(3) Educational institutions of religious organizations with contrary religious tenets

this section shall not apply to an educational institution which is controlled by a religious organization if the application of this subsection would not be consistent with the religious tenets of such organization;

(4) Educational institutions training individuals for military services or merchant marine

this section shall not apply to an educational institution whose primary purpose is the training of individuals for the military services of the United States, or the merchant marine;

(6) Social fraternities or sororities; voluntary youth service organizations 
this section shall not apply to membership practices—
(A) of a social fraternity or social sorority which is exempt from taxation under section 501(a) of title 26, the active membership of which consists primarily of students in attendance at an institution of higher education, or

(8) Father-son or mother-daughter activities at educational institutions 
this section shall not preclude father-son or mother-daughter activities at an educational institution, but if such activities are provided for students of one sex, opportunities for reasonably comparable activities shall be provided for students of the other sex; and

(9) Institution of higher education scholarship awards in “beauty” pageants 
this section shall not apply with respect to any scholarship or other financial assistance awarded by an institution of higher education to any individual because such individual has received such award in any pageant in which the attainment of such award is based upon a combination of factors related to the personal appearance, poise, and talent of such individual and in which participation is limited to individuals of one sex only, so long as such pageant is in compliance with other non-discrimination provisions of Federal law.

(b) Preferential or disparate treatment because of imbalance in participation or receipt of Federal benefits; statistical evidence of imbalance 
Nothing contained in subsection (a) of this section shall be interpreted to require any educational institution to grant preferential or disparate treatment to the members of one sex on account of an imbalance which may exist with respect to the total number or percentage of persons of that sex participating in or receiving the benefits of any federally supported program or activity, in comparison with the total number or percentage of persons of that sex in any community, State, section, or other area: Provided, That this subsection shall not be construed to prevent the consideration in any hearing or proceeding under this chapter of statistical evidence tending to show that such an imbalance exists with respect to the participation in, or receipt of the benefits of, any such program or activity by the members of one sex.

Each Federal department and agency which is empowered to extend Federal financial assistance to any education program or activity, by way of grant, loan, or contract other than a contract of insurance or guaranty, is authorized and directed to enforce the provisions of section 1681 of this title with respect to such program or activity by issuing rules, regulations, or orders of general applicability which shall be consistent with achievement of the objectives of the statute authorizing the financial assistance in connection with which the action is taken. No such rule, regulation, or order shall become effective unless and until approved by the President. Compliance with any requirement adopted pursuant to this section may be effected (1) by the termination of or refusal to grant or to continue assistance under such program or activity to any recipient as to whom there has been an express finding on the record, after opportunity for hearing, of a failure to comply with such requirement, but such termination or refusal shall be limited to the particular political entity, or part thereof, or other recipient as to whom such a finding has been made, and shall be limited in its effect to the particular program, or part thereof, in which such noncompliance has been so found, or (2) by any other means authorized by law: Provided, however, That no such action shall be taken until the department or agency concerned has advised the appropriate person or persons of the failure to comply with the requirement and has determined that compliance cannot be secured by voluntary means. SUBCHAPTER I—EQUAL EDUCATIONAL OPPORTUNITIES

PART 1—POLICY AND PURPOSE

§ 1701. Congressional declaration of policy

(a) Entitlement to equal educational opportunity; neighborhood as appropriate basis

The Congress declares it to be the policy of the United States that—

(1) all children enrolled in public schools are entitled to equal educational opportunity without regard to race, color, sex, or national origin; and

(2) the neighborhood is the appropriate basis for determining public school assignments.

(b) Purpose

In order to carry out this policy, it is the purpose of this subchapter to specify appropriate remedies for the orderly removal of the vestiges of the dual school system.

EFFECTIVE DATE

Chapter effective on and after sixtieth day after Aug. 21, 1974, see section 2(c) of Pub. L. 93–380, set out as a note under section 1221–1 of this title.

SHORT TITLE

Section 201 of title II of Pub. L. 93–380 provided that: "This title [enacting this chapter and section 1228 of
§ 1702. Congressional findings

(a) Dual school systems as denial of equal protection; depletion of financial resources of local educational agencies; transportation of students; inadequacy of guidelines

The Congress finds that—

(1) the maintenance of dual school systems in which students are assigned to schools solely on the basis of race, color, sex, or national origin denies to those students the equal protection of the laws guaranteed by the fourteenth amendment;

(2) for the purpose of abolishing dual school systems and eliminating the vestiges thereof, many local educational agencies have been required to reorganize their school systems, to reassign students, and to engage in the extensive transportation of students;

(3) the implementation of desegregation plans that require extensive student transportation has, in many cases, required local educational agencies to expend large amounts of funds, thereby depleting their financial resources available for the maintenance or improvement of the quality of educational facilities and instruction provided;

(4) transportation of students which creates serious risks to their health and safety, disrupts the educational process carried out with respect to such students, and impinges significantly on their educational opportunity, is excessive;

(5) the risks and harms created by excessive transportation are particularly great for children enrolled in the first six grades; and

(6) the guidelines provided by the courts for fashioning remedies to dismantle dual school systems have been, as the Supreme Court of the United States has said, “incomplete and imperfect,” and have not established, a clear, rational, and uniform standard for determining the extent to which a local educational agency is required to reassign and transport its students in order to eliminate the vestiges of a dual school system.

(b) Necessity of Congress to specify appropriate remedies for elimination of dual school systems

For the foregoing reasons, it is necessary and proper that the Congress, pursuant to the powers granted to it by the Constitution of the United States, specify appropriate remedies for the elimination of the vestiges of dual school systems, except that the provisions of this chapter are not intended to modify or diminish the authority of the courts of the United States to enforce fully the fifth and fourteenth amendments to the Constitution of the United States.

§ 1703. Denial of equal educational opportunity prohibited

No State shall deny equal educational opportunity to an individual on account of his or her race, color, sex, or national origin, by—

(a) the deliberate segregation by an educational agency of students on the basis of race, color, or national origin among or within schools;

(b) the failure of an educational agency which has formerly practiced such deliberate segregation to take affirmative steps, consistent with part 4 of this subchapter, to remove the vestiges of a dual school system;

(c) the assignment by an educational agency of a student to a school, other than the one closest to his or her place of residence within the school district in which he or she resides, if the assignment results in a greater degree of segregation of students on the basis of race, color, sex, or national origin among the schools of such agency than would result if such student were assigned to the school closest to his or her place of residence within the school district of such agency providing the appropriate grade level and type of education for such student;

(d) discrimination by an educational agency on the basis of race, color, or national origin in the employment, employment conditions, or assignment to schools of its faculty or staff, except to fulfill the purposes of subsection (f) below;

(e) the transfer by an educational agency, whether voluntary or otherwise, of a student from one school to another if the purpose and effect of such transfer is to increase segregation of students on the basis of race, color, or national origin among the schools of such agency; or

(f) the failure by an educational agency to take appropriate action to overcome language barriers that impede equal participation by its students in its instructional programs.

§ 1704. Balance not required

The failure of an educational agency to attain a balance, on the basis of race, color, sex, or national origin, of students among its schools shall not constitute a denial of equal educational opportunity, or equal protection of the laws.

§ 1705. Assignment on neighborhood basis not a denial of equal educational opportunity

Subject to the other provisions of this subchapter, the assignment by an educational agency of a student to the school nearest his place of residence which provides the appropriate grade level and type of education for such student is not a denial of equal educational opportunity or of equal protection of the laws unless such assignment is for the purpose of segregating stu-
§ 1706. Civil actions by individuals denied equal educational opportunities or by Attorney General

An individual denied an equal educational opportunity, as defined by this subchapter may institute a civil action in an appropriate district court of the United States against such parties, and for such relief, as may be appropriate. The Attorney General of the United States (hereinafter in this chapter referred to as the “Attorney General”), for or in the name of the United States, may also institute such a civil action on behalf of such an individual.

§ 1707. Population changes without effect, per se, on school population changes

When a court of competent jurisdiction determines that a school system is desegregated, or that it meets the constitutional requirements, or that it is a unitary system, or that it has no vestiges of a dual system, and thereafter residential shifts in population occur which result in school population changes in any school within such a desegregated school system, such school population changes so occurring shall not, per se, constitute a cause for civil action or for modification of the court approved plan.

§ 1708. Jurisdiction of district courts

The appropriate district court of the United States shall have and exercise jurisdiction of proceedings instituted under section 1706 of this title.

§ 1709. Intervention by Attorney General

Whenever a civil action is instituted under section 1706 of this title by an individual, the Attorney General may intervene in such action upon timely application.

§ 1710. Civil actions by Attorney General; notice of violations; certification respecting undertaking appropriate remedial action

The Attorney General shall not institute a civil action under section 1706 of this title before he—

(a) gives to the appropriate educational agency notice of the condition or conditions which, in his judgment, constitute a violation of part 2 of this subchapter; and

(b) certifies to the appropriate district court of the United States that he is satisfied that such educational agency has not, within a reasonable time after such notice, undertaken appropriate remedial action.

§ 1712. Formulating remedies; applicability

In formulating a remedy for a denial of equal educational opportunity or a denial of the equal protection of the laws, which may involve directly or indirectly the transportation of students, a court, department, or agency of the United States shall consider and make specific findings on the efficacy in correcting such denial of the following remedies and shall require implementation of the first of the remedies set out below, or of the first combination thereof which would remedy such denial:

(a) assigning students to the schools closest to their places of residence which provide the appropriate grade level and type of education for such students, taking into account school capacities and natural physical barriers;

(b) assigning students to the schools closest to their places of residence which provide the appropriate grade level and type of education for such students, taking into account only school capacities;

(c) permitting students to transfer from a school in which a majority of the students are of their race, color, or national origin to a school in which a minority of the students are of their race, color, or national origin;

(d) the creation or revision of attendance zones or grade structures without requiring transportation beyond that described in section 1714 of this title;

(e) the construction of new schools or the closing of inferior schools;

(f) the construction or establishment of magnet schools; or

(g) the development and implementation of any other plan which is educationally sound and administratively feasible, subject to the provisions of sections 1714 and 1715 of this title.

§ 1714. Transportation of students

(a) Limitation to school closest or next closest to place of residence

No court, department, or agency of the United States shall, pursuant to section 1713 of this
(b) Health risks; impingement on educational process

No court, department, or agency of the United States shall require directly or indirectly the transportation of any student if such transportation poses a risk to the health of such student or constitutes a significant impingement on the educational process with respect to such student.

(c) School population changes resulting from population changes

When a court of competent jurisdiction determines that a school system is desegregated, or that it meets the constitutional requirements, or that it is a unitary system, or that it has no vestiges of a dual system, and thereafter residential shifts in population occur which result in school population changes in any school within such a desegregated school system, no educational agency because of such shifts shall be required by any court, department, or agency of the United States to formulate, or implement any new desegregation plan, or modify or implement any modification of the court approved desegregation plan, which would require transportation of students to compensate wholly or in part for such shifts in school population so occurring.

(d) Determination of continued constitutional requirements

When a court of competent jurisdiction determines that a school system is desegregated, or that it is a unitary system, or that it has no vestiges of a dual system, and thereafter whenever residential shifts in population occur which result in school population changes in any school within such a desegregated school system, no educational agency because of such shifts shall be required by any court, department, or agency of the United States to formulate, or implement any new desegregation plan, or modify or implement any modification of the court approved desegregation plan, which would require transportation of students to compensate wholly or in part for such shifts in school population so occurring.

§ 1715. District lines

In the formulation of remedies under section 1712 of this title the lines drawn by a State, subdividing its territory into separate school districts, shall not be ignored or altered except where it is established that the lines were drawn for the purpose, and had the effect, of segregating children among public schools on the basis of race, color, sex, or national origin.

§ 1716. Voluntary adoption of remedies

Nothing in this subchapter prohibits an educational agency from proposing, adopting, requiring, or implementing any plan of desegregation, otherwise lawful, that is at variance with the standards set out in this subchapter nor shall any court, department, or agency of the United States be prohibited from approving implementation of a plan which goes beyond what can be required under this subchapter, if such plan is voluntarily proposed by the appropriate educational agency.

§ 1717. Reopening proceedings

A parent or guardian of a child, or parents or guardians of children similarly situated, transported to a public school in accordance with a court order, or an educational agency subject to a court order or a desegregation plan under title VI of the Civil Rights Act of 1964 [42 U.S.C. 2000d et seq.] in effect on August 21, 1974, and intended to end segregation of students on the basis of race, color, or national origin, may seek to reopen or intervene in the further implementation of such court order, currently in effect, if the time or distance of travel is so great as to risk the health of the student or significantly impinge on his or her educational process.

§ 1718. Limitation on court orders; termination of orders conditioned upon compliance with fifth and fourteenth amendments; statement of basis for termination orders; stay of termination orders

Any court order requiring, directly or indirectly, the transportation of students for the purpose of remedying a denial of the equal protection of the laws may, to the extent of such transportation, be terminated if the court finds the defendant educational agency has satisfied the requirements of the fifth or fourteenth amendments to the Constitution, whichever is applicable, and will continue to be in compliance with the requirements thereof. The court of initial jurisdiction shall state in its order the basis for any decision to terminate an order pursuant to this section, and the termination of any order pursuant to this section shall be stayed pending a final appeal or, in the event no appeal is taken, until the time for any such appeal has expired. No additional order requiring such educational agency to transport students for such purpose shall be entered unless such agency is found not to have satisfied the requirements of the fifth or fourteenth amendments to the Constitution, whichever is applicable.

§1751. Prohibition against assignment or transportation of students to overcome racial imbalance

No provision of this Act shall be construed to require the assignment or transportation of students or teachers in order to overcome racial imbalance.

REFERENCES IN TEXT

This Act, referred to in text, is Pub. L. 93–380, Aug. 21, 1974, 88 Stat. 441, as amended, known as the Education Amendments of 1974. For complete classification of this Act to the Code, see Short Title of 1974 Amendment note set out under section 6301 of this title and Tables.

§1752. Appeals from Federal district court transfer or transportation orders affecting school attendance areas and achieving balancing of students; postponement of Federal court orders pending exercise of appellate remedy; expiration of section

Notwithstanding any other law or provision of law, in the case of any order on the part of any United States district court which requires the transfer or transportation of any student or students from any school attendance area prescribed by competent State or local authority for the purposes of achieving a balance among students with respect to race, sex, religion, or socioeconomic status, the effectiveness of such order shall be postponed until all appeals in connection with such order have been exhausted or, in the event no appeals are taken, until the time for such appeals has expired. This section shall expire at midnight on June 30, 1978.

§1753. Uniform rules of evidence requirement

The rules of evidence required to prove that State or local authorities are practicing racial discrimination in assigning students to public schools shall be uniform throughout the United States.

§1754. Provisions respecting transportation of pupils to achieve racial balance and judicial power to insure compliance with constitutional standards applicable to the entire United States

The proviso of section 407(a) of the Civil Rights Act of 1964 [42 U.S.C. 2000c–6(a)] providing in substance that no court or official of the United States shall be empowered to issue any order seeking to achieve a racial balance in any school by requiring the transportation of pupils or students from one school to another or one school district to another in order to achieve such racial balance, or otherwise enlarge the existing power of the court to insure compliance with constitutional standards shall apply to all public school pupils and to every public school system, public school and public school board, as defined by title IV [42 U.S.C. 2000c et seq.], under all circumstances and conditions and at all times in every State, district, territory, Commonwealth, or possession of the United States, regardless of whether the residence of such public school pupils or the principal offices of such public school system, public school or public school board is situated in the northern, eastern, western, or southern part of the United States.

§1755. Additional priority of remedies after finding of de jure segregation

Notwithstanding any other provision of law, after June 30, 1974 no court of the United States shall order the implementation of any plan to
remedy a finding of de jure segregation which involves the transportation of students, unless the court first finds that all alternative remedies are inadequate.

§ 1756. Remedies with respect to school district lines

In the formulation of remedies under this chapter the lines drawn by a State subdividing its territory into separate school districts, shall not be ignored or altered except where it is established that the lines were drawn, or maintained or crossed for the purpose, and had the effect of segregating children among public schools on the basis of race, color, sex, or national origin, or where it is established that, as a result of discriminatory actions within the school districts, the lines have had the effect of segregating children among public schools on the basis of race, color, sex, or national origin.

§ 1757. Prohibition of forced busing during school year

(a) Congressional findings

The Congress finds that—

(1) the forced transportation of elementary and secondary school students in implementation of the constitutional requirement for the desegregation of such schools is controversial and difficult under the best planning and administration; and

(2) the forced transportation of elementary and secondary school students after the commencement of an academic school year is educationally unsound and administratively inefficient.

(b) Student transportation orders incidental to student transfers pursuant to school desegregation plans effective beginning with academic school year

Notwithstanding any other provisions of law, no order of a court, department, or agency of the United States, requiring the transportation of any student incident to the transfer of that student from one elementary or secondary school to another such school in a local educational agency pursuant to a plan requiring such transportation for the racial desegregation of any school in that agency, shall be effective until the beginning of an academic school year.

