(e) The Secretary of Agriculture is authorized to use in his discretion any funds obtained by him pursuant to the provisions of subsection (a) or (b) of this section for making advances to any agency which may have been or may be established by the Secretary of Agriculture for the handling, carrying, insuring, or marketing of any cotton acquired by the Secretary of Agriculture, to enable any such agency to perform, exercise, and discharge any of the duties, privileges, and functions which such agency may be authorized to perform, exercise, or discharge.

(f) The proceeds derived from the sale of cotton shall be held for the Secretary of Agriculture by the Treasurer of the United States in a special deposit account and shall be used by
the Secretary of Agriculture to discharge the obligations incurred under authority of sections 603, 604, and 607 of this title. Whenever any cotton shall be marketed the net proceeds (after discharge of other obligations incurred with respect thereto) derived from the sale thereof shall be used, to the extent required, to reimburse the Treasury for such portion of the funds hereby provided for as shall have been used, which shall be covered into the Treasury as a miscellaneous receipt. If when all of the cotton acquired by the Secretary of Agriculture shall have been marketed and all of the obligations incurred with respect to such cotton shall have been discharged, and the Treasury reimbursed for any and all sums which may have been advanced pursuant to subsection (b) of this section, there shall remain any balance in the hands of the Secretary of Agriculture, such balance shall be covered into the Treasury as miscellaneous receipts.

The word “obligation” when used in this section shall include (without being limited to) administrative expenses, warehouse charges, insurance, salaries, interest, commissions, and other expenses incident to handling, carrying, insuring, and marketing of said cotton.

SUBCHAPTER III—COMMODITY BENEFITS

§ 608. Powers of Secretary

(1) Investigations; proclamation of findings

Whenever the Secretary of Agriculture has reason to believe that:

(a) The current average farm price for any basic agricultural commodity is less than the fair exchange value thereof, or the fair exchange value of such commodity is likely to be less than the fair exchange value thereof for the period in which the production of such commodity during the current or next succeeding marketing year is normally marketed, and

(b) The conditions of and factors relating to the production, marketing, and consumption of such commodity are such that the exercise of any one or more of the powers conferred upon the Secretary under subsections (2) and (3) of this section would tend to effectuate the declared policy of this chapter.

he shall cause an immediate investigation to be made to determine such facts. If, upon the basis of such investigation, the Secretary finds the existence of such facts, he shall proclaim such determination and shall exercise such one or more of the powers conferred upon him under subsections (2) and (3) of this section as he finds, upon the basis of an investigation, administratively practicable and best calculated to effectuate the declared policy of this chapter.

(2) Agreements for adjustment of acreage or production and for rental or benefit payments

Subject to the provisions of subsection (1) of this section, the Secretary of Agriculture shall provide, through agreements with producers or by other voluntary methods,

(a) For such adjustment in the acreage or in the production for market, or both, of any basic agricultural commodity, as he finds, upon the basis of the investigation made pursuant to subsection (1) of this section, will...
tend to effectuate the declared policy of this chapter, and to make such adjustment program practicable to operate and administer, and

(b) For rental or benefit payments in connection with such agreements or methods in such amounts as he finds, upon the basis of such investigation, to be fair and reasonable and best calculated to effectuate the declared policy of this chapter, and to make such program practicable to operate and administer, to be paid out of any moneys available for such payments or, subject to the consent of the producer, to be made in quantities of one or more basic agricultural commodities acquired by the Secretary pursuant to this chapter.

(3) Payments by Secretary

Subject to the provisions of subsection (1) of this section, the Secretary of Agriculture shall make payments, out of any moneys available for such payments, in such amounts as he finds, upon the basis of the investigation made pursuant to subsection (1) of this section, to be fair and reasonable and best calculated to effectuate the declared policy of this chapter:

(a) To remove from the normal channels of trade and commerce quantities of any basic agricultural commodity or product thereof;

(b) To expand domestic or foreign markets for any basic agricultural commodity or product thereof;

(c) In connection with the production of that part of any basic agricultural commodity which is required for domestic consumption.

(4) Additional investigation; suspension of exercise of powers

Whenever, during a period during which any of the powers conferred in subsection (2) or (3) of this section is being exercised, the Secretary of Agriculture has reason to believe that, with respect to any basic agricultural commodity:

(a) The current average farm price for such commodity is not less than the fair exchange value thereof, and the average farm price for such commodity is not likely to be less than the fair exchange value thereof for the period in which the production of such commodity during the current or next succeeding marketing year is normally marketed, or

(b) The conditions of and factors relating to the production, marketing, and consumption of such commodity are such that none of the powers conferred in subsections (2) and (3) of this section, and no combination of such powers, would, if exercised, tend to effectuate the declared policy of this chapter,

he shall cause an immediate investigation to be made to determine such facts. If, upon the basis of such investigation, the Secretary finds the existence of such facts, he shall proclaim such determination, and shall not exercise any of such powers with respect to such commodity after the end of the marketing year current at the time when such proclamation is made and proclamation with such agreements or methods in such amounts as he finds, upon the basis of such investigation, to be fair and reasonable and best calculated to effectuate the declared policy of this chapter, except insofar as the exercise of such power is necessary to carry out obligations of the Secretary assumed, prior to the date of such proclamation made pursuant to this subsection, in connection with the exercise of any of the powers conferred upon him under subsections (2) or (3) of this section.

(5) Hearings; notice

In the course of any investigation required to be made under subsection (1) or (4) of this section, the Secretary of Agriculture shall hold one or more hearings, and give due notice and opportunity for interested parties to be heard.

(6) Commodity in which payment made

No payment under this chapter made in an agricultural commodity acquired by the Secretary in pursuance of this chapter shall be made in a commodity other than that in respect of which the payment is being made. For the purposes of this subsection, hogs and field corn may be considered as one commodity.

(7) Additional payments to producers of sugar beets or sugarcane

In the case of sugar beets or sugarcane, in the event that it shall be established to the satisfaction of the Secretary of Agriculture that returns to growers or producers, under the contracts for the 1933–1934 crop of sugar beets or sugarcane, entered into by and between the processors and producers thereof, were reduced by reason of the payment of the processing tax, and/or the corresponding floor stocks tax, on sugar beets or sugarcane, in addition to the foregoing rental or benefit payments, the Secretary of Agriculture shall make such payments, representing in whole or in part such tax, as the Secretary deems fair and reasonable, to producers who agree, or have agreed, to participate in the program for reduction in the acreage or reduction in the production for market, or both, of sugar beets or sugarcane.

(8) Pledge by rice producer for production credit of right to rental or benefit payments

In the case of rice, the Secretary of Agriculture, in exercising the power conferred upon him by subsection (2) of this section to provide for rental or benefit payments, is directed to provide in any agreement entered into by him with any rice producer pursuant to such subsection, upon such terms and conditions as the Secretary determines will best effectuate the declared policy of this chapter, that the producer may pledge for production credit in whole, or in part his right to any rental or benefit payments under the terms of such agreement and that such producer may designate therein a payee to receive such rental or benefit payments.

(9) Advances of payments on stored nonperishable commodity

Under regulations of the Secretary of Agriculture requiring adequate facilities for the storage of any nonperishable agricultural commodity on the farm, inspection and measurement of any such commodity so stored, and the locking and sealing thereof, and such other regulations as may be prescribed by the Secretary of Agriculture for the protection of such commodity and for the marketing thereof, a reasonable percentage of any benefit payment may be advanced on any such commodity so stored. In any such case such deduction may be made from
the amount of the benefit payment as the Secretary of Agriculture determines will reasonably compensate for the cost of inspection and sealing but no deduction may be made for interest.

(1) Issuance by Secretary

The Secretary of Agriculture shall, subject to the provisions of this section, issue, and from time to time amend, orders applicable to processors, associations of producers, and others engaged in the handling of any agricultural commodity or product thereof specified in subsection (2) of this section. Such persons are referred to in this chapter as ‘‘handlers’’. Such orders shall regulate, in the manner hereinafter in this section provided, only such handling of such agricultural commodity, or product thereof, as is in the current of interstate or foreign commerce, or which directly burdens, obstructs, or affects, interstate or foreign commerce in such commodity or product thereof. In carrying out this section, the Secretary shall complete all informal rulemaking actions necessary to respond to recommendations submitted by administrative committees for such orders as expeditiously as possible, but not more than 45 days to the extent practicable after submission of the committee recommendations. The Secretary is authorized to implement a producer allotment program and a handler withholding program under the cranberry marketing order in the same crop year through informal rulemaking based on a recommendation and supporting economic analysis submitted by the Cranberry Marketing Committee. Such recommendation and analysis shall be submitted by the Committee no later than March 1 of each year. The Secretary shall establish time frames for each office and agency within the Department of Agriculture to consider the committee recommendations.

(2) Commodities to which applicable

No order issued pursuant to this section shall be effective as to cherries, apples, or cranberries for canning or freezing unless the Secretary of Agriculture determines, in addition to other required findings and determinations, that the issuance of such order is approved or favored by processors who, during a representative period determined by the Secretary, have engaged in canning or freezing such commodity for market and have canned or frozen and canned more than 50 per centum of the total volume of the commodity to be regulated which was canned or frozen within the production area, or marketed within the marketing area, defined in such order, during such representative period. No order issued pursuant to this section shall be applicable to peanuts produced in more than one of the following production areas: the Virginia-Carolina production area, the Southeast production area, and the Southwest production area. If the Secretary determines that the declared policy of this chapter will be better achieved thereby (i) the commodities of the same general class

(3) Notice and hearing

Whenever the Secretary of Agriculture has reason to believe that the issuance of an order will tend to effectuate the declared policy of this chapter with respect to any commodity or product thereof specified in subsection (2) of this section, he shall give due notice of and an opportunity for a hearing upon a proposed order.

(4) Finding and issuance of order

After such notice and opportunity for hearing, the Secretary of Agriculture shall issue an order if he finds, and sets forth in such order, upon the evidence introduced at such hearing (in addition to such other findings as may be specifically required by this section) that the issuance of such order and all of the terms and conditions thereof will tend to effectuate the declared policy of this chapter with respect to such commodity.

(5) Terms—Milk and its products

In the case of milk and its products, orders issued pursuant to this section shall contain one or more of the following terms and conditions, and (except as provided in subsection (7) of this section) no others:

(A) Classifying milk in accordance with the form in which or the purpose for which it is used, and fixing, or providing a method for fixing, minimum prices for each such use classification which all handlers shall pay, and the time when payments shall be made, for milk purchased from producers or associations of producers. Such prices shall be uniform as to all handlers, subject only to adjustments for (1) volume, market, and production differentials customarily applied by the handlers subject to such order, (2) the grade or quality of the milk purchased, and (3) the locations at which delivery of such milk, or any use classification thereof, is made to such handlers. Throughout the 2-year period beginning on the effective date of this sentence (and subsequent to such 2-year period unless modified by amendment to the order involved), the minimum aggregate amount of the adjustments, under clauses (1) and (2) of the preceding sentence, to prices for milk of the highest use classification under orders that are in effect under this section on December 23, 1985, shall be as follows:

Effective at the beginning of such two-year period, the minimum prices for milk of the highest use classification shall be adjusted for the locations at which delivery of such milk is made to such handlers.

(B) Providing:

(i) for the payment to all producers and associations of producers delivering milk to the same handler of uniform prices for all milk delivered by them: Provided, That, except in the case of orders covering milk products only, such provision is approved or favored by at least three-fourths of the producers whose representatives were present at the hearing, or the representatives thereof, and when such provision is approved or favored by at least three-fourths of the volume of such milk produced for market during such period; the approval required hereunder shall be separate and apart from any other approval or disapproval provided for by this section; or

(ii) for the payment to all producers and associations of producers delivering milk to all handlers of uniform prices for all milk so delivered, irrespective of the uses made of such milk by the individual handler to whom it is delivered; subject, in either case, only to adjustments for (a) volume, market, and production differentials customarily applied by the handlers subject to...
such order, (b) the grade or quality of the milk delivered, (c) the locations at which delivery of such milk is made, and (d) a further adjustment, equitably to apportion the total value of the milk purchased by any handler, or by all handlers, among producers and associations of producers, on the basis of their marketings of milk during a representative period of time.\(^2\) [(e) omitted] and (f) a further adjustment, equitably to apportion the total value of milk purchased by any handler or by all handlers among producers on the basis of the milk components contained in their marketings of milk.\(^3\)

(C) In order to accomplish the purposes set forth in paragraphs (A) and (B) of this subsection, providing a method for making adjustments in payments, as among handlers (including producers who are also handlers), to the end that the total sums paid by each handler shall equal the value of the milk purchased by him at the prices fixed in accordance with paragraph (A) of this subsection.

(D) Providing that, in the case of all milk purchased by handlers from any producer who did not regularly sell milk during a period of 30 days next preceding the effective date of such order for consumption in the area covered thereby, payments to such producer, for the period beginning with the first regular delivery by such producer and continuing until the end of two full calendar months following the first day of the next succeeding calendar month, shall be made at the price for the lowest use classification specified in such order, subject to the adjustments specified in paragraph (B) of this subsection.

(E) Providing (i) except as to producers for whom such services are being rendered by a cooperative marketing association, qualified as provided in paragraph (F) of this subsection, for market information to producers and for the verification of weights, sampling, and testing of milk purchased from producers, and for making appropriate deductions therefor from payments to producers, and (ii) for assurance of, and security for, the payment by handlers for milk purchased.

(F) Nothing contained in this subsection is intended or shall be construed to prevent a cooperative marketing association qualified under the provisions of sections 291 and 292 of this title, engaged in making collective sales or marketing of milk or its products for the producers thereof, from blending the net proceeds of all of its sales in all markets in all use classifications, and making distribution thereof to its producers in accordance with the contract between the association and its producers: Provided, That it shall not sell milk or its products to any handler for use or consumption in any market at prices less than the prices fixed pursuant to paragraph (A) of this subsection for such milk.

(G) No marketing agreement or order applicable to milk and its products in any marketing area shall prohibit or in any manner limit, in the case of the products of milk, the marketing in that area of any milk or product thereof produced in any production area in the United States.

(ii) handling on specific days quantities of milk that exceed the quantities needed by handlers; and
(iii) transporting milk from one location to another for the purpose of fulfilling requirements for milk of a higher use classification or for providing a market outlet for milk of any use classification.

(K)(i) Notwithstanding any other provision of law, milk produced by dairies—
(I) owned or controlled by foreign persons; and
(II) financed by or with the use of bonds the interest on which is exempt from Federal income tax under section 103 of title 26;

shall be treated as other-source milk, and shall be allocated as milk received from producer-handler for the purposes of classifying producer milk, under the milk marketing program established under this chapter. For the purposes of this subparagraph, the term “foreign person” has the meaning given such term under section 300F(3) of this title.

(ii) The Secretary of Agriculture shall prescribe regulations to carry out this subparagraph.

(iii) This subparagraph shall not apply with respect to any dairy that began operation before May 6, 1986.

(L) Providing that adjustments in payments by handlers under paragraph (A) need not be the same as adjustments to producers under paragraph (B) with regard to adjustments authorized by subparagraphs (2) and (3) of paragraph (A) and clauses (b), (c), and (d) of paragraph (B)(ii).

(M) Minimum Milk Prices for Handlers.—

(i) Application of Minimum Price Requirements.—Notwithstanding any other provision of this section, a milk handler described in clause (ii) shall be subject to all of the minimum and uniform price requirements of a Federal milk marketing order issued pursuant to this section applicable to the county in which the plant of the handler is located, at Federal order class prices, if the handler has packaged fluid milk products in the marketing area described in Order No. 131 shall be exempt during any month from any minimum price requirement established by the Secretary under this subsection if the total distribution of Class I products during the preceding month of any such handler’s own farm production exceeds 3,000,000 pounds.

(ii) Covered Milk Handlers.—Except as provided in clause (iv), clause (i) applies to a handler of Class I milk products (including a producer-handler or producer operating as a handler) that—

(I) operates a plant that is located within the boundaries of a Federal order milk marketing area (as those boundaries are in effect as of April 11, 2006);

(II) has packaged fluid milk product route dispositions, or sales of packaged fluid milk products to other plants, in a marketing area located in a State that requires handlers to pay minimum prices for raw milk purchases; and

(iii) is not otherwise obligated by a Federal milk marketing order, or a regulated milk pricing plan operated by a State, to pay minimum class prices for the raw milk that is used for such dispositions or sales.

(iii) Obligation to pay minimum class prices.—For purposes of clause (ii)(III), the Secretary may not consider a handler of Class I milk products to be obligated by a Federal milk marketing order to pay minimum class prices for raw milk unless the handler operates the plant as a fully regulated fluid milk distributing plant under a Federal milk marketing order.

(iv) Certain handlers exempted.—Clause (i) does not apply to—

(I) a handler (otherwise described in clause (ii)) that operates a nonpool plant (as defined in section 1006.8(e) of title 7, Code of Federal Regulations, as in effect on April 11, 2006);

(II) a producer-handler (otherwise described in clause (ii)) for any month during which the producer-handler has route dispositions, and sales to other plants, of packaged fluid milk products equaling less than 3,000,000 pounds of milk; or

(III) a handler (otherwise described in clause (ii)) for any month during which—

(aa) less than 25 percent of the total quantity of fluid milk products physically received at the plant of the handler (excluding concentrated milk received from another plant by agreement for other than Class I use) is disposed of as route disposition or is transferred in the form of packaged fluid milk products to other plants; or

(bb) less than 25 percent in aggregate of the route disposition or transfers are in a marketing area or areas located in one or more States that require handlers to pay minimum prices for raw milk purchases.

(N) Exemption for Certain Milk Handlers.—Notwithstanding any other provision of this section, no handler with distribution of Class I milk products in the marketing area described in Order No. 131 shall be exempt during any month from any minimum price requirement established by the Secretary under this subsection if the total distribution of Class I products during the preceding month of any such handler’s own farm production exceeds 3,000,000 pounds.

(O) Rule of Construction Regarding Producer-Handlers.—Subparagraphs (M) and (N) shall not be construed as affecting, expanding, or contracting the treatment of producer-handles under this subsection except as provided in such subparagraphs.

(6) Terms—Other commodities

In the case of the agricultural commodities and the products thereof, other than milk and its products, specified in subsection (2) of this section orders issued pursuant to this section shall contain one or more of the following terms and conditions, and (except as provided in subsection (7) of this section), no others:

(A) Limiting, or providing methods for the limitation of, the total quantity of any such commodity or product, or of any grade, size, or quality thereof, produced during any specified
period or periods, which may be marketed in or transported to any or all markets in the current of interstate or foreign commerce or so as directly to burden, obstruct, or affect interstate or foreign commerce in such commodity or product thereof, during any specified period or periods by all handlers thereof.

(9) Orders with or without marketing agreement

Any order issued pursuant to this section shall become effective in the event that, notwithstanding the refusal or failure of handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping the commodity or product thereof covered by such order) of more than 50 per centum of the volume of the commodity or product thereof (except that as to citrus fruits produced in any area producing what is known as California citrus fruits said per centum shall be 80 per centum) covered by such order which is produced or marketed within the production or marketing area defined in such order to sign a

No order shall be issued under this chapter prohibiting, regulating, or restricting the advertising of any commodity or product covered thereby, nor shall any marketing agreement contain any provision prohibiting, regulating, or restricting the advertising of any commodity, or product covered by such marketing agreement.

(11) Regional application

(A) No order shall be issued under this section which is applicable to all production areas or marketing areas, or both, of any commodity or product thereof unless the Secretary finds that the issuance of several orders applicable to the respective regional production areas or regional marketing areas, or both, as the case may be, of the commodity or product would not effectively carry out the declared policy of this chapter.

(B) Except in the case of milk and its products, orders issued under this section shall be limited in their application to the smallest regional production areas or regional marketing areas, or both, as the case may be, which the Secretary finds practicable, consistently with carrying out such declared policy.

(C) All orders issued under this section which are applicable to the same commodity or product thereof shall, so far as practicable, prescribe such different terms, applicable to different production areas and marketing areas, as the Secretary finds necessary to give due recognition to the differences in production and marketing of such commodity or product in such areas.

(D) In the case of milk and its products, no county or other political subdivision of the State of Nevada shall be within the marketing area definition of any order issued under this section.

(12) Cooperative association representation

Whenever, pursuant to the provisions of this section, the Secretary is required to determine the approval or disapproval of producers with respect to the issuance of any order, or any term or condition thereof, or the termination thereof, the Secretary shall consider the approval or disapproval by any cooperative association of producers, bona fide engaged in marketing the commodity or product thereof covered by such order, or in rendering services for or advancing the interests of the producers of such commodity, as the approval or disapproval of the producers who are members of, stockholders in, or under contract with, such cooperative association of producers.

(13) Retailer and producer exemption

(A) No order issued under subsection (9) of this section shall be applicable to any person who sells agricultural commodities or products thereof at retail in his capacity as such retailer, except to a retailer in his capacity as a retailer of milk and its products.

(B) No order issued under this chapter shall be applicable to any producer in his capacity as a producer.

(14) Violation of order

(A) Any handler subject to an order issued under this section, or any officer, director, agent, or employee of such handler, who violates any provision of such order shall, on conviction, be fined not less than $50 or more than $5,000 for each such violation, and each day during which such violation continues shall be deemed a separate violation. If the court finds that a petition pursuant to subsection (15) of this section was filed and prosecuted by the defendant in good faith and not for delay, no penalty shall be imposed under this subsection for such violations as occurred between the date upon which the defendant's petition was filed with the Secretary, and the date upon which notice of the Secretary's ruling thereon was given to the defendant in accordance with regulations prescribed pursuant to subsection (15) of this section.

(B) Any handler subject to an order issued under this section, or any officer, director,
agent, or employee of such handler, who violates any provision of such order may be assessed a civil penalty by the Secretary not exceeding $1,000 for each such violation. Each day during which such violation continues shall be deemed a separate violation, except that if the Secretary finds that a petition pursuant to paragraph (15) was filed and prosecuted by the handler in good faith and not for delay, no civil penalty may be assessed under this paragraph for such violations as occurred between the date on which the handler’s petition was filed with the Secretary, and the date on which notice of the Secretary’s ruling thereon was given to the handler in accordance with regulations prescribed pursuant to paragraph (15). The Secretary may issue an order assessing a civil penalty under this paragraph only after notice and an opportunity for an agency hearing on the record. Such order shall be treated as a final order reviewable in the district courts of the United States in any district in which the handler subject to the order is an inhabitant, or has the handler’s principal place of business. The validity of such order may not be reviewed in an action to collect such civil penalty.

(15) Petition by handler and review

(A) Any handler subject to an order may file a written petition with the Secretary of Agriculture, stating that any such order or any provision of such order or any obligation imposed in connection therewith is not in accordance with law and praying for a modification thereof or to be exempted therefrom. He shall thereupon be given an opportunity for a hearing upon such petition, in accordance with regulations made by the Secretary of Agriculture, with the approval of the President. After such hearing, the Secretary shall make a ruling upon the prayer of such petition which shall be final, if in accordance with law.

(B) The District Courts of the United States in any district in which such handler is an inhabitant, or has his principal place of business, are hereby vested with jurisdiction in equity to review such ruling, provided a bill in equity for that purpose is filed within twenty days from the date of the entry of such ruling. Service of process in such proceedings may be had upon the Secretary by delivering to him a copy of the bill of complaint. If the court determines that such ruling is not in accordance with law, it shall remand such proceedings to the Secretary with directions either (1) to make such ruling as the court shall determine to be in accordance with law, or (2) to take such further proceedings as, in its opinion, the law requires. The pendency of proceedings instituted pursuant to this subsection (15) shall not impede, hinder, or delay the United States or the Secretary of Agriculture from obtaining relief pursuant to section 608a(6) of this title. Any proceedings brought pursuant to section 608a(6) of this title (except where brought by way of counterclaim in proceedings instituted pursuant to this subsection (15)) shall abate whenever a final decree has been rendered in proceedings between the same parties, and covering the same subject matter, instituted pursuant to this subsection (15).

(16) Termination of orders and marketing agreements

(A)(i) Except as provided in clause (ii), the Secretary of Agriculture shall, whenever he finds that any order issued under this section, or any provision thereof, obstructs or does not tend to effectuate the declared policy of this chapter, terminate or suspend the operation of such order or such provision thereof.

(ii) The Secretary may not terminate any order issued under this section for a commodity for which there is no Federal program established to support the price of such commodity unless the Secretary gives notice of, and a statement of the reasons relied upon by the Secretary for, the proposed termination of such order to the Committee on Agriculture, Nutrition, and Forestry of the Senate and the Committee on Agriculture of the House of Representatives not later than 60 days before the date such order will be terminated.

(B) The Secretary shall terminate any marketing agreement entered into under section 608b of this title, or order issued under this section, at the end of the then current marketing period for such commodity, specified in such marketing agreement or order, within the production area specified in such marketing agreement or order, or who, during such representative period, have been engaged in the production of such commodity for sale within the marketing area specified in such marketing agreement or order: Provided, That such majority have, during such representative period, produced for market more than 50 per centum of the volume of such commodity produced for market within the production area specified in such marketing agreement or order, or have, during such representative period, produced more than 50 per centum of the volume of such commodity specified in such marketing agreement or order, but such termination shall be effective only if announced on or before such date (prior to the end of the then current marketing period) as may be specified in such marketing agreement or order.

(C) Except as otherwise provided in this subsection with respect to the termination of an order issued under this section, the termination or suspension of any order or amendment thereto or provision thereof, shall not be considered an order within the meaning of this section.

(18) Milk prices

The Secretary of Agriculture, prior to prescribing any term in any marketing agreement or order, or amendment thereto, relating to milk or its products, if such term is to fix minimum prices to be paid to producers or associations of producers, or prior to modifying the price fixed in any such term, shall ascertain the parity prices of such commodities. The prices which it is declared to be the policy of Congress to establish in section 602 of this title shall, for the purposes of such agreement, order, or amendment, be adjusted to reflect the price of feeds, the available supplies of feeds, and other economic conditions which affect market supply and demand for milk or its products in the marketing area to which the contemplated marketing agreement, order, or amendment relates. Whenever the Secretary finds, upon the basis of the evidence adduced at the hearing required by section 606b of this title or this section, as the case may be, that the parity prices of such commodities are not reasonable in view of the price of feeds, the available supplies of feeds, and other economic conditions which affect market supply and demand for milk and its products in the marketing area to which the contemplated marketing agreement, order, or amendment relates.

Any person violating this subsection shall be subject to the provisions of this chapter applicable to the jurisdiction, powers, and duties of the Secretary in administering the provisions of this chapter applicable to the Virgin Islands, American Samoa, the Canal Zone, and/or the island of Guam.

For the purpose of this chapter (but in no wise limiting the foregoing definition) a marketing transaction in respect to an agricultural commodity or the product thereof shall be considered in interstate or foreign commerce if such commodity or product is part of that current of interstate or foreign commerce usual in the handling of the commodity or product whereby they, or either of them, are sent from one State to end their transit, after purchase, in another, including all cases where purchase or sale is either for shipment to another State or for the processing within the State and the shipment outside the State of the products so processed. Agricultural commodities or products thereof normally in such current of interstate or foreign commerce shall not be considered out of such current through resort being had to any means or device intended to remove transactions in respect thereto from the provisions of said sections. As used herein, the word “State” includes Territory, the District of Columbia, possession of the United States, and foreign nations.

This chapter shall cease to be in effect whenever the President finds and proclaims that the national emergency in relation to agriculture has been ended; and pending such time the President shall by proclamation terminate with respect to any basic agricultural commodity such provisions of this chapter as he finds are not requisite to carrying out the declared policy with respect to such commodity. In the case of sugar beets and sugarcane, the taxes provided by this chapter shall cease to be in effect, and the powers vested in the President or in the Secretary of Agriculture shall terminate on December 31, 1937 unless this chapter ceases to be in effect at an earlier date, as hereinafter provided. During the period in which any certificate under this section is effective, the provisions of subsection (e) of this section shall be suspended with respect to all imported articles of the kind described in such certificate; and notwithstanding the provisions of section 623 of this title, any compensating taxes, which have heretofore, during the period in which any certificate under this section has been effective, become due and payable upon imported articles of the kind described in such certificate, shall be refunded by the Secretary of the Treasury if the same have been paid, or, if the same have not been paid the amount thereof shall be subtracted. Notwithstanding the provisions of section 623 of this title, the Secretary of the Treasury shall refund or credit any processing tax paid on or before June 12, 1934, with respect to such amount of cotton as was used in the manufacture of large cotton bags (as defined in the Certificate of the Secretary of Agriculture dated June 12, 1934) between June 13, and July 7, 1934, both inclusive.

(b) No tax shall be required to be paid on the processing of any commodity by or for the producer thereof for consumption by his own family, employees, or household; and the Secretary of Agriculture is authorized, by regulations, to exempt from the payment of the processing tax the processing of commodities by or for the producer thereof for sale by him where, in the judgment of the Secretary, the imposition of a processing tax with respect thereto is unnecessary to effectuate the declared policy.

(b-1) The Secretary of Agriculture is authorized and directed to issue tax-payment warrants, with respect to rough rice produced in 1933 and 1934 (provided the processing of such rice is not exempt from the tax, and such tax-payment warrant has been previously issued with respect thereto or previously applied for by application then pending, sufficient to cover the tax with respect to the processing thereof at the rate in effect at the time of such issuance, to any processor with respect to any such rice which he had in his possession on March 31, 1935, and to, or at the direction of any other person with respect to any such rice which, on or after April 1, 1935, he delivers for processing or sells to a processor: Provided, That in case any such processor or other person is the producer of such rice (or has received such rice by gift, bequest, or descent from the producer thereof) that such processor or other person is, if eligible, a cooperating producer; And provided further, That in case such processor or other person is not the producer thereof (nor a person who has received such rice by gift, bequest, or descent from the producer thereof), (a) that, if the title to such rice was transferred from the producer thereof, whether by operation of law or otherwise, prior to April 1, 1935, such producer received the price prescribed in any marketing agreement, license, regulation, or administrative ruling, pursuant to this chapter, applicable to the sale of such rice by the producer, and (b) that, if the title to such rice was transferred from the producer thereof, whether by operation of law or otherwise, on or after April 1, 1935, such producer received at least the full market price therefor plus an amount equal to 99 per centum of the face value of tax-payment warrants sufficient to cover the tax on the processing of such rice at rate in effect at the time title was so transferred, and was, if eligible, a cooperating producer.

(b-2) The warrants authorized and directed to be issued by subsection (b-1) of this section—

(1) shall be issued by the Secretary of Agriculture or his duly authorized agent in such manner, at such time or times, at such place or places, in such form, and subject to such terms and conditions with reference to the transfer thereof or the voiding of warrants fraudulently obtained and/or erroneously issued, as the Secretary of Agriculture may prescribe.

(b-3) (1) Any person who deals or traffics in, or purchases any such tax-payment warrant or the right of any person thereto at less than 99 per centum of its face value shall be guilty of a misdemeanor and upon conviction thereof shall be fined not more than $1,000 or imprisoned for not more than one year or both.

(2) Any person who, with intent to defraud, secures or attempts to secure, or aids or assists in or procures, counsels, or advises, the securing or attempting to secure any tax-payment warrant with respect to rice as to which any tax-payment warrant has been previously issued shall be guilty of a misdemeanor and upon conviction thereof shall be fined not more than $1,000 or imprisoned for not more than one year, or both.

(3) Any person who with intent to defraud forges, makes, alters, or counterfeits any tax-payment warrant or any stamp, tag, or other means of identification provided for by this chapter or any regulation issued pursuant thereto, or makes any false entry upon such warrant or any false statement in any application for the issuance of such warrant, or who uses, sells, lends, or has in his possession any such altered, forged, or counterfeited warrant or stamp, tag, or other means of identification, or who makes, uses, sells, or has in his possession any material in imitation of the material used in the manufacture of such warrants or stamps, tags, or other means of identification, shall, upon conviction thereof, be punished by a fine not exceeding $5,000 or by imprisonment not exceeding five years, or both.

(4) All producers, warehousemen, processors, and common carriers, having information with
respect to rice produced in the years 1933 or 1934, may be required to furnish to the Secretary of Agriculture such information as he shall, by order, prescribe as necessary to safeguard the issuance, transfer, and/or use of tax-payment warrants.

(5) The Secretary of Agriculture may make regulations protecting the interests of producers (including share-tenants and share-croppers) and others, in the issuance, holding, use, and/or transfer of such tax-payment warrants.

(c) Any person, including any State or Federal organization or institution, delivering any product to any organization for charitable distribution or use, including any State or Federal welfare organization, for its own use, whether the product is delivered as merchandise, or as a container for merchandise, or otherwise, shall, if such product or the commodity from which processed is under this chapter subject to tax, be entitled to a refund of the amount of any tax due and paid under this chapter with respect to such product so delivered, or to a credit against any tax due and payable under this chapter of the amount of tax which would be refundable under this section with respect to such product so delivered: Provided, however, That no tax shall be refunded or credited under this section, unless the person claiming the refund or credit establishes, in accordance with regulations prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury (1) that he has not included the tax in the price of the product so delivered or collected the amount of the tax from the said organization, or (2) that he has repaid, or has agreed in writing to repay, the amount of the tax to the said organization. The word "State" as used in this section shall include a State and any political subdivision thereof.

(d) The Secretary of Agriculture shall ascertain from time to time whether the payment of the processing tax upon any basic agricultural commodity is causing or will cause to the processors or producers thereof disadvantages in competition from competing commodities by reason of excessive shifts in consumption between such commodities or products thereof. If the Secretary of Agriculture finds, after investigation and due notice and opportunity for hearing to interested parties, that such disadvantages in competition exist, or will exist, he shall proclaim such finding. The Secretary shall specify in this proclamation the competing commodity and the compensating rate of tax on the processing thereof necessary to prevent such disadvantages in competition. Thereafter there shall be levied, assessed, and collected upon the first domestic processing of such competing commodity a tax, to be paid by the processor, at the rate specified, until such rate is altered pursuant to a further finding under this section, or the tax or rate thereof on the basic agricultural commodity is altered or terminated. In no case shall the tax imposed upon such competing commodity exceed that imposed per equivalent unit, as determined by the Secretary, upon the basic agricultural commodity.

(e) During any period for which a processing tax is in effect with respect to any commodity there shall be levied, assessed, collected, and paid upon any article processed or manufactured wholly or partly from such commodity and imported into the United States or any possession thereof to which this chapter applies, from any foreign country or from any possession of the United States to which this chapter does not apply, whether imported as merchandise, or as a container of merchandise, or otherwise, a compensating tax equal to the amount of the processing tax in effect with respect to domestic processing of such commodity into such an article at the time of importation: Provided, (1) That in the event any of the provisions of this chapter have been or are hereafter made applicable to any possession of the United States in the case of any particular commodity or commodities, but not generally, this chapter, for the purposes of this subsection, shall be deemed applicable to such possession with respect to such commodity or commodities but shall not be deemed applicable to such possession with respect to other commodities; and (2) That all taxes collected under this subsection upon articles coming from the possessions of the United States to which this chapter does not apply shall not be covered into the general fund of the Treasury of the United States but shall be held as a separate fund and paid into the Treasury of the said possessions, respectively, to be used and expended by the governments thereof for the benefit of agriculture. Such tax shall be paid prior to the release of the article from customs custody or control.

(f) The President, in his discretion, is authorized by proclamation to decree that all or part of the taxes collected from the processing of sugar beets or sugarcane in Puerto Rico, the Territory of Hawaii, the Virgin Islands, American Samoa, the Canal Zone, and/or the island of Guam (if the provisions of this chapter are made applicable thereto), and/or upon the processing in continental United States of sugar produced in, or coming from, said areas, shall not be covered into the general fund of the Treasury of the United States but shall be held as a separate fund, in the name of the respective area to which related, to be used and expended for the benefit of agriculture and/or paid as rental or benefit payments in connection with the reduction in the acreage, or reduction in the production for market, or both, of sugar beets and/or sugarcane, and/or used and expended for expansion of markets and for removal of surplus agricultural products in such areas, respectively, as the Secretary of Agriculture, with the approval of the President, shall direct.

Such investigation shall be made after due notice and opportunity for hearing to interested parties, and shall be conducted subject to such regulations as the President shall specify.

(b) If, on the basis of such investigation and report to him of findings and recommendations made in connection therewith, the President finds the existence of such facts, he shall by proclamation impose such fees not in excess of 50 per centum ad valorem or such quantitative limitations on any article or articles which may be entered, or withdrawn from warehouse, for consumption as he finds and declares shown by such investigation to be necessary in order that the entry of such article or articles will not render or tend to render ineffective, or materially interfere with, any program or operation referred to in subsection (a) of this section, or reduce substantially the amount of any product processed in the United States from any such agricultural commodity or product thereof with respect to which any such program or operation is being undertaken: Provided, That no proclamation under this section shall impose any limitation on the total quantity of any article or articles which may be entered, or withdrawn from warehouse, for consumption which reduces such permissible total quantity to proportionately less than 50 per centum of the total quantity of such article or articles which was entered, or withdrawn from warehouse, for consumption during a representative period as determined by the President: And provided further, That in designating any article or articles, the President may describe them by physical qualities, value, use, or upon such other bases as he shall determine.

In any case where the Secretary of Agriculture determines and reports to the President with regard to any article or articles that a condition exists requiring emergency treatment, the President may take immediate action under this section without awaiting the recommendations of the International Trade Commission, such action to continue in effect pending the report and recommendations of the International Trade Commission and action thereon by the President.

(c) The fees and limitations imposed by the President by proclamation under this section and any revocation, suspension, or modification thereof, shall become effective on such date as shall be therein specified, and such fees shall be treated for administrative purposes and for the purposes of section 612c of this title, as duties imposed by the Tariff Act of 1930 [19 U.S.C. 1202 et seq.], but such fees shall not be considered as duties for the purpose of granting any preferential concession under any international obligation of the United States.

(d) After investigation, report, finding, and declaration in the manner provided in the case of a proclamation issued pursuant to subsection (b) of this section, any proclamation or provision of such proclamation may be suspended or terminated by the President whenever he finds and proclaims that the circumstances requiring the proclamation or provision thereof no longer exist or may be modified by the President whenever he finds and proclaims that changed circumstances require such modification to carry out the purposes of this section.

PROC. NO. 3178, QUOTA ON BUTTER SUBSTITUTES

PROC. NO. 3178, Apr. 17, 1957, 22 F.R. 2701, provided: WHEREAS, pursuant to section 22 of the Agricultural Adjustment Act, as amended (7 U.S.C. 624), the Secretary of Agriculture advised me that there was reason to believe that butter substitutes, including butter oil, containing 45 per centum or more of butterfat, which are dutiable under paragraph 709 of the Tariff Act of 1930, as amended, are practically certain to be imported into the United States under such conditions and in such quantities as to render or tend to render ineffective, or materially interfere with, the price-support program undertaken by the Department of Agriculture with respect to milk and butterfat, or to reduce substantially the amount of products processed in the United States from domestic milk and butterfat with respect to which such program of the Department of Agriculture is being undertaken; and WHEREAS, on November 17, 1956, under the authority of the said section 22, I caused the United States Tariff Commission [now the United States International Trade Commission] to make an investigation with respect to this matter; and WHEREAS, in accordance with the said section 22, as implemented by Executive Order No. 7233 of November 18, 1956, the said Tariff Commission has made such investigation and has reported to me its findings and recommendations made in connection therewith; and WHEREAS, on the basis of the said investigation and report of the Tariff Commission, I find that butter substitutes, including butter oil, containing 45 per centum or more of butterfat and classifiable under paragraph 709 of the Tariff Act of 1930 are practically certain to be imported into the United States under such conditions and in such quantities as to materially interfere with, the price-support program and the said price-support program with respect to which the said price-support program is being undertaken;

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, acting under and by virtue of the authority vested in me by the said section 22 of the Agricultural Adjustment Act (this section), do hereby proclaim that the total aggregate quantity of butter substitutes, including butter oil, containing 45 per centum or more of butterfat and classifiable under paragraph 709 of the Tariff Act of 1930, as amended, which shall be permitted to be entered, or withdrawn from warehouse, for consumption during the calendar year 1958 and each subsequent calendar year shall not exceed 1,200,000 pounds. The specified quantities of the named articles which may be entered, or withdrawn from warehouse, for consumption are not proportionately less than 50 per centum of the total quantities of such articles entered, or withdrawn from warehouse, for consumption during the representative period from January 1, 1956, to December 31, 1956, inclusive.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

PROCLAMATION No. 3306

PROC. NO. 3378

PROC. NO. 3428

PROC. NO. 3428, Sept. 11, 1961, 26 F.R. 8335, provided: WHEREAS, pursuant to section 22 of the Agricultural Adjustment Act, as amended (7 U.S.C. 624), the Secretary of Agriculture advised the President that the reason to believe that certain cotton products produced in any stage preceding the spinning into yarn are being or are practically certain to be imported into the United States under such conditions and in such quantities as to render or tend to render ineffective, or materially interfere with, the price-support program and other programs or operations undertaken by the Department of Agriculture with respect to cotton or products thereof, or to reduce substantially the amount of cotton processed in the United States from cotton or products thereof with respect to which any such program or operation is being undertaken; and

WHEREAS, on January 18, 1961, under the authority of the said section 22, the President requested the United States Tariff Commission [now the United States International Trade Commission] to make an investigation with respect to this matter; and WHEREAS, in accordance with the said section 22, as implemented by Executive Order No. 7233 of November 18, 1956, the Tariff Commission has made such investigation and has reported to me its findings and recommendations made in connection therewith; and WHEREAS, on the basis of the investigation and report of the Tariff Commission, I find that the articles with respect to which import restrictions are hereinafter proclaimed are being or are practically certain to
be imported into the United States under such conditions and in such quantities as to render or tend to render ineffective, or materially interfere with, the price-support program and other programs or operations undertaken by the Department of Agriculture with respect to cotton or products thereof; and

WHEREAS I find and declare that the important restrictions hereinafter proclaimed are shown by such investigation of the Tariff Commission to be necessary in order that the entry, or withdrawal from warehouse, for consumption of the said articles will not render or tend to render ineffective, or materially interfere with, the price-support program and other programs or operations undertaken by the Department of Agriculture with respect to cotton or products thereof;

NOW, THEREFORE, I, JOHN F. KENNEDY, President of the United States of America, acting under and by virtue of the authority vested in me by section 22 of the Agricultural Adjustment Act, as amended, do hereby proclaim that the total aggregate quantity of cotton products produced in any stage preceding the spinning into yarn, except cotton wastes, which may be entered, or withdrawn from warehouse, for consumption in any 12-month period, beginning September 11 in 1961 and in subsequent years shall not exceed 1,000 pounds, which permissible total quantity I find and declare to be proportionately not less than 50 per centum of the total quantity of such articles entered, or withdrawn from warehouse, for consumption during the representative period from January 1, 1940, to December 31, 1953, inclusive.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this 11th day of September in the year of our Lord nineteen hundred and sixty-one, and of the Independence of the United States of America the one hundred and eighty-sixth.

