII—WINDING STAIR MOUNTAIN NATIONAL RECREATION AND WILDERNESS AREA

§ 460vv. Findings and purposes

(a) Findings

The Congress finds that—

(1) select areas of undeveloped National Forest System lands in the State of Oklahoma possess outstanding natural characteristics which give them high values as wilderness and will, if properly preserved, contribute as an enduring resource of wilderness for the benefit of the American people;

(2) the Department of Agriculture’s second roadless area review and evaluation (RARE II) and other studies of National Forest System lands in the State of Oklahoma and the related congressional review of such lands have identified areas which, on the basis of their landform, ecosystem, associated wildlife, and location, will help to fulfill the National Forest System’s share of a quality National Wilderness Preservation System;

(3) the Department of Agriculture’s second roadless area review and evaluation, of National Forest System lands in the State of Oklahoma and the related congressional review of such lands have also identified areas which do not possess outstanding wilderness attributes or which possess outstanding energy, mineral, timber, grazing, dispersed recreation and other values, and which should not be designated as components of the National Wilderness Preservation System but should be available for nonwilderness multiple uses under the land management planning process and other applicable laws;

(4) many areas of the Ouachita National Forest possess qualities that can only be suppressed and utilized in such a manner that designation of such areas as a national recreation area is appropriate for the maximum potential and enjoyment of the area by the American people;

(5) select areas possess unique plant and tree species and plant communities that are significant in their occurrence, variety and location and warrant designation as botanical areas; and

(6) select areas possess unique scenic and wildlife qualities that designation of such areas as a national scenic and wildlife area is appropriate for the preservation of the natural beauty and wildlife habitat for the enjoyment of the American people.

(b) Purposes

The purposes of this subchapter are to—

(1) designate certain National Forest System lands in the State of Oklahoma as components of the National Wilderness Preservation System, in order to promote, perpetuate, and preserve the wilderness character of the lands; protect watersheds and wildlife habitat, preserve scenic and historic resources, and promote scientific research, primitive recreation, solitude, physical and mental challenge, and inspiration for the benefit of all the American people, to a greater extent than is possible in the absence of wilderness designation; and to ensure that certain other National Forest System lands in the State of Oklahoma be available for nonwilderness multiple uses; and

(2) designate certain National Forest System lands in the State of Oklahoma as a national recreation area, 2 botanical areas, a national scenic area, and a national scenic and wildlife area in order to enhance and further certain natural resources characteristics.

(1) Certain lands in the Ouachita National Forest, Oklahoma, which comprise approxi-
mately 4,583 acres, as generally depicted on a map entitled “Black Fork Mountain Wilderness—Proposed”, dated March 1988, and which shall be known as the Black Fork Mountain Wilderness.

§ 460vv–4. Wilderness review

(a) Findings

The Congress finds that—

(1) the Department of Agriculture has completed the second roadless area review and evaluation program (RARE II); and

(2) the Congress has made its own review and examination of National Forest System roadless areas in Oklahoma and of the environmental impacts associated with alternative allocations of such areas.

(b) Congressional determination and direction

On the basis of such review, the Congress hereby determines and directs that—

(1) without passing on the questions of the legal and factual sufficiency of the RARE II Final Environmental Impact Statement (dated January 1979) with respect to National Forest System lands in States other than Oklahoma, such statement shall not be subject to judicial review with respect to National Forest System lands in the State of Oklahoma;

(2) with respect to the National Forest System lands in the State of Oklahoma which were reviewed by the Department of Agriculture in the second roadless area review and evaluation (RARE II) and those lands referred to in subsection (d) of this section, that review and evaluation or reference shall be deemed for the purposes of the initial land management plans required for such lands by the Forest and Rangeland Renewable Resources Planning Act of 1974 [16 U.S.C. 1600 et seq.], as amended by the National Forest Management Act of 1976, to be an adequate consideration of the suitability of such lands for inclusion in the National Wilderness Preservation System and the Department of Agriculture shall not be required to review the wilderness option prior to the revision of the plans, but shall review the wilderness option when the plans are revised, which revisions will ordinarily occur on a ten-year cycle, or at least every fifteen years, unless, prior to such time the Secretary of Agriculture finds that conditions in a unit have significantly changed;

(3) areas in the State of Oklahoma reviewed in such final environmental statement or referenced in subsection (d) of this section and not designated wilderness upon enactment of this subchapter shall be managed for multiple use in accordance with land management plans pursuant to section 6 of the Forest and Rangeland Renewable Resources Planning Act of 1974 [16 U.S.C. 1604], as amended by the National Forest Management Act of 1976, except that such areas need not be managed for the purpose of protecting their suitability for wilderness designation prior to or during revision of the initial land management plans;
in the event that revised land management plans in the State of Oklahoma are implemented pursuant to section 6 of the Forest and Rangeland Renewable Resources Planning Act of 1974 [16 U.S.C. 1604], as amended by the National Forest Management Act of 1976, and other applicable law, and areas recommended for wilderness designation need not be managed for the purpose of protecting their suitability for wilderness designation prior to or during revision of such plans, and areas recommended for wilderness designation shall be managed for the purpose of protecting their suitability for wilderness designation as may be required by the Forest and Rangeland Renewable Resources Planning Act of 1974 [16 U.S.C. 1600 et seq.], as amended by the National Forest Management Act of 1976, and other applicable law;

(5) unless expressly authorized by Congress, the Department of Agriculture shall not conduct any further statewide roadless area review and evaluation of the National Forest System lands in the State of Oklahoma for the purpose of determining their suitability for inclusion in the National Wilderness Preservation System.

(c) Use of term

As used in this section, and as provided in section 6 of the Forest and Rangeland Renewable Resources Planning Act of 1974 [16 U.S.C. 1604], as amended by the National Forest Management Act of 1976, the term "revision" shall not include an "amendment" to a plan.

(d) Application of provisions

The provisions of this section shall also apply to:

(1) those National Forest System roadless lands in the State of Oklahoma which were evaluated in the Rich Mountain and Beech Creek unit plans; and

(2) National Forest System roadless lands in the State of Oklahoma which are less than five thousand acres in size.

§ 460vv–5. Adjacent management

Congress does not intend that designation of wilderness areas in the State of Oklahoma lead to the creation of protective perimeters or buffer zones around each wilderness area. The fact that nonwilderness activities or uses can be seen or heard from areas within the wilderness shall not, of itself, preclude such activities or uses up to the boundary of the wilderness area.

§ 460vv–6. Winding Stair Mountain National Recreation Area

(a) Establishment

In order to ensure the conservation and protection of certain natural, scenic, historic, pastoral, and fish and wildlife values and to provide for the enhancement of the recreational values associated therewith, there is hereby established the Winding Stair Mountain National Recreation Area located in the Ouachita National Forest, Oklahoma.

(b) Area included

The Winding Stair Mountain National Recreation Area (hereafter in this subchapter referred to as the "recreation area") shall comprise approximately 26,445 acres as generally depicted on the map entitled "Winding Stair Mountain National Recreation Area—Proposed", dated March 1988, which shall be on file and available for public inspection in the Office of the Chief, Forest Service, Department of Agriculture.