(c) "Academic school year" defined

For the purpose of this section, the term "academic school year" means, pursuant to regulations promulgated by the Secretary, the customary beginning of classes for the school year at an elementary or secondary school of a local educational agency for a school year that occurs not more often than once in any twelve-month period.

(d) Orders subject to provisions of section

The provisions of this section apply to any order which was not implemented at the beginning of the 1974–1975 academic year.

TRANSFER OF FUNCTIONS

"Secretary", meaning the Secretary of Education, substituted for "Commissioner" in subsec. (c) pursuant to sections 301(a)(1) and 307 of Pub. L. 96–88, which are classified to sections 3441(a)(1) and 3507 of this title and which transferred functions of Commissioner of Education to Secretary of Education.

§ 1758. Reasonable time for developing voluntary school desegregation plans following detailed notice of violations

Notwithstanding any other law or provision of law, no court or officer of the United States shall enter, as a remedy for a denial of equal educational opportunity or a denial of equal protection of the laws, any order for enforcement of a plan of desegregation or modification of a court-approved plan, until such time as the local educational agency to be affected by such order has been provided notice of the details of the violation and given a reasonable opportunity to develop a voluntary remedial plan. Such time shall permit the local educational agency sufficient opportunity for community participation in the development of a remedial plan.

SUBCHAPTER I—GENERAL PROVISIONS

§ 2101. Congressional declaration of findings and purpose

(a) The Congress hereby finds and declares—

(1) that the diversity inherent in American folklife has contributed greatly to the cultural richness of the Nation and has fostered a sense of individuality and identity among the American people;

(2) that the history of the United States effectively demonstrates that building a strong nation does not require the sacrifice of cultural differences;

(3) that American folklife has a fundamental influence on the desires, beliefs, values, and character of the American people;

(4) that it is appropriate and necessary for the Federal Government to support research and scholarship in American folklife in order to contribute to an understanding of the complex problems of the basic desires, beliefs, and values of the American people in both rural and urban areas;

(5) that the encouragement and support of American folklife, while primarily a matter for private and local initiative, is also an appropriate matter of concern to the Federal Government; and

(6) that it is in the interest of the general welfare of the Nation to preserve, support, revitalize, and disseminate American folklife traditions and arts.

(b) It is therefore the purpose of this subchapter to establish in the Library of Congress an American Folklife Center to preserve and present American folklife.

Short Title

Pub. L. 94-201, § 1, Jan. 2, 1976, 89 Stat. 1129, provided: "That this Act [enacting this subchapter] may be cited as the 'American Folklife Preservation Act' ."

(Pub. L. 100-380, § 11, Oct. 27, 2000, 114 Stat. 147, provided that: "This Act [enacting subchapter II of this chapter] may be cited as the 'Veterans' Oral History Project Act'."

Findings and Purpose of 1998 Amendment

"(1) FINDINGS.—Congress makes the following findings:

"(A) The American Folklife Center in the Library of Congress was created by Congress in 1976, building on the vast expertise and archival material existing at the Library since 1928.

"(B) As an instrumentality of the Congress, it is fitting that the American Folklife Center should have a direct and close relationship with the representatives of the people, who are best able to oversee the ongoing activities of the Center to preserve and promote the cultural traditions of the people, and to ensure that the resources of the Center be readily available to all Americans.

"(C) In over 20 years since its creation, the American Folklife Center in the Library of Congress has—

"(i) increased the size of the Archive of Folk Culture from 500,000 to 1,500,000 multi-format ethnomusicological items;

"(ii) engaged in 15 cultural surveys and field documentation projects in all regions of the country;

"(iii) provided publications, documentary equipment on loan, and advisory and reference service to persons and institutions in all 50 States;

"(iv) produced exhibitions and other educational programs on American Folklife at the Library and around the country;

"(v) begun sharing its unique collections in digital form via the Internet; and

"(vi) served as a national center for the professions of folklore, ethnomusicology, and cultural studies.

"(D) Congress has consistently provided encouragement and support of American Folklife as an appropriate matter of concern to the Federal Government, passing legislation to reauthorize the Center eight times since its creation in 1976.

"(E) The American Folklife Center is the only unit in the Library of Congress which is not permanently authorized. Since its establishment in 1976, the Center’s collections and activities have been fully and successfully integrated into the Library of Congress. It is useful to statutorily conform the American Folklife Center with the rest of the Library of Congress.

"(2) PURPOSE.—It is the purpose of this section [amending sections 2103, 2106, and 2107 of this title and enacting provisions set out as a note under section 2103 of this title] to authorize permanently the American Folklife Center in the Library of Congress to preserve and present American Folklife."

SUBCHAPTER II—VETERANS’ ORAL HISTORY
§ 2141. Findings; purpose
(a) Findings
Congress finds as follows:

(1) Military service during a time of war is the highest sacrifice a citizen may make for his or her country.

(2) 4,700,000 Americans served in World War I, 16,500,000 Americans served in World War II, 6,800,000 Americans served in the Korean Conflict, 9,200,000 Americans served in the Vietnam Conflict, 3,800,000 Americans served in the Persian Gulf War, and countless other Americans served in military engagements overseas throughout the 20th century.

(3) The Department of Veterans Affairs reports that there are almost 19,000,000 veterans living in this Nation today.

(4) Today there are only approximately 3,400 living veterans of World War I, and of the some 6,000,000 veterans of World War II alive today, almost 1,500 die each day.

(5) Oral histories are of immeasurable value to historians, researchers, authors, journalists, film makers, scholars, students, and citizens of all walks of life.

(6) War veterans possess an invaluable resource in their memories of the conflicts in which they served, and can provide a rich history of our Nation and its people through the
retelling of those memories, yet frequently those who served during times of conflict are reticent to family and friends about their experiences.

(7) It is in the Nation’s best interest to collect and catalog oral histories of American war veterans so that future generations will have original sources of information regarding the lives and times of those who served in war and the conditions under which they endured, so that Americans will always remember those who served in war and may learn first-hand of the heroics, tediousness, horrors, and triumphs of war.

(8) The Library of Congress, as the Nation’s oldest Federal cultural institution and largest and most inclusive library in human history (with nearly 119,000,000 items in its multimedia collection), is an appropriate repository to collect, preserve, and make available to the public an archive of these oral histories. The Library’s American Folklife Center has expertise in the management of documentation projects and experience in the development of cultural and educational programs for the public.

(b) Purpose

It is the purpose of this subchapter to create a new federally sponsored, authorized, and funded program that will coordinate at a national level the collection of video and audio recordings of personal histories and testimonials of American war veterans, and to assist and encourage local efforts to preserve the memories of the heroics, war veterans so that Americans of all current and future generations may hear directly from veterans and better appreciate the sacrifices made by those who served in uniform during wartime.

§ 2142. Establishment of program at American Folklife Center to collect video and audio recordings of histories of veterans

(a) In general

The Director of the American Folklife Center at the Library of Congress shall establish an oral history program—

(3) to solicit, reproduce, and collect written materials (such as letters and diaries) relevant to the personal histories of veterans of the

Armed Forces who served during a period of war and to catalog such materials in a manner the Director considers appropriate, consistent with and complimentary to the efforts described in paragraphs (1) and (2).

(b) Use of and consultation with other entities

The Director may carry out the activities described in paragraphs (1) and (3) of subsection (a) of this section through agreements and partnerships entered into with other government and private entities, and may otherwise consult with interested persons (within the limits of available resources) and develop appropriate guidelines and arrangements for soliciting, acquiring, and making available recordings under the program under this subchapter.

(c) Timing

As soon as practicable after October 27, 2000, the Director shall begin collecting video and audio recordings under subsection (a)(1) of this section, and shall attempt to collect the first such recordings from the oldest veterans.

§ 3401. Congressional findings

The Congress finds that—

(1) education is fundamental to the development of individual citizens and the progress of the Nation;

(2) there is a continuing need to ensure equal access for all Americans to educational opportunities of a high quality, and such educational opportunities should not be denied because of race, creed, color, national origin, or sex;

(3) parents have the primary responsibility for the education of their children, and States, localities, and private institutions have the primary responsibility for supporting that parental role;

(4) in our Federal system, the primary public responsibility for education is reserved respectively to the States and the local school systems and other instrumentalities of the States;

(5) the American people benefit from a diversity of educational settings, including public and private schools, libraries, museums and other institutions, the workplace, the community, and the home;

(6) the importance of education is increasing as new technologies and alternative approaches to traditional education are considered, as society becomes more complex, and as equal opportunities in education and employment are promoted;

(7) there is a need for improvement in the management and coordination of Federal education programs to support more effectively State, local, and private institutions, students, and parents in carrying out their educational responsibilities;

(8) the dispersion of education programs across a large number of Federal agencies has led to fragmented, duplicative, and often inconsistent Federal policies relating to education;

(9) Presidential and public consideration of issues relating to Federal education programs is hindered by the present organizational position of education programs in the executive branch of the Government; and

(10) there is no single, full-time, Federal education official directly accountable to the President, the Congress, and the people.

Effective Date

Section 601 of Pub. L. 96–88 provided that:

"(a) The provisions of this Act [see Short Title note below] shall take effect one hundred and eighty days after the first Secretary takes office, or on any earlier date on or after October 1, 1979, as the President may prescribe and publish in the Federal Register [prescribed as May 4, 1980, by Ex. Ord. No. 12212, formerly set out below], except that at any time on or after October 1, 1979—

"(1) any of the officers provided for in title II of this Act [subchapter II of this chapter] may be nominated and appointed, as provided in such title; and

"(2) the Secretary may promulgate regulations pursuant to section 505(b)(2) of this Act [section 3505(b)(2) of this title]."

"(b) Funds available to any department or agency (or any official or component thereof), the functions or offices of which are transferred to the Secretary or the Department by this Act [see Short Title note below], may, with the approval of the Director of the Office of Management and Budget, be used to pay the compensation and expenses of any officer appointed pursuant to this title [this section and section 602 of Pub. L. 96–88 set out below] and other transitional and planning expenses associated with the establishment of the Department or transfer of functions or offices thereto until such time as funds for such purposes are otherwise available."

Short Title of 1990 Amendment

Short Title

Section 1 of Pub. L. 96–88 provided that: "This Act [enacting this chapter, amending sections 928, 929, 1102, 2290, 2711, and 3012 of this title, section 19 of Title 3, The President, sections 101, 5312, and 5314 to 5316 of Title 5, Government Organization and Employees, sections 479 and 11 of the Inspector General Act of 1978, set out in the Appendix to Title 5, section 1004 of Title 21, Food

INTERIM APPOINTMENTS

Section 602 of Pub. L. 96–88 provided that:

“(a) In the event that one or more officers required by this Act [see Short Title note above] to be appointed by and with the advice and consent of the Senate shall not have entered upon office on the effective date of this Act [May 4, 1980] and notwithstanding any other provisions of law, the President may designate an officer in the executive branch to act in such office for one hundred and twenty days or until the office is filled as provided in this Act, whichever occurs first.

“(b) Any officer acting in an office in the Department pursuant to the provisions of subsection (a) shall receive compensation at the rate prescribed for such office under this Act.”

EXECUTIVE ORDER NO. 12212

§ 3402. Congressional declaration of purpose

The Congress declares that the establishment of a Department of Education is in the public interest, will promote the general welfare of the United States, will help ensure that education issues receive proper treatment at the Federal level, and will enable the Federal Government to coordinate its education activities more effectively. Therefore, the purposes of this chapter are—

(1) to strengthen the Federal commitment to ensuring access to equal educational opportunity for every individual;

(2) to supplement and complement the efforts of States, the local school systems and other instrumentalities of the States, the private sector, public and private educational institutions, public and private nonprofit educational research institutions, community-based organizations, parents, and students to improve the quality of education;

(3) to encourage the increased involvement of the public, parents, and students in Federal education programs;

(4) to promote improvements in the quality and usefulness of education through federally supported research, evaluation, and sharing of information;

(5) to improve the coordination of Federal education programs;

(6) to improve the management and efficiency of Federal education activities, especially with respect to the process, procedures, and administrative structures for the dispersal of Federal funds, as well as the reduction of unnecessary and duplicative burdens and constraints, including unnecessary paperwork, on the recipients of Federal funds; and

(7) to increase the accountability of Federal education programs to the President, the Congress, and the public.

§ 3403. Relationship with States

(a) Rights of local governments and educational institutions

It is the intention of the Congress in the establishment of the Department to protect the rights of State and local governments and public and private educational institutions in the areas of educational policies and administration of programs and to strengthen and improve the control of such governments and institutions over their own educational programs and policies. The establishment of the Department of Education shall not increase the authority of the Federal Government over education or diminish the responsibility for education which is reserved to the States and the local school systems and other instrumentalities of the States.

(b) Curriculum, administration, and personnel; library resources

No provision of a program administered by the Secretary or by any other officer of the Department shall be construed to authorize the Secretary or any such officer to exercise any direction, supervision, or control over the curriculum, program of instruction, administration, or personnel of any educational institution, school, or school system, over any accrediting agency or association, or over the selection or content of library resources, textbooks, or other instructional materials by any educational institution or school system, except to the extent authorized by law.

(c) Funding under pre-existing programs

The Secretary shall not, during the period within eight months after May 4, 1980, take any action to withhold, suspend, or terminate funds under any program transferred by this chapter by reason of the failure of any State to comply with any applicable law requiring the administration of such a program through a single organizational unit.

cational outcomes for Hispanics and Latinos (Hispanics) of all ages, and to help ensure that all Hispanics receive an education that properly prepares them for college, productive careers, and satisfying lives, it is hereby ordered as follows:

SECTION 1. Policy. At more than 52 million strong, including 4 million in Puerto Rico, Hispanics constitute the country’s largest and fastest growing minority group. They have had a profound and positive impact on our country through, among other things, their community’s strong commitment to family, faith, hard work, and service. Many Hispanics contribute to this Nation bilingually in the English and Spanish languages—a true asset for our country in an increasingly global, interdependent world.

Hispanic students are the largest minority group in our Nation’s schools, numbering more than 11 million in our public elementary and secondary school system, and constituting more than 25 percent of all pre-K-12 students. Hispanic students face educational challenges of crisis proportions. Fewer than half of all Hispanic children participate in early childhood education programs, and far too few Hispanic students graduate from high school; of those who do complete high school, many are not adequately prepared for college. Only 12 percent of adult Hispanics have a bachelor’s degree, and just 3 percent have completed graduate or professional degree programs. At the same time, large numbers of Hispanic adults lack the education or literacy skills they need to advance their careers; they also are less likely than members of other groups to have taken job- or career-related courses, with the exception of basic education classes, such as English as a second language.

Our country was built on and continues to thrive on its diversity, and there is no doubt that the future of the United States is inextricably linked to the future of the Hispanic community. To reach the ambitious educational goals we have set for our Nation, as well as to enhance the competitiveness in our global economy will be substantially advanced by improving educational outcomes for Hispanics.

Sec. 2. White House Initiative on Educational Excellence for Hispanics.

(a) Establishment. There is established the White House Initiative on Educational Excellence for Hispanics (Initiative), to be housed in the Department of Education (Department). The mission of the Initiative shall be to help restore the United States to its role as the global leader in education by expanding educational opportunities and improving educational outcomes for Hispanics of all ages and by helping to ensure that all Hispanics receive a complete and competitive education that prepares them for college, a career, and productive and satisfying lives.

(b) Initiative Administration. There shall be an Executive Director of the Initiative, to be appointed by the Secretary of Education (Secretary). The Initiative shall be advised by the Commission established under section 3 of this order and supported by the Working Group established under subsection (c) of this section. The Department shall provide the staff, resources, and assistance for the Initiative and the Working Group. To the extent permitted by law, departments, agencies, and offices represented on the Working Group shall provide resources, including personnel detailed to the Initiative, to assist the Department in meeting the objectives of this order.

(c) Interagency Working Group.

(1) There is established the Federal Interagency Working Group on Educational Excellence for Hispanics (Working Group), which shall be convened and chaired by the Initiative’s Executive Director.

(2) The Working Group shall consist of senior officials from the Department, the White House Domestic Policy Council, the Department of Labor, and the Department of Health and Human Services, as well as such additional departments, agencies, and offices as the President may designate. Senior officials shall be designated by the heads of their respective departments, agencies, and offices.

(3) The Initiative’s Executive Director may establish subgroups of the Working Group to focus on different aspects of the educational system or educational challenges facing Hispanics, such as early childhood education, K-12 [sic] education, higher education, career and technical education, language acquisition, and adult education.

(d) Initiative Objectives.

