§1a–1. National Park System: administration; declaration of findings and purpose

Congress declares that the national park system, which began with establishment of Yellowstone National Park in 1872, has since grown to include superlative natural, historic, and recreation areas in every major region of the United States, its territories and island possessions;
that these areas, though distinct in character, are united through their inter-related purposes and resources into one national park system as cumulative expressions of a single national heritage; that, individually and collectively, these areas derive increased national dignity and recognition of their superb environmental quality through their inclusion jointly with each other in one national park system preserved and managed for the benefit and inspiration of all the people of the United States; and that it is the purpose of this Act to include all such areas in the System and to clarify the authorities applicable to the system. Congress further reafirms, declares, and directs that the promotion and regulation of the various areas of the National Park System, as defined in section 1c of this title, shall be consistent with and founded in the purpose established by section 1 of this title, to the common benefit of all the people of the United States. The authorization of activities shall be construed and the protection, management, and administration of these areas shall be conducted in light of the high public value and integrity of the National Park System and shall not be exercised in derogation of the values and purposes for which these various areas have been established, except as may have been or shall be directly and specifically provided by Congress.

§ 17o. National Park Service housing improvement

(1) **Purposes**

The purposes of this section are—

(A) to develop where necessary an adequate supply of quality housing units for field employees of the National Park Service within a reasonable time frame;

(B) to expand the alternatives available for construction and repair of essential Government housing;

(C) to rely on the private sector to finance or supply housing in carrying out this section, to the maximum extent possible, in order to reduce the need for Federal appropriations;

(D) to ensure that adequate funds are available to provide for long-term maintenance needs of field employee housing; and

(E) to eliminate unnecessary Government housing and locate such housing as is required in a manner such that primary resource values are not impaired.

(2) **General authority**

To enhance the ability of the Secretary of the Interior (hereafter in this section referred to as “the Secretary”), acting through the Director of the National Park Service, to effectively manage units of the National Park System, the Secretary is authorized where necessary and justified to make available employee housing, on or off the lands under the administrative jurisdic-
of the National Park Service, and to rent or lease such housing to field employees of the National Park Service at rates based on the reasonable value of the housing in accordance with requirements applicable under section 5911 of title 5.

(3) Review and revision of housing criteria

On November 12, 1996, the Secretary shall review and revise the existing criteria under which housing is provided to employees of the National Park Service. Specifically, the Secretary shall examine the existing criteria with respect to what circumstances the National Park Service requires an employee to occupy Government quarters to provide necessary services, protect Government property, or because of a lack of availability of non-Federal housing in the geographic area.

(4) Submission of report

A report detailing the results of the revisions required by paragraph (3) shall be submitted to the Committee on Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate not later than 180 days after November 12, 1996. The report shall include justifications for keeping, or for changing, each of the criteria or factors used by the Department of the Interior with regard to the provision of housing to employees of the National Park Service.

(5) Review of condition of and costs relating to housing

Using the revised criteria developed under paragraph (3), the Secretary shall undertake a review, for each unit of the National Park System, of existing government-owned housing provided to employees of the National Park Service. The review shall include an assessment of the physical condition of such housing and the suitability of such housing to effectively carry out the missions of the Department of the Interior and the National Park Service. For each unit of such housing, the Secretary shall determine whether the unit is needed and justified. The review shall include estimates of the cost of bringing each unit that is needed and justified into usable condition that meets all applicable legal housing requirements or, if the unit is determined to be obsolete but is still warranted to carry out the missions of the Department of the Interior and the National Park Service, the cost of replacing the unit.

(6) Authorization for housing agreements

For those units of the National Park System for which the review required by paragraphs (3) and (5) has been completed, the Secretary is authorized, pursuant to the authorities contained in this section and subject to the appropriation of necessary funds in advance, to enter into housing agreements with housing entities under which such housing entities may develop, construct, rehabilitate, or manage housing, located on or off public lands, for rent or lease to National Park Service employees who meet the housing eligibility criteria developed by the Secretary pursuant to this section.

(7) Joint public-private sector housing programs

(A) Lease to build program

Subject to the appropriation of necessary funds in advance, the Secretary may—

(i) lease Federal land and interests in land to qualified persons for the construction of field employee quarters for any period not to exceed 50 years; and

(ii) lease developed and undeveloped non-Federal land for providing field employee quarters.

(B) Competitive leasing

Each lease under subparagraph (A)(i) shall be awarded through the use of publicly advertised, competitively bid, or competitively negotiated contracting procedures.

(C) Terms and conditions

Each lease under subparagraph (A)(i)—

(i) shall stipulate whether operation and maintenance of field employee quarters is to be provided by the lessee, field employees or the Federal Government;

(ii) shall require that the construction and rehabilitation of field employee quarters be done in accordance with the requirements of the National Park Service and local applicable building codes and industry standards;

(iii) shall contain such additional terms and conditions as may be appropriate to protect the Federal interest, including limits on rents the lessee may charge field employees for the occupancy of quarters, conditions on maintenance and repairs, and agreements on the provision of charges for utilities and other infrastructure; and

(iv) may be granted at less than fair market value if the Secretary determines that such lease will improve the quality and availability of field employee quarters available.

(D) Contributions by United States

The Secretary may make payments, subject to appropriations, or contributions in kind either in advance of or on a continuing basis to reduce the costs of planning, construction, or rehabilitation of quarters on or off Federal lands under a lease under this paragraph.

(8) Rental guarantee program

(A) General authority

Subject to the appropriation of necessary funds in advance, the Secretary may enter into a lease to build arrangement as set forth in paragraph (7) with further agreement to guarantee the occupancy of field employee quarters constructed or rehabilitated under such lease. A guarantee made under this paragraph shall be in writing.

(B) Limitations

The Secretary may not guarantee—

(i) the occupancy of more than 75 percent of the units constructed or rehabilitated under such lease; and

(ii) at a rental rate that exceeds the rate based on the reasonable value of the housing in accordance with requirements applicable under section 5911 of title 5.
In no event shall outstanding guarantees be in excess of $3,000,000.2

(C) Rental to Government employees

A guarantee may be made under this section only if the lessee agrees to permit the Secretary to utilize for housing purposes any units for which the guarantee is made.3

(D) Failure to maintain a satisfactory level of operation and maintenance

The lease shall be null and void if the lessee fails to maintain a satisfactory level of operation and maintenance.

(9) Joint development authority

The Secretary may use authorities granted by statute in combination with one another in the furtherance of providing where necessary and justified affordable field employee housing.

(10) Contracts for the management of field employee quarters

(A) General authority

Subject to the appropriation of necessary funds in advance, the Secretary may enter into contracts of any duration for the management, repair, and maintenance of field employee quarters.

(B) Terms and conditions

Any such contract shall contain such terms and conditions as the Secretary deems necessary or appropriate to protect the interests of the United States and assure that necessary quarters are available to field employees.

(11) Leasing of seasonal employee quarters

(A) General authority

Subject to subparagraph (B), the Secretary may lease quarters at or near a unit of the national park system for use as seasonal quarters for field employees. The rent charged to field employees under such a lease shall be a rate based on the reasonable value of the quarters in accordance with requirements applicable under section 5911 of title 5.

(B) Limitation

The Secretary may only issue a lease under subparagraph (A) if the Secretary finds that there is a shortage of adequate and affordable seasonal quarters at or near such unit and that—

(i) the requirement for such seasonal field employee quarters is temporary; or

(ii) leasing would be more cost-effective than construction of new seasonal field employee quarters.

(C) Unrecovered costs

The Secretary may pay the unrecovered costs of leasing seasonal quarters under this paragraph from annual appropriations for the year in which such lease is made.

(12) Survey of existing facilities

The Secretary shall—

(A) complete a condition assessment for all field employee housing, including the physical condition of such housing and the necessity and suitability of such housing for carrying out the agency mission, using existing information; and

(B) develop an agency-wide priority listing, by structure, identifying those units in greatest need for repair, rehabilitation, replacement, or initial construction.

(13) Use of housing-related funds

Expenditure of any funds authorized and appropriated for new construction, repair, or rehabilitation of housing under this section shall follow the housing priority listing established by the agency under paragraph (12), in sequential order, to the maximum extent practicable.

(14) Annual budget submittal

The President’s proposed budget to Congress for the first fiscal year beginning after November 12, 1996, and for each subsequent fiscal year, shall include identification of nonconstruction funds to be spent for National Park Service housing maintenance and operations which are in addition to rental receipts collected.

(15) Study of housing allowances

Within 12 months after November 12, 1996, the Secretary shall conduct a study to determine the feasibility of providing eligible employees of the National Park Service with housing allowances rather than Government housing. The study shall specifically examine the feasibility of providing rental allowances to temporary and lower paid permanent employees. Whenever the Secretary submits a copy of such study to the Office of Management and Budget, he shall concurrently transmit copies of the report to the Resources Committee of the United States House of Representatives and the Committee on Energy and Natural Resources of the United States Senate.

(16) Study of sale of employee housing

Within 18 months of November 12, 1996, the Secretary shall complete a study of the sale of Government quarters to a cooperative consisting of field employees. The Secretary shall examine the potential benefits to the Government as well as the employees and any risks associated with such a program.

(17) General provisions

(A) Construction limitations on Federal lands

The Secretary may not utilize any lands for the purposes of providing field employee housing under this section which will impact primary resource values of the area or adversely affect the mission of the agency.

(B) Rental rates

To the extent practicable, the Secretary shall establish rental rates for all quarters occupied by field employees of the National Park Service that are based on the reasonable value of the quarters in accordance with requirements applicable under section 5911 of title 5.

(C) Exemption from leasing requirements

The provisions of section 460l–22 of this title and section 1302 of title 40 shall not apply to leases issued by the Secretary under this section.

In addition to the powers and duties enumerated in section 3 of this title not inconsistent with this section, he shall make regulations providing for the preservation, from injury or spoliation, of all timber, mineral deposits, natural curiosities, or wonders, within the park, and their retention in their natural condition. The Secretary may, in his discretion, grant leases for building purposes for terms not exceeding thirty years, of small parcels of ground, at such places in the park as may require the erection of buildings for the accommodation of visitors. He shall provide against the wanton destruction of the fish and game found within the park, and against their capture or destruction for the purposes of merchandise or profit. He shall also cause all persons trespassing upon the same to be removed therefrom, and generally is authorized to take all such measures as may be necessary or proper to fully carry out the objects and purposes of this section.

Codification

The words “whose duty it shall be, as soon as practicable, to make and publish such regulations as he may deem necessary or proper for the care and management of the same” were omitted from the end of the first sentence as executed legislation.

The words “In addition to the powers and duties enumerated in section 3 of this title not inconsistent with this section” were added to relate this section to later law, defining the duties of the Secretary of the Interior as to national parks.

“Thirty years” was substituted for “ten years” in view of section 3 of act Aug. 25, 1916, and act May 29, 1958, which authorized the Secretary to grant privileges, leases, and permits in the various parks for periods not exceeding thirty years. See section 3 of this title.

As originally enacted, this section also contained a provision that “all of the proceeds of such leases, and all other revenues that may be derived from any source connected with the park, to be expended under his [Secretary of the Interior] direction in the management of the same, and the construction of roads and bridlepaths therein.” This provision was superseded by section 492 of this title providing for the disposition of all revenues from national parks.

§ 45f. Mineral King Valley addition authorized

(a) Statement of purpose

It is the purpose of this section to—

(1) assure the preservation for this and future generations of the outstanding natural and scenic features of the area commonly known as the Mineral King Valley and previously designated as the Sequoia National Game Refuge; and

(2) enhance the ecological values and public enjoyment of such area by adding such area to the Sequoia National Park.

(b) Drawing copy, availability; boundary revisions: notification of Congressional committees, publication in Federal Register; abolition and transfer of Sequoia National Game Refuge to administrative jurisdiction of Secretary

(1) In order to add to the Sequoia National Park (hereinafter in this section referred to as the "park") a certain area known as Mineral King Valley possessing unique natural and scenic values, there is hereby established as part of such park all lands, waters, and interests therein, constituting approximately sixteen thousand two hundred acres designated before November 10, 1978, as the Sequoia National Game Refuge and as depicted on the drawing entitled "Boundary Map, Sequoia-Kings Canyon National Park", numbered 102-90,000 and dated April 1975. A copy of such drawing shall be on file and available for public inspection in the office of the Director, National Park Service, Department of the Interior. After advising the Committee on Natural Resources of the United States House of Representatives and the Committee on Energy and Natural Resources of the United States Senate in writing, the Secretary is authorized to make minor revisions of the boundaries of the park when necessary by publication of a revised drawing or other boundary description in the Federal Register.

(2) The Sequoia National Game Refuge is hereby abolished and the Secretary of Agriculture
shall transfer, without consideration, to the administrative jurisdiction of the Secretary, the area constituting such refuge, and any unexpended funds available for purposes of management of the refuge shall be available for purposes of management of the park.

(c) Acquisition of property; place and manner; owner’s right of use and occupancy for fixed term of years or life; election of term; fair market value; termination; notification; incompatible commercial uses; unitary parcels; access road, right-of-way, and protective measures; hardship sale offers; limitation of authority; State donated lands; report to Congressional committees

(1) Within the boundaries of the area added to the park pursuant to this section, the Secretary may acquire lands and interests in lands by donation, purchase with donated or appropriated funds, exchange, or transfer from other Federal departments or agencies.

(2) Where the private use of any property acquired pursuant to this subsection would, in the judgment of the Secretary, be incompatible with the purposes of this section, the Secretary may, as a condition of such acquisition, permit the owner or owners of such property to retain for themselves and their successors or assigns rights of use and occupancy. The owner shall reserve such rights and elect the term to be reserved on the date of acquisition of the property. Except for so much of the property as is donated, the Secretary shall pay to the owner the fair market value of the property on the date of its acquisition, less the fair market value on that date of the right retained by the owner.

(3) A right of use and occupancy retained pursuant to paragraph (2) may be terminated by the Secretary upon his determination that the property or any portion thereof is being used in a manner which is incompatible with the purposes of this section. Such right shall terminate by operation of law upon notification by the Secretary to the holder of the right of such determination and tendering to him the amount equal to the fair market value of that portion which remains unexpired as of the date of such tender. In the case of any property which was used for noncommercial purposes during the ten calendar years immediately preceding November 10, 1978, the commercial use of such property subsequent to November 10, 1978, shall be treated as incompatible with the purposes of this section. In the case of any property which was used for commercial purposes at any time during the ten calendar years immediately preceding November 10, 1978, any substantial change or expansion of such commercial use subsequent to November 10, 1978, without the express approval of the Secretary shall be treated as incompatible with such purposes.