(c) Maps and description

The Secretary of Agriculture (hereinafter in this section referred to as the "Secretary") shall, as soon as practicable after October 18, 1988, file a map and a legal description of the recreation area with the Committee on Interior and Insular Affairs and the Committee on Agriculture of the United States House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the United States Senate and each such map and legal description shall have the same force and effect as if included in this subchapter except that correction of clerical and typographical errors in such legal description and map may be made. The map and legal description shall be on file and available for public inspection in the Office of the Chief of the Forest Service, Department of Agriculture.

(d) Administration

The Secretary shall administer the recreation area in accordance with the laws, rules and regulations applicable to the national forests in such manner as will best further the purposes of this section, as set forth in subsection (a) of this section. Management and utilization of natural resources within the recreation area shall be permitted to the extent such management and utilization is compatible with and does not impair the purposes for which the recreation area is established.

(e) Timber management

Any sales of timber from within the recreation area shall be designed so as to not detract from the scenic values of the recreation area. Management practices that would detract from the scenic quality and natural beauty within view from the Talimena Drive or the Holson Valley Road shall not be conducted in the recreation area. Unevenaged timber management shall be
the timber management practice in the recreation area, except that the Secretary may use even-aged management practices in order to promote public safety, mitigate the effects of fire, insects, and disease, or allow scenic vistas and recreational development or if such practices result in irregular cuts behind geographic barriers blocking the view from the Talimena Drive and the Holson Valley Road.

CHANGE OF NAME

Committee on Interior and Insular Affairs of the House of Representatives changed to Committee on Natural Resources of the House of Representatives on Jan. 5, 1993, by House Resolution No. 5, One Hundred Third Congress.

The Secretary of Agriculture shall, as soon as practicable after October 18, 1988, file a map and a legal description of the botanical areas with the Committee on Interior and Insular Affairs and the Committee on Agriculture of the United States House of Representatives, the Committee on Agriculture, Nutrition, and Forestry of the United States Senate, and the Committee on Agriculture, Nutrition, and Forestry of the United States Senate. Each such map and legal description shall have the same force and effect as if included in this subchapter; except that correction of clerical and typographical errors in such legal description and map may be made. The map and legal description shall be on file and available for public inspection in the Office of the Chief of the Forest Service, Department of Agriculture.

§ 460yy–1 TITLe 16—CONSERvATION Page 728

(1) public use and development;
(2) historic and natural preservation; and
(3) private use subject to appropriate local ordinances designed to protect the historic rural setting.

(b) Transmittal of plan to Congress and State

Within eighteen months following November 18, 1988, the Secretary shall transmit the plan to the President of the Senate and the Speaker of the House of Representatives and to the Governor of the State of Idaho.

(e) Transfer of management and administration to State or local units of government

At such time as the State or appropriate units of local government having jurisdiction over land use within the reserve have enacted ordinances or established regulations which in the judgment of the Secretary will protect and preserve the historic and natural features of the area in accordance with the comprehensive plan, the Secretary shall, pursuant to cooperative agreement—

(1) transfer management and administration over all or any part of the property acquired under subsection (d) of this section to the State or appropriate units of local government;
(2) provide technical assistance to such State or units of local government in the management, protection, and interpretation of the reserve; and
(3) make periodic grants, which shall be supplemental to any other funds to which the grantee may be entitled under any other provision of law, to such State or local unit of government to carry out the purposes of this subchapter.

(d) Acquisition of land

(1) The Secretary is authorized to acquire such lands and interests as he determines are necessary to accomplish the purposes of this subchapter by donation, purchase with donated funds, or appropriated funds, or exchange, except that the Secretary may not acquire the fee simple title to any land without the consent of the owner. The Secretary shall, in addition, give prompt and careful consideration to any offer made by an individual owning property within the reserve to sell such property, if such individual notifies the Secretary that the continued ownership of such property is causing, or would result in, undue hardship.
(2) Lands and waters, and interests therein, within the boundaries of the reserve which were administered by the Forest Service, United States Department of Agriculture or the Bureau of Land Management, Department of the Interior prior to November 18, 1988, are hereby transferred to the administrative jurisdiction of the Secretary to be administered by the National Park Service in accordance with this subchapter.
(3) Lands and interest therein so acquired shall, so long as responsibility for management and administration remains with the United States, be administered by the Secretary subject to the provisions of sections 1, 2, 3, and 4 of this title, and in a manner consistent with the purpose of this subchapter.

If, upon the expiration of such one hundred and eighty-day period, the Secretary determines that such modifications have not been made or are inadequate, he shall withdraw the management and administration from the transferee and he shall manage such lands in accordance with the provisions of this subchapter.

(f) Water rights

The Congress recognizes that the management of this area may be transferred to the State of Idaho, that the State has committed to providing the water necessary to fulfill the purposes of this subchapter, and that there is little or no water or water-related resources that require the protection of a Federal reserved water right. Nothing in this subchapter, nor any action taken pursuant thereto, shall constitute either an express or implied reservation of water or water right for any purpose: Provided, That the United States shall retain that reserved water right which is associated with the initial establishment and withdrawal of the national forest lands which will be transferred to the Reserve under this subchapter.

(g) Withdrawal of lands from disposition under other laws

Subject to valid existing rights, Federal lands and interests therein, within the reserve, are hereby withdrawn from disposition under the public land laws and from entry or appropriation under the mining laws of the United States, from the operation of the mineral leasing laws of the United States, and from operation of the Geothermal Steam Act of 1970, as amended [30 U.S.C. 1001 et seq.].

(h) Authorization of appropriations

There is hereby authorized to be appropriated not to exceed $2,000,000 to carry out the provisions of this subchapter.

(d) Review of local plans

(1) Authority

For the purpose of protecting the integrity of the Area the Secretary shall cooperate and consult with the State and the appropriate political subdivisions to review all relevant local plans, laws and ordinances to determine whether they substantially conform to the plan approved pursuant to section 460zz–2 of this title. The Secretary shall enter into agreements with the State or its political subdivisions to provide, on behalf of the Secretary, professional services necessary for the review of such local plans, laws, and ordinances, and of amendments thereto and variances therefrom, and for the monitoring or the enforcement thereof by local governments having jurisdiction over any areas to which the management plan applies.

(2) Purpose

The purpose of review under paragraph (1) shall be to determine the degree to which actions by local governments are compatible with the purposes of this subchapter. Following the approval of the plan under section 460zz–2 of this title and after a reasonable period of time has elapsed, upon a finding by the Secretary that such plans, laws and ordinances are nonexistent, are otherwise not in conformance with the plan or are not being enforced in a manner consistent with the plan, and if the Secretary determines that there is no feasible alternative available to prevent uses which would be substantially incompatible with the plan, the Secretary may exercise the authority available to him under the provisions of paragraph (3).

(3) Enforcement

In those sections of the Area where local plans, laws and ordinances, or amendments thereto or variances therefrom are found by the Secretary not to be in conformance with the plan approved pursuant to section 460zz–2 of this title, or are not being enforced in a manner consistent with the plan, the Secretary shall notify the local government authority concerned. The Secretary may withhold from the local government authority concerned or, require reimbursement of, (A) Federal funds made available for implementation of the plan, or (B) any grant under section 460zz–5(a) of this title if the local plan, law, ordinance, amendment, or variance is not modified to conform with the plan and enforced in such manner as will carry out the purposes of this part. If the State has not initiated, within a 60-day period, such judicial or other action as necessary to ensure conformity with the plan, and if noncompliance with the plan or failure to enforce the plan continues after the end of such 60-day period, the Secretary may acquire, subject to appropriations, land or interests in land under this subsection without the consent of the owner thereof. Land and interests in land acquired pursuant to this subsection shall be restricted to the geographical area of the local government unit failing to conform with the plan and shall be limited to those lands clearly and directly required, in the judgment of the Secretary, for the protection of the Area in a manner compatible with the plan.