(1) To expand educational opportunities, improve education outcomes, and deliver a complete and competitive education for all Hispanics, the Initiative shall, consistent with law, promote, encourage, and undertake efforts designed to meet the following objectives:

(i) increasing general understanding of the causes of the educational challenges faced by Hispanic students;

(ii) increasing the percentage of Hispanic children who enter kindergarten ready for success by improving access by Hispanics to high-quality programs and services that encourage early learning and development of children from birth through age 5;

(iii) implementing successful and innovative educational reform strategies and practices in America’s public schools to ensure that Hispanic students, like their peers, receive a rigorous and well-rounded education, and have access to student support services that will prepare them for college, a career, and civic participation;

(iv) ensuring that all Hispanic students have access to excellent teachers and school leaders, in part by supporting efforts to improve the recruitment, preparation, development, and retention of successful Hispanic teachers and school leaders and other effective teachers and school leaders responsible for the education of Hispanic students;

(v) reducing the dropout rate of Hispanic students and helping Hispanic students graduate from high school prepared for college and a career, in part by promoting a positive school climate and supporting successful and innovative dropout prevention and recovery strategies that better engage Hispanic youths in their learning, help them catch up academically, and provide those who have left the educational system with pathways to reentry;

Section 1221 of this title, referred to in subsec. (a), was amended generally by Pub. L. 103–382, title II, §211, Oct. 20, 1994, 108 Stat. 3912, and, as so amended, no longer contains a subsec. (c)(1)(A). However, the term ‘‘applicable program’’ is defined in subsec. (c)(1) of that section.

§ 3604. Asbestos hazards detection program

(a) Grants to local and State educational agencies for Federal share; duration of granting authority; amount of Federal share

(1)(A) The Secretary may make grants to local educational agencies for the Federal share of the costs of carrying out an asbestos detection program meeting the standards established by the Secretary under section 3606(a)(1) of this title. Grants may be made under this section only during the two-year period beginning on June 14, 1980.

(B) The Secretary may make grants to State educational agencies for the Federal share of the costs of carrying out any asbestos detection program if—

(i) the State, through the State educational agency or some other appropriate State agency, is making grants to local educational agencies for asbestos hazard detection programs, and

(ii) such programs meet the standards established by the Secretary under section 3606(a)(1) of this title.

(C) Grants may be made under this section only during the two-year period beginning after June 14, 1980.

(2) Subject to the second sentence of this paragraph, the Federal share of the costs referred to in paragraph (1) shall be 50 percent. Upon a determination by the Secretary that an applicant has limited fiscal resources and would be unable to participate in the program under this section without receiving from the Federal Government, as its Federal share of such costs, an amount greater than the amount permitted under the first sentence of this paragraph, the Secretary may increase the Federal share which may be paid to such applicant by such amount as the Secretary considers appropriate to permit the applicant to participate in the program.

(b) Application for grants; procedures applicable for approval; programs completed before January 1, 1976; determinations respecting amount of grant

(1) No grant may be made under this section unless an application has been submitted to and approved by the Secretary, after consultation with the Task Force. The Secretary may not approve an application unless the application—

(A) contains a description of the methods to be used by the local educational agency, or in the case of an application by the State educational agency the methods to be used by the local educational agencies receiving grants from the State, to determine whether hazardous concentrations of asbestos fibers or materials emitting such fibers exist in school buildings under the jurisdiction of such agency;

(B) contains an estimate of the total cost of the detection program, including such detailed descriptions of the costs of each component of the program as the Secretary may require;

(C) designates the party which shall conduct the testing for the detection program and describes such party’s qualifications for conducting such testing;

(D) contains assurances that the program shall be carried out in accordance with standards established by the Secretary under section 3606(a)(1) of this title and that any party employed to conduct such testing shall satisfy the competency standards established under such section; and

(E) contains such other information or assurances as the Secretary may require.

(2) The Secretary shall provide the Task Force with a copy of any application submitted to the Secretary under paragraph (1).

(3) No grant may be awarded by the Secretary under this section for asbestos hazards detection programs conducted before June 14, 1980, unless the applicant has submitted an application to the Secretary—

(A) containing the information required under paragraph (1); and

(B) providing assurances that any program for which a grant is sought was carried out in a manner which substantially conforms to the requirements established by the Secretary under section 3606(a)(1) of this title.

No grant may be awarded under this section for any asbestos hazards detection program completed before January 1, 1976.

(4) After reviewing the application submitted under this section, together with any recommendations made by the Task Force, the Secretary shall determine the amount of any grant to be awarded under this section. Funds may be awarded by the Secretary for the administrative
costs incurred in the preparation and supervision of the asbestos detection program and for the following activities:

(A) Visual inspections of school buildings.
(B) The sampling of building and insulation materials.
(C) Appropriate tests to determine the level of asbestos content in suspected materials, and tests determined to be essential to detect the likelihood of imminent danger to persons within school buildings.

(c) Reporting requirements for recipients

Local and State educational agencies receiving grants under this section shall file a report with the Secretary, not later than 120 days after the award of such grant, describing the detection activities which were undertaken, the results of the asbestos detection program, and plans for mitigating any imminent hazards which were detected by the testing. The report shall include a detailed accounting of the funds used to carry out the detection program.

(d) Availability of appropriated funds for education and technical assistance programs

During the period in which grants may be made under this section, not more than 20 percent of the funds appropriated to carry out this section may be made available by the Secretary to the Task Force to conduct education and technical assistance programs related to the detection of asbestos hazards in school buildings and the implementation of appropriate actions to mitigate such hazards.

(2) The Secretary may make loans under this section to local educational agencies for share of project costs; project criteria; increase in amount of loans

(a) There is established within the Department of Education an Asbestos Hazards Control Loan Program (hereinafter in this chapter referred to as the “Loan Program”), which shall be administered by the Secretary in accordance with this section.

(b) The Secretary may make loans under this section to local educational agencies in an amount equal to 50 percent of the costs of carrying out projects for:

(A) the containment or removal of any materials containing asbestos in school buildings in which such materials pose an imminent hazard to the health and safety of children or employees;
(B) the replacement of the asbestos materials removed from school buildings with other appropriate building materials; and
(C) making repairs which the Secretary determines to be necessary to restore school buildings to conditions comparable to those existing before containment or removal activities were undertaken under subparagraph (A).

Loans may be made under this section only for projects affecting more than 2,500 square feet of surface and in which the asbestos material to be contained or removed consists of a minimum asbestos level, as determined by the Secretary under section 3606(a)(2) of this title.

(3) If the Secretary determines that an applicant has limited fiscal resources and would be unable to carry out the projects described in paragraph (2) without receiving a loan under this section for an amount greater than the amount permitted under such paragraph, the Secretary may increase the amount of the loan payable to such applicant to an amount the Secretary considers appropriate to enable the applicant to carry out such projects.

(b) Loan agreements; required terms; additional terms and conditions

Loans under this section shall be made pursuant to loan agreements which shall provide for the following terms:

(1) The loan shall not bear any interest except as otherwise provided under paragraph (5).

(2) The loan shall have a maturity period of not more than 20 years (as determined by the Secretary) and shall be repayable during such period at such times and in such amounts as the Secretary may specify in the loan agreement.

(3) Repayment of the loan shall be made to the Secretary of the Treasury for deposit in the general fund of the Treasury.

Such loans shall be subject to such other terms and conditions as the Secretary may establish for the protection of the financial interest of the United States and in furtherance of the purposes of this chapter.

(c) Application for loans; procedures applicable for approval; projects completed before January 1, 1976

(1) No loan may be made under this section unless an application has been submitted to and approved by the Secretary, after consultation with the Task Force, within the two-year period beginning on June 14, 1980. The Secretary may not approve an application unless—

(A) the application contains such information as the Secretary may require, including information describing—

(i) the nature of the asbestos problem for which the loan is sought;
(ii) the asbestos content of the material to be contained or removed by the local educational agency, as determined under preliminary testing which was conducted in accordance with the standards established by the Secretary under section 3606(a)(1) of this title, or, in the case of testing conducted before June 14, 1980, was conducted in a manner which substantially conforms to such standards; and
(iii) the methods which will be used to contain or remove the asbestos materials, in accordance with section 3606(b) of this title, and any other pertinent details relating to the project or projects to be conducted by the applicant (as described in subsection (a)(2) of this section); and

(B) the application contains assurances that—

(i) any employee engaged in any activity to carry out programs under this section shall be notified in writing by the local educational agency conducting the program of
the hazards of working with asbestos, and shall be required to utilize all appropriate safety procedures to minimize health risks;

(ii) no child or school employee shall be permitted in the vicinity of any asbestos containment or removal activity; and

(iii) the local educational agency shall pay employees engaged in containment, removal, or replacement activities to carry out programs under this section at reasonable rates of pay, as established by the Secretary on the basis of prevailing wage rates in the location of such work.

(2) The Secretary shall provide the Task Force with a copy of any application submitted to the Secretary under paragraph (1).

(3) No loans may be made by the Secretary under this section for projects described in subsection (a)(2) of this section which commenced before the availability of loans under the Loan Program unless the local educational agency submits to the Secretary an application which—

(A) meets the requirements of paragraph (1); and

(B) contains assurances that any work already completed by the applicant has been carried out in substantial conformity with section 3606(b) of this title.

No loan may be awarded under this section for any project described in subsection (a)(2) of this section which was completed before January 1, 1976.

(d) Reporting requirements for Secretary

During each of the three calendar years after 1980, the Secretary shall submit before February 1 of such year a report to the appropriate committees of the House of Representatives and the Senate, which shall—

(1) describe the number of loans made in the preceding calendar year and specify each applicant for and recipient of a loan;

(2) describe the nature of the asbestos problem of each applicant;

(3) describe the types of programs for which loans were made;

(4) specify the estimated total costs of such programs to the recipients of loans and specify the amount of loans made under the Loan Program; and

(5) specify the number of loan applications which were disapproved during the preceding calendar year and describe the reasons for such disapprovals.

§ 3606. Standards and safety procedures

(a) Establishment and distribution to designated State agency or unit; establishment of criteria for loan program eligibility

(1) Within 120 days after the first meeting of the Task Force, and after consultation with the Task Force, the Secretary shall establish and distribute to the State agency or unit designated under section 3603(a)(4) of this title—

(A) procedures for testing the level of asbestos fibers in schools, including safety measures to be followed in conducting such tests;

(B) standards for evaluating (on the basis of such tests) the likelihood of the leakage of asbestos fibers into the school environment; and

(C) standards for determining which contractors are qualified to carry out the testing and evaluation described in this paragraph.

(2) After consulting with the Task Force, the Secretary shall establish criteria to be used for determining eligibility for loans under section 3605 of this title. The criteria shall be based on the assessment of the extent of the health hazards posed by the presence of asbestos fibers in schools, as determined in accordance with standards under paragraph (1)(B) of this subsection.

(b) Establishment of regulations

After reviewing recommendations submitted to the Secretary by the Task Force under section 3602(e)(5) of this title, the Secretary, with the concurrence of the Task Force, shall by regulation establish—

(1) procedures to be used by local educational agencies, in programs for which loans are made under section 3605 of this title, for—

(A) containing and removing asbestos materials in school buildings;

(c) Avoidance of duplication of similar activities of Environmental Protection Agency

In carrying out his duties under this section, the Secretary shall avoid, to the maximum extent practicable, duplicating similar activities undertaken by the Environmental Protection Agency.

§ 3607. Recovery of costs by United States

(a) Suit by United States on behalf of grant or loan recipient for recovery of costs of activities of recipient; proceeds of judgment

(1) As a condition of the award of any grant under section 3604 of this title or loan under section 3605 of this title, the recipient of any such grant or loan shall permit the United States to sue on behalf of such recipient any person determined by the Attorney General to be liable to the recipient for the costs of any activities undertaken by the recipient under such sections.

(2) The proceeds from any judgment recovered in any suit brought by the United States under paragraph (1) (or, if the recipient files a similar suit on its own behalf, the proceeds from any judgment recovered by the recipient in such suit) shall be used to repay to the United States, to the extent that the proceeds are sufficient to provide for such repayment, an amount equal to the sum of—

(A) the amount of any grant made to the recipient under section 3604 of this title; and

(B) the amount outstanding on any loan made to the recipient under section 3605 of this title; and

Within one year after June 14, 1980, the Attorney General shall submit to the Congress a report containing the results of the study, together with any appropriate recommendations.

(c) Expeditious proceedings by Attorney General

If the Attorney General determines in the report under subsection (b) of this section that the United States should seek to recover the amounts expended by the United States to carry out this chapter, the Attorney General shall proceed in an expeditious manner to recover such amounts from the persons referred to in subsection (b) of this section.

§ 3608. Employee protection

No State or local educational agency receiving assistance under this chapter may discharge any employee or otherwise discriminate against any employee with respect to the employee's compensation, terms, conditions, or privileges of employment because the employee has brought to the attention of the public information concerning any asbestos problem in the school buildings within the jurisdiction of such agency.

buildings, especially during the period 1946 through 1972;
(5) partial surveys in some States have indicated that (A) in a number of school buildings materials containing asbestos fibers have become damaged or friable, causing asbestos fibers to be dislodged into the air; and (B) asbestos concentration far exceeding normal ambient air levels have been found in school buildings containing such damaged materials;
(6) the presence in school buildings of friable or easily damaged asbestos creates an unwarranted hazard to the health of the school children and school employees who are exposed to such materials;
(7) the Department of Health and Human Services and the Environmental Protection Agency, as well as several States, have attempted to publicize the potential hazards to school children and employees from exposure to asbestos fibers, but there is no systematic program for remedying hazardous conditions in schools;

(9) without a program of information distribution, technical and scientific assistance, and financial support, many local educational agencies and States will not be able to mitigate the potential asbestos hazards in their schools; and
(10) the effective regulation of interstate commerce for the protection of the public health requires the establishment of programs under this subchapter to mitigate hazards from exposure to asbestos fibers and materials emitting such fibers.

(b) Purpose

It is the purpose of this subchapter to—
(1) direct the Administrator of the Environmental Protection Agency to establish a program to assist States and local educational agencies to ascertain the extent of the danger to the health of school children and employees from asbestos materials in schools;
(2) provide continuing scientific and technical assistance to State and local agencies to enable them to identify and abate asbestos hazards in schools;
(3) provide financial assistance for the abatement of asbestos threats to the health and safety of school children or employees; and

§ 4425. Endowment programs

(a) Program enhancement endowment

(1) From the total amount appropriated for this subsection pursuant to section 4451(a) of this title, funds may be deposited into a trust fund maintained by the Institute at a federally insured banking or savings institution.

(2) The President of the Institute shall provide—

(i) for the deposit into the trust fund referred to in subparagraph (A)—

(I) of a capital contribution by the Institute in an amount equal to the amount of each Federal contribution; and

(ii) any earnings on the funds deposited under this paragraph; or

(ii) for the reservation for the sole use of the Institute of any noncash, in-kind contributions of real or personal property, which property may at any time be converted to cash, which shall be deposited as a capital contribution into the trust fund referred to in subparagraph (A).

(C) If at any time the Board withdraws any capital contribution (as described in subparagraph (B)(i)) made by the Institute to the trust fund referred to in subparagraph (A) or puts any property (as described in subparagraph (B)(ii)) to a use which is not for the sole benefit of the Institute, an amount equal to the value of the Federal contribution shall be withdrawn from such trust fund and returned to the Treasury as miscellaneous receipts.

(2) Interest deposited into the trust fund pursuant to paragraph (1)(B)(i) may be periodically withdrawn and used, at the direction of the Board or its designee, to defray any expense associated with the operation of the Institute, including the expense of operations and maintenance, administration, academic and support personnel, community and student services programs, and technical assistance.
(3) For the purpose of complying with the contribution requirement of paragraph (1)(B), the Institute may use funds or in-kind contributions of real or personal property fairly valued which are made available from any private or tribal source, including interest earned by the funds invested under this subsection. In-kind contributions shall be other than fully depreciable property or property which is designated for addition to the permanent collection of the Museum and shall be valued according to the procedures established for such purpose by the Secretary of the Treasury. For purposes of this paragraph, all contributions, including in-kind and real estate, which are on-hand as of November 29, 1990 and which have been received after June 2, 1988, but which have not been included in computations under this provision shall be eligible for matching with Federal funds appropriated in any fiscal year. All funds transferred to the Institute by the Secretary of the Treasury after June 2, 1988, shall be deemed to have been properly transferred as of July 23, 1992.

(4) Amounts appropriated under section 4451(a) of this title for use under this subsection shall be paid by the Secretary of the Treasury to the Institute as a Federal capital contribution equal to the amount of funds or the value of the in-kind contributions which the Institute demonstrates have been placed within the control of, or irrevocably committed to the use of, the Institute as a capital contribution of the Institute in accordance with this subsection.

(b) Capital improvement endowment

(1) In addition to the trust fund established under subsection (a) of this section, funds may be deposited into a trust fund maintained by the Institute at a federally insured banking or savings institution from the amount reserved for this subsection pursuant to section 4451(a) of this title for the purpose of establishing a separate special endowment for capital improvement (hereafter in this subsection referred to as the ‘‘capital endowment fund’’) to pay expenses associated with site selection and preparation, site planning and architectural design and planning, new construction, materials and equipment procurement, renovation, alteration, repair, and other building and expansion costs of the Institute.

(2) The President of the Institute shall provide for the deposit into the capital endowment fund of a capital contribution by the Institute in an amount equal to the amount of each Federal contribution and any earnings on amounts in the capital endowment fund.