(4) In exercising his authority to acquire property under this section, the Secretary shall give prompt and careful consideration to any offer made by an individual owning property within the park to sell such property if such individual notifies the Secretary that the continued ownership of such property is causing, or would result in, undue hardship. Nothing in this section, or in any other provision of law, shall prevent the Secretary from exercising his authority to acquire property referred to in this subsection at any time after November 10, 1978.

(5) If any individual tract or parcel of land acquired is partly inside and partly outside the boundaries of the park the Secretary may, in order to minimize the payment of severance damages, acquire the whole of the tract or parcel.

(6) If the management plan prepared under subsection (e) of this section provides for improved access to the area added to the park under this section, the Secretary is authorized to acquire, by donation, purchase with donated or appropriated funds, exchange or transfer from other Federal departments or agencies, the area comprising the road from State Route 198 to, and within, the Mineral King Valley together with a right-of-way for such road of a width sufficient to include improvements to the road and all bridges, ditches, cuts, and fills appurtenant thereto, but not exceeding a maximum average width of two hundred feet. Property acquired from the State or any political subdivision thereof may be acquired by donation only. With regard to routes of access to and within the Mineral King Valley, the Secretary shall take such measures as are necessary to protect against the effects of siltation on the ecosystem of the park.

(7) The Secretary shall report to the committees of the Congress named in subsection (b)(1) of this section the action taken by him pursuant to this subsection. Such report shall contain information sufficient to inform such committees of—

(A) the acquisitions made by him pursuant to this subsection during the period covered by such report;
(B) his reasons why all of such property authorized to be acquired and not so acquired as of the date of such report, if any, have not been acquired; and
(C) his schedule of a timetable for the acquisition of such property referred to in subparagraph (B).

Such report shall be submitted before the expiration of the second fiscal year beginning after the date on which the comprehensive management plan is submitted to the committees of Congress pursuant to subsection (e) of this section.

(d) Administration; statutory authorities applicable; leases or permits: renewals or extensions, review; termination

(1) The area added to the park by this section shall be administered in accordance with this section and the provisions of law generally applicable to units of the National Park System including sections 1, 2, 3, 4, 41, and 43 of this title. Any other statutory authority available to the Secretary for the conservation and management of wildlife, wildlife habitat, and natural resources may be utilized to the extent he finds such authority will further the purposes of this section.

(2) (A) Except in the case of a lease or permit which the Secretary determines to be incompatible with the administration of the park pursuant to this section, any lease or permit on Fed-
eral land within the area added to the park under this section which is in effect immedi-
ately before November 10, 1978, shall continue in effect pursuant to its terms and conditions
following the expansion of the park under this section.

(B) In the case of a lease or permit which is
continued under subparagraph (A), upon notice
to the Secretary by the lessee or permittee of
his intention to seek renewal or extension of
such lease or permit, the lease or permit shall be
reviewed at the end of such renewal or extension
period and may also be renewed or extended in
the same manner for additional five-year periods
thereafter. Any renewals or extensions of leases
or permits shall be granted only to those per-
sons who were lessees or permittees of record on
November 10, 1978, and to their heirs, successors,
and assigns, and any such lease or permit shall
provide that the lease or permit may be termi-
nated by the Secretary at any time if the Sec-
retary determines that such lease or permit is
incompatible with the administration of the
park pursuant to this section or that the land is
needed for park purposes.

(3) Omitted

sion to Congressional committees; prepara-
tion considerations; public participation; ad-
vice notice; publication in newspapers and
Federal Register, other communication; co-
operation; consultation

mittee on Interior and Insular Affairs of the
United States House of Representatives and the
Committee on Energy and Natural Resources of
the United States Senate, a comprehensive man-
agement plan for the area added to the park under this section. In the preparation of such plan,
the Secretary shall give appropriate con-
sideration to the need for the development of ad-
ditional recreational opportunities and other
public uses which are consistent with sound en-
vironmental management of the area and the
policies of the National Park Service.

(2)(A) In preparing the comprehensive manage-
ment plan required by this subsection and in
preparing any subsequent revision of such plan,
the Secretary shall provide for full public par-
ticipation and shall consider the comments and
views of all interested agencies, organizations,
and individuals.

(B) For purposes of insuring such full public
participation, the Secretary shall provide rea-
sonable advance notice to State and local gov-
ernments, interested Federal agencies, private
organizations, and the general public of hear-
ings, workshops, meetings, and other opportuni-
ties available for such participation. Such no-
tice shall be published in newspapers of general
circulation in the localities affected by the de-

lished in the Federal Register, and commu-
nicated by other appropriate means. The West-

tional Park Service (or a subcommittee thereof)
shall also be utilized for purposes of facilitating
public involvement.

(C) The Secretaries or Directors of all Federal
departments, agencies, and commissions hav-
ing or relevant expertise are hereby authorized and
directed to cooperate with the Secretary in his
development of such plan and to make such
studies as the Secretary may request on a cost
reimbursable basis.

(D) In preparing the comprehensive manage-
ment plan required by this subsection, the Sec-
retary shall consider technical information and
other pertinent data assembled or produced by
field studies or investigations conducted separ-
ately or jointly by the technical and adminis-
trative personnel of the Federal and State agen-
cies involved in order to insure the permanent
conservation of wildlife within the area added to
the park by this section. Except in emergencies,
rules and regulations pertaining to the manage-
ment of wildlife within the area added to the
park by this section shall be put into effect only
after consultation with the State of California.

(f) Authorization of appropriations

There are hereby authorized to be appro-

acquisition of land and interests therein de-
scribed in this section.

(g) Omitted

(h) Skiing prohibition

The Congress recognizes that the Mineral King
Valley area has outstanding potential for cer-
tain year-round recreational opportunities, but
the development of permanent facilities for
downhill skiing within the area would be in-
consistent with the preservation and enhancement
of its ecological values.

SUBCHAPTER VII—REDWOOD NATIONAL PARK

§ 79a. Establishment; statement of purposes

In order to preserve significant examples of the primeval coastal redwood (Sequoia sempervirens) forests and the streams and seashores with which they are associated for purposes of public inspiration, enjoyment, and scientific study, there is hereby established a Redwood National Park in Del Norte and Humboldt Counties, California.

§ 79b. Park area

(2) The map referred to in paragraph (1) shall be—

(A) on file and available for public inspection in the appropriate offices of the National Park Service; and

(B) provided by the Secretary of the Interior to the appropriate officers of Del Norte and Humboldt Counties, California.

(3) The Secretary: 1 of the Interior (hereinafter referred to as the "Secretary") may from time to time, with a view to carrying out the purpose of this subchapter and with particular attention to minimizing siltation of the streams, damage to the timber, and assuring the preservation of the scenery within the boundaries of the national park as depicted on said maps, modify said boundaries, giving notice of any changes involved therein by publication of a revised drawing or boundary description in the Federal Register and by filing said revision with the officers with whom the original maps were filed, but the acreage within said park shall at no time exceed 133,000 acres, exclusive of submerged lands and publicly owned highways and roads.

(b) Highways and roads

Any lands so acquired shall be managed in a manner which will maximize the protection of the resources of Redwood National Park, and in accordance with the Act of October 21, 1976 (90 Stat. 2749) [43 U.S.C. 1701 et seq.] Acquisition of a parcel of land under the authority of this subsection shall not as a result of such acquisition diminish the right of owners of adjacent lands to the peaceful use and enjoyment of their land and shall not confer authority upon the Secretary to acquire additional lands except as provided in this subsection.

§ 79c. Acquisition of land

(a) Authority of Secretary; administrative sites; manner and place; donation of State lands; reverters and other conditions

The Secretary is authorized to acquire lands and interests in land within the boundaries of the Redwood National Park and, in addition thereto, not more than ten acres outside of those boundaries for an administrative site or sites. Such acquisition may be by donation, pur-
chase with appropriated or donated funds, ex-
change, or otherwise, but lands and interests in
land owned by the State of California may be ac-
quired only by donation which donation of lands or
interest in lands may be subject to such pre-
ecessory rights in certain real property; termination of operations; removal of equipment, facilities, and personal proper-
ty; down tree personal property; acquired roads; just compensation; payment; jurisdiction; acreage limitation; notice

(1) Effective on October 2, 1968, there is hereby vested in the United States all right, title, and interest in, and the right to immediate possession of, all real property within the park bound-
daries designated in maps NPS–RED–7114-A and
NPS–RED–7114-B and effective on March 27, 1978,
there is hereby vested in the United States all right, title, and interest in, and the right to immediate possession of, all real property within the area indicated as “Proposed Additions” on the map entitled “Additional Lands, Redwood
National Park, California,” numbered
167–80005–D and dated March 1978, and all right,
title, and interest in, and the right to immediate possession of, the down tree personal property (trees severed from the ground by man) se-
vored prior to January 1, 1975, or subsequent to
January 1, 1978, within the area indicated as
“Proposed Additions” on the map entitled “Ad-
ditional Lands, Redwood National Park, Califor-
nia,” numbered
167–80005–D and dated March 1978, except real property owned by the State of
California or a political subdivision thereof and
except as provided in paragraph (3) of this subsection. The Secretary shall allow for the order-
derly termination of all operations on real prop-
erty acquired by the United States under this
subsection, and for the removal of equipment, facili-
ties, and personal property therefrom.

Down tree personal property severed subsequent
to December 31, 1974, and prior to February 1, 1978 may be removed in accordance with applicable State and Federal law, or other appli-
cable licenses, permits, and existing agreements,
unless the Secretary determines that the re-
moval of such down timber would damage sec-
dond growth resources or result in excessive sedi-
mation in Redwood Creek: Provided, however,
That down timber lying in stream beds may not be
removed without permission of the Secretary: Provided, That such removal shall also be sub-
ject to such reasonable conditions as may be re-
quired by the Secretary to insure the continued availability of raw materials to Redwoods
United, Incorporated, a nonprofit corporation
located in Manila, California.

The Secretary shall permit, at existing levels and extent of access and use, continued access and use of each acquired segment of the B line, L line, M line, and K and K roads by each cur-ent affected woods employer or its successor in
title and interest: Provided, That such use is
limited to forest and land management and pro-
tection purposes, including timber harvesting
and road maintenance. The Secretary shall per-
mit, at existing levels and extent of access and use,
continued access and use of acquired por-
tions of the Bald Hills road by each current af-
fected woods employer or its successor in title
and interest: Provided further. That nothing in this sentence shall diminish the authority of the Secretary to otherwise regulate the use of the Bald Hills road.

(2) The United States will pay just compensation to the owner of any real property taken by paragraph (1) of this subsection. Such compensation shall be paid either: (A) by the Secretary of the Treasury from money appropriated from the Land and Water Conservation Fund, including money appropriated to the Fund pursuant to section 4(b) of the Land and Water Conservation Fund Act of 1965, as amended [16 U.S.C. 4607(b)]; subject to the appropriation limitation in section 79c of this title, upon certification to him by the Secretary of the agreed negotiated value of such property, or the valuation of the property awarded by judgment, including interest at the rate of 6 per centum per annum from the date of taking the property to the date of payment therefor; or (B) by the Secretary, if the owner of the land concurs, with any federally owned property available to him for purposes of exchange pursuant to the provisions of section 79e of this title; or (C) by the Secretary using any combination of such money or federally owned property. Any action against the United States with regard to the provisions of this subchapter and for the recovery of just compensation for the lands and interests therein taken by the United States, and for the down tree personal property taken, shall be brought in the United States district court for the district where the land is located without regard to the amount claimed. The United States may initiate proceedings at any time seeking a determination of just compensation in the district court in the manner provided by sections 1338 and 1403 of title 28 and may deposit in the registry of the court the estimated just compensation, or a part thereof, in accordance with the procedure generally described by section 3114(a)-(d) of title 40. Interest shall not be allowed on such amounts as shall have been paid into the court. In the event that the Secretary determines that the fee simple title to any property (real or personal) taken under this section is not necessary for the purposes of this subchapter, he may, with particular attention to minimizing the payment of severance damages and to allow for the orderly removal of down timber, vest title to such property subject to such reservations, terms, and conditions, if any, as he deems appropriate to carry out the purposes of this subchapter, and may compensate the former owner for no more than the fair market value of the rights so reserved, except that the Secretary may not vest title to any property for which just compensation has been paid; or, the Secretary may sell at fair market value without regard to the requirements of chapters 1 to 11 of title 40 any division C (except sections 3302, 3307(e), 3501(b), 3509, 3906, 4710, and 4711) of subtitle I of title 41. The cost of any land so acquired and disposed of shall not be charged against the limitation on authorized appropriations contained in section 79c of this title.

(c) Minimization of severance damages; costs not chargeable against appropriations authorization

If any individual tract or parcel of land acquired is partly inside and partly outside the boundaries of the park or the administrative site the Secretary may, in order to minimize the payment of severance damages, acquire the whole of the tract or parcel and exchange that part of it which is outside the boundaries for land or interests in land inside the boundaries or for other land or interests in land acquired pursuant to this subchapter, and dispose of so much thereof as is not so utilized in accordance with the provisions of chapters 1 to 11 of title 40 and division C (except sections 3302, 3307(e), 3501(b), 3509, 3906, 4710, and 4711) of subtitle I of title 41. The cost of any land so acquired and disposed of shall not be charged against the limitation on authorized appropriations contained in section 79c of this title.