The Secretary may permit the owner or owners of any improved residential property acquired by the Secretary under this part to retain a right of use and occupancy of the property for noncommercial residential uses not incompatible with the plan approved under section 460zz–2 of this title. The provisions of subsection (c), (d), and (e) of section 460ii–1 of this title shall apply to the retention of such rights, except that for purposes of this part, the applicable date shall be January 1, 1987 in lieu of January 1, 1975 and the purposes of this part shall be substituted for the purposes referred to in section 460ii–1(d) of this title.

SUBCHAPTER CXII—GRAND ISLAND NATIONAL RECREATION AREA

§ 460aaa. Establishment

In order to preserve and protect for present and future generations the outstanding resources and values of Grand Island in Lake Superior, Michigan, and for the purposes of providing for the conservation, protection, and enhancement of its scenery, recreation, fish and wildlife, vegetation and historical and cultural resources, there is hereby established the Grand Island National Recreation Area (hereinafter referred to as the “national recreation area”). These resources and values include, but are not limited to, cliffs, caves, beaches, forested appearance, natural biological diversity, and features of early settlement.

§ 460aaa–1. Boundaries

The national recreation area shall comprise all of the Grand Island in Lake Superior, Michigan, and all associated rocks, pinnacles, and islands and islets within one-quarter mile of the shore of Grand Island. The boundaries of the Hiawatha National Forest are hereby extended to include all of the lands within the national recreation area. All such extended boundaries shall be deemed boundaries in existence as of January 1, 1965, for the purposes of section 460l–9 of this title. All federally owned lands within the national recreation area on May 17, 1990, are hereby components of the National Forest System and shall be administered by the Secretary of Agriculture as provided in this subchapter.

§ 460aaa–2. Administration

(a) Administration

Subject to valid existing rights, the Secretary of Agriculture (hereafter in this subchapter referred to as the “Secretary”) shall administer the national recreation area in accordance with the laws, rules, and regulations applicable to the National Forest System in furtherance of the purposes for which the national recreation area was established.

(b) Special management requirements

The national recreation area also shall be administered according to the following special management requirements:

(1) Subject to such terms and conditions as may be prescribed by the Secretary, including the protection of threatened and endangered species and the protection of other natural, cultural, and scenic values, owners of privately owned land and homes within the national recreation area shall be afforded access across National Forest System lands.

(2) Consistent with section 460aaa–6 of this title, and the purposes of this subchapter, the Secretary shall provide for and maintain traditional public access, including vehicular roads for general recreational activities such as camping, hiking, hunting, fishing, and trapping.

(3) The Secretary shall permit the use of snowmobiles on Federal lands in the national recreation area in accordance with the rules and regulations of the National Forest System and consistent with the management plan developed pursuant to section 460aaa–6 of this title. Such use shall be regulated to protect the resources of the national recreation area in a way that minimizes the degradation of these resources.

(4) Timber management shall be utilized only as a tool to enhance public recreation, scenic quality, game and nongame wildlife species, and the protection and enhancement of threatened, endangered, or sensitive species. Trees damaged or downed due to fire, insects, disease, or blowdown may be utilized, salvaged, or removed from the recreation area as authorized by the Secretary to further the purposes of the national recreation area.

(5) The Secretary shall, after acquiring fee title to at least 10,000 acres of land on Grand Island, provide reasonable water transportation from the mainland to Grand Island. Transportation may be provided through con-
cession, permit, or other means, and a reasonable charge may be imposed. Transportation shall be subject to reasonable regulation by the Secretary and shall not be required when the Secretary deems it to be unsafe because of factors such as weather and water conditions.

(6) The Secretary shall provide through concession, permit, or other means docking and lodge facilities consistent with the management plan developed pursuant to section 460aaa–6 of this title.

(7) The Secretary shall take reasonable actions to provide for public health and safety and for the protection of the national recreation area in the event of fire or infestation of insects or disease.

(8) Under the authority of the Act of March 4, 1915, as amended (16 U.S.C. 497), the Secretary shall, as a condition of acquisition, issue occupancy and use permits for any privately owned home as of the date of Federal acquisition of the land within the national recreation area on which the home is located. Any such permit shall be issued for an initial period of 20 years and shall be renewed thereafter for successive 20-year periods so long as the permittee is in compliance with the purposes of this subchapter, the terms of the permit, and other applicable rules and regulations. Any such permit shall be issued in accordance with the laws, rules, and regulations of the Secretary pertaining to the National Forest System, except that such permit shall be subject to the following special provisions:

(A) Such permit may only be issued to the owner of such home as of the date of Federal acquisition of the property, such owner’s spouse, the children, stepchildren, and grandchildren of such owner and spouse, and their direct lineal descendants (natural or adopted offspring).

(B) Only noncommercial recreation occupancy may be permitted.

(C) The Secretary shall collect fees on an annual basis based on the fair market value of the occupancy permitted.

(D) The expansion, remodeling, or reconstruction of such homes shall be subject to approval of and regulation by the Secretary. No expansion, remodeling, or reconstruction may increase the height of structure or result in an increase of more than 25 percent of the sum of the exterior dimensions of a structure as it existed on May 17, 1990. Any expansion, remodeling, or reconstruction shall be consistent with the criteria developed pursuant to section 460aaa–6(b)(4) of this title and shall be subject to such other terms and conditions as the Secretary may prescribe.

(E) Any such home may be purchased at the fair market value of the structure and improvements by the Secretary on a willing seller basis.

(F) The permit may be terminated at any time for failure to comply with its terms and conditions and applicable regulations without cost to the Federal Government in accordance with the permit.

(G) After termination of any such permit, if any improvements or property are not removed by their owner within one year of the termination, they shall become the property of the Federal Government.

(9) Solely for purposes of payments pursuant to section 6904 of title 31, lands on Grand Island acquired by the United States after January 1, 1990 shall be considered to have been acquired for addition to a National Forest Wilderness Area (national forest portion of the National Wilderness Preservation System).

(4) careful development and utilization at mutually compatible levels of recreation, fish-
eries, and timber resources on public lands will ensure the continuation of the Smith River watershed’s historic role as a significant contributor to the region’s local economy; and (5) protection of the Smith River’s unique values can be enhanced by a cooperative effort by Federal, State and local governments to coordinate land-use planning, management, and development of Federal and non-Federal lands throughout the watershed.

§ 460bbb–2. Establishment

(a) In general

For the purposes of ensuring the preservation, protection, enhancement, and interpretation for present and future generations of the Smith River watershed’s outstanding wild and scenic rivers, ecological diversity, and recreation opportunities while providing for the wise use and sustained productivity of its natural resources, there is hereby established the Smith River National Recreation Area.

(b) Boundaries

(1) The recreation area shall consist of those lands within the area generally depicted on the map entitled “Proposed Smith River National Recreation Area” and dated July 1990. The map shall be on file and available for public inspection in the Office of the Chief, Forest Service, Department of Agriculture. The Secretary may, by publication of availability of a revised map and after public comment, make corrections or minor changes to the boundary of the recreation area.

(2) The exterior boundary of the recreation area, as generally depicted on the map, shall encompass the recreation area and the four excluded areas.