(3) Funds deposited by the Institute as a match for Federal contributions under paragraph (5) shall remain in the capital endowment fund for a period of not less than two years. If at any time the Institute withdraws any capital contribution to the capital endowment fund before the funds have been deposited for this two-year period, an equal amount of the Federal contribution shall be withdrawn from the capital endowment fund and returned to the Treasury as miscellaneous receipts. At the end of the two-year period, the entire principal and interest of the funds deposited for this period, including the Federal matching portion, shall accrue, without reservation, to the Institute and may be withdrawn, in whole or in part, to defray expenses associated with capital acquisition and improvement of the Institute referred to in paragraph (1).

(4) For the purpose of complying with the contribution requirement of paragraph (2), the Institute may use funds which are available from any private, non-Federal governmental, or tribal source.

(5) Subject to paragraph (3), amounts appropriated under section 4451(a) of this title for use under this subsection shall be paid by the Secretary of the Treasury to the Institute as a Federal capital contribution equal to the amount which the Institute demonstrates has been placed within the control of, or irrevocably committed to the use of, the Institute and is available for deposit as a capital contribution of the Institute in accordance with this subsection.

(6) For the purpose of complying with the contribution requirement in this subsection, the Institute may use funds or in-kind contributions of real or personal property. For the purposes of this paragraph, all contributions, in-kind and real estate, which are held by the Institute beginning on November 29, 1990, and which were received after June 2, 1988, but which have not been included in their entirety in computations under this section shall be eligible for matching Federal funds appropriated in any year.

(c) General administrative provisions

(1) Funds in the trust funds described in subsections (a) and (b) of this section shall be invested under the same conditions and limitations as funds are invested under section 1065(c)(2) of this title and the regulations implementing such section (as such regulations were in effect at the time the funds are invested).

(2) No part of the net earnings of the trust funds established under this section shall inure to the benefit of any private person.

(3) Any amounts deposited in a trust fund authorized under subsection (a) of this section may be used to secure loans procured for the purposes of constructing or improving Institute facilities.

SUBCHAPTER I—NATIONAL EDUCATION GOALS

§ 5811. Purpose
The purpose of this subchapter is to establish National Education Goals.

§ 5812. National Education Goals
The Congress declares that the National Education Goals are the following:

(1) School readiness
(A) By the year 2000, all children in America will start school ready to learn.
(B) The objectives for this goal are that—
(i) all children will have access to high-quality and developmentally appropriate preschool programs that help prepare children for school;
(ii) every parent in the United States will be a child’s first teacher and devote time each day to helping such parent’s preschool child learn, and parents will have access to the training and support parents need; and
(iii) children will receive the nutrition, physical activity experiences, and health care needed to arrive at school with healthy minds and bodies, and to maintain the mental alertness necessary to be prepared to learn, and the number of low-birthweight babies will be significantly reduced through enhanced prenatal health systems.

(2) School completion
(A) By the year 2000, the high school graduation rate will increase to at least 90 percent.
(B) The objectives for this goal are that—
(i) the Nation must dramatically reduce its school dropout rate, and 75 percent of the students who do drop out will successfully complete a high school degree or its equivalent; and
(ii) the gap in high school graduation rates between American students from minority backgrounds and their non-minority counterparts will be eliminated.

(3) Student achievement and citizenship
(A) By the year 2000, all students will leave grades 4, 8, and 12 having demonstrated competency over challenging subject matter including English, mathematics, science, foreign languages, civics and government, economics, arts, history, and geography, and every school in America will ensure that all students learn to use their minds well, so they may be prepared for responsible citizenship, further learning, and productive employment in our Nation’s modern economy.

(B) The objectives for this goal are that—
(i) the academic performance of all students at the elementary and secondary level will increase significantly in every quartile, and the distribution of minority students in each quartile will more closely reflect the student population as a whole;
(ii) the percentage of all students who demonstrate the ability to reason, solve problems, apply knowledge, and write and
communicate effectively will increase substantially;
(iii) all students will be involved in activities that promote and demonstrate good citizenship, good health, community service, and personal responsibility;
(iv) all students will have access to physical education and health education to ensure they are healthy and fit;
(v) the percentage of all students who are competent in more than one language will substantially increase; and
(vi) all students will be knowledgeable about the diverse cultural heritage of this Nation and about the world community.

(4) Teacher education and professional development

(A) By the year 2000, the Nation's teaching force will have access to programs for the continued improvement of their professional skills and the opportunity to acquire the knowledge and skills needed to instruct and prepare all American students for the next century.
(B) The objectives for this goal are that—
(i) all teachers will have access to preservice teacher education and continuing professional development activities that will provide such teachers with the knowledge and skills needed to teach to an increasingly diverse student population with a variety of educational, social, and health needs;
(ii) all teachers will have continuing opportunities to acquire additional knowledge and skills needed to teach challenging subject matter and to use emerging new methods, forms of assessment, and technologies;
(iii) States and school districts will create integrated strategies to attract, recruit, prepare, retrain, and support the continued professional development of teachers, administrators, and other educators, so that there is a highly talented work force of professional educators to teach challenging subject matter; and
(iv) partnerships will be established, whenever possible, among local educational agencies, institutions of higher education, parents, and local labor, business, and professional associations to provide and support programs for the professional development of educators.

(5) Mathematics and science

(A) By the year 2000, United States students will be first in the world in mathematics and science achievement.
(B) The objectives for this goal are that—
(i) mathematics and science education, including the metric system of measurement, will be strengthened throughout the system, especially in the early grades;
(ii) the number of teachers with a substantive background in mathematics and science, including the metric system of measurement, will increase by 50 percent; and
(iii) the number of United States undergraduate and graduate students, especially women and minorities, who complete degrees in mathematics, science, and engineering will increase significantly.

(6) Adult literacy and lifelong learning

(A) By the year 2000, every adult American will be literate and will possess the knowledge and skills necessary to compete in a global economy and exercise the rights and responsibilities of citizenship.
(B) The objectives for this goal are that—
(i) every major American business will be involved in strengthening the connection between education and work;
(ii) all workers will have the opportunity to acquire the knowledge and skills, from basic to highly technical, needed to adapt to emerging new technologies, work methods, and markets through public and private educational, vocational, technical, workplace, or other programs;
(iii) the number of quality programs, including those at libraries, that are designed to serve more effectively the needs of the growing number of part-time and midcareer students will increase substantially;
(iv) the proportion of the qualified students, especially minorities, who enter college, who complete at least two years, and who complete their degree programs will increase substantially;
(v) the proportion of college graduates who demonstrate an advanced ability to think critically, communicate effectively, and solve problems will increase substantially; and
(vi) schools, in implementing comprehensive parent involvement programs, will offer more adult literacy, parent training and lifelong learning opportunities to improve the ties between home and school, and enhance parents' work and home lives.

(7) Safe, disciplined, and alcohol- and drug-free schools

(A) By the year 2000, every school in the United States will be free of drugs, violence, and the unauthorized presence of firearms and alcohol and will offer a disciplined environment conducive to learning.
(B) The objectives for this goal are that—
(i) every school will implement a firm and fair policy on use, possession, and distribution of drugs and alcohol;
(ii) parents, businesses, governmental and community organizations will work together to ensure the rights of students to study in a safe and secure environment that is free of drugs and crime, and that schools provide a healthy environment and are a safe haven for all children;
(iii) every local educational agency will develop and implement a policy to ensure that all schools are free of violence and the unauthorized presence of weapons;
(iv) every local educational agency will develop a sequential, comprehensive kindergarten through twelfth grade drug and alcohol prevention education program;
(v) drug and alcohol curriculum should be taught as an integral part of sequential, comprehensive health education;
(vi) community-based teams should be organized to provide students and teachers with needed support; and
(vii) every school should work to eliminate sexual harassment.

(8) Parental participation

forms with both Federal and State funds, and are responsible for maintaining accountability for local activities consistent with State standards and assessment systems. Therefore, State educational agencies are often in the best position to align waivers of Federal and State requirements with State and local initiatives.

"3) The Education Flexibility Partnership Demonstration Act [former 20 U.S.C. 5891(e)] allows State educational agencies the flexibility to waive certain Federal requirements, along with related State requirements, but allows only 12 States to qualify for such waivers.

"6) Expansion of waiver authority will allow for the waiver of statutory and regulatory requirements that impede implementation of State and local educational improvement plans, or that unnecessarily burden program administration, while maintaining the intent and purposes of affected programs, such as the important focus on improving mathematics and science performance under title II of the Elementary and Secondary Education Act of 1965 [20 U.S.C. 6601 et seq.] (Dwight D. Eisenhower Professional Development Program), and maintaining such fundamental requirements as those relating to civil rights, educational equity, and accountability.

"7) To achieve the State goals for the education of children in the State, the focus must be on results in raising the achievement of all students, not process."

(5) the applicant will coordinate or conduct seminars that offer a combination of academic instruction in American government, exposure to the practical workings of the political system, and training in appropriate pedagogical techniques for working with minority and Native American students.

§ 6002. Findings 

The Congress finds as follows with respect to improving education in the United States: 
(1) A majority of public schools in the United States are failing to prepare students to achieve the National Education Goals. The Federal Government should support an extensive program of educational research, development, dissemination, replication and assistance to identify and support the best responses for the challenges ahead. A significant investment in attaining a deeper understanding of the processes of learning and schooling and developing new ideas holds the best hope of making a substantial difference to the lives of every student in the United States. The Office of Educational Research and Improvement within the Department of Education should be at the center of this campaign in order to coordinate such efforts. 
(2) The Federal role in educational research has been closely identified with youths who are socioeconomically disadvantaged, are minorities, belong to a language minority, or have a disability. The Federal commitment to education was sufficient to serve not more than— 
(A) in 1993, 1 out of every 6 low-income children in need of preschool education; 
(B) in 1990, 3 out of every 5 children in need of remediation; 
(C) in 1991, 1 out of every 5 children in need of bilingual education; and 
(D) in 1992, 1 out of every 20 youths eligible for assistance under the Job Training Partnership Act. 
(3) The failure of the Federal Government to adequately invest in educational research and development has denied the United States a sound foundation of knowledge on which to design school improvements. The educational achievement of minority children is of particular concern because at least half of the public school students in 25 of the largest cities of the United States are minority children, and demographers project that, by the year 2005, almost all urban public school students will be minority children or other children in poverty.
(4) The investment goal of the Federal research, development, and dissemination function should be at least 1 percent of the total amount of funds spent on education.

(5) Nationwide model programs and reliable interventions should be demonstrated and replicated, and for such purposes, programs should be established to conduct research and evaluations, and to disseminate information.

(6) The Office should develop a national dissemination policy that will advance the goal of placing a national treasure chest of research results, models, and materials at the disposal of the education decisionmakers of the United States.

(7) A National Educational Research Policy and Priorities Board should be established to work collaboratively with the Assistant Secretary to forge a national consensus with respect to a long-term agenda for educational research, development, dissemination, and the activities of the Office.

(8) Existing research and development entities should adopt expanded, proactive roles and new institutions should be created to promote knowledge development necessary to accelerate the application of research findings to high priority areas.

(9) Greater use should be made of existing technologies in efforts to improve the educational system of the United States, including efforts to disseminate research findings.

(10) Minority educational researchers are inadequately represented throughout the Department of Education, but particularly in the Office. The Office therefore should assume a leadership position in the recruitment, retention, and promotion of qualified minority educational researchers.

(11) The coordination of the mission of the Office with that of other components of the Department of Education is critical. The Office should improve the coordination of the educational research, development, and dissemination function with those of other Federal agencies.

§6062. Funding for Individuals with Disabilities Education Act

(a) Findings

The Congress finds that—

(1) the Individuals with Disabilities Education Act [20 U.S.C. 1400 et seq.] was established with the commitment of forty percent Federal funding but currently receives only eight percent Federal funding;

(2) this funding shortfall is particularly burdensome to school districts and schools in low-income areas which serve higher than average proportions of students with disabilities and have fewer local resources to contribute; and

(3) it would cost the Federal Government approximately $10,000,000,000 each year to fully fund the Individuals with Disabilities Education Act.
(b) Sense of Congress

It is the sense of the Congress that the Federal Government should provide States and communities with adequate resources under the Individuals with Disabilities Education Act [20 U.S.C. 1400 et seq.] as soon as reasonably possible through the reallocation of noneducation funds within the current budget monetary constraints.

(3) an examination of what incentives or assistance might be provided to States to develop improvement plans that adequately address the needs of children with disabilities;

(4) the relation of the Goals 2000: Educate America Act [20 U.S.C. 5801 et seq.] to other Federal laws governing or affecting the education of children with disabilities; and

c) Federal agencies

(1) Kindergarten, elementary, or secondary education or library services

After March 31, 1994, no Federal agency shall permit smoking within any indoor facility in the United States operated by such agency, directly or by contract, to provide routine or regular kindergarten, elementary, or secondary education or library services to children.

After March 31, 1994, no Federal agency shall permit smoking within any indoor facility (or portion thereof) operated by such agency, directly or by contract, to provide routine or regular health or day care or early childhood development (Head Start) services to children, except that this paragraph shall not apply to—

(B) any private residence.

(3) Application of provisions

The prohibitions in subsections (a) through (c) of this section shall be incorporated by publication of a notice in the Federal Register by the Secretary (in consultation with the heads of other affected agencies) and by such agency heads in funding arrangements involving the provision of children’s services administered by such agencies. § 6301. Statement of purpose

The purpose of this subchapter is to ensure that all children have a fair, equal, and significant opportunity to obtain a high-quality education and reach, at a minimum, proficiency on challenging State academic achievement standards and state academic assessments. This purpose can be accomplished by—

(1) ensuring that high-quality academic assessments, accountability systems, teacher preparation and training, curriculum, and instructional materials are aligned with challenging State academic standards so that students, teachers, parents, and administrators can measure progress against common expectations for student academic achievement;

(2) meeting the educational needs of low-achieving children in our Nation’s highest-poverty schools, limited English proficient children, migratory children, children with disabilities, Indian children, neglected or delinquent children, and young children in need of reading assistance;

(3) closing the achievement gap between high- and low-performing children, especially the achievement gaps between minority and nonminority students, and between disadvantaged children and their more advantaged peers;

(4) holding schools, local educational agencies, and States accountable for improving the academic achievement of all students, and identifying and turning around low-performing schools that have failed to provide a high-quality education to their students, while providing alternatives to students in such schools to enable the students to receive a high-quality education;

(5) distributing and targeting resources sufficiently to make a difference to local educational agencies and schools where needs are greatest;

\* So in original. Probably should be capitalized.
(6) improving and strengthening accountability, teaching, and learning by using State assessment systems designed to ensure that students are meeting challenging State academic achievement and content standards and increasing achievement overall, but especially for the disadvantaged;

(7) providing greater decisionmaking authority and flexibility to schools and teachers in exchange for greater responsibility for student performance;

(8) providing children an enriched and accelerated educational program, including the use of schoolwide programs or additional services that increase the amount and quality of instructional time;

(9) promoting schoolwide reform and ensuring the participation of children in effective, scientifically based instructional strategies and challenging academic content;

(10) significantly elevating the quality of instruction by providing staff in participating schools with substantial opportunities for professional development;

(11) coordinating services under all parts of this subchapter with each other, with other educational services, and, to the extent feasible, with other agencies providing services to youth, children, and families; and

(12) affording parents substantial and meaningful opportunities to participate in the education of their children.

**EX. ORD. NO. 13153. ACTIONS TO IMPROVE LOW-PERFORMING SCHOOLS**

Ex. Ord. No. 13153, May 3, 2000, 65 F.R. 26475, provided: By the authority vested in me as President by the Constitution and the laws of the United States of America, including the Elementary and Secondary Education Act of 1965 (ESEA) [20 U.S.C. 6301 et seq.], the Department of Education Appropriations Act, 2000 (as contained in Public Law 106–113) [Pub. L. 106–113, div. B, §100(a)(d) (title III), Nov. 29, 1999, 113 Stat. 1535, 1501A–242, see Tables for classification], and in order to take actions to improve low-performing schools, it is hereby ordered as follows:

**SECTION 1. Policy.** Since 1993, this Administration has sought to raise standards for students and to increase accountability in public education while investing more resources in elementary and secondary schools. While much has been accomplished—there has been progress in math and reading achievement, particularly for low-achieving students and students in our highest poverty schools—much more can be done, especially for low-performing schools.