(d) Lands for screen of trees along certain highway

The Secretary is further authorized to acquire, as provided in subsection (a) of this section, lands and interests in land bordering both sides of the highway between the present southern boundary of Prairie Creek Redwood State Park and a point on Redwood Creek near the town of Orick to a depth sufficient to maintain or to restore a screen of trees between the highway and the land behind the screen and the activities conducted thereon.
(e) Timber, soil, and stream protection; “interests in land” defined; notice to Congress of intended action, costs, and benefits requisite for acquisitions, contracts, or cooperative agreements; availability of funds; authorization of appropriations; rehabilitative activities

In order to afford as full protection as is reasonably possible to the timber, soil, and streams within the boundaries of the park, the Secretary is authorized, by any of the means set out in subsections (a) and (c) of this section, to acquire interests in land from, and to enter into contracts and cooperative agreements with, the owners of land on the periphery of the park and on watersheds tributary to streams within the park designed to assure that the consequences of forestry management, timbering, land use, and soil conservation practices conducted thereon, or of the lack of such practices, will not adversely affect the timber, soil, and streams within the park as aforesaid. As used in this subsection, the term “interests in land” does not include fee title unless the Secretary finds that the cost of such fee title would be disproportionately high as compared with the estimated cost of the fee. No acquisition other than by donation shall be effectuated and no contract or cooperative agreement shall be executed by the Secretary pursuant to the provisions of this subsection until after he has notified the President of the Senate and the Speaker of the House of Representatives of his intended action and of the costs and benefits to the United States involved therein. Effective on March 27, 1978, there are made available from the amounts provided in section 79j of this title or as may be hereafter provided such sums as may be necessary for the acquisition of interests in land. Effective on October 1, 1978, there are authorized to be appropriated such sums as may be necessary for the implementation of contracts and cooperative agreements pursuant to this subsection: Provided, That it is the express intent of Congress that the Secretary shall to the greatest degree possible insure that such contracts and cooperative agreements provide for the maximum retention of senior employees by such owners and for their utilization in rehabilitation and other efforts. The Secretary, in consultation with the Secretary of Agriculture, is further authorized, pursuant to contract or cooperative agreement with agencies of the Federal Executive, the State of California, any political or governmental subdivision thereof, any corporation, not-for-profit corporation, private entity or person, to initiate, provide funds, equipment, and personnel for the development and implementation of a program for the rehabilitation of areas within and upstream from the park contributing significant sedimentation because of past logging disturbances and road conditions, and, to the extent feasible, to reduce risk of damage to streamside areas adjacent to Redwood Creek and for other reasons: Provided further, That authority to make payments under this subsection shall be effective only to such extent or in such amounts as are provided in advance in appropriation Acts. Such contracts or cooperative agreements shall be subject to such other conditions as the Secretary may determine necessary to assure the adequate protection of Redwood National Park generally, and to provide employment opportunities to those individuals affected by this taking and to contribute to the economic revival of Del Norte and Humboldt Counties in northern California. The Secretary shall undertake and publish studies on erosion and sedimentation originating within the hydrographic basin of Redwood Creek with particular effort to identify sources and causes, including differentiation between natural and man-aggravated conditions, and shall adapt his general management plan to benefit from the results of such studies. The Secretary, or the Secretary of Agriculture, where appropriate, shall also manage any additional Federal lands under his jurisdiction that are within the hydrographic basin of Redwood Creek in a manner which will minimize sedimentation which could affect the park, and in coordination with plans for sediment management within the basin. To effectuate the provisions of this subsection, and to further develop scientific and professional information and data concerning the Redwood Forest ecosystem, and the various factors that may affect it, the Secretary may authorize access to the area subject to this subsection by designated representatives of the United States.

The owner shall elect the term to be reserved. Unless the property is wholly or partially donated to the United States, the Secretary shall pay the owner the fair market value of the property on the date of acquisition minus the fair market value on that date of the right retained by the owner. A right retained pursuant to this section shall be subject to termination by the Secretary upon his determination that it is being exercised in a manner inconsistent with the purpose of this subchapter, and it shall terminate by operation of law upon the Secretary’s notifying the holder of the right of such determination and tendering to him an amount equal to the fair market value of that portion of the right which remains unexpired.

SUBCHAPTER XVI—CESSION OF INDIAN LANDS AT SULPHUR, OKLAHOMA

§ 151. Acquisition; payment

The Choctaw and Chickasaw Tribes absolutely and unqualifiedly relinquish, cede, and convey unto the United States a tract or tracts of land at and in the vicinity of the village of Sulphur, in the Chickasaw Nation, of not exceeding six hundred and forty acres, to be selected, under the direction of the Secretary of the Interior, and to embrace all the natural springs in and about said village, and so much of Sulphur Creek, Rock Creek, Buckhorn Creek, and the lands adjacent to said natural springs and creeks as may be deemed necessary by the Secretary of the Interior for the proper utilization and control of said springs and the waters of said creeks, which lands shall be so selected as to cause the least interference with the contemplated town site at that place consistent with the purposes for which said cession is made. The ceded lands shall be held, owned, and controlled by the United States absolutely and without any restriction, save that no part thereof shall be platted or disposed of for town-site purposes during the existence of the two tribal governments. There shall be deposited in the Treasury of the United States, to the credit of the two tribes, from the unappropriated public moneys of the United States, $20 per acre for each acre so selected, which shall be in full compensation for the lands so ceded, and such monies shall, upon the dissolution of the tribal governments, be divided per capita among the members of the tribes, freedmen excepted, as are other funds of the tribes. Until otherwise provided by law, the Secretary of the Interior may,
under rules prescribed for that purpose, regulate and control the use of the water of said springs and creeks and the temporary use and occupation of the lands so ceded. No person shall occupy any portion of the lands so ceded, or carry on any business thereon, except as provided in said rules, and until otherwise provided by Congress the laws of the United States relating to the introduction, possession, sale, and giving away of liquors or intoxicants of any kind within the Indian country or Indian reservations shall be applicable to the lands so ceded. Nothing contained in this section shall be construed or held to commit the Government of the United States to any expenditure of money upon said lands or the improvements thereof, except as provided herein, it being the intention of this provision that in the future the lands and improvements herein mentioned shall be conveyed by the United States to such Territorial or State organization as may exist at the time when such conveyance is made.

Codification

Section is from section 64 of act July 1, 1902, which was part of an agreement between the United States and the Choctaw and Chickasaw tribes of Indians, ratified by and included in that Act.

The following provisions contained in this section as originally enacted were omitted as temporary and executed:

A provision that the selection of lands by the Secretary of the Interior should be within four months after the ratification of the agreement aforesaid; a provision, following the words of the present section reading "the two tribal governments" for the disposition of such other lands as might be embraced in a town site at that point; a provision that the deposit in the Treasury to the credit of the two tribes should be within ninety days after the selection of the land; and a provision for the appraisal of and reimbursement for all improvements lawfully upon the lands selected.

A provision of the original text that the land should remain within the jurisdiction of the United States court for the southern district of the Indian Territory was changed to read as set forth herein by virtue of sections 13 and 14 of the Oklahoma Enabling Act of June 16, 1906, and the Executive Proclamation of Nov. 16, 1907, declaring the admission of Oklahoma to the Union.

(B) the owner fails to comply with the provisions of paragraph (2).

The Secretary shall immediately notify the owner in writing of any determination under subparagraph (A). If the owner immediately ceases the activity subject to such notification, the Secretary shall attempt to negotiate a mutually satisfactory solution prior to exercising any authority provided by subsection (a) of this section.

When an owner of property within the park desires to take an action with respect to his property, he shall request, in writing, a prompt written determination from the Secretary as to the likelihood of such action provoking a determination by the Secretary under the provisions of subsection (b)(1)(A) of this section. The Secretary is thereupon directed to promptly issue such owner a certificate of exemption from condemnation for such actions proposed by the owner which the Secretary determines to be compatible with the purposes of the park.

(e) Limited right of retention; calculation of payment

(1) An owner of improved property which is used solely for noncommercial residential purposes, or for commercial agricultural purposes found to be compatible with the General Management Plan, on the date of its acquisition by the Secretary may retain, as a condition of such an acquisition, a right of use and occupancy of the property for such residential or agricultural purposes. The right retained may be for a definite term which shall not exceed twenty-five years, or in lieu thereof, for a term ending at the death of the owner. The Secretary shall pay to the owner the fair market value of the property on the date of such acquisition, less the fair market value, of the term retained by the owner.

(2) Except for tract number 01–142, paragraph (1) shall not apply to property which the Secretary determines to be necessary for the purposes of administration, development, access, or public use.

§ 160a–1. Boundaries

(a) Lands and waters included; legal description; revision

Except as provided in subsection (b) of this section, the park shall include the lands and waters within the boundaries as generally depicted on the drawing entitled “A Proposed Voyageurs National Park, Minnesota,” numbered LNPW–VOYA–1001, dated February 1969, which shall be on file and available for public inspection in the offices of the National Park Service, Department of the Interior. Within one year after acquisition of the lands owned by the State of Minnesota and its political subdivisions within the boundaries of the park the Secretary shall affix to such drawing an exact legal description of said boundaries. The Secretary may revise the boundaries of the park from time to time by publishing in the Federal Register a revised drawing or other boundary description, but such revisions shall not increase the land acreage within the park by more than one thousand acres.

(b) Additional revisions; procedures applicable; failure to comply with procedures

(1) In addition to such revisions as the Secretary may make in the boundaries of the park from time to time pursuant to other provisions of law, the Secretary may, according to the provisions of subsection (a) of this section—

(A) delete approximately 782 acres in the Neil Point area of the park;

(B) add approximately 180 acres in the Black Bay Narrows areas of the park;

(C) add approximately 18.45 acres owned by the State of Minnesota at the Kabetogama Forestry Station;

(D) add approximately 120 acres owned by the State of Minnesota being a strip of land through that portion of section 1, township 68 north, range 20 west, fourth principal meridian, which is parallel to and 400 feet on both sides of the unimproved road extending northward from the Ash River Trail as such road crosses each section; and

(E) subject to the provisions of paragraph (2), delete approximately 1,000 acres at Black Bay and convey such lands to the State of Minnesota.

All of the aforementioned boundary changes if accomplished shall be accomplished such that the boundary of the park shall conform to that generally depicted on, the drawing entitled “Boundary, Voyageurs National Park, United States Department of the Interior, National Park Service”, numbered 172–80, 008–MWR, and dated November 1981, which shall be on file and available for public inspection in the offices of the National Park Service, Department of the Interior.

(2) The Secretary may not delete or convey the lands referred to in paragraph (1)(E) unless, prior to or simultaneously with such deletion or conveyance and in consideration of such conveyance, the State of Minnesota—

(A) tenders a conveyance of the lands described in paragraph (1)(C) and (D) to the United States by such instrument and in such manner as are satisfactory to the Secretary, including but not limited to lease or easement: Provided, That if the interest conveyed is a lease or easement, the State of Minnesota shall substitute therefore a transfer of all right, title, and interest in the land by June 30, 1987: Provided further, That if the State does not transfer all right, title, and interest in such lands by June 30, 1987, the land described in paragraph 1(E) shall revert to the United States for administration by the Secretary as part of the park; and

(B) enters into a recordable agreement satisfactory to the Secretary which provides that—

(i) the State has established a wildlife management area in the area authorized to be deleted and conveyed to the State by paragraph (1)(E);

(ii) the State has prepared a plan acceptable to the Secretary to manage all the waters of and State lands riparian to Black Bay (including all of the State-owned lands and waters of Rainy Lake) to preserve the natural resources of the area so as to complement to the fullest extent possible the purposes for which the park was established;

(iii) the State shall not transfer any right, title, or interest in, or control over, any land described in paragraph (1)(E) to any person other than the Secretary; and

(iv) the State shall permit access by the Secretary at reasonable times to the land described in paragraph (1)(E).

(3) If at any time the State fails to comply with the material requirements of the agree-
ment referred to in paragraph (2)(B), all right, title, and interest in the land described in paragraph (1)(E) shall revert to the United States for administration by the Secretary as part of the park. Such reversion shall take effect upon the delivery by the Secretary of notice to the State respecting such failure to comply without further notice or requirement for physical entry by the Secretary unless an action for judicial review is brought in the United States Court of Appeals for the appropriate circuit within ninety days following such notice. In any such action the court may issue such orders as are appropriate to carry out the requirements of this subsection.

Codification

Provisions of section 102 of Pub. L. 91–661 [this section] were formerly set out as an undesignated second paragraph in section 160a of this title prior to amendment by Pub. L. 97–405.

Amendments

1983—Subsec. (a). Pub. L. 97–405, §1(1), substituted “(a) Except as provided in subsection (b) of this section, for “The park”.

§160b. Acquisition of lands; lands outside of boundaries; transfer of Federal property within boundaries to administrative jurisdiction of Secretary; consideration by Secretary of offer to sell property with park area

(a) The Secretary may acquire lands or interests therein within the boundaries of the park by donation, purchase with donated or appropriated funds, or exchange. When any tract of land is only partly within such boundaries, the Secretary may acquire all or any portion of the land outside of such boundaries in order to minimize the payment of severance costs. Land so acquired outside of the park boundaries may be exchanged by the Secretary for non-Federal lands within the park boundaries. Any portion of land acquired outside the park boundaries and not utilized for exchange shall be reported to the General Services Administration for disposal under chapters 1 to 11 of title 40 and division C (except sections 3302, 3307(e), 3501(b), 3509, 3906, 4710, and 4711) of subtitle I of title 41 for “The Federal Property and Administrative Services Act of 1949 (63 Stat. 377), as amended” on authority of Pub. L. 107–217, §5(c), Aug. 21, 2002, 116 Stat. 1303, which Act enacted Title 40, Public Buildings, Property, and Works, and Pub. L. 111–350, §6(c), Jan. 4, 2011, 124 Stat. 3554, which Act enacted Title 41, Public Contracts.

§160c. Acquisition of improved property

(a) Owner's reservation of right of use and occupancy for residential purposes for life or fixed term of years; election of term; fair market value

Any owner or owners (hereinafter referred to as “owner”) of improved property on the date of its acquisition by the Secretary may, if the Secretary determines that such improved property is not, at the time of its acquisition, required for the proper administration of the park, as a condition of such acquisition, retain for themselves and their successors or assigns a right of use and occupancy of the improved property for noncommercial residential purposes for a definite term not to exceed twenty-five years, or, in lieu thereof, for a term ending at the death of the owner, or the death of his spouse, whichever is later. The owner shall elect the term to be retained. The Secretary shall pay to the owner the fair market value of the property on the date of such acquisition less the fair market value on such date of the right retained by the owner.

(b) Use and occupancy by lessee of lands donated by State of Minnesota within boundaries of park; term of use and occupancy

If the State of Minnesota donates to the United States any lands within the boundaries of the park subject to an outstanding lease on which the lessee began construction of a non-commercial or recreational residential dwelling prior to January 1, 1969, the Secretary may grant to such lessee a right of use and occupancy for such period of time as the Secretary, in his discretion, shall determine: Provided, That no such right of use and occupancy shall be granted, extended, or continue after ten years from the date of the establishment of the park.