   The Secretary shall make insured telephone loans, to the extent of qualifying applications for the loans, at an interest rate of 5 percent per year, to any applicant who meets each of the following requirements:
      (i) The average number of subscribers per mile of line in the service area of the applicant is not more than 4.
      (ii) The applicant is capable of producing net income or margins before interest of not less than 100 percent (but not more than 300 percent) of the interest requirements on all of the outstanding and proposed loans of the applicant.
      (iii) The Secretary has approved a telecommunications modernization plan for the State under paragraph (3) and, if the plan was developed by telephone borrowers under this subchapter, the applicant is a participant in the plan.
   (B) Authority to waive tier requirement
   The Secretary may waive the requirement of subparagraph (A)(ii) in any case in which the Secretary determines (and sets forth the reasons for the waiver in writing) that the requirement would prevent emergency restoration of the telephone system of the applicant or result in severe hardship to the applicant.

(C) Effect of lack of funds
On request of any applicant who is eligible for a loan under this paragraph for which funds are not available, the applicant shall be considered to have applied for a loan under subchapter IV of this chapter.

(2) Cost-of-money loans
   (A) In general
   The Secretary may make insured telephone loans for the acquisition, purchase, and installation of telephone lines, systems, and facilities (other than buildings used primarily for administrative purposes, vehicles not used primarily in construction, and customer premise equipment) related to the furnishing, improvement, or extension of rural telecommunications service, at an interest rate equal to the then current cost of money to the Government of the United States for loans of similar maturity, but not more than 7 percent per year, to any applicant for a loan who meets the following requirements:
      (i) The average number of subscribers per mile of line in the service area of the applicant is not more than 15, or the applicant is capable of producing net income or margins before interest of not less than 100 percent (but not more than 500 percent) of the interest requirements on all of the outstanding and proposed loans of the applicant.
      (ii) The Secretary has approved a telecommunications modernization plan for the State under paragraph (3) and, if the plan was developed by telephone borrowers under this subchapter, the applicant is a participant in the plan.

(B) Concurrent loan authority
On request of any applicant for a loan under this paragraph during any fiscal year, the Secretary shall—
      (i) consider the application to be for a loan under this paragraph and a loan under section 948 of this title; and
      (ii) if the applicant is eligible for a loan, make a loan to the applicant under this paragraph in an amount equal to the amount that bears the same ratio to the total amount of loans for which the applicant is eligible under this paragraph and under section 948 of this title, as the amount made available for loans under this paragraph for the fiscal year bears to the total amount made available for loans under this paragraph and under section 948 of this title for the fiscal year.
§ 935

(3) State telecommunications modernization plans

(A) Approval

If, not later than 1 year after final regulations are promulgated to carry out this paragraph, any State, either by statute or through the public utility commission of the State, develops a telecommunications modernization plan that meets the requirements of subparagraph (B), the Secretary shall approve the plan for the State. If a State does not develop a plan in accordance with the requirements of the preceding sentence, the Secretary shall approve any telecommunications modernization plan for the State that meets the requirements that is developed by a majority of the borrowers of telephone loans made under this subchapter who are located in the State.

(B) Requirements

For purposes of subparagraph (A), a telecommunications modernization plan must, at a minimum, meet the following objectives:

(i) The plan must provide for the elimination of party line service.

(ii) The plan must provide for the availability of telecommunications services for improved business, educational, and medical services.

(iii) The plan must encourage and improve computer networks and information highways for subscribers in rural areas.

(iv) The plan must provide for—

(aa) conference calling;

(bb) video images; and

(cc) data at a rate of at least 1,000,000 bits of information per second; and

(ii) the proper routing of information to subscribers.

(v) The plan must provide for uniform deployment schedules to ensure that advanced services are deployed at the same time in rural and nonrural areas.

(vi) The plan must provide for such additional requirements for service standards as may be required by the Secretary.

(C) Finality of approval

A telecommunications modernization plan approved under subparagraph (A) may not subsequently be disapproved. Notwithstanding paragraphs (1)(A)(ii)(I) and (2)(A)(iii) and section 948(b)(4)(C) of this title, the Secretary and the Governor of the telephone bank may make a loan to a borrower serving a State that does not have a telecommunications modernization plan approved by the Secretary if the loan is made less than 1 year after the Secretary has adopted final regulations implementing this paragraph.

Amendments

Subsec. (b). Pub. L. 103–129, §2(a)(1)(A), (B), (c)(6)(B), redesignated subsec. (c) as (b), inserted heading, and struck out former subsec. (b) which read as follows: “Insured loans made under this subchapter shall bear interest at 5 per centum per annum, except that the Administrator may make insured loans to electric or telephone borrowers at a lesser interest rate, but not less than 2 per centum per annum, if, in the Administrator’s sole discretion, the Administrator finds that the borrower—

(1) has experienced extreme financial hardship; or

(2) cannot, in accordance with generally accepted management and accounting principles and without charging rates to its customers or subscribers so high as to create a substantial disparity between such rates and the rates charged for similar service in the same or nearby areas by other suppliers, provide service consistent with the objectives of this chapter.”

Former subsec. (c) redesignated (b).

Subsec. (d). Pub. L. 103–129, §2(a)(1)(A), (c), added subsec. (d) and struck out former subsec. (d) which read as follows: “The Administrator shall make a telephone loan under this subchapter to an applicant therefor who is otherwise qualified to receive such a loan at the highest interest rate (but not less than the lowest interest rate), if the Administrator finds that the borrower would be capable of producing net income or net margins before interest payments of at least 100 percent (but not more than 150 percent) of the interest requirements on all of the applicant’s outstanding and proposed loans.”

1981—Subsec. (b). Pub. L. 97–35 substituted provisions establishing an interest rate at 5 per centum per annum and a lower rate, but not less than 2 per cent, under the enumerated criteria, for provisions establishing standard and special rates, with special rates applicable under enumerated criteria.

1976—Subsec. (b). Pub. L. 94–570 struck out from introductory text “meets either of the following conditions” after “borrower which”; limited par. (1) to the telephone borrowers, substituting provision for an average subscriber density of three or fewer per mile at the end of the most recent calendar year ending at least six months before approval of the loan for prior provision for an average consumer or subscriber density of two or fewer per mile; substituted in par. (2) provision, limited to electric borrowers, respecting having an average consumer density of two or fewer per mile or an average adjusted plant revenue ratio of over 9.0 at the end of the most recent calendar year ending at least six months before approval of the loan, determination of such ratio, and defining sum of distribution plant...
and general plant, gross revenue, and cost of power for prior provision for and average gross revenue per mile which is at least $350 below the average gross revenue per mile of REA-financed electric systems, in the case of electric borrowers, or at least $100 below the average gross revenue per mile of REA-financed telephone systems, in the case of telephone borrowers; and inserted in provision of par. (2) "to a telephone or electric borrower" after "make a loan."

§ 936a. Prepayment of loans

The Secretary may provide financial assistance to borrowers for purposes provided in this chapter by guaranteeing loans, in the full amount thereof, made by the Rural Telephone Bank, National Rural Utilities Cooperative Finance Corporation, and any other legally organized lending agency, or by accommodating or subordinating liens or mortgages in the fund held by the Secretary as owner or as trustee or custodian for purchases of notes from the fund, or by any combination of such guarantee, accommodation, or subordination. The Secretary shall not provide such assistance to any borrower of a telephone loan under this chapter unless the borrower specifically applies for such assistance. No fees or charges shall be assessed for any such accommodation or subordination. Guaranteed loans shall bear interest at the rate agreed upon by the borrower and the lender. Guaranteed loans, and accommodation and subordination of liens or mortgages, may be made concurrently with an insured loan. A guaranteed loan, including the related guarantee, may be assigned to the extent provided in the contract of guarantee executed by the Secretary under this subchapter; the assignability of such loan and guarantee shall be governed exclusively by said contract of guarantee.

Except as provided in subsection (c) of this section, a borrower of a loan made by the Federal Financing Bank and guaranteed under sec-
Amount of permissible prepayments; establishment of eligibility criteria

(1) The Secretary shall permit, subject to subsection (a) of this section, prepayments of principal on loans in fiscal year 1987 in an amount not less than $2,017,500,000 in an amount not less than $2,017,500,000.

(2) The Secretary shall establish—

(B) such other eligibility criteria as the Secretary determines are necessary to carry out this subsection.

e) Assignability and transferability of guarantees of loans

Any guarantee of a loan prepaid under this section shall be fully assignable under the provisions of section 936 of this title and transferable. However, the Secretary may require that any such guarantee, if transferred or assigned to a loan or security that, if sold, will be grouped with nonguaranteed loans or securities and sold in a manner to ensure that such sale will not unreasonably compete with the marketing of obligations of the United States.

AMENDMENTS

1994—Pub. L. 103–354 substituted “Secretary” for “Rural Electrification Administration” in subsec. (b) and “Secretary” for “Administrator” wherever appearing in subsecs. (d) and (e).

PREPAYMENT OF RURAL ELECTRIFICATION LOANS DURING FISCAL YEAR 1988

(a) ELIGIBILITY TO PREPAY. —Notwithstanding subsections (c), (d), and (e) of section 306A of the Rural Electrification Act of 1936 (7 U.S.C. 936a(c), (d), and (e)), during fiscal year 1986, a borrower of a loan made by the Federal Financing Bank and guaranteed under section 306 of such Act (7 U.S.C. 936) may, at the option of the borrower, prepay such loan (or any loan advance thereunder) in accordance with subsections (a) and (b) of section 306A of such Act, except that any prepayment that would cause the total amount of such prepayments during fiscal year 1988 to exceed $2,000,000,000 shall be subject solely to the approval of the Secretary of the Treasury.

(b) PRIORITY FOR APPROVAL. —In determining which borrowers shall be permitted to prepay loans under subsection (a):

(1) The Administrator of the Rural Electrification Administration shall give priority to those 8 borrowers that were determined by the Administrator, prior to the date of the enactment of this Act (Dec. 22, 1987), to be eligible to prepay, or that prepaid, an advance under section 306A of such Act (7 U.S.C. 936a) (as in effect prior to the date of the enactment of this Act), except that to retain such priority a borrower shall—
(A) notify the Administrator in writing, within 30 days after the issuance of regulations to carry out this section, of the intent of the borrower to prepay; and
(B) complete such prepayment by disbursing funds to the Federal Financing Bank to prepay loan advances within 120 days after the issuance of such regulations.

(2) In considering requests for prepayment under subsection (a) by borrowers not described in paragraph (1), the Administrator shall permit prepayment based on the order in which borrowers are prepared to disburse funds to the Federal Financing Bank to complete such prepayments. If more than 1 borrower is so prepared at the same time, and if the combined amount of such prepayments would cause the total amount of prepayments during fiscal year 1988, under this section, to exceed $2,000,000,000, the Administrator shall—
(A) base the determination on the date on which prepayment applications have been submitted; or
(B) permit partial prepayment by two or more borrowers.

(c) REGULATIONS. —Not later than 30 days after the date of enactment of this Act (Dec. 22, 1987), the Administrator of the Rural Electrification Administration shall issue such regulations as are necessary to carry out this section.

(d) STUDY. —Not later than January 1, 1989, the Comptroller General of the United States shall—

“(B) the benefits and costs to Federal Financing Bank borrowers of making prepayments; and
“(C) alternative conditions and procedures for prepayment of all Federal Financing Bank loans to balance Federal benefits with Federal costs; and
“(2) submit to Congress a report describing the results of such study, together with any appropriate recommendations.”

(5) Eligibility
(A) In general
A borrower that has prepaid an insured or direct loan shall remain eligible for assistance under this chapter in the same manner as other borrowers, except that—
(i) a borrower that has prepaid a loan, either before or after October 21, 1992, at a discount rate as provided by paragraph (3), shall not be eligible, except at the discretion of the Secretary, to apply for or receive direct or insured loans under this chapter during the 120-month period beginning on the date of the prepayment; and
(ii) a borrower that prepaid a loan before October 21, 1992, at a discount rate greater than that provided by paragraph (3), shall not be eligible—
(I) except at the discretion of the Secretary, to apply for or receive direct or insured loans described in clause (i) during the 180-month period beginning on the date of the prepayment; or
(II) to apply for or receive direct or insured loans described in clause (i) until the borrower has repaid to the Federal Government the sum of—
(aa) the amount (if any) by which the discount the borrower received by reason of the prepayment exceeds the discount the borrower would have received had the discount been based on the cost of funds to the Department of the Treasury at the time of the prepayment; and
(bb) interest on the amount described in item (aa), for the period beginning on the date of the prepayment and ending on the date of the repayment, at a rate equal to the average annual cost of borrowing by the Department of the Treasury.

(B) Effect on existing agreements
If a borrower and the Secretary have entered into an agreement with respect to a prepayment occurring before October 21, 1992, this paragraph shall supersede any provision in the agreement relating to the restoration of eligibility for loans under this chapter.

(C) Distribution borrowers
A distribution borrower not in default on the repayment of loans made or insured loans to the Department of the Treasury for obligations of comparable maturity to the remaining term of the loan.

(4) Tax exempt financing
If a borrower prepay a loan under this subsection using tax exempt financing, the discount shall be adjusted to ensure that the borrower receives a benefit that is equal to the benefit the borrower would receive if the borrower used fully taxable financing. The borrower shall certify in writing whether the financing will be tax exempt and shall comply with such other terms and conditions as the Secretary may establish that are reasonable and necessary to carry out this subsection.

§ 936b. Sale or prepayment of direct or insured loans
(a) Discounted prepayment by borrowers of electric loans
(1) In general
Except as provided in paragraph (2), a direct or insured loan made under this chapter shall not be sold or prepaid at a value that is less than the outstanding principal balance on the loan.

(2) Exception
On request of the borrower, an electric loan made under this chapter, or a portion of such a loan, that was advanced before May 1, 1992, or has been advanced for not less than 2 years, shall be sold to or prepaid by the borrower at the lesser of—
(A) the outstanding principal balance on the loan; or
(B) the present value of the loan discounted from the face value at maturity at the rate established by the Secretary.

(3) Discount rate
The discount rate applicable to the prepayment under this subsection of a loan or loan advance shall be the then current cost of funds
under this chapter shall be eligible for discounted prepayment as provided in this subsection. For the purpose of determining eligibility for discounted prepayment under this subsection or eligibility for assistance under this chapter, a default by a borrower from which a distribution borrower purchases wholesale power shall not be considered a default by the distribution borrower.

As used in this subsection:

(A) Direct loan
The term "direct loan" means a loan made under section 904 of this title.

(B) Insured loan
The term "insured loan" means a loan made under section 935 of this title.

(b) Mergers of electric borrowers
Notwithstanding subsection (a) of this section, a direct or insured loan may be prepaid by an electric borrower at the lesser of the outstanding principal balance due thereon or the present value thereof discounted from the face value at maturity at the rate set by the Secretary if the borrower is an electrical organization which resulted from a merger or consolidation between a borrower and an organization which, prior to October 1, 1987, prepaid its direct or insured loans pursuant to this section. Prepayments by a borrower hereunder shall be made not later than one year after the effective date of the merger, consolidation, or other transaction. The discount rate to be set by the Secretary for direct or insured loans hereunder shall be based on the current cost of funds to the Department of the Treasury for obligations of comparable maturity to those being prepaid. If a borrower prepays using tax exempt financing, the discount shall be adjusted to make the discount equivalent to fully taxable financing. The borrower shall certify in writing whether the financing will be tax exempt and shall comply with such other terms and conditions as the Secretary may establish which are reasonable and necessary to implement this provision. As used in this section, the term "direct loan" means a loan made under section 904 of this title.

October 21, 1992, referred to in subsec. (a)(5)(A), (B), was in the original "the date of enactment of this subchapter", which was translated as meaning the date of enactment of Pub. L. 102–428, which amended subsec. (a) generally, to reflect the probable intent of Congress.

(a) read as follows: "A direct or insured loan made under this chapter shall not be sold or prepaid at a value less than the face value of any outstanding principal balance on such loan, except when sold to or prepaid by the borrower at the lesser of the outstanding principal balance due on the loan or the loan's present value discounted from the face value at maturity at the rate set by the Administrator. The exception contained in the preceding sentence shall be effective for the period ending September 30, 1987.

(B) 100 percent of the amount of interest for 1 year on the outstanding principal balance of the loan or loan advance, or any portion of the loan or advance, being refinanced, multiplied by the ratio that—

(I) each payment scheduled for the interval on the loan amount being refinanced or prepaid; and

(II) the payment amounts that would be required during the interval on the amounts being refinanced or prepaid if the interest rate on the loan were equal to the then current cost of funds to the Department of the Treasury for obligations of
comparable maturity to the loan being refinanced or prepaid.

(2) Limitation

(A) In general

Except as provided in subparagraph (B), the penalty provided by paragraph (1)(A) shall be required for refinancing or prepayment under this section.

(B) Exception

In the case of a loan advanced under an agreement that permits the refinancing or prepayment of the loan advance based on the payment of 1 year of interest on the outstanding principal balance of the loan advance, a borrower may, in lieu of the penalty required by paragraph (1)(A), pay a penalty as provided by—

(i) paragraph (1)(B), if the loan advance has reached the 12-year maturity required under the loan agreement for the refinancing or prepayment; or

(ii) paragraph (1)(C), if the loan advance has not reached the 12-year maturity required under the loan agreement for the refinancing or prepayment.

(3) Financing of penalty

(ii) increasing the outstanding principal balance of the loan advance guaranteed by the Secretary that is being refinanced under this section by the amount of the penalty.

(B) Increased principal

If a borrower meets the penalty requirements of paragraph (1) by increasing the outstanding principal balance of the loan advance that is being refinanced, the borrower shall make a payment at the time of the refinancing equal to 2.5 percent of the amount of the penalty that is added to the outstanding principal balance of the loan.

(c) Loan terms and conditions after refinancing

(1) In general

On the payment of a penalty as provided by subsection (b) of this section, the loan or loan advance, or any portion of the loan or advance, shall be refinanced at the interest rate described in paragraph (2) for a term selected by the borrower pursuant to paragraph (3), except that such rate shall not be greater than 7 percent per year, subject to subsection (d) of this section.

(3) Loan term

Subject to paragraph (4), the borrower of a loan that is refinanced under this section—

(A) shall select the term for which an interest rate shall be determined pursuant to paragraph (2); and

(B) at the end of the term (and any succeeding term selected by the borrower under this paragraph), may renew the loan for another term selected by the borrower.

In the case of the refinancing of a loan of a borrower pursuant to this section and the inclusion of a penalty in the outstanding principal balance of the refinanced loan pursuant to subsection (b)(3) of this section—

(A) the refinancing and inclusion of the penalty shall not be subject to appropriations or limited by the amount provided during a fiscal year for new loans, loan guarantees, or other credit activity;

(2) Limitation

A borrower may not exercise the option under paragraph (1) in the case of a loan or loan advance, or portion thereof, if the total amount of such loans for which such option would be exercised exceeds 50 percent of the outstanding principal balance of the loans made to such borrower and guaranteed under section 936 of this title.

(3) Fee

A borrower that exercises the maximum rate option under paragraph (1) shall, at the time of exercising such option, pay a fee equal to 1 percent of the outstanding principal balance of such loan or loan advance, or portion thereof, for which such option is exercised. Such fee shall be in addition to the penalties and other payments required under subsection (b) of this section.

(4) Sunset

The option provided under paragraph (1) shall not be available in the case of any loan
or loan advance, or portion thereof, unless a written request to exercise such option is sent to the Secretary not later than 1 year after the effective date of regulations issued to carry out the Rural Electrification Loan Restructuring Act of 1993.

§ 1011. Powers of Secretary of Agriculture

To effectuate the program provided for in section 1010 of this title, the Secretary is authorized—

(b) To protect, improve, develop, and administer any property so acquired and to construct such structures thereon as may be necessary to adapt it to its most beneficial use.

(c) To sell, exchange, lease, or otherwise dispose of, with or without a consideration, any property so acquired, under such terms and conditions as he deems will best accomplish the purposes of this subchapter, but any sale, exchange, or grant shall be made only to public authorities and agencies and only on condition that the property is used for public purposes: Provided, however, That an exchange may be made with private owners and with subdivisions or agencies of State governments in any case where the Secretary of Agriculture finds that such exchange would not conflict with the purposes of the Act, and that the value of the property received in exchange is substantially equal to that of the property conveyed. The Secretary may recommend to the President other Federal, State, or Territorial agencies to administer such property, together with the conditions of use and administration which will best serve the purposes of a land-conservation and land-utilization program, and the President is authorized to transfer such property to such agencies.

(d) With respect to any land, or any interest therein, acquired by, or transferred to, the Secretary for the purposes of this subchapter, to make dedications or grants, in his discretion, for any public purpose, and to grant licenses and easements upon such terms as he deems reasonable.
(e) To cooperate with Federal, State, territorial, and other public agencies and local non-profit organizations in developing plans for a program of land conservation and land utilization or plans for the conservation, development and utilization of water for aquacultural purposes; to assist in carrying out such plans by means of loans to State and local public agencies and local nonprofit organizations designated by the State legislature or the Governor, to conduct surveys and investigations relating to conditions and factors affecting, and the methods of accomplishing most effectively the purposes of this subchapter, and to disseminate information concerning these activities. As used in this subsection, the term “aquaculture” means the culture or husbandry of aquatic animals or plants. Loans to State and local public agencies and to local nonprofit organizations shall be made only if such plans have been submitted to, and not disapproved within 45 days by, the State agency having supervisory responsibility over such plans, or by the Governor if there is no such State agency. No appropriation shall be made for any single loan under this subsection in excess of $500,000 unless such loan has been approved by resolutions adopted by the Committee on Agriculture, Nutrition, and Forestry of the Senate and the Committee on Agriculture of the House of Representatives. A loan under this subsection shall be made under a contract that provides, under such terms and conditions as the Secretary considers appropriate, for the repayment of the loan in not more than 30 years, with interest at a rate not to exceed the current market yield for outstanding municipal obligations with remaining periods to maturity comparable to the average maturity for the loan, adjusted to the nearest 1/8 of 1 percent. Repayment of principal and interest on such loans shall begin within 5 years. In providing assistance for carrying out plans developed under this subchapter, the Secretary shall be authorized to bear such proportionate share of the costs of installing any works of improvement applicable to public water-based fish and wildlife or recreational development as is determined by him to be equitable in consideration of national needs and assistance authorized for similar purposes under other Federal programs: Provided, That all engineering and other technical assistance costs relating to such development may be borne by the Secretary: Provided further, That when a State or other public agency or local nonprofit organization participating in a plan developed under this subchapter agrees to operate and maintain any reservoir or other area included in a plan for public waterbased fish and wildlife or recreational development, the Secretary shall be authorized to bear not to exceed one-half of the costs of all of the land, easements, or rights-of-way acquired or to be acquired by the State or other public agency or local nonprofit organization for such reservoir or other area, and (b) minimum basic facilities needed for public health and safety, access to, and use of such reservoir or other area for such purposes: Provided further, That in no event shall the Secretary share any portion of the cost of installing more than one such work of improvement for each seventy-five thousand acres in any project; and that any such public water-based fish and wildlife or recreational development shall be consistent with any existing comprehensive statewide outdoor recreation plan found adequate for purposes of the Land and Water Conservation Fund Act of 1965 (73 Stat. 897 [U.S.C. 460l-4 et seq.]) and that such cost-sharing assistance for any such development shall be authorized only if the Secretary determines that it cannot be provided under other existing authority.

The Secretary shall also be authorized in providing assistance for carrying out plans developed under this subchapter:

(1) To provide technical and other assistance, and to pay for any storage of water for present or anticipated future demands or needs for rural community water supply included in any reservoir structure constructed or modified pursuant to such plans: Provided, That the cost of water storage to meet future demands may not exceed 30 per centum of the total estimated cost of such reservoir structure and the public agency or local nonprofit organization shall give reasonable assurances, and there is evidence, that such demands for the use of such storage will be made within a period of time which will permit repayment of the cost of such water supply storage within the life of the reservoir structure: And provided further, That the public agency or local nonprofit organization prior to initiation or construction or modification of any reservoir structure including water supply storage, make provision satisfactory to the Secretary to pay for not less than 50 per centum of the cost of storage for present water supply demands, and all of the cost of storage for anticipated future demands: And provided further, That the cost to be borne by the public agency or local nonprofit organization for anticipated future demands may be repaid within the life of the reservoir structure but in no event to exceed fifty years after the reservoir structure is first used for the storage of water for anticipated future water supply demands except that (1) no payment on account of such cost need be made until such supply is first used, and (2) no interest shall be charged on such cost until such supply is first used, but in no case shall the interest-free period exceed ten years. The interest rate used for purposes of computing the interest on the unpaid balance shall be the average rate, as determined by the Secretary of the Treasury, payable by the Treasury upon its marketable public obligations outstanding at the beginning of the fiscal year in which the advancement for such water supply is first made, which are neither due nor callable for redemption for fifteen years from date of issue;

(2) To provide, for the benefit of rural communities, technical, and other assistance and such proportionate share of the costs of installing measures and facilities for water quality management, for the control and abatement of agriculture-related pollution, for the disposal of solid wastes, and for the storage of water in reservoirs, farm ponds, or other impoundments, together with necessary water withdrawal appurtenances, for rural fire protection, as is determined by the Secretary to be equitable in consideration of national needs and assistance au-
authorized for similar purposes under other Federal programs.

(f) To make such rules and regulations as he deems necessary to prevent trespasses and otherwise regulate the use and occupancy of property acquired by, or transferred to, the Secretary for the purposes of this subchapter, in order to conserve and utilize it or advance the purposes of this subchapter. Any violation of such rules and regulations shall be punished by a fine of not more than $500 or imprisonment for not more than six months, or both. Any person charged with the violation of such rules and regulations may be tried and sentenced by any United States magistrate judge specially designated for that purpose by the court by which he was appointed, in the same manner and subject to the same conditions as provided for in section 3401(b) to (e) of title 18.

SUBCHAPTER II—LOANS, PARITY PAYMENTS, CONSUMER SAFEGUARDS, MARKETING QUOTAS, AND MARKETING CERTIFICATES

PART A—DEFINITIONS, LOANS, PARITY PAYMENTS, AND CONSUMER SAFEGUARDS

§ 1301. Definitions

(a) General definitions

For the purposes of this subchapter and the declaration of policy—

(1)(A) The "parity price" for any agricultural commodity, as of any date, shall be determined by multiplying the adjusted base price of such commodity as of such date by the parity index as of such date.

(B) The "adjusted base price" of any agricultural commodity, as of any date, shall be (i) the average of the prices received by farmers for such commodity, at such times as the Secretary may select during each year of the ten-year period ending on the 31st of December last before such date, or during each market-

ing season beginning in such period if the Secretary determines use of a calendar year basis to be impracticable, divided by (ii) the ratio of the general level of prices received by farmers for agricultural commodities during such period to the general level of prices received by farmers for agricultural commodities during the period January 1910 to December 1914, inclusive. As used in this subparagraph, the term "prices" shall include wartime subsidy payments made to producers under programs designed to maintain maximum prices established under the Emergency Price Control Act of 1942.

(C) The "parity index", as of any date, shall be the ratio of (i) the general level of prices for articles and services that farmers buy, wages paid hired farm labor, interest on farm indebtedness secured by farm real estate, and taxes on farm real estate, for the calendar month ending last before such date to (ii) the general level of such prices, wages, rates, and taxes during the period January 1910 to December 1914, inclusive.

(D) The prices and indices provided for herein, and the data used in computing them, shall be determined by the Secretary, whose determination shall be final.

(E) Notwithstanding the provisions of subparagraph (A) of this paragraph, the transitional parity price for any agricultural commodity, computed as provided in this subparagraph, shall be used as the parity price for such commodity until such date after January 1, 1950, as such transitional parity price may be lower than the parity price, computed as provided in subparagraph (A) of this paragraph, for such commodity. The transitional parity price for any agricultural commodity as of any date shall be—

(1) (i) its parity price determined in the manner used prior to the effective date of the Agricultural Act of 1948, less

(ii) 5 per centum of the parity price so determined multiplied by the number of full calendar years (not counting 1956 in the case of basic agricultural commodities) which, as of such date, have elapsed after January 1, 1949, in the case of non-basic agricultural commodities, and after January 1, 1955, in the case of the basic agricultural commodities.

(F) Notwithstanding the provisions of subparagraphs (A) and (E) of this paragraph, if the parity price for any agricultural commodity, computed as provided in subparagraphs (A) and (E) of this paragraph, appears to be seriously out of line with the parity prices of other agricultural commodities, the Secretary may, and upon the request of a substantial number of interested producers shall, hold public hearings to determine the proper relationship between the parity price of such commodity and the parity prices of other agricultural commodities. Within sixty days after commencing such hearing the Secretary shall complete such hearing, proclaim his findings as to whether the facts require a revision of the method of computing the parity price of such commodity, and put into effect any revision so found to be required.
(G) Notwithstanding the foregoing provisions of this section, the parity price for any basic agricultural commodity, as of any date during the six-year period beginning January 1, 1950, shall not be less than its parity price computed in the manner used prior to October 31, 1949.

(2) “Parity”, as applied to income, shall be that gross income from agriculture which will provide the farm operator and his family with a standard of living equivalent to those afforded persons dependent upon other gainful occupation. “Parity” as applied to income from any agricultural commodity for any year, shall be that gross income which bears the same relationship to parity income from agriculture for such year as the average gross income from such commodity for the preceding ten calendar years bears to the average gross income from agriculture for such ten calendar years.

(3) The term “interstate and foreign commerce” means sale, marketing, trade, and traffic between any State or Territory or the District of Columbia or Puerto Rico, and any place outside thereof; or between points within the same State or Territory or within the District of Columbia or Puerto Rico, through any place outside thereof; or within any Territory or within the District of Columbia or Puerto Rico.

(4) The term “affect interstate and foreign commerce” means, among other things, in such commerce, or to burden or obstruct such commerce or the free and orderly flow thereof; or to create or tend to create a surplus of any agricultural commodity which burdens or obstructs such commerce or the free and orderly flow thereof.

(5) The term “United States” means the several States and Territories and the District of Columbia and Puerto Rico.

(6) The term “State” includes a Territory and the District of Columbia and Puerto Rico.

(7) The term “Secretary” means the Secretary of Agriculture, and the term “Department” means the Department of Agriculture.

(8) The term “person” means an individual, partnership, firm, joint-stock company, corporation, association, trust, estate, or any agency of a State.

(9) The term “corn” means field corn.

(b) Definitions applicable to one or more commodities

For the purposes of this subchapter—

(1)(A) “Actual production” as applied to any acreage of corn means the number of bushels of corn which the local committee determines would be harvested as grain from such acreage if all the corn on such acreage were so harvested. In case of a disagreement between the farmer and the local committee as to the actual production of the acreage of corn on the farm, or in case the local committee determines that such actual production is substantially below normal, the local committee, in accordance with regulations of the Secretary, shall weigh representative samples of ear corn taken from the acreage involved, make proper deductions for moisture content, and determine the actual production of such acreage on the basis of such samples.

(B) “Actual production” of any number of acres of cotton, rice or peanuts on a farm means the actual average yield for the farm times such number of acres.

(2) “Bushel” means in the case of ear corn that amount of ear corn, including not to exceed 15% per centum of moisture content, which weighs seventy pounds, and in the case of shelled corn, means that amount of shelled corn including not to exceed 15% per centum of moisture content, which weighs fifty-six pounds.

(3)(A) “Carry-over”, in the case of corn, rice, and peanuts for any marketing year shall be the quantity of the commodity on hand in the United States at the beginning of such marketing year, not including any quantity which was produced in the United States during the calendar year then current.

(B) “Carry-over” of cotton for any marketing year shall be the quantity of cotton on hand in the United States at the beginning of such marketing year, not including any part of the crop which was produced in the United States during the calendar year then current.

(C) “Carry-over” of wheat, for any marketing year shall be the quantity of wheat on hand in the United States at the beginning of such marketing year, not including any wheat which was produced in the United States during the calendar year then current, and not including any wheat held by the Federal Crop Insurance Corporation under the Federal Crop Insurance Act [7 U.S.C. 1501 et seq.].

(4)(A) “Commercial corn-producing area” shall include all counties in which the average production of corn (excluding corn used as silage) during the ten calendar years immediately preceding the calendar year for which such area is determined, after adjustment for normal weather conditions, is four bushels or more per farm and four bushels or more for each acre of farm land in the county.

(B) Whenever prior to February 1 of any calendar year the Secretary has reason to believe that any county which is not included in the commercial corn-producing area determined pursuant to the provisions of subparagraph (A) of this subsection, but which borders upon one of the counties in such area, or that any minor civil division in a county bordering on such area, is producing (excluding corn used for silage) an average of at least four hundred and fifty bushels of corn per farm and an average of at least four bushels for each acre of farm land in the county or in the minor civil division, as the case may be, he shall cause immediate investigation to be made to determine such fact. If, upon the basis of such investigation, the Secretary finds that such county or minor civil division is likely to produce corn in such average amounts during such calendar year, he shall proclaim such determination and, commencing with such calendar year, such county shall be included in the commercial corn-producing area. In the case of a county included in the commercial corn-producing area pursuant to this subparagraph, whenever
prior to February 1 of any calendar year the Secretary has reason to believe that facts justifying the inclusion of such county are not likely to exist in such calendar year, he shall cause an immediate investigation to be made with respect thereto. If, upon the basis of such investigation, the Secretary finds that such facts are not likely to exist in such calendar year, he shall proclaim such determination, and commencing with such calendar year, such county shall be excluded from the commercial corn-producing area.

(5) “Farm consumption” of corn means consumption by the farmer’s family, employees, or household, or by his work stock; or consumption by poultry or livestock on his farm if such poultry or livestock, or the products thereof, are consumed or to be consumed by the farmer’s family, employees, or household.

(6)(A) “Market”, in the case of corn, cotton, rice, and wheat, means to dispose of, in raw or processed form, by voluntary or involuntary sale, barter, or exchange, or by gift inter vivos, and, in the case of corn and wheat, by feeding (in any form) to poultry or livestock which, or the products of which, are sold, bartered, or exchanged, or to be so disposed of, but does not include disposing of any such commodities as premium to the Federal Crop Insurance Corporation under the Federal Crop Insurance Act [7 U.S.C. 1501 et seq.].

(B) “Marketed”, “marketing”, and “for market” shall have corresponding meanings to the term “market” in the connection in which they are used.

(C) “Market”, in the case of peanuts, means to dispose of peanuts, including farmers’ stock peanuts, shelled peanuts, cleaned peanuts, or peanuts in processed form, by voluntary or involuntary sale, barter, or exchange, or by gift inter vivos.

(7) “Marketing year” means, in the case of the following commodities, the period beginning on the first and ending with the second date specified below:

- Corn, September 1–August 31;
- Cotton, August 1–July 31;
- Tobacco (flue-cured), July 1–June 30;
- Tobacco (other than flue-cured), October 1–September 30;
- Wheat, June 1–May 31.

(8)(A) “National average yield” as applied to cotton or wheat shall be the national average yield per acre of the commodity during the ten calendar years in the case of wheat, and during the five calendar years in the case of cotton, preceding the year in which such national average yield is used in any computation authorized in this subchapter, adjusted for abnormal weather conditions and, in the case of wheat, but not in the case of cotton, for trends in yields.

(B) “Projected national yield” as applied to any crop of wheat shall be determined on the basis of the national yield per harvested acre of the commodity during each of the five calendar years immediately preceding the year in which such projected national yield is determined, adjusted for abnormal weather conditions affecting such yield, for trends in yields and for any significant changes in production practices.

(9) “Normal production” as applied to any number of acres of corn or rice means the normal yield for the farm times such number of acres. “Normal production” as applied to any number of acres of cotton or wheat means the projected farm yield times such number of acres.

(10)(A) “Normal supply” in the case of corn, rice, wheat, and peanuts for any marketing year shall be (i) the estimated domestic consumption of the commodity for the marketing year ending immediately prior to the marketing year for which normal supply is being determined, plus (ii) the estimated exports of the commodity for the marketing year for which normal supply is being determined, plus (iii) an allowance for carry-over. The allowance for carry-over shall be the following percentage of the sum of the consumption and exports used in computing normal supply: 15 per centum in the case of corn; 10 per centum in the case of rice; 20 per centum in the case of wheat; and 15 per centum in the case of peanuts. In determining normal supply the Secretary shall make such adjustments for current trends in consumption and for unusual conditions as he may deem necessary.

(B) The “normal supply” of cotton for any marketing year shall be the estimated domestic consumption of cotton for the marketing year for which such normal supply is being determined, plus the estimated exports of cotton for such marketing year, plus, 30 per centum of the sum of such consumption and exports as an allowance for carry-over.

(11)(A) “Normal year’s domestic consumption”, in the case of corn and wheat, shall be the yearly average quantity of the commodity, wherever produced, that was consumed in the United States during the ten marketing years immediately preceding the marketing year in which such consumption is determined, adjusted for current trends in such consumption.

(B) “Normal year’s domestic consumption”, in the case of cotton, shall be the yearly average quantity of the commodity produced in the United States that was consumed in the United States during the ten marketing years immediately preceding the marketing year in which such consumption is determined, adjusted for current trends in such consumption.

(C) “Normal year’s domestic consumption”, in the case of rice, shall be the yearly average quantity of rice produced in the United States that was consumed in the United States during the ten marketing years immediately preceding the marketing year in which such consumption is determined, adjusted for current trends in such consumption.

(D) “Normal year’s exports” in the case of corn, cotton, rice, and wheat shall be the yearly average quantity of the commodity produced in the United States that was exported from the United States during the ten marketing years (or, in the case of rice, the five marketing years) immediately preceding the mar-

1 So in original. Probably should be “consumed”.
marketing year in which such exports are determined, adjusted for current trends in such exports.

(B) “Normal yield” for any county, in the case of peanuts, shall be the average yield per acre of peanuts for the county, adjusted for abnormal weather conditions, during the five calendar years immediately preceding the year in which such normal yield is determined. For 1942, the normal yield for any county, in the case of peanuts, shall be the average yield per acre for peanuts for the county, adjusted for abnormal conditions, during the years 1936–1940, inclusive, except that for any county in which the years 1935–1939, inclusive, are equally as representative, such period may be used in determining the normal yields for counties in the State.

(C) In applying subparagraph (A) or (B) of this paragraph, if for any such year the data are not available, or there is no actual yield, an appraised yield formula, determined in accordance with regulations issued by the Secretary, shall be used as the actual yield for such year. In applying such subparagraphs, if, on account of drought, flood, insect pests, plant disease, or other uncontrollable natural cause, the yield in any year of such ten-year period or five-year period, as the case may be, is less than 75 per centum of the average (computed without regard to such year) such year shall be eliminated in calculating the normal yield per acre.

(D) “Normal yield” for any county, in the case of rice and wheat, shall be the average yield per acre of rice or wheat, as the case may be, for the county during the five calendar years immediately preceding the year for which such normal yield is determined in the case of rice, or during the five years immediately preceding the year in which such normal yield is determined in the case of wheat, adjusted for abnormal weather conditions and trends in yields. If for any such year data are not available, or there is no actual yield, an appraised yield for such year, determined in accordance with regulations issued by the Secretary, shall be used as the actual yield for such year.