**Sic. 2. Technical Assistance and Capacity Building.** (a) The Secretary of Education (‘‘the Secretary’’) shall work with State and local educational agencies (‘‘LEAs’’) to develop and implement a comprehensive strategy for providing technical assistance and other assistance to States and LEAs to strengthen their capacity to improve the performance of schools identified as low performing. This comprehensive strategy shall include a number of steps, such as:

1. providing States, school districts, and schools receiving funds from the school improvement fund established by Public Law 106–113, as well as other districts and schools identified for school improvement or corrective action under Title I of the ESEA [20 U.S.C. 6301 et seq.], with access to the latest research and information on best practices, including research on instruction and educator professional development, and with the opportunity to learn from exemplary schools and exemplary State and local intervention strategies and from each other, in order to improve achievement for all students in the low-performing schools;

2. determining effective ways of providing low-performing schools with access to resources from other Department of Education programs, such as funds from the Comprehensive School Reform Demonstration Program, the Reading Excellence Act [Pub. L. 101–277, div. A, §101(f) (title VIII), Oct. 21, 1990, 104 Stat. 2851–337, 2861–391, see Tables for classification], the Eisenhower Professional Development Program, the Class Size Reduction Program, and the 21st Century Community Learning Centers Program, and to make effective use of these funds and Title I funds;

3. providing States and LEAs with information on effective strategies to improve the quality of the teaching force, including strategies for retaining highly qualified teachers in high-poverty schools, and implementing research-based professional development programs aligned with challenging standards;

4. helping States and school districts build partnerships with technical assistance providers, including, but not limited to, federally funded laboratories and centers, foundations, businesses, community-based organizations, institutions of higher education, reform model providers, and other organizations that can help local schools improve;

5. identifying previously low-performing schools that have made significant achievement gains, and States and school districts that have been effective in improving the achievement of all students in low-performing schools, which can serve as models and resources;

6. providing assistance and information on how to effectively involve parents in the school-improvement process, including effectively involving and informing parents at the beginning of the school year about improvement goals for their school as well as the goals for their own children, and reporting on progress made in achieving these goals;

7. providing States and LEAs with information on effective approaches to school accountability, including the effectiveness of such strategies as school reconstitution, peer review teams, and financial rewards and incentives;

8. providing LEAs with information and assistance on the design and implementation of approaches to choice among public schools that create incentives for improvement throughout the local educational agency, especially in the lowest-performing schools, and that maximize the opportunity of students in low-performing schools to attend a higher-performing public school;

9. exploring the use of well-trained tutors to raise student achievement through initiatives such as ‘‘America Reads,’’ ‘‘America Counts,’’ and other work-study opportunities to help low-performing schools;

10. using a full range of strategies for disseminating information about effective practices, including interactive electronic communications;

11. working with the Department of Interior, Bureau of Indian Affairs (BIA), to provide technical assistance to BIA-funded low-performing schools; and

12. taking other steps that can help improve the quality of teaching and instruction in low-performing schools.

(b) The Secretary shall, to the extent permitted by law, take whatever steps the Secretary finds necessary and appropriate to redirect the resources and technical assistance capability of the Department of Education (‘‘Department’’) to assist States and localities in improving low-performing schools, and to ensure that the dissemination of research to help turn around low-performing schools is a priority of the Department.

**Sic. 3. School Improvement Report.** To monitor the progress of LEAs and schools in turning around failing schools, including those receiving grants from the School Improvement Fund, the Secretary shall prepare an annual School Improvement Report, to be published in September of each year, beginning in 2000. The report shall:

(a) describe trends in the numbers of LEAs and schools identified as needing improvement and subse-
quent changes in the academic performance of their students;
(b) identify best practices and significant research findings that can be used to help turn around low-performing LEAs and schools; and
(c) document ongoing efforts as a result of this order and other Federal efforts to assist States and local school districts in intervening in low-performing schools, including improving teacher quality. This report shall be publicly accessible.

SEC. 4. Compliance Monitoring System. Consistent with the implementation of the School Improvement Fund, the Secretary shall strengthen the Department’s monitoring of ESEA requirements for identifying and turning around low-performing schools, as well as any new requirements established for the School Improvement Fund by Public Law 106–113. The Secretary shall give priority to provisions that have the greatest bearing on identifying and turning around low-performing schools, including sections 1116 and 1117 of the ESEA (20 U.S.C. 6316, 6317), and to developing an ongoing, focused, and systematic process for monitoring these provisions. This improved compliance monitoring shall be designed to:
(a) ensure that States and LEAs comply with ESEA requirements;
(b) assist States and LEAs in implementing effective procedures and strategies that reflect the best research available, as well as the experience of successful schools, school districts, and States as they address similar objectives and challenges; and
(c) assist States, LEAs, and schools in making the most effective use of available Federal resources.

(B) the strongest commitment to ensuring that such funds are used to provide adequate resources to enable the lowest-achieving schools to meet the goals under school and local educational agency improvement, corrective action, and restructuring plans under section 6316 of this title.

(7) Allocation
A State educational agency that receives a grant under this subsection shall allocate at least 95 percent of the grant funds directly to local educational agencies for schools identified for school improvement, corrective action, or restructuring to carry out activities under section 6316(b) of this title, or may, with the approval of the local educational agency, directly provide for these activities or arrange for their provision through other entities such as school support teams or educational service agencies.

(8) Administrative costs
A State educational agency that receives a grant under this subsection may reserve not more than 5 percent of such grant funds for administration, evaluation, and technical assistance expenses.

(9) Local awards
Each local educational agency that applies for assistance under this subsection shall describe how it will provide the lowest-achieving schools the resources necessary to meet goals under school and local educational agency improvement, corrective action, and restructuring plans under section 6316 of this title.

§ 6304. State administration
(a) In general
Except as provided in subsection (b) of this section, to carry out administrative duties assigned under parts A, C, and D of this subchapter, each State may reserve the greater of—
(1) 1 percent of the amounts received under such parts; or
(2) $400,000 ($50,000 in the case of each outlying area).

(b) Exception
If the sum of the amounts appropriated for parts A, C, and D of this subchapter is equal to or greater than $14,000,000,000, then the reservation described in subsection (a)(1) of this section shall not exceed 1 percent of the amount the State would receive, if $14,000,000,000 were allocated among the States for parts A, C, and D of this subchapter.

PART A—IMPROVING BASIC PROGRAMS OPERATED BY LOCAL EDUCATIONAL AGENCIES

§ 6311. State plans
(a) Plans required
(1) In general
For any State desiring to receive a grant under this part, the State educational agency shall submit to the Secretary a plan, developed by the State educational agency, in consultation with local educational agencies, teachers, principals, pupil services personnel, administrators (including administrators of programs described in other parts of this subchapter), other staff, and parents, that satisfies the requirements of this section and that is coordinated with other programs under this chapter, the Individuals with Disabilities Education Act [20 U.S.C. 1400 et seq.], the Carl D. Perkins Career and Technical Education Act of 2006 [20 U.S.C. 2301 et seq.], the Head Start Act [42 U.S.C. 9831 et seq.], the Adult Education and Family Literacy Act [20 U.S.C. 9201 et seq.], and the McKinney-Vento Homeless Assistance Act [42 U.S.C. 11301 et seq.].

(2) Consolidated plan
A State plan submitted under paragraph (1) may be submitted as part of a consolidated plan under section 7842 of this title.
§ 6311

(1) Challenging academic standards

(A) In general

Each State plan shall demonstrate that the State has adopted challenging academic content standards and challenging student academic achievement standards that will be used by the State, its local educational agencies, and its schools to carry out this part, except that a State shall not be required to submit such standards to the Secretary.

(B) Same standards

The academic standards required by subparagraph (A) shall be the same academic standards that the State applies to all schools and children in the State.

(C) Subjects

The State shall have such academic standards for all public elementary school and secondary school children, including children served under this part, in subjects determined by the State, but including at least mathematics, reading or language arts, and science, which shall include the same knowledge, skills, and levels of achievement expected of all children.

(D) Challenging academic standards

Standards under this paragraph shall include—

(i) challenging academic content standards in academic subjects that—

(I) specify what children are expected to know and be able to do;

(II) contain coherent and rigorous content; and

(III) encourage the teaching of advanced skills; and

(ii) challenging student academic achievement standards that—

(I) are aligned with the State’s academic content standards;

(II) describe two levels of high achievement (proficient and advanced) that determine how well children are mastering the material in the State academic content standards; and

(III) describe a third level of achievement (basic) to provide complete information about the progress of the lower-achieving children toward mastering the proficient and advanced levels of achievement.

(E) Information

For the subjects in which students will be served under this part, but for which a State is not required by subparagraphs (A), (B), and (C) to develop, and has not otherwise developed, such academic standards, the State plan shall describe a strategy for ensuring that students are taught the same knowledge and skills in such subjects and held to the same expectations as are all children.

(F) Existing standards

Nothing in this part shall prohibit a State from revising, consistent with this section, any standard adopted under this part before or after January 8, 2002.

(2) Accountability

(A) In general

Each State plan shall demonstrate that the State has developed and is implementing a single, statewide State accountability system that will be effective in ensuring that all local educational agencies, public elementary schools, and public secondary schools make adequate yearly progress as defined under this paragraph. Each State accountability system shall—

(i) be based on the academic standards and academic assessments adopted under paragraphs (1) and (3), and other academic indicators consistent with subparagraph (C)(vi) and (vii), and shall take into account the achievement of all public elementary school and secondary school students;

(ii) be the same accountability system the State uses for all public elementary schools and secondary schools or all local educational agencies in the State, except that public elementary schools, secondary schools, and local educational agencies not participating under this part are not subject to the requirements of section 6316 of this title; and

(iii) include sanctions and rewards, such as bonuses and recognition, the State will use to hold local educational agencies and public elementary schools and secondary schools accountable for student achievement and for ensuring that they make adequate yearly progress in accordance with the State’s definition under subparagraphs (B) and (C).

(B) Adequate yearly progress

Each State plan shall demonstrate, based on academic assessments described in paragraph (3), and in accordance with this paragraph, what constitutes adequate yearly progress of the State, and of all public elementary schools, secondary schools, and local educational agencies in the State, toward enabling all public elementary school and secondary school students to meet the State’s student academic achievement standards, while working toward the goal of narrowing the achievement gaps in the State, local educational agencies, and schools.

(C) Definition

“Adequate yearly progress” shall be defined by the State in a manner that—

(i) applies the same high standards of academic achievement to all public elementary school and secondary school students in the State;

(ii) is statistically valid and reliable;

(iii) results in continuous and substantial academic improvement for all students;

(iv) measures the progress of public elementary schools, secondary schools and local educational agencies and the State based primarily on the academic assessments described in paragraph (3);
(v) includes separate measurable annual objectives for continuous and substantial improvement for each of the following:

(I) The achievement of all public elementary school and secondary school students.

(II) The achievement of—

(aa) economically disadvantaged students;

(bb) students from major racial and ethnic groups;

(cc) students with disabilities; and

(dd) students with limited English proficiency;

except that disaggregation of data under subclause (II) shall not be required in a case in which the number of students in a category is insufficient to yield statistically reliable information or the results would reveal personally identifiable information about an individual student;

(vi) in accordance with subparagraph (D), includes graduation rates for public secondary school students (defined as the percentage of students who graduate from secondary school with a regular diploma in the standard number of years) and at least one other academic indicator, as determined by the State for all public elementary school students; and

(vii) in accordance with subparagraph (D), at the State’s discretion, may also include other academic indicators, as determined by the State for all public school students, measured separately for each group described in clause (v), such as achievement on additional State or locally administered assessments, decreases in grade-to-grade retention rates, attendance rates, and changes in the percentages of students completing gifted and talented, advanced placement, and college preparatory courses.

(D) Requirements for other indicators

In carrying out subparagraph (C)(vi) and (vii), the State—

(i) shall ensure that the indicators described in those provisions are valid and reliable, and are consistent with relevant, nationally recognized professional and technical standards, if any; and

(ii) except as provided in subparagraph (I)(i), may not use those indicators to reduce the number of, or change, the schools that would otherwise be subject to school improvement, corrective action, or restructuring under section 6316 of this title if those additional indicators were not used, but may use them to identify additional schools for school improvement or in need of corrective action or restructuring.

(E) Starting point

Each State, using data for the 2001–2002 school year, shall establish the starting point for measuring, under subparagraphs (G) and (H), the percentage of students meeting or exceeding the State’s proficient level of academic achievement on the State assessments under paragraph (3) and pursuant to the timeline described in subparagraph (F). The starting point shall be, at a minimum, based on the higher of the percentage of students at the proficient level who are in—

(i) the State’s lowest achieving group of students described in subparagraph (C)(v)(II); or

(ii) the school at the 20th percentile in the State, based on enrollment, among all schools ranked by the percentage of students at the proficient level.

(F) Timeline

Each State shall establish a timeline for adequate yearly progress. The timeline shall ensure that not later than 12 years after the end of the 2001–2002 school year, all students in each group described in subparagraph (C)(v) will meet or exceed the State’s proficient level of academic achievement on the State assessments under paragraph (3).

(G) Measurable objectives

Each State shall establish statewide annual measurable objectives, pursuant to subparagraph (C)(v), for meeting the requirements of this paragraph, and which—

(i) shall be set separately for the assessments of mathematics and reading or language arts under subsection (a)(3) of this section;

(ii) shall be the same for all schools and local educational agencies in the State;

(iii) shall identify a single minimum percentage of students who are required to meet or exceed the proficient level on the academic assessments that applies separately to each group of students described in subparagraph (C)(v);

(iv) shall ensure that all students will meet or exceed the State’s proficient level of academic achievement on the State assessments within the State’s timeline under subparagraph (F); and

(v) may be the same for more than 1 year, subject to the requirements of subparagraph (H).

(H) Intermediate goals for annual yearly progress

Each State shall establish intermediate goals for meeting the requirements, including the measurable objectives in subparagraph (G), of this paragraph and that shall—

(i) increase in equal increments over the period covered by the State’s timeline under subparagraph (F); and

(ii) provide for the first increase to occur in not more than 2 years; and

(iii) provide for each following increase to occur in not more than 3 years.

(I) Annual improvement for schools

Each year, for a school to make adequate yearly progress under this paragraph—

(i) each group of students described in subparagraph (C)(v) must meet or exceed the objectives set by the State under subparagraph (G), except that if any group de-
scribed in subparagraph (C)(v) does not meet those objectives in any particular year, the school shall be considered to have made adequate yearly progress if the percentage of students in that group who did not meet or exceed the proficient level of academic achievement on the State assessments under paragraph (3) for that year decreased by 10 percent of that percentage from the preceding school year and that group made progress on one or more of the academic indicators described in subparagraph (C)(vi) or (vii); and

(ii) not less than 95 percent of each group of students described in subparagraph (C)(v) who are enrolled in the school are required to take the assessments, consistent with paragraph (3)(C)(xi) and with accommodations, guidelines, and alternative assessments provided in the same manner as those provided under section 612(a)(16)(A) of the Individuals with Disabilities Education Act [20 U.S.C. 1412(a)(16)(A)] and paragraph (3), on which adequate yearly progress is based (except that the 95 percent requirement described in this clause shall not apply in a case in which the number of students in a category is insufficient to yield statistically reliable information or the results would reveal personally identifiable information about an individual student).

(J) Uniform averaging procedure

For the purpose of determining whether schools are making adequate yearly progress, the State may establish a uniform procedure for averaging data which includes one or more of the following:

(i) The State may average data from the school year for which the determination is made with data from one or two school years immediately preceding that school year.

(ii) Until the assessments described in paragraph (3) are administered in such manner and time to allow for the implementation of the uniform procedure for averaging data described in clause (i), the State may use the academic assessments that were required under paragraph (3) as that paragraph was in effect on the day preceding January 8, 2002, provided that nothing in this clause shall be construed to undermine or delay the determination of adequate yearly progress, the requirements of section 6316 of this title, or the implementation of assessments under this section.

(K) Accountability for charter schools

The accountability provisions under this chapter shall be overseen for charter schools in accordance with State charter school law.

(3) Academic assessments

(A) In general

Each State plan shall demonstrate that the State educational agency, in consultation with local educational agencies, has implemented a set of high-quality, yearly student academic assessments that include, at a minimum, academic assessments in mathematics, reading or language arts, and science that will be used as the primary means of determining the yearly performance of the State and of each local educational agency and school in the State in enabling all children to meet the State’s challenging student academic achievement standards, except that no State shall be required to meet the requirements of this part relating to science assessments until the beginning of the 2007–2008 school year.

(B) Use of assessments

Each State educational agency may incorporate the data from the assessments under this paragraph into a State-developed longitudinal data system that links student test scores, length of enrollment, and graduation records over time.