(c) Termination of use and occupancy; tender by Secretary of fair market value of unexpired right

Any right of use and occupancy retained or granted pursuant to this section shall be subject to termination by the Secretary upon his determination that such use and occupancy is being exercised in a manner not consistent with the purposes of this subchapter or upon his determination that the property is required for the proper administration of the park. The Secretary shall tender to the holder of the right so terminated an amount equal to the fair market value of that portion of the right which remains unexpired on the date of termination.

(d) “Improved property” defined

The term “improved property”, as used in this section, shall mean a detached, noncommercial residential dwelling, the construction of which was begun before January 1, 1969, together with
so much of the land on which the dwelling is situated, the said land being in the same ownership as the dwelling, as the Secretary shall designate to be reasonably necessary for the enjoyment of the dwelling for the sole purpose of noncommercial residential use, together with any structures accessory to the dwelling which are situated on the land so designated.

§ 160d. Concession contracts with former owners of commercial timberlands

Notwithstanding any other provision of law, the Secretary is authorized to negotiate and enter into concession contracts with former owners of commercial, recreational, resort, or similar properties located within the park boundaries for the provision of such services at their former location as he may deem necessary for the accommodation of visitors.

§ 160e. Payment of value differential by Secretary to owner of commercial timberlands

The Secretary is authorized to pay a differential in value, as hereinafter set forth, to any owner of commercial timberlands within the park with whom the State of Minnesota has negotiated, for the purpose of conveyance to the United States, an exchange of lands for State lands outside the park. Payment hereunder may be made when an exchange is based upon valuations for timber purposes only, and shall be the difference between the value of such lands for timber purposes only, as agreed to by the Secretary, and any owner, and the higher value, if any, of such lands for recreational purposes not attributable to establishment or authorization of the park: Provided, That any payment shall be made only at such time as fee title of lands so acquired within the boundaries is conveyed to the United States.

§ 160f. Administration

(a) Authority of Secretary

Except as hereinafter provided, the Secretary shall administer the lands acquired for the park, and after establishment shall administer the park, in accordance with the provisions of sections 1, 2, 3, and 4 of this title, as amended and supplemented.

(b) Preservation of area as a wilderness; study and report to President; procedure for designation as a wilderness

Within four years from the date of establishment, the Secretary of the Interior shall review the area within the Voyageurs National Park and shall report to the President, in accordance with subsections (c) and (d) of section 1132 of this title, his recommendation as to the suitability or nonsuitability of any area within the lakeshore for preservation as wilderness, and any designation of any such area as a wilderness may be accomplished in accordance with said subsections. The President shall, no later than June 1, 1983, advise the United States Senate and House of Representatives of his recommendation with respect to the suitability or nonsuitability as wilderness of any area within the park.

(c) Mining and mineral activities and commercial water power development within park boundaries

All mining and mineral activities and commercial water power development within the boundaries of the park shall be prohibited, and further, any conveyance from the State of Minnesota shall contain a covenant that the State of Minnesota, its licensees, permittees, lessees, assigns, or successors in interest shall not engage in or permit any mining activity nor water power development.

AMENDMENTS

1983—Subsec. (b). Pub. L. 97–405 inserted provision directing the President to advise the Senate and House of Representatives no later than June 1, 1983, of his recommendation with respect to the suitability or nonsuitability as wilderness of any area within the park.

§ 160g. Designation by Secretary of recreational fishing zones; consultation with appropriate State agency; continuation of seining of fish to secure eggs for propagation

(a) The Secretary shall permit recreational fishing on lands and waters under his jurisdiction within the boundaries of the park in accordance with applicable laws of the United States and of the State of Minnesota, except that the Secretary may designate zones where and establish periods when no fishing shall be permitted for reasons of public safety, administration, fish and wildlife management, or public use and enjoyment. Except in emergencies, any regulations of the Secretary pursuant to this section shall be put into effect only after consultation with the appropriate agency of the State of Minnesota.

(b) The seining of fish at Shoepac Lake by the St. of Minnesota to secure eggs for propagation purposes shall be continued in accordance with plans mutually acceptable to the State and the Secretary.

§ 160h. Programs for development of area for recreational sports activities

§ 160i. Applicability to treaties, orders, or agreements

Nothing in this subchapter shall be construed to affect the provisions of any treaty now or hereafter in force between the United States and
Great Britain relating to Canada or between the United States and Canada, or of any order or agreement made or entered into pursuant to any such treaty, which by its terms would be applicable to the lands and waters which may be acquired by the Secretary hereunder, including, without limitation on the generality of the foregoing, the Convention Between the United States and Canada on Emergency Regulation of Level of Rainy Lake and of Other Boundary Waters in the Rainy Lake Watershed, signed September 15, 1936, and any order issued pursuant thereto.

§ 160j. Roads accessible to public facilities

The Secretary is authorized to make provision for such roads within the park as are, or will be, necessary to assure access from present and future State roads to public facilities within the park.

§ 160k. Funding and other requirements

(a) Authorization of appropriations

There are authorized to be appropriated such sums as may be necessary to carry out the provisions of this subchapter, not to exceed, however, $38,314,000 for the acquisition of property, and not to exceed $19,179,000 (June 1969 prices) for development, plus or minus such amounts, if any, as may be justified by reason of ordinary fluctuations in construction costs as indicated by engineering cost indices applicable to the types of construction involved herein.

(b) Comprehensive plan for visitor use and overnight visitor facilities; development, implementation, etc.; authorization of appropriations

The Secretary shall, in cooperation with other Federal, State, and local governmental entities and private entities experienced in the fields of outdoor recreation and visitor services, develop and implement a comprehensive plan for visitor use and overnight visitor facilities for the park. The plan shall set forth methods of achieving an appropriate level and type of visitation in order that the resources of the park and its environs may be interpreted for, and used and enjoyed by, the public in a manner consistent with the purposes for which the park was established. Such plan may include appropriate informational and educational messages and materials. In the development and implementation of such plan the Secretary may expend funds donated or appropriated for the purposes of this subsection. Effective October 1, 1983, there is authorized to be appropriated for the purposes of this subsection not to exceed $75,000.

(c) Existing road access; study and report; authorization of appropriations

The Secretary is directed to study existing road access to the park and to report to Congress on the impact of park-related use of those roads and to report specific recommendations on improvements necessary to insure adequate road access to the park. The Secretary is directed to report, within one year of the date of enactment of the Act which appropriates funds authorized under this subsection, to the Committee on Interior and Insular Affairs of the Senate, and to the Committee on Energy and Natural Resources of the House of Representatives and to the Committee on Energy and Natural Resources of the House of Representatives and to the Committee on Interior and Insular Affairs of the Senate. Effective October 1, 1983, there is authorized to be appropriated for the purposes of this subsection not to exceed $7,500,000.

(d) Statutory ceilings respecting appropriations

For purposes of section 460–9(a)(3) of this title, the statutory ceilings on appropriations established by this section shall be deemed to be statutory ceilings contained in a provision of law enacted prior to the convening of the Ninety-fifth Congress.

(Mar. 3, 1917, ch. 164, § 1, 39 Stat. 1122; Feb. 28, 1923, ch. 144, § 1, 42 Stat. 1324.)

Codification

Section is based on section 1 of act Mar. 3, 1917, and section 1 of act Feb. 28, 1923; subdivision (1) being from the former and subdivision (2) being from the latter act. Of the language preceding subdivision (1), that portion from the beginning of the section to the word “and” was common to both of the sections aforesaid, while the remaining portion was derived from section 1 of act Mar. 3, 1917.

§ 165. Value of lands sought to be exchanged

For purposes of subdivision (2) of section 164 of this title the value of all patented lands within said park, including the timber thereon, offered for exchange, and the value of other lands of the United States elsewhere situate, to be given in exchange therefor, shall be ascertained in such manner as the Secretary of the Interior may di-
§ 166. Exchange of timber for private holdings; valuations

For purposes of subdivision (1) of section 164 of this title the value of all patented lands within said park, including the timber thereon, offered for exchange, and the value of the timber on park lands, or on Government lands within the metes and bounds of the national forests within the State of Montana, proposed to be given in exchange for such patented lands, shall be ascertained in such manner as the Secretary of the Interior and the Secretary of Agriculture may jointly in their discretion direct, and all expenses incident to ascertaining such values shall be paid by the owners of said patented lands.

Such owners shall, before any exchange is effective, furnish the Secretary of the Interior evidence satisfactory to him of title to the patented lands offered in exchange; and if the value of timber on park lands or on the Government lands in the national forests within the State of Montana exceeds the value of the patented lands deeded to the Government in exchange, such excess shall be paid to the Secretary of the Interior by the owners of the patented lands before any timber is removed, and shall be deposited and covered into the Treasury as miscellaneous receipts. The lands conveyed to the Government under this section and subdivision (1) of section 164 of this title shall become a part of the Glacier National Park.

§ 167. Removal of timber

All timber on Government lands in the park must be cut and removed under regulations to be prescribed by the Secretary of the Interior, and any damage which may result to the roads or any part of the park or the national forests in consequence of the cutting and removal of the timber therefrom shall be borne by the owners of the patented lands, and bonds satisfactory to the Secretary of the Interior and the Secretary of Agriculture, jointly, must be given for the payment of such damages, if any, as shall be determined by the Secretary of the Interior so far as the same relates to lands within a national park and by the Secretary of Agriculture where the same relates to lands in the national forests. The Secretary of Agriculture and the Secretary of the Interior shall jointly report to Congress in detail the factors upon which valuations were made.

§ 167a. Exchange of lands and other property

(a) The Secretary of the Interior is authorized to accept title to any non-Federal lands, interests in lands, buildings, or other property, real or personal, within the authorized boundaries of the Glacier National Park, as now or after August 8, 1946, established, when the acquisition by exchange of such property would, in his judgment, be in the best interests of the United States. In exchange for the non-Federal property so to be acquired, the Secretary of the Interior is authorized to convey to the grantors of such property, or to their nominees, any federally owned lands, interests in lands, buildings, or other property, real or personal, within the authorized boundaries of the Glacier National Park, located in the State of Montana and administered by the National Park Service, which are of approximately equal value, as determined by the Secretary, to the property being acquired. In order to facilitate the making of such exchanges, the Secretary of the Interior may enter into agreements for the reservation in conveyances to the United States, or for the grant in conveyances from the United States, of such estates for years, life estates, or other interests as may be consistent, in his judgment, with the accomplishment of the purposes of this section, but all such limitations shall be considered in determining the equality of the interests to be exchanged.

(b) Any property acquired pursuant to this section shall, upon acceptance of title thereto, become a part of the Glacier National Park, and shall be subject to all laws applicable to such area. The Secretary of the Interior is authorized to issue such regulations as he deems necessary for carrying out the purposes of this section.

(Aug. 8, 1946, ch. 915, §§1, 2, 60 Stat. 949.)

§ 230. Establishment; description of area

In order to preserve for the education, inspiration, and benefit of present and future generations significant examples of natural and historical resources of the Mississippi Delta region and to provide for their interpretation in such manner as to portray the development of cultural diversity in the region, there is authorized to be established in the State of Louisiana the Jean Lafitte National Historical Park and Preserve (hereinafter referred to as the “park”). The park shall consist of (1) the area generally depicted on the map entitled “Boundary Map, Barataria Preserve Unit, Jean Lafitte National Historical Park and Preserve”, numbered 467/80100A, and dated December 2007, which shall be on file and available for public inspection in the office of the National Park Service, Department of the Interior; (2) the area known as Big Oak Island; (3) an area or areas within the French Quarter section of the city of New Orleans as may be designated by the Secretary of the Interior for an interpretive and administrative facility; (4) folk life centers to be established in the Acadian region; (5) the Chalmette Unit of the Jean Lafitte National Historical Park and Preserve; and (6) such additional natural, cultural, and historical resources in the French Quarter and Garden District of New Orleans, forts in the delta region, plantations, and Acadian towns and villages in the Saint Martinville area and such other areas and sites as are subject to cooperative agreements in accordance with the provisions of this part.

AMENDMENTS

2009—Pub. L. 111–11, §7105(f)(2)(B), which directed amendment of title IX of Pub. L. 95–625 by substituting “Jean Lafitte National Historical Park and Preserve” for “Jean Lafitte National Historical Park” each place it appears, was not executed to first sentence or cl. (1) of second sentence of this section, to reflect the probable intent of Congress, because “Jean Lafitte National Historical Park” already appeared in those places preceding “and Preserve”.

Pub. L. 111–11, §7105(a), in second sentence, substituted “generally depicted on the map entitled ‘Boundary Map, Barataria Preserve Unit, Jean Lafitte National Historical Park and Preserve’, numbered 467/80100A, and dated December 2007,” for “of approximately twenty thousand acres generally depicted on the map entitled ‘Barataria Marsh Unit–Jean Lafitte National Historical Park and Preserve’ numbered 90,000B and dated April 1978,” and redesignated former cls. (4) and (5) as (5) and (6), respectively.

CHANGE OF NAME

“(A) to the Barataria Marsh Unit shall be considered to be a reference to the Barataria Preserve Unit; or

“(B) to the Jean Lafitte National Historical Park shall be considered to be a reference to the Jean Lafitte National Historical Park and Preserve.”

“Jean Lafitte National Historical Park and Preserve” substituted for “Jean Lafitte National Historical Park” in cl. (5) pursuant to section 7105(f)(1)(B) of Pub. L. 111–11, set out above.

“Chalmette Unit of the Jean Lafitte National Historical Park” substituted for “Chalmette National Historical Park” pursuant to section 230h of this title.

§ 230b. Owner's retention of right of use and occupancy for residential purposes for life or fixed term of years; election of term; fair market value; transfer, assignment or termination; “improved property” defined

Within the Barataria Preserve Unit, the owner or owners of improved property used for noncommercial residential purposes on a year-round basis may, as a condition of the acquisition of such property by the Secretary, elect to retain a right of use and occupancy of such property for noncommercial residential purposes if, in the judgment of the Secretary, the continued use of such property for a limited period would not unduly interfere with the development or management of the park. Such right of use and occupancy may be either a period ending on the death of the owner or his spouse, whichever occurs last, or a term of not more than twenty-five years, at the election of the owner. Unless the property is donated, the Secretary shall pay to the owner the fair market value of the property less the fair market value of the right retained by the owner. Such right may be transferred or assigned and may be terminated by the Secretary, if he finds that the property is not used for noncommercial residential purposes, upon tender to the holder of the right an amount equal to the fair market value of the unexpired
term. As used in this section, the term “improved property” means a single-family, year-round dwelling, the construction of which was begun before January 1, 1977 (or January 1, 2007, for areas added to the park after that date), which serves as the owner’s permanent place of abode at the time of its acquisition by the United States, together with not more than three acres of land on which the dwelling and appurtenant buildings are located which the Secretary finds is reasonably necessary for the owner’s continued use and occupancy of the dwelling.