(c) Boundary modification

The boundaries of the Six Rivers National Forest are hereby modified as generally depicted on the map referred to in subsection (b) of this section. A map and legal description of the boundary of the Six Rivers National Forest as modified by this subsection shall be on file and available for public inspection in the Office of the Chief, Forest Service, and the Office of the Forest Supervisor of the Six Rivers National Forest.

(d) Transfer

The federally owned lands within the recreation area administered by the Secretary of the Interior on November 16, 1990, comprising approximately 20 acres, are hereby transferred to the jurisdiction of the Secretary of Agriculture and shall be managed in accordance with the laws applicable to the National Forest System and this subchapter.

§ 460bbb–3. Administration

(a) In general

The Secretary shall administer the recreation area in accordance with this subchapter and the laws, rules, and regulations applicable to the National Forest System in furtherance of the purposes for which the recreation area was established. In administering the recreation area, the Secretary shall, consistent with the applicable area management emphasis provided under subsection (b) of this section, undertake the following:

(1) Provide for a broad range of recreational uses and provide recreational and interpretive services and facilities (including trails and campgrounds) for the public.

(2) Provide and maintain adequate public access, including vehicular roads for general recreational activities such as camping, hiking, hunting, and fishing.

(3) Improve the anadromous fishery and water quality, including (but not limited to) stabilizing landslides, improving fish spawning and rearing habitat, and placing appropriate restrictions or limitations on soil disturbing activities.

(4) Permit the use of off-road vehicles only on designated routes.

(5) Provide for public health and safety and for the protection of the recreation area in the event of fire or infestation of insects or disease.

(6) Permit programmed timber harvest only in those management areas where timber harvest is specifically authorized by subsection (b) of this section. Timber management in these areas shall incorporate the use of strategies to reduce habitat fragmentation and em-
ploy silvicultural prescriptions designed to maintain or enhance biological diversity and wildlife habitats (such as retention of standing green trees, snags, and other coarse woody debris) by providing for a high level of structural and compositional diversity in managed stands.

(7) Permit removal of trees within streamside protection zones along those rivers and river segments specified in section 460bb-8 of this title only when necessary for human health and safety, to maintain trails or existing roads, for the development of recreation or other facilities, for the protection of the recreation area in the event of fire, or to improve fish and wildlife habitat.

(8) Consistent with applicable requirements of law, permit removal of trees in those management areas where timber harvest is not specifically authorized by subsection (b) of this section when necessary for human health and safety, to maintain trails or existing roads, for the development of recreation or other facilities, for the protection of the recreation area in the event of fire, or to improve fish and wildlife habitat. Timber damaged or down in these areas as a result of fire, insects, disease, blowdown or other natural events shall otherwise be retained in its natural condition, with removal permitted only upon a written determination by the Secretary, based upon written findings, that such removal is necessary to provide for or maintain or enhance biological and ecological diversity, without regard for the commodity value of the timber. Such a decision shall not be delegable by the Secretary but shall be subject to administrative appeal and judicial review.

(9) Provide for the long-term viability and presence of Port-Orford-cedar and ensure its continued present economic and noneconomic uses through implementation of management strategies developed by the Forest Service.

(10) Except where timber harvest is specifically authorized by subsection (b) of this section protect, preserve, and increase old growth forest habitat in the recreation area.

(11) Provide for the restoration of landscapes damaged by past human activity consistent with the purposes of this subchapter.

(2) The Secretary shall administer each management area within the recreation area in accordance with the following:

(A) The management emphasis for the North Fork management area shall be on back-country and whitewater recreation, while recognizing unique botanic communities, outstanding whitewater, and historic and scenic values.

(B) The management emphasis for the Upper Middle Fork management area shall be on providing and maintaining ecologic and biologic diversity. Timber harvest shall be permitted, consistent with subsection (a)(6) of this section, only in existing plantations.

(C) The management emphasis for the Middle Fork-Highway 199 management area shall be on maintaining wildlife values and providing for a full range of recreation uses, with particular emphasis on the scenic and recreation values associated with the Smith River, old growth redwoods, and California State Highway 199.

Timber harvests based on uneven-aged management with extended rotations shall be allowed where consistent with protection of the scenic values of the recreation area.

(F) The management emphasis for the Lower Hurdygurdy Creek management area shall be on maintenance of wildlife values while providing rustic family and group recreation facilities for fishing, swimming, hunting, and camping. Timber harvests based on uneven-aged management with extended rotations shall be allowed where consistent with protection of scenic and wildlife values.

(G) The management emphasis for the prescribed timber management area shall be on providing a sustained yield of wood products while maintaining biological and ecological diversity.

(H) The management of the Siskiyou Wilderness management area shall be pursuant to the provisions of the Wilderness Act (16 U.S.C. 1131 et seq.), the Gasquet-Orleans Road corridor between the eastern edge of section 36, T. 14 N., R. 3 E, and the corridor’s eastern terminus in the middle of section 26, T. 14 N., R. 4 E. shall be added to the Siskiyou Wilderness.

(c) Wild and scenic rivers

The river segments designated as wild and scenic rivers by the amendments made by section 10(b) of this Act shall be administered in accordance with this subchapter and the Wild and Scenic Rivers Act (16 U.S.C. 1271 et seq.). For purposes of section 460l–9 of this title, where such boundaries are established for units of the National Forest System, such established boundaries shall be treated as if they were the boundaries of the National Forests as of January 1, 1965. Money appropriated from the Land and Water Conservation Fund shall be available for the acquisition of lands and interests therein in furtherance of the purposes of this subchapter.

§ 460hhh–6. Withdrawal

(a) In general

Subject to valid existing rights and except for lands described in subsection (b) of this section, all Federal lands within the Recreation Area are withdrawn from—

(1) all forms of entry, appropriation, or disposal under the public land laws;

(2) location, entry, and patent under the mining laws; and

(3) operation under the mineral leasing and geothermal leasing laws.

(b) Exception

The lands referred to in subsection (a) of this section are described as follows:

W½E½ and W½, Sec. 27, T23S, R58E, Mt. Diablo Meridian.

§ 460hhh–7. Cooperative agreements

In order to encourage unified and cost-effective management and interpretation of natural and cultural resources in southern Nevada, the Secretary may enter into cooperative agreements with other Federal, State, and local agencies, and with nonprofit entities, that provide for the management and interpretation of natural and cultural resources.

§ 460hhh–8. Authorization of appropriations

There are authorized to be appropriated such sums as may be necessary to carry out this subchapter.

SUBCHAPTER CXX—MORLEY NELSON SNAKE RIVER BIRDS OF PREY NATIONAL CONSERVATION AREA

§ 460iii. Findings

The Congress finds the following:

(1) The public lands managed by the Bureau of Land Management in the State of Idaho within the Snake River Birds of Prey Area contain one of the densest known nesting populations of eagles, falcons, owls, hawks, and other birds of prey (raptors) in North America.

(2) These public lands constitute a valuable national biological and educational resource since birds of prey are important components of the ecosystem and indicators of environmental quality, and contribute significantly to the quality of wildlife and human communities.

(3) These public lands also contain important historic and cultural resources (including significant archaeological resources) as well as other resources and values, all of which should be protected and appropriately managed.