(C) Requirements

Such assessments shall—

(i) be the same academic assessments used to measure the achievement of all children;

(ii) be aligned with the State’s challenging academic content and student academic achievement standards, and provide coherent information about student attainment of such standards;

(iii) be used for purposes for which such assessments are valid and reliable, and be consistent with relevant, nationally recognized professional and technical standards;

(iv) be used only if the State educational agency provides to the Secretary evidence from the test publisher or other relevant sources that the assessments used are of adequate technical quality for each purpose required under this chapter and are consistent with the requirements of this section, and such evidence is made public by the Secretary upon request;

(v)(I) except as otherwise provided for grades 3 through 8 under clause vii, measure the proficiency of students in, at a minimum, mathematics and reading or language arts, and be administered not less than once during—

(aa) grades 3 through 5;

(bb) grades 6 through 9; and

(cc) grades 10 through 12;

(II) beginning not later than school year 2007–2008, measure the proficiency of all students in science and be administered not less than once during—

(aa) grades 3 through 5;

(bb) grades 6 through 9; and

(cc) grades 10 through 12;

(vi) involve multiple up-to-date measures of student academic achievement, including measures that assess higher-order thinking skills and understanding;

(vii) beginning not later than school year 2005–2006, measure the achievement of students against the challenging State academic content and student academic achievement standards in each of grades 3
through 8 in, at a minimum, mathematics, and reading or language arts, except that the Secretary may provide the State 1 additional year if the State demonstrates that exceptional or uncontrollable circumstances, such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the State, prevented full implementation of the academic assessments by that deadline and that the State will complete implementation within the additional 1-year period; (viii) at the discretion of the State, measure the proficiency of students in academic subjects not described in clauses (v), (vi), (vii) in which the State has adopted challenging academic content and academic achievement standards; (ix) provide for— (I) the participation in such assessments of all students; (II) the reasonable adaptations and accommodations for students with disabilities (as defined under section 602(3) of the Individuals with Disabilities Education Act (20 U.S.C. 1401(3))) necessary to measure the academic achievement of such students relative to State academic content and State student academic achievement standards; and (III) the inclusion of limited English proficient students, who shall be assessed in a valid and reliable manner and provided reasonable accommodations on assessments administered to such students under this paragraph, including, to the extent practicable, assessments in the language and form most likely to yield accurate data on what such students know and can do in academic content areas, until such students have achieved English language proficiency as determined under paragraph (7); (x) notwithstanding subclause (III), the academic assessment (using tests written in English) of reading or language arts of any student who has attended school in the United States (not including Puerto Rico) for three or more consecutive school years, except that if the local educational agency determines, on a case-by-case individual basis, that academic assessments in another language or form would likely yield more accurate and reliable information on what such student knows and can do, the local educational agency may make a determination to assess such student in the appropriate language other than English for a period that does not exceed two additional consecutive years, provided that such student has not yet reached a level of English language proficiency sufficient to yield valid and reliable information on what such student knows and can do on tests (written in English) of reading or language arts; (xi) include students who have attended schools in a local educational agency for a full academic year but have not attended a single school for a full academic year, except that the performance of students who have attended more than 1 school in the local educational agency in any academic year shall be used only in determining the progress of the local educational agency; (xii) produce individual student interpretive, descriptive, and diagnostic reports, consistent with clause (iii) that allow parents, teachers, and principals to understand and address the specific academic needs of students, and include information regarding achievement on academic assessments aligned with State academic achievement standards, and that are provided to parents, teachers, and principals, as soon as is practicably possible after the assessment is given, in an understandable and uniform format, and to the extent practicable, in a language that parents can understand; (xiii) enable results to be disaggregated within each State, local educational agency, and school by gender, by each major racial and ethnic group, by English proficiency status, by migrant status, by students with disabilities as compared to nondisabled students, and by economically disadvantaged students as compared to students who are not economically disadvantaged, except that, in the case of a local educational agency or a school, such disaggregation shall not be required in a case in which the number of students in a category is insufficient to yield statistically reliable information or the results would reveal personally identifiable information about an individual student; (xiv) be consistent with widely accepted professional testing standards, objectively measure academic achievement, knowledge, and skills, and be tests that do not evaluate or assess personal or family beliefs and attitudes, or publicly disclose personally identifiable information; and (xv) enable itemized score analyses to be produced and reported, consistent with clause (iii), to local educational agencies and schools, so that parents, teachers, principals, and administrators can interpret and address the specific academic needs of students as indicated by the students’ achievement on assessment items. 

(D) Deferral

A State may defer the commencement, or suspend the administration, but not cease the development, of the assessments described in this paragraph, that were not required prior to January 8, 2002, for 1 year for each year for which the amount appropriated for grants under section 7301(b)(2) of this title is less than—(i) $370,000,000 for fiscal year 2002; (ii) $380,000,000 for fiscal year 2003; (iii) $390,000,000 for fiscal year 2004; and (iv) $400,000,000 for fiscal years 2005 through 2007.

(4) Special rule

Academic assessment measures in addition to those in paragraph (3) that do not meet the requirements of such paragraph may be included in the assessment under paragraph (3)
as additional measures, but may not be used in lieu of the academic assessments required under paragraph (3). Such additional assessment measures may not be used to reduce the number of or change, the schools that would otherwise be subject to school improvement, corrective action, or restructuring under section 6316 of this title if such additional indicators were not used, but may be used to identify additional schools for school improvement or in need of corrective action or restructuring except as provided in paragraph (2)(l)(l).

(5) State authority

If a State educational agency provides evidence, which is satisfactory to the Secretary, that neither the State educational agency nor any other State government official, agency, or entity has sufficient authority, under State law, to adopt curriculum content and student academic achievement standards, and academic assessments aligned with such academic standards, which will be applicable to all students enrolled in the State’s public elementary schools and secondary schools, then the State educational agency may meet the requirements of this subsection by—

(A) adopting academic standards and academic assessments that meet the requirements of this subsection, on a statewide basis, and limiting their applicability to students served under this part; or

(B) adopting and implementing policies that ensure that each local educational agency in the State that receives grants under this part will adopt curriculum content and student academic achievement standards, and academic assessments aligned with such standards, which—

(i) meet all of the criteria in this subsection and any regulations regarding such standards and assessments that the Secretary may publish; and

(ii) are applicable to all students served by each such local educational agency.

(6) Language assessments

Each State plan shall identify the languages other than English that are present in the participating student population and indicate the languages for which yearly student academic assessments are not available and are needed. The State shall make every effort to develop such assessments and may request assistance from the Secretary if linguistically accessible academic assessment measures are needed. Upon request, the Secretary shall assist with the identification of appropriate academic assessment measures in the needed languages, but shall not mandate a specific academic assessment or mode of instruction.

(7) Academic assessments of English language proficiency

Each State plan shall demonstrate that local educational agencies in the State will, beginning not later than school year 2002–2003, provide for an annual assessment of English proficiency (measuring students’ oral language, reading, and writing skills in English) of all students with limited English proficiency in the schools served by the State educational agency, except that the Secretary may provide the State 1 additional year if the State demonstrates that exceptional or uncontrollable circumstances, such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the State, prevented full implementation of this paragraph by that deadline and that the State will complete implementation within the additional 1-year period.

(8) Requirement

Each State plan shall describe—

(A) how the State educational agency will assist each local educational agency and school affected by the State plan to develop the capacity to comply with each of the requirements of sections 6312(c)(1)(D), 6314(b), and 6315(c) of this title that is applicable to such agency or school;

(B) how the State educational agency will assist each local educational agency and school affected by the State plan to provide additional educational assistance to individual students assessed as needing help to achieve the State’s challenging academic achievement standards;

(C) the specific steps the State educational agency will take to ensure that both schoolwide programs and targeted assistance schools provide instruction by highly qualified instructional staff as required by sections 6314(b)(1)(C) and 6315(c)(1)(E) of this title, including steps that the State educational agency will take to ensure that poor and minority children are not taught at higher rates than other children by inexperienced, unqualified, or out-of-field teachers, and the measures that the State educational agency will use to evaluate and publicly report the progress of the State educational agency with respect to such steps;

(D) an assurance that the State educational agency will assist local educational agencies in developing or identifying high-quality effective curricula aligned with State academic achievement standards and how the State educational agency will disseminate such curricula to each local educational agency and school within the State; and

(E) such other factors the State educational agency determines appropriate to provide students an opportunity to achieve the knowledge and skills described in the challenging academic content standards adopted by the State.

(9) Factors affecting student achievement

Each State plan shall include an assurance that the State educational agency will coordinate and collaborate, to the extent feasible and necessary as determined by the State educational agency, with agencies providing services to children, youth, and families, with respect to local educational agencies within the State that are identified under section 6316 of this title and that request assistance with addressing major factors that have significantly affected the academic achievement of students in the local educational agency or schools served by such agency.
(10) Use of academic assessment results to improve student academic achievement

Each State plan shall describe how the State educational agency will ensure that the results of the State assessments described in paragraph (3)—

(A) will be promptly provided to local educational agencies, schools, and teachers in a manner that is clear and easy to understand, but not later than before the beginning of the next school year; and

(B) be used by those local educational agencies, schools, and teachers to improve the educational achievement of individual students.

(c) Other provisions to support teaching and learning

Each State plan shall contain assurances that—

(1) the State educational agency will meet the requirements of subsection (h)(1) of this section and, beginning with the 2002–2003 school year, will produce the annual State report cards described in such subsection, except that the Secretary may provide the State educational agency 1 additional year if the State educational agency demonstrates that exceptional or uncontrollable circumstances, such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the State, prevented full implementation of this paragraph by that deadline and that the State will complete implementation within the additional 1-year period;

(2) the State will, beginning in school year 2002–2003, participate in biennial State academic assessments of 4th and 8th grade reading and mathematics under the National Assessment of Educational Progress carried out under section 9022(b)(2) of this title if the Secretary pays the costs of administering such assessments;

(3) the State educational agency, in consultation with the Governor, will include, as a component of the State plan, a plan to carry out the responsibilities of the State under sections 6316 and 6317 of this title, including carrying out the State educational agency’s statewide system of technical assistance and support for local educational agencies;

(4) the State educational agency will work with other agencies, including educational service agencies or other local consortia, and institutions to provide technical assistance to local educational agencies and schools, including technical assistance in providing professional development under section 6319 of this title, technical assistance under section 6317 of this title, and technical assistance relating to parental involvement under section 6318 of this title;

(5)(A) where educational service agencies exist, the State educational agency will consider providing professional development and technical assistance through such agencies; and

(B) where educational service agencies do not exist, the State educational agency will consider providing professional development and technical assistance through other cooperative agreements such as through a consortium of local educational agencies;

(6) the State educational agency will notify local educational agencies and the public of the content and student academic achievement standards and academic assessments developed under this section, and of the authority to operate schoolwide programs, and will fulfill the State educational agency’s responsibilities regarding local educational agency improvement and school improvement under section 6316 of this title, including such corrective actions as are necessary;

(7) the State educational agency will provide the least restrictive and burdensome regulations for local educational agencies and individual schools participating in a program assisted under this part;

(8) the State educational agency will inform the Secretary and the public of how Federal laws, if at all, hinder the ability of States to hold local educational agencies and schools accountable for student academic achievement;

(9) the State educational agency will encourage schools to consolidate funds from other Federal, State, and local sources for schoolwide reform in schoolwide programs under section 6314 of this title;

(10) the State educational agency will modify or eliminate State fiscal and accounting barriers so that schools can easily consolidate funds from other Federal, State, and local sources for schoolwide programs under section 6314 of this title;

(11) the State educational agency has involved the committee of practitioners established under section 6573(b) of this title in developing the plan and monitoring its implementation;

(12) the State educational agency will inform local educational agencies in the State of the local educational agency’s authority to transfer funds under subchapter VI of this chapter, to obtain waivers under part D of subchapter IX of this chapter, and, if the State is an Ed-Flex Partnership State, to obtain waivers under the Education Flexibility Partnership Act of 1999;

(13) the State educational agency will coordinate activities funded under this part with other Federal activities as appropriate; and

(14) the State educational agency will encourage local educational agencies and individual schools participating in a program assisted under this part to offer family literacy services (using funds under this part), if the agency or school determines that a substantial number of students served under this part by the agency or school have parents who do not have a secondary school diploma or its recognized equivalent or who have low levels of literacy.

(d) Parental involvement

Each State plan shall describe how the State educational agency will support the collection and dissemination to local educational agencies and schools of effective parental involvement practices. Such practices shall—

(1) be based on the most current research that meets the highest professional and tech-
nical standards, on effective parental involvement that fosters achievement to high standards for all children; and

(2) be geared toward lowering barriers to greater participation by parents in school planning, review, and improvement experienced.

(e) Peer review and Secretarial approval

(1) Secretarial duties

The Secretary shall—

(A) establish a peer-review process to assist in the review of State plans;

(B) appoint individuals to the peer-review process who are representative of parents, teachers, State educational agencies, and local educational agencies, and who are familiar with educational standards, assessments, accountability, the needs of low-performing schools, and other educational needs of students;

(C) approve a State plan within 120 days of its submission unless the Secretary determines that the plan does not meet the requirements of this section;

(D) if the Secretary determines that the State plan does not meet the requirements of subsection (a), (b), or (c) of this section, immediately notify the State of such determination and the reasons for such determination;

(E) not decline to approve a State’s plan before—

(i) offering the State an opportunity to revise its plan;

(ii) providing technical assistance in order to assist the State to meet the requirements of subsections (a), (b), and (c) of this section; and

(iii) providing a hearing; and

(F) have the authority to disapprove a State plan for not meeting the requirements of this part, but shall not have the authority to require a State, as a condition of approval of the State plan, to include in, or delete from, such plan one or more specific elements of the State’s academic content standards or to use specific academic assessment instruments or items.

(2) State revisions

A State plan shall be revised by the State educational agency if it is necessary to satisfy the requirements of this section.

(f) Duration of the plan

(1) In general

Each State plan shall—

(A) remain in effect for the duration of the State’s participation under this part; and

(B) be periodically reviewed and revised as necessary by the State educational agency to reflect changes in the State’s strategies and programs under this part.

(2) Additional information

If significant changes are made to a State’s plan, such as the adoption of new State academic content standards and State student achievement standards, new academic assessments, or a new definition of adequate yearly progress, such information shall be submitted to the Secretary.

(g) Penalties

(1) Failure to meet deadlines enacted in 1994

(A) In general

If a State fails to meet the deadlines established by the Improving America’s Schools Act of 1994 (or under any waiver granted by the Secretary or under any compliance agreement with the Secretary) for demonstrating that the State has in place challenging academic content standards and student achievement standards, and a system for measuring and monitoring adequate yearly progress, the Secretary shall withhold 25 percent of the funds that would otherwise be available to the State for State administration and activities under this part in each year until the Secretary determines that the State meets those requirements.

(B) No extension

Notwithstanding any other provision of law, 90 days after January 8, 2002, the Secretary shall not grant any additional waivers of, or enter into any additional compliance agreements to extend, the deadlines described in subparagraph (A) for any State.

(2) Failure to meet requirements enacted in 2001

If a State fails to meet any of the requirements of this section, other than the requirements described in paragraph (1), then the Secretary may withhold funds for State administration under this part until the Secretary determines that the State has fulfilled those requirements.

(h) Reports

(1) Annual State report card

(A) In general

Not later than the beginning of the 2002–2003 school year, unless the State has received a 1-year extension pursuant to subsection (c)(1) of this section, a State that receives assistance under this part shall prepare and disseminate an annual State report card.

(B) Implementation

The State report card shall be—

(i) presented in an understandable and uniform format and, to the extent practicable, provided in a language that the parents can understand.

(C) Required information

The State shall include in its annual State report card—

§6313. Eligible school attendance areas

(a) Determination

A local educational agency shall use funds received under this part only in eligible school attendance areas.
§ 6313

Eligible school attendance areas

For the purposes of this part—
(A) the term "school attendance area" means, in relation to a particular school, the geographical area in which the children who are normally served by that school reside; and
(B) the term "eligible school attendance area" means a school attendance area in which the percentage of children from low-income families is at least as high as the percentage of children from low-income families served by the local educational agency as a whole.

Ranking order

If funds allocated in accordance with subsection (c) of this section are insufficient to serve all eligible school attendance areas, a local educational agency shall—
(A) annually rank, without regard to grade spans, such agency's eligible school attendance areas in which the concentration of children from low-income families exceeds 75 percent from highest to lowest according to the percentage of children from low-income families; and
(B) serve such eligible school attendance areas in rank order.

Remaining funds

If funds remain after serving all eligible school attendance areas under paragraph (3), a local educational agency shall—
(A) annually rank such agency's remaining eligible school attendance areas from highest to lowest either by grade span or for the entire local educational agency according to the percentage of children from low-income families; and
(B) serve such eligible school attendance areas in rank order either within each grade-span grouping or within the local educational agency as a whole.

Measures

The local educational agency shall use the same measure of poverty, which measure shall be the number of children ages 5 through 17 in poverty counted in the most recent census data approved by the Secretary, the number of children eligible for free and reduced priced lunches under the Richard B. Russell National School Lunch Act [42 U.S.C. 1751 et seq.], the number of children in families receiving assistance under the State program funded under part A of title IV of the Social Security Act [42 U.S.C. 601 et seq.], or the number of children eligible to receive medical assistance under the Medicaid program, or a composite of such indicators, with respect to all school attendance areas in the local educational agency—
(A) to identify eligible school attendance areas;
(B) to determine the ranking of each area; and
(C) to determine allocations under subsection (c) of this section.

Exception

This subsection shall not apply to a local educational agency with a total enrollment of less than 1,000 children.

Waiver for desegregation plans

The Secretary may approve a local educational agency's written request for a waiver of the requirements of subsections (a) and (c) of this section, and permit such agency to treat as eligible, and serve, any school that children attend with a State-ordered, court-ordered school desegregation plan or a plan that continues to be implemented in accordance with a State-ordered or court-ordered desegregation plan, if—
(A) the number of economically disadvantaged children enrolled in the school is at least 25 percent of the school's total enrollment; and
(B) the Secretary determines on the basis of a written request from such agency and in accordance with such criteria as the Secretary establishes, that approval of that request would further the purposes of this part.