The acquisition of lands by the United States in trust for an Indian tribe pursuant to sections 251e to 251m of this title shall not confer any hunting or fishing rights upon such tribe which were not vested in such tribe prior to the acquisition of such lands.

SUBCHAPTER XXXIV—GUADALUPE MOUNTAINS NATIONAL PARK

§ 283. Establishment; purposes; boundaries

(a) In order to preserve in public ownership an area in the State of Texas possessing outstanding geological values together with scenic and other natural values of great significance, the Secretary of the Interior shall establish the Guadalupe Mountains National Park, consisting of the land and interests in land within the area shown on the drawing entitled "Proposed Guadalupe Mountains National Park, Texas", numbered SA–GM–7100C and dated February 1965, which is on file and available for public inspection in the offices of the National Park Service, Department of the Interior.

(b) The boundary of Guadalupe Mountains National Park is hereby modified to include the area which comprises approximately 10,123 acres as generally depicted on the map entitled "Boundary Proposal" and dated August 1986, which will not be erected thereon any structure which, in the judgment of the Secretary, adversely affects the public use and enjoyment of the park.

(b) Adjacent or vicinal land; exchange of property; cash equalization payments

In order to facilitate the acquisition of privately owned lands in the park by exchange and avoid the payment of severance costs, the Secretary of the Interior may acquire approximately 4,667 acres of land or interests in land which lie adjacent to or in the vicinity of the park. Land so acquired outside the park boundary may be exchanged by the Secretary on an equal-value basis, subject to such terms, conditions, and reservations as he may deem necessary, for privately owned land located within the park. The Secretary may accept cash from or pay cash to the grantor in such exchange in order to equalize the values of the properties exchanged. In order to provide for an adequate entrance road into the McKittrick Canyon area of the park, the Secretary may accept title to and interests in lands comprising a right-of-way for a road or roads outside of the boundary of the park from United States Highway numbered 62 and 180 to the park boundary, and in exchange therefor he may convey title to and interests in lands comprising a right-of-way from said highway to the boundary which have been donated to the United States. The Secretary may accept cash from or pay cash to the grantor in such exchange in order to equalize the values of the properties exchanged.

§ 283b. Establishment; notice in Federal Register; property rights

(a) Federal title to property, donation of State and other non-Federal mineral rights and interests, and establishment; notice in Federal Register; acquisition of remaining property; purchase options pending establishment of park; contingent purchase contracts

When the title to all privately owned land within the boundary of the park, subject to such outstanding interests, rights, and easements as the Secretary determines are not objectionable, with the exception of approximately 4,574 acres which are planned to be acquired by exchange, is vested in the United States and after the State of Texas has donated or agreed to donate to the United States whatever rights and interests in minerals underlying the lands within the boundaries of the park it may have and other owners of such rights and interests have donated or agreed to donate the same to the United States, notices thereof and notice of the establishment of the Guadalupe Mountains National Park shall be published in the Federal Register. Thereafter, the Secretary may continue to acquire the remaining land and interests in land within the boundaries of the park. The Secretary is authorized, pending establishment of the park, to negotiate and acquire options for the purchase of lands and interests in land within the boundaries of the park. He is further authorized to execute contracts for the purchase of such lands and interests, but the liability of the United States under any such contract shall be contingent on the availability of appropriated or donated funds to fulfill the same.

(b) Preferential right to reconveyance of mineral rights and interests upon nonuser of lands for national park purposes; notice; period for exercise; beneficiaries

In the event said lands or any part thereof cease to be used for national park purposes, the
persons (including the State of Texas) who donated to the United States rights and interests in minerals in the lands within the park shall be given notice, in accordance with regulations to be prescribed by the Secretary, of their preferential right to a reconveyance, without consideration, of the respective rights and interests in minerals which they donated to the United States. Such notice shall be in a form reasonably calculated to give actual notice to those entitled to such preferential right, and shall provide for a period of not less than one hundred and eighty days within which to exercise such preferential right. The preferential right to such reconveyance shall inure to the benefit of the successors, heirs, devisees, or assigns of such person having such preferential right to a reconveyance, and such successors, heirs, devisees, or assigns shall be given the notice provided for in this subsection.

(c) Leases of mineral rights and interests: withdrawal from leasing; mineral leasing, sale of surplus property, and sale provisions inapplicable; subsection (c) inapplicable upon failure or refusal to exercise preferential right to reconveyance

Such rights and interests in minerals, including all minerals of whatever nature, in and underlying the lands within the boundaries of the park and which are acquired by the United States under the provisions of this subchapter are hereby withdrawn from leasing and are hereby excluded from the application of the present or future provisions of the Mineral Leasing Act for Acquired Lands [30 U.S.C. 351 et seq.] or other Act in lieu thereof having the same purpose, and the same are hereby also excluded from the provisions of all present and future laws affecting the sale of surplus property or of said mineral interests acquired pursuant to this subchapter by the United States or any department or agency thereof, except that, if such person having such preferential right to a reconveyance fails or refuses to exercise such preferential right to a reconveyance as provided in subsection (b) of this section then this subsection (c) shall not be applicable to the rights and interests in such minerals in the identical lands of such person so failing or refusing to exercise such preferential right to a reconveyance from and after the one hundred and eighty-day period referred to in subsection (b) of this section.

(d) Preferential right to lease mineral rights and interests necessary for national welfare or emergency: notice, terms and conditions, beneficiaries; other leases upon failure or refusal to exercise right: terms and conditions

If at any time in the future an Act of Congress provides that the national welfare or an emergency requires the development and production of the minerals underlying the lands within the boundaries of the national park, or any portion thereof, and such Act of Congress, notwithstanding the provisions of subsection (c) of this section or any other Act, authorizes the Secretary to lease said land for the purpose of drilling, mining, developing, and producing said minerals, the Secretary shall give the persons (including the State of Texas) who donated such minerals to the United States notice of their preferential right to lease, without consideration, all or any part of the respective rights and interests in minerals which they donated to the United States, subject to such terms and conditions as the Secretary may prescribe. Such preferential right shall inure to the benefit of the successors or assigns, and of the heirs or devisees of such persons having such preferential right in the premises. The persons entitled to a preferential right under this subsection shall be given the same notice thereof as persons entitled to preferential rights under subsection (b) of this section. If such person having such preferential right fails or refuses to exercise such right within the time specified in the above notice, the Secretary may thereafter lease the minerals involved to any other person under such terms and conditions as he may prescribe.

(e) Proceeds from communitization agreement or protective action; beneficiaries

If at any time oil, gas, or other minerals should be discovered and produced in commercial quantities from lands outside of the boundaries of the park, thereby causing drainage of oil, gas, or other minerals from lands within the boundaries of the park, and if the Secretary participates in a communitization agreement or takes other action to protect the rights of the United States, the proceeds, if any, derived from such agreement or action shall inure to the benefit of the donors of the oil, gas, or other minerals, or their successors, heirs, devisees, or assigns.

(a) Grants to Foundation; amount; non-Federal contributions

The Secretary is authorized to make available to the Foundation, in the form of a grant, $9,000,000 to be used for the reconstruction of the Center, subject to the provisions of this section. Such grant shall be made available in increments as needed for such purpose and only if the Foundation has agreed under terms and conditions satisfactory to the Secretary to provide, from non-Federal sources, sufficient contributions on a timely basis to complete the reconstruction of the Center.

(b) Loans to Foundation; amount; limitation; repayment; interest; service costs; term

(1) The Secretary may make loans to the Foundation to the extent needed to complete the reconstruction of the Center and to provide for noise mitigation measures, including those on adjacent public property, in an amount equal to twice the amount of non-Federal contributions received, and provided, by the Foundation for such reconstruction work. The total amount of such loans may not exceed $8,000,000. Loans
made under this subsection shall be repaid in full, with interest on any unpaid obligation at a rate determined by the Secretary of the Treasury, taking into consideration current market yields on outstanding marketing obligations of the United States with remaining periods to maturity comparable to the maturity of the loan, plus such additional charge, if any, as the Secretary may determine, for the purpose of covering other costs of servicing the loan. In determining the terms and conditions governing any loan, the Secretary shall fix a term of not more than five years from the date the loan agreement is executed.

(2)(A) The term of the loans made pursuant to paragraph (1) which are outstanding on the effective date of this paragraph may not exceed the 25-year period beginning on such date. If such agreement is not modified within the 120-day period, interest shall accrue from the effective date of this paragraph in accordance with paragraph (1).

(C) Notwithstanding any other provision of law, amounts paid to the Secretary pursuant to this paragraph may be retained until expended by the Secretary, in consultation with the Foundation, for the maintenance of structures, facilities, and equipment of the Park.

In submitting such a request, the Secretary shall submit clear evidence of the financial status of the Foundation.

No grants or loans may be made under this section unless the Secretary has entered into a written agreement with the Foundation under which the Foundation agrees—

Such measures may include a partial or total ban on truck traffic on the toll road or other mitigation recommended by the Secretary and the Administrator.
(f) Support services on reimbursable basis

The Secretary may also provide support services, as requested by the Foundation, on a reimbursable basis, for purposes of reconstruction of the Center.

§ 341 TITLE 16—CONSERVATION Page 204

“(2) privately owned lands or interests therein may be acquired only with the consent of the owner thereof, unless the Secretary determines that the property is being developed or proposed to be developed in a manner which is detrimental to the scenic, historical, cultural, and other values for which the Park was established.

“[103] Not later than 6 months after the enactment of this Act [Sept. 25, 1986], the Secretary shall publish specific guidelines under which determinations shall be made under subsection (a)(2). The Secretary shall provide adequate opportunity for public comment on such guidelines. The guidelines shall provide for notice to the Secretary prior to commencement of any proposed development within the boundaries of the Park. The Secretary shall provide written notice to the owner of the property of any determination proposed to be made under subsection (a)(2) and shall provide the owner a reasonable opportunity to comment on such proposal.

“(2) For purposes of this section, except as provided in paragraph (3), development or proposed development of private property within the boundaries of the Park that is significantly different from, or a significant expansion of, development existing as of November 1, 1985, shall be considered by the Secretary as detrimental to the values for which the Park was established.

“(3) Reconstruction or expansion of a private or commercial building shall not be treated as detrimental to the Park or as an incompatible development within the meaning of this section if such reconstruction or expansion is limited to one or more of the following:

“(A) Reconstruction of an existing building.

“(B) Construction of attached or accessory structural additions, which do not exceed 25 per centum of the square footage of the principal structure.

“(C) Construction of reasonable support developments such as roads, parking facilities, water and sewer systems, and dock facilities.

“(c)1 The owners of any private property within the Park may, on the date of its acquisition by the Secretary and as a condition of such acquisition, retain for himself and his successors or assigns a right to use and occupancy for a definite term of not more than 25 years, or ending at the death of the owner, or his spouse, whichever is later. The owners shall elect the term to be reserved. The Secretary shall pay to the owner the fair market value of the property on the date of such acquisition, less the fair market value of the right retained by the owner.

“(2) Any such right retained pursuant to this subsection shall be subject to such terms and conditions as the Secretary may prescribe and may be terminated by the Secretary upon his determination and after reasonable notice to the owner thereof that such property is being used for any purpose which is incompatible with the administration of the Park or with the preservation of the resources therein. Such right shall terminate by operation of law upon notification to the owner by the Secretary and tendering to the owner the amount equal to the fair market value of that portion which remains unexpired.

“(d)1 In exercising his authority to acquire lands by exchange pursuant to this title, the Secretary may accept title to non-Federal property located within the boundary of the Park and may convey to the grantor of such property any federally owned property under the jurisdiction of the Secretary which lies outside said boundary and depicted on the map. Properties so exchanged shall be approximately equal in value, as determined by the Secretary, except that the Secretary may accept cash from or pay cash to the grantor in such an exchange in order to equalize the value of the properties exchanged.

“(2) Federally owned property under jurisdiction of the Secretary referred to in paragraph (1) of this subsection shall be conveyed to the towns in which the property is located without encumbrance and without monetary consideration, except that no town shall be eligible to receive such lands for the Park boundary and owned by the town have been conveyed to the Secretary.

“(e) Notwithstanding any other provision of this section, lands depicted on the map referenced in section 101 and identified as 3DHB and 1DDB known as the ‘New Park Street Ballfield’; and 1DDB known as the ‘Former Park Headquarters’; shall be conveyed by the Secretary, without monetary consideration, to the town of Bar Harbor, Maine, within 180 days following the enactment of this Act [Sept. 25, 1986]. The real property conveyed pursuant to this subsection shall be used and retained by the town for municipal and public purposes. Title to the properties conveyed pursuant to this subsection shall revert to the United States if such property or any portion thereof is conveyed by the town to another party or used for purposes other than those specified in this subsection.

“(f) Notwithstanding any other provision of this section, lands depicted on the map identified as 4DDB, located in the village of Town Hill, Maine, shall be conveyed by the Secretary without monetary consideration, to the town of Bar Harbor, Maine, as soon as practicable following the enactment of this Act [Sept. 25, 1986], subject to such terms and conditions, including appropriate reversionary provisions, as will in the judgment of the Secretary provide for the development and use of such property by any town which so desires as a solid waste transfer station in accordance with a plan that is satisfactory to the town and the Secretary. The Secretary shall (subject to the availability of prior appropriations) contribute toward the cost of constructing such transfer station the lesser of—

“(1) $350,000, or

“(2) 50 per centum of the cost of such construction.

“(g) Notwithstanding any other provision of this section, the Secretary is authorized to acquire by donation or exchange lands or interests therein in the area identified on the map as ‘Schooner Head’, which is outside the boundary of the park. The Secretary is further authorized to acquire conservation easements on such lands by purchase from a willing seller if he determines after written notice to the owner and after providing a reasonable opportunity to comment on such notice, that the property is being developed or proposed to be developed in a manner which is significantly different from or a significant expansion of development existing as of November 1, 1985, as defined in subsection (b) of this section.