(E) “Normal yield” for any farm, in the case of rice and wheat, shall be the average yield per acre of rice or wheat, as the case may be, for the farm during the five calendar years immediately preceding the year for which such normal yield is determined in the case of rice, or during the five years immediately preceding the year in which such normal yield is determined in the case of wheat, adjusted for abnormal weather conditions and trends in yields. If for any such year the data are not available or there is no actual yield, then the normal yield for the farm shall be appraised in accordance with regulations issued by the Secretary, taking into consideration abnormal weather conditions, trends in yields, the normal yield for the county, the yields obtained on adjacent farms during such year and the yield in years for which data are available.

(F) In applying subparagraphs (D) and (E) of this paragraph, if on account of drought, flood, insect pests, plant disease, or other uncontrollable natural cause, the yield for any such year of such five-year period is less than 75 per centum of the average, 75 per centum of such average shall be substituted therefor in calculating the normal yield per acre. If, on account of abnormally favorable weather conditions, the yield for any year of such five-year period is in excess of 125 per centum of the average, 125 per centum of such average shall be substituted therefor in calculating the normal yield per acre.

(G) “Normal yield” for any farm, in the case of corn or peanuts, shall be the average yield per acre of corn or peanuts, as the case may be, for the farm, adjusted for abnormal weather conditions, during the five calendar years immediately preceding the year in which such normal yield is determined. For 1942, the normal yield for any farm, in the case of peanuts, shall be the average yield per acre of peanuts for the farm, adjusted for abnormal conditions, during the years 1936–1940, inclusive, except that for any county in which the years 1935–1939, inclusive, are equally as representative, such period may be used in determining normal yields for farms in the county. If for any such year the data are not available or there is no actual yield, then the normal yield for the farm shall be appraised in accordance with regulations of the Secretary, taking into consideration abnormal weather conditions.

(H) “Normal yield” for any county, for any crop of cotton, shall be the average yield per acre of cotton for the county, adjusted for abnormal weather conditions and any significant changes in production practices during the five calendar years immediately preceding the year in which the national marketing quota for such crop is proclaimed. If for any such year the data are not available, or there is no actual yield, an appraised yield for such year, determined in accordance with regulations issued by the Secretary, shall be used as the actual yield for such year.

(I) “Normal yield” for any farm, for any crop of cotton, shall be the average yield per acre of cotton for the farm, adjusted for abnormal weather conditions and any significant changes in production practices during the three calendar years immediately preceding the year in which such normal yield is determined. If for any such year the data are not available, or there is no actual yield, then the normal yield for the farm shall be appraised in accordance with regulations of the Secretary, taking into consideration abnormal weather conditions, the normal yield for the county, changes in production practices, and the yield in years for which data are available.

(J) “Projected county yield” for any crop of wheat shall be determined on the basis of the yield per harvested acre of such commodity in the county during each of the five calendar years immediately preceding the year in
which such projected county yield is determined, adjusted for abnormal weather conditions affecting such yield, for trends in yields and for any significant changes in production practices.

(L) payments or other benefits received under title IX of the Trade Act of 1974 [19 U.S.C. 2497 et seq.] or subtitle B of the Federal Crop Insurance Act [7 U.S.C. 1531];

(M) risk management practices, including benefits received under a program author-
ized under the Federal Crop Insurance Act (7 U.S.C. 1501 et seq.) (including a catastrophic risk protection plan offered under section 508(b) of that Act (7 U.S.C. 1508(b))); and

(N) any other activity related to farming, ranching, or forestry, as determined by the Secretary.

(2) Income derived from farming, ranching, or forestry

In determining the average adjusted gross farm income of a person or legal entity, in addition to the inclusions described in paragraph (1), the Secretary shall include any income reported on the Schedule F or other schedule used by the person or legal entity to report income from farming, ranching, or forestry, as determined by the Secretary.

(3) Special rule

If not less than 66.66 percent of the average adjusted gross farm income of a person or legal entity is derived from farming, ranching, or forestry operations described in paragraphs (1) and (2), in determining the average adjusted gross farm income of the person or legal entity, the Secretary shall also include—

(A) the sale of equipment to conduct farm, ranch, or forestry operations; and

(B) the provision of production inputs and services to farmers, ranchers, foresters, and farm operations.

(d) Enforcement

(1) In general

To comply with subsection (b), at least once every 3 years a person or legal entity shall provide to the Secretary—

(A) a certification by a certified public accountant or another third party that is acceptable to the Secretary that the average adjusted gross income, average adjusted gross farm income, and average adjusted gross nonfarm income of the person or legal entity does not exceed the applicable limitation specified in that subsection; or

(B) information and documentation regarding the average adjusted gross income, average adjusted gross farm income, and average adjusted gross nonfarm income of the person or legal entity through other procedures established by the Secretary.

(2) Denial of program benefits

If the Secretary determines that a person or legal entity has failed to comply with this section, the Secretary shall deny the issuance of applicable payments and benefits specified in paragraphs (1)(C) and (2)(B) of subsection (b) to the person or legal entity through other procedures as described in section 1308–2 of this title.

(3) Audit

The Secretary shall establish statistically valid procedures under which the Secretary shall conduct targeted audits of such persons or legal entities as the Secretary determines are most likely to exceed the limitations under subsection (b).

(e) Commensurate reduction

In the case of a payment or benefit described in paragraphs (1)(C) and (2)(B) of subsection (b) made in a crop, program, or fiscal year, as appropriate, to an entity, general partnership, or joint venture, the amount of the payment or benefit shall be reduced by an amount that is commensurate with the direct and indirect ownership interest in the entity, general partnership, or joint venture of each person who has an average adjusted gross income, average adjusted gross farm income, or average adjusted gross nonfarm income in excess of the applicable limitation specified in subsection (b).

(f) Effective period

This section shall apply only during the 2009 through 2012 crop, program, or fiscal years, as appropriate.

§1308–4. Education program

(a) In general

The Secretary shall carry out a payment provisions education program for appropriate personnel of the Department of Agriculture and members and other personnel of county and State committees established under section 505(b)(1) of title 16, for the purpose of fostering more effective and uniform application of the payment limitations and restrictions established under sections 1308 through 1308–3 of this title.

(b) Training

(c) Administration

§ 1308a. Cost reduction options

(a) Authority of Secretary to take action

Notwithstanding any other provision of law, whenever the Secretary of Agriculture determines that an action authorized under subsection (c), (d), or (e) of this section will reduce the total of the direct and indirect costs to the Federal Government of a commodity program administered by the Secretary without adversely affecting income to small- and medium-sized producers participating in such program, the Secretary shall take such action with respect to the commodity program involved.

(b) Reservation of Secretary's right to reopen or change contracts if producer agrees

In the announcement of the specific provisions of any commodity program administered by the Secretary of Agriculture, the Secretary shall include a statement setting forth which, if any, of the actions are to be initially included in the program, and a statement that the Secretary reserves the right to initiate at a later date any action not previously included but authorized by this section, including the right to reopen and change a contract entered into by a producer under the program if the producer voluntarily agrees to the change.

(c) Purchase from other sources of commodities covered by nonrecourse loans

When a nonrecourse loan program is in effect for a crop of a commodity, the Secretary may enter the commercial market to purchase such commodity if the Secretary determines that the cost of such purchases plus appropriate carrying charges will probably be less than the comparable cost of later acquiring the commodity through defaults on nonrecourse loans under the program.

(d) Reduction in settlement price of nonrecourse loans

When the domestic market price of a commodity for which a nonrecourse loan program (including the program authorized by section 1445e of this title) is in effect is insufficient to cover the principal and accumulated interest on a loan made under such program, thereby encouraging default by a producer, the Secretary may provide for settlement of such loan and redemption by the producer of the commodity securing such loan for less than the total of the principal and all interest accumulated thereon if the Secretary determines that such reduction in the settlement price will yield benefits to the Federal Government due to—

(1) receipt by the Federal Government of a portion rather than none of the accumulated interest;

(2) avoidance of default; or

(3) elimination of storage, handling, and carrying charges on the forfeited commodity.

(e) Reopening of production control or loan programs to allow for payment in kind

When a production control or loan program is in effect for a crop of a major agricultural commodity, the Secretary may at any time prior to harvest reopen the program to participating producers for the purpose of accepting bids from producers for the conversion of acreage planted to such crop to diverted acres in return for payment in kind from Commodity Credit Corporation, thereby encouraging reduction surplus stocks of the commodity to which the acreage was planted, if the Secretary determines that (1) changes in domestic or world supply or demand conditions have substantially changed after announcement of the program for that crop, and (2) without action to further adjust production, the Federal Government and producers will be faced with a burdensome and costly surplus. Such payments in kind shall not be included within the payment limitation per person established under section 1308 of this title, but shall be limited to a total $20,000 per year per producer for any one commodity.

(f) Other authorities of Secretary not affected

The authority provided in this section shall be in addition to, and not in place of, any authority granted to the Secretary under any other provision of law.

AMENDMENTS

1989—Subsec. (d). Pub. L. 101–134, in introductory provisions, inserted “(including the program authorized by section 1445e of this title)” after “nonrecourse loan program” and substituted “benefits” for “savings” and struck out concluding provisions which read as follows: “but the Secretary may not reduce the settlement price to less than the principal due on the loan”.

EFFECTIVE DATE OF 2008 AMENDMENT

§ 1309. Normally planted acreage and target prices

(a) Authorized planted acreage for 1982 through 1995 crops of wheat and feed grains as prerequisite for loan, etc.; eligibility; determinations; records

Notwithstanding any other provision of law, whenever a set-aside program is in effect for one or more of the 1982 through 1995 crops of wheat and feed grains, the Secretary of Agriculture may require, as a condition of eligibility for commodity loans, purchases, and payments for such crops under the Agricultural Act of 1949 [7 U.S.C. 1421 et seq.], that producers not exceed the acreage on the farm normally planted to crops des-
ignated by the Secretary, adjusted as deemed necessary by the Secretary to be fair and equitable among producers and reduced by any set-aside or diverted acreage. Such normal crop acreage for any crop year shall be determined as provided by the Secretary. The Secretary may require producers participating in the program to keep such records as the Secretary determines necessary to assist in making such determination.

(b) Established price payments

Notwithstanding any other provision of law—

(1) Whenever the Secretary, for one or more of the 1982 through 1995 crops of wheat and feed grains, requires that producers not exceed the acreage on the farm normally planted to crops designated by the Secretary in accordance with subsection (a) of this section, the Secretary may increase the established price payments for any such commodity by such amount (or if there are no such payments in effect for such crop by providing for payments in such amount) as the Secretary determines appropriate to compensate producers for not exceeding the acreage on the farm normally planted to crops designated by the Secretary and participation in any required set-aside with respect to such commodity.

(2) In determining the amount of any payment for any commodity under this subsection, the Secretary shall take into account changes in the costs of production resulting from not exceeding the acreage on the farm normally planted to crops designated by the Secretary and participation in any required set-aside with respect to such commodity.

(3) If payments are provided for any commodity under this subsection, the Secretary may provide for payments for any other commodity in such amount as the Secretary determines necessary for effective operation of the program.

(4) The Secretary shall adjust any payments under this subsection to reflect, in whole or in part, any land diversion payments for the commodity for which an increase is determined.

(c) Marketing quotas in effect for 1987 through 1995 crops of wheat; reduction in normally planted acreage as condition prerequisite for loan, etc.

Notwithstanding any other provision of law, whenever marketing quotas are in effect for any of the 1987 through 1995 crops of wheat, the Secretary of Agriculture may require, as a condition of eligibility for loans, purchases, and payments on any commodity under the Agricultural Act of 1949 (7 U.S.C. 1421 et seq.), that the acreage normally planted to crops designated by the Secretary, adjusted as considered necessary by the Secretary to be fair and equitable among producers, shall be reduced by a quantity equal to—

(1) the acreage that the Secretary determines would normally be planted to wheat on a farm; minus

(2) the individual farm program acreage for the farm under section 107B(d)(3)(A) of such Act.

SUBPART II—ACREAGE ALLOTMENTS—CORN

AMENDMENTS

§ 1321. Legislative finding of effect on interstate and foreign commerce and necessity of regulation

Corn is a basic source of food for the Nation, and corn produced in the commercial corn-producing area moves almost wholly in interstate and foreign commerce in the form of corn, livestock, and livestock products.

Abnormally excessive and abnormally deficient supplies of corn acutely and directly affect, burden, and obstruct interstate and foreign commerce in corn, livestock, and livestock products. When abnormally excessive supplies exist, transportation facilities in interstate and foreign commerce are overtaxed, and the handling and processing facilities through which the flow of interstate and foreign commerce in corn, livestock, and livestock products is directed become acutely congested. Abnormally deficient supplies result in substantial decreases in livestock production and in an inadequate flow of livestock and livestock products in interstate and foreign commerce, with the consequence of unreasonably high prices to consumers.

Violent fluctuations from year to year in the available supply of corn disrupt the balance between the supply of livestock and livestock products moving in interstate and foreign commerce and the supply of corn available for feeding. When available supplies of corn are excessive, corn prices are low and farmers overexpand livestock production in order to find outlets for corn. Such expansion, together with the relative scarcity and high price of corn, forces farmers to market abnormally excessive supplies of livestock in interstate commerce at sacrifice prices, endangering the financial stability of producers, and overtaxing handling and processing facilities through which the flow of interstate and foreign commerce in livestock and livestock products is directed. Such excessive marketings deplete livestock on farms, and livestock marketed in interstate and foreign commerce consequently becomes abnormally low, with resultant high prices to consumers and danger to the financial stability of persons engaged in transporting, handling, and processing livestock in interstate and foreign commerce. These high prices in turn result in another overexpansion of livestock production.

Recurring violent fluctuations in the price of corn resulting from corresponding violent fluctuations in the supply of corn directly affect the movement of livestock in interstate commerce from the range cattle regions to the regions where livestock is fattened for market in interstate and foreign commerce, and also directly affect the movement in interstate commerce of corn marketed as corn which is transported from the regions where produced to the regions where livestock is fattened for market in interstate and foreign commerce.
Substantially all the corn moving in interstate commerce, substantially all the corn fed to livestock transported in interstate commerce for fattening, and substantially all the corn fed to livestock marketed in interstate and foreign commerce, is produced in the commercial corn-producing area. Substantially all the corn produced in the commercial corn-producing area, with the exception of a comparatively small amount used for farm consumption, is either sold or transported in interstate commerce, or is fed to livestock transported in interstate commerce for feeding, or is fed to livestock marketed in interstate and foreign commerce. Almost all the corn produced outside the commercial corn-producing area is either consumed, or is fed to livestock which is consumed, in the State in which such corn is produced.

The conditions affecting the production and marketing of corn and the livestock products of corn are such that, without Federal assistance, farmers, individually or in cooperation, cannot effectively prevent the recurrence of disparities between the supplies of livestock moving in interstate and foreign commerce and the supply of corn available for feeding, and provide for orderly marketing of corn in interstate and foreign commerce and livestock and livestock products in interstate and foreign commerce.

The national public interest requires that the burdens on interstate and foreign commerce above described be removed by the exercise of Federal power. By reason of the administrative and physical impracticability of regulating the movement of livestock and livestock products in interstate and foreign commerce and the inadequacy of any such regulation to remove such burdens, such power can be feasibly exercised only by providing for the withholding from market of excessive and burdensome supplies of corn in times of excessive production, and providing a reserve supply of corn available for market in times of deficient production, in order that a stable and continuous flow of livestock and livestock products in interstate and foreign commerce may at all times be assured and maintained.

§ 1323, act Feb. 16, 1938, ch. 30, title III, §323, 52 Stat. 50, related to amount of farm marketing quota with respect to corn.

§ 1326. Adjustment of farm marketing quotas

(a) Whenever in any county or other area the Secretary finds that the actual production of corn plus the amount of corn stored under seal in such county or other area is less than the normal production of the marketing percentage of the farm acreage allotments in such county or other area, the Secretary shall terminate farm marketing quotas for corn in such county or other area.

(b) Whenever, upon any farm, the actual production of the acreage of corn is less than the normal production of the marketing percentage of the farm acreage allotment, there may be marketed, without penalty, from such farm an amount of corn from the corn stored under seal pursuant to section 1324 of this title which, together with the actual production of the current crop, will equal the normal production of the marketing percentage of the farm acreage allotment.

(c) Whenever, in any marketing year, marketing quotas are not in effect with respect to the crop of corn produced in the calendar year in which such marketing year begins, all marketing quotas applicable to previous crops of corn shall be terminated.

SUBPART III—MARKETING QUOTAS—WHEAT

§ 1331. Legislative finding of effect on interstate and foreign commerce and necessity of regulation

Wheat is a basic source of food for the Nation, is produced throughout the United States by more than a million farmers, is sold on the country-wide market and, as wheat or flour, flows almost entirely through instrumentalities of interstate and foreign commerce from producers to consumers.

Abnormally excessive and abnormally deficient supplies of wheat on the country-wide market acutely and directly affect, burden, and obstruct interstate and foreign commerce. Abnormally excessive supplies overtax the facilities of interstate and foreign transportation, congest terminal markets and milling centers in the flow of wheat from producers to consumers, depress the price of wheat in interstate and foreign commerce, and otherwise disrupt the orderly marketing of such commodity in such commerce. Abnormally deficient supplies result in an inadequate flow of wheat and its products in interstate and foreign commerce with consequent injurious effects to the instrumentalities of such commerce and with excessive increases in the prices of wheat and its products in interstate and foreign commerce.

It is in the interest of the general welfare that interstate and foreign commerce in wheat and its products be protected from such burdensome surpluses and distressing shortages, and that a supply of wheat be maintained which is adequate to meet domestic consumption and commercial requirements in years of drought, flood, and other adverse conditions as well as in years of plenty, and that the soil resources of the Nation be not wasted in the production of such burdensome surpluses. Such surpluses result in disastrously low prices of wheat and other grains to wheat producers, destroy the purchasing power of grain producers for industrial products, and reduce the value of the agricultural assets supporting the national credit structure. Such shortages of wheat result in unreasonably high prices of flour and bread to consumers and loss of market outlets by wheat producers.

The conditions affecting the production and marketing of wheat are such that, without Federal assistance, farmers, individually or in cooperation, cannot effectively prevent the recurrence of such surpluses and shortages and the burdens on interstate and foreign commerce resulting therefrom, maintain normal supplies of wheat, or provide for the orderly marketing thereof in interstate and foreign commerce.

Wheat which is planted and not disposed of prior to the date prescribed by the Secretary, the disposal of excess acres of wheat is an addition to the total supply of wheat and has a direct effect on the price of wheat in interstate and foreign commerce and may also affect the supply and price of livestock and livestock products. In the circumstances, wheat not disposed of prior to such date must be considered in the same manner as mechanically harvested wheat in order to achieve the policy of the chapter.

The diversion of substantial acreages from wheat to the production of commodities which are in surplus supply or which will be in surplus supply if they are permitted to be grown on the diverted acreage would burden, obstruct, and adversely affect interstate and foreign commerce in such commodities, and would adversely affect the prices of such commodities in interstate and foreign commerce. Small changes in the supply of a commodity could create a sufficient surplus to affect seriously the price of such commodity in interstate and foreign commerce. Large changes in the supply of such commodity could have a more acute effect on the price of the
commodity in interstate and foreign commerce and, also, could overtax the handling, processing, and transportation facilities through which the flow of interstate and foreign commerce in such commodity is directed. Such adverse effects caused by production in one year could further result in a deficient supply of the commodity in the succeeding year, causing excessive increases in the price of the commodity in interstate and foreign commerce in such year. It is, therefore, necessary to prevent acreage diverted from the production of wheat to be used to produce commodities which are in surplus supply or which will be in surplus supply if they are permitted to be grown on the diverted acreage.

The provisions of this subpart affording a cooperative plan to wheat producers are necessary in order to minimize recurring surpluses and shortages of wheat in interstate and foreign commerce, to provide for the maintenance of adequate reserve supplies thereof, to provide for an adequate and orderly flow of wheat and its products in interstate and foreign commerce at prices which are fair and reasonable to farmers and consumers, and to prevent acreage diverted from the production of wheat from adversely affecting other commodities in interstate and foreign commerce.

Amendments

1962—Pub. L. 87-703 provided additional findings regarding the necessity of such addition of wheat to total supply of wheat and effect of such addition on price of wheat and supply and price of livestock and livestock products, the need to prevent the use of acreage diverted from wheat production to produce other commodities in surplus supply and the consequences of a small or large change in the supply of a commodity and the necessity of a cooperative plan to wheat producers to provide for flow of wheat at fair and reasonable prices to farmers and consumers and to prevent diverted acreage from production of wheat from adversely affecting other commodities in interstate and foreign commerce.

L. 87-703 effective only with respect to programs applicable to crops planted for harvest in calendar year 1964 or any subsequent year or marketing years beginning in calendar year 1964, or any subsequent year, see section 323 of Pub. L. 87-703, set out as a note under section 1301 of this title.

§1332. National marketing quota

(a) Proclamation; duration of program

Whenever prior to April 15 in any calendar year the Secretary determines that the total supply of wheat in the marketing year beginning in the next succeeding calendar year will, in the absence of a marketing quota program, likely be excessive, the Secretary shall proclaim that a national marketing quota for wheat shall be in effect for such marketing year and, if the Secretary determines that the total stocks of wheat in the United States for seed, (ii) will be exported either in the form of wheat or products thereof, and (iv) will be utilized during such marketing year by the Secretary to be in effect for such marketing year or the following two marketing years, if the Secretary determines and declares in such proclamation that a two- or three-year marketing quota program is necessary to effectuate the policy of the chapter.

(b) Amount; minimum

If a national marketing quota for wheat has been proclaimed for any marketing year, the Secretary shall determine and proclaim the amount of the national marketing quota for such marketing year not earlier than January 1 or later than April 15 of the calendar year preceding the year in which such marketing year begins. The amount of the national marketing quota for wheat for any marketing year shall be an amount of wheat which the Secretary estimates (i) will be utilized during such marketing year for human consumption in the United States as food, food products, and beverages, composed wholly or partly of wheat, (ii) will be utilized during such marketing year for the United States for seed, (iii) will be exported either in the form of wheat or products thereof, and (iv) will be utilized during such marketing year in the United States as livestock (including poultry) feed, excluding the estimated quantity of wheat which will be utilized for such purpose as a result of the substitution of wheat for feed grains under section 1338c of this title; less (A) an amount of wheat equal to the estimated imports of wheat into the United States during such marketing year and, (B) the stocks of wheat owned by the Commodity Credit Corporation are determined by the Secretary to be excessive, an amount of wheat determined by the Secretary to be a desirable reduction in such marketing year in such stocks to achieve the policy of the chapter; Provided, That if the Secretary determines that the total stocks of wheat in the Nation are insufficient to assure an adequate carryover for the next succeeding marketing year, the national marketing quota otherwise determined shall be increased by the amount the Secretary determines to be nec-
essary to assure an adequate carryover: And provided further, That the national marketing quota for wheat for any marketing year shall be not less than one billion bushels.

(c) National emergencies or material increase in demand; investigation; increase or termination

If, after the proclamation of a national marketing quota for wheat for any marketing year, the Secretary has reason to believe that, because of a national emergency or because of a material increase in the demand for wheat, the national marketing quota should be terminated or the amount thereof increased, he shall cause an immediate investigation to be made to determine whether such action is necessary in order to meet such emergency or increase in the demand for wheat. If, on the basis of such investigation, the Secretary finds that such action is necessary, he shall immediately proclaim such finding and the amount of any such increase found by him to be necessary and thereupon such national marketing quota shall be so increased or terminated. In case any national marketing quota is increased under this subsection, the Secretary shall provide for such increase by increasing acreage allotments established under this subpart by a uniform percentage.

(d) Farm marketing quotas for wheat crops planted in calendar years 1966–1970

Notwithstanding any other provision of this chapter, the Secretary shall proclaim a national marketing quota for the crops of wheat planted for harvest in the calendar years 1966 through 1970, and farm marketing quotas shall not be in effect for such crops of wheat.

AMENDMENTS

Subsec. (a). Pub. L. 99-198 amended subsec. (a) generally, temporarily substituting provisions defining the terms “base period” and “marketing quota period” for provisions which authorized the Secretary to proclaim a national marketing quota for wheat for either a two- or three-year period. See Effective and Termination Dates of 1965 Amendment note below.

Subsec. (b). Pub. L. 99-198 added subsec. (b) generally, temporarily substituting provisions authorizing the proclamation of a national marketing quota for each marketing year, not later than June 15, 1966, in an amount which the Secretary determines is required to meet anticipated needs during such marketing year, and the conducting of a marketing quota referendum not later than Aug. 1, 1966 for provisions which had authorized the proclamation of a national marketing quota upon a determination made between Jan. 1 and Apr. 15 of the calendar year preceding the year in which the marketing year began, which determination had to provide for a uniform of one billion bushels for each marketing year, and investigation of stocks to adjust for imports and excessive or insufficient amounts generally. See Effective and Termination Dates of 1965 Amendment note below.

Subsec. (c). Pub. L. 99-198 amended subsec. (c) generally, temporarily substituting provisions requiring the Secretary to adjust or terminate the national marketing quota in the event of a national emergency or material change in the demand for wheat for provisions which had required the Secretary to cause an immediate investigation to be made to determine whether termination or increase in the quota was necessary in order to meet such emergency or increase in demand, and struck out provisions requiring the Secretary to proclaim such findings and the amount of any increase, with any such increase to be based on a uniform percentage. See Effective and Termination Dates of 1965 Amendment note below.

1965—Subsec. (b). Pub. L. 89-321 changed item (iv) from the average amount of wheat which was used for livestock feed during 1959-60 to the amount which will be utilized during the marketing year for which the quota is being determined for livestock feed, excluding the estimated quantity of wheat which will be utilized for such purpose as a result of the substitution of wheat for feed grains under section 1339c of this title.

1962—Pub. L. 87-703 substituted provisions for proclamation of a national marketing quota upon a determination made prior to April 15 in any calendar year, the duration of such a program, the amount of, including the minimum, quota, and investigation of stocks to increase or terminate the quota during national emergencies or material increase in demand for provision for proclamation, not later than May 15 of each calendar year, of a national marketing quota for the crop produced in the next calendar year.

1954—Act Aug. 28, 1954, struck out proclamations relating to supplies, and changed proclamation date from July 15 to May 15.

§ 1334. Apportionment of national acreage allotment

(a) Apportionment among States; special acreage reserve

The national allotment for wheat, less a reserve of not to exceed 1 per centum of the wheat, shall be apportioned as provided in this subsection and less the special acreage reserve provided for in this subsection, shall be apportioned by the Secretary among the States on the basis of the preceding year’s allotment for each such State, including all amounts allotted to the State and including for 1967 the increased acreage in the State allotted for 1966 under section 1335 of this title, adjusted to the extent deemed necessary by the Secretary to establish a fair and equitable apportionment base for each State, taking into consideration established crop rotation practices, estimated decrease in farm allotments because of loss of history, and other relevant factors. The reserve acreage set aside herein for apportionment by the Secretary shall be used (1) to make allotments to counties in addition to the county allotments made under subsection (b) of this section, on the basis of the relative needs of counties for additional allotments because of reclamation and other new areas coming into production of wheat, or (2) to increase the allotment for any county, in which wheat is the principal grain crop produced, on the basis of its relative need for such increase if the average ratio of wheat acreage allotment to cropland on old wheat farms in such county is less by at least 20 per centum than such average ratio on old wheat farms in an adjoining county or counties in which wheat is the principal grain crop produced or if there is a definable contiguous area consisting of at least 10 per centum of the cropland acreage in such county in which the average ratio of wheat acreage allotment to cropland on old wheat farms is less by at least 20 per centum than such average ratio on the remaining old wheat farms in such county, provided that such low ratio of wheat acreage allotment to cropland is due to the shift prior to 1951 from wheat to one or more alternative income-producing crops which, because of plant disease or sustained loss of markets, may no longer be produced at a fair profit and there is no other alternative income-producing crop suitable for production in the area or county. The increase in the county allotment under clause (2) of the preceding sentence shall be used to increase allotments for old wheat farms in the affected area to make such allotments comparable with those on similar farms in adjoining areas or counties but the average ratio of increased allotments to cropland on such farms shall not exceed the average ratio of wheat acreage allotment to cropland on old wheat farms in the adjoining areas or counties. There also shall be made available a special acreage reserve of not in excess of one million acres as determined by the Secretary to be desirable for the purposes hereof which shall be in addition to the national acreage reserve provided for in this subsection. Such special acreage reserve shall be made available to the States to make additional allotments to counties on the basis of the relative needs of counties, as determined by the Secretary, for additional allotments to make adjustments in the allotments on old wheat farms (that is, farms on which wheat has been seeded or regarded as seeded to one or more of the three crops immediately preceding the crop for which the allotment is established) on which the ratio of wheat acreage allotment to cropland on the farm is less than one-half the average ratio of wheat acreage allotment to cropland on old wheat farms in the county. Such adjustments shall not provide an allotment for any farm which would result in an allotment-cropland ratio for the farm in excess of one-half of such county average ratio and the total of such adjustments in any county shall not exceed the acreage made available therefor in the county. Such apportionment from the special acreage reserve shall be made only to counties where wheat is a major income-producing crop, only to farms on which there is limited opportunity for the production of an alternative income-producing crop, and only if an efficient farming operation on the farm requires the allotment of additional acreage from the special acreage reserve. For the purposes of making adjustments hereunder the cropland on the farm shall not include any land developed as cropland subsequent to the 1963 crop year.

(b) Apportionment among counties

The State acreage allotment for wheat, less a reserve of not to exceed 3 per centum thereof for apportionment as provided in subsection (c) of this section, shall be apportioned by the Secretary among the counties in the State, on the basis of the preceding year’s wheat allotment in each such county, including for 1967 the increased acreage in the county allotted for 1966 pursuant to section 1335 of this title, adjusted to the extent deemed necessary by the Secretary in order to establish a fair and equitable apportionment base for each county, taking into consideration established crop rotation practices, estimated decrease in farm allotments because of loss of history, and other relevant factors.

(c) Apportionment among farms; overplanted allotments; reductions; notice

(1) The allotment to the county shall be apportioned by the Secretary, through the local com-
mittees, among the farms within the county on the basis of past acreage of wheat, tillable acres, crop-rotation practices, type of soil, and topography. Not more than 3 per cent of the State allotment shall be apportioned to farms on which wheat has not been planted during any of the three marketing years immediately preceding the marketing year in which the allotment is made. For the purpose of establishing farm acreage allotments—(1) the past acreage of wheat on any farm for 1958 or 1965 shall be the base acreage determined for the farm under the regulations issued by the Secretary for determining 1958 or 1965 farm wheat acreage allotments; (ii) if subsequent to the determination of such base acreage the 1958 or 1965 wheat acreage allotment for the farm is increased through administrative, review, or court proceedings, the 1958 or 1965 farm base acreage shall be increased in the same proportion; and (iii) the past acreage of wheat for 1959 and any subsequent year except 1965 shall be the wheat acreage on the farm which is not in excess of the farm wheat acreage allotment, plus, in the case wheat acreage on the farm which is not in excess of wheat acreage allotment, the acreage diverted under such wheat allotment programs: Provided, That for 1959 and subsequent years in the case of any farm on which the entire amount of the farm marketing excess is delivered to the Secretary or stored in accordance with applicable regulations to avoid or postpone payment of the penalty, the past acreage of wheat for the year in which such farm marketing excess is delivered to the Secretary or stored is later depleted and penalty becomes due by reason of such depletion, for the purpose of establishing farm wheat acreage allotments subsequent to such depletion the past acreage of wheat for the farm for the year in which the excess was produced shall be reduced to the farm wheat acreage allotment for such year.

(2) Notwithstanding any other provision of law, each old or new farm acreage allotment for the 1962 crop of wheat as determined on the basis of a minimum national acreage allotment of fifty-five million acres shall be reduced by 10 per centum. In the event notices of farm acreage allotments for the 1962 crop of wheat have been mailed to farm operators prior to the effective date of this subparagraph (2), new notices showing the required reduction shall be mailed to farm operators as soon as practicable.

(3) Notwithstanding the provisions of paragraph (1) of this subsection, the past acreage of wheat for 1967 and any subsequent year shall be the acreage of wheat planted, plus the acreage regarded as planted, for harvest as grain on the farm which is not in excess of the farm acreage allotment.

(4) Notwithstanding any other provision of this subsection (c), the farm acreage allotment for the 1967 and any subsequent crop of wheat shall be established for each old farm by appor- tioning the county wheat acreage allotment among farms in the county on which wheat has been planted, or is considered to have been planted, for harvest as grain in any one of the three years immediately preceding the year for which allotments are determined on the basis of past acreage of wheat and the farm acreage allotment for the year immediately preceding the year for which the allotment is being established, adjusted as hereinafter provided. For purposes of this paragraph, the acreage allotment for the immediately preceding year may be adjusted to reflect established crop-rotation practices, may be adjusted downward to reflect a reduction in the tillable acreage on the farm, and may be adjusted upward to reflect such other factors as the Secretary determines should be considered for the purpose of establishing a fair and equitable allotment: Provided, That (i) for the purposes of computing the allotment for any year, the acreage allotment for the farm for the immediately preceding year shall be decreased by 7 per centum if for the year immediately preceding the year for which such reduction is made neither a voluntary diversion program nor a voluntary certificate program was in effect and there was noncompliance with the farm acreage allotment for such year; (ii) for purposes of clause (i), any farm on which the entire amount of farm marketing excess is delivered to the Secretary, stored, or adjusted to zero in accordance with applicable regulations to avoid or postpone payment of the penalty when farm marketing quotas are in effect, shall be considered in compliance with the allotment, but if any part of the amount of wheat so stored is later depleted and penalty becomes due by reason of such depletion, the allotment for such farm next computed after determination of such depletion shall be reduced by reducing the allotment for the immediately preceding year by 7 per centum; and (iii) for purposes of clause (i) if the Secretary determines that the reduction in the allotment does not provide fair and equitable treatment to producers on farms following special crop rotation practices, he may modify such reduction in the allotment as he determines to be necessary to provide fair and equitable treatment to such producers.

(e) Increase in acreage allotments and marketing quotas for class II durum wheat

If, with respect to the 1962 and 1963 crops of wheat, the Secretary determines that the acreage allotments of farms producing durum wheat are inadequate to provide for the production of a sufficient quantity of durum wheat to satisfy the demands therefor (but not including export demand involving a subsidy by, or a loss to, the Federal Government), he shall increase the farm marketing quotas and acreage allotments for such crop of wheat for farms located in counties in the States of North Dakota, Minnesota, Montana, South Dakota, and California, designated by the Secretary as counties which (1) are capable of producing durum wheat (class II), and (2) have produced such wheat for commercial food products during one or more of the five years immediately preceding the year in which such crop is harvested. The Secretary shall determine the percentage factor by which the average acreage of durum wheat (class II) produced during
the last two-year period for which statistics are available (excluding any increases in durum wheat acreage as a result of increases in wheat acreage allotments authorized by this subsection) must be increased to satisfy such demand. The wheat acreage allotment for any farm established for such crop without regard to this subsection, after reduction in the case of the 1962 crop as required by subsection (c)(2) of this section (hereinafter referred to as the “original allotment”), shall be increased by an acreage computed by multiplying the average acreage of durum wheat (class II) on the farm during such two-year period (excluding any increase in the acreage of durum wheat as a result of an increase in the wheat acreage allotment for the farm authorized by this subsection) by such percentage factor: Provided, That such increased allotment shall not exceed the cropland on the farm well suited to wheat. The increase in the wheat acreage allotment for any farm shall be conditioned upon the production of an acreage of durum wheat (class II) at least equal to the average acreage of such wheat produced during such two-year period plus the number of acres by which the allotment is increased. Any increases in wheat acreage allotments authorized by this subsection shall be in addition to the National, State, and county wheat acreage allotments, and such increases shall not be considered in establishing future State, county, and farm allotments. The provisions of sections 1326(b) and 1340(6) of this title, relating to the re-formulated under section 124 of the Agricultural Act of 1961, or section 307 of the Food and Agriculture Act of 1962. The Secretary shall give growers and millers of durum wheat and manufacturers of semolina products an opportunity to present their views and recommendations, prior to making any determination hereunder.

(f) Voluntary surrender of acreage allotment

Any part of any 1955, 1956, or 1957 farm wheat acreage allotment on which wheat will not be planted and which is voluntarily surrendered to the county committee shall be deducted from the allotment to such farm and may be reapportioned by the county committee to other farms in the same county or to the State acreage allotment in amounts determined by the county committee to be fair and reasonable on the basis of past acreage of wheat tillable acres, crop rotation practices, type of soil, and topography. If all of the allotted acreage voluntarily surrendered is not needed in the county where the allotment was transferred for any may surrender the excess acreage to the State committee to be used for the same purposes as the State acreage reserve under subsection (c) of this section. Any allotment transferred under this provision shall be regarded for the purposes of subsection (c) of this section as having been planted on the farm from which transferred rather than on the farm to which transferred, except that this shall not operate to make the farm from which the allotment was transferred eligible for an allotment as having wheat planted thereon during the three-year base period: Provided, That notwithstanding any other provisions of law, any part of any 1955, 1956, or 1957 farm acreage allotment may be permanently released in writing to the county committee by the owner and operator of the farm, and reapportioned as provided herein. Acreage surrendered, reapportioned under this subsection, and planted shall be credited to the State and county in determining future acreage allotments.

(g) Plantings in excess of allotments or where no allotment is established

Notwithstanding any other provision of law, no acreage in the commercial wheat-producing area seeded to wheat for harvest as grain in 1958 or thereafter except 1965 in excess of acreage allotments shall be considered in establishing future State and county acreage allotments. The planting on a farm in the commercial wheat-producing area of wheat of the 1958 or any subsequent crop for which no farm wheat acreage allotment was established shall not make the farm eligible for an allotment as an old farm pursuant to the first sentence of subsection (c) of this section nor shall such farm by reason of such planting be considered ineligible for an allotment as a new farm under the second sentence of such subsection.

(h) Omitted

(i) Increase in acreage allotments for any kind of wheat in short supply; storage reduction and land-use provisions inapplicable to such wheat

If, with respect to any crop of wheat, the Secretary finds that the acreage allotments of farms producing any type of wheat are inadequate to provide for the production of a sufficient quantity of such type of wheat to satisfy the demand therefor, the wheat acreage allotment for such crop for each farm located in a county designated by the Secretary as a county which (1) is capable of producing such type of wheat, and (2) has produced such type of wheat for commercial food products during one or more of the five years immediately preceding the year in which such crop is harvested, shall be increased by such uniform percentage as he deems necessary to provide for such quantity. No increase shall be made under this subsection in the wheat acreage allotment of any farm for any crop if any wheat other than such type of wheat is planted on such farm for such crop. Any increases in wheat acreage allotments authorized by this subsection shall be in addition to the National, State, and county wheat acreage allotments, and such increases shall not be considered in establishing future State, county, and farm allotments. The provisions of sections 1326(b) and 1340(6) of this title, relating to the reduction of the storage amount of wheat shall apply to the allotment for the farm established without regard to this subsection and not to the
increased allotment under this subsection. The land-use provisions of section 1339 of this title shall not be applicable to any farm receiving an increased allotment under this subsection and the producers on such farms shall not be required to comply with such provisions as a condition of eligibility for price support.

(j) Increased durum wheat acreage allotments to Tulelake area, California, for 1970 and subsequent years; factors determinative; effect of increased allotments on marketing allocations and diversion payments

Notwithstanding any other provision of this chapter, the Secretary shall increase the acreage allotments for the 1970 and subsequent crops of wheat for privately owned farms in the irrigable portion of the area known as the Tulelake division of the Klamath project of California located in Modoc and Siskiyou Counties, California, as defined by the United States Department of the Interior, Bureau of Reclamation, and hereinafter referred to as the area. The increase for the area for each such crop shall be determined by adding, to the extent applications are made therefor, to the total allotments established for privately owned farms in the area for the particular crop without regard to this subsection (hereinafter referred to as the original allotments) an acreage sufficient to make available for each such crop a total allotment of twelve thousand acres for the area. The additional allotments made available by this subsection shall be in addition to the National, State, and county allotments otherwise established under this section, and the acreage planted to wheat pursuant to such increases in allotments shall not be taken into account in establishing future State, county, and farm acreage allotments except as may be desirable in providing increases in allotments for subsequent years under this subsection for the production of Durum\(^1\) wheat. The Secretary shall apportion the additional allotment acreage made available under this subsection between Modoc and Siskiyou Counties on the basis of the relative needs for additional allotments for the portion of the area in each county. The Secretary shall allot such additional acreage to individual farms in the area for which applications for increased acreages are made on the basis of tillable acres, crop rotation practices, type of soil and topography, and the original allotment for the farm, if any. The increase in the wheat acreage allotment for any farm under this subsection (1) shall not be taken into account in computing the farm wheat marketing allocation under section 1379b of this title, and (2) shall be conditioned upon the production of Durum\(^1\) wheat on the original allotment and on the increased acreage. The producers on a farm receiving an increased allotment under this subsection shall not be eligible for diversion payments under section 1339 of this title.