(4) A military training area within the Snake River Birds of Prey Area, known as the Orchard Training Area, has been used since 1953 by reserve components of the Armed Forces. Military use of this area is currently governed by a Memorandum of Understanding between the Bureau of Land Management and the State of Idaho Military Division, dated May 1985. Operating under this Memorandum of Understanding, the Idaho National Guard has provided valuable assistance to the Bureau of Land Management with respect to fire control and other aspects of management of the Orchard Training Area.

(5) Protection of the conservation area as a home for raptors can best and should be accomplished by the Secretary of the Interior, acting through the Bureau of Land Management, under a management plan that—
(A) emphasizes management, protection, and rehabilitation of habitat for these raptors and of other resources and values of the area;

(B) provides for continued military use, consistent with the requirements of section 460iii–3(e) of this title, of the Orchard Training Area by reserve components of the Armed Forces;

(C) addresses the need for public educational and interpretive opportunities;

(D) allows for diverse appropriate uses of lands in the area to the extent consistent with the maintenance and enhancement of raptor populations and habitats and protection and sound management of other resources and values of the area; and

(E) demonstrates management practices and techniques that may be useful to other areas of the public lands and elsewhere.

(6) There exists near the conservation area a facility, the World Center for Birds of Prey operated by The Peregrine Fund, Inc., where research, public education, recovery, and reestablishment operations exist for endangered raptor species. There also exists at Boise State University a raptor study program which attracts national and international graduate and undergraduate students.

(7) The Bureau of Land Management and Boise State University, together with other State, Federal, and private entities, have formed the Raptor Research and Technical Assistance Center to be housed at Boise State University, which provides a unique adjunct to the conservation area for raptor management, recovery, research, and public visitation, interpretation, and education.

(8) Consistent with requirements of sections 1712 and 1732 of title 43, the Secretary has developed a comprehensive management plan and, based on such plan, has implemented a management program for the public lands included in the conservation area established by this subchapter.

(9) Additional authority and guidance must be provided to assure that essential raptor habitat remains in public ownership, to facilitate sound and effective planning and management, to provide for effective public interpretation and education, to ensure continued study of the relationship of humans and these raptors, to preserve the unique and irreplaceable habitat of the conservation area, and to conserve and properly manage the other natural resources of the area in concert with maintenance of this habitat.

(10) An ongoing research program funded by the Bureau of Land Management and the National Guard is intended to provide information to be used in connection with future decisionmaking concerning management of all uses, including continued military use, of public lands within the Snake River Birds of Prey Area.

(11) Public lands in the Snake River Birds of Prey Area have been used for domestic livestock grazing for more than a century, with resultant benefits to community stability and contributions to the local and State economies. It has not been demonstrated that continuation of this use would be incompatible with appropriate protection and sound management of raptor habitat and the other resource values of these lands; therefore, subject to the determination provided for in section 460iii–3(f) of this title, it is expected that such grazing will continue in accordance with applicable regulations of the Secretary and the management plan for the conservation area.

(12) Hydroelectric facilities for the generation and transmission of electricity exist within the Snake River Birds of Prey Area pursuant to a license(s) issued by the Federal Energy Regulatory Commission, or its predecessor, the Federal Power Commission.

(2) Except as otherwise specifically provided in section 460iii–2(d) of this title and subsections (d), (e), and (f) of this section, the Secretary shall allow only such uses of lands in the conservation area as the Secretary determines will further the purposes for which the conservation area is established.

(b) Management guidance

After each review pursuant to subsection (a) of this section, the Secretary shall make such revisions as may be needed so that the plan and management program to implement the plan include, in addition to any other necessary or appropriate provisions, provisions for—

c) Visitors center

The Secretary, acting through the Director of the Bureau of Land Management, is authorized to establish, in cooperation with other public or private entities as the Secretary may deem appropriate, a visitors center designed to interpret the history and the geological, ecological, natural, cultural, and other resources of the conservation area and the biology of the raptors and their relationships to man.

d) Visitors use of area

In addition to the visitors center, the Secretary may provide for visitor use of the public lands in the conservation area to such extent and in such manner as the Secretary considers consistent with the protection of raptors and raptor habitat, public safety, and the purposes for which the conservation area is established. To the extent practicable, the Secretary shall make available to visitors and other members of the public a map of the conservation area and such other educational and interpretive materials as may be appropriate.

e) National Guard use of area

(1) Pending completion of the ongoing research concerning military use of lands in the conservation area, or until the date 5 years after August 4, 1993, whichever is the shorter period, the Secretary shall permit continued military use of those portions of the conservation area known as the Orchard Training Area in accordance with the Memorandum of Understanding, to the extent consistent with the use levels identified pursuant to subsection (b)(2) of this section.

(5) After completion of the ongoing research concerning military use of lands in the Orchard Training Area or after the date 5 years after August 4, 1993, whichever first occurs, the Secretary shall continue to permit military use of such lands, unless the Secretary, on the basis of such research, determines such use is not compatible with the purposes set forth in section 460iii−2(a)(2) of this title. Any such use thereafter shall be permitted in accordance with the Memorandum of Understanding, which may be extended or renewed by the Secretary so long as such use continues to meet the requirements of subsection (b)(2) of this section.

(6) In accordance with the Memorandum of Understanding, the Secretary shall require the State of Idaho Military Division to insure that military units involved maintain a program of decontamination.

(7) Nothing in this subchapter shall be construed as by itself precluding the extension or renewal of the Memorandum of Understanding, or the construction of any improvements or buildings in the Orchard Training Area so long as the requirements of this subsection are met.

f) Livestock grazing

(1) So long as the Secretary determines that domestic livestock grazing is compatible with the purposes for which the conservation area is established, the Secretary shall permit such use of public lands within the conservation area, to the extent such use of such lands is compatible with such purposes. Determinations as to compatibility shall be made in connection with the initial revision of management plans for the conservation area and in connection with each plan review required by subsection (a)(1)(B) of this section.

(2) Any livestock grazing on public lands within the conservation area, and activities the Secretary determines necessary to carry out proper and practical grazing management programs on such lands (such as animal damage control activities) shall be managed in accordance with the Act of June 28, 1934 (43 U.S.C. 315 et seq.; commonly referred to as the "Taylor Grazing Act"), section 1752 of title 43, other laws applicable to such use and programs on the public lands, and the management plan for the conservation area.

The Secretary is authorized to provide technical assistance to, and to enter into such cooperative agreements and contracts with, the State of Idaho and with local governments and
private entities as the Secretary deems necessary or desirable to carry out the purposes and policies of this subchapter.

(h) Agricultural practices

Nothing in this subchapter shall be construed as constituting a grant of authority to the Secretary to restrict recognized agricultural practices or other activities on private land adjacent to or within the conservation area boundary.

(i) Hydroelectric facilities

Notwithstanding any provision of this subchapter, or regulations and management plans undertaken pursuant to its provisions, the Federal Energy Regulatory Commission shall retain its current jurisdiction concerning all aspects of the continued and future operation of hydroelectric facilities, licensed or relicensed under the Federal Power Act (16 U.S.C. 791a et seq.), located within the boundaries of the conservation area.

(c) Land exchanges

The Secretary shall, within 4 years after August 4, 1993, study, identify, and initiate voluntary land exchanges which would resolve ownership related land use conflicts within the conservation area.

§460iii–5. Other laws and administrative provisions

(a) Other laws

(1) Nothing in this subchapter shall be construed to supersede, limit, or otherwise affect administration and enforcement of the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.) or to limit the applicability of the National Trails System Act (16 U.S.C. 1241 et seq.) to any lands within the conservation area.