“(C) limit year-round seasonal residential and commercial development to activities consistent with the preservation of the islands’ natural qualities and to traditional resource-based land use including, but not limited to, fishing, farming, silviculture, and grazing.

“(3) In determining whether to accept or acquire conservation easements pursuant to this subsection, the Secretary shall consider the following factors:

In providing such notification, the Secretary shall indicate the manner and degree to which the easement meets the criteria provided in this subsection.

“(i) Nothing in this section shall be construed to prohibit the use of condemnation as a means of acquiring a clear and marketable title, free of any and all encumbrances.

“(j)(1) Notwithstanding any other provision of this section, the Secretary shall accept an offer of the following from the Jackson Laboratory (a not-for-profit corporation organized under the laws of Maine):

§ 396e. Exchange of lands

Notwithstanding any other provision of law, the Secretary is authorized and shall seek to acquire the lands described in section 396d(a) of this title by first acquiring Federal surplus lands of equivalent value from the General Services Administration and then exchanging such surplus lands for the lands described in section 396d(a) of this title with the land owners. § 403c–1. Respective jurisdiction of Virginia and United States over lands in Shenandoah Park

In order to provide for uniform Federal jurisdiction over all of the lands now or hereafter embraced within the Shenandoah National Park, the provisions of the Act of the General Assembly of the Commonwealth of Virginia, approved April 1, 1940 (Acts of 1940, ch. 402, p. 725), fixing and defining the respective jurisdiction and powers of the Commonwealth of Virginia and the United States and ceding to the United States exclusive police jurisdiction over all lands now or hereafter included within the park are accepted and such exclusive jurisdiction is assumed by the United States over such lands. From June 5, 1942, the respective jurisdiction and powers of the Commonwealth of Virginia and the United States over all lands within the Shenandoah National Park as it is now constituted or may hereafter be extended shall be as follows:

(a) The United States shall have exclusive jurisdiction, legislative, executive, and judicial, with respect to the commission of crimes, and the arrest, trial, and punishment therefor, and exclusive general police jurisdiction thereover.

(b) The United States shall have the power to regulate or prohibit the sale of alcoholic beverages on said lands: Provided, however, That, if the sale of alcoholic beverages is prohibited by general law in the Commonwealth of Virginia outside of said lands, no such alcoholic beverages shall be sold on said lands contained in said park area: And provided further, That, if the general laws of the Commonwealth of Virginia permit the sale of alcoholic beverages, then the regulations of the United States relating to such sales on said lands shall conform as nearly as possible to the regulatory provisions in accordance with which such sales are permitted in the Commonwealth of Virginia outside of said park lands. Nothing in this subsection shall be construed as reserving in the Commonwealth power to require licenses of persons engaged in the sale of intoxicating beverages on said lands, nor the power to require that any sales be made through official liquor stores.

(c) The Commonwealth of Virginia shall have jurisdiction to serve civil process within the limits of said park in any suits properly instituted in any of the courts of the Commonwealth of Virginia, and to serve criminal process within said limits in any suits or prosecutions for or on account of crimes committed in said Commonwealth but outside of said park.

(d) The Commonwealth of Virginia shall have the jurisdiction and power to levy a nondiscriminatory tax on all alcoholic beverages possessed or sold on said lands.

(e) The Commonwealth of Virginia shall have jurisdiction and power to tax the sales of oil and gasoline, and other motor-vehicle fuels and lubricants for use in motor vehicles. This subsection shall not be construed as a consent by the United States to the taxation by the Commonwealth of such sales for the exclusive use of the United States.

(f) The Commonwealth of Virginia shall have the jurisdiction and power to levy nondiscriminatory taxes on private individuals, associations, and corporations, their franchises and properties, on said lands, and on their businesses conducted thereon.

(g) The courts of the Commonwealth of Virginia shall have concurrent jurisdiction with the courts of the United States of all civil causes of action arising on said lands to the same extent as if the cause of action had arisen in the county or city in which the land lies outside the park area, and the State officers shall have jurisdiction to enforce on said lands the judgments of said State courts and the collection of taxes by appropriate process.

(h) Persons residing in or on any of the said lands embraced in said Shenandoah National Park shall have the right to establish a voting residence in Virginia by reason thereof, and the consequent right to vote at all elections within the county or city in which said land or lands upon which they reside are located upon like terms and conditions, and to the same extent, as they would be entitled to vote in such county or city if the said lands on which they reside had not been deeded or conveyed to the United States of America. All fugitives from justice taking refuge in the park shall be subject to the same laws as refugees from justice found in the Commonwealth of Virginia.

"SECTION 1. FINDINGS.

"Congress finds that—

"(1) open space near Grand Teton National Park continues to decline;

"(2) as the population continues to grow in Teton County, Wyoming, undeveloped land near the Park becomes more scarce;

"(3) the loss of open space around Teton Park has negative impacts on wildlife migration routes in the area and on visitors to the Park, and its repercussions can be felt throughout the entire region;

"(4) a few ranches make up Teton Valley’s remaining open space, and the ranches depend on grazing in Grand Teton National Park for summer range to maintain operations;

"(6) the use and disposition of which may affect accomplishment of the purposes of the Act.

"(b) PURPOSE.—The study shall—

"(1) assess the significance of the ranching use and pastoral character of the land (including open vistas, wildlife habitat, and other public benefits);

"(2) assess the significance of that use and character to the purposes for which the Park was established and identify any need for preservation of, and practicable means of, preserving the land that is necessary to protect that use and character;

"(3) recommend a variety of economically feasible and viable tools and techniques to retain the pastoral qualities of the land; and

"(4) estimate the costs of implementing any recommendations made for the preservation of the land.

"(c) PARTICIPATION.—In conducting the study, the Secretary of the Interior shall seek participation from the Governor of the State of Wyoming, the Teton County Commissioners, the Secretary of Agriculture, affected land owners, and other interested members of the public.

"(d) REPORT.—Not later than 3 years from the date funding is available for the purposes of this Act, the Secretary of the Interior shall submit a report to Congress that contains the findings of the study under subsection (a) and makes recommendations to Congress regarding action that may be taken with respect to the land described in subsection (a).

"SEC. 3. EXTENSION OF GRAZING PRIVILEGES.

"(a) IN GENERAL.—Subject to subsection (b), the Secretary of the Interior shall reestablish and extend for the duration of the study described in section 2(a) and until such time as the recommendations of the study are implemented, the grazing privileges described in section 2(a)(1), under the same terms and conditions as were in effect prior to the expiration of the privileges.

"(b) EFFECT OF CHANGE IN LAND USE.—If, during the period of the study or until such time as the recommendations of the study are implemented, any portion of the land described in section 2(a)(1) is disposed of in a manner that would result in the land no longer being used for ranching or other agricultural purposes, the Secretary of the Interior shall cancel the extension described in subsection (a)."

§ 406d–3. Compensation for tax losses; limitation on annual amount

(a) In order to provide compensation for tax losses sustained as a result of any acquisition by the United States, subsequent to March 15, 1943, of privately owned lands, together with any improvements thereon, located within the exterior boundary of the Grand Teton National Park established by this subchapter and sections 431a, 431b, 432m, 673b, and 673c of this title, payments shall be made to the State of Wyoming for distribution to the county in which such lands are located in accordance with the following schedule of payments: For the fiscal year in which the land has been or may be acquired and nine years thereafter there shall be paid an amount equal to the full amount of annual taxes last assessed and levied on the land, together with any improvements thereon, by the county, less any amount, to be determined by the Secretary of the Interior, which may have been paid on account of taxes for any period falling within such fiscal year. For each succeeding fiscal year, until twenty years elapse, there shall be paid on account of such land an amount equal to the full amount of taxes referred to in the preceding sentence, less 5 per centum of such full amount for each fiscal year, including the year for which the payment is to be made: Provided, That the amount payable under the foregoing schedule for any fiscal year preceding the first full fiscal year following September 14, 1950, shall not become payable until the end of such first full fiscal year.

(b) As soon as practicable after the end of each fiscal year, the amount then due for such fiscal year shall be computed and certified by the Secretary of the Interior, and shall be paid by the Secretary of the Treasury: Provided, That such
amount shall not exceed 25 per centum of the fees collected during such fiscal year from visitors to the Grand Teton National Park established by this subchapter and sections 431a, 451a, 482m, 673b, and 673c of this title, and the Yellowstone National Park. Payments made to the State of Wyoming under this section shall be distributed to the county where the lands acquired from private landowners are located and in such manner as the State of Wyoming may prescribe.

CODIFICATION

Provisions that authorized the employment of such experts and other officers and employees as are necessary to carry out this subchapter ‘without regard to the Classification Act of 1923, as amended’, were omitted as obsolete. Sections 1202 and 1204 of the Classification Act of 1949, 63 Stat. 972, 973, repealed the 1923 Act and all laws or parts of laws inconsistent with the 1949 Act. While section 1106(a) of the 1949 Act provided that references in other laws to the 1923 Act should be held and considered to mean the 1949 Act, it did not have the effect of continuing the exception contained in this section because of section 1106(b) which provided that the application of the 1949 Act to any position, officer, or employee shall not be affected by section 1106(a). The Classification Act of 1949 was repealed by Pub. L. 89–554, Sept. 6, 1966, § 8(a), 80 Stat. 632 (the first section of which enacted Title 5, Government Organization and Employees, into law). Section 5102 of Title 5 contains the applicability provisions of the 1949 Act, and section 5103 of Title 5 authorized the Office of Personnel Management to determine the applicability to specific positions and employees.

Amendments

1970—Pub. L. 91–293 substituted ‘‘$11,200,000’’ for ‘‘$7,950,000’’.

1958—Pub. L. 85–764 substituted ‘‘$7,950,000’’ for ‘‘$7,700,000’’.

1952—Act July 10, 1952, substituted ‘‘$7,700,000’’ for ‘‘$4,435,000’’.

The Secretary, in his discretion and notwithstanding other requirements of law, may exercise and carry out the functions authorized herein by entering into agreements or contracts with public or private agencies, corporations, or persons, upon such terms and conditions as he deems to be appropriate in carrying out the purposes of this subchapter.

MICCOSUKEE RESERVED AREA

"SECTION 1. SHORT TITLE.
"This Act may be cited as the ‘Miccousukee Reserved Area Act’.

"SEC. 2. FINDINGS.
"Congress finds the following:
"(1) Since 1964, the Miccosukee Tribe of Indians of Florida have lived and governed their own affairs on a strip of land on the northern edge of the Everglades National Park pursuant to permits from the National Park Service and other legal authority. The current permit expires in 2014.
"(2) Since the commencement of the Tribe’s permitted use and occupancy of the Special Use Permit Area, the Tribe’s membership has grown, as have the needs and desires of the Tribe and its members for modern housing, governmental and administrative facilities, schools and cultural amenities, and related structures.

"(3) The United States, the State of Florida, the Miccosukee Tribe, and the Seminole Tribe of Florida are participating in a major intergovernmental effort to restore the South Florida ecosystem, including the restoration of the environment of the Park.

"(4) The Special Use Permit Area is located within the northern boundary of the Park, which is critical to the protection and restoration of the Everglades, as well as to the cultural values of the Miccosuukee Tribe.

"(5) The interests of both the Miccosukee Tribe and the United States would be enhanced by a further delineation of the rights and obligations of each with respect to the Special Use Permit Area and to the Park as a whole.

"(6) The amount and location of land allocated to the Tribe fulfills the purposes of the Park.

"(7) The use of the Miccosukee Reserved Area by the Miccosukee Tribe does not constitute an abandonment of the Park.

"SEC. 3. PURPOSES.
"The purposes of this Act are as follows:
"(1) To replace the special use permit with a legal framework under which the Tribe can live permanently and govern the Tribe’s own affairs in a modern community within the Park.

"(2) To protect the Park outside the boundaries of the Miccosukeye Reserved Area from adverse effects of structures or activities within that area, and to support restoration of the South Florida ecosystem, including restoring the environment of the Park.

To exercise this reservation, the owners, their lessees, agents, employees, and assigns shall have such right of ingress and egress to and from such lands as may be necessary; and

§ 410r–5. Findings, purposes, and definitions

(a) Findings

The Congress makes the following findings:

(1) The Everglades National Park is a nationally and internationally significant resource and the park has been adversely affected and continues to be adversely affected by external factors which have altered the ecosystem including the natural hydrologic conditions within the park.

(2) The existing boundary of Everglades National Park excludes the contiguous lands and waters of the Northeast Shark River Slough that are vital to long-term protection of the park and restoration of natural hydrologic conditions within the park.

(3) Wildlife resources and their associated habitats have been adversely impacted by the alteration of natural hydrologic conditions within the park, which has contributed to an overall decline in fishery resources and a 90 percent population loss of wading birds.

(4) Incorporation of the Northeast Shark River Slough and the East Everglades within the park will limit further losses suffered by the park due to habitat destruction outside the present park boundaries and will preserve valuable ecological resources for use and enjoyment by future generations.

(5) The State of Florida and certain of its political subdivisions or agencies have indicated a willingness to transfer approximately 35,000 acres of lands under their jurisdiction to the park in order to protect lands and water within the park, and may so transfer additional lands in the future.

(6) The State of Florida has proposed a joint Federal-State effort to protect Everglades National Park through the acquisition of additional lands.

(b) Purposes

The purposes of sections 410r–5 to 410r–8 of this title are to—

(1) increase the level of protection of the outstanding natural values of Everglades National Park and to enhance and restore the ecological values, natural hydrologic conditions, and public enjoyment of such area by adding the area commonly known as the Northeast Shark River Slough and the East Everglades to Everglades National Park; and
(2) assure that the park is managed in order to maintain the natural abundance, diversity, and ecological integrity of native plants and animals, as well as the behavior of native animals, as a part of their ecosystem.

vide technical assistance and personnel to assist in the acquisition of lands and waters within the Kissimmee River/Lake Okeechobee/Everglades Hydrologic Basin, including the Big Cypress Swamp, through the provision of Federal land acquisition personnel, practices, and procedures. The State of Florida shall reimburse the Secretary for such assistance in such amounts and at such time as agreed upon by the Secretary and the State. The Secretary of the Army is directed in analysis, design and engineering associated with the development of a general design memorandum for works and operations in the “C-111 basin” area of the East Everglades, to take all measures which are feasible and consistent with the purposes of the project to protect natural values associated with Everglades National Park. For purposes of administration, promotion, development, and support by appropriations, that part of the Klondike Gold Rush International Historical Park within the territory of the United States shall continue to be designated as the “Klondike Gold Rush National Historical Park”.