(A) designate as eligible any school attendance area or school in which at least 35 percent of the children are from low-income families;

(C) designate and serve a school attendance area or school that is not eligible under this section, but that was eligible and that was served in the preceding fiscal year, but only for 1 additional fiscal year; and
(D) elect not to serve an eligible school attendance area or eligible school that has a higher percentage of children from low-income families if—

(ii) the school is receiving supplemental funds from other State or local sources that are spent according to the requirements of section 6314 or 6315 of this title; and
(iii) the funds expended from such other sources equal or exceed the amount that would be provided under this part.

Special rule

Notwithstanding paragraph (1)(D), the number of children attending private elementary schools and secondary schools who are to receive services, and the assistance such children are to receive under this part, shall be determined without regard to whether the public school attendance area in which such children reside is assisted under subparagraph (A).

Allocations

In general

(B) at the local educational agency’s discretion, use any academic assessments or any other academic indicators described in the local educational agency’s plan under section 6312(b)(1)(A) and (B) of this title to review annually the progress of each school served under this part to determine whether the school is making adequate yearly progress as defined in section 6311(b)(2) of this title, except that the local educational agency may not use such indicators (other than as provided for in section 6311(b)(2)(I) of this title) if the indicators reduce the number or change the schools that would otherwise be subject to school improvement, corrective action, or restructuring under this section if such additional indicators were not used, but may identify additional schools for school improvement or in need of corrective action or restructuring;
(C) publicize and disseminate the results of the local annual review described in paragraph (1) to parents, teachers, principals, schools, and the community so that the teachers, principals, other staff, and schools can continually refine, in an instructionally useful manner, the program of instruction to help all children served under this part meet the challenging State student academic achievement standards established under section 6311(b)(1) of this title; and
(D) review the effectiveness of the actions and activities the schools are carrying out under this part with respect to parental involvement, professional development, and other activities assisted under this part.

(D) Targeted assistance schools

To determine if an elementary school or a secondary school that is conducting a targeted assistance program under section 6315 of this title should be identified for school improvement, corrective action, or restructuring under this section, a local educational agency may choose to review the progress of only the students in the school who are served, or are eligible for services, under this part.

(E) Public school choice

(i) In general

In the case of a school identified for school improvement under this paragraph, the local educational agency shall, not later than the first day of the school year following such identification, provide all students enrolled in the school with the option to transfer to another public school served by the local educational agency, which may include a public charter school, that has not been identified for school improvement under this paragraph, unless such an option is prohibited by State law.

(ii) Rule

(B) Evidence

If the principal of a school proposed for identification under paragraph (1), (5)(A), (7), or (8) believes, or a majority of the parents of the students enrolled in such school believe, that the proposed identification is in error for statistical or other substantive reasons, the principal may provide supporting evidence to the local educational agency, which shall consider that evidence before making a final determination.

(C) Final determination

Not later than 30 days after a local educational agency provides the school with the opportunity to review such school-level data, the local educational agency shall make public a final determination on the status of the school with respect to the identification.

(3) School plan

(A) Revised plan

After the resolution of a review under paragraph (2), each school identified under paragraph (1) for school improvement shall, not later than 3 months after being so identified, develop or revise a school plan, in consultation with parents, school staff, the local educational agency serving the school, and outside experts, for approval by such local educational agency. (I) directly addresses the academic achievement problem that caused the school to be identified for school improvement;

(II) meets the requirements for professional development activities under section 6319 of this title; and

(v) establish specific annual, measurable objectives for continuous and substantial progress by each group of students specified in section 6311(b)(2)(C)(v) of this title and enrolled in the school that will ensure that all such groups of students will, in accordance with adequate yearly progress as defined in section 6311(b)(2) of this title, meet the State’s proficient level of achievement on the State academic assessment described in section 6311(b)(3) of this title not later than 12 years after the end of the 2001–2002 school year;

(iv) may be provided—

(I) by the local educational agency, through mechanisms authorized under section 6317 of this title; or

(II) by the State educational agency, an institution of higher education (that is in full compliance with all the report-
ing provisions of title II of the Higher Education Act of 1965 (20 U.S.C. 1021 et seq.), a private not-for-profit organization or for-profit organization, an educational service agency, or another entity approved by that agency shall be based on scientifically based research.

(5) Failure to make adequate yearly progress after identification

In the case of any school served under this part that fails to make adequate yearly progress, as set out in the State’s plan under section 6311(b)(2) of this title, by the end of the first full school year after identification under paragraph (1), the local educational agency serving such school:

(A) shall continue to provide all students enrolled in the school with the option to transfer to another public school served by the local educational agency in accordance with subparagraphs (E) and (F);

(7) Corrective action

(A) In general

In this subsection, the term “corrective action” means action, consistent with State law, that—

(i) substantially and directly responds to—

(I) the consistent academic failure of a school that caused the local educational agency to take such action; and

Notwithstanding any other provision of this paragraph, the local educational agency may delay, for a period not to exceed 1 year, implementation of the requirements under paragraph (5), corrective action under this paragraph, or restructuring under paragraph (8) if the school makes adequate yearly progress for 1 year or if its failure to make adequate yearly progress is due to exceptional or uncontrollable circumstances, such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the local educational agency or school. No such period shall be taken into account in determining the number of consecutive years of failure to make adequate yearly progress.

(E) Publication and dissemination

The local educational agency shall publish and disseminate information regarding any corrective action the local educational agency takes under this paragraph at a school—

(ii) Replacing all or most of the school staff (which may include the principal) who are relevant to the failure to make adequate yearly progress.

(iii) Entering into a contract with an entity, such as a private management company, with a demonstrated record of effectiveness, to operate the public school.

(13) Special rule

A local educational agency shall permit a child who transferred to another school under this subsection to remain in that school until the child has completed the highest grade in that school. (F) the method or sources of data that are used under subsection (c) of this section and section 6313(c)(1) of this title to determine the number of children from low-income families in participating school attendance areas who attend private schools;

(G) how and when the agency will make decisions about the delivery of services to such children, including a thorough consideration and analysis of the views of the private school officials on the provision of services through a contract with potential third-party providers; and

(H) how, if the agency disagrees with the views of the private school officials on the provision of services through a contract, the local educational agency will provide in writing to such private school officials an analysis of the reasons why the local educational agency has chosen not to use a contractor.

(2) Timing

Such consultation shall include meetings of agency and private school officials and shall occur before the local educational agency makes any decision that affects the opportunities of eligible private school children to participate in programs under this part. Such meetings shall continue throughout implementation and assessment of services provided under this section.

(3) Discussion

Such consultation shall include a discussion of service delivery mechanisms a local educational agency can use to provide equitable services to eligible private school children.

(B) using the results of a survey that, to the extent possible, protects the identity of families of private school students, and allowing such survey results to be extrapolated if complete actual data are unavailable;
(C) applying the low-income percentage of each participating public school attendance area, determined pursuant to this section, to the number of private school children who reside in that school attendance area; or
(D) using an equated measure of low income correlated with the measure of low income used to count public school children.

(2) Complaint process
Any dispute regarding low-income data for private school students shall be subject to the complaint process authorized in section 7883 of this title.

(d) Public control of funds

(e) Standards for a bypass
If a local educational agency is prohibited by law from providing for the participation in programs on an equitable basis of eligible children enrolled in private elementary schools and secondary schools, or if the Secretary determines that a local educational agency has substantially failed or is unwilling to provide for such participation, as required by this section, the Secretary shall—

(1) waive the requirements of this section for such local educational agency;
(2) arrange for the provision of services to such children through arrangements that shall be subject to the requirements of this section and sections 7883 and 7884 of this title; and

PRIOR PROVISIONS

§ 6332. Allocations to States

(a) Allocation formula

Of the amount appropriated under section 6302(a) of this title to carry out this part for each of fiscal years 2002–2007 (referred to in this subsection as the current fiscal year)—

(1) an amount equal to the amount made available to carry out section 6333 of this title for fiscal year 2001 shall be allocated in accordance with section 6333 of this title;

(2) an amount equal to the amount made available to carry out section 6334 of this title for fiscal year 2001 shall be allocated in accordance with section 6334 of this title; and

(3) an amount equal to 100 percent of the amount, if any, by which the amount made available to carry out sections 6333, 6334, and 6335 of this title for the current fiscal year for which the determination is made exceeds the amount available to carry out sections 6333 and 6334 of this title for fiscal year 2001 shall be allocated in accordance with section 6335 of this title.

(b) Adjustments where necessitated by appropriations

(1) In general

If the sums available under this subpart for any fiscal year are insufficient to pay the full amounts that all local educational agencies in States are eligible to receive under sections 6333, 6334, and 6335 of this title for such year, the Secretary shall ratably reduce the allocations to such local educational agencies, subject to subsections (c) and (d) of this section.

(2) Additional funds

If additional funds become available for making payments under sections 6333, 6334, and 6335 of this title for such fiscal year, allocations that were reduced under paragraph (1) shall be increased on the same basis as they were reduced.

(c) Hold-harmless amounts

(1) Amounts for sections 6333, 6334, and 6335

For each fiscal year, the amount made available to each local educational agency under each of sections 6333, 6334, and 6335 of this title shall be—

(A) not less than 95 percent of the amount made available for the preceding fiscal year if the number of children counted for grants under section 6333 of this title is not less than 30 percent of the total number of children aged 5 to 17 years, inclusive, in the local educational agency;

(C) not less than 85 percent of the amount made available for the preceding fiscal year if the percentage described in subparagraph (A) is below 15 percent.

(2) Payments

If sufficient funds are appropriated, the amounts described in paragraph (1) shall be paid to all local educational agencies that received grants under section 6334 of this title for the preceding fiscal year, regardless of whether the local educational agency meets the minimum eligibility criteria for that fiscal year described in section 6334(a)(1)(A) of this title except that a local educational agency that does not meet such minimum eligibility criteria for 4 consecutive years shall no longer be eligible to receive a hold harmless amount referred to in paragraph (1).

(3) Applicability

Notwithstanding any other provision of law, the Secretary shall not take into consideration the hold-harmless provisions of this subpart for any fiscal year for purposes of calculating State or local allocations for the fiscal year under any program administered by the Secretary other than a program authorized under this part.

(4) Population data

For any fiscal year for which the Secretary calculates grants on the basis of population data for counties, the Secretary shall apply the hold-harmless percentages in paragraphs (1) and (2) to counties and, if the Secretary’s allocation for a county is not sufficient to meet the hold-harmless requirements of this subsection for every local educational agency within that county, the State educational agency shall reallocate funds proportionately from all other local educational agencies in the State that are receiving funds in excess of
the hold-harmless amounts specified in this subsection.

(d) Ratable reductions

Prior Provisions

§ 6333. Basic grants to local educational agencies

(a) Amount of grants

(1) Grants for local educational agencies and Puerto Rico

Except as provided in paragraph (4) and in section 6338 of this title, the grant that a local educational agency is eligible to receive under this section for a fiscal year is the amount determined by multiplying—

(A) the number of children counted under subsection (c) of this section; and

(B) 40 percent of the average per-pupil expenditure in the State, except that the amount determined under this subparagraph shall not be less than 32 percent, or more than 48 percent, of the average per-pupil expenditure in the United States.

(2) Calculation of grants

(A) Allocations to local educational agencies

The Secretary shall calculate grants under this section on the basis of the number of children counted under subsection (c) of this section for local educational agencies, unless the Secretary and the Secretary of Commerce determine that some or all of those data are unreliable or that their use would be otherwise inappropriate, in which case—

(i) the two Secretaries shall publicly disclose the reasons for their determination in detail; and

(ii) paragraph (3) shall apply.

(B) Allocations to large and small local educational agencies

(i) For any fiscal year to which this paragraph applies, the Secretary shall calculate grants under this section for each local educational agency.

(ii) The amount of a grant under this section for each large local educational agency shall be the amount determined under clause (i).

(iii) For small local educational agencies, the State educational agency may either—

(I) distribute grants under this section in amounts determined by the Secretary under clause (i); or

(II) use an alternative method approved by the Secretary to distribute the portion of the State’s total grants under this section that is based on those small agencies.

(iv) An alternative method under clause (iii)(II) shall be based on population data that the State educational agency determines best reflect the current distribution of children in poor families among the State’s small local educational agencies that meet the eligibility criteria of subsection (b) of this section.

(v) If a small local educational agency is dissatisfied with the determination of its grant by the State educational agency under clause (iii)(II), it may appeal that determination to the Secretary, who shall respond not later than 45 days after receipt of such appeal.

(vi) As used in this subparagraph—

(I) the term “large local educational agency” means a local educational agency serving an area with a total population of 20,000 or more; and

(II) the term “small local educational agency” means a local educational agency serving an area with a total population of less than 20,000.

(3) Allocations to counties

(A) Calculation

For any fiscal year to which this paragraph applies, the Secretary shall calculate grants under this section on the basis of the number of children counted under subsection (c) of this section for counties, and State educational agencies shall suballocate county amounts to local educational agencies, in accordance with regulations issued by the Secretary.

(B) Direct allocations

In any State in which a large number of local educational agencies overlap county boundaries, or for which the State believes it has data that would better target funds than allocating them by county, the State educational agency may apply to the Secretary for authority to make the allocations under this subpart for a particular fiscal year directly to local educational agencies without regard to counties.

(C) Allocations to local educational agencies

If the Secretary approves the State educational agency’s application under subparagraph (B), the State educational agency shall provide the Secretary an assurance that such allocations shall be made—

(i) using precisely the same factors for determining a grant as are used under this subpart; or
(ii) using data that the State educational agency submits to the Secretary for approval that more accurately target poverty.

(D) Appeal
The State educational agency shall provide the Secretary an assurance that it will establish a procedure through which a local educational agency that is dissatisfied with its determinations under subparagraph (B) may appeal directly to the Secretary for a final determination.

(4) Puerto Rico
(A) In general
For each fiscal year, the grant that the Commonwealth of Puerto Rico shall be eligible to receive under this section shall be the amount determined by multiplying the number of children counted under subsection (c) of this section for the Commonwealth of Puerto Rico by the product of—

(i) subject to subparagraph (B), the percentage that the average per-pupil expenditure in the Commonwealth of Puerto Rico is of the lowest average per-pupil expenditure of any of the 50 States; and

(ii) 32 percent of the average per-pupil expenditure in the United States.

(B) Minimum percentage
The percentage in subparagraph (A)(i) shall not be less than—

(i) for fiscal year 2002, 77.5 percent;

(ii) for fiscal year 2003, 80.0 percent;

(iii) for fiscal year 2004, 82.5 percent;

(iv) for fiscal year 2005, 85.0 percent;

(v) for fiscal year 2006, 92.5 percent; and

(vi) for fiscal year 2007 and succeeding fiscal years, 100.0 percent.

(C) Limitation
If the application of subparagraph (B) would result in any of the 50 States or the District of Columbia receiving less under this subpart than it received under this subpart for the preceding fiscal year, the percentage in subparagraph (A) shall be the greater of—

(i) the percentage in subparagraph (A)(i);

(ii) the percentage specified in subparagraph (B) for the preceding fiscal year; or

(iii) the percentage used for the preceding fiscal year.

(b) Minimum number of children to qualify
A local educational agency is eligible for a basic grant under this section for any fiscal year only if the number of children counted under subsection (c) of this section for that agency is both—

(1) 10 or more; and

(2) more than 2 percent of the total school-age population in the agency’s jurisdiction.

(c) Children to be counted
(1) Categories of children
The number of children to be counted for purposes of this section is the aggregate of—

(A) the number of children aged 5 to 17, inclusive, in the school district of the local educational agency from families below the poverty level as determined under paragraph (2);

(B) the number of children (determined under paragraph (4) for either the preceding year as described in that paragraph, or for the second preceding year, as the Secretary finds appropriate) aged 5 to 17, inclusive, in the school district of such agency in institutions for neglected and delinquent children (other than such institutions operated by the United States), but not counted pursuant to subpart 1 of part D of this subchapter for the purposes of a grant to a State agency, or being supported in foster homes with public funds; and

(C) the number of children aged 5 to 17, inclusive, in the school district of such agency from families above the poverty level as determined under paragraph (4).

(2) Determination of number of children
For the purposes of this section, the Secretary shall determine the number of children aged 5 to 17, inclusive, from families below the poverty level on the basis of the most recent satisfactory data, described in paragraph (3), available from the Department of Commerce. The District of Columbia and the Commonwealth of Puerto Rico shall be treated as individual local educational agencies. If a local educational agency contains two or more counties in their entirety, then each county will be treated as if such county were a separate local educational agency for purposes of calculating grants under this part. The total of grants for such counties shall be allocated to such a local educational agency, which local educational agency shall distribute to schools in each county within such agency a share of the local educational agency’s total grant that is no less than the county’s share of the population counts used to calculate the local educational agency’s grant.

(3) Population updates
(A) In general
In fiscal year 2002 and each subsequent fiscal year, the Secretary shall use updated data on the number of children, aged 5 to 17, inclusive, from families below the poverty level for counties or local educational agencies, published by the Department of Commerce, unless the Secretary and the Secretary of Commerce determine that the use of the updated population data would be inappropriate or unreliable. If appropriate and reliable data are not available annually, the Secretary shall use data which are updated every 2 years.