(2) Except as otherwise specifically provided in this subchapter, nothing in this subchapter shall be construed as limiting the applicability to lands in the conservation area of laws applicable to public lands generally, including but not limited to the National Historic Preservation Act [16 U.S.C. 470 et seq.], the Archaeological Resources Protection Act of 1979 [16 U.S.C. 470aa et seq.], or the Native American Graves Protection and Repatriation Act [25 U.S.C. 3001 et seq.].

(b) Release

The Congress finds and directs that the public lands within the Snake River Birds of Prey Natural Area established as a natural area in October 1971 by Public Land Order 5133 have been adequately studied and found unsuitable for wilderness designation pursuant to section 1782 of title 43. Such lands are hereby released from fur-

(d) Water

(1) The Congress finds that the United States is currently a party in an adjudication of rights to waters of the Snake River, including water rights claimed by the United States on the basis of the reservation of lands for purposes of conservation of fish and wildlife and that consequently there is no need for this subchapter to affect a reservation by the United States of rights with respect to such waters in order to fulfill the purposes for which the conservation area is established.

(2) Nothing in this subchapter or any action taken pursuant thereto shall constitute either an expressed or implied reservation of water or water rights for any purpose.

(3) Nothing in this subchapter shall be construed as effecting a relinquishment or reduction of any of the water rights held or claimed by the United States within the State of Idaho or elsewhere on or before August 4, 1993.

Subchapter CXXI—Jemez National Recreational Area

§ 460jjj. Establishment

(a) In general

In order to conserve, protect, and restore the recreational, ecological, cultural, religious, and wildlife resource values of the Jemez Mountains, there is hereby established the Jemez National Recreational Area (hereinafter in this subchapter referred to as the “recreation area”), to be administered by the Secretary of Agriculture (hereinafter in this subchapter referred to as the “Secretary”).

(b) Area included

The recreation area shall be comprised of approximately 57,000 acres of lands and interests in lands within the Santa Fe National Forest as generally depicted on the map entitled “Jemez National Recreation Area—Proposed” and dated September 1992. (c) Map and description

As soon as practicable after October 12, 1993, the Secretary shall file a map and legal description of the recreation area with the Committee on Natural Resources of the House of Representatives and with the Committee on Energy and Natural Resources and the Committee on Indian Affairs of the Senate. Such map and legal description shall have the same force and effect as if included in this subchapter, except that correction of clerical and typographical errors in such legal description and map may be made. Such map and legal description shall be on file and available for public inspection in the Office of the Chief of the Forest Service, Department of Agriculture.

(d) No additional lands

No lands or interests therein outside of the boundaries of the recreation area may be added to the recreation area without specific authorization by Congress.

Amendments

§ 460jjj–1. Administration

(a) In general

The Secretary shall administer the recreation area in accordance with this subchapter and the
laws, rules, and regulations applicable to National Forest System lands in a manner that will further the purposes of the recreation area. Management of the natural resources within the recreation area shall be permitted only to the extent that such management is compatible with and does not impair the purposes for which the recreation area is established. Recreational activities within the recreation area shall include (but not be limited to) hiking, camping, hunting, fishing, skiing, backpacking, rock climbing, and swimming.

(b) Management plan

The Secretary shall, no later than 5 years after October 12, 1993, develop a management plan for the recreation area, as an amendment to the Santa Fe National Forest Land and Resource Management Plan, to reflect the establishment of the recreation area and to conform to the provisions of this subchapter. Nothing in this subchapter shall require the Secretary to revise the Santa Fe Forest Land and Resource Management Plan pursuant to section 1604 of this title. During development of the management plan for the recreation area, the Secretary shall study newly designated land within the recreation area, and adjacent national forest land.

(c) Cultural resources

(d) Native Americans

(1) In recognition of the historic use of portions of the recreation area by Indian peoples for traditional cultural and customary uses, the Secretary shall, subject to the provisions of subsection (n) of this section in consultation with local tribal leaders, ensure the protection of religious and cultural sites and provide access from time to time to those sites by Indian peoples for traditional cultural and customary uses. Such access shall be consistent with the purpose and intent of the Act of August 11, 1978 [42 U.S.C. 1996, 1996a] (commonly referred to as the “American Indian Religious Freedom Act”). The Secretary, in accordance with such Act, upon request of an Indian tribe or pueblo, may from time to time temporarily close to general public use one or more specific portions of the recreational area in order to protect traditional and customary uses in such portions by Indian peoples.

(2) In preparing and implementing management plans for the recreation area, the Secretary shall request that the Governor of the Pueblo of Jemez and the chief executive officers of other appropriate Indian tribes and pueblos make recommendations on methods of—

(A) assuring access to religious and cultural sites;

(B) enhancing the privacy and continuity of traditional cultural and religious activities in the recreation area; and

(C) protecting traditional cultural and religious sites in the recreation area.

(e) Wildlife resources

In administering the recreation area, the Secretary shall give particular emphasis to the conservation and protection of wildlife resources, including species listed as sensitive by the Forest Service, within the recreation area and shall comply with applicable Federal and State laws relating to wildlife, including the Endangered Species Act of 1973 [16 U.S.C. 1531 et seq.].

(f) Hunting

The Secretary shall permit hunting and fishing on lands and waters under the jurisdiction of the Secretary within the recreation area in accordance with applicable Federal and State laws.

(g) Timber harvesting

The Secretary may permit timber harvesting in the recreation area for commercial purposes, including (but not limited to) vigas, latillas, the gathering of fuelwood, and for purposes of public safety, recreation, wildlife, and administration, insofar as the harvesting is compatible with the purposes of the recreation area. Trees damaged or downed due to fire, disease, or insect infestation may be utilized, salvaged, or removed from the recreation area as authorized by the Secretary in furtherance of the purposes of this subchapter. Nothing in this subchapter shall be construed to affect the timber sales under contract on October 12, 1993. Nothing in this subchapter shall be construed to effect the Los Griegos timber sale in the Los Griegos Diversity Unit number 0322 as shown on the West Half Diversity Unit map of the Santa Fe National Forest dated November 1991; except that the Secretary shall manage such sale using uneven aged management including the individual tree selection method.

(h) Grazing

The Secretary may permit grazing within the recreation area in accordance with regulations prescribed by the Secretary. Riparian areas shall be managed in such a manner as to protect their important resource values.

(i) Transportation plan

(1) Within 1 year after October 12, 1993, the Secretary shall prepare a transportation plan that provides for the most efficient use of roads and trails to accomplish the purposes of this subchapter. The plan shall provide for a comprehensive trails system that provides for dispersed recreation while minimizing impact on significant archaeological and religious sites.

(2) The Secretary shall construct, maintain, and close roads within the recreation area after consultation with local tribal leaders and only in accordance with such plan.

(j) Recreational facilities

The Secretary shall provide for recreational facilities within the recreation area. Such facilities shall be constructed so as to minimize impacts on the scenic beauty, the natural character, and the archaeological and religious sites of the recreation area.
(k) Visitor facilities
The Secretary shall establish a visitor center and interpretive facilities in or near the recreation area for the purpose of providing for education relating to the interpretation of cultural and natural resources of the recreation area.