PROCL. NO. 7114. DESIGNATING KLONDIKE GOLD RUSH INTERNATIONAL HISTORICAL PARK

Proc. No. 7114, Aug. 5, 1998, 63 F.R. 42563, provided:

A century ago, the Klondike Gold Rush began a migration that forever changed Alaska and the Yukon Territory. More than 100,000 people headed north during 1897 and 1898, catapulting a little-known region from obscurity to the center of the world stage. While the Klondike was not the first or largest western gold rush, coming nearly 50 years after the 1848 gold discovery at Sutter’s Mill, California, it is remembered for the sheer drama by which it was announced to the world and for its century-long influence on Alaska and the upper Yukon River basin.

The United States and Canada have been engaged for 30 years in joint planning and cooperation to commemorate the Klondike Gold Rush and preserve historic structures and trails on both sides of the international boundary. In 1976, the Government of the United States established Klondike Gold Rush National Historical Park, consisting of a Seattle unit, a Skagway unit, a Chilkoot Pass unit, and a White Pass unit, to preserve the historic structures and trails. The Government of Canada has recognized the national significance of the Chilkoot Trail and Dawson Historical Complex by designating them as National Historic Sites. It has also designated a section of the Yukon River as a Canadian Heritage River and taken other steps to commemorate the rich history of this region. It is the desire of the United States to join our Canadian neighbors in celebrating our shared history on the occasion of the centennial of the Klondike Gold Rush and to reaffirm the commitment of the United States to continuing the joint efforts of both nations to preserve our shared Klondike history.

In 1996, Canadian Prime Minister Jean Chrétien proclaimed that, “the governments of Canada and the United States and of Yukon and Alaska in a long-standing spirit of cooperation have agreed to establish the Klondike Gold Rush International Historic Park, incorporating the resources of the Chilkoot Trail National Historic Site in British Columbia and the Klondike Gold Rush National Historical Park in Alaska . . .”

Section 3(a) of U.S. Public Law 94-323 (16 U.S.C. 410bb-2(a)) states, “At such time . . . that planning, development, and protection of the adjacent or related historic and scenic resources in Canada have been accomplished by the Government of Canada in a manner consistent with the purposes for which the park was established, and upon enactment of a provision similar to this section by the proper authority of the Canadian Government, the President is authorized to issue a proclamation designating and including the park as a part of an international historical park to be known as Klondike Gold Rush International Historical Park.”

NOW, THEREFORE, I, WILLIAM J. CLINTON, President of the United States of America, by virtue of the authority vested in me by section 3(a) of Public Law 94-323 (16 U.S.C. 410bb-2(a)) of June 30, 1976, do proclaim that Klondike Gold Rush National Historical Park is designated and included as part of an international historical park to be known as Klondike Gold Rush International Historical Park.

IN WITNESS WHEREOF, I have hereunto set my hand this fifth day of August, in the year of our Lord nineteen hundred and ninety-eight, and of the Independence of the United States of America the two hundred and twenty-third.

WILLIAM J. CLINTON.

§ 410bb-3. Authorization of appropriations

There are hereby authorized to be appropriated such sums as may be necessary to carry out the purposes of this subchapter, but not more than $2,655,000 for the acquisition of lands and interests in lands, and not more than $5,885,000 for development.

(2) an attack during this campaign by the Japanese Imperial fleet, aimed at countering the American forces that had landed on Saipan, led to the battle of the Philippine Sea, which resulted in a crushing defeat for the Japanese by United States naval forces and the destruction of the effectiveness of the Japanese carrier-based airpower;

(3) the recapture of Guam liberated one of the few pieces of United States territory that was occupied for two and one-half years by the enemy during World War II and restored freedom to the indigenous Chamorros on Guam who suffered as a result of the Japanese occupation;

(B) were relocated to remote sections of the island;

Each agreement under paragraph (2) shall provide among other things that the owner will hold and preserve the historic property in perpetuity and will not undertake or permit the alteration or removal of historic features or the erection of markers, structures, or buildings without the prior concurrence of the Secretary, and that the public shall have reasonable access to those portions of the property to which access is necessary in the judgment of the Secretary for the proper appreciation and interpretation of its historical and architectural value. § 410ff–1. Acquisition of property

(a) Authority of Secretary of the Interior; fair market value; State-owned land; Federal property located within park

Within the boundaries of the park as established in section 410ff of this title, the Secretary of the Interior (hereinafter referred to as the "Secretary") is authorized to acquire lands, waters, or interests therein (including but not limited to scenic easements) by donation, purchase with donated or appropriated funds, transfer from any Federal agency, exchange, or otherwise. Unless the property is wholly or partially donated, the Secretary shall pay to the owner the fair market value of the property on the date of its acquisition, less the fair market value on that date of any right retained by the owner. Any lands, waters, or interests therein owned by the State of California or any political subdivision thereof shall not be acquired. Notwithstanding any other provision of law, Federal property located within the boundaries of the park shall with the concurrence of the head of the agency having custody thereof, be transferred to the administrative jurisdiction of the Secretary for the purposes of the park: Provided, That the Secretary shall permit the use of federally owned park lands and waters which (i) have been transferred from another Federal agency pursuant to this section or which (ii) were the
subject of a lease or permit issued by a Federal agency as of March 5, 1980, for essential national security missions and for navigational aids, subject to such terms and conditions as the Secretary deems necessary to protect park resources.  

(b) Lands owned, or under option to, National Park Foundation, The Nature Conservancy, or similar organizations  

Notwithstanding the acquisition authority contained in subsection (a) of this section, any lands, waters, or interests therein, which are owned wholly or in part, by or which hereafter may be owned by, or under option to, the National Park Foundation, The Nature Conservancy (including any lands, waters, or interests therein which are designated as "Nature Conservancy Lands" on the map referred to in section 410ff of this title) or any similar national, non-profit conservation organization, or an affiliate or subsidiary thereof shall be acquired only with the consent of the owner thereof. Provided, That the Secretary may acquire such property in accordance with the provisions of this subchapter if he determines that the property is undergoing or is about to undergo a change in use which is inconsistent with the purposes of this subchapter.  

(c) Privately owned lands on Santa Rosa Island  

With respect to the privately owned lands on Santa Rosa Island, the Secretary shall acquire such lands as expeditiously as possible after March 5, 1980. The acquisition of these lands shall take priority over the acquisition of other privately owned lands within the park.  

(d) Retention of rights by owners; compatible use under lease  

(1) The owner of any private property may, on the date of its acquisition and as a condition of such acquisition, retain for himself a right of use and occupancy of all or such portion of such property as the owner may elect for a definite term of not more than twenty-five years, or ending at the death of the owner, or his spouse, whichever is later. The owner shall elect the term to be reserved. Any such right retained pursuant to this subsection with respect to any property shall be subject to termination by the Secretary upon his determination that such property is being used for any purpose which is incompatible with the administration of the park or with the preservation of the resources therein, and it shall terminate by operation of law upon notification by the Secretary to the holder of the right, of such determination and tendering to him the amount equal to the fair market value of that portion which remains unexpired.  

(2) In the case of any property acquired by the Secretary pursuant to this subchapter with respect to which a right of use and occupancy was not reserved by the former owner pursuant to this subsection, at the request of the former owner, the Secretary may enter into a lease agreement with the former owner under which the former owner may continue any existing use of such property which is compatible with the administration of the park and with the preservation of the resources therein.  

(3) Any right retained pursuant to this subsection, and any lease entered into under paragraph (2), shall be subject to such access and other provisions as may be required by the Secretary for visitor use and resources management.  

(e) Acquisition of certain property on Santa Cruz Island  

(1) Notwithstanding any other provision of law, effective 90 days after November 12, 1996, all right, title, and interest in and to, and the right to immediate possession of, the real property on the eastern end of Santa Cruz Island which is known as the Gherini Ranch is hereby vested in the United States, except for the reserved rights of use and occupancy set forth in Instrument No. 90-027494 recorded in the Official Records of the County of Santa Barbara, California.  

(2) The United States shall pay just compensation to the owners of any real property taken pursuant to this subsection, determined as of the date of taking. The full faith and credit of the United States is hereby pledged to the payment of any judgment entered against the United States with respect to the taking of such property. Payment shall be in the amount of the agreed negotiated value of such real property plus interest or the valuation of such real property awarded by judgment plus interest. Interest shall accrue from the date of taking to the date of payment. Interest shall be compounded quarterly and computed at the rate applicable for the period involved, as determined by the Secretary of the Treasury on the basis of the current average market yield on outstanding marketable obligations of the United States of comparable maturities from November 12, 1996, to the last day of the month preceding the date on which payment is made.  

(3) In the absence of a negotiated settlement, or an action by the owner, within 1 year after November 12, 1996, the Secretary shall initiate a proceeding, seeking in a court of competent jurisdiction a determination of just compensation with respect to the taking of such property.  

(4) The Secretary shall not allow any unauthorized use of the lands to be acquired under this subsection, except that the Secretary shall permit the orderly termination of all current activities and the removal of any equipment, facilities, or personal property.

AMENDMENTS

ANAKTUVUK PASS LAND EXCHANGE

Section 302 of title III of div. I of Pub. L. 104–333 provided that:

“(a) FINDINGS.—The Congress makes the following findings:

“(1) The Alaska National Interest Lands Conservation Act (94 Stat. 2371 [Pub. L. 96–487, see Short Title note set out under section 3101 of this title]), enacted on December 2, 1980, established Gates of the Arctic National Park and Preserve and Gates of the Arctic Wilderness. The Village of Anaktuvuk Pass, located in the highlands of the central Brooks Range is virtually surrounded by these national park and wilderness lands and is the only Native village located within the boundary of a National Park System unit in Alaska.

“(2) Unlike most other Alaskan Native communities, the village [sic] of Anaktuvuk Pass is not located on a major river, lake, or coastline that can be used as a means of access. The residents of Anaktuvuk pass [sic] have relied increasingly on snow machines in winter and all-terrain vehicles in summer as their primary means of access to pursue caribou and other subsistence resources.

“(3) In a 1983 land exchange agreement, linear easements were reserved by the Inupiat Eskimo people for use of all-terrain vehicles across certain national park lands, mostly along stream and river banks. These linear easements proved unsatisfactory, because they provided inadequate access to subsistence resources while causing excessive environmental impact from concentrated use.

“(4) The National Park Service and the Nunamiut Corporation initiated discussions in 1985 to address concerns over the use of all-terrain vehicles on park and wilderness land. These discussions resulted in an agreement, originally executed in 1992 and thereafter amended in 1993 and 1994, among the National Park Service, Nunamiut Corporation, the City of Anaktuvuk Pass, and Arctic Slope Regional Corporation. Full effectuation of this agreement, as amended, by its terms requires ratification by the Congress.
``(b) RATIFICATION OF AGREEMENT.—
``(1) RATIFICATION.—
``(A) IN GENERAL.—The terms, conditions, provisions, covenants, reservations, and other provisions set forth in the document entitled ‘Donation, Exchange of Lands and Interests in Lands and Wilderness Reserve, re-designation Agreement Among Arctic Slope Regional Corporation, Nunamuit Corporation, City of Anaktuvuk Pass and the United States of America’ (hereinafter referred to in this section as ‘the Agreement’), executed by the parties on December 17, 1992, as amended, are hereby incorporated in this title [see Tables for classification], are ratified and confirmed, and set forth the obligations and commitments of the United States, Arctic Slope Regional Corporation, Nunamuit Corporation and the City of Anaktuvuk Pass, as a matter of Federal law.
``(B) LAND ACQUISITION.—Lands acquired by the United States pursuant to the Agreement shall be administered by the Secretary of the Interior (hereinafter referred to as the ‘Secretary’) as part of Gates of the Arctic National Park and Preserve, subject to the laws and regulations applicable thereto.
``(2) MAPS.—The maps set forth as Exhibits C1, C2, and D through I to the Agreement depict the lands subject to the conveyances, retention of surface access rights, access easements and all-terrain vehicle easements. These lands are depicted in greater detail on a map entitled ‘Land Exchange Actions, Proposed Anaktuvuk Pass Land Exchange and Wilderness Re-designation, Gates of the Arctic National Park and Preserve’, Map No. 185/80,039, dated April 1994, and on file at the Alaska Regional Office of the National Park Service and the offices of Gates of the Arctic National Park and Preserve in Fairbanks, Alaska. Written legal descriptions of these lands shall be prepared and made available in the above offices. In case of any discrepancies, Map No. 185/80,039 shall be controlling.
``(c) NATIONAL PARK SYSTEM WILDERNESS.—
``(1) GATES OF THE ARCTIC WILDERNESS.—[Amended provisions listed in a Table of Wilderness Areas set out under section 1132 of this title.]
``(2) NOatak NATIONAL PRESERVE.—[Amended this section.]
``(d) NOatak WILDERNESS.—[Amended provisions listed in a Table of Wilderness Areas set out under section 1132 of this title.]
``(4) CONFORMANCE WITH OTHER LAW.—
``(1) ALASKA NATIVE CLAIMS SETTLEMENT ACT.—All of the lands, or interests therein, conveyed to and received by Arctic Slope Regional Corporation or Nunamuit Corporation pursuant to the Agreement shall be deemed conveyed and received pursuant to exchanges under section 22(f) of the Alaska Native Claims Settlement Act, as amended (43 U.S.C. 1601, 1621(f)). All of the lands or interests in lands conveyed pursuant to the Agreement shall be conveyed subject to valid existing rights.
``(2) ALASKA NATIONAL INTEREST LANDS CONSERVATION ACT.—Except to the extent specifically set forth in this section or the Agreement, nothing in this section or in the Agreement shall be construed to enlarge or diminish the rights, privileges, or obligations of any person, including specifically the preference for subsistence uses and access to subsistence resources provided under the Alaska National Interest Lands Conservation Act (16 U.S.C. 3101 et seq.)."