(k) Transfer of farm wheat acreage allotments in case of natural disasters

Notwithstanding any other provision of this chapter, if the Secretary determines that because of a natural disaster a portion of the farm wheat acreage allotments in a county cannot be timely planted or replanted, he may authorize the transfer of all or a part of the wheat acreage allotment for any farm in the county so affected to another farm in the county or in an adjoining county on which one or more of the producers on the farm from which the transfer is to be made will be engaged in the production of wheat and will share in the proceeds thereof, in accordance with such regulations as the Secretary may prescribe. Any farm allotment transferred under this subsection shall be deemed to be planted on the farm from which it was transferred for the purposes of acreage history credits under this chapter.

Subsec. (a), Pub. L. 99–198 amended subsec. (a) generally, temporarily substituting provisions requiring the Secretary to establish, for each crop of wheat for which a national marketing quota under section 1332 of this title has been proclaimed, a farm marketing quota for each farm on which wheat was planted, or considered planted, for harvest during the base period for provisions which required the Secretary to apportion the national acreage allotment for wheat, less a national acreage reserve and a special reserve which were provided for herein, among the States on the basis of each State’s allotment for the preceding year, adjusted to the extent deemed necessary by the Secretary to establish a fair and equitable apportionment base for each State. Subsec. (b). Pub. L. 99–198 amended subsec. (b) generally, temporarily substituting provisions establishing a formula for determination of the farm marketing quota for provisions which required the Secretary to apportion each State's acreage allotment for wheat among the counties of the State, less a reserve not to exceed 3 per centum thereof, on the basis of the preceding year's wheat allotment in each such county, adjusted to the extent deemed necessary by the Secretary in order to establish a fair and equitable apportionment base for each county. See Effective and Termination Dates of 1965 Amendment note below.

Subsec. (c). Pub. L. 99–198 amended subsec. (c) generally, temporarily substituting provisions defining the circumstances under which wheat shall be considered to have been planted for harvest on the farm in any crop year for provisions relating to the apportionment among farms of each county's allotment under this section. See Effective and Termination Dates of 1965 Amendment note below.

Subsecs. (e) to (k). Pub. L. 99–198, in amending section generally, temporarily struck out subsecs. (e) to (k) as follows:

Subsec. (e) related to increase in acreage allotments and marketing quotas for class II durum wheat.

Subsec. (g) related to plantings in effect allotments or where no allotment was established, in the case of 1958 and subsequent crops of wheat.

Subsec. (h). There is no subsec. (h) for 1964 and subsequent crop years. Subsec. (h) was omitted pursuant to the 1963 amendment to this section by Pub. L. 88–297, § 202(1), provided (1) for the apportionment among the States of the national acreage allotment for wheat less the special acreage reserve; (2) that in establishing State acreage allotments, the acreage seeded for the production of wheat plus the acreage diverted for 1965 for any farm shall be the base acreage of wheat determined for the farm under regulations for determining farm wheat acreage allotments for 1965; and (3) beginning with the 1965 crop, a special acreage reserve and uses of such reserve and apportionment to counties of such reserve.

Subsec. (b). Pub. L. 88–297, § 202(2), provided that in establishing county acreage allotments, the acreage seeded for the production of wheat plus the acreage diverted for 1965 for any farm shall be the base acreage of wheat determined for the farm under regulations for determining farm wheat acreage allotments for 1965.

Subsec. (c)(1). Pub. L. 88–297, § 202(3), inserted in third sentence, cls. (i) and (ii), "or 1965" after "1958" wherever appearing and in third sentence, cl. (iii), "except 1965" after "any subsequent year".

Subsec. (j). Pub. L. 88–64 redesignated former subsec. (i) (so designated through the 1963 Wheat Crop) as (j), inserted "privately owned" before "farms" in first and second sentences and increased from eight to twelve thousand acres the total acreage allotment for each crop.

Subsec. (d). Pub. L. 87–703, § 313(2), redesignated former subsec. (h) as (g). Former subsec. (g), which related to weather conditions, underplanting, and sub-
normal production affecting acreage allotments, was repealed by such section 313(2). See section 1377 of this title.

Subsec. (h). Pub. L. 87–703, §313(2), (3), redesignated former subsec. (i) as (h) and inserted the sentence "The land-use provisions of section 1339 of this title shall not be applicable to any farm receiving an additional allotment under this subsection." Former subsec. (j), redesignated (g), redesignated (g). See Effective Date of 1962 Amendment note below making the changes effective with the 1964 Wheat Crop.

Subsec. (i). Pub. L. 87–64, §1(a), redesignated former subsec. (i) as (j) and inserted the sentence "(as redesignated through the 1963 Wheat Crop) as (j). There is no subsec. (h) for 1964 and Subsequent Wheat Crops. See 1963 Amendment note above."

Subsec. (k). Pub. L. 87–128, §121, designated existing provisions as par. (1) and added par. (2).

Subsec. (l). Pub. L. 87–128, §123, authorized the Secretary to increase durum wheat acreage allotment during 1962, 1963, and 1964 crops of wheat when he determines that acreage allotments established for durum wheat farms will be inadequate to produce a sufficient quantity of durum wheat to meet demand therefor, not including export demand involving a subsidy by or loss to the Federal Government, by such percentage as the Secretary determines to be necessary to provide for the increase in quantity the increase not to exceed the cropland on the farm well suited to wheat and to be conditioned upon the production of an acreage of durum wheat (class II) at least equal to the average acreage of such wheat produced during prescribed two-year period plus the number of acres by which the allotment is increased, provided that any farm receiving an increased durum wheat allotment shall not be required as a condition of price support, or permitted, to participate in the special 1962 wheat diversion program, and required the Secretary to become familiar with the views and recommendations of durum wheat grower and millers and manufacturers of semolina products prior to making any determinations. Former provisions of the subsection related to increase in allotment for durum wheat from 1957 crop of wheat, conditioned upon the production of durum wheat (class II) on the increased acreage and determined by adding to the allotment established without regard to subsec. (e) an acreage equal to the acreage by which the original allotment exceeded the 1957 acreage on the farm of classes of wheat other than durum wheat (class II), but not exceeding the smaller of the cropland on the farm well suited to wheat or the wheat acreage on the farm.

Subsec. (m). Pub. L. 87–357 substituted "1958 through 1963" for "1958 through 1961", and excluded from any general increase in wheat acreage allotments or for wheat acreage diversion program for 1962 or 1963 wheat crop, the farms for which acreage allotments are increased under the provisions hereof, unless such reductions specifically made applicable.

1958—Subsec. (a). Pub. L. 85–366, §11(c), inserted proviso that in establishing State acreage allotments acreage seeded plus acreage diverted for 1959 and subsequent years for farm on which entire marketing excess is delivered to Secretary or stored to avoid penalty shall be base acreage determined for farm by Secretary's regulations for such year, but if such stored wheat is subsequently depleted, resulting in penalty, farm's seeded acreage for year excess was produced shall be reduced to acreage allotment for such year.

Subsec. (b). Pub. L. 85–366, §12, inserted proviso that in establishing county acreage allotments acreage seeded plus acreage diverted for 1959 and subsequent years for farm on which entire marketing excess is delivered to Secretary or stored to avoid penalty shall be base acreage determined for farm by Secretary's regulations for such year, but if such stored wheat is subsequently depleted, resulting in penalty, farm's seeded acreage for year excess was produced shall be reduced to acreage allotment for such year.

Subsec. (c). Pub. L. 85–366, §11(b), inserted sentence relating to establishment of farm acreage allotment for 1958 and past acreage for 1959 and subsequent years, with the proviso that for 1959 and subsequent years, any farm on which entire marketing excess is delivered to Secretary or stored to avoid penalty, the past acreage for the year of delivery or storage shall be the base acreage determined for farm by Secretary's regulations for such year, but if such stored wheat is subsequently depleted, resulting in penalty, past acreage of wheat for year excess was produced shall be reduced to farm allotment for such year.

Subsec. (d). Act Feb. 16, 1938, §378(d), as added by Pub. L. 85–835, repealed subsec. (d) which related to adjustment of allotment upon acquisition of part of farms by United States for defense.

Subsec. (e). Pub. L. 85–836, §1(d), substituted "future State, county and farm acreage allotments except as prescribed in the provisions to the first sentence of subsections (a) and (b), respectively, of this section" for "future State, county, and farm亩acreage allotments".

1957—Subsec. (e). Pub. L. 85–13 substituted "1957" for "1956" in two places, substituted "1952 through 1956" for "1951 through 1955", prohibited increase of acreage allotment under subsec. (e) by more than 60 acres, inserted clause providing for fixing "farm acreage allotment" as allotment established without regard to subsec. (e) and clause providing for counting each acre planted to durum wheat as one acre of wheat for application of section 121(a)(1) of this title, and inserted provision that "wheat acreage on the farm" includes acreage in the wheat acreage report.

1956—Subsec. (e). Act Mar. 16, 1956, extended increased durum allotment to the 1956 crop and to certain counties in California, shortened the production history from 10 to 5 years and advanced it 1 year to include 1955, and made increased durum allotment dependent upon reduced planting of other wheat.

Subsec. (g). Act Aug. 7, 1956, added subsec. (g).

1955—Subsec. (e). Act Feb. 19, 1955, removed for 1955, requirements restricting increased acreage allotments to producers who devote a normal share of their original allotment to durum and who have produced durum in 1 or more of the preceding 3 years.

1953—Subsec. (a). Act July 14, 1953, provided a reserve of up to 1 percent of the national acreage allotment for counties in which new areas have come into production.

Subsec. (b). Act July 14, 1953, provided for a 3 percent reserve of State acreage allotments for new farms.

Subsec. (c). Act July 14, 1953, recognized the use of past acreage as a factor in making farm allotments and placed the reserves for new farms on a State basis instead of a county basis.

Subsec. (d). Act July 14, 1953, made the provision relating to farms acquired for national-defense purposes apply to farms acquired in 1959 or thereafter instead of 1940 or thereafter.

1938—Subsec. (d). Act Apr. 7, 1938, struck out "net" before "acreage diverted" from parenthetical provision.

(A) 50 per centum of—

(1) the acreage on the farm seeded for the production of wheat in 1949, and

(2) any other acreage seeded for the production of wheat in 1949 which was fallowed and from which no crop was harvested in the calendar year 1949, or

(B) 50 per centum of—

(1) the acreage on the farm seeded for the production of wheat in 1948, and

(2) any other acreage seeded for the production of wheat in 1947 which was fallowed and from which no crop was harvested in the calendar year 1948, adjusted in the same ratio as the national average seedings for the production of wheat during the ten calendar years 1939–1948 (adjusted as provided by this chapter) bore to the national acreage allotment for wheat for the 1950 crop: Provided, That no acreage was to be included under (A) or (B) which the Secretary, by appropriate regulations, determined would become an undue erosion hazard under continued farming. To the extent that the allotment to any county was insufficient to provide for such minimum farm allotments, the Secretary was to allot such county such additional acreage (which was to be in addition to the county,
State, and national acreage allotments otherwise provided for under the Agricultural Adjustment Act of 1938, as amended (this chapter) as was necessary in order to provide for such minimum farm allotments.

§ 1334b. Designation of States outside commercial wheat-producing areas

If the acreage allotment for any State for any crop of wheat is twenty-five thousand acres or less, the Secretary, in order to provide for such minimum farm allotments otherwise provided for under the Agricultural Adjustment Act of 1938 [7 U.S.C. 1421 et seq.], may designate such State as outside the commercial wheat-producing area for the marketing year for such crop. If such State is so designated, acreage allotments for such crop and marketing quotas for the marketing year therefor shall not be applicable to any farm in such State. Acreage allotments in any State shall not be increased by reason of such designation.

§ 1335. Small-farm exemption; small-farm base acreage; election; acreage allotment; land-use provisions; price support; wheat marketing certificates

Notwithstanding any other provision of this subpart, no farm marketing quota for any crop of wheat shall be applicable to any farm with a farm acreage allotment of less than fifteen acres if the acreage of such crop of wheat does not exceed the small-farm base acreage determined for the farm, unless the operator elects in writing on a form and within the time prescribed by the Secretary to be subject to the farm acreage allotment and marketing quota. The small-farm base acreage for a farm shall be the smaller of (A) the average acreage of the crop of wheat planted for harvest in the three years 1959, 1960, and 1961, or such later three-year period, excluding 1963, determined by the Secretary to be representative, with adjustments for abnormal weather conditions, established crop-rotation practices on the farm, and such other factors as the Secretary determines should be considered for the purpose of establishing a fair and equitable small-farm base acreage, or (B) fifteen acres. The acreage allotment for any farm shall be the larger of (I) the small-farm base acreage determined as provided above on the basis of the three-year period 1959–1961, reduced by the same percentage by which the national acreage allotment for the crop is reduced below fifty-five million acres, or (2) the acreage allotment determined without regard to (1) above. If the operator of any such farm fails to make such election with respect to any crop of wheat, (i) for the purposes of section 1340 of this title, the farm acreage allotment for such crop of wheat shall be deemed to be the larger of (A) the small-farm base acreage or (B) the acreage allotment for the farm, (ii) the land-use provisions of section 1339 of this title shall be inapplicable to the farm, (iii) such crop of wheat shall not be eligible for price support, and (iv) wheat marketing certificates applicable to such crop shall not be issued with respect to the farm. The additional acreage required to provide acreage allotments for farms based upon small-farm base acreages under this section shall be in addition to National, State, and county acreage allotments. This section shall not be applicable to the crops planted for harvest in 1967 and subsequent years.

Any producer who has a farm acreage allotment shall be eligible to vote in any referendum held pursuant to this section, except that a producer who has a farm acreage allotment of less than fifteen acres shall not be eligible to vote unless the farm operator elected pursuant to section 1335 of this title to be subject to the farm marketing quota. The Secretary shall proclaim the results of any referendum held hereunder within thirty days after the date of such referendum, and if the Secretary determines that more than one-third of the farmers voting in the referendum voted against marketing quotas, the Secretary shall proclaim that marketing quotas will not be in effect with respect to the crop of wheat produced for harvest in the calendar year following the calendar year in which the referendum is held. § 1339. Land use

(a) Penalties: computation, lien, joint and several liability and interest; exceptions: nonsurplus supply crops, substantial impairment and nonproduction of wheat; diverted acreage: amount, annual identity, and grazing; crops available for marketing

(1) During any year in which marketing quotas for wheat are in effect, the producers on any farm (except a new farm receiving an allotment from the reserve for new farms) on which any crop is produced on acreage required to be diverted from the production of wheat shall be subject to a penalty on such crop, in addition to any marketing quota penalty applicable to such crops, as provided in this subsection unless (1) the crop is designated by the Secretary as one which is not in surplus supply and will not be in surplus supply if it is permitted to be grown on the diverted acreage, or as one the production of which will not substantially impair the purpose of the requirements of this section, or (2) no wheat is produced on the farm, and the producers have not filed an agreement or a statement of intention to participate in the payment program formulated pursuant to subsection (b) of this section. The acreage required to be diverted from the production of wheat on the farm shall be an acreage of cropland equal to the number of acres determined by multiplying the farm acreage allotment by the diversion factor determined by dividing the number of acres by which the national acreage allotment (less an acreage equal to the increased acreage allotted for 1966 pursuant to section 1335 of this title) is reduced below fifty-five million acres by the number of acres in the national acreage allotment (less an acreage equal to the increased acreage allotted for 1966 pursuant to section 1335 of this title). The actual production of any crop subject to penalty under this subsection shall be regarded
as available for marketing and the penalty on such crop shall be computed on the actual acreage of such crop at the rate of 65 per centum of the parity price per bushel of wheat as of May 1 of the calendar year in which such crop is harvested, multiplied by the normal yield of wheat per acre established for the farm. Until the producers on any farm pay the penalty on such crop, the entire crop of wheat produced on the farm and any subsequent crop of wheat subject to marketing quotas in which the producer has an interest shall be subject to a lien in favor of the United States for the amount of the penalty. Each producer having an interest in the crop or crops on acreage diverted or required to be diverted from the production of wheat shall be jointly and severally liable for the entire amount of the penalty. The persons liable for the payment or collection of the penalty under this section shall be liable also for interest thereon at the rate of 6 per centum per annum from the date the penalty becomes due until the date of payment of such penalty.

(2) The Secretary may require that the acreage on any farm diverted from the production of wheat be land which was diverted from the production of wheat in the previous year, to the extent he determines that such requirement is necessary to effectuate the purposes of this part.

(3) The Secretary may permit the diverted acreage to be grazed in accordance with regulations prescribed by the Secretary.

(b) Payment program for 1964 through 1970 crops; terms and conditions; amount; additional diverted acreage; conservation and soil-conserving uses; adjustment; knowledge of exceeding acreage allotment; acreage allotment not exceeded by delivery to Secretary of farm marketing excess or storage in accordance with regulations to avoid or postpone payment of penalty or by farms exempt from marketing quota; new farms ineligible for payments; sharing and medium of payments

The Secretary is authorized to formulate and carry out a program with respect to the crops of wheat planted for harvest in the calendar years 1964 through 1970 under which, subject to such terms and conditions as he determines are desirable to effectuate the purposes of this section, payments may be made in amounts not in excess of 50 per centum of the estimated basic county support rate for wheat not accompanied by marketing certificates on the normal production of the acreage diverted taking into account the income objectives of the chapter, determined by the Secretary to be fair and reasonable with respect to acreage diverted pursuant to subsection (a) of this section. Any producer who complies with his 1964 farm acreage allotment for wheat and with the other requirements of the program shall be eligible to receive payments under the program for the 1964 crop of wheat. The Secretary may permit producers on any farm to divert from the production of wheat an acreage, in addition to the acreage diverted pursuant to subsection (a) of this section, equal to 50 per centum of the farm acreage allotment for wheat: Provided, That the producers on any farm may, at their election, divert such acreage in addition to the acreage diverted pursuant to subsection (a) of this section, as will bring the total acreage diverted on the farm to twenty-five acres. Such program shall require (1) that the diverted acreage shall be devoted to conservation uses approved by the Secretary; (2) that the total acreage of cropland on the farm devoted to soil-conserving uses, including summer fallow and idle land but excluding the acreage diverted as provided above, shall be not less than the total average acreage of cropland devoted to soil-conserving uses including summer fallow and idle land on the farm during a representative period, as determined by the Secretary, adjusted to the extent the Secretary determines appropriate for (i) abnormal weather conditions or other factors affecting production, (ii) established crop-rotation practices on the farm, (iii) participation in other Federal farm programs, (iv) unusually high percentage of land on the farm devoted to conserving uses, and (v) other factors which the Secretary determines should be considered for the purpose of establishing a fair and equitable soil-conserving acreage for the farm; and (3) that the producer shall not knowingly exceed (i) any farm acreage allotment in effect for any commodity produced on the farm, and (ii) except as the Secretary may by regulations prescribe, with the farm acreage allotments on any other farm for any crop in which the producer has a share: Provided, That no producer shall be deemed to have exceeded a farm acreage allotment for wheat if the entire amount of the farm marketing excess is delivered to the Secretary or stored in accordance with applicable regulations to avoid or postpone payment of the penalty: And provided further, That no producer shall be deemed to have exceeded a farm acreage allotment for any crop of wheat if the farm is exempt from the farm marketing quota for such crop under section 1335 of this title. The producers on a new farm shall not be eligible for payments hereunder. The Secretary shall provide for the sharing of payment among producers on the farm on a fair and equitable basis. Payments may be made in cash or in wheat.

(c) Adjustment of payments

The Secretary may provide for adjusting any payment on account of failure to comply with the terms and conditions of the land-use program formulated under subsection (b) of this section.

(d) Advance payments

Not to exceed 50 per centum of any payment to producers under subsection (b) of this section may be made in advance of determination of performance.

(e) Diverted acreage used for production of certain crops; rate of payment; limitation on rate

The Secretary may permit all or any part of the diverted acreage to be devoted to the production of guar, sesame, safflower, sunflower, castor beans, mustard seed, crambe, plantago ovata, and flaxseed, if he determines that such production of the commodity is needed to provide an adequate supply, is not likely to increase the cost of the price-support program and will not adversely affect farm income, subject to
the condition that payment with respect to diverted acreage devoted to any such crop shall be at a rate determined by the Secretary to be fair and reasonable taking into consideration the use of such acreage for the production of such crop or crops. That in no event shall the payment exceed one-half the rate which otherwise would be applicable if such acreage were devoted to conservation uses.

(f) Additional terms and conditions

The program formulated pursuant to subsection (h) of this section may include such terms and conditions, including provision for the control of erosion, in addition to those specifically provided for herein, as the Secretary determines are desirable to effectuate the purposes of this section.

(g) Regulations

The Secretary is authorized to promulgate such regulations as may be desirable to carry out the provisions of this section.

(h) Commodity Credit Corporation funds and authorization of appropriations for payments and administrative expenses

The Commodity Credit Corporation is authorized to utilize its capital funds and other assets for the purpose of making the payments authorized in this section and to pay administrative expenses necessary in carrying out this section during the period ending June 30, 1965. There is authorized to be appropriated such amounts as may be necessary thereafter to pay such administrative expenses.

(a) Notwithstanding any other provision of law, the Secretary shall permit any producer who is participating in the wheat program under title IV of this Act, in the feed grain program under title V of this Act, or in the cotton program under title VI of this Act, in any year in which an acreage diversion or set-aside program is in effect, under any such program in which such producer is participating, subject to the conditions prescribed in subsection (b) of this section, to plant and harvest hay from 25 per centum of the acreage on the farm diverted from production under such programs or twenty-five acres, whichever is greater.

(b) Any producer who elects to plant and harvest hay on diverted or set aside acreage pursuant to this section shall first agree not to use any such hay harvested from such acreage unless authorized to do so by the Secretary.

(c) When any diverted or set aside acreage has been planted and harvested under authority of this section, the hay harvested therefrom shall be baled and stored in sealed storage on the farm in accordance with such regulations as the Secretary may prescribe and shall be available only for use during periods of emergency declared by the Secretary. § 1340  Supplemental provisions relating to wheat marketing quotas; marketing penalty for rice; crop loans on cotton, wheat, rice, tobacco, and peanuts

Notwithstanding the other provisions of this chapter—

(1) The farm marketing quota for any crop of wheat shall be the actual production of the acreage planted to such crop of wheat on the farm less the farm marketing excess. The farm marketing excess shall be an amount equal to twice the projected farm yield multiplied by the number of acres of such crop of wheat on the farm in excess of the farm acreage allotment for such crop unless the producer, in accordance with regulations issued by the Secretary and within the time prescribed therein, establishes to the satisfaction of the Secretary the actual production of such crop of wheat on the farm. If such actual production is so established, the farm marketing excess shall be an amount equal to the actual production of the number of acres of wheat on the farm in excess of the farm acreage allotment for such crop. In determining the farm marketing quota and farm marketing excess, any acreage of wheat remaining after the date prescribed by the Secretary for the disposal of excess acres of wheat shall be included as acreage of wheat on the farm, and the production thereof shall be appraised in such manner as the Secretary determines will provide a reasonably accurate estimate of such production. Any acreage of wheat disposed of in accordance with regulations issued by the Secretary prior to such date as may be prescribed by the Secretary shall be excluded in determining the farm marketing quota and farm marketing excess. Self-seeded (volunteer) wheat shall be included in determining the acreage of wheat. Marketing quotas for any marketing year shall be in effect with respect to wheat harvested in the calendar year in which such marketing year begins notwithstanding that the wheat is marketed prior to the beginning of such marketing year.

(2) Whenever farm marketing quotas are in effect with respect to any crop of wheat, the producers on a farm shall be subject to a penalty on the farm marketing excess of wheat at a rate per bushel equal to 65 per centum of the parity price per bushel of wheat as of May 1 of the calendar year in which the crop is harvested. Each producer having an interest in the crop of wheat on any farm for which a farm marketing excess of wheat is determined shall be jointly and severally liable for the entire amount of the penalty on the farm marketing excess.

(3) The farm marketing excess for wheat shall be regarded as available for marketing, and the penalty and the storage amount or amounts to be delivered to the Secretary of the commodity shall be computed upon twice the normal production of the excess acreage. Where, upon the application of the producer for an adjustment of penalty or of storage, it is shown to the satisfaction of the Secretary that the actual production of the excess acreage is less than twice the normal production thereof, the difference between the amount of the penalty or storage as computed upon the basis of twice the normal production and as computed upon the basis of actual production shall be returned to or allowed the producer. The Secretary shall issue regulations under which the farm marketing excess of the commodity for the farm may be stored or delivered to him. Upon failure to store or deliver to the Secretary the farm marketing excess within in such time as may be determined under regulations prescribed by the Secretary, the penalty computed as aforesaid shall be paid by the producer. Any wheat delivered to the Secretary hereunder shall become the property of the United States or in foreign countries or in such other manner as he shall determine will divert it from the normal channels of trade and commerce.

(4) Until the producers on any farm store, deliver to the Secretary, or pay the penalty on, the farm marketing excess of any crop of wheat, the entire crop of wheat produced on the farm and any subsequent crop of wheat subject to marketing quotas in which the producer has an interest shall be subject to a lien in favor of the United States for the amount of the penalty. The Secretary shall issue regulations under which the farm marketing excess of wheat is determined shall be jointly and severally liable for the entire amount of the penalty on the farm marketing excess.

(5) The penalty upon wheat stored shall be paid by the producer at the time, and to the extent, of any depletion in the amount of the commodity so stored, except depletion resulting from some cause beyond the control of the producer.

(6) Whenever the planted acreage of the then current crop of wheat on any farm is less than the farm acreage allotment for such commodity, the total amount of the commodity from any previous crops required to be stored in order to postpone or avoid payment of penalty shall be reduced by that amount which is equal to the normal production of the number of acres by which the farm acreage allotment exceeds the planted acreage. The provisions of section 1326(b) and (c) of this title shall be applicable also to wheat.

(7) Until the farm marketing excess of wheat is stored or delivered to the Secretary or the penalty thereon is paid, each bushel of the commodity produced on the farm which is sold by the producer to any person within the United States shall be subject to the penalty as specified in paragraph (2) of this section. Such penalty shall be paid by the buyer, who...
may deduct an amount equivalent to the penalty from the price paid to the producer. If the buyer fails to collect such penalty, such buyer and all persons entitled to share in the wheat marketed from the farm or the proceeds thereof shall be jointly and severally liable for such penalty.

(8) The marketing penalty for rice produced in the calendar year in which any marketing year begins (if beginning with or after the 1941–1942 marketing year) shall be at a rate equal to 80 per centum of the basic rate of the loan for cooperators for such marketing year under section 1302 of this title and this section.

(9) Omitted.

(10) The provisions of this section are amendatory of and supplementary to this chapter, and all provisions of law applicable in respect of marketing quotas and loans under such chapter as so amended and supplemented shall be applicable, but nothing in this section shall be construed to amend or repeal sections 1301(b)(6), 1323(b), or 1335(d) of this title.

(11) The persons liable for the payment or collection of the penalty on any amount of wheat shall be liable also for interest thereon at the rate of 6 per centum per annum from the date the penalty becomes due until the date of payment of such penalty.

(12) If marketing quotas for wheat are not in effect for any marketing year, all previous marketing quotas applicable to wheat shall be terminated, effective as of the first day of such marketing year. Such termination shall not abate any penalty previously incurred by a producer or relieve any buyer of the duty to remit penalties previously collected by him.

CODIFICATION
Section was not enacted as part of the Agricultural Adjustment Act of 1938 which comprises this chapter.

1965—Par. (1). Pub. L. 89–321 substituted “projected farm yield” for “normal yield of wheat per acre established for the farm”.

1962—Par. (1). Pub. L. 87–703, § 319(1), substituted required that computation of the farm marketing excess initially be double the farm normal yield of wheat times the excess acres, such excess acres being reduced to the actual yield times the excess acres, upon proof by the producer of the actual yield, for provision that the farm marketing excess could not be more than the actual production of wheat on the farm less the normal production of the farm acreage allotment and provided that the acreage of wheat not disposed of by the prescribed date would be considered wheat acreage, with the wheat production thereon appraised for the purposes of determining the farm marketing quota and farm marketing excess, that wheat acreage disposed of prior to the disposal date would not be considered acreage and that the acreage of volunteer wheat not disposed of would be considered wheat acreage.

Par. (2). Pub. L. 87–703, § 319(2), increased from 45 to 65 per centum the rate of penalty on farm marketing excess and provided for joint and several liability for such penalty.

Par. (3). Pub. L. 87–703, § 319(3), required computation of the farm marketing excess initially upon twice the normal yield and eliminated reference to corn. Act Aug. 28, 1954, had made the section in applicable to corn.

Par. (4). Pub. L. 87–703, § 319(4), inserted “and any subsequent crop of wheat subject to marketing quotas in which the producer has an interest” after “produced on the farm” and struck out reference to corn. Act Aug. 28, 1954, had made the section inapplicable to corn.

Par. (7). Pub. L. 87–703, § 319(7), (8), redesignated par. (8) as (7), and inserted provision for joint and several liability for penalty and struck out reference to corn, respectively. Act Aug. 28, 1954, had made section inapplicable to corn. Provisions of former par. (7), which provided a 15-ace exemption and provided for a farm marketing quota on 1962 crop of wheat to any farm on which the acreage of wheat exceeded the smaller of (1) 13.5 acres, or (2) the highest number of acres actually planted to wheat on the farm for harvest in any of the calendar years 1959, 1960, or 1961, and provisions of former par. (7), added by Pub. L. 87–703, § 309, which provided for a farm marketing quota on 1963 crop of wheat to any farm on which the acreage of wheat exceeded the smaller of (1) 15 acres, or (2) the highest number of acres actually planted to wheat on the farm for harvest in any of the calendar years 1959, 1960, or 1961, or 1963 (provided by Pub. L. 87–801), were repealed by such section 319(7) and are covered by section 3135 of this title.

Par. (8) to (10). Pub. L. 87–703, § 319(7), redesignated pars. (9) to (11) as (8) to (10). Former par. (8) redesignated (7).

Par. (12). Pub. L. 87–703, § 319(9), added par. (12). Former par. (12), which limited farm marketing excess for any crop of wheat and provided for return to producer of difference between amount of penalty or storage as computed upon farm marketing excess before adjustment and as computed upon adjusted farm marketing excess, where a downward adjustment in amount of farm marketing excess was made, was repealed by such section 319(9).

1961—Par. (7). Pub. L. 87–128 authorized Secretary to prescribe regulations relating to the exemption of
farms from marketing quotas on any crop of wheat, specified the exemption for the 1962 crop and eliminated marketing penalty provisions relating to non-allotment farms under the Soil Conservation and Domestic Allotment Act.

1954—Act July 14, 1953, omitted penalty for marketing corn in excess of quotas and changed penalty for marketing wheat in excess of quotas from 50 per centum of basic loan rate on commodity for cooperators to 45 per centum of parity price.

1949—Par. (9), Act Aug. 29, 1949, struck out "cotton and" after "penalty for".

1941—Par. (10). Act Dec. 26, 1941, ch. 626, substituted "1941, 1942, 1943, 1944, 1945, and 1946 crops of the commodities cotton, corn, wheat, rice, tobacco and peanuts" for "1941 crop of the commodities cotton, corn, wheat, rice, or tobacco and "for the marketing year beginning in the calendar year in which such crop is harvested" for "marketing year beginning in 1941."

(Act Dec. 20, 1941, ch. 636, added par. (12).)

§1344. Apportionment of national acreage allotments

(a) Basis

Whenever a national marketing quota is proclaimed under section 1342 of this title, the Secretary shall determine and proclaim a national acreage allotment for the crop of cotton to be produced in the next calendar year. The national acreage allotment for cotton shall be that acreage, based upon the national average yield per acre of cotton for the four years immediately preceding the calendar year in which the national marketing quota is proclaimed, required to make available from such crop an amount of cotton equal to the national marketing quota.

(b) Apportionment among States for year 1953 and subsequent years; adjustment; national acreage reserve

The national acreage allotment for cotton for 1953 and subsequent years shall be apportioned to the States on the basis of the acreage planted to cotton (including the acreage regarded as having been planted to cotton under the provisions of Public Law 12, Seventy-ninth Congress) during the five calendar years immediately preceding the calendar year in which the national marketing quota is proclaimed, with adjustments for abnormal weather conditions during such period: Provided, That there is established a national acreage reserve consisting of three hundred and ten thousand acres which shall be in addition to the national acreage allotment; and such reserve shall be apportioned to the States on the basis of their needs for additional acreage for establishing minimum farm allotments under subsection (f)(1) of this section, as determined by the Secretary without regard to State and county acreage reserves (except that the amount apportioned to Nevada shall be one thousand acres). For the 1960 and succeeding crops of cotton, the needs of States (other than Nevada) for such additional acreage for such purpose may be estimated by the Secretary, after taking into consideration such needs as determined or estimated for the preceding crop of cotton and the size of the national acreage allotment for such crop. The additional acreage so apportioned to the State shall be apportioned to the counties on the basis of the needs of the counties for such additional acreage for such purpose, and added to the county acreage allotment for apportionment to farms pursuant to subsection (f) of this section (except that no part of such additional acreage shall be used to increase the county reserve above 15 per centum of the county allotment determined without regard to such additional acreage). Additional acreage apportioned to a State for any year under the foregoing proviso shall not be taken into account in establishing future State acreage allotments. Needs for additional acreage under the foregoing provisions and under the last proviso in subsection (e) of this section shall be determined or estimated as though allotments were first computed without regard to subsection (f)(1) of this section.
§ 1344

The national acreage allotments for cotton for the years 1950 and 1951 shall be apportioned to the States on the basis of a national acreage allotment base of twenty-two million five hundred thousand acres, computed and adjusted as follows:

(1) The average of the planted acreages (including acreage regarded as planted under the provisions of Public Law 12, Seventy-ninth Congress) in the States for the years 1945, 1946, 1947, and 1948 shall constitute the national base; except that in the case of any State having a 1948 planted cotton acreage of over one million acres and less than 50 per centum of the 1943 allotment, the average of the acreage planted (or regarded as planted under Public Law 12, Seventy-ninth Congress) for the years 1944, 1945, 1946, 1947, and 1948 shall constitute the base for such State and shall be included in computing the national base; to this is to be added (A) the estimated additional acreage for each State required for small-farm allotments under subsection (f)(1) of this section; (B) the acreage required as a result of the State adjustment provisions of paragraph (2) of this subsection; (C) the additional acreage required to determine a total national allotment base of twenty-two million five hundred thousand acres, which additional acreage shall be distributed on a proportionate basis among States receiving no adjustment under paragraph (2) of this subsection.

(2) Notwithstanding the provisions of paragraph (1) of this subsection, the acreage allotment base for 1950 and 1951 for any State (on the basis of a national acreage allotment base of twenty-two million five hundred thousand acres) shall not be less than the larger of (1) 95 per centum of the average acreage actually planted to cotton in the State during the years 1947 and 1948, or (2) 85 per centum of the acreage planted to cotton in the State in 1948.

(3) If the national acreage allotment for 1950 or 1951 is more or less than twenty-two million five hundred thousand acres, horizontal adjustments shall be made proportionately by States so as to reflect the ratio of the national acreage allotment for 1950 and 1951 to twenty-two million five hundred thousand acres.

(d) Apportionment for year 1952; adjustment

The national acreage allotment for cotton for 1952 shall be apportioned to States on the basis of the acreage planted to cotton (including the acreage regarded as having been planted to cotton under the provisions of Public Law 12, Seventy-ninth Congress) during the years 1946, 1947, 1948, and 1950, with adjustments for abnormal weather conditions during such period.

(e) Apportionment among counties; reservation of acreage; additional acreage for establishing minimum farm allotments

The State acreage allotment for cotton shall be apportioned to counties on the same basis as to years and conditions as is applicable to the State under subsections (b), (c), and (d) of this section: Provided, That the State committee may reserve not to exceed 10 per centum of its State acreage allotment (15 per centum if the State’s 1948 planted acreage was in excess of one million acres and less than half its 1943 allotment) which shall be used to make adjustments in county allotments for trends in acreage, for counties adversely affected by abnormal conditions affecting plantings, or for small or new farms, or to correct inequities in farm allotments and to prevent hardship: Provided further, That if the additional acreage allocated to a State under the proviso in subsection (b) of this section is less than the requirements as determined or estimated by the Secretary for establishing minimum farm allotments for the State under subsection (f)(1) of this section, the acreage reserved under this subsection shall not be less than the smaller of (1) the remaining acreage so determined or estimated to be required for establishing minimum farm allotments or (2) 3 per centum of the State acreage allotment; and the acreage which is required to be reserved under this proviso shall be allocated to counties on the basis of their needs for additional acreage for establishing minimum farm allotments under this section, and added to the county acreage allotment for apportionment to farms pursuant to subsection (f) of this section (except that no part of such additional acreage shall be used to increase the county reserve above 15 per centum of the county allotment determined without regard to such additional acreages).

(f) Apportionment among farms

The county acreage allotment, less not to exceed the percentage provided for in paragraph 3 of this section, shall be apportioned to farms on which cotton has been planted (or regarded as having been planted under the provisions of Public Law 12, Seventy-ninth Congress) in any one of the three years immediately preceding the year for which such allotment is determined on the following basis:

(1) Insofar as such acreage is available, there shall be allotted the smaller of the following: (A) ten acres; or (B) the acreage allotment established for the farm for the 1956 crop.

(2) The remainder shall be allotted to farms other than farms to which an allotment has been made under paragraph (1)(A) of this subsection so that the allotment to each farm under this paragraph together with the amount of the allotment to such farm under paragraph (1)(A) of this subsection shall be a prescribed percentage (which percentage shall be the same for all such farms in the county or administrative area) of the acreage, during the preceding year, on the farm which is tilled annually or in regular rotation, excluding from such acreages the acres devoted to the production of sugarcane for sugar; sugar beets for sugar; wheat, tobacco, or rice for market; peanuts picked and threshed; wheat or rice for feeding to livestock for market; or lands determined to be devoted primarily to orchards or vineyards, and nonirrigated lands in irrigated areas: Provided, however, That if a farm would be allotted under this paragraph an acreage together with the amount of the allotment to such farm under paragraph (1)(A) of this subsection in excess of the largest acreage
planted (and regarded as planted under Public Law 12, Seventy-ninth Congress) to cotton during any of the preceding three years, the acreage allotment for such farm shall not exceed such largest acreage so planted (and regarded as planted under Public Law 12, Seventy-ninth Congress) in any such year.

(3) The county committee may reserve not in excess of 15 per centum of the county allotment (15 per centum if the State’s 1948 planted cotton acreage was in excess of one million acres and less than half its 1943 allotment) which, in addition to the acreage made available under the proviso in subsection (e) of this section, shall be used for (A) establishing allotments for farms on which cotton was not planted (or regarded as planted under Public Law 12, Seventy-ninth Congress) during any of the preceding three years; and (B) making adjustments of the farm acreage allotments established under paragraphs (1) and (2) of this subsection so as to establish allotments which are fair and reasonable in relation to the factors set forth in this paragraph and abnormal conditions affecting the production of cotton and other physical facilities affecting the production of cotton and other crops, and (C) making adjustments in farm acreage allotments to correct inequities and to prevent hardship: Provided, That not less than 20 per centum of the acreage reserved under this subsection shall, to the extent required, be allotted, upon such basis as the Secretary deems fair and reasonable to farms (other than farms to which an allotment has been made under paragraph (1)(B) of this subsection), if any, to which an allotment of not exceeding fifteen acres may be made under other provisions of this subsection.

(4) Any part of the acreage allotted for 1950 to individual farms in any county under the provisions of this section which will not be planted to cotton and which is voluntarily surrendered to the county committee shall be deducted from the allotments to such farms and may be reapportioned by the county committee to other farms in the same county receiving allotments to the extent necessary to provide such farms with the allotments authorized under paragraph (5) of this subsection. If any acreage remains after providing such allotments, it may be apportioned in amounts determined by the county committee to be fair and reasonable to other farms in the same county receiving allotments which the county committee determines are inadequate and not representative in view of their past production of cotton and to new farms in such county. No allotment shall be made, or increased, by reason of this paragraph to an acreage in excess of 40 per centum of the acreage on the farm which is tilled annually or in regular rotation, as determined under regulations prescribed by the Secretary. The additional acreage required to be allotted to farms under this paragraph shall not exceed fifteen acres.