(l) Power transmission lines
In accordance with Federal and State laws and regulations, the Secretary may permit a utility corridor for high power electric transmission lines within the recreation area only when the Secretary determines that—
(1) there is not a feasible alternative for the location of such corridor;
(2) damage to the recreational and scenic quality and to the archaeological and religious sites of the recreation area will not be significant;
(3) it is in the public interest that such corridor be located in the recreation area; and
(4) a plan to minimize harm to the resources of the recreation area has been developed.

(m) Scientific investigations
The Secretary may permit scientific investigations within the recreation area upon the Secretary’s determination that such investigations are in the public interest and are compatible with the purposes of this subchapter.

(n) Resource protection
The Secretary may designate zones where, and establish periods when, any activity otherwise permitted in the recreation area will not be permitted for reasons of public safety, administration, fish and wildlife management, protection of archaeological or cultural resources, or public use and enjoyment. Except in emergencies such designations by the Secretary shall be put into effect only after consultation with the appropriate State agencies, appropriate tribal leaders, and other affected parties.

(h) Management plan

(1) In general

Not later than 3 years after October 24, 2000, the Secretary shall develop a comprehensive management plan for the long-range protec-
tion and management of the Conservation Area and the Wilderness and the lands described in paragraph (2)(E).

(2) Purposes

The management plan shall—
(A) describe the appropriate uses and management of the Conservation Area and the Wilderness;
(B) take into consideration any information developed in studies of the land within the Conservation Area or the Wilderness;
(C) provide for the continued management of the utility corridor, Black Ridge Communications Site, and the Federal Aviation Administration site as such for the land designated on the Map as utility corridor, Black Ridge Communications Site, and the Federal Aviation Administration site;
(D) take into consideration the historical involvement of the local community in the interpretation and protection of the resources of the Conservation Area and the Wilderness, as well as the Ruby Canyon/Black Ridge Integrated Resource Management Plan, dated March 1998, which was the result of collaborative efforts on the part of the Bureau of Land Management and the local community; and
(E) include all public lands between the boundary of the Conservation Area and the edge of the Colorado River and, on such lands, the Secretary shall allow only such recreational or other uses as are consistent with this subchapter.

(i) No buffer zones

The Congress does not intend for the establishment of the Conservation Area or the Wilderness to lead to the creation of protective perimeters or buffer zones around the Conservation Area or the Wilderness. The fact that there may be activities or uses on lands outside the Conservation Area or the Wilderness that would not be allowed in the Conservation Area or the Wilderness shall not preclude such activities or uses on such lands up to the boundary of the Conservation Area or the Wilderness consistent with other applicable laws.

(1) Findings

Congress finds that—

(A) the lands designated as wilderness by this subchapter are located at the headwaters of the streams and rivers on those lands, with few, if any, actual or proposed water resource facilities located upstream from such lands and few, if any, opportunities for diversion, storage, or other uses of water occurring outside such lands that would adversely affect the wilderness or other values of such lands;
(B) the lands designated as wilderness by this subchapter generally are not suitable for use for development of new water resource facilities, or for the expansion of existing facilities;
(C) it is possible to provide for proper management and protection of the wilderness and other values of such lands in ways different from those utilized in other legislation designating as wilderness lands not sharing the attributes of the lands designated as wilderness by this subchapter.

(2) Statutory construction

(A) Nothing in this subchapter shall constitute or be construed to constitute either an express or implied reservation of any water or water rights with respect to the lands designated as a national conservation area or as wilderness by this subchapter.
(B) Nothing in this subchapter shall affect any conditional or absolute water rights in the State of Colorado existing on October 24, 2000.

(4) New projects

Such term does not include any such facilities related to or used for the purpose of livestock grazing.
(B) Except as otherwise provided by subsection (g) of this section or other provisions of this subchapter, on and after October 24, 2000, neither the President nor any other officer, employee, or agent of the United States shall fund, assist, authorize, or issue a license or permit for the development of any new water resource facility within the wilderness area designated by this subchapter.
(C) Except as provided in this paragraph, nothing in this subchapter shall be construed
§ 460mmm–5  TITLE 16—CONSERVATION  Page 782
to affect or limit the use, operation, maintenance, repair, modification, or replacement of water resource facilities in existence on October 24, 2000, within the boundaries of the Wilderness.

(5) Boundaries along Colorado River

(A) Neither the Conservation Area nor the Wilderness shall include any part of the Colorado River to the 100-year high water mark.

(B) Nothing in this subchapter shall affect the authority that the Secretary may or may not have to manage recreational uses on the Colorado River, except as such authority may be affected by compliance with paragraph (3).

Nothing in this subchapter shall be construed to affect the authority of the Secretary to manage the public lands between the boundary of the Conservation Area and the edge of the Colorado River.

(C) Subject to valid existing rights, all lands owned by the Federal Government between the 100-year high water mark on each shore of the Colorado River, as designated on the Map from the line labeled “Line A” on the east to the boundary between the States of Colorado and Utah on the west, are hereby withdrawn from—

SUBCHAPTER CXXVII—BLACK ROCK DESERT-HIGH ROCK CANYON EMIGRANT TRAILS NATIONAL CONSERVATION AREA

§ 460pp–1. Definitions

As used in this subchapter:

(1) The term “Secretary” means the Secretary of the Interior.

(2) The term “public lands” has the meaning stated in section 1702(e) of title 43.

(3) The term “conservation area” means the Black Rock Desert-High Rock Canyon Emigrant Trails National Conservation Area established pursuant to section 460pp–2 of this title.

SHORT TITLE

The Congress finds the following:

(1) The areas of northwestern Nevada known as the Black Rock Desert and High Rock Canyon contain and surround the last nationally significant, untouched segments of the historic California emigrant Trails, including wagon ruts, historic inscriptions, and a wilderness landscape largely unchanged since the days of the pioneers.

(2) The relative absence of development in the Black Rock Desert and High Rock Canyon areas from emigrant times to the present day offers a unique opportunity to capture the terrain, sights, and conditions of the overland trails as they were experienced by the emigrants and to make available to both present and future generations of Americans the opportunity of experiencing emigrant conditions in an unaltered setting.

(3) The Black Rock Desert and High Rock Canyon areas are unique segments of the Northern Great Basin and contain broad representation of the Great Basin’s land forms and plant and animal species, including golden eagles and other birds of prey, sage grouse, mule deer, pronghorn antelope, bighorn sheep, free roaming horses and burros, threatened fish and sensitive plants.

(4) The Black Rock–High Rock region contains a number of cultural and natural resources that have been declared eligible for National Historic Landmark and Natural Landmark status, including a portion of the 1843–44 John Charles Fremont exploration route, the site of the death of Peter Lassen, early military facilities, and examples of early homesteading and mining.

(5) The archeological, paleontological, and geographical resources of the Black Rock–High Rock region include numerous prehistoric and historic Native American sites, wooly mammoth sites, some of the largest natural pot holes of North America, and a remnant dry Pleistocene lakebed (playa) where the curvature of the Earth may be observed.

(6) The two large wilderness mosaics that frame the conservation area offer exceptional opportunities for solitude and serve to protect the integrity of the viewshed of the historic emigrant trails.

(7) Public lands in the conservation area have been used for domestic livestock grazing for over a century, with resultant benefits to community stability and contributions to the local and State economies. It has not been demonstrated that continuation of this use would be incompatible with appropriate protection and sound management of the resource values of these lands; therefore, it is expected that such grazing will continue in accordance with the management plan for the conservation area and other applicable laws and regulations.