Approximately three hundred and eight thousand acres of additional public land is hereby established as Katmai National Preserve, both as generally depicted on map numbered 90,007, and dated July 1980; furthermore, the monument is hereby re-designated as ‘Katmai National Park’. The monument addition and preserve shall be managed for the following purposes, among others: To protect habitats for, and populations of, fish and wildlife including, but not limited to, high concentrations of brown/grizzly bears and their denning areas; to maintain unimpaired the water habitat for significant salmon populations; and to protect scenic, geological, cultural and recreational features.

(3)(a) Mount McKinley National Park, by the addition of an area containing approximately two million four hundred and twenty-six thousand acres of public land, and approximately one million three hundred and thirty thousand acres of additional public land is hereby established as Denali National Preserve, both as generally depicted on map numbered DENA–90,007, and dated July 1980 and the whole is hereby re-designated as Denali National Park and Preserve. The monument addition and preserve shall be managed for the following purposes, among others: To protect a segment of the Alsek River, fish and wildlife habitats and migration routes, and a portion of the Fairweather Range including the northwest slope of Mount Fairweather. Lands, waters, and interests therein within the boundary of the park and preserve which were within the boundary of any national forest are hereby excluded from such national forest and the boundary of such national forest is hereby revised accordingly.

(b) The Alaska Land Use Council shall, in cooperation with the Secretary, complete a study of the Kantishna Hills and Dunkle Mine areas of the park as generally depicted on a map entitled “Kantishna Hills/Dunkle Mine Study Area” dated October 1979, and report thereon to the Congress not later than three
years from December 2, 1980. The study and report shall evaluate the resources of the area, including but not limited to, fish and wildlife, public recreation opportunities, wilderness potential, historic resources, and minerals, and shall include those recommendations respecting resources and other relevant matters which the Council determines are necessary. In conjunction with the study required by this section, the Council, in consultation with the Secretary, shall compile information relating to the mineral potential of the areas encompassed within the study, the estimated cost of acquiring mining properties, and the environmental consequences of further mineral development.

(c) During the period of the study, no acquisition of privately owned land shall be permitted within the study area, except with the consent of the owner, and the holders of valid mining claims shall be permitted to operate on their claims, subject to reasonable regulations designed to minimize damage to the environment: Provided, however, that such lands or claims shall be subject to acquisition without the consent of the owner or holder if the Secretary determines, after notice and opportunity for hearing, if such notice and hearing are not otherwise required by applicable law or regulation, that activities on such lands or claims will significantly impair important scenic, wildlife, or recreational values of the public lands which are the subject of the study.

TIMBISHA SHOSHONE HOMELAND

Pub. L. 106–423, Nov. 1, 2000, 114 Stat. 1475, provided that:

“SECTION 1. SHORT TITLE.

“This Act may be cited as the ‘Timbisha Shoshone Homeland Act’.

“SEC. 2. FINDINGS.

“Congress finds the following:

“(1) Since time immemorial, the Timbisha Shoshone Tribe has lived in portions of California and Nevada. The Tribe’s ancestral homeland includes the area that now comprises Death Valley National Park and other areas of California and Nevada now administered by the Bureau of Land Management.

“(2) Since 186, the Tribe has lived and governed the affairs of the Tribe on approximately 40 acres of land near Furnace Creek in the Park.

“(3) The Tribe achieved Federal recognition in 1983 but does not have a land base within the Tribe’s ancestral homeland.

“(4) Since the Tribe commenced use and occupancy of the Furnace Creek area, the Tribe’s membership has grown. Tribal members have a desire and need for housing, government and administrative facilities, cultural facilities, and sustainable economic development to provide decent, safe, and healthy conditions for themselves and their families.

“(5) The interests of both the Tribe and the National Park Service would be enhanced by recognizing their coexistence on the same land and by establishing partnerships for compatible land uses and for the interpretation of the Tribe’s history and culture for visitors to the Park.

“(6) The interests of both the Tribe and the United States would be enhanced by the establishment of a land base for the Tribe and by further delineation of the rights and obligations of each with respect to the Furnace Creek area and to the Park as a whole.

“SEC. 3. PURPOSES.

“Consistent with the recommendations of the report required by section 765(b) of the California Desert Protection Act of 1994 (16 U.S.C. 410aaa–765(b)) (Public Law 103–433; 108 Stat. 4498), the purposes of this Act are—

“(1) to provide in trust to the Tribe land on which the Tribe can live permanently and govern the Tribe’s affairs in a modern community within the ancestral homeland of the Tribe outside and within the Park;

“(2) to formally recognize the contributions by the Tribe to the history, culture, and ecology of the Park and surrounding area;

“(3) to ensure that the resources within the Park are protected and enhanced by—

“(A) cooperative activities within the Tribe’s ancestral homeland; and

“(B) partnerships between the Tribe and the National Park Service and partnerships involving the Bureau of Land Management;

“(4) to ensure that such activities are not in derogation of the purposes and values for which the Park was established;

“(5) to provide opportunities for a richer visitor experience at the Park through direct interactions between visitors and the Tribe including guided tours, interpretation, and the establishment of a tribal museum and cultural center;

“(6) to provide appropriate opportunities for economically viable and ecologically sustainable visitor-related development, by the Tribe within the Park, that is not in derogation of the purposes and values for which the Park was established; and

“(7) to provide trust lands for the Tribe in 4 separate parcels of land that is now managed by the Bureau of Land Management and authorize the purchase of 2 parcels now held in private ownership to be taken into trust for the Tribe.

“(C) RIGHT-OF-WAY.—The Tribe shall have a right-of-way for ingress and egress on Highway 190 in California.

PART C—MOJAVE NATIONAL PRESERVE

§ 410aaa–41. Findings

The Congress hereby finds that—

(1) Death Valley and Joshua Tree National Parks, as established by this Act, protect unique and superlative desert resources, but do not embrace the particular ecosystems and transitional desert type found in the Mojave Desert area lying between them on public lands now afforded only impermanent administrative designation as a national scenic area;

(2) the Mojave Desert area possesses outstanding natural, cultural, historical, and recreational values meriting statutory designation and recognition as a unit of the National Park System;

(3) the Mojave Desert area should be afforded full recognition and statutory protection as a national preserve;

(4) the wilderness within the Mojave Desert should receive maximum statutory protection by designation pursuant to the Wilderness Act [16 U.S.C. 1131 et seq.]; and

(5) the Mojave Desert area provides an outstanding opportunity to develop services, programs, accommodations and facilities to ensure the use and enjoyment of the area by individuals with disabilities, consistent with section 794 of title 29, Public Law 101–336, the Americans With Disabilities Act of 1990 [42 U.S.C. 12101 et seq.], and other appropriate laws and regulations.

SUBCHAPTER LIX–AA—CANE RIVER CREOLE NATIONAL HISTORICAL PARK AND NATIONAL HERITAGE AREA

PART A—CANE RIVER CREOLE NATIONAL HISTORICAL PARK

§ 410ccc. Findings and purposes

(a) Findings
The Congress finds that—
(1) the Natchitoches area along Cane River, established in 1714, is the oldest permanent settlement in the Louisiana Purchase territory;
(2) the Cane River area is the locale of the development of Creole culture, from French-Spanish interactions of the early 18th century of today’s living communities;
(3) the Cane River, historically a segment of the Red River, provided the focal point for early settlement, serving as a transportation route upon which commerce and communication reached all parts of the colony;
(4) although a number of Creole structures, sites, and landscapes exist in Louisiana and elsewhere, unlike the Cane River area, most are isolated examples, and lack original outbuilding complexes or integrity;
(5) the Cane River area includes a great variety of historical features with original elements in both rural and urban settings and a cultural landscape that represents various aspects of Creole culture, providing the base for a holistic approach to understanding the broad continuum of history within the region;
(6) the Cane River region includes the Natchitoches National Historic Landmark District, composed of approximately 300 publicly and privately owned properties, four other national historic landmarks, and other structures and sites that may meet criteria for landmark significance following further study;
(7) historic preservation within the Cane River area has greatly benefitted from individuals and organizations that have strived to protect their heritage and educate others about their rich history; and
(8) because of the complexity and magnitude of preservation needs in the Cane River area, and the vital need for a culturally sensitive approach, a partnership approach is desirable for addressing the many preservation and educational needs.

(b) Purposes
The purposes of this subchapter are to—
(1) recognize the importance of the Cane River Creole culture as a nationally signifi-

cant element of the cultural heritage of the United States;
(2) establish a Cane River Creole National Historical Park to serve as the focus of interpretative and educational programs on the history of the Cane River area and to assist in the preservation of certain historic sites along the river; and
(3) establish a Cane River National Heritage Area and Commission to be undertaken in partnership with the State of Louisiana, the City of Natchitoches, local communities and settlements of the Cane River area, preservation organizations, and private landowners, with full recognition that programs must fully involve the local communities and landowners.

SUBCHAPTER LIX–FF—GREAT SAND DUNES NATIONAL PARK AND PRESERVE

§ 410hhh. Findings

Congress finds that—

(1) the Great Sand Dunes National Monument in the State of Colorado was established by Presidential proclamation in 1932 to preserve Federal land containing spectacular and unique sand dunes and additional features of scenic, scientific, and educational importance for the benefit and enjoyment of future generations;

(2) the Great Sand Dunes, together with the associated sand sheet and adjacent wetland and upland, contain a variety of rare ecological, geological, paleontological, archaeological, scenic, historical, and wildlife components, which

(A) include the unique pulse flow characteristics of Sand Creek and Medano Creek that are integral to the existence of the dune system;

(B) interact to sustain the unique Great Sand Dunes system beyond the boundaries of the existing National Monument;

(C) are enhanced by the serenity and rural western setting of the area; and

(D) comprise a setting of irreplaceable national significance;

(3) the Great Sand Dunes and adjacent land within the Great Sand Dunes National Monument—

(A) provide extensive opportunities for educational activities, ecological research, and recreational activities; and

(B) are publicly used for hiking, camping, and fishing, and for wilderness value (including solitude);

(4) other public and private land adjacent to the Great Sand Dunes National Monument—

(A) offers additional unique geological, hydrological, paleontological, scenic, scientific, educational, wildlife, and recreational resources; and

(B) contributes to the protection of—

(i) the sand sheet associated with the dune mass;

(ii) the surface and ground water systems that are necessary to the preservation of the dunes and the adjacent wetland; and

(iii) the wildlife, viewshed, and scenic qualities of the Great Sand Dunes National Monument;

(5) some of the private land described in paragraph (4) contains important portions of the sand dune mass, the associated sand sheet, and unique alpine environments, which would be threatened by future development pressures;

(6) the designation of a Great Sand Dunes National Park, which would encompass the existing Great Sand Dunes National Monument and additional land, would provide—

(A) greater long-term protection of the geological, hydrological, paleontological, scenic, scientific, educational, wildlife, and recreational resources of the area (including the sand sheet associated with the dune mass and the ground water system on which the sand dune and wetland systems depend); and

(B) expanded visitor use opportunities;

(7) land in and adjacent to the Great Sand Dunes National Monument is—

(A) recognized for the culturally diverse nature of the historical settlement of the area;

(B) recognized for offering natural, ecological, wildlife, cultural, scenic, paleontological, wilderness, and recreational resources; and

(C) recognized as being a fragile and irreplaceable ecological system that could be destroyed if not carefully protected; and

(8) preservation of this diversity of resources would ensure the perpetuation of the entire ecosystem for the enjoyment of future generations.

antebellum plantation for the education, inspiration, and benefit of present and future generations;

(Stonewall) Jackson campaign of 1862 and the decisive campaigns of 1864.

SHORT TITLE

Pub. L. 107–373, § 1, Dec. 19, 2002, 116 Stat. 3104, provided that: "This Act [enacting this subchapter] may be cited as the 'Cedar Creek and Belle Grove National Historical Park Act.'"

§ 410iii–1. Findings

Congress finds the following:

(1) The Battle of Cedar Creek, also known as the battle of Belle Grove, was a major event of the Civil War and the history of this country. It represented the end of the Civil War’s Shenandoah Valley campaign of 1864 and contributed to the reelection of President Abraham Lincoln and the eventual outcome of the war.

(2) 2,500 acres of the Cedar Creek Battlefield and Belle Grove Plantation were designated a national historic landmark in 1969 because of their ability to illustrate and interpret important eras and events in the history of the United States. The Cedar Creek Battlefield, Belle Grove Manor House, the Heater House, and Harmony Hall (a National Historic Landmark) are also listed on the Virginia Landmarks Register.

(3) The Secretary of the Interior has approved the Shenandoah Valley Battlefields National Historic District Management Plan and the National Park Service Special Resource Study, both of which recognized Cedar Creek Battlefield as the most significant Civil War resource within the historic district. The management plan, which was developed with extensive public participation over a 3-year period and is administered by the Shenandoah Valley Battlefields Foundation, recommends that Cedar Creek Battlefield be established as a new unit of the National Park System.

(4) The Cedar Creek Battlefield Foundation, organized in 1988 to preserve and interpret the Cedar Creek Battlefield and the 1864 Valley Campaign, has acquired 308 acres of land within the boundaries of the National Historic Landmark. The foundation annually hosts a major reenactment and living history event on the Cedar Creek Battlefield.

(5) Belle Grove Plantation is a Historic Site of the National Trust for Historic Preservation that occupies 383 acres within the National Historic Landmark. The Belle Grove Manor House was built by Isaac Hite, a Revolutionary War patriot married to the sister of President James Madison, who was a frequent visitor at Belle Grove. President Thomas Jefferson assisted with the design of the house. During the Civil War Belle Grove was at the center of the decisive battle of Cedar Creek. Belle Grove is managed locally by Belle Grove, Incorporated, and has been open to the public since 1967. The house has remained virtually unchanged since it was built in 1797, offering visitors an experience of the life and times of the people who lived there in the 18th and 19th centuries.

(6) The panoramic views of the mountains, natural areas, and waterways provide visitors with an inspiring setting of great natural beauty. The historic, natural, cultural, military, and scenic resources found in the Cedar Creek Battlefield and Belle Grove Plantation areas are nationally and regionally significant.

(7) The existing, independent, not-for-profit organizations dedicated to the protection and interpretation of the resources described above provide the foundation for public-private partnerships to further the success of protecting, preserving, and interpreting these resources.

(8) None of these resources, sites, or stories of the Shenandoah Valley are protected by or interpreted within the National Park System.