(5) Notwithstanding any other provision of law and without reducing any farm acreage allotment determined pursuant to the foregoing provisions of this section, each farm acreage allotment for 1950 shall be increased by such amount as may be necessary to provide an allotment equal to the larger of 65 per centum of the average acreage planted to cotton (or regarded as planted to cotton under the provisions of Public Law 12, Seventy-ninth Congress) on the farm in 1946, 1947, and 1948, or 45 per centum of the highest acreage planted to cotton (or regarded as planted to cotton under Public Law 12, Seventy-ninth Congress) on the farm in any one of such three years; but no such allotment shall be increased by reason of this provision to an acreage in excess of 10 per centum of the average acreage on the farm which is tilled annually or in regular rotation, as determined under regulations prescribed by the Secretary. An increase in any 1950 farm acreage allotment shall be made pursuant to this paragraph only upon application in writing by the owner or operator of the farm within such reasonable period of time (in no event less than fifteen days) as may be prescribed by the Secretary. The additional acreage required to be allotted to farms under this paragraph shall be in addition to the county, State, and national acreage allotments and the production from such acreage shall be in addition to the national marketing quota. The additional acreage authorized by this paragraph shall not be taken into account in establishing future State, county, and farm acreage allotments.

(6) Notwithstanding the provisions of paragraph (2) of the subsection, if the county committee recommends such action and the Secretary determines that such action will result in a more equitable distribution of the county allotment among farms in the county, the remainder of the county acreage allotment (after making allotments as provided in paragraph (1) of this subsection) shall be allotted to farms other than farms to which an allotment has been made under paragraph (1)(B) of this subsection so that the allotment to each farm under this paragraph together with the amount of the allotment of such farm under paragraph (1)(A) of this subsection shall be prescribed percentage (which percentage shall be the same for all such farms in the county) of the average acreage planted to cotton on the farm during the three years immediately preceding the year for which such allotment is determined, adjusted as may be necessary for abnormal conditions affecting plantings during such three-year period: Provided, That the Secretary deems fair and reasonable to farms (other than farms to which an allotment has been made under paragraph (1)(B) of this subsection), if any, to which an allotment of not exceeding fifteen acres may be made under other provisions of this subsection.
§ 1344

TITLE 7—AGRICULTURE

Page 600

any farm acreage allotment established under the provisions of this paragraph for any year to an acreage not in excess of 50 per centum of the cropland on the farm, as determined pursuant to the provisions of paragraph (2) of this subsection: Provided further, That any part of the county acreage allotment not apportioned under this paragraph by reason of the initial application of such 50 per centum limitation shall be added to the county acreage reserve under paragraph (3) of this subsection and shall be available for the purposes specified therein. If the county acreage allotment is apportioned among the farms of the county in accordance with the provisions of this paragraph, the acreage reserved under paragraph (3) of this subsection may be used to make adjustments so as to establish allotments which are fair and reasonable to farms receiving allotments under this paragraph in relation to the factors set forth in paragraph (3) of this subsection.

(7)(A) In the event that any farm acreage allotment is less than that prescribed by paragraph (1) of this subsection, such acreage allotment shall be increased to the acreage prescribed by said paragraph (1). The additional acreage required to be allotted to farms under this paragraph shall be in addition to the county, State, and national acreage allotments and the production from such acreage shall be in addition to the national marketing quota.

(B) Notwithstanding any other provision of law—

(i) the acreage by which any farm acreage allotment for 1959 or any subsequent crop established under paragraph (1) of this subsection exceeds the acreage which would have been allotted to such farm if its allotment had been computed on the basis of the same percentage factor applied to other farms in the county under paragraph (2), (6), or (8) of this subsection shall not be taken into account in establishing the acreage allotment for such farm for any crop for which acreage is allotted to such farm under paragraph (2), (6), or (8) of this subsection; and acreage shall be allotted under paragraph (2), (6), or (8) of this subsection to farms which did not receive 1958 crop allotments in excess of ten acres if and only if the Secretary determines (after considering the allotments to other farms in the county for such crop compared with their 1958 allotments and other relevant factors) that equity and justice require the allotment of additional acreage to such farm under paragraph (2), (6), or (8) of this subsection.

(ii) the acreage by which any county acreage allotment for 1959 or any subsequent crop is increased from the national or State reserve on the basis of its needs for additional acreage for establishing minimum farm allotments shall not be taken into account in establishing future county acreage allotments, and

(iii) the additional acreage allotted pursuant to subparagraph (A) of this paragraph (7) shall not be taken into account in establishing future State, county, or farm acreage allotments.

(8) Notwithstanding the foregoing provisions of paragraphs (2) and (6) of this subsection, the Secretary shall, if allotments were in effect the preceding year, provide for the county acreage allotment for the 1959 and succeeding crops of cotton, less the acreage reserved under paragraph (3) of this subsection, to be apportioned to farms on which cotton has been planted in any one of the three years immediately preceding the year for which such allotment is determined, on the basis of the farm acreage allotment for the year immediately preceding the year for which such apportionment is made, adjusted as may be necessary (i) for any change in the acreage of cropland available for the production of cotton, or (ii) to meet the requirements of any provision (other than those contained in paragraphs (2) and (6)) with respect to the counting of acreage for history purposes: Provided, That, beginning with allotments established for the 1961 crop of cotton, if the acreage actually planted (or regarded as planted under the Soil Bank Act, the environmental quality incentives program established under chapter 4 of subtitle D of title XII of the Food Security Act of 1985 [16 U.S.C. 3839aa et seq.], and the release and reapportionment provisions of subsection (m) (2) of this section) to cotton on the farm in the preceding year was less than 75 per centum of the farm allotment for such year or, in the case of a farm which qualified for price support on the crop produced in such year under section 1444(b) of this title, 75 per centum of the farm domestic allotment established under section 1350 of this title for such year, whichever is smaller, in lieu of using such allotment as the farm base as provided in this paragraph, the base shall be the average of (1) the cotton acreage for the farm for the preceding year as determined for purposes of this proviso and (2) the allotment established for the farm pursuant to the provisions of this subsection for such preceding year; and the 1958 allotment used for establishing the minimum farm allotment under paragraph (1) of this subsection shall be adjusted to the average acreage so determined. The base for a farm shall not be adjusted as provided in this paragraph if the county committee determines that failure to plant at least 75 per centum of the farm allotment was due to conditions beyond the control of producers on the farm. The Secretary shall establish limitations to prevent allocations of allotment to farms not affected by the foregoing proviso, which would be excessive on the basis of the cropland, past cotton acreage, allotments for other commodities, and good soil conservation practices on such farms.

(g) Law and conditions governing establishment of acreage allotments and yields

Notwithstanding the foregoing provisions of this section—

(1) State, county, and farm acreage allotments and yields for cotton shall be established in conformity with section 1344a of this title.
(2) In apportioning the county allotment among the farms within the county, the Secretary, through the local committees, shall take into consideration different conditions within separate administrative areas within a county if any exist, including types, kinds, and productivity of the soil so as to prevent discrimination among the administrative areas of the county.

(i) Excess planting; old and new farm allotment

Notwithstanding any other provision of this chapter, any acreage planted to cotton in excess of the farm acreage allotment shall not be taken into account in establishing State, county, and farm acreage allotments. Notwithstanding any other provision of this chapter, beginning with the 1960 crop the planting of cotton on a farm in any of the immediately preceding three years that allotments were in effect but no allotment was established for such farm for any year of such three-year period shall not make the farm eligible for an allotment as an old farm under subsection (f) of this section: Provided, however, That by reason of such planting the farm need not be considered as ineligible for a new farm allotment under subsection (f)(3) of this section.

(j) Availability of records for inspection

Notwithstanding any other provision of this chapter, State and county committees shall make available for inspection by owners or operators of farms receiving cotton acreage allotments all records pertaining to cotton acreage allotments and marketing quotas.

(k) Minimum allotments to States

Notwithstanding any other provision of this section except subsection (g)(1) of this section, there shall be allotted to each State for which an allotment is made under this section not less than the smaller of (A) four thousand acres or (B) the highest acreage planted to cotton in any one of the three calendar years immediately preceding the year for which the allotment is made.

(l) Administration of law governing war crops

Notwithstanding any other provision of law, the Secretary, in administering the provisions of Public Law 12, Seventy-ninth Congress, as it relates to war crops, shall carry out the provisions of such Act in the following manner:

(i) A survey shall be conducted of every farm which had a 1942 cotton acreage allotment, and of such other farms as the Secretary considers necessary in the administration of Public Law 12. This survey shall obtain for each farm the most accurate information possible on (a) the total acreage in cultivation, and (b) the acreage of individual crops planted on each farm in the years 1941, 1945, 1946, and 1947.

(ii) An eligible farm for war-crop credit shall be a farm on which (a) the cotton acreage on the farm in 1945, 1946, or 1947, was reduced below the cotton acreage planted on the farm in 1941; (b) the war-crop acreage on the farm in 1945, 1946, or 1947, was increased above the war-crop acreage on the farm in 1941; and (c) the farm had a cotton acreage allotment in 1942.

(iii) A farm shall be regarded as having planted cotton (in addition to the actual acreage planted to cotton) to the extent of the lesser of (a) the reduction in cotton acreage for each of the years 1945, 1946, and 1947, below the acreage planted to cotton in 1941, or (b) the increase in war crops for each of the years 1945, 1946, and 1947, above that planted to such war crops in 1941. However, the county committee may be given the discretion to adjust such war-crop credit when the county committee determines that the reduction in cotton acreage was not related to an increase in war crops, but the adjustment shall be made only after consultation with the producer.

(iv) The Secretary, using the best information obtainable, and working with and through the State and county committees, shall use whatever means necessary to make an accurate determination of the credits due each individual farm, under Public Law 12.

(v) The total of the war-crop credits due the individual farms in each county shall be credited to the county and the total of the war-crop credits due all of the counties in a State shall be credited to the State.

(vi) The acreage credited to States, counties, and farms for the years 1945, 1946, or 1947, because of war crops, shall be taken into full account in the determination and distribution of cotton acreage allotments on a national, State, county, and farm basis.

(m) Acreage allotments, 1954; increases; apportionments; limitations; unallotted farm acreage; reapportionment of surrendered acreage; extra long staple cotton; reserve acreage

Notwithstanding any other provision of law—

(1) The national acreage allotment established under subsection (a) of this section for the 1954 crop of cotton shall be increased to twenty-one million acres and apportioned to the States in the same manner in which the national acreage allotment heretofore established for 1954 was apportioned to the States. In addition to such increased national acreage allotment, and in order to provide equitable adjustments in 1954 farm acreage allotments, (A) three hundred and fifteen thousand additional acres shall be prorated as follows: one-half to the States of Arizona, California, and New Mexico, and one-half to the other States (excluding those which receive a minimum allotment under subsection (k) of this section), the proration of each half being made to the States participating therein on the basis of their respective shares of the increased national acreage allotment, and (B) such additional acreage shall be added as may be required to provide each State a total allotment under subsection (b) of this section and the provisions of this paragraph of not less than sixty-six per centum of the acreage planted to cotton in the State in 1952. The additional acreage made available to States under clause (B) of the preceding sentence shall not be taken into account in establishing future State acreage allotments. The additional acreage made available to States under the provisions of this paragraph shall be apportioned to counties on the basis of their respective shares of the
§ 1344

State acreage allotment heretofore apportioned pursuant to subsection (e) of this section, and the additional acreage shall be apportioned to farms pursuant to the provisions of subsection (f) of this section: Provided, That, if the county committee determines that such action will result in a more equitable distribution of the additional county allotment among farms in the county, the additional acreage shall be apportioned by the county committee to farms so as to provide each farm with an allotment equal to the larger of 65 per centum of the average acreage planted to cotton on the farm in 1951, 1952, and 1953 (as determined by the county committee in establishing allotments under subsection (f) of this section) or 40 per centum of the highest acreage planted to cotton on the farm in any one of such three years as so determined: Provided, That the State committee in each State shall limit such increase based on the system of farming, soil, crop-rotation practices, and other physical factors affecting production in such State, to an acreage not in excess of 5 per centum of the cropland on the farm, as determined under regulations herefore prescribed by the Secretary. If the additional acreage is insufficient to meet the total of the farm increases so computed, such farm increases shall be reduced pro rata to the additional acreage available to the county; if the additional acreage available to the county is in excess of the total of the farm increases so computed the acreage remaining after making such increases shall be allotted to farms pursuant to the provisions of subsection (f)(3) of this section. Notwithstanding the foregoing provisions of this paragraph, if the county committee determines that such action will result in a more equitable distribution of the additional acreage made available to the State under this paragraph it shall apportion such additional allotment directly to farms so as to provide each farm with an allotment equal to the larger of 65 per centum of the average acreage planted to cotton on the farm in 1951, 1952, and 1953 (as determined by the county committee in establishing allotments under subsection (f) of this section) or 40 per centum of the highest acreage planted to cotton on the farm in any one of such three years as so determined: Provided, That if the total of the farm increases so computed exceeds the additional acreage made available to the State under this paragraph, such farm increases shall be reduced pro rata to the additional acreage available to the State. Any acreage unallotted to farms because of the limitations contained in the preceding sentence shall be apportioned by the State committee to counties on the basis of past acreages planted to cotton and shall be used by county committees for adjustments in farm allotments on the basis of one or more of the following: The past acreage of cotton on the farm, the percentage of cropland heretofore determined under subsection (f)(2) of this section, and the factors enumerated in subsection (f)(3) of this section. Before apportioning such unallotted acreage to counties as provided in the foregoing sentence, the State committee may, if it determines that such action is required to provide equitable allotments within the State, apportion such unallotted acreage directly to farms to the extent required to provide each farm with the minimum allotment described in subsection (f)(1) of this section. Any part of the county allotment heretofore established for the 1954 crop which was not apportioned to farms because of the limitation contained in the provision in subsection (f)(2) of this section shall be available to the State committee and used as provided above for apportionment of unallotted acreage to farms. The provisions of this subsection, except paragraph (2) of this subsection, shall not apply to extra long staple cotton covered by section 1347 of this title. (2) Any part of any farm cotton acreage allotment on which cotton will not be planted and which is voluntarily surrendered to the county committee shall be deducted from the allotment to such farm and may be reapportioned by the county committee to other farms in the same county receiving allotments in amounts determined by the county committee to be fair and reasonable on the basis of past acreage of cotton land, labor, equipment available for the production of cotton, crop rotation practices, and soil and other physical facilities affecting the production of cotton. If all of the allotted acreage voluntarily surrendered is not needed in the county, the county committee may surrender the excess acreage to the State committee to be used for the same purposes as the State acreage reserve under subsection (e) of this section. Any allotment released under this provision shall be regarded for the purposes of establishing future allotments as having been planted on the farm and in the county where the release was made rather than on the farm and in the county to which the allotment was transferred, except that this shall not operate to make the farm from which the allotment was transferred eligible for an allotment as having cotton planted thereon during the three-year base period: Provided, That notwithstanding any other provisions of law, any part of any farm acreage allotment may be permanently released in writing to the county committee by the owner and operator of the farm, and reapportioned as provided herein. Acreage released under this paragraph shall be credited to the State in determining future allotments. The provisions of this paragraph shall apply also to extra long staple cotton covered by section 1347 of this title.

(3) Notwithstanding any other provision of this section or any other provision of law, the acreage allotted to any State for 1954 under the provisions of subsection (b) of this section and the provisions of paragraph (1) of this subsection which is less than one hundred thousand acres but more than thirty thousand
acres shall be increased by an acreage equal to 15 per centum of the acreage allotted to it prior to January 30, 1954. Such acreage shall be used by the State committee as a reserve to make equitable adjustments in 1954 farm acreage allotments on the basis of land, labor, equipment available for the production of cotton, crop-rotation practices, past acreages of cotton, soil, and other physical factors affecting the production of cotton.

(n) Transfer of farm cotton acreage allotments in case of natural disasters; eligibility for allotment

Notwithstanding any other provision of this chapter, if the Secretary determines for any year that because of a natural disaster a portion of the farm cotton acreage allotments in a county cannot be timely planted or replanted in such year, he may authorize for such year the transfer of all or a part of the cotton acreage allotment for any farm in the county so affected to another farm in the county or in an adjoining county on which one or more of the producers on the farm from which the transfer is to be made will be engaged in the production of cotton and will share in the proceeds thereof, in accordance with such regulations as the Secretary may prescribe. Any farm allotment transferred under this paragraph shall be deemed to be released acreage for purposes of acreage history credits under subsections (f)(8) and (m)(2) of this section, and section 1377 of this title: Provided, That, notwithstanding the provisions of subsection (m)(2) of this section, the transfer of any farm allotment under this subsection for any year shall operate to make the farm from which the allotment was transferred eligible for an allotment as having cotton planted thereon during the three-year base period.

AMENDMENTS

1961—Subsec. (n). Pub. L. 87-37 substituted “1961” for “1958”, and “Any farm allotment transferred under this paragraph shall be deemed to be released acreage for purposes of acreage history credits under subsections (f)(8) and (m)(2) of this section, and section 1377 of this title” for “Acreage history credits for transferred acreage shall be governed by the provisions of subsection (m)(2) of this section pertaining to the release and reapportionment of acreage allotments. No transfer hereunder shall be made to a farm covered by a 1958 acreage reserve contract for cotton.”

1959—Subsec. (f)(8). Pub. L. 86-172, §2(1), inserted proviso for base determination with beginning with allotments established for the 1961 crop of cotton, and inserted provisions prohibiting the adjustment of the base for a farm wherein the county committee determines that failure to plant at least 75 per centum of the farm allotment was due to conditions beyond control of the farmer, and requiring the Secretary to establish limitations to prevent allocations of allotment to farms not affected by proviso.

1958—Subsec. (g)(3). Pub. L. 86-172, §2(2), repealed par. (3) which provided that for any farm on which the acreage planted to cotton in any year was less than the farm acreage allotment for such year by not more than the larger of 10 per centum of the allotment or one acre, an acreage equal to the farm acreage allotment should be transferred eligible for an allotment as having cotton planted during the three-year period.

1954—Subsec. (m)(2). Pub. L. 86-172, §2(4), struck out “,” but no such acreage shall be surrendered to the State committee so long as any farmer receiving a cotton acreage allotment in such county desires additional cotton acreage allotments on the basis of land, labor, equipment available for the production of cotton, crop-rotation practices, past acreages of cotton, soil, and other physical factors affecting the production of cotton.
acres” after “subsection (e) of this section” and substituted “Any allotment released under this provision shall be regarded for the purpose of establishing future State allotments as having been planted on the farm and in the county where the release was made rather than on the farm and in the county to which the allotment was transferred” for “Any allotment transferred under this provision shall be regarded for the purposes of this section (f) of this section as having been planted on the farm from which transferred rather than on the farm to which transferred” and “Acreage released under this paragraph shall be apportioned to the State in determining future allotments” for “Acreage surrendered, reapportioned under this paragraph, and planted shall be credited to the State and county in determining future acreage allotments.”

Subsec. (b). Pub. L. 85–835, §104(a), established a national acreage reserve of 310,000 acres in addition to the national acreage allotment, provided that apportionments of additional acreage shall not be taken into account in establishing future State allotments, and inserted provisions for determination of needs for additional acreage.

Subsec. (e). Pub. L. 85–835, §104(b), inserted provision relating to additional acreage allocated to a State.

Subsec. (f)(1). Pub. L. 85–835, §104(c), substituted “(A) ten acres; or (B) the acreage allotment established for the farm for the 1958 crop” for “(A) four acres; or (B) the highest number of acres planted to cotton in any year of such three-year period”.

Subsec. (f)(6). Pub. L. 85–835, §104(d), substituted “provisions of paragraph (2) of this subsection” for “provisions of this subsection except paragraph (3) of this subsection”, “remainder of the county acreage allotment (after making allotments as provided in paragraph (1) of this subsection) shall be apportioned” for “county acreage allotment, less the acreage reserved under paragraph (3) of this subsection, shall be apportioned”, and inserted provisions requiring the allotments to be a prescribed percentage of the average acreage planted to cotton on the farm during the three years immediately preceding the year for which such allotment is determined.

Subsec. (m)(2). Pub. L. 85–835, §107, provided that any cotton acreage which is surrendered shall be retained by the county and not surrendered to the State committee so long as any farmer in the county desires additional cotton acreage.

Subsec. (h). Act May 28, 1956, §303(a), temporarily inserted “Provided, That there is hereby established a national acreage reserve consisting of one hundred thousand acres which shall be in addition to the national acreage allotment; and such reserve shall be apportioned to the States on the basis of their needs for additional acreage for establishing minimum farm allotments under subsection (f)(1) of this section, as determined by the Secretary without regard to State and county acreage reserves (except that the amount apportioned to Nevada shall be one thousand acres), and the additional acreage so apportioned to the State shall be apportioned to the counties on the same basis and added to the county acreage allotment for apportionment to farms pursuant to subsection (f) of this section (except that no part of such additional acreage shall be used to increase the county reserve above 15 per centum of the county allotment determined without regard to such additional acreage). Additional acreage apportioned to a State for any year under the foregoing provisions shall not be taken into account in establishing future State acreage allotments. Needs for additional acreage under the foregoing proviso and under the last proviso in subsection (e) of this section shall be determined as though allotments were first computed without regard to subsection (f)(1) of this section.” See Effective and Termination Dates of 1956 Amendment note below.

Subsec. (e). Act May 28, 1956, §303(b), temporarily inserted “Provided further, That if the additional acreage allocated to a State under the proviso in subsection (b) of this section is less than the requirements as determined by the Secretary for establishing minimum farm allotments for the State under subsection (f)(1) of this section, the acreage reserved by the State committee under this subsection shall not be less than the smaller of (1) the remaining acreage so determined to be required for establishing minimum farm allotments or (2) 3 per centum of the State acreage allotment; and the acreage which the State committee is required to reserve under this proviso shall be allocated to counties on the basis of their needs for establishing minimum farm allotments under subsection (f)(1) of this section, and added to the county acreage allotment for apportionment to farms pursuant to subsection (f)(3) of this section.” See Effective and Termination Dates of 1956 Amendment note below.

Subsec. (f)(1). Act May 28, 1956, §303(c), temporarily inserted “Insofar as such acreage is available,” substituted “four acres” for “five acres”, and struck out “(or regarded as planted under Public Law 12, Seventy-ninth Congress)” after “planted”. Subsec. (f)(6). Act May 28, 1956, §303(d), temporarily substituted “provisions of paragraph (2) of this subsection” for “foregoing provisions of this subsection except paragraph (3) of this subsection” and “the remainder of the county acreage allotment (after making allotments as provided in paragraph (1) of this subsection) shall be apportioned” for “county acreage allotment, less the acreage reserved under paragraph (3) of this subsection, shall be apportioned”, and inserted provisions requiring the allotments to be a prescribed percentage of the average acreage planted to cotton on the farm during the three years immediately preceding the year for which such allotment is determined.” for “the county acreage allotment, less the acreage reserved under paragraph (3) of this subsection, shall be apportioned to farms on which cotton has been planted in any one of the three years immediately preceding the year for which such allotment is determined, on the basis of the acreage planted to cotton on the farm during such three-year period, and struck out “(A) apportion such county allotment by first establishing minimum allotments in accordance with paragraph (1) of this subsection and by allotting the remaining acreage to farms other than those receiving an allotment under paragraph (1)(B) in accordance with the foregoing provisions of this paragraph and (B)” after “committee may in its discretion”. § 1344b. Sale, lease, or transfer of cotton acreage allotments

(a) Authority for calendar years 1966 through 1970; transfer periods

Notwithstanding any other provision of law, the Secretary, if he determines that it will not impair the effective operation of the program involved, (1) may permit the owner and operator of any farm for which a cotton acreage allotment is established to sell or lease all or any part of the farm, or the right to any or any part of such allotment (excluding that part of the allotment which the Secretary determines was apportioned to the farm from the national acreage reserve) to any other owner or operator of a farm for transfer to such farm; (2) may permit the owner of a farm to transfer all or any part of such allotment to any other farm owned or controlled by him; Provided, That the authority granted under this section may be exercised for the calendar years 1966 through 1970, but all transfers hereunder shall be for such period of years as the parties thereto may agree.

(b) Requisite conditions for transfer of acreage allotments

Transfers under this section shall be subject to the following conditions: (i) no allotment shall be transferred to a farm in another State or to a person for use in another State; (ii) no farm allotment may be sold or leased for transfer to a farm in another county unless the producers of cotton in the county from which transfer is being made have voted in a referendum within three years of the date of such transfer, by a two-thirds majority of the producers participating in such referendum, to permit the transfer of allotments to farms outside the county, which referendum, insofar as practicable, shall be held in conjunction with the marketing quota referendum for the commodity; (iii) no transfer of an allotment from a farm subject to a mortgage or other lien shall be permitted unless the transfer is agreed to by the lienholder; (iv) no sale of a farm allotment shall be permitted if any sale of cotton allotment to the same farm has been made within the three immediately preceding crop years; (v) the total cotton allotment for any farm to which allotment is transferred by sale or lease shall not exceed the farm acreage allotment (excluding reapportioned acreage) established for such farm for 1965 by more than one hundred acres; (vi) no cotton in excess of the remaining acreage allotment on the farm shall be planted on any farm from which the allotment (or part of an allotment) is sold for a period of five years following such sale, nor shall any cotton in excess of the remaining acreage allotment on the farm be planted on any farm from which the allotment (or part of an allotment) is leased during the period of such lease, and the producer on such farm shall so agree as a condition precedent to the Secretary's approval of any such sale or lease; and (vii) no transfer of allotment shall be effective until a record thereof is filed with the county committee of the county to which such transfer is made and such committee determines that the transfer complies with the provisions of this section. Such record may be filed with such committee only during the period beginning June 1 and ending December 31.

(c) Extent of estate transferred

The transfer of an allotment shall have the effect of transferring also the acreage history, farm base, and marketing quota attributable to such allotment and if the transfer is made prior to the determination of the allotment for any year the transfer shall include the right of the owner or operator to have an allotment determined for the farm for such year: Provided, That in the case of a transfer by lease, the amount of the allotment shall be considered for purposes of determining allotments after the expiration of the lease to have been planted on the farm from which such allotment is transferred.

(d) Period of ineligibility of land for new allotment

The land in the farm from which the entire cotton allotment and acreage history have been transferred shall not be eligible for a new farm cotton allotment during the five years following the year in which such transfer is made.

(e) Transfer of allotments established under minimum allotment provisions

The transfer of a portion of a farm allotment which was established under minimum farm allotment provisions for cotton or which operates to bring the farm within the minimum farm allotment provision for cotton shall cause the minimum farm allotment or base to be reduced to an amount equal to the allotment remaining on the farm after such transfer.

(f) Rules and regulations

The Secretary shall prescribe regulations for the administration of this section, which shall include provisions for adjusting the size of the allotment transferred if the farm to which the allotment is transferred has a substantially higher yield per acre and such other terms and conditions as he deems necessary.

(g) Adjustment upon transfer of land covered by conservation reserve contract

If the sale or lease occurs during a period in which the farm is covered by a conservation reserve contract, cropland conversion agreement, cropland adjustment agreement, or other similar land utilization agreement, the rates of payment provided for in the contract or agreement of the farm from which the transfer is made shall be subject to an appropriate adjustment, but no adjustment shall be made in the contract or agreement of the farm to which the allotment is transferred.

(h) Exchange of cotton acreage allotments for rice acreage allotments

The Secretary shall by regulations authorize the exchange between farms in the same county, or between farms in adjoining counties within a State, of cotton acreage allotment for rice acreage allotment. Any such exchange shall be made on the basis of application filed with the county committee by the owners and operators of the farms, and the transfer of allotment between the farms shall include transfer of the related acreage history for the commodity. The exchange shall be acre for acre or on such other basis as
the Secretary determines is fair and reasonable, taking into consideration the comparative productivity of the soil for the farms involved and other relevant factors. No farm from which the entire cotton or rice allotment has been transferred shall be eligible for an allotment of cotton or rice as a new farm within a period of five crop years after the date of such exchange.

(i) Applicability to cotton restricted to upland cotton

The provisions of this section relating to cotton shall apply only to upland cotton.

(1973—Subsec. (a). Pub. L. 93–86 struck out "for which a farm base acreage allotment is established (other than pursuant to section 1350(e)(1)(A) of this title)" after "to any other owner or operator of a farm" and substituted "‘1978’ for ‘1974’ for the farm acreage allotment between farms in same State. Penalties

(a) Whenever farm marketing quotas are in effect with respect to any crop of cotton, the producer shall be subject to a penalty on the farm marketing excess at a rate per pound equal to 50 per centum of the parity price per pound for cotton as of June 15 of the calendar year in which such crop is produced.

(b) The farm marketing excess of cotton shall be regarded as available for marketing and the

Farm marketing quotas; farm marketing excess

The farm marketing quota for any crop of cotton shall be the actual production of the acreage planted to cotton on the farm less the farm marketing excess. The farm marketing excess shall be the normal production of that acreage planted to cotton on the farm which is in excess of the farm acreage allotment: Provided, That such farm marketing excess shall not be larger than the amount by which the actual production of cotton on the farm exceeds the normal production of the farm acreage allotment, if the producer establishes such actual production to the satisfaction of the Secretary.

1948—Act July 3, 1948, changed conditions which must be determined by Secretary to exist before marketing quotas can be imposed.

Effective Date of 1948 Amendment

Amendment by act July 3, 1948, effective Jan. 1, 1950, see section 303 of act July 3, 1948, set out as a note under section 1301 of this title.
amount of penalty shall be computed upon the normal production of the acreage on the farm planted to cotton in excess of the farm acreage allotment. If a downward adjustment in the amount of the farm marketing excess is made pursuant to the proviso in section 1345 of this title, the difference between the amount of the penalty computed upon the farm marketing excess before such adjustment and as computed upon the adjusted farm marketing excess shall be returned to or allowed the producer.

(c) The person liable for payment or collection of the penalty shall be liable also for interest thereon at the rate of 6 per centum per annum from the date the penalty becomes due until the date of payment of such penalty.

(d) Until the penalty on the farm marketing excess is paid, all cotton produced on the farm and marketed by the producer shall be subject to the penalty provided by this section and a lien on the entire crop of cotton produced on the farm shall be in effect in favor of the United States.

Notwithstanding any other provision of this chapter, for the 1966 through 1970 crops of upland cotton, if the farm operator elects to forgo price support for any such crop of cotton by applying to the county committee of the county in which the farm is located for additional acreage under this subsection, he may plant an acreage not in excess of the farm acreage allotment established under section 1344 of this title plus the acreage apportioned to the farm from the national export market acreage reserve, and all cotton of such crop produced on the farm may be marketed for export free of any penalty under this section: Provided, That the foregoing shall be applicable only to farms which had upland cotton allotments for 1965 and are operated by the same operator as in 1965 or by his heir.

For the 1966 crop the national export market acreage reserve shall be 250,000 acres. For each subsequent crop—

If the carryover at the end of the marketing year for the preceding crop is estimated to be less than the carryover at the beginning of such marketing year by—

At least 1,000,000 bales ............... 250,000 acres.
At least 750,000 bales, but not as much as 1,000,000 bales. .... 187,500 acres.
At least 500,000 bales, but not as much as 750,000 bales. ........ 125,000 acres.
At least 250,000 bales, but not as much as 500,000 bales. ....... 62,500 acres.
Less than 250,000 bales ................ None.

The national export market acreage reserve shall be—

(1) 250,000 acres.
(2) 187,500 acres.
(3) 125,000 acres.
(4) 62,500 acres.
None.

The national export market acreage reserve shall be apportioned to farms by the Secretary on the basis of the applications therefor. No application shall be accepted for a greater acreage than is available on the farm for the production of upland cotton. After apportionments are thus made to farms, the Secretary shall provide farm operators a reasonable time in which to cancel their applications (and agreements to forgo price support) and surrender to the Secretary through the county committee the export market acreage assigned to the farm. Acreage so surrendered shall be available for reallocation by the Secretary to other eligible farms to which export market acreage has been apportioned on the basis of the applications remaining outstanding. The operator of any farm who elects to forgo price support for any such crop under this subsection shall not be eligible for price support on cotton of such crop produced on any other farm in which he has a controlling or substantial interest as determined by the Secretary. Acreage planted to cotton in excess of the farm acreage allotment established under section 1344 of this title shall not be taken into account in establishing future State, county, and farm acreage allotments. The operator of any farm to which export market acreage is apportioned, or the purchasers of cotton produced on such farm, shall, under regulations issued by the Secretary, furnish a bond or other undertaking prescribed by the Secretary providing for the transportation, without benefit of any Government-cotton export subsidy and within such time as the Secretary may specify, of all cotton produced on such farm for such year. The loan or other undertaking given pursuant to this subsection shall provide that, upon failure to comply with the terms and conditions thereof, the person furnishing such bond or other undertaking shall be liable for liquidated damages in an amount which the Secretary determines and specifies in such undertaking will approximate the amount payable on excess cotton under subsection (a) of this section. The Secretary may, in lieu of the furnishing of a bond or other undertaking, provide for the payment of an amount equal to that which would be payable as liquidated damages under such bond or other undertaking. If such bond or other undertaking is not furnished, or if payment in lieu thereof is not made as provided herein, at such time and in the manner required by regulations of the Secretary, or if the acreage planted to cotton on the farm exceeds the sum of the farm acreage allotment established under section 1344 of this title and the acreage apportioned to the farm from the national export market acreage reserve, the acreage planted to cotton in excess of the farm acreage allotment established under section 1344 of this title shall be regarded as excess acreage for purposes of this section and section 1345 of this title. Amounts collected by the Secretary under this subsection shall be remitted to the Commodity Credit Corporation.

1964—Act Aug. 29, 1964, amended section generally. Former provisions of section were covered by section 1345 of this title.

Section inapplicable to 1991 through 1994 crops of upland cotton, see section 601 of Pub. L. 95-113, set out as a note under section 1342 of this title.

Provided, That for the period beginning August 1 of the marketing year for the first crop for which price support is made available under section 1444(b) of this title, and ending July 31, 1966, such payments shall be made in an amount which will make upland cotton produced in the United States available for domestic use at a price which is not in excess of the price at which such cotton is made available for export. The Secretary may extend the period for performance of obligations incurred in connection with payments made for the period ending July 31, 1966, or may make payments on raw cotton in inventory on July 31, 1966, at the rate in effect on such date. No payments shall be made hereunder with respect to 1966 crop cotton.

Prior Provisions

Amendments

Inapplicability of Section

Section inapplicable to 2002 through 2007 crops of covered commodities, peanuts, and sugar and inapplicable to milk during period beginning May 13, 2002, through Dec. 31, 2007, see section 7992(a)(1) of this title.

Export market acreage

(a) Supplementary allotments for 1964 and 1965; acreage limitation; apportionment among States and farms; “export market acreage” on any farm; farm acreage allotment for farms with export acreage; additional allotment; establishment of future allotments without regard to export acreage; exclusion of extra-long staple cotton and farms receiving additional price support for 1964 and 1965

The acreage allotment established under the provisions of section 1344 of this title for each farm for the 1964 crop may be supplemented by the Secretary by an acreage equal to such percentage, but not more than 10 per centum, of such acreage allotment as he determines will not increase the carryover of upland cotton at the beginning of the marketing year for the next succeeding crop above one million bales less than the carryover on the same date one year earlier; if the carryover on such earlier date exceeds eight million bales. For the 1965 crop, the Secretary may, after such hearing and investigation as he finds necessary, announce an export market acreage which he finds will not increase the carryover of upland cotton at the be-
ginning of the marketing year for the next succeeding crop above one million bales less than the carryover on the same date one year earlier, if the carryover on such earlier date exceeds eight million bales. Such export market acreage shall be apportioned to the States on the basis of the State acreage allotments established under section 1344 of this title and apportioned by the States to farms receiving allotments under section 1344 of this title, pursuant to regulations issued by the Secretary, after considering applications for such acreage filed with the county committee of the county in which the farm is located. The “export market acreage” on any farm shall be the number of acres, not exceeding the maximum export market acreage for the farm established pursuant to this subsection, by which the acreage planted to cotton on the farm exceeds the farm acreage allotment. For purposes of sections 1345 and 1374 of this title and the provisions of any law requiring compliance with a farm acreage allotment as a condition of eligibility for price support or payments under any farm program, the farm acreage allotment for farms with export market acreage shall be the sum of the farm acreage allotment established under section 1344 of this title and the maximum export market acreage. Export market acreage shall be in addition to the county, State, and National acreage allotments and shall not be taken into account in establishing future State, county, and farm acreage allotments. The provisions of this section shall not apply to extra-long-staple cotton or to any farm which receives price support under section 1444(b) of this title.

(b) Bond, other undertaking, and lieu payments for exportation without subsidy and within specified period; terms and conditions; liquidated damages; farm acreage allotment upon noncompliance with conditions; remissions to CCC for defraying costs of encouraging export sales of cotton

The producers on any farm on which there is export market acreage or the purchasers of cotton produced thereon shall, under regulations issued by the Secretary, furnish a bond or other undertaking prescribed by the Secretary for payment of the exportation, without benefit of any Government cotton export subsidy and within such period of time as the Secretary may specify, of a quantity of cotton produced on the farm equal to the average yield for the farm multiplied by the export market acreage as determined pursuant to regulations issued by the Secretary. The bond or other undertaking given pursuant to this section shall provide that, upon failure to comply with the terms and conditions thereof, the person furnishing such bond or other undertaking shall be liable for liquidated damages in an amount which the Secretary determines and specifies in such undertaking will approximate the amount payable on excess cotton under section 1346(a) of this title. The Secretary may, in lieu of the furnishing of a bond or other undertaking, provide for the payment of an amount equal to that which would be payable as liquidated damages under such bond or other undertaking. If such bond or other undertaking is not furnished, or if payment in lieu thereof is not made as provided herein, at such time and in the manner required by regulations of the Secretary, or if the acreage planted to cotton on the farm exceeds the farm acreage allotment established under the provisions of section 1344 of this title by more than the maximum export market acreage, the farm acreage allotment shall be the acreage so established under section 1344 of this title. Amounts collected by the Secretary under this section shall be remitted to the Commodity Credit Corporation and used by the Corporation to defray costs of encouraging export sales of cotton under section 1351 of this title.

§1350. National base acreage allotment

(a) Establishment

The Secretary shall establish for each of the 1971 through 1977 crops of upland cotton a national base acreage allotment. Such national base acreage allotment shall be announced not later than November 15 of the calendar year preceding the year for which the national base acreage allotment is to be effective. The national base acreage allotment for any crop of cotton shall be the number of acres which the Secretary determines on the basis of the expected national yield will produce an amount of cotton equal to the estimated domestic consumption of cotton (standard bales of four hundred and eighty pounds net weight) for the marketing year beginning in the year in which the crop is to be produced, plus not to exceed 25 per centum thereof if the Secretary, taking into consideration other actions he may take under the Agricultural Act of 1970, determines that such additional amount is necessary to provide for a production which will equal the national cotton production goal, except that such national base acreage allotment shall be eleven million five hundred thousand acres for the 1971 crop and in the case of the 1972 through 1977 crops shall be in such amount as the Secretary

1 See References in Text note below.
determines necessary to maintain adequate supplies. The national base acreage allotment for the 1974 through 1977 crops shall not be less than eleven million acres.

(b) Apportionment to States

The national base acreage allotment for each crop of upland cotton shall be apportioned by the Secretary to the States on the basis of the acreage planted (including acreage regarded as having been planted) to upland cotton within the farm acreage allotment or the farm base acreage allotment, whichever is in effect, during the five calendar years immediately preceding the calendar year in which the national cotton production goal is proclaimed, with adjustments for abnormal weather conditions or other natural disaster during such period.

(c) Apportionment to Counties

The State base acreage allotment for each crop of upland cotton shall be apportioned to counties on the same basis as to years and conditions as is applicable to the State under subsection (b) of this section: Provided, That the State committee may reserve not to exceed 2 per centum of its State acreage allotment which shall be used to make adjustments in county allotments for trends in acreage, for counties adversely affected by abnormal conditions affecting plantings, or for small or new farms, or to correct inequities in farm allotments and to prevent hardships.

(d) Adjustment of Apportionment Bases for Counties

The Secretary shall adjust the apportionment base for each county as may be necessary because of transfers of allotments across county lines.

(e) Apportionment to Farms

(1) The county base acreage allotment for the 1971 crop shall be apportioned to old cotton farms in the county on the basis of the domestic acreage allotment established for the farm for the 1970 crop. For the 1972 and each subsequent crop of upland cotton the county base acreage allotment shall be apportioned to old cotton farms in the county on the basis of the farm base acreage allotment established for such farm for the preceding year. The county committee may reserve not in excess of 10 per centum of its State acreage allotment as having been distributed under this paragraph so as to establish allotments which are fair and reasonable in relation to the factors set forth in this paragraph and abnormal conditions of production on such farms, or in making adjustments in farm allotments to correct inequities and to prevent hardships. No part of such reserve shall be apportioned to a farm to reflect new cropland brought into production after November 30, 1970.