(8) The Black Rock Desert playa is a unique natural resource that serves as the primary destination for the majority of visitors to the conservation area, including visitors associated with large-scale permitted events. It is expected that such permitted events will continue to be administered in accordance with the management plan for the conservation area and other applicable laws and regulations.

§ 460pp–2. Establishment of the conservation area

(a) Establishment and purposes

In order to conserve, protect, and enhance for the benefit and enjoyment of present and future generations the unique and nationally important historical, cultural, paleontological, scenic, scientific, biological, educational, wildlife, riparian, wilderness, endangered species, and recreational values and resources associated with the Applegate-Lassen and Nobles Trails corridors and surrounding areas, there is hereby established the Black Rock Desert-High Rock Canyon Emigrant Trails National Conservation Area in the State of Nevada.

(b) Areas included

The conservation area shall consist of approximately 797,100 acres of public lands as generally depicted on the map entitled “Black Rock Desert Emigrant Trail National Conservation Area” and dated October 3, 2001.

(c) Maps and legal description

As soon as practicable after December 21, 2000, the Secretary shall submit to Congress a map
and legal description of the conservation area. The map and legal description shall have the same force and effect as if included in this subchapter, except the Secretary may correct clerical and typographical errors in such map and legal description. (d) Hunting, trapping, and fishing
Nothing in this subchapter shall be deemed to diminish the jurisdiction of the State of Nevada with respect to fish and wildlife management, including regulation of hunting and fishing, on public lands within the conservation area.

(e) Management plan
Within three years following December 21, 2000, the Secretary shall develop a comprehensive resource management plan for the long-term protection and management of the conservation area. The plan shall be developed with full public participation and shall describe the appropriate uses and management of the conservation area consistent with the provisions of this subchapter. The plan may incorporate appropriate decisions contained in any current management or activity plan for the area and may use information developed in previous studies of the lands within or adjacent to the conservation area.

(f) Grazing
Where the Secretary of the Interior currently permits livestock grazing in the conservation area, such grazing shall be allowed to continue subject to all applicable laws, regulations, and executive orders.

(g) Visitor service facilities
The Secretary is authorized to establish, in cooperation with other public or private entities as the Secretary may deem appropriate, visitor service facilities for the purpose of providing information about the historical, cultural, ecological, recreational, and other resources of the conservation area.

(h) Road maintenance

(b) Preparation and transmittal to Congressional committees of reports on individual sites and structures

The Secretary shall, from time to time, prepare and transmit to the Committee on Natural Resources of the House of Representatives and the Committee on Energy and Natural Resources of the United States Senate reports on individual sites and structures identified in the survey referred to in subsection (a) of this section, together with his recommendation as to whether such site or structure is suitable for establishment as a national historic site or national memorial to commemorate a former President. Each such report shall include pertinent information with respect to the need for acquisition of lands and interests therein, the development of facilities, and the operation and maintenance of the site or structure and the estimated cost thereof. If during the six-month period following the transmittal of a report pursuant to this subsection neither Committee has by vote of a majority of its members disapproved a recommendation of the Secretary that a site or structure is suitable for establishment as a national historic site, the Secretary may thereafter by appropriate order establish the same as a national historic site, including the lands and interests therein identified in the report accompanying his recommendation. § 469l. Findings and purposes

(a) Findings

The Congress finds the following:

(1) The Underground Railroad, which flourished from the end of the 18th century to the end of the Civil War, was one of the most significant expressions of the American civil rights movement during its evolution over more than three centuries.

(2) The Underground Railroad bridged the divides of race, religion, sectional differences, and nationality; spanned State lines and international borders; and joined the American ideals of liberty and freedom expressed in the Declaration of Independence and the Constitution to the extraordinary actions of ordinary men and women working in common purpose to free a people.

(3) Pursuant to title VI of Public Law 101–628 (16 U.S.C. 1a–5 note; 104 Stat. 4495), the Underground Railroad Advisory Committee conducted a study of the appropriate means of establishing an enduring national commemorative Underground Railroad program of education, example, reflection, and reconciliation.

(4) The Underground Railroad Advisory Committee found that—

(A) although a few elements of the Underground Railroad story are represented in existing National Park Service units and other sites, many sites are in imminent danger of being lost or destroyed, and many important resource types are not adequately represented and protected;

(B) there are many important sites which have high potential for preservation and visitor use in 29 States, the District of Columbia, and the Virgin Islands;

(C) no single site or route completely reflects and characterizes the Underground Railroad, since its story and associated resources involve networks and regions of the country rather than individual sites and trails; and

(D) establishment of a variety of partnerships between the Federal Government and other levels of government and the private sector would be most appropriate for the protection and interpretation of the Underground Railroad.

(5) The National Park Service can play a vital role in facilitating the national commemoration of the Underground Railroad.

(6) The story and significance of the Underground Railroad can best engage the American people through a national program of the National Park Service that links historic buildings, structures, and sites; routes, geographic areas, and corridors; interpretive centers, museums, and institutions; and programs, activities, community projects, exhibits, and multimedia materials, in a manner that is both unified and flexible.

(b) Purposes

The purposes of sections 469l to 469l–2 of this title are the following:

(1) To recognize the importance of the Underground Railroad, the sacrifices made by those who used the Underground Railroad in search of freedom from tyranny and oppression, and the sacrifices made by the people who helped them.

(2) To authorize the National Park Service to coordinate and facilitate Federal and non-Federal activities to commemorate, honor, and interpret the history of the Underground Railroad, its significance as a crucial element in the evolution of the national civil rights movement, and its relevance in fostering the spirit of racial harmony and national reconciliation.

The Secretary of the Interior (in sections 469l to 469l–3 of this title referred to as the “Secretary”) shall establish in the National Park Service a program to be known as the “National Underground Railroad Network to Freedom” (in sections 469l to 469l–3 of this title referred to as the “national network”). Under the program, the Secretary shall—

(1) produce and disseminate appropriate educational materials, such as handbooks, maps, interpretive guides, or electronic information;

To achieve the purposes of sections 469l to 469l–3 of this title and to ensure effective coordination of the Federal and non-Federal elements of the national network referred to in subsection (b) of this section with National Park Service units and programs, the Secretary may enter into cooperative agreements and memoranda of understanding with, and provide technical assistance to—

(1) the heads of other Federal agencies, States, localities, regional governmental bodies, and private entities; and

The Secretary of the Interior may make grants in accordance with this section for the preservation and restoration of historic buildings or structures associated with the Underground Railroad, and for related research and documentation to sites, programs, or facilities that have been included in the national network.

(b) Grant conditions

Any grant made under this section shall provide that—

(1) no change or alteration may be made in property for which the grant is used except with the agreement of the property owner and the Secretary;

(2) the Secretary shall have the right of access at reasonable times to the public portions of such property for interpretive and other purposes; and

(3) conversion, use, or disposal of such property for purposes contrary to the purposes of sections 469f to 469f–3 of this title, as determined by the Secretary, shall result in a right of the United States to compensation equal to all Federal funds made available to the grantee under sections 469f to 469f–3 of this title.

(c) Matching requirement

The Secretary may obligate funds made available for a grant under this section only if the grantee agrees to match, from funds derived from non-Federal sources, the amount of the grant with an amount that is equal to or greater than the grant. The Secretary may waive the requirement of the preceding sentence with respect to a grant if the Secretary determines that an extreme emergency exists or that such a waiver is in the public interest to assure the preservation of historically significant resources.