(B) Inappropriate or unreliable data
If the Secretary and the Secretary of Commerce determine that some or all of the data referred to in subparagraph (A) are inappropriate or unreliable, the Secretary and the Secretary of Commerce shall publicly disclose their reasons.

(C) Criteria of poverty
In determining the families that are below the poverty level, the Secretary shall use
(4) Other children to be counted

(A) For the purpose of this section, the Secretary shall determine the number of children aged 5 to 17, inclusive, from families above the poverty level on the basis of the number of such children from families receiving an annual income, in excess of the current criteria of poverty, that exceed the annual income, in excess of the current criteria of poverty, that exceed the amount allocated under part A of title IV of the Social Security Act [42 U.S.C. 601 et seq.]; and in making such determinations, the Secretary shall use the criteria of poverty used by the Bureau of the Census in compiling the most recent decennial census or by way of reimbursement) the Secretary of Commerce the cost of making this special estimate of the number of children of poverty level (as determined under paragraph (1)(A)) in each school district, and the Secretary shall consider all children who are in correctional institutions to be living in institutions for neglected or delinquent children, or being supported in foster homes with public funds, on the basis of the caseload data for the month of October of the preceding fiscal year (using, in the case of children described in the preceding sentence, the criteria of poverty and the form of such criteria required by such sentence which were determined for the calendar year preceding such month of October) or, to the extent that such data are not available to the Secretary before January of the calendar year in which the Secretary’s determination is made, then on the basis of the most recent reliable data available to the Secretary at the time of such determination.

(C) Except for the data on children living in institutions for neglected or delinquent children, the Secretary of Health and Human Services shall collect and transmit the information required by this subparagraph to the Secretary not later than January 1 of each year.

(D) For the purpose of this section, the Secretary shall consider all children who are in correctional institutions to be living in institutions for delinquent children.

(5) Estimate

When requested by the Secretary, the Secretary of Commerce shall make a special updated estimate of the number of children of such ages who are from families below the poverty level (as determined under paragraph (1)(A)) in each school district, and the Secretary is authorized to pay (either in advance or by way of reimbursement) the Secretary of Commerce the cost of making this special estimate. The Secretary of Commerce shall give consideration to any request of the chief executive of a State for the collection of additional census information.

(d) State minimum

Notwithstanding section 6332 of this title, the aggregate amount allotted for all local educational agencies within a State may not be less than the lesser of—

(1) 0.25 percent of the total amount allocated to States under this section for fiscal year 2001, plus 0.35 percent of the total amount allocated to States under this section in excess of the amount allocated for fiscal year 2001; or

(2) the average of—

(A) the amount calculated in paragraph (1), above; and

(B) the number of children in such State counted under subsection (c) of this section in the fiscal year multiplied by 150 percent of the national average per-pupil payment made with funds available under this section for that year.

(3) Amount

The amount of the additional grant for which an eligible local educational agency or county is eligible under this section for any fiscal year shall be an amount which bears the same ratio to the amount available to carry out this section for that fiscal year as the statewide average percentage of such children bears to the sum of such products for all local educational agencies in the United States for that fiscal year.

(2) Special rule

For any fiscal year for which the Secretary allocates funds under this section on the basis of counties, funds made available as a result of applying this subsection shall be reallocated by the State educational agency to other eligible local educational agencies in the State in proportion to the distribution of other funds under this section.

Prior Provisions

agencies, prior to the general amendment of this subchapter by Pub. L. 107–110.

§ 6336. Adequacy of funding of targeted grants to local educational agencies in fiscal years after fiscal year 2001

(a) Findings

Congress makes the following findings:

(1) The current Basic Grant Formula for the distribution of funds under this part often does not provide funds for the economically disadvantaged students for which such funds are targeted.

(2) Any school district in which more than 2 percent of the students live below the poverty level qualifies for funding under the Basic Grant Formula. As a result, 9 out of every 10 school districts in the country receive some form of aid under the Formula.

(3) Fifty-eight percent of all schools receive at least some funding under this part, including many suburban schools with predominantly well-off students.

(4) One out of every 5 schools with concentrations of poor students between 50 and 75 percent receive no funding at all under this part.

(5) In passing the Improving America’s Schools Act in 1994, Congress declared that grants under this part would more sharply target high poverty schools by using the Targeted Grant Formula, but annual appropriation Acts have prevented the use of that Formula.

(6) The advantage of the Targeted Grant Formula over other funding formulas under this part is that the Targeted Grant Formula provides increased grants per poor child as the percentage of economically disadvantaged children in a school district increases.

(7) Studies have found that the poverty of a child's family is much more likely to be associated with educational disadvantage if the family lives in an area with large concentrations of poor families.

(8) States with large populations of high poverty students would receive significantly more funding if more funds under this part were allocated through the Targeted Grant Formula.

(9) Congress has an obligation to allocate funds under this part so that such funds will positively affect the largest number of economically disadvantaged students.

(b) Limitation on allocation of subchapter I funds contingent on adequate funding of targeted grants

Pursuant to section 6332 of this title, the total amount allocated in any fiscal year after fiscal year 2001 for programs and activities under this part shall not exceed the amount allocated in fiscal year 2001 for such programs and activities unless the amount available for targeted grants to local educational agencies under section 6335 of this title in the applicable fiscal year meets the requirements of section 6332(a) of this title.

(b) Distribution based upon fiscal effort and equity

(1) In general

(A) In general

Except as provided in subparagraph (B), funds appropriated pursuant to subsection (f) of this section shall be allotted to each State based upon the number of children counted under section 6333(c) of this title in such State multiplied by the product of—

(i) the amount in section 6333(a)(1)(B) of this title for all States other than the Commonwealth of Puerto Rico, except that the amount determined under that subparagraph shall not be less than 34 percent or more than 46 percent of the average per pupil expenditure in the United States, and the amount in section 6333(a)(4) of this title for the Commonwealth of Puerto Rico, except that the amount in section 6333(a)(4)(A)(ii) of this title shall be 94 percent of the average per pupil expenditure in the United States; multiplied by

(ii) such State’s effort factor described in paragraph (2); multiplied by

(iii) 1.30 minus such State’s equity factor described in paragraph (5).

(B) State minimum

Notwithstanding any other provision of this section or section 6332 of this title, from the total amount available for any fiscal year to carry out this section, each State shall be allotted at least the lesser of—

(I) 0.35 percent of total appropriations; or

(II) 150 percent of the national average grant under this section per child described in section 6333(c) of this title, without application of a weighting factor, multiplied by the State’s total number of children described in section 6333(c) of this title, without application of a weighting factor.

(2) Effort factor

(A) In general

Except as provided in subparagraph (B), the effort factor for a State shall be deter-
minded in accordance with the succeeding sentence, except that such factor shall not be less than 0.95 nor greater than 1.05. The effort factor determined under this sentence shall be a fraction the numerator of which is the product of the 3-year average per-pupil expenditure in the State multiplied by the 3-year average per capita income in the United States and the denominator of which is the product of the 3-year average per capita income in such State multiplied by the 3-year average per-pupil expenditure in the United States.

(B) Commonwealth of Puerto Rico

The effort factor for the Commonwealth of Puerto Rico shall be equal to the lowest effort factor calculated under subparagraph (A) for any State.

(3) Equity factor

(A) Determination

(i) In general

Except as provided in subparagraph (B), the Secretary shall determine the equity factor under this section for each State in accordance with clause (ii).

(ii) Computation

For each State, the Secretary shall compute a weighted coefficient of variation for the per-pupil expenditures of local educational agencies in accordance with subclauses (II), (III), and (IV).

(II) Variation

In computing coefficients of variation, the Secretary shall weigh the variation between per-pupil expenditures in each local educational agency and the average per-pupil expenditures in the State according to the number of pupils served by the local educational agency.

(III) Number of pupils

In determining the number of pupils under this paragraph served by each local educational agency and in each State, the Secretary shall multiply the number of children under section 6333(c) of this title by a factor of 1.4.

(IV) Enrollment requirement

In computing coefficients of variation, the Secretary shall include only those local educational agencies with an enrollment of more than 200 students.

(B) Special rule

The equity factor for a State that meets the disparity standard described in section 222.162 of title 34, Code of Federal Regulations (as such section was in effect on the day preceding January 8, 2002) or a State with only one local educational agency shall be not greater than 0.10.

(c) Use of funds; eligibility of local educational agencies

All funds awarded to each State under this section shall be allocated to local educational agencies under the following provisions. Within local educational agencies, funds allocated under this section shall be distributed to schools on a basis consistent with section 6313 of this title, and may only be used to carry out activities under this part. A local educational agency in a State is eligible to receive a targeted grant under this section for any fiscal year if—

(A) the number of children in the local educational agency counted under section 6333(c) of this title, before application of the weighted child count described in paragraph (3), is at least 10; and

(B) if the number of children counted for grants under section 6333(c) of this title, before application of the weighted child count described in paragraph (3), is at least 5 percent of the total number of children aged 5 to 17 years, inclusive, in the school district of the local educational agency.

For any fiscal year for which the Secretary allocates funds under this section on the basis of counties, funds made available as a result of applying this subsection shall be reallocated by the State educational agency to other eligible local educational agencies in the State in proportion to the distribution of other funds under this section.

§ 6393. State allocations

(a) State allocations

(1) Fiscal year 2002

For fiscal year 2002, each State (other than the Commonwealth of Puerto Rico) is entitled to receive under this part an amount equal to—

(A) the sum of the estimated number of migratory children aged 3 through 21 who reside in the State during the previous school year, multiplied by

(B) 40 percent of the average per-pupil expenditure in the State, except that the amount determined under this paragraph shall not be less than 32 percent, nor more than 48 percent, of the average per-pupil expenditure in the United States.

(B) Allocation of additional amount

For fiscal year 2003 and succeeding fiscal years, the amount (if any) by which the funds appropriated to carry out this part for fiscal year 2002 shall be allocated to a State (other than the Commonwealth of Puerto Rico) so that the State receives an amount equal to—

Whenever the Secretary, after providing reasonable notice and opportunity for a hearing to any State educational agency, finds that there is a failure to comply with a requirement of any
provision of this subpart, the Secretary shall notify that agency that further payments will not be made to the agency under this subpart or, in the discretion of the Secretary, that the State educational agency shall not make further payments under this subpart to specified local educational agencies whose actions cause or are involved in such failure until the Secretary is satisfied that there is no longer any such failure to comply. Until the Secretary is so satisfied, no further payments shall be made to the State educational agency under this subpart, or payments by the State educational agency under this subpart shall be limited to local educational agencies whose actions did not cause or were not involved in the failure, as the case may be.

(5) provide assurances that the State educational agency will not finally disapprove in whole or in part any application for funds received under this subpart without first affording the local educational agency submitting an application for such funds reasonable notice and opportunity for a hearing;

(7) provide assurances—

(A) that to the extent consistent with the number of immigrant children and youth enrolled in the nonpublic elementary schools or secondary schools within the district served by a local educational agency, such agency, after consultation with appropriate officials of such schools, shall provide for the benefit of such children and youth secular, neutral, and nongeopolitical services, materials, and equipment necessary for the education of such children and youth;

(b) Reservation

From the sums appropriated to carry out this part for each fiscal year, the Secretary shall reserve not more than 1 percent for payments to the outlying areas, to be allotted in accordance with their respective needs for assistance under this part.

(B) children from economically disadvantaged families; and

(C) children living in sparsely populated areas.

(2) Allocation of increased amounts

(A) State criteria

Relative enrollments calculated under subsection (a)(1) of this section shall be adjusted, in accordance with criteria approved by the Secretary under subparagraph (B), to provide higher per-pupil allocations only to local educational agencies that serve the greatest numbers or percentages of—

(ii) children from economically disadvantaged families; or

(iii) children living in sparsely populated areas.

(B) Review of criteria

The Secretary shall review criteria submitted by a State educational agency for adjusting allocations under paragraph (1) and shall approve such criteria only if the Secretary determines that such criteria are reasonably calculated to produce an adjusted allocation that reflects the relative needs of the State’s local educational agencies based on the factors set forth in subparagraph (A).

(d) Payment of allocations

(1) Distribution

From the funds paid to a State educational agency under this subpart for a fiscal year, the State educational agency shall distribute to each eligible local educational agency that has submitted an application as required by section 7215b of this title the amount of such local educational agency’s allocation, as determined under subsection (a) of this section.

(B) Allocation

In any fiscal year, any local educational agency that elects to allocate such additional funds in the manner described in subparagraph (A) shall allocate all additional funds to schools within the area served by the local educational agency in such manner.

(b) Reduction of funds
The Secretary shall reduce the amount of the allotment of funds under this part in any fiscal year in the exact proportion by which the State educational agency fails to meet the requirements of subsection (a) of this section by falling below 90 percent of the fiscal effort per student or aggregate expenditures (using the measure most favorable to the State educational agency), and no such lesser amount shall be used for computing the effort or expenditures required under paragraph (1) for subsequent years.

(c) Waiver
The Secretary may waive, for 1 fiscal year only, the requirements of this section, if the Secretary determines that such a waiver would be equitable due to exceptional or uncontrollable circumstances, such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the State educational agency.

PRIOR PROVISIONS

§ 7217a. Participation of children enrolled in private schools

(a) Participation on equitable basis

(1) In general

(2) Other provisions for services
If no program is carried out under paragraph (1) in the school district of a local educational agency, the State educational agency shall make arrangements, such as through contracts with nonprofit agencies or organizations, under which children in private schools in the district are provided with services and materials to the same extent as would have occurred if the local educational agency had received funds under this part.

(3) Application of requirements

(1) In general
Expenditures for programs under subsection (a) of this section shall be equal (consistent with the number of children to be served) to expenditures for programs under this part for children enrolled in the public schools of the local educational agency.

(2) Concentrated programs
Taking into account the needs of the individual children and other factors that relate...
to the expenditures referred to in paragraph (1), and when funds available to a local educational agency under this part are used to concentrate programs on a particular group, attendance area, or grade or age level, children enrolled in private schools who are included within the group, attendance area, or grade or age level selected for such concentration shall, after consultation with the appropriate private school officials, be assured equitable participation in the purposes and benefits of such programs.

(e) Administrative requirements

The control of funds provided under this part, and title to materials, equipment, and property repaired, remodeled, or constructed with such funds, shall be in a public agency for the uses and purposes provided in this part, and a public agency shall administer such funds and property.

(2) Provision of services

Services provided under this part shall be provided by employees of a public agency or through contract by such a public agency with a person, association, agency, or corporation independent of the private school and of any religious organizations, and such employment or contract shall be under the control and supervision of such a public agency. (2) Failure to comply

If the Secretary determines that a State educational agency or a local educational agency has substantially failed, or is unwilling, to provide for the participation on an equitable basis of children enrolled in private elementary schools and secondary schools as required by subsections (a) through (c) of this section, the Secretary may waive such requirements and shall arrange for the provision of services to such children through arrangements that shall be subject to the requirements of this section.

(e) Withholding of allotment or allocation

Pending final resolution of any investigation or complaint that could result in a waiver under subsection (d)(1) or (d)(2) of this section, the Secretary may withhold from the allotment or allocation of the affected State educational agency or local educational agency the amount estimated by the Secretary to be necessary to pay the cost of services to be provided by the Secretary under such subsection.

(f) Duration of determination

Any determination by the Secretary under this section shall continue in effect until the Secretary determines that there will no longer be any failure or inability on the part of the State educational agency or local educational agency to meet the requirements of subsections (a) through (c) of this section.

When the Secretary arranges for services under subsection (d) of this section, the Secretary shall, after consultation with the appropriate public school and private school officials, pay the cost of such services, including the administrative costs of arranging for those services, from the appropriate allotment of the State educational agency under this part.

(h) Review of determination

A copy of the petition shall be transmitted by the clerk of the court to the Secretary. The Secretary thereupon shall file in the court the record of the proceedings on which the Secretary based the action, as provided in section 2212 of title 28.

(2) Review and evaluation priority criteria

The criteria referred to in paragraph (1) are that the State provides for periodic review and evaluation by the authorized public chartering agency of each charter school, at least once every 5 years unless required more frequently by State law, to determine whether the charter school is meeting the terms of the school's charter, and is meeting or exceeding the student academic achievement requirements and goals for charter schools as set forth under State law or the school's charter.

(3) Priority criteria

The criteria referred to in paragraph (1) are the following:

(A) The State has demonstrated progress, in increasing the number of high-quality charter schools that are held accountable in the terms of the schools' charters for meeting clear and measurable objectives for the educational progress of the students attending the schools, in the period prior to the period for which a State educational agency or eligible applicant applies for a grant under this subpart.

(B) The State—

(i) provides for one authorized public chartering agency that is not a local educational agency, such as a State chartering board, for each individual or entity seeking to operate a charter school pursuant to such State law; or

(ii) in the case of a State in which local educational agencies are the only authorized public chartering agencies, allows for an appeals process for the denial of an application for a charter school.

(C) The State ensures that each charter school has a high degree of autonomy over the charter school's budgets and expenditures.

(f) Amount criteria

In determining the amount of a grant to be awarded under this subpart to a State educational agency, the Secretary shall take into consideration the number of charter schools that are operating, or are approved to open, in the State.