(2) If for any crop the total acreage of cotton planted on a farm is less than the farm base acreage allotment, the farm base acreage allotment used as a base for the succeeding crop shall be reduced by the percentage by which such planted acreage was less than such farm base acreage allotment, but such reduction shall not exceed 20 per centum of the farm base acreage allotment for the preceding crop. If not less than 90 per centum of the base acreage allotment for the farm is planted to cotton, the farm shall be considered to have an acreage planted to cotton equal to 100 per centum of such allotment. For purposes of this paragraph, an acreage on the farm which the Secretary determines was not planted to cotton because of drought, flood, other natural disaster, or a condition beyond the control of the producer shall be considered to be an acreage planted to cotton. For the purposes of this paragraph, the Secretary shall, in the event the Secretary permits producers of wheat or feed grains to have acreage devoted to soybeans, wheat, feed grains, guar, castor beans, triticale, oats, rye or such other crops as the Secretary may deem appropriate considered as devoted to the production of cotton to such extent and subject to such terms and conditions as the Secretary determines will not impair the effective operation of the cotton or soybean program.

(3) If no acreage is planted to cotton for any three consecutive crop years on any farm which had a farm base acreage allotment for such years, such farm shall lose its base acreage allotment.

(f) Surrender of Farm Base Acreage Allotments

Effective for the 1971 through 1977 crops, any part of any farm base acreage allotment on which upland cotton will not be planted and which is voluntarily surrendered to the county committee shall be deducted from the farm base acreage allotment for such farm and may be reapportioned by the county committee to other farms in the county or retained by the county committee to be used to make adjustments in farm base acreage allotments in amounts determined by the county committee to be fair and reasonable on the basis of past acreage of upland cotton, land, labor, equipment available for the production of upland cotton, crop rotation practices, and soil and other physical facilities affecting the production of upland cotton. If all of the acreage voluntarily surrendered is not needed in the county, the county committee may surrender the excess acreage to the State committee to be used to make adjustments in farm base acreage allotments for other farms in the State adversely affected by abnormal conditions affecting plantings or to correct inequities or to prevent hardship. Any farm base acreage allotment released under this provision shall be regarded for the purpose of establishing future farm base acreage allotments as having been planted on the farm and in the county where the release was made rather than on the farm and in the county to which the allotment was transferred: Provided, That, notwithstanding any other provision of law, any part of any farm base

§ 1350
acreage allotment for any crop year may be permanently released in writing to the county committee by the owner and operator of the farm and reapportioned as provided herein. Acreage released under this subsection shall be credited to the State in determining future allotments.

(g) Compliance with set-aside requirements

Any farm receiving any base acreage allotment through release and reapportionment or sale, lease, or transfer shall, as a condition to the right to receive such allotment, comply with the set-aside requirements of section 1444(e)(4) of this title applicable to such acreage as determined by the Secretary.

(h) Transfer of farm base acreage allotments not planted because of natural disaster or conditions beyond control of producer

Notwithstanding any other provision of this chapter, if the Secretary determines for any year that because of drought, flood, other natural disaster, or a condition beyond the control of the producer a portion of the farm base acreage allotment in a county cannot be timely planted or replanted in such year, he may authorize for such year the transfer of all or a part of such cotton acreage for any farm in the county so affected to another farm in the county or in any other nearby county on which one or more of the producers on the farm from which the transfer is to be made will be engaged in the production of upland cotton and will share in the proceeds thereof, in accordance with such regulations as the Secretary may prescribe. Any farm base acreage allotment transferred under this subsection shall be regarded as planted to upland cotton on the farm and in the county and State from which transfer is made for purposes of establishing future farm, county and State allotments.

Effective Date of 2008 Amendment

§ 1359bb. Flexible marketing allotments for sugar

(a) Sugar estimates

(1) In general

Not later than August 1 before the beginning of each of the 2008 through 2012 crop years for sugarcane and sugar beets, the Secretary shall estimate—

(A) the quantity of sugar that will be subject to human consumption in the United States during the crop year;

(B) the quantity of sugar that would provide for reasonable carryover stocks;

(C) the quantity of sugar that will be available from carry-in stocks for human consumption in the United States during the crop year;

(D) the quantity of sugar that will be available from the domestic processing of sugarcane, sugar beets, and in-process beet sugar;

(E) the quantity of sugars, syrups, and molasses that will be imported for human consumption or to be used for the extraction of sugar for human consumption in the United States during the crop year, whether the articles are under a tariff-rate quota or are in excess or outside of a tariff-rate quota.

(2) Exclusion

The estimates under this subsection shall not apply to sugar imported for the production of polyhydric alcohol or to any sugar refined and reexported in refined form or in products containing sugar.

(b) Sugar allotments

(1) Establishment

By the beginning of each crop year, the Secretary shall establish for that crop year appropriate allotments under section 1359cc of this title for the marketing by processors of sugar processed from sugar cane or sugar beets or in-process beet sugar (whether the sugar beets or in-process beet sugar was produced domestically or imported) at a level that is—

(A) sufficient to maintain raw and refined sugar prices above forfeiture levels so that there will be no forfeitures of sugar to the Commodity Credit Corporation under the loan program for sugar established under section 7272 of this title; but

(B) not less than 85 percent of the estimated quantity of sugar for domestic human consumption for the crop year.
(2) Products
The Secretary may include sugar products, the majority content of which is sucrose for human consumption, derived from sugar cane, sugar beets, molasses, or sugar in the allotments established under paragraph (1) if the Secretary determines it to be appropriate for purposes of this subpart.

(c) Coverage of allotments
(1) In general
The marketing allotments under this subpart shall apply to the marketing by processors of sugar intended for domestic human consumption that has been processed from sugar cane, sugar beets, or in-process beet sugar, whether such sugar beets or in-process beet sugar was produced domestically or imported.

(2) Exceptions
Consistent with the administration of marketing allotments for each of the 2002 through 2007 crop years, the marketing allotments shall not apply to sugar sold—

(A) to facilitate the exportation of the sugar to a foreign country, except that the exports of sugar shall not be eligible to receive credits under reexport programs for refined sugar or sugar containing products administered by the Secretary;

(B) to enable another processor to fulfill an allocation established for that processor; or

(C) for uses other than domestic human consumption, except for the sale of sugar for the production of ethanol or other bioenergy if the disposition of the sugar is administered by the Secretary under section 8110 of this title.

(3) Requirement
The sale of sugar described in paragraph (2)(B) shall be—

(A) made prior to May 1; and

(B) reported to the Secretary.

(d) Prohibitions
(1) In general
During all or part of any crop year for which marketing allotments have been established, no processor of sugar beets or sugarcane shall market for domestic human consumption a quantity of sugar in excess of the allocation established for the processor, except—

(A) to enable another processor to fulfill an allocation established for that other processor; or

(B) to facilitate the exportation of the sugar.

(2) Civil penalty
Any processor who knowingly violates paragraph (1) shall be liable to the Commodity Credit Corporation for a civil penalty in an amount equal to 3 times the United States market value, at the time of the commission of the violation, of that quantity of sugar involved in the violation.

The Secretary shall establish flexible marketing allotments for sugar for any crop year in which the allotments are required under section 1359bb(b) of this title in accordance with this section.

(b) Overall allotment quantity
(1) In general
The Secretary shall establish the overall allotment quantity for the crop year (referred to in this subpart as the “overall allotment quantity”) at a level that is—

(A) sufficient to maintain raw and refined sugar prices above forfeiture levels to avoid forfeiture of sugar to the Commodity Credit Corporation; but

(B) not less than a quantity equal to 85 percent of the estimated quantity of sugar for domestic human consumption for the crop year.

(2) Adjustment
Subject to paragraph (1), the Secretary shall adjust the overall allotment quantity to maintain—

(A) raw and refined sugar prices above forfeiture levels to avoid forfeiture of sugar to the Commodity Credit Corporation; and

(B) adequate supplies of raw and refined sugar in the domestic market.

(c) Marketing allotment for sugar derived from sugar beets and sugar derived from sugarcane
The overall allotment quantity for the crop year shall be allotted between—
§ 1359cc

(1) sugar derived from sugar beets by establishing a marketing allotment for a crop year at a quantity equal to the product of multiplying the overall allotment quantity for the crop year by 54.35 percent; and

(2) sugar derived from sugarcane by establishing a marketing allotment for a crop year at a quantity equal to the product of multiplying the overall allotment quantity for the crop year by 45.65 percent.

(d) Filling cane sugar and beet sugar allotments

(1) Cane sugar

Each marketing allotment for cane sugar established under this section may only be filled with sugar processed from domestically grown sugarcane.

(2) Beet sugar

Each marketing allotment for beet sugar established under this section may only be filled with sugar processed from sugar beets or in-process beet sugar.

(e) State cane sugar allotments

(1) In general

The allotment for sugar derived from sugarcane shall be further allotted, among the States in the United States in which sugarcane is produced, after a hearing (if requested by the affected sugarcane processors and growers) and on such notice as the Secretary by regulation may prescribe, in a fair and equitable manner on the basis of—

(A) past marketings of sugar, based on the average of the 2 highest years of production of raw cane sugar from the 1996 through 2000 crops;

(B) the ability of processors to market the sugar covered under the allotments for the crop year; and

(C) past processings of sugar from sugarcane, based on the 3 crop years with the greatest processings (in the mainland States collectively) during the 1991 through 2000 crop years.

(f) Filling cane sugar allotments

Except as provided in section 1359ee of this title, a State cane sugar allotment established under subsection (e) of this section for a crop year may be filled only with sugar processed from sugarcane grown in the State covered by the allotment.

(g) Adjustment of marketing allotments

(1) Adjustments

(A) In general

Subject to subparagraph (B), the Secretary shall, based on reestimates under section 1359bb(a)(3) of this title, adjust upward or downward estimated sugar consumption, stocks, production, or imports.

(B) Limitation

In carrying out subparagraph (A), the Secretary may not reduce the overall allotment quantity to a quantity of less than 85 percent of the estimated quantity of sugar for domestic human consumption for the crop year.

(2) Allocation to processors

In the case of any increase or decrease in an allotment, each allocation to a processor of the allotment under section 1359dd of this title, and each proportionate share established with respect to the allotment under section 1359ff(c) of this title, shall be increased or decreased by the same percentage that the allotment is increased or decreased.

(3) Carry-over of reductions

Whenever a marketing allotment for a crop year is required to be reduced during the crop year under this subsection, if, at the time of the reduction, the quantity of sugar marketed exceeds the processor's reduced allocation, the allocation of an allotment next established for the processor shall be reduced by the quantity of the excess sugar marketed.

EFFECTIVE DATE OF 2008 AMENDMENT

§1359dd Allocation of marketing allotments

(a) Allocation to processors

Whenever marketing allotments are established for a crop year under section 1359cc of this title, in order to afford all interested persons an equitable opportunity to market sugar under an allotment, the Secretary shall allocate such allotment among the processors covered by the allotment.

(b) Hearing and notice

(1) Cane sugar

(A) In general

The Secretary shall make allocations for cane sugar after a hearing, if requested by the affected sugarcane processors and growers, and on such notice as the Secretary by regulation may prescribe, in such manner and in such quantities as to provide a fair, efficient, and equitable distribution of the allocations under this paragraph. Each such allocation shall be subject to adjustment under section 1359cc(g) of this title.

(B) Multiple processor States

Except as provided in subparagraphs (C) and (D), the Secretary shall allocate the allotment for cane sugar among multiple cane sugar processors in a single State based on—

(i) past marketings of sugar, based on the average of the 2 highest years of production of raw cane sugar from among the 1996 through 2000 crops;

(ii) the ability of processors to market sugar covered by that portion of the allotment allocated for the crop year; and

(iii) past processings of sugar from sugarcane, based on the average of the 3 highest years of production during the 1996 through 2000 crop years.

(C) Talisman processing facility

In the case of allotments under subparagraph (B) attributable to the operations of the Talisman processing facility before May 13, 2002, the Secretary shall allocate the allotment among processors in the State under subparagraph (A) in accordance with the agreements of March 25 and 26, 1999, between the affected processors and the Secretary of the Interior.

(D) Proportionate share States

In the case of States subject to section 1359ff(c) of this title, the Secretary shall allocate the allotment for cane sugar among multiple cane sugar processors in a single State based on—

(i) past marketings of sugar, based on the average of the 2 highest years of production of raw cane sugar from among the 1997 through 2001 crop years;

(ii) the ability of processors to market sugar covered by that portion of the allotments allocated for the crop year; and

(iii) past processings of sugar from sugarcane, based on the average of the 2 highest crop years of production during the 1997 through 2001 crop years.

(E) New entrants

(i) In general

Notwithstanding subparagraphs (B) and (D), the Secretary, on application of any processor that begins processing sugarcane on or after May 13, 2002, and after a hearing (if requested by the affected sugarcane processors and growers) and on such notice as the Secretary by regulation may prescribe, may provide the processor with an allocation that provides a fair, efficient and equitable distribution of the allocations from the allotment for the State in which the processor is located.

(ii) Proportionate share States

In the case of proportionate share States, the Secretary shall establish proportionate shares in a quantity sufficient to produce the sugarcane required to satisfy the allocations.
§ 1359dd  TITLE 7—AGRICULTURE  Page 618

(iii) Limitations

The allotment for a new processor under this subparagraph shall not exceed—

(I) in the case of the first crop year of operation of a new processor, 50,000 short tons (raw value); and

(II) in the case of each subsequent crop year of operation of the new processor, a quantity established by the Secretary in accordance with this subparagraph and the criteria described in subparagraph (B) or (D), as applicable.

(iv) New entrant States

(I) In general

Notwithstanding subparagraphs (A) and (C) of section 1359cc(e)(3) of this title, to accommodate an allocation under clause (i) to a new processor located in a new entrant mainland State, the Secretary shall provide the new entrant mainland State with an allotment.

(II) Effect on other allotments

The allotment to any new entrant mainland State shall be subtracted, on a pro rata basis, from the allotments otherwise allotted to each mainland State under section 1359cc(e)(3) of this title.

(v) Adverse effects

Before providing an initial processor allocation or State allotment to a new entrant processor or a new entrant State under this subparagraph, the Secretary shall take into consideration any adverse effects that the provision of the allocation or allotment may have on existing cane processors and producers in mainland States.

(vi) Ability to market

Consistent with section 1359cc of this title and this section, any processor allocation or State allotment made to a new entrant processor or to a new entrant State under this subparagraph shall be provided only after the applicant processor, or the applicable processors in the State, have demonstrated the ability to process, produce, and market (including the transfer or delivery of the raw cane sugar to a refinery for further processing or marketing) raw cane sugar for the crop year for which the allotment is applicable.

(vii) Prohibition

Not more than 1 processor allocation provided under this subparagraph may be applicable to any individual sugar processing facility.

(F) Transfer of ownership

If a sugarcane processor is sold or otherwise transferred to another owner or is closed as part of an affiliated corporate group processing consolidation, the Secretary shall transfer the allotment allocation for the processor to the purchaser, new owner, successor in interest, or any remaining processor of an affiliated entity, as applicable, of the processor.

(2) Beet sugar

(A) In general

Except as otherwise provided in this paragraph and sections 1359cc(g), 1359ee(b), and 1359ff(b) of this title, the Secretary shall make allocations for beet sugar among beet sugar processors for each crop year that allotments are in effect on the basis of the adjusted weighted average quantity of beet sugar produced by the processors for each of the 1998 through 2000 crop years, as determined under this paragraph.

(B) Quantity

The quantity of a allocation made for a beet sugar processor for a crop year under subparagraph (A) shall bear the same ratio to the quantity of allocations made for all beet sugar processors for the crop year as the adjusted weighted average quantity of beet sugar produced by the processor (as determined under subparagraphs (C) and (D)) bears to the total of the adjusted weighted average quantities of beet sugar produced by all processors (as so determined).

(C) Weighted average quantity

Subject to subparagraph (D), the weighted quantity of beet sugar produced by a beet sugar processor during each of the 1998 through 2000 crop years shall be (as determined by the Secretary)—

(i) in the case of the 1998 crop year, 25 percent of the quantity of beet sugar produced by the processor during the crop year;

(ii) in the case of the 1999 crop year, 35 percent of the quantity of beet sugar produced by the processor during the crop year; and

(iii) in the case of the 2000 crop year, 40 percent of the quantity of beet sugar produced by the processor (including any quantity of sugar received from the Commodity Credit Corporation) during the crop year.

(D) Adjustments

(i) In general

The Secretary shall adjust the weighted average quantity of beet sugar produced by a beet sugar processor during the 1998 through 2000 crop years under subparagraph (C) if the Secretary determines that the processor—

(I) during the 1996 through 2000 crop years, opened a sugar beet processing factory;

(II) during the 1998 through 2000 crop years, closed a sugar beet processing factory;

(III) during the 1998 through 2000 crop years, constructed a desugarization facility; or

(IV) during the 1998 through 2000 crop years, suffered substantial quality losses on sugar beets stored during any such crop year.

(ii) Quantity

The quantity of beet sugar produced by a beet sugar processor under subparagraph (C) shall be—
(I) in the case of a processor that opened a sugar beet processing factory, increased by 1.25 percent of the total of the adjusted weighted average quantities of beet sugar produced by all processors during the 1998 through 2000 crop years (without consideration of any adjustment under this subparagraph) for each sugar beet processing factory that is opened by the processor;

(II) in the case of a processor that closed a sugar beet processing factory, decreased by 1.25 percent of the total of the adjusted weighted average quantities of beet sugar produced by all processors during the 1998 through 2000 crop years (without consideration of any adjustment under this subparagraph) for each sugar beet processing factory that is closed by the processor;

(III) in the case of a processor that constructed a molasses desugarization facility, increased by 0.25 percent of the total of the adjusted weighted average quantities of beet sugar produced by all processors during the 1998 through 2000 crop years (without consideration of any adjustment under this subparagraph) for each molasses desugarization facility that is constructed by the processor; and

(IV) in the case of a processor that suffered substantial quality losses on stored sugar beets, increased by 1.25 percent of the total of the adjusted weighted average quantities of beet sugar produced by all processors during the 1998 through 2000 crop years (without consideration of any adjustment under this subparagraph).

(E) Permanent termination of operations of a processor

If a processor of beet sugar has been dissolved, liquidated in a bankruptcy proceeding, or otherwise has permanently terminated operations (other than in conjunction with a sale or other disposition of the processor or the assets of the processor), the Secretary shall—

(i) eliminate the allocation of the processor provided under this section; and

(ii) distribute the allocation to other beet sugar processors on a pro rata basis.

(F) Sale of all assets of a processor to another processor

If a processor of beet sugar (or all of the assets of the processor) is sold to another processor of beet sugar, the Secretary shall transfer the allocation of the seller to the buyer unless the allocation has been distributed to other sugar beet processors under subparagraph (E).

(G) Sale of factories of a processor to another processor

(i) Effect of sale

Subject to subparagraphs (E) and (F), if 1 or more factories of a processor of beet sugar (but not all of the assets of the processor) are sold to another processor of beet sugar during a crop year, the Secretary shall assign a pro rata portion of the allocation of the seller to the allocation of the buyer to reflect the historical contribution of the production of the sold 1 or more factories to the total allocation of the seller, unless the buyer and the seller have agreed upon the transfer of a different portion of the allocation of the seller, in which case, the Secretary shall transfer that portion agreed upon by the buyer and seller.

(ii) Application of allocation

The assignment of the allocation under clause (i) shall apply—

(I) during the remainder of the crop year for which the sale described in clause (i) occurs; and

(II) during each subsequent crop year.

(iii) Use of other factories to fill allocation

If the assignment of the allocation under clause (i) to the buyer for the 1 or more purchased factories cannot be filled by the production of the 1 or more purchased factories, the remainder of the allocation may be filled by beet sugar produced by the buyer from other factories of the buyer.

(H) New entrants starting production, reopening, or acquiring an existing factory with production history

(i) Definition of new entrant

(I) In general

In this subparagraph, the term “new entrant” means an individual, corporation, or other entity that—

(aa) does not have an allocation of the beet sugar allotment under this subpart;

(bb) is not affiliated with any other individual, corporation, or entity that has an allocation of beet sugar under this subpart (referred to in this clause as a “third party”); and

(cc) will process sugar beets produced by sugar beet growers under contract with the new entrant for the production of sugar at the new or re-opened factory that is the basis for the new entrant allocation.

(II) Affiliation

For purposes of subclause (I)(bb), a new entrant and a third party shall be considered to be affiliated if—

(aa) the third party has an ownership interest in the new entrant;

(bb) the new entrant and the third party have owners in common;

(cc) the third party has the ability to exercise control over the new entrant by organizational rights, contractual rights, or any other means;

(dd) the third party has a contractual relationship with the new entrant by which the new entrant will make use of the facilities or assets of the third party; or

(ee) there are any other similar circumstances by which the Secretary determines that the new entrant and the third party are affiliated.
(ii) Allocation for a new entrant that has constructed a new factory or reopened a factory that was not operated since before 1998

If a new entrant constructs a new sugar beet processing factory, or acquires and reopens a sugar beet processing factory that last processed sugar beets prior to the 1998 crop year and there is no allocation currently associated with the factory, the Secretary shall—

(I) assign an allocation for beet sugar to the new entrant that provides a fair and equitable distribution of the allocations for beet sugar so as to enable the new entrant to achieve a factory utilization rate comparable to the factory utilization rates of other similarly-situated processors; and

(II) reduce the allocations for beet sugar of all other processors on a pro rata basis to reflect the allocation to the new entrant.

(iii) Allocation for a new entrant that has acquired an existing factory with a production history

(I) In general

If a new entrant acquires an existing factory that has processed sugar beets from the 1998 or subsequent crop year and has a production history, on the mutual agreement of the new entrant and the company currently holding the allocation associated with the factory, the Secretary shall transfer to the new entrant a portion of the allocation of the current allocation holder to reflect the historical contribution of the production of the 1 or more sold factories to the total allocation of the current allocation holder, unless the new entrant and current allocation holder have agreed upon the transfer of a different portion of the allocation of the current allocation holder, in which case, the Secretary shall transfer that portion agreed upon by the new entrant and the current allocation holder.

(II) Prohibition

In the absence of a mutual agreement described in subclause (I), the new entrant shall be ineligible for a beet sugar allocation.

(iv) Appeals

Any decision made under this subsection may be appealed to the Secretary in accordance with section 1359hi of this title.

PRIORITY PROVISIONS

AMENDMENTS

2008—Subsec. (b)(1)(F). Pub. L. 110–246, §1403(d)(1), substituted “‘IF’” for “‘Except as otherwise provided in section 1359ff(c)(8) of this title, IF’”.

Subsec. (b)(2)(G) to (I). Pub. L. 110–246, §1403(d)(2), added subpars. (G) and (H) and struck out former subpars. Effective Date of 2008 Amendment

§1359ee. Reassignment of deficits

(a) Estimates of deficits

At any time allotments are in effect under this subpart, the Secretary, from time to time, shall determine whether (in view of then-current inventories of sugar, the estimated production of sugar and expected marketings, and other pertinent factors) any processor of sugarcane will be unable to market the sugar covered by the portion of the State cane sugar allotment allocated to the processor and whether any processor of sugar beets will be unable to market sugar covered by the portion of the beet sugar allotment allocated to the processor.

(b) Reassignment of deficits

(1) Cane sugar

If the Secretary determines that any sugarcane processor who has been allocated a share of a State cane sugar allotment will be unable to market the processor’s allocation of the State’s allotment for the crop year—

(A) the Secretary first shall reassign the estimated quantity of the deficit to the allocations for other processors within that State, depending on the capacity of each other processor to fill the portion of the deficit to be assigned to it and taking into account the interests of producers served by the processors;

(B) if after the reassigments the deficit cannot be completely eliminated, the Secretary shall reassign the estimated quantity of the deficit proportionately to the allotments for other cane sugar States, depending on the capacity of each other State to fill the portion of the deficit to be assigned to it, with the reassigned quantity to each State to be allocated among processors in that State in proportion to the allocations of the processors;

(C) if after the reassigments the deficit cannot be completely eliminated, the Secretary shall reassign the estimated quantity
of the deficit to the Commodity Credit Corporation and shall sell such quantity of sugar from inventories of the Corporation unless the Secretary determines that such sales would have a significant effect on the price of sugar; and

(D) if after the reassignments and sales, the deficit cannot be completely eliminated, the Secretary shall reassign the remainder to imports of raw cane sugar.

(2) Beet sugar

If the Secretary determines that a sugar beet processor who has been allocated a share of the beet sugar allotment will be unable to market that allocation—

(A) the Secretary first shall reassign the estimated quantity of the deficit to the allotments for other sugar beet processors, depending on the capacity of each other processor to fill the portion of the deficit to be assigned to it and taking into account the interests of producers served by the processors;

(B) if after the reassignments the deficit cannot be completely eliminated, the Secretary shall reassign the estimated quantity of the deficit to the Commodity Credit Corporation and shall sell such quantity of sugar from inventories of the Corporation unless the Secretary determines that such sales would have a significant effect on the price of sugar; and

(C) if after the reassignments and sales, the deficit cannot be completely eliminated, the Secretary shall reassign the remainder to imports of raw cane sugar.

(3) Corresponding increase

The allocation of each processor receiving a reassigned quantity of an allotment under this subsection for a crop year shall be increased to reflect the reassignment.

§ 1359ff. Provisions applicable to producers

(a) Processor assurances

(1) In general

If allotments for a crop year are allocated to processors under section 1359dd of this title, the Secretary shall obtain from the processors such assurances as the Secretary considers adequate that the allocation will be shared among producers served by the processor in a fair and equitable manner that adequately reflects producers’ production histories.

(2) Arbitration

(A) In general

Any dispute between a processor and a producer, or group of producers, with respect to the sharing of the allocation to the processor shall be resolved through arbitration by the Secretary on the request of either party.

(B) Period

The arbitration shall, to the maximum extent practicable, be—

(i) commenced not more than 45 days after the request; and

(ii) completed not more than 60 days after the request.

(b) Sugar beet processing facility closures

(1) In general

If a sugar beet processing facility is closed and the sugar beet growers that previously delivered beets to the facility elect to deliver their beets to another processing company, the growers may petition the Secretary to modify allocations under this subpart to allow the delivery.

(2) Increased allocation for processing company

The Secretary may increase the allocation to the processing company to which the growers elect to deliver their sugar beets, with the approval of the processing company, to a level that does not exceed the processing capacity of the processing company, to accommodate the change in deliveries.

(3) Decreased allocation for closed company

The increased allocation shall be deducted from the allocation to the company that owned the processing facility that has been closed and the remaining allocation shall be unaffected.

(4) Timing

The determinations of the Secretary on the issues raised by the petition shall be made within 60 days after the filing of the petition.

(c) Proportionate shares of certain allotments

(1) Definition of seed

(A) In general

In this subsection, the term “seed” means only those varieties of seed that are dedicated to the production of sugarcane from which is produced sugar for human consumption.
§ 1359ff  TITLE 7—AGRICULTURE

(B) Exclusion

The term "seed" does not include seed of a high-fiber cane variety dedicated to other uses, as determined by the Secretary.\(^1\)

(2) In general

(A) States affected

In any case in which a State allotment is established under section 1359cc(f) of this title and there are in excess of 250 sugarcane producers in the State (other than Puerto Rico), the Secretary shall make a determination under subparagraph (B).

(B) Determination

The Secretary shall determine, for each State allotment described in subparagraph (A), whether the production of sugarcane, in the absence of proportionate shares, will be greater than the quantity needed to enable processors to fill the allotment and provide a normal carryover inventory of sugar.

(3) Establishment of proportionate shares

If the Secretary determines under paragraph (2) that the quantity of sugar produced from sugarcane produced by producers in the area covered by a State allotment for a crop year will be in excess of the quantity needed to enable processors to fill the allotment for the crop year and provide a normal carryover inventory of sugar, the Secretary shall establish a proportionate share for each sugarcane-producing farm that limits the acreage of sugarcane that may be harvested on the farm for sugar or seed during the crop year the allotment for the farm in the 2 highest years from among the 1999, 2000, and 2001 crop years.

(B) The Secretary shall adjust the per-acre yield goal by the average recovery rate of sugarcane produced by processors in the State.

(C) The Secretary shall convert the State allotment for the crop year involved into a State acreage allotment for the crop by dividing the State allotment by the per-acre yield goal for the State, as established under subparagraph (A) and as further adjusted under subparagraph (B).

(D) The Secretary shall establish a uniform reduction percentage for the crop by dividing the State acreage allotment, as determined for the crop under subparagraph (C), by the sum of all adjusted acreage bases in the State, as determined by the Secretary.

(E) The uniform reduction percentage for the crop, as determined under subparagraph (D), shall be applied to the acreage base for each sugarcane-producing farm in the State to determine the farm’s proportionate share of sugarcane acreage that may be harvested for sugar or seed.

(5) Acreage base

For purposes of this subsection, the acreage base for each sugarcane-producing farm shall be determined by the Secretary, as follows:

(A) The acreage base for any farm shall be the number of acres that is equal to the average of the acreage planted and considered planted for harvest for sugar or seed on the farm in the 2 highest of the 1999, 2000, and 2001 crop years.

(B) Acreage planted to sugarcane that producers on a farm were unable to harvest to sugarcane for sugar or seed because of drought, flood, other natural disaster, or other condition beyond the control of the producers may be considered as harvested for the production of sugar or seed for purposes of this paragraph.

(6) Violation

(A) In general

Whenever proportionate shares are in effect in a State for a crop of sugarcane, producers on a farm shall not knowingly harvest, or allow to be harvested, for sugar or seed an acreage of sugarcane in excess of the farm’s proportionate share for the crop year, or otherwise violate proportionate share regulations issued by the Secretary under section 1359hh(a) of this title.

(B) Determination of violation

No producer shall be considered to have violated subparagraph (A) unless the processor of the sugarcane harvested by such producer from acreage in excess of the proportionate share of the farm markets an amount of sugar that exceeds the allocation of such processor for a crop year.

(C) Civil penalty

Any producer on a farm who violates subparagraph (A) by knowingly harvesting, or allowing to be harvested, an acreage of sugarcane for sugar in excess of the farm’s proportionate share shall be liable to the Commodity Credit Corporation for a civil penalty equal to one and one-half times the United States market value of the quantity of sugar that is marketed by the processor of such sugarcane in excess of the allocation of such processor for the crop year. The Secretary shall prorate penalties imposed under this subparagraph in a fair and equitable manner among all the producers of sugarcane harvested from excess acreage that is acquired by such processor.

(7) Waiver

Notwithstanding the preceding subparagraph, the Secretary may authorize the coun-

ty and State committees established under section 590h(b) of title 16 to waive or modify deadlines and other proportionate share requirements in cases in which lateness or failure to meet the other requirements does not affect adversely the operation of proportionate shares.

(8) Adjustments
Whenever the Secretary determines that, because of a natural disaster or other condition beyond the control of producers that adversely affects a crop of sugarcane subject to proportionate shares, the amount of sugar from sugarcane produced by producers subject to the proportionate shares will not be sufficient to enable processors in the State to meet the State’s cane sugar allotment and provide a normal carryover inventory of sugar, the Secretary may uniformly allow producers to harvest an amount of sugarcane in excess of their proportionate share, or suspend proportionate shares entirely, as necessary to enable processors to meet the State allotment and provide a normal carryover inventory of sugar.

(ii) Allocation

Any county committee receiving acreage base under this subparagraph shall allocate the acreage base to eligible farms using the process described in subparagraph (E).

(G) Status of reassigned base

After acreage base has been reassigned in accordance with this subparagraph, the acreage base shall—

(2) be subject to the transfer provisions of paragraph (1).

(b) Preservation of acreage base history

If for reasons beyond the control of a producer on a farm, the producer is unable to harvest an acreage of sugarcane for sugar or seed with respect to all or a portion of the proportionate share established for the farm under section 1359ff(c) of this title, the Secretary, on the application of the producer and with the written consent of all owners of the farm, may preserve for a period of not more than 5 consecutive years the acreage base history of the farm to the extent of the proportionate share involved. The Secretary may permit the proportionate share to be redistributed to other farms, but no acreage base history for purposes of establishing acreage bases shall accrue to the other farms by virtue of the redistribution of the proportionate share.

(c) Revisions of allocations and proportionate shares

The Secretary, after such notice as the Secretary by regulation may prescribe, may revise or amend any allocation of a marketing allotment under section 1359dd of this title, or any proportionate share established or adjusted for a farm under section 1359ff(c) of this title, on the same basis as the initial allocation or proportionate share was required to be established.

(d) Transfers of mill allocations

(2) Allocation adjustment

Notwithstanding section 1359dd of this title, the Secretary shall adjust the allocations of each of such processing companies affected by a transfer under paragraph (1) to reflect the change in deliveries, based on—

(A) the number of acres of sugarcane base being transferred; and

(B) the pro rata amount of allocation at the processing company holding the applicable allocation that equals the contribution of the grower to allocation of the processing company for the sugarcane acreage base being transferred.

SUBPART II—ADJUSTMENT OF QUOTAS AND ENFORCEMENT

§ 1371. General adjustment of quotas

(a) Investigation and adjustment to maintain normal supply

If at any time the Secretary has reason to believe that in the case of cotton, 1 or rice the operation of farm marketing quotas in effect will cause the amount of such commodity which is free of marketing restrictions to be less than the normal supply for the marketing year for the commodity then current, he shall cause an immediate investigation to be made with respect thereto. In the course of such investigation due notice and opportunity for hearing shall be given to interested persons. If upon the basis of such investigation the Secretary finds the existence of such fact, he shall proclaim the same forthwith. He shall also in such proclamation specify such increase in, or termination of, existing quotas as he finds, on the basis of such investigation, is necessary to make the amount of such commodity which is free of marketing restrictions equal the normal supply.

(b) Adjustment because of emergency or export demand

If the Secretary has reason to believe that, because of a national emergency or because of a material increase in export demand, any national marketing quota or acreage allotment for cotton, 1 or rice should be increased or terminated, he shall cause an immediate investigation to be made to determine whether the increase or termination is necessary to meet such emergency or increase in export demand. If, on the basis of such investigation, the Secretary finds that such increase or termination is necessary, he shall immediately proclaim such finding (and if he finds an increase is necessary, the amount of the increase found by him to be necessary) and thereupon such quota or allotment shall be increased, or shall terminate, as the case may be.

(c) Increase of farm quota on increase of national quota

In case any national marketing quota or acreage allotment for any commodity is increased under this section, each farm marketing quota or acreage allotment for the commodity shall be increased in the same ratio.

### §1374. Measurement of farms and report of plantings; remeasurement

(a) The Secretary shall provide for ascertaining, by measurement or otherwise, the acreage of any agricultural commodity or land use on farms for which the ascertainment of such acreage is necessary to determine compliance under any program administered by the Secretary. Insofar as practicable, the acreage of the commodity and land use shall be ascertained prior to harvest, and, if any acreage so ascertained is not in compliance with the requirements of the program the Secretary, under such terms and conditions as he prescribes, may provide a reasonable time for the adjustment of the acreage of the commodity or land use to the requirements of the program. Where cotton is planted in skiprow patterns, the same rules that were in effect for the 1971 through 1973 crops for classifying the acreage planted to cotton and the area skipped shall also apply to the 1974 through 1995 crops, except that, for the 1991 through 1995 crops, the rules shall allow 30 inch rows (or, at the option of those cotton producers who had an established practice of using 32 inch rows before the 1991 crop, 32 inch rows) to be taken into account for classifying the acreage planted to cotton and the area skipped. For the 1992 through 1995 crops, the rules establishing the requirements for eligibility for conserving use for payment acres shall be the same rules as were in effect for 1991 crops.

(b) With respect to cotton, the Secretary, upon such terms and conditions as he may by regulation prescribe, shall provide, through the county and local committees for the measurement prior to planting of an acreage on the farm equal to the farm acreage allotment if so requested by the farm operator, and any farm on which the acreage planted to cotton does not exceed such measured acreage shall be deemed to be in compliance with the farm acreage allotment.

(c) The Secretary shall by appropriate regulations provide for the remeasurement upon request by the farm operator of the acreage planted to such commodity on the farm and for the measurement of the acreage planted to such commodity on the farm remaining after any adjustment of excess acreage hereunder and shall prescribe the conditions under which the farm operator shall be required to pay the county committee for the expense of the measurement of adjusted acreage or the expense of remeasurement after the initial measurement or the measurement of adjusted acreage. The regulations shall also provide for the refund of any deposit or payment made for the expense of the remeasurement of the initially determined acreage or the adjusted acreage when because of an error in the determination of such acreage the remeasurement brings the acreage within the allotment or permitted acreage or results in a change in acreage in excess of a reasonable variation normal to measurements of acreage of the commodity. Unless the requirements for measurement of adjusted acreage are met by the farm operator, the acreage prior to such adjustment as determined by the county committee shall be considered the acreage of the commodity on the farm in determining whether the applicable farm allotment has been exceeded.

### Amendment

1991—Subsec. (a), Pub. L. 102–237 inserted “‘or, at the option of those cotton producers who had an established practice of using 32 inch rows before the 1991 crop, 32 inch rows’” after “‘39 inch rows’” and inserted at end “For the 1992 through 1995 crops, the rules establishing the requirements for eligibility for conserving
use for payment acres shall be the same rules as were in effect for 1991 crops.”

1990—Subsec. (a). Pub. L. 101–624 substituted “1995 crops” for “1991 crops” except that, for the 1991 through 1995 crops, the rules shall allow 30 inch rows to be taken into account for classifying the acreage planted to cotton and the area “skipped” for “1990 crops”.

1965—Subsec. (a). Pub. L. 89–321, § 701, removed references to county and local committees as the agent for measuring commodity or land use acreage, substituted a general reference to any agricultural commodity or land use on farms requiring ascertainment of acreage for specific reference to corn, wheat, cotton, peanuts, or rice, and substituted provisions requiring ascertainment of commodity and land use prior to harvesting and allowing a reasonable time for adjustment of acreage requirements for provisions requiring the filing of a written report by the local committee with the state committee in the event of planting in excess of farm acreage allotment.

1960—Subsec. (b). Pub. L. 86–553, § 1, struck out second sentence which read as follows: “The Secretary shall similarly provide for the remeasurement upon request by the farm operator of the acreage planted to cotton on the farm, but the operator shall be required to reimburse the local committee for the expense of such remeasurement if the planted acreage is found to be in excess of the allotted acreage” which is now covered by subsec. (c) of this section.

Subsec. (c). Pub. L. 86–553, § 2, authorized Secretary to provide by regulations for remeasurement of acreage planted to a basic agricultural commodity and for measurement of acreage planted to such commodity remaining after adjustment of excess of measurement and remeasurement and to provide for refunds, and prescribed method of computing acreage in determining whether the applicable farm allotment has been exceeded.

1949—Act Aug. 29, 1949, redesignated existing provisions as subsec. (a) and added subsec. (b).

1941—Act Apr. 3, 1941, inserted “peanuts,” after “rice.”

Effective Date of 1990 Amendment

Effective Date of 1977 Amendment

§ 1375. Regulations

(a) The Secretary shall provide by regulations for the identification, wherever necessary, of corn, wheat, cotton, rice, or peanuts so as to afford aid in discovering and identifying such amounts of the commodities as are subject to and such amounts thereof as are not subject to marketing restrictions in effect under this subchapter.

(b) The Secretary shall prescribe such regulations as are necessary for the enforcement of this subchapter.

Amendments

2004—Subsec. (a). Pub. L. 108–357, § 611(k)(k), substituted “or peanuts” for “peanuts, or tobacco”.

Subsec. (c). Pub. L. 108–357, § 611(k)(2), which directed amendment of this section by striking out subsec. (c), could not be executed because this section does not contain a subsec. (c).

Savings Provision
Amendment by sections 611 to 614 of Pub. L. 108–357 not to affect the liability of any person under any provision of law so amended with respect to the 2004 or an earlier crop of tobacco, see section 614 of Pub. L. 108–357, set out as a note under section 515 of this title.

§ 1376. Court jurisdiction; duties of United States attorneys; remedies and penalties as additional

The several district courts of the United States are vested with jurisdiction specifically to enforce the provisions of this subchapter. If and when the Secretary shall so request, it shall be the duty of the several United States attorneys in their respective districts, under the direction of the Attorney General, to institute proceedings to collect the penalties provided in this subchapter. The remedies and penalties provided for herein shall be in addition to, and not exclusive of, any of the remedies or penalties under existing law. This section also shall be applicable to liquidated damages provided for pursuant to section 1349 of this title.

Amendments

1964—Pub. L. 88–297 provided for application of this section to liquidated damages under section 1349 of this title.

Change of Name
Act June 25, 1948, eff. Sept. 1, 1948, substituted “United States attorneys” for “district attorneys”. See section 541 of Title 28, Judiciary and Judicial Procedure, and Historical and Revision Notes thereunder.

§ 1377. Preservation of unused acreage allotments

In any case in which, during any year beginning with 1956, the acreage planted to a commodity on any farm is less than the acreage al-
lotment for such farm, the entire acreage allotment for such farm (excluding any allotment released from the farm or reappropriated to the farm and any allotment provided for the farm pursuant to subsection (f)(7)(A) of this title) shall, except as provided herein, be considered for the purpose of fulfilling the State, county, and farm acreage allotments, to have been planted to such commodity in such year on such farm, but the 1956 acreage allotment of any commodity shall be regarded as planted under this section only if the owner or operator on such farm notified the county committee prior to the sixtieth day preceding the beginning of the marketing year for such commodity of his desire to preserve such allotment: Provided, That beginning with the 1960 crop, except for federally owned land, the current farm acreage allotment established for a commodity shall not be preserved as history acreage pursuant to the provisions of this section unless for the current year or either of the two preceding years an acreage equal to 75 per centum or more of the farm acreage allotment for such year or, in the case of upland cotton on a farm which qualified for price support on the crop produced in any such year under section 1444(b) of this title, 75 per centum of the farm domestic allotment established under section 1350 of this title for any such year, whichever is smaller, was actually planted or devoted to the commodity on the farm (or was regarded as planted under provisions of the Soil Bank Act or the environmental quality incentives program established under chapter 4 of subtitle D of title XII of the Food Security Act of 1985 [16 U.S.C. 3839aa et seq.]): Provided further, That this section shall not be applicable in any case, within the period 1956 to 1959, in which the amount of the commodity required to be stored to postpone or avoid payment of penalty has been reduced because the allotment was not fully planted. Acreage history credits for released or reappropriated acreage shall be governed by the applicable provisions of this subchapter pertaining to the release and reapportionment of acreage allotments.

The Soil Bank Act, referred to in text, is act May 28, 1956, ch. 327, 70 Stat. 188, as amended, which was classified to subchapters I to III of chapter 45 (§1801 et seq.) of this title and was repealed by Pub. Amendments

1977—Pub. L. 95–113 temporarily inserted “or, in the case of peanuts, an acreage sufficient to produce 75 per centum of the farm poundage quota” after “of the farm acreage allotment for such year”. See Effective and Termination Dates of 1977 Amendment note below.

1964—Pub. L. 88–297 inserted “or, in the case of upland cotton on a farm which qualified for price support on the crop produced in any such year under section 1444(b) of this title, 75 per centum of the farm domestic allotment established under section 1350 of this title for any such year, whichever is smaller” in first proviso after “75 per centum or more of the farm acreage allotment for such year” to protect the farm base of any farm participating in the domestic allotment choice program if the acreage planted on the farm was at least 75 per centum of the farm domestic allotment.

1959—Pub. L. 86–172 excluded any allotment provided for a farm under section 1344(f)(7)(A) of this title from the entire acreage allotment for the farm which is considered as planted in the year for the purpose of establishing future acreage allotments and provided for the preservation of the current farm acreage allotment as history acreage under prescribed conditions.

1957—Pub. L. 89–266 struck out, for 1957, 1958, and 1959, requirement of filing notice of intention not to plant full acreage allotment and provided that acreage history credits for released or reappropriated acreage shall be governed by the applicable provisions of this subchapter pertaining to the release and reapportionment of acreage allotments.

$1378. Transfer of acreage allotments ensuing from agency acquisition of farmlands

(a) Allotment pool

Notwithstanding any other provision of this chapter, the allotment determined for any com-
commodity for any land from which the owner is displaced because of acquisition of the land for any purpose, other than for the continued production of allotted crops, by any Federal, State, or other agency having the right of eminent domain shall be placed in an allotment pool and shall be available only for use in providing allotments for other farms owned by the owner so displaced. Upon application to the county committee, within three years after the date of such displacement, any owner so displaced shall be entitled to have allotments established for other farms owned by him, taking into consideration the land, labor, and equipment available on such other farms for the purpose of the commodity, crop-rotation practices, and the soil and other physical factors affecting the production of the commodity: Provided, That the acreage used to establish or increase the allotments for such farms shall be transferred from the pool and shall not exceed the allotment most recently established for the farm acquired from the applicant and placed in the pool. During the period of eligibility for the making of allotments under this section for a displaced owner, acreage allotments for the farm from which the owner was so displaced shall be established in accordance with the procedure applicable to other farms, and such allotments shall be considered to have been fully planted. After such allotment is made under this section, the proportionate part, or all, as the case may be, of the past acreage used in establishing the allotment most recently placed in the pool for the farm from which the owner was so displaced shall be transferred to and considered for the purposes of future State, county, and farm acreage allotments to have been planted on the farm to which allotment is made under this section. Except where subsection (c) of this section requires the transfer of allotment to another portion of the same farm, for the purpose of this section (1) that part of any farm from which the owner is so displaced and that part from which he is not so displaced shall be considered as separate farms; and (2) an owner who voluntarily relinquishes possession of the land subsequent to its acquisition by an agency having the right of eminent domain shall be considered as having been displaced because of such acquisition. The former owner of land acquired as described in this subsection shall not be considered for the purposes hereof to have been displaced from such land during any period for which such land is leased to such former owner: Provided, That the occupancy of the former owner under the lease follows immediately after his occupancy as owner: And provided further, That if a former owner has been displaced prior to April 9, 1960, and no allotment from the land owned by such former owner has been displaced prior to April 9, 1960, main in the allotment pool, the displaced owner for the purposes of this subsection shall be deemed to have begun immediately after his displacement as owner. During any year of the 3-year period the allotment from a farm may remain in the allotment pool, the displaced owner may, in accordance with regulations of the Secretary, release for one year at a time any part or all of such farm allotment to the county committee for reapportionment to other farms in the county having allotments for such commodity, land, labor, equipment available for the production of the commodity, crop rotation practices, and soil and other physical facilities affecting the production of the commodity; and the allotment reapportioned shall, for purposes of establishing future farm allotments, not be regarded as planted on the farm to which the allotment was transferred.

(b) Circumstances precluding application of provisions

The provisions of this section shall not be applicable if (1) there is any marketing quota penalty due with respect to the marketing of the commodity from the farm acquired by the Federal, State, or other agency or by the owner of the farm; (2) any of the commodity produced on such farm has not been accounted for as required by the Secretary; or (3) the allotment next established for the farm acquired by the Federal, State, or other agency would have been reduced because of false or improper identification of the commodity produced on or marketed from such farm or due to a false acreage report.

(c) Time of displacement determining application of provisions

This section shall not be applicable, in the case of and 1 cotton, to any farm from which the owner was displaced prior to 1950, in the case of wheat and corn, to any farm from which the owner was displaced prior to 1954, and in the case of rice, to any farm from which the owner was displaced prior to 1955. In any case where the cropland acquired for nonfarming purposes from an owner by an agency having the right of eminent domain represents less than 15 per centum of the total cropland on the farm, the allotment attributable to that portion of the farm so acquired shall be transferred to that portion of the farm not so acquired.

Codification

Part of subsec. (d) of section 378 of act Feb. 16, 1938, as originally enacted, is set out as a Savings Clause note below. The remainder of such subsec. (d) repealed sections 133(h), 133(d), 134(h), a prior section 1335(c), and section 1338(h) of this title.

Amendments

2004—Subsec. (c). Pub. L. 108–357, §611(l)(1), which directed amendment of subsec. (c) by substituting “‘and cotton’ for ‘‘cotton, and tobacco’’”, was executed by making the substitution for “‘cotton and tobacco’”, to reflect the probable intent of Congress.

1So in original. The word “and” probably should not appear.
Subsecs. (d), (e), Pub. L. 108-337, §611(l)(2), directed the repeal of subsecs. (d) and (e), added by Pub. L. 91-524, which had temporarily included farm base acreage allotment for upland cotton and domestic allotment for wheat within the term “allotment” as used in this section. See Codification note above and 1970 Amendment note below.

Subsec. (f). Pub. L. 108-337, §611(l)(2), struck out subsec. (f), which provided that the terms “allotment” and “acreage” would be construed to mean “marketing quota” and “poundage”, respectively, in applying provisions to a farm for which a quota had been determined under section 1314 of this title.

1972—Subsec. (a). Pub. L. 92-934 struck out the alternative time limitation for filing applications to the county committee and substituted provisions describing allotments for provisions requiring the allotments to be comparable with allotments determined for other farms in the same area which are similar except for the past acreage of the commodity.

1961—Pub. L. 87-33 substituted provisions permitting displaced owners to release part or all of any allotment remaining in the allotment pool for reapportionment to other farms in the county having allotments for such commodity, for provisions making sections 1344(m)(2), 1353(e), and 1358(g) of this title inapplicable to allotments held under the lease by a displaced owner.

1960—Subsec. (a). Pub. L. 86-423 inserted sentences providing that the former owner of land shall not be considered to have been displaced during any period for which such land is leased to him if his occupancy under the lease immediately follows after his occupancy as owner, authorizing retransfer of allotments in cases where a former owner leases land formerly owned by him prior to two years from April 9, 1960, and making sections 1344(m)(2), 1353(e), and 1358(g) of this title inapplicable to allotments on lands held under the lease by a displaced owner.

Subsec. (f). Pub. L. 85-635, §561, provided in part that “but any transfer or reassignment of allotment heretofore made under the provisions of these sections [former sections 1313(h), 1334(d), 1334(e), 1334(h), 1335(f), and 1358(h) of this title] shall remain in effect, and any displaced farm owner for whom an allotment has been established under any such repealed sections [such sections] shall not be eligible for additional allotment under subsection (a) of this section [subsec. (a) of this section] because of such displacement.”

§1379. Reconstitution of farms

In any case in which the ownership of a tract of land is transferred from a parent farm, the acreage allotments, history acreages, and base acreages for the farm shall be divided between such tract and the parent farm in the same proportion that the cropland acreage in such tract bears to the cropland acreage in the parent farm, except that the Secretary shall provide by regulation the method to be used in determining the division, if any, of the acreage allotments, histories, and bases in any case in which—

(1) the tract of land transferred from the parent farm has been or is being transferred to any agency having the right to acquire it by eminent domain;

(2) the tract of land transferred from the parent farm is to be used for nonagricultural purposes;

(3) the parent farm resulted from a combination of two or more tracts of land and records are available showing the contribution of each tract to the allotments, histories, and bases of the parent farm;

(4) the appropriate county committee determines that a division based on cropland proportions would result in allotments and bases not representative of the operations normally carried out on any transferred tract during the base period;

(5) the parent farm is divided among heirs in settling an estate; or

(6) neither the tract transferred from the parent farm nor the remaining portion of the parent farm receives allotments in excess of allotments for similar farms in the community having allotments of the commodity or commodities involved and such allotments are consistent with good land uses.

AMENDMENTS

2004—Pub. L. 108-357 struck out “(a)” before “In any case,” struck out “”, but this clause (6) shall not be applicable in the case of “burley tobacco” before period at end of par. 1999—Subsec. (b). Pub. L. 106-78 inserted “or flue-cured” after “Burley”.

1991—Subsecs. (a) to (7), (c). Pub. L. 102-237 struck out “or” at end of par. (4), substituted “; or” for period at end of par. (5), substituted a period for “; or” at end of par. (6), and redesignated par. (7) as subsec. (c) and moved subsec. (c) to follow subsec. (b).

The movement of wheat from producer to consumer, in the form of the commodity or any of the products thereof, is preponderantly in interstate and foreign commerce. Unreasonably low prices of wheat to pro-
ducers impair their purchasing power for non-
domestic wheat allotment, and (2) the national alloca-
tion percentage which shall be the percentage
that the national marketing allocation is of
the national marketing quota. Each farm shall
receive a wheat marketing allocation for such
marketing year equal to the number of bushels
obtained by multiplying the number of acres in
the farm acreage allotment for wheat by the
projected farm yield, and multiplying the result-
ing number of bushels by the national allocation
percentage. If a noncommercial wheat-produc-
ing area is established for any marketing year,
farms in such area shall be given wheat market-
ing allocations which are determined by the
Secretary to be fair and reasonable in relation
to the wheat marketing allocation given produc-
ers in the commercial wheat-producing area.

Wheat, in addition to being a basic food, is one of
the great export crops of American agricul-
ture and its production for domestic con-
sumption and for export is necessary to the
maintenance of a sound national economy and
to the general welfare. The movement of wheat
from producer to consumer, in the form of the commodity or any of the products thereof, is
preponderantly in interstate and foreign commerce. Unreasonably low prices of wheat to pro-
ducers impair their purchasing power for non-
agriculture products and place them in a posi-
tion of serious disparity with other industrial
groups. The conditions affecting the production
of wheat are such that without Federal assist-
ance, producers cannot effectively prevent disas-
trously low prices for wheat. It is necessary, in
order to assist wheat producers in obtaining fair
prices, to regulate the price of wheat used for
domestic food and for exports in the manner
provided in this part.

§1379c. Marketing certificates

(a) Issuance; amount; reduction; sharing among producers; domestic and export certificates

The Secretary shall provide for the issuance of wheat marketing certificates for each market-
(b) Producers eligible for certificates; storage conditions

No producer shall be eligible to receive wheat marketing certificates with respect to any farm for any marketing year in which a marketing quota penalty is assessed for any commodity on such farm or in which the farm has not complied with the land-use requirements of section 1339 of this title to the extent prescribed by the Secretary, or in which, except as the Secretary may by regulation prescribe, the producer exceeds the farm acreage allotment on any other farm for any commodity in which he has an interest as a producer. No producer shall be deemed to have exceeded a farm acreage allotment for wheat if the entire amount of the farm marketing excess is delivered to the Secretary or stored in accordance with applicable regulations to avoid or postpone payment of the penalty. No producer shall be deemed to have exceeded the farm acreage allotment for wheat on any other farm if such farm is exempt from the farm marketing quota for such crop under section 1335 of this title. Any wheat delivered to the Secretary hereunder shall become the property of the United States and shall be disposed of by the Secretary for relief purposes in the United States or in foreign countries or in such other manner as he shall determine will divert it from the normal channels of trade and commerce. Notwithstanding any other provision of this chapter, the Secretary may provide that a producer shall not be eligible to receive marketing certificates, or may adjust the amount of marketing certificates to be received by the producer, with respect to any farm on which a variety of wheat is planted on the farm which has been determined by the Secretary, after consultation with State Agricultural Experiment Stations, agronomists, cereal chemists and other qualified technicians, to have undesirable milling or baking qualities and has made public announcement thereof.

(c) Face value

The Secretary shall determine and proclaim for each marketing year the face value per bushel of wheat marketing certificates. The face value per bushel of domestic certificates shall be the amount by which the level of price support for wheat accompanied by domestic certificates exceeds the level of price support for wheat not accompanied by certificates (noncertificate wheat).

(d) Statement or form of certificates and transfers

Marketing certificates and transfers thereof shall be represented by such documents, marketing cards, records, accounts, certificates, or other statements or forms as the Secretary may prescribe.

(e) Failure of producer to comply with programs; issuance of certificates

In any case in which the failure of a producer to comply fully with the terms and conditions of the programs formulated under this chapter preclude the issuance of marketing certificates, the Secretary may, nevertheless, issue such certificates in such amounts as he determines to be equitable in relation to the seriousness of the default.

AMENDMENTS

1973—Subsec. (a)(1). Pub. L. 91–524, § 402(b)(D), as added by Pub. L. 93–86, temporarily substituted references to a farm domestic allotment wherever appearing, struck out provisions limiting the impact of the section to the 1972 and 1973 crops of wheat, substituted “‘estimated national average yield for the crop for which the determination is being made will produce the quantity (less imports) that he estimates will be utilized domestically and for export during the marketing year for such crop. If the Secretary determines that the Secretary of its undesirable characteristics.”

1966—Subsec. (a). Pub. L. 89–93–321, §§508, 513(b), authorized the Secretary to provide for the sharing of wheat marketing certificates among producers on a fair and equitable basis even though such basis might be other than the basis of their respective shares in the wheat crop produced on the farm, provided that acreage not planted to wheat because of drought, flood, or other natural disaster be deemed, with certain conditions, to have been planted for harvest for purposes of this subsection, and expanded the reference to the issuance of export marketing certificates by requiring their issuance on a pro rata basis and providing for the determination of such certificate’s value per bushel.

Pub. L. 89–93–321 provided that the Secretary shall deem acreage on the farm which the Secretary finds was not planted to wheat for harvest in 1965 because of drought, flood, or other natural disaster, to be an actual acreage of wheat planted for harvest when that acreage was not subsequently planted to any other price supported crop for 1965.

Subsec. (b). Pub. L. 89–93–321, §§510(a), 517 substituted “projected farm yield” for “normal yield of wheat per acre established for the farm”, permitted delivery to the Secretary of the wheat produced on excess acreage as an additional means of disposing of excess wheat so as to allow a producer to be deemed not to have exceeded the farm acreage allotment for wheat for purposes of this section, and provided for the disposition of wheat delivered to the Secretary and the adjustment of certificates to a producer who has produced an undesirable variety of wheat following public announcement by the Secretary of its undesirable characteristics.

Subsec. (c). Pub. L. 89–93–321, § 513(c), struck out provisions that the face value per bushel of export certificates shall be the amount by which the level of price support for wheat accompanied by export certificates exceeds the level of price support for noncertificate wheat.

1964—Subsec. (a). Pub. L. 88–297, § 202(12), inserted “under subsection (b) of this section or” after “stored” in second sentence, added to such sentence provision for reduction of wheat marketing certificates from amount of export certificates, and inserted provision for issuance of domestic marketing certificates for wheat used for domestic consumption and export marketing certificates for wheat used for export.

Subsec. (b). Pub. L. 88–297, § 202(13), temporarily authorized producers who exceeded their wheat allotments to store their excess wheat under existing regulations issued by the Secretary and be eligible for wheat marketing certificates, prohibited wheat stored under this provision from being removed from storage until a subsequent year when acreage allotment was underplanted or the production on the acreage allotment was less than normal, required the producer (for removal of the wheat contrary to these conditions) to pay an amount one and one-half times the value of the wheat marketing certificates issued with respect to the farm for the year in which the wheat on the acreage in excess of the allotment was produced, and made producers who exceeded their allotment and stored their excess wheat ineligible for diversion payments. See Effective and Termination Dates of 1964 Amendment note below.

Subsec. (c). Pub. L. 88–297, § 202(14), struck out introductory phrase “Whenever a wheat marketing allocation program is in effect for any marketing year” from first sentence, substituted in such sentence “each marketing year” for “such marketing year” and limited the statute to the marketing year for “such market year” from such sentence “wheat” before “marketing certificates”, substituted in second sentence “domestic cer-
tificates shall be the amount” for “marketing certificates shall be equal to the amount” and “domestic certificates for “certificates” before “exceeds”, and inserted to such sentence provision for face value per bushel of export certificates.

**Reduction of Wheat Stored by Producers Prior to 1971 Crop**

Section 407 of Pub. L. 91–524, as amended by section 1(c)(14) of Pub. L. 93–86, provided that: “The amount of any wheat stored by a producer under section 378(b) of the Agricultural Adjustment Act of 1938, as amended [subsection (b) of this section], prior to the 1971 crop of wheat may be reduced by the amount by which the actual total production of the 1971, 1972, or 1973 crop on the farm is less than the number of bushels determined by multiplying three times the domestic allotment for such crop on the farm by the yield established for the farm for the purpose of issuance of domestic marketing certificates. The provisions of such section shall continue to apply to the wheat so stored to the extent not inconsistent therewith. Notwithstanding the foregoing, the Secretary may authorize release of wheat stored by a producer under section 378(b) of the Agricultural Adjustment Act of 1938, as amended [subsection (b) of this section], prior to the 1971 crop, whenever he determines such release will not significantly affect market prices for wheat. As a condition of release, the Secretary may require a refund of such portion of the value of certificates received in the crop year the excess wheat was produced as he deems appropriate considering the period of time the excess wheat has been in storage and the need to provide fair and equitable treatment among all wheat program participants.”

**§ 1379d. Marketing restrictions**

**(a) Transfers of certificates; purchases by Commodity Credit Corporation**

Marketing certificates shall be transferable only in accordance with regulations prescribed by the Secretary. Any unused certificates legally held by any person shall be purchased by Commodity Credit Corporation if tendered to the Corporation for purchase in accordance with regulations prescribed by the Secretary.

**(b) Processor and exporter acquisition of domestic and export certificates; international trade, expansion; refunds or credits for certificates; exemptions from requirements**

During any marketing year for which a wheat marketing allocation program is in effect, (i) all persons engaged in the processing of wheat into food products shall, prior to marketing any such food product or removing such food product for sale or consumption, acquire domestic marketing certificates equivalent to the number of bushels of wheat contained in such product and (ii) all persons exporting wheat shall, prior to such export, acquire export marketing certificates equivalent to the number of bushels so exported. The cost of the export marketing certificates per bushel to the exporter shall be that amount determined by the Secretary on a daily basis which would make United States wheat and wheat flour generally competitive in the world market, avoid disruption of world market prices, and fulfill the international obligations of the United States. The Secretary may exempt from the requirements of this subsection wheat exported for donation abroad and other non-commercial exports of wheat, wheat processed for use on the farm where grown, wheat produced by a State or agency thereof and processed for use by the State or agency thereof, wheat processed for donation, and wheat processed for uses determined by the Secretary to be noncommercial. Such exemptions may be made applicable with respect to any wheat processed or exported beginning July 1, 1964. There shall be exempt from the requirements of this subsection beverage distilled from wheat prior to July 1, 1964. A beverage distilled from wheat after July 1, 1964, shall be deemed to be removed for sale or consumption at the time it is placed in barrels for aging except that upon the giving of a bond as prescribed by the Secretary, the purchase of and payment for such marketing certificates as may be required may be deferred until such beverage is bottled for sale. Wheat shipped to a Canadian port for storage in bond, or storage under a similar arrangement, and subsequent exportation, shall be deemed to have been exported for purposes of this subsection.
when it is exported from the Canadian port. Marketing certificates shall be valid to cover only sales or removals for sale or consumption or exportations made during the marketing year with respect to which they are issued, and after being once used to cover a sale or removal, any sale or consumption or export of a food product or an export of wheat shall be void and shall be disposed of in accordance with regulations prescribed by the Secretary. Notwithstanding the foregoing provisions hereof, the Secretary may require marketing certificates issued for any marketing year to be acquired to cover sales, removals, or exportations made on or after the date during the calendar year in which wheat harvested in such calendar year begins to be marketed as determined by the Secretary even though such wheat is marketed prior to the beginning of the marketing year, and marketing certificates for such marketing year shall be valid to cover sales, removals, or exportations made on or after the date so determined by the Secretary. Whenever the face value per bushel of domestic marketing certificates for a marketing year is different from the face value of domestic marketing certificates for the preceding marketing year, the Secretary may require marketing certificates issued for the preceding marketing year to be acquired to cover all wheat processed into food products during such preceding marketing year even though the food product may be marketed or removed for sale or consumption after the end of the marketing year.

(c) Undertaking to secure marketing of commodity without certificate

Upon the giving of a bond or other undertaking satisfactory to the Secretary to secure the purchase of and payment for such marketing certificates as may be required, and subject to such regulations as he may prescribe, any person required to have marketing certificates in order to market or export a commodity may be permitted to market any such commodity without having first acquired marketing certificates.

(d) “Food products” defined; exemption of flour second clears

As used in this part, the term “food products” means flour (excluding flour second clears not used for human consumption as determined by the Secretary), semolina, farina, bulgur, beverage, and any other product composed wholly or partly of wheat which the Secretary may determine to be a food product. The Secretary may at his election administer the exemption for wheat processed into flour second clears through refunds either to processors of such wheat or to the users of such clears, or permitted in connection with acquisition from such producers of a number of bushels of wheat equivalent to the wheat second clears to be determined on the basis of conversion factors authorized by section 1379f of this title, even though certificates had been surrendered on the basis of the weight of the wheat.

Subsec. (d). Pub. L. 89–321, § 504(b), excluded four second clears not used for human consumption from term “food products”, authorized the Secretary at his election to administer the exemption for wheat processed into flour second clears through refunds either to processors of such wheat or to the users of such clears, and permitted, for the purpose of such refunds, the wheat equivalent of flour second clears to be determined on the basis of conversion factors authorized by section 1379f of this title, even though certificates had been surrendered on the basis of the weight of the wheat.

Subsec. (d). Pub. L. 89–321, § 504(b), excluded four second clears not used for human consumption from term “food products”, authorized the Secretary at his election to administer the exemption for wheat processed into flour second clears through refunds either to processors of such wheat or to the users of such clears, and permitted, for the purpose of such refunds, the wheat equivalent of second clears to be determined on the basis of conversion factors authorized by section 1379f of this title, even though certificates had been surrendered on the basis of the weight of the wheat.

(i) struck out "or food products" after "wheat" and inserted "export" before "marketing certificates"; inserted references to removals for sale or consumption in two other places and to removals in two places to make it clear that certificates were required on all wheat processed into food products whether sold, removed for sale, or removed for consumption; required the CCC to refund to the exporter such part of the cost of the certificate as the Secretary determined would make United States wheat and wheat flour generally competitive in the world market, avoid disruption of world market prices, and fulfill the international obligations of the United States; and authorized the Secretary to exempt from the requirement to have marketing certificates, wheat which was domesticated abroad and wheat processed for use on the farm where grown.

Subsec. (d). Pub. L. 88–297, § 202(17), redefined "food products" to mean flour, semolina, farina, bulgur, beverage, and any other product composed wholly or partly of wheat which the Secretary may determine to be a food product instead of any product composed wholly or partly of wheat to be used for human consumption, including beverage.

See Effective and Termination Dates of 1970 Amendment note below.

**Amendments**

1970—Pub. L. 91–524, temporarily directed the Commodity Credit Corporation to sell marketing certificates for the marketing years for the 1972, and 1973 crops of wheat to persons engaged in the processing of food products for the purpose of facilitating the purchase and sale of marketing certificates, the Commodity Credit Corporation is authorized to issue, buy, and sell marketing certificates in accordance with regulations prescribed by the Secretary. Such regulations may authorize the Corporation to issue and sell certificates in excess of the quantity of certificates which it purchases. (a) The Commodity Credit Corporation shall place all insurance of every nature taken out by it on cotton, and all renewals, extensions, or continuations of existing insurance, with insurance agents who are bonafide residents of and doing business in the State where the cotton is warehoused: Provided, That such insurance may be secured at a cost not greater than similar insurance offered on said cotton elsewhere.

§ 1421. Price support

(a) Source

The Secretary shall provide the price support authorized or required herein through the Commodity Credit Corporation and other means available to him.

(b) Authority of Secretary; factors considered

Except as otherwise provided in this Act, the amounts, terms, and conditions of price support operations and the extent to which such operations are carried out, shall be determined or approved by the Secretary. The following factors shall be taken into consideration in determining, in the case of any commodity for which price support is discretionary, whether a price-support operation shall be undertaken and the level of such support and, in the case of any commodity for which price support is mandatory, the level of support in excess of the minimum level prescribed for such commodity: (1) the supply of the commodity in relation to the demand therefor, (2) the price levels at which other commodities are being supported and, in the case of feed grains, the feed values of such grains in relation to corn, (3) the availability of funds, (4) the perishability of the commodity, (5) the importance of the commodity to agriculture and the national economy, (6) the ability to dispose of stocks acquired through a price-support operation, (7) the need for offsetting temporary losses of export markets, (8) the ability and willingness of producers to keep supplies in line with demand and (9), in the case of upland cotton, changes in the cost of producing such cotton.

(c) Compliance by producer; program for diverted acres

Compliance by the producer with acreage allotments, production goals and marketing practices (including marketing quotas when authorized by law), prescribed by the Secretary, may be required as a condition of eligibility for price support. In administering any program for diverted acres the Secretary may make his regulations applicable on an appropriate geographical basis. Such regulations shall be administered (1) in semiarid or other areas where good husbandry requires maintenance of a prudent feed reserve in such manner as to permit, to the extent so required by good husbandry, the production of forage crops for storage and subsequent use either on the farm or in feeding operations of the farm operator, and (2) in areas declared to be disaster areas by the President under the Disaster Relief and Emergency Assistance Act [42 U.S.C. 5121 et seq.], in such manner as will most quickly restore the normal pattern of their agriculture.

(d) Time of determining levels

The level of price support for any commodity shall be determined upon the basis of its parity price as of the beginning of the marketing year or season in the case of any commodity marketed on a marketing year or season basis and as of January 1 in the case of any other commodity.

(e) Processors’ assurances; payment if assurances inadequate

(1) Whenever any price support or surplus removal operation for any agricultural commodity is carried out through purchases from or loans or payments to processors, the Secretary shall, to the extent practicable, obtain from the processors such assurances as he deems adequate that the producers of the agricultural commodity involved have received or will receive maximum benefits from the price support or surplus removal operation.

(2)(A) If the assurances under paragraph (1) are not adequate to cause the producers of sugar
beets and sugarcane, because of the bankruptcy or other insolvency of the processor, to receive maximum benefits from the price support program within 30 days after the final settlement date provided for in the contract between such processors and processor; the Secretary, on demand made by such producers and on such assurances as to nonpayment as the Secretary shall require, shall pay such producers such maximum benefits less benefits previously received by such producers.

(B) On such payment, the Secretary shall—

(i) be subrogated to all claims of such producers against the processor and other persons responsible for nonpayment; and

(ii) have authority to pursue such claims as necessary to recover the benefits not paid to the producers.

(C) The Secretary shall carry out this paragraph through the Commodity Credit Corporation.

The Commodity Credit Corporation may sell any farm commodity owned or controlled by the Corporation at any price not prohibited by this section.

(b) Inventories

In determining sales policies for basic agricultural commodities or storable nonbasic commodities, the Corporation should consider the establishment of such policies with respect to prices, terms, and conditions as the Corporation determines will not discourage or deter manufacturers, processors, and dealers from acquiring and carrying normal inventories of the commodity of the current crop.

(c) Sales price restrictions

(1) In general

Except as otherwise provided in this section, the Corporation shall not sell any basic agricultural commodity or storable nonbasic commodity at less than 115 percent of the lower of:

(A) the current national average price support loan rate for the commodity adjusted for the current market differentials reflecting grade, quality, location, reasonable carrying charges, and other factors determined appropriate by the Corporation; or

(B) the loan repayment level.

(2) Extra long staple cotton

The Corporation may sell extra long staple cotton for unrestricted use at such price as the Corporation determines is appropriate to maintain and expand export and domestic markets.

(3) Oilseeds

The Corporation shall not sell oilseeds at less than the lower of—

(A) 105 percent of the current national average price support loan rate for the oilseed, adjusted for the current market differentials reflecting grade, quality, location, reasonable carrying charges, and other factors determined appropriate by the Corporation; or

(B) 115 percent of the loan repayment level.

(4) Wheat and feed grains

Whenever the producer reserve program for wheat and feed grains established under section 1445e of this title is in effect, the Corporation may not sell any of its stocks of wheat or feed grains at a level that is less than 150 percent of the then current loan rate for wheat or feed grains.

(5) Upland cotton

The Commodity Credit Corporation shall sell upland cotton for unrestricted use at the same price the Corporation sells upland cotton for export, but in no event at less than the amount provided for in paragraph (1).

(d) Nonapplication of sales price restrictions

The foregoing restrictions of this section shall not apply to—

(1) sales for new or byproduct uses;

(2) sales of peanuts and oilseeds for the extraction of oil;

(3) sales for seed or feed if the sales will not substantially impair any price support program;

(4) sales of commodities that have substantially deteriorated in quality or as to which there is a danger of loss or waste through deterioration or spoilage;

(5) sales for the purpose of establishing claims arising out of contract or against persons who have committed fraud, misrepresentation, or other wrongful acts with respect to the commodity;

(e) Distress, disaster, and livestock emergency areas

(1) In general

Notwithstanding the foregoing provisions of this section, the Corporation, on such terms and conditions as the Secretary may consider in the public interest, may—

(A) make available any farm commodity or product thereof owned or controlled by the Corporation for use in relieving distress—

(i) in any area in the United States (including the Virgin Islands) declared by the President to be an acute distress area because of unemployment or other economic cause, if the President finds that the use will not displace or interfere with normal marketing of agricultural commodities; and

(ii) in connection with any major disaster determined by the President to warrant assistance by the Federal Government under the Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.); and

(B) donate or sell commodities in accordance with subchapter V of this chapter.

(B) the handling and transportation costs in making delivery of the commodity to designated agencies at one or more central locations in each State or other area.

(f) Efficient operations
(1) In general
Subject to paragraph (2), the foregoing restrictions of this section shall not apply to sales of commodities the disposition of which is desirable in the interest of the effective and efficient conduct of the operations of the Corporation because of the small quantities involved, or because of age, location or questionable continued storability of the commodity.

(2) Offsets
The sales shall be offset (if necessary) by the purchases of commodities as the Corporation determines is appropriate to prevent the sales from substantially impairing any price support program or unduly affecting market prices, except that the purchase price shall not exceed the Corporation's minimum sales price for the commodities for unrestricted use.

(3) Competitive bid basis
Subject to the sales price restrictions contained in this section, the Corporation may sell any basic agricultural commodity or storable nonbasic commodity on a competitive bid basis, if the sale is determined to be appropriate by the Secretary.

L. 97–98, which had established a floor for sales of wheat and feed grains in inventories for unrestricted use at 115 per centum of the current national average loan rate for the commodity adjusted for current market differentials reflecting grade, quality, location, and other value factors, plus reasonable carrying charges; designated such provisions as thus reenacted as cl. (A) of the proviso involved and added cl. (B) relating to the Secretary’s permitting the repayment of loans at a loan rate less than the loan level determined for such crop; and reenacted, also without change, the amendments by Pub. L. 97–98 which had the price at which purchases had to be made to offset sales in the interest of the efficient conduct of the Corporation’s operations at an amount not exceeding the minimum sales price for the commodity for unrestricted use. See Effective and Termination Dates of 1985 Amendments note below.

L. 99–198, §1763(b), inserted provision giving the Commodity Credit Corporation authority to (1) make available feed for livestock to certain persons during emergencies in areas in which feed grains are normally produced and normally available for feed purposes, but in which they are unavailable because of a catastrophe described in the fourth sentence of this section, (2) make such feed available to such persons through feed dealers in the areas, (3) make such feed available at a price not less than the price prescribed in the fourth sentence of this section, and (4) bear any expenses in-

L. 88–585 provided that the Corporation, in providing feed to distressed areas, may charge not less than 75 percent of the current basic county support rate including the value of any applicable price support payment in kind, included the Virgin Islands within those areas where such feed can be made obtainable, authorized the Secretary to provide feed by feed dealers authorized the Secretary to provide feed by feed dealers to such persons under this sentence, including transportation and handling costs, under such arrangement that the feed so furnished would be replaced with feed owned or controlled by the Corporation and sold to such persons, and inserted “or other area,” after “one or more central locations in each State”.

L. 85–835 required Corporation to sell cotton for unrestricted use at not less than 15 percent above support price plus reasonable carrying charges, and authorized Corporation to sell at market price a number of bales equal to that by which the national marketing quota is less than domestic consumption and exports.

1956—Act Jan. 28, 1956, included as “sales for export” sales made on condition that like commodities of comparable value or quantity be exported in raw or processed form.

1954—Act July 29, 1954, exempted from the minimum price requirement any sales where disposition is desirable in the interest of effective and efficient conduct of the Corporation’s operations because of the small quantities involved or because of age, location, or questionable storability.

§ 1433a. Forgiveness of violations; determinations

Notwithstanding any other provision of law, whenever a producer samples, turns, moves, or replaces grain or any other commodity which is security for a Commodity Credit Corporation producer loan or is held under a producer reserve program, and does so in violation of law or regulation, the appropriate county committee established under section 590h(b) of title 16 may forgive some or all of the penalties and requirements that would normally be imposed on the producer by reason of the violation, if such committee determines that (1) the violation occurred inadvertently or accidentally, because of lack of knowledge or understanding of the law or regulation, or because the producer or the producer’s agent acted to prevent spoilage of the commodity, and (2) the violation did not result in harm or damage to the rights or interests of any person. The county committee shall furnish a copy of its determination to the Administrator of the Agricultural Stabilization and Conservation Service and the appropriate State committee established under section 590h(b) of title 16. § 1433b. Processing of surplus agricultural commodities into liquid fuels and agricultural commodity byproducts

(a) Authority of Commodity Credit Corporation; terms and conditions established by Secretary; fuel prices

Notwithstanding any other provision of law, in order to prevent the accumulation of excessive stocks of agricultural commodities through the price support and stabilization operations of the Commodity Credit Corporation; the Corporation may, under terms and conditions established by the Secretary, make its accumulated stocks of agricultural commodities available, at no cost or reduced cost, to encourage the purchase of such commodities for the production of liquid fuels and agricultural commodity byproducts. In carrying out the program established by this section, the Secretary shall ensure, insofar as possible, that any use of agricultural commodities made available be made in such manner as to encourage increased use and avoid displacing usual marketings of agricultural commodities.

(b) Feasibility of processing

In determining the feasibility of providing for the processing of Commodity Credit Corporation stocks of commodities under subsection (a) of this section, the Secretary shall consider the nature of the commodities, and the acquisition, transportation, handling, storage, interest, and other costs associated with acquiring and maintaining such stocks, including the effect of such stocks in depressing commodity prices, as well as the value and utility of such stocks when processed into liquid fuels and agricultural commodity byproducts.

**Codification**

§ 1433c. Advance recourse commodity loans

Notwithstanding any other provision of this Act, the Secretary may make advance recourse loans available to producers of the commodities of the 1986 through 1990 crops for which non-recourse loans are made available under this Act.

1 So in original. Probably should be followed by a comma.
§ 1433c–1  ADVANCE RECOERC LoanS  
(a) Availability; due date; procedures for repayment; applicability; security; limitation  

It is the sense of Congress that the Secretary of Agriculture carry out a program authorized by section 424 of the Agricultural Act of 1949 [7 U.S.C. 1433c]. Such program, if implemented, shall provide for the following:

(1) Advance recourse loans shall be made available only to those producers of a commodity who are unable to obtain sufficient credit elsewhere to finance the production of the 1986 crop of that commodity, taking into consideration prevailing private and cooperative rates and terms for loans for similar purposes (as determined by the Secretary) in the community in or near which the applicant resides. A producer who has received a commitment or been furnished sufficient credit or a loan for production of the 1986 crop of a commodity shall not be eligible for an advance recourse loan to finance the production of that commodity for such crop year.

(2) Advance recourse loans shall be made available to producers of a commodity at the applicable nonrecourse loan rate for the commodity (as determined by the Secretary). Within the limits set out in paragraphs (5) and (7), advance recourse loans shall be available—  

(A) to producers of wheat, feed grains, cotton, and rice who agree to participate in the program announced for the commodity on an amount of the commodity equal to one-half of the farm program yield for the commodity multiplied by the farm program acreage intended to be planted to the commodity for harvest in 1986, as determined by the Secretary; and  

(B) to producers of peanuts who are on a farm for which a marketing quota or poundage quota has been established on an amount of the commodity equal to one-half of the farm marketing quota or poundage quota for the commodity, as determined by the Secretary; and  

(C) to producers of other commodities on an amount of the commodity equal to one-half of the farm yield for the commodity multiplied by the farm acreage intended to be planted to the commodity for harvest in 1986, as determined by the Secretary.

(3) An advance recourse loan under section 424 (7 U.S.C. 1433c) shall come due at such time immediately following harvest as the Secretary determines appropriate. Each loan contract entered into under section 424 shall specify the date on which the loan is to come due.

(4)(A) The Secretary shall establish procedures, when practicable, under which a producer, simultaneously with repayment of his recourse loan, may obtain a nonrecourse loan on his crop (as otherwise provided for in the Agricultural Act of 1949 [7 U.S.C. 1421 et seq.]) in an amount sufficient to repay his recourse loan.

(B) In cases in which nonrecourse loans under such Act are not normally made available directly to producers, the Secretary shall establish procedures under which a producer may repay a recourse loan at the same time the producer receives advances or other payment from the producer’s disposition of his crop.

(5) Advance recourse loans shall be made available as needed solely to cover costs involved in the production of the 1986 crop that are incurred or are outstanding on or after March 20, 1986.

(6) To obtain an advance recourse loan, the producer on a farm must—  

(A) provide as security for the loan a first lien on the crop covered by the loan or provide such other security as may be available to the producer and determined by the Secretary to be adequate to protect the Government’s interests; and  

(B) obtain multiyear crop insurance, available to protect the crop that serves as security for the loan.

If a producer does not have multiyear crop insurance and is located in a county in which the signup period for multiyear crop insurance has expired, the producer shall be required to obtain other crop insurance, if available.

(7) The total amount in advance recourse loans that may be made to a producer under section 424 (7 U.S.C. 1433c) may not exceed $50,000.

(8) An advance recourse loan may be made available only to a producer who agrees to comply with such other terms and conditions determined appropriate by the Secretary and consistent with the provisions of section 424 (7 U.S.C. 1433c).
(b) Use of Commodity Credit Corporation, Agricultural Stabilization and Conservation Service, and county committees

The Secretary shall carry out the program provided for under section 424 [7 U.S.C. 1433c] through the Commodity Credit Corporation, using the services of the Agricultural Stabilization and Conservation Service and the county committees established under section 590h(b) of title 16 to make determinations of eligibility with respect to the credit test under subsection (a)(1) of this section, and determinations as to the sufficiency of security under subsection (a)(6) of this section. The Secretary may use such committees for such other purposes as the Secretary determines appropriate in carrying out section 424.

(c) Regulations

It is further the sense of Congress that the Secretary of Agriculture issue or, as appropriate, amend regulations to implement any program established under section 424 [7 U.S.C. 1433c] as soon as practicable, but not later than 15 days after March 20, 1986. Loans and other assistance provided under such program shall be made available beginning on the date such regulations are issued or amended.

(c) Notwithstanding the foregoing provisions of this section—

(1) if producers have not disapproved marketing quotas for such crop, the level of support to cooperators shall be 90 per centum of the parity price for the 1950 crop of any basic agricultural commodity for which marketing quotas or acreage allotments are in effect;

(2) if producers have not disapproved marketing quotas for such crop, the level of support to cooperators shall be not less than 80 per centum of the parity price for the 1951 crop of any basic agricultural commodity for which marketing quotas or acreage allotments are in effect;

(5) price support may be made available to noncooperators at such levels, not in excess of the level of price support to cooperators, as the Secretary determines will facilitate the effective operation of the program.

(7) Where a State is designated under section 1335(e) of this title, as outside the commercial wheat-producing area for any crop of wheat, the level of price support for wheat to cooperators in such State for such crop of wheat shall be 75 per cent of the level of price support to cooperators in the commercial wheat-producing area.

(d) Rice.—The Secretary shall make available to producers of each crop of rice on a farm price support at a level that is not less than 50 percent, or more than 90 percent of the parity price for rice as the Secretary determines will not result in increasing stocks of rice to the Commodity Credit Corporation.

If producers have not disapproved marketing quotas for any crop of extra long staple cotton, price support loans shall be made available to cooperatives for such crop at a level which is not less than 75 per centum or more than 125 per centum in excess of the loan level established for Strict Low Middling one and one-sixteenth inch upland cotton (micronaire 3.5 through 4.9) of such crop at average location in the United States. If producers have disapproved marketing quotas for any crop of extra long staple cotton, price support loans shall be made available to cooperatives for such crop at a level which shall be 50 per centum in excess of the loan level established for Strict Low Middling one and one-sixteenth inch upland cotton (micronaire 3.5 through 4.9) of such crop at average location in the United States. Nothing contained herein shall affect the authority of the Secretary to make price support available for extra long staple cotton in accordance with section 1422 of this title.” See section 1444(b) of this title.

1958—Subsec. (a). Pub. L. 85–835, § 302(a), substituted “‘and wheat’” for “‘wheat, and rice’” and added par. requiring rice price support levels to be not less than 75, 70, and 65 per centum of parity for 1959 and 1960, 1961, and 1962 and subsequent crop years, respectively.

Subsec. (d)(4). Act Oct. 31, 1949, § 104(b)(3), as added Pub. L. 85–835, § 201, repealed par. (4) which provided for price support level for corn to cooperators outside the commercial corn-producing area at 75 per centum of the level of price support to cooperators in the commercial corn-producing area.

Subsec. (f). Pub. L. 85–347 provided that the level of support for crops of long staple cotton shall not exceed the same per centum of the parity price as for the 1956 crop, required such level to be determined after consideration of the factors specified in section 1421(b) of this title and the price levels for similar qualities of cotton produced outside the United States, and established a minimum of not less than 60 per centum of the parity price as the level for extra long staple cotton.

1957—Subsec. (f). Pub. L. 85–28 set the price support for extra long staple cotton for 1957 and each subsequent crop at same per centum of parity price as for 1956 crop.

Subsec. (f). Act Aug. 28, 1954, § 202, set the price support for long staple cotton at the minimum determined in accordance with the schedule in subsec. (b) of this section.

§ 1441–1a. Market ing certificates for rice

(a) Authority of Commodity Credit Corporation to issue negotiable marketing certificates

Notwithstanding any other provision of law, whenever, during the period beginning August 1, 1986, and ending July 31, 1991, the world price for a class of rice (adjusted to United States qualities and location), as determined by the Secretary of Agriculture, is below the current loan repayment rate for that class of rice, to make United States rice competitive in world markets and to maintain and expand exports of rice produced in the United States, the Commodity Credit Corporation, under such regulations as the Secretary may prescribe, shall make payments through the issuance of negotiable marketing certificates, to persons who have entered into an agreement with the Commodity Credit Corporation to participate in the program established under this section. Such payments shall be made in such monetary amounts and subject to such terms and conditions as the Secretary determines will make rice produced in the United States available at competitive prices consistent with the purposes of this section, including such payments as may be necessary to make rice in inventory on August 1, 1986, available on the same basis.

(b) Determination of value of certificates

The value of each certificate issued under subsection (a) of this section shall be based on the difference between—

(1) the loan repayment rate for the class of rice; and
(2) the prevailing world market price for the class of rice, as determined by the Secretary of Agriculture under a published formula submitted for public comment before its adoption.

(c) Commodity Credit Corporation assistance in redemption, marketing, or exchange of certificates

The Commodity Credit Corporation, under regulations prescribed by the Secretary of Agriculture, may assist any person receiving marketing certificates under this section in the redemption of certificates for cash, or marketing or exchange of such certificates for (1) rice owned by the Commodity Credit Corporation or (2) (if the Secretary and the person agree) other agricultural commodities or the products thereof of the Commodity Credit Corporation, at such times, in such manner, and at such price levels as the Secretary determines will best facilitate the purposes of the program established under this section. Notwithstanding any other provision of law, any price restrictions that may otherwise apply to the disposition of agricultural commodities by the Commodity Credit Corporation shall not apply to the redemption of certificates under this section.

(d) Exchange of certificates for commodities and products

Insofar as practicable, the Secretary shall permit owners of certificates to designate the commodities and the products thereof, including storage sites thereof, such owners would prefer to receive in exchange for certificates. If any certificate is not presented for redemption, marketing, or exchange within a reasonable number of days after the issuance of such certificate (as determined by the Secretary), reasonable costs of storage and other carrying charges, as determined by the Secretary, shall be deducted from the value of the certificate for the period beginning after such reasonable number of days and ending with the date of the presentation of such certificate to the Commodity Credit Corporation.

(e) Prevention of adverse effects

The Secretary of Agriculture shall take such measures as may be necessary to prevent the marketing or exchange of agricultural commodities and the products thereof for certificates under this section from adversely affecting the income of producers of such commodities or products.

(f) Transfer of certificates

Under regulations prescribed by the Secretary of Agriculture, certificates issued to rice exporters under this section may be transferred to other exporters and persons approved by the Secretary.

§ 1441a. Cost of production study and establishment of current national weighted average cost of production

The Secretary of Agriculture, in cooperation with the land grant colleges, commodity organizations, general farm organizations, and individual farmers, shall conduct a cost of production study of the wheat, feed grain, cotton, and dairy commodities under the various production practices and establish a current national weighted average cost of production. This study shall be
updated annually and shall include all typical variable costs, including interest costs, a return on fixed costs, and a return for management.

Codification

Section was enacted as part of the Agricultural Act of 1970 as added by the Agriculture and Consumer Protection Act of 1973, and not as part of the Agricultural Act of 1949 which is classified principally to this chapter. For complete classification of the 1949 Act to the Code, see Short Title note set out under section 1421 of this title and Tables.

Amendments

1981—Pub. L. 97–98 inserted “including interest costs,” after “variable costs,”, substituted “, and a return for management” for “equal to the existing interest rates charged by the Federal Land Bank, and return for management comparable to the normal management fees charged by other comparable industries”, and struck out provision that these studies be based upon the size unit that requires one man to farm on a full-time basis.

Effective Date of 1981 Amendment

§ 1442. Price support and acreage requirements for corn and other feed grains

(a) Conditions of eligibility

Notwithstanding any other provision of law, whenever base acreages are in effect for corn, the Secretary shall require, as a condition of eligibility for price support on corn, that the producer (1) devote an acreage of cropland (tilled in normal rotation), at the option of the producer, to either the acreage reserve program for corn or the conservation reserve program, for corn or the conservation reserve program, equal to 15 per centum of such producer’s farm base acreage for corn, and (2) not exceed such farm base acreage for corn: Provided, That price support may be made available to any producer who does not meet the foregoing requirements at such level, but in excess of the level of price support to producers who meet such requirements, as the Secretary determines will facilitate the effective operation of the price support program. Corn acreage allotments shall not be effective for the 1956 crop.

(b) Referendum of producers of corn

Not later than December 15, 1956, the Secretary shall conduct a referendum of producers of corn in 1956 in the commercial corn-producing area to determine whether such producers favor a price-support program as provided in subsection (c) of this section for the 1957 and subsequent crops in lieu of acreage allotments as provided in the Agricultural Adjustment Act of 1938, as amended [7 U.S.C. 1281 et seq.], and price support as provided in section 1441 of this title.

(c) Restriction on acreage allotment of corn; price support level

Notwithstanding any other provision of law, if two-thirds or more of the producers voting in the referendum conducted pursuant to subsection (b) of this section favor a price-support program as provided in this subsection, no acreage allotment of corn shall be established for the commercial corn-producing area for any county, or for any farm, with respect to the 1957 and subsequent crops, and price support made available for such crops by Commodity Credit Corporation shall be at such level as the Secretary determines will assist producers in marketing corn in the normal channels of trade but not encourage the uneconomic production of corn.

(d) Price support level for 1956 and 1957 crops of grain sorghums, barley, rye, oats, and corn

Notwithstanding any other provision of law, (1) the level of price support for the 1956 crop of grain sorghums, barley, rye, and oats, respectively, shall be 76 per centum of the parity price for the commodity as of May 1, 1956, (2) the level of price support for corn produced outside the commercial corn-producing area, for any crop for which base acreages are in effect (except as provided in (3) below), shall be 82½ per centum of the level of price support for corn in the commercial corn-producing area to producers complying with acreage limitations, and (3) if price support is made available for the 1957 crop of corn in the commercial corn-producing area to producers not complying with acreage limitations, price support shall be made available for the 1957 crop of grain sorghums, barley, rye, oats, and corn produced outside the commercial corn-producing area, respectively, at a level, not less than 70 per centum of the parity price as of the beginning of the marketing year, determined by the Secretary to be fair and reasonable in relation to the level at which price support is made available for corn in the commercial corn-producing area to producers not complying with acreage limitations, taking into consideration the normal price relationships between such commodity and corn in the commercial area, the feed value of such commodity in relation to corn, the supply of such commodity in relation to the demand therefor, and the ability to dispose of stocks of such commodity acquired through price support programs.

§ 1443. Omitted

CODIFICATION

§ 1444. Cotton price support levels

(a) Basic support levels for 1961 and subsequent years

Notwithstanding the provisions of section 1441 of this title, the Secretary shall provide additional support annually for each crop of upland cotton, beginning with the 1961 crop, for which producers have not disapproved marketing quotas shall be at such level not more than 90 per centum of the parity price therefor nor less than the minimum level prescribed below as the Secretary determines appropriate after consideration of the factors specified in section 1421(b) of this title. For the 1961 crop the minimum level shall be 70 per centum of the parity price therefor, and for each subsequent crop the minimum level shall be 65 per centum of the parity price therefor: Provided, That the price support for the 1965 crop shall be a national average support price which reflects 30 cents per pound for Middling one-inch cotton. Price support in the case of noncooperators and in case marketing quotas are disapproved shall be as provided in section 1441(d)(3) and (5) of this title.

(b) Additional support levels for 1964 and 1965

If producers have not disapproved marketing quotas, the Secretary shall provide additional support to cooperators on whose farms the acreage planted to upland cotton for harvest does not exceed the farm domestic allotment established under section 1350 of this title. Such additional support shall be at a level up to 15 per centum in excess of the basic level of support established under subsection (a) of this section and shall be provided on the normal yield of the acreage planted for harvest within the farm domestic allotment. For purposes of this subsection, an acreage on the farm which the Secretary finds was not planted to cotton in 1965 because of flood, drought, or other natural disaster shall be deemed by the Secretary to be an actual acreage of cotton planted on the farm for harvest, provided such acreage is not subsequently devoted to any price supported crop for 1965.

(c) Alternative operations for carrying out additional price support; payment-in-kind certificates; value, marketing assistance, redemption, and deductions after thirty day period

In order to keep upland cotton to the maximum extent practicable in the normal channels of trade, any additional price support under subsection (b) of this section may be carried out through the simultaneous purchase of cotton at the support price therefor under subsection (b) of this section and the sale of such cotton at the support price therefor under subsection (a) of this section or similar operations, including loans under which the cotton would be redeemable by payment of the amount for which the cotton would be redeemable if the loan thereon had been made at the support price for such cotton under subsection (a) of this section, or payments-in-kind through the issuance of certificates which the Commodity Credit Corporation shall redeem for cotton under regulations issued by the Secretary. If such additional support is provided through the issuance of payment-in-kind certificates, such certificates shall have a value per pound of cotton equal to the difference between the level of support established under subsection (a) of this section and the level of support established under subsection (b) of this section. The corporation may, under regulations prescribed by the Secretary, assist the producers and persons receiving payment-in-kind certificates under this section and section 1348 of this title, in the marketing of such certificates at such time and in such manner as the Secretary determines will best effectuate the purposes of the program authorized by this section and such section 1348. In the case of any certificate not presented for redemption within thirty days of the date of its issuance, reasonable costs of storage and other carrying charges as determined by the Secretary for the period beginning thirty days after its issuance and ending with the date of its presentation for redemption shall be deducted from the value of the certificate.

(d) Price support and diversion payments for 1966 through 1970 crops

(1) Notwithstanding any other provision of this Act, if producers have not disapproved marketing quotas, price support and diversion payments shall be made available for the 1966 through 1970 crops of upland cotton as provided in this subsection.

(2) Price support for each such crop of upland cotton shall be made available to cooperators through loans at such level, not exceeding a level which will reflect for Middling one-inch cotton at average location in the United States 90 per centum of the estimated average world market price for Middling one-inch upland cotton for the marketing year for such crop, as the Secretary determines will provide orderly marketing of cotton during the harvest season and will retain an adequate share of the world market for cotton produced in the United States taking into consideration the factors specified in section 1421(b) of this title: Provided, That the national average loan rate for the 1966 crop shall reflect 21 cents per pound for Middling one-inch upland cotton.

(3) The Secretary also shall provide additional price support for each such crop through payments in cash or in kind to cooperators at a rate not less than 9 cents per pound: Provided, That the rate shall be such that the amount obtained by—

(i) multiplying the rate by the farm domestic acreage allotment percentage, and

(ii) dividing the product thus obtained by the cooperator percentage established under section 1428(b) of this title, and

(iii) adding the result thus obtained to the national average loan rate shall not be less than 65 per centum or more than 90 per centum of the parity price for cotton.
as of the month in which the payment rate provided for by this paragraph is announced. Such payments shall be made on the quantity of cotton determined by multiplying the projected farm yield by the acreage planted to cotton within the farm domestic acreage allotments: Provided, That any such farm planting not less than 90 per centum of such domestic acreage allotment shall be deemed to have planted the entire amount of such allotment. An acreage on a farm in any such year which the Secretary finds was not planted to cotton because of drought, flood, or other natural disaster shall be deemed to be planted to cotton for purposes of payments under this subsection if such acreage is not subsequently devoted to any other crop for which there are marketing quotas or voluntary adjustment programs in effect.

(4) The Secretary shall make diversion payments in cash or in kind in addition to the price support payments authorized in paragraph (3) to cooperators who reduce their cotton acreage by diverting a portion of their cotton acreage allotments from the production of cotton to approved conservation practices to the extent prescribed by the Secretary: Provided, That no reduction below the domestic acreage allotments established under section 1350 of this title shall be prescribed: Provided further, That payment under this paragraph shall be made available for diverting to conserving uses that part of the acreage allotment which must be diverted from cotton in order that the producer may qualify as a cooperator. The rate of payment for acreage required to be diverted to qualify as a cooperator by the projected farm yield, and the remainder of such allotment may be released under the provisions of section 1344(m)(2) of this title. The acreage on which payment is made under this paragraph shall be regarded as planted to cotton for purposes of establishing future State, county, and farm acreage allotments, and farm bases.

(7) Payments in kind under this subsection shall be made through the issuance of certificates which the Commodity Credit Corporation shall redeem for cotton under regulations issued by the Secretary at a value per pound equal to not less than the current loan rate therefore. The Corporation may, under regulations prescribed by the Secretary, assist the producers in the marketing of such certificates at such times and in such manner as the Secretary determines will best effectuate the purposes of the program authorized by this subsection.

(8) Payments under this subsection shall be conditioned on the farm having an acreage of approved conservation uses equal to the sum of (i) the reduction in cotton acreage required to qualify for such payments (hereinafter called "diverted acreage"), and (ii) the average acreage of cropland on the farm devoted to designated soil-conserving crops or practices, including summer fallow and idle land, during a base period prescribed by the Secretary: Provided, That the Secretary may permit all or any part of such diverted acreage to be devoted to the production of guar, sesame, safflower, sunflower, castor beans, mustard seed, crambe, plantago ovato, and flaxseed, if he determines that such production is necessary to provide an adequate supply of such commodities, is not likely to increase the cost of the price support program, and will not adversely affect farm income, subject to the condition that payment under paragraph (4) or (6) with respect to diverted acreage devoted to any such crop shall be at a rate determined by the Secretary to be fair and reasonable, taking into consideration the use of such acreage for the production of such crops, but in no event shall the payment exceed one-half the rate which otherwise would be applicable if such acreage were devoted to conservation uses.

(9) The acreage regarded as planted to cotton on any farm which qualifies for payment under this subsection except under paragraph (6) shall, for purposes of establishing future State, county, and farm acreage allotments and farm bases, be the farm acreage allotment established under section 1344 of this title, excluding adjustments under subsection (m)(2) thereof.

(10) The Secretary shall provide adequate safeguards to protect the interests of tenants and sharecroppers, including provision for sharing diversion payments on a fair and equitable basis under this subsection. The Secretary shall provide for the sharing of price support payments among producers on the basis of their respective shares in the cotton crop produced on the farm, or the proceeds therefrom, except that in any case in which the Secretary determines that such basis would not be fair and equitable, the Secretary shall provide for such sharing on such other basis as he may determine to be fair and equitable.

(11) In any case in which the failure of a producer to comply fully with the terms and condi-
tions of the programs formulated under this Act preclude the making of payments under this section, the Secretary may, nevertheless, make such payments in such amounts as he determines to be equitable in relation to the seriousness of the default.

(12) Notwithstanding any other provision of this Act, if, as a result of limitations hereafter enacted with respect to price support under this subsection, the Secretary is unable to make available to all cooperators the full amount of price support to which they would otherwise be entitled under paragraphs (2) and (3) of this subsection for any crop of upland cotton, (A) price support to cooperators shall be made available for such crop (if marketing quotas have not been disapproved) through loans or purchases at such level not less than 65 per centum nor more than 90 per centum of the parity price therefor as the Secretary determines appropriate; (B) in order to keep upland cotton to the maximum extent practicable in the normal channels of trade, such price support may be carried out through the simultaneous purchase of cotton at the support price therefor and resale at a lower price or through loans under which the cotton would be redeemable by payment of a price therefor lower than the amount of the loan thereon; and (C) such resale or redemption price shall be such as the Secretary determines will provide orderly marketing of cotton during the harvest season and will retain an adequate share of the world market for cotton produced in the United States.

(13) The provisions of section 590h(g) of title 16 (relating to assignment of payments), shall also apply to payments under this subsection.

(14) The Commodity Credit Corporation is authorized to utilize its capital funds and other assets for the purpose of making the payments authorized in this subsection and to pay administrative expenses necessary in carrying out this subsection.

(e) Price support, diversion, and cropland set-aside program for crops beginning with 1971 crop

(1) The Secretary shall upon presentation of warehouse receipts reflecting accrued storage charges of not more than 60 days make available for the 1971 through 1977 crops of upland cotton to cooperators nonrecourse loans for a term of ten months from the first day of the month in which the loan is made at such level as will reflect the Middling one-inch upland cotton (micronaire 3.5 through 4.9) at average location in the United States 90 per centum of the average price of American cotton in world markets for such cotton for the three-year period ending July 31 in the year in which the loan is made, except that if the calculated is higher than the then current level of average world prices for American cotton of such quality, the Secretary is authorized to adjust the current calculated loan rate for cotton to 90 per centum of the then current average world price. The average world price for such cotton for such preceding three-year period shall be determined by the Secretary annually pursuant to a published regulation which shall specify the procedures and the factors to be used by the Secretary in making the world price determination. The loan level for any crop of upland cotton shall be determined and announced not later than November 1 of the calendar year preceding the marketing year for which such loan is to be effective. Notwithstanding the foregoing, the carryover of upland cotton as of the beginning of the marketing year for any of the 1972 or 1973 crops exceeds 7.2 million bales, producers on any farm harvesting cotton of such crop from an acreage in excess of the base acreage allotment for such farm shall be entitled to loans and purchases only on an amount of the cotton of such crop produced on such farm determined by multiplying the yield used in computing payments for such farm by the base acreage allotment for such farm. (2) Payments shall be made for each crop of cotton to the producers on each farm at a rate equal to the amount by which the higher of—

(1) the average market price received by farmers for upland cotton during the calendar year which includes the first five months of the marketing year for such crop, as determined by the Secretary, or

(2) the loan level determined under paragraph (1) for such crop

is less than the established price of 38 cents per pound in the case of the 1974 and 1975 crops, 38 cents per pound adjusted to reflect any change in the index of prices paid by farmers for production items, interest, taxes, and wage rates in the case of the 1976 crop, and the established price for the 1976 crop adjusted to reflect any change during the calendar year 1976 in such index in the case of the 1977 crop: Provided, That any increase that would otherwise be made in the established price to reflect a change in the index of prices paid by farmers shall be adjusted to reflect any change in (i) the national average yield per acre of cotton for the three calendar years preceding the year for which the determination is made, over (ii) the national average yield per acre of cotton for the three calendar years preceding the year previous to the one for which the determination is made. If the Secretary determines that the producers on a farm are prevented from planting any portion of the allotment to cotton because of drought, flood, or other natural disaster, or condition beyond the control of the producer, the rate of payment for such portion shall be the larger of (A) the foregoing rate, or (B) one-third of the established price. If the Secretary determines that, because of such a disaster or condition, the total quantity of cotton which the producers are able to harvest on any farm is less than 66% percent of the farm base acreage allotment times the average yield established for the farm, the rate of payment for the deficiency in production below 100 percent shall be the larger of (A) the foregoing rate, or (B) one-third of the established price. The payment rate with respect to any producer who (i) is on a small farm (that is, a farm on which the base acreage allotment is ten acres or less, or on which the yield used in making payments times the farm base acreage allotment is five thousand pounds or less, and for which the base acreage allotment has not been reduced under section 1350(f) of this title, (ii) resides on such farm, and
(iii) derives his principal income from cotton produced on such farm, shall be increased by 30 per centum; but, notwithstanding paragraph (3), such increase shall be made only with respect to his share of cotton actually harvested on such farm within the quantity specified in paragraph (3).

(3) Such payments shall be made available for a farm on the quantity of upland cotton determined by multiplying the acreage planted within the farm base acreage allotment for the farm for the crop by the average yield established for the farm: Provided, That payments shall be made on any farm planting not less than 90 per centum of the farm base acreage allotment on the basis of the entire amount of such allotment. For purposes of this paragraph, an acreage on the farm which the Secretary determines was not planted to cotton because of drought, flood, other natural disaster, or a condition beyond the control of the producer shall be considered to be an acreage planted to cotton. The average yield for the farm for any year shall be determined on the basis of the actual yields per harvested acre for the three preceding years, except that the 1970 farm planted yield shall be substituted in lieu of the actual yields for the years 1968 and 1969: Provided, That the actual yields shall be adjusted by the Secretary for abnormal yields in any year caused by drought, flood, or other natural disaster: Provided further, That the average yield established for the farm for any year shall not be less than the yield used in making payments for the preceding year if the total cotton production on the farm in such preceding year is not less than the yield used in making payments for the farm for such preceding year times the farm base acreage allotment for such preceding year (for the 1970 crop, the farm domestic allotment).

(4) (A) The Secretary shall provide for a set aside of cropland if he determines that the total supply of agricultural commodities will, in the absence of such a set-aside, likely be excessive taking into account the need for an adequate carryover to maintain reasonable and stable supplies and prices and to meet a national emergency. If a set-aside of cropland is in effect under this paragraph (4), then as a condition of eligibility for loans and payments on upland cotton the producers on a farm must set aside and devote to approved conservation uses an acreage equal to: (i) such percentage of the farm base acreage allotment for the farm as may be specified by the Secretary (not to exceed 25 per centum of the farm base acreage allotment), plus, if required by the Secretary, (ii) the acreage of cropland on the farm devoted in preceding years to soil conserving uses, as determined by the Secretary. The Secretary is authorized for the 1974 through 1977 crops to limit the acreage planted to upland cotton on the farm in excess of the farm base acreage allotment to a percentage of the farm base acreage allotment. The Secretary shall permit producers to plant and graze on set-aside acreage sweet sorghum, and the Secretary may permit, subject to such terms and conditions as he may prescribe, all or any of the set-aside acreage to be devoted to hay and grazing or the production of guar, sesame, safflower, sunflower, castor beans, mustard seed, crambe, plantago ovato, flaxseed, triticale, oats, rye, or other commodity, if he determines that such production is needed to provide an adequate supply, is not likely to increase the cost of the price-support program, and will not adversely affect farm income.

(B) To assist in adjusting the acreage of commodities to desirable goals, the Secretary may make land diversion payments, in addition to the payments authorized in subsection (e)(2) of this section, to producers on a farm who, to the extent prescribed by the Secretary, devote to approved conservation uses an acreage of cropland on the farm in addition to that required to be so devoted under subsection (e)(4)(A) of this section. The land diversion payments for a farm shall be at such rate or rates as the Secretary determines to be fair and reasonable taking into consideration to the diversion undertaken by the producers and the productivity of the acreage diverted. The Secretary shall limit the total acreage to be diverted under agreements in any county or local community so as not to adversely affect the economy of the county or local community.

(5) The upland cotton program formulated under this section shall require the producer to take such measures as the Secretary may deem appropriate to protect the set-aside acreage and the additional diverted acreage from erosion, insects, weeds, and rodents. Such acreage may be devoted to wildlife food plots or wildlife habitat in conformity with standards established by the Secretary in consultation with wildlife agencies. The Secretary may in the case of programs for the 1974 through 1977 crops, pay an appropriate share of the cost of practices designed to carry out the purposes of the foregoing sentences. The Secretary may provide for an additional payment on such acreage in an amount determined by the Secretary to be appropriate in relation to the benefit to the general public if the producer agrees to permit, without other compensation, access to all or such portion of the farm as the Secretary determines to be appropriate in relation to the diversion undertaken by the producers and the productivity of the acreage diverted. The land diversion payments for a farm shall be at such rate or rates as the Secretary shall determine, taking into account the need for an adequate supply of agricultural commodities, is not likely to increase the cost of the price-support program, and will not adversely affect farm income.

(6) If the operator of the farm desires to participate in the program formulated under this section, he shall file his agreement to do so no later than such date as the Secretary may prescribe. Loans and purchases on upland cotton and payments under this section shall be made available to the producers on such farm only if producers set aside and devote to approved soil conserving uses an acreage on the farm equal to the number of acres which the operator agrees to set aside and devote to approved soil conserving uses, and the agreement shall so provide. The Secretary may, by mutual agreement with the producer, terminate or modify any such agreement entered into pursuant to this subsection (e)(6) if he determines such action necessary because of an emergency created by drought or other disaster or in order to alleviate a shortage in the supply of agricultural commodities.

(7) The Secretary shall provide adequate safeguards to protect the interests of tenants and sharecroppers, including provision for sharing on a fair and equitable basis, in payments under this section.
(8) In any case in which the failure of a producer to comply fully with the terms and conditions of the program formulated under this section precludes the making of loans, purchases, and payments, the Secretary may, nevertheless, make such loans, purchases, and payments in such amounts as he determines to be equitable in relation to the seriousness of the default.

(9) The Secretary is authorized to issue such regulations as he determines necessary to carry out the provisions of this subchapter.

(10) The Secretary shall carry out the program authorized by this section through the Commodity Credit Corporation.

(11) The provisions of section 509h(g) of title 16 (relating to assignment of payments) shall apply to payments under this subsection.

(f), (g) Omitted

(h) Program for extra long staple cotton beginning with 1984 crop

(1) For purposes of this subsection, extra long staple cotton means cotton which is produced from pure strain varieties of the Barbadense species or any hybrid thereof, or other similar types of extra long staple cotton, designated by the Secretary, having characteristics needed for various end uses for which American upland cotton is not suitable and grown in irrigated cotton-growing regions of the United States designated by the Secretary or other areas designated by the Secretary as suitable for the production of such varieties or types and which is ginned on a roller-type gin or, if authorized by the Secretary, ginned on another type gin for experimental purposes.

(2) The Secretary shall, upon presentation of warehouse receipts reflecting accrued storage charges of not more than sixty days, make available to producers nonrecourse loans for a term of ten months from the first day of the month in which the loan is made at a level which is not less than 85 percent of the simple average price received by producers of extra long staple cotton, as determined by the Secretary, during 3 years of the 5-year period ending July 31 in the year in which the loan level is announced, excluding the year in which the average price was the highest and the year in which the average price was the lowest in such period. If authorized by the Secretary, nonrecourse loans provided for in this subsection may, upon request of the producer during the tenth month of the loan period for the cotton, be made available for an additional term of eight months. The loan level for any crop of extra long staple cotton shall be determined and announced by the Secretary not later than December 1 of the calendar year preceding the marketing year for which such loan is to be effective and such level shall not thereafter be changed.

(3)(A) In addition, payments shall be made for each crop of extra long staple cotton to producers on each farm at a rate equal to the amount by which the higher of—

(i) the average market price received by farmers for extra long staple cotton during the first eight months of the marketing year for such crop, as determined by the Secretary, or

(ii) the loan level determined under paragraph (2) of this subsection for such crop,

is less than the established price per pound times, in each case, the farm program acreage for extra long staple cotton (determined in accordance with paragraph (5)(A), but in no event on a greater acreage than the acreage actually planted to extra long staple cotton for harvest, multiplied by the farm program payment yield for extra long staple cotton (determined in accordance with paragraph (4)).

(B) The established price for each crop of extra long staple cotton shall be 120 per centum of the loan level determined for such crop under paragraph (2) of this subsection.

(C) If the Secretary establishes an acreage limitation program for a crop of extra long staple cotton in accordance with paragraph (5)(A) and determines that deficiency payments will likely be made for such crop of extra long staple cotton under subparagraph (A) of this paragraph, the Secretary may make available advance deficiency payments for such crop to producers who agree to participate in the acreage limitation program. Such advance payments shall be made available to producers as soon as practicable after the producer files a notice of intention to participate in such acreage limitation program and in such amount as the Secretary determines appropriate to encourage participation in such program, except that such amount shall not exceed an amount determined by multiplying (i) the estimated farm program acreage for the crop, by (ii) the farm program payment yield for the crop, by (iii) 50 per centum of the projected payment rate, as determined by the Secretary, in any case in which the deficiency payment payable to a producer for a crop, as finally determined by the Secretary under subparagraph (A) of this paragraph, is less than the amount paid to the producer as an advance deficiency payment under this paragraph, the producer shall refund an amount equal to the difference between the amount advanced and the amount finally determined by the Secretary to be payable to the producer. If the Secretary determines that no deficiency payments are due producers on a crop, the producer who received advanced payments on such crop shall refund such payments. If a producer fails to comply with the requirements under the acreage limitation program after obtaining an advance deficiency payment under this paragraph, the producer shall immediately repay the amount of the advance, plus interest thereon in such amount as the Secretary shall prescribe.

(4) The farm program payment yield for each crop of extra long staple cotton shall be determined on the basis of the actual yields per harvested acre on the farm for the preceding three years, except that the actual yields shall be adjusted by the Secretary for abnormal yields in any year caused by drought, flood, or other natural disaster, or other condition beyond the control of the producers. In case farm yield data for one or more years are unavailable or there was no production, the Secretary shall provide for appraisals to be made on the basis of actual yields and program payment yields for similar farms in the area for which data are available.
Notwithstanding the foregoing provisions of this paragraph in the determination of yields, the Secretary shall take into account the actual yields proved by the producer, and neither such yields nor the farm program payment yield established on the basis of such yields shall be reduced under other provisions of this paragraph. If the Secretary determines it necessary, the Secretary may establish national, State, or county program payment yields on the basis of historical yields, as adjusted by the Secretary to correct for abnormal factors affecting such yields in the historical period, or, if such data are not available, on the Secretary's estimate of actual yields for the crop year involved. If national, State, or county program payment yields are established, the farm program payment yields shall balance to the national, State, or county program payment yields.

(5)(A)(i) Notwithstanding any other provision of this subsection, the Secretary may establish a limitation on the acreage planted to extra long staple cotton if the Secretary determines that the total supply of extra long staple cotton, in the absence of such limitation, will be excessive taking into account the need for an adequate carryover to maintain reasonable and stable prices and to meet a national emergency. Such limitation shall be achieved by applying a uniform percentage reduction (including a zero percentage reduction) to the acreage base for each extra long staple cotton-producing farm. Producers who knowingly produce extra long staple cotton in excess of the permitted acreage for the farm shall be ineligible for extra long staple cotton loans and payments with respect to that farm. The acreage base for any farm for the purpose of determining any reduction required to be made for any year as a result of a limitation under this subparagraph shall be the average acreage planted on the farm to extra long staple cotton for harvest in the three crop years immediately preceding the year prior to the year for which the determination is made. For the purpose of the preceding sentence, acreage planted to extra long staple cotton for harvest shall include any acreage which the producer prevents from being planted to extra long staple cotton or other nonconserving crops in lieu of extra long staple cotton because of drought, flood, or other natural disaster or other condition beyond the control of the producers. The Secretary may make adjustments to reflect established crop-rotation practices and to reflect such other factors as the Secretary determines should be considered in determining a fair and equitable base. There is hereby established for the 1984, 1985, and 1986 crops an acreage base reserve equal to 5 per centum of the total of the farm acreage bases established for the crop under the foregoing provisions of this subparagraph. Such reserve shall be in addition to the total of the farm acreage bases and shall be used by the county committees, in accordance with regulations of the Secretary, for making adjustments of farm acreage bases to correct inequities and prevent hardship, and for establishing bases for farms on which no extra long staple cotton was planted during the preceding four years. A number of acres on the farm determined by dividing (i) the product obtained by multiplying the number of acres required to be withdrawn from the production of extra long staple cotton times the number of acres actually planted to such commodity, by (ii) the number of acres authorized to be planted to such commodity under the limitation established by the Secretary, shall be devoted to conservation uses, in accordance with regulations issued by the Secretary, which will assure protection of such acreage from weeds and wind and water erosion. The number of acres so determined is hereafter in this subsection referred to as "reduced acreage"). The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of the reduced acreage to be devoted to sweet sorghum, hay and grazing, or the production of guar, sesame, safflower, sunflower, castor beans, mustard seed, crambe, plantago ovato, flaxseed, triticale, rye, or other commodity, if the Secretary determines that such production is needed to provide an adequate supply of such commodities, is not likely to increase the cost of the price support program, and will not affect farm income adversely. The individual farm program acreage shall be the actual acreage planted on the farm to extra long staple cotton for harvest within the permitted extra long staple cotton acreage for the farm as established under this paragraph.

(ii) Notwithstanding any other provision of this Act, the Secretary shall ensure, under such terms and conditions as may be prescribed by the Secretary, that the total of the crop acreage bases established on a farm which is enrolled in a production adjustment program for any commodity shall not be increased as a result of the application of the provisions set forth in paragraph (13)(C), as extended for the 1989 and 1990 crop.

(B) The Secretary may make land diversion payments to producers of extra long staple cotton, whether or not an acreage limitation program for extra long staple cotton is in effect, if the Secretary determines that such land diversion payments are necessary to assist in adjusting the total national acreage of extra long staple cotton to desirable goals. Such land diversion payments shall be made to producers under land diversion contracts entered into by the Secretary with such producers. The amounts payable to producers under land diversion contracts may be determined through the submission of bids for such contracts by producers in such manner as the Secretary may prescribe or through such other means as the Secretary determines appropriate. In determining the acceptability of contract offers, the Secretary shall take into consideration the extent of the diversion to be undertaken by the producers and the productivity of the acreage diverted. The Secretary shall limit the total acreage to be diverted under agreements in any county or local community so as not to affect adversely the economy of the county or local community.

(C) The reduced acreage and the diverted acreage may be devoted to wildlife food plots or wildlife habitat in conformity with standards established by the Secretary in consultation with
wildlife agencies. The Secretary may pay an appropriate share of the cost of practices designed to carry out the purpose of the foregoing sentence. The Secretary may provide for an additional payment on such acreage in an amount determined by the Secretary to be appropriate in relation to the benefit to the general public if the producer agrees to permit, without other compensation, access to all or such portion of the farm, as the Secretary may prescribe, by the general public, for hunting, trapping, fishing, and hiking, subject to applicable State and Federal regulations.

(6) An operator of a farm desiring to participate in the program conducted under paragraph (5) shall execute an agreement with the Secretary providing for such participation not later than such date as the Secretary may prescribe. The Secretary may, by mutual agreement with the producers on the farm, terminate or modify any such agreement if the Secretary determines such action necessary because of an emergency created by drought or other disaster or to prevent or alleviate a shortage in the supply of agricultural commodities.

(7) The Secretary shall provide for the sharing of payments made under this subsection for any farm among any group of producers on the farm on a fair and equitable basis.

(8) The Secretary shall provide adequate safeguards to protect the interests of tenants and sharecroppers.

(9) If the failure of a producer to comply fully with the terms and conditions of the program formulated under this subsection precludes the making of loans and payments, the Secretary may, nevertheless, make such loans and payments in such amounts as the Secretary determines to be equitable in relation to the seriousness of the failure. The Secretary may authorize the county and State committees established under section 590h(b) of title 16 to waive or modify deadlines and other program requirements in cases in which lateness or failure to meet such other requirements does not affect adversely the operation of the program.

(10) The Secretary may issue such regulations as the Secretary determines necessary to carry out the provisions of this subsection.

(11) The Secretary shall carry out the program authorized by this subsection through the Commodity Credit Corporation.

(12) The provisions of section 590(g) of title 16 (relating to assignment of payments) shall apply to payments made under this subsection.

(13)(A) Compliance on a farm with the terms and conditions of any other commodity program or compliance with crop acreage base requirements for any other commodity may not be required as a condition of eligibility for loans or payments under this section.

(B) The Secretary may not require producers on a farm, as a condition of eligibility for loans or payments under this section for the farm, to comply with the terms and conditions of the extra long staple cotton program with respect to any other farm operated by the producers.

(14) In order to encourage and assist producers in the orderly ginning and marketing of their extra long staple cotton production, the Secretary shall make recourse loans available to such producers on seed cotton in accordance with authority vested in the Secretary under the Commodity Credit Corporation Charter Act [15 U.S.C. 714 et seq.].

(15) References made in sections 1422, 1423, 1426, 1427, and 1431 of this title to the terms "support price", "level of support", and "level of price support" shall be considered to apply as well to the level of loans for extra long staple cotton under this subsection; and references to the terms "price support", "price support operations", and "price support program" in such sections and in section 1421(a) of this title shall be considered as applying as well to the loan operations for extra long staple cotton under this subsection.

(16) Notwithstanding any other provision of law, this subsection shall not be applicable to the 1996 and subsequent crops of extra long staple cotton.

Subsec. (h)(5). Pub. L. 101–624, §506(a)(1)–(3), redesignated par. (8) as (5), inserted “(including a zero percentage reduction)” after “reduction” in subpar. (A)(i), and struck out former par. (5) which required Secretary to determine a program allocation factor, not to exceed 100 per centum for each crop of extra long staple cotton.

Pub. L. 101–624, §506(b)(3), struck out before last sentence in subpar. (A)(i) the following: “If an acreage limitation program is announced under this paragraph for a crop of extra long staple cotton, paragraphs (4), (5), and (6) of this subsection shall not be applicable to such crop, including any prior announcement which may have been made under such paragraphs with respect to such crop.”

Subsec. (h)(6). Pub. L. 101–624, §506(b)(5), substituted “paragraph (5)” for “paragraph (8) of this subsection”.

Pub. L. 101–624, §506(a)(1), (2), redesignated par. (9) as (6) and struck out former par. (6) which provided a formula for determining individual farm program acreage for each crop of extra long staple cotton by multiplying allocation factor by acreage of extra long staple cotton planted for harvest on each farm for which individual farm program acreages are required to be determined.

Subsec. (h)(7) to (12). Pub. L. 101–624, §506(a)(2), redesignated pars. (10) to (15) as (7) to (12), respectively. Former pars. (7) to (9) redesignated (4) to (6), respectively.

Subsec. (h)(13). Pub. L. 101–624, §506(a)(2), (4), redesignated par. (16) as (13), struck out par. (13) as so redesignated, added new par. (13). Former par. (13) redesignated (10). Prior to being struck out, par. (13) read as follows:

“(A) Notwithstanding any other provision of law, except as provided in subparagraph (B), compliance on a farm with the terms and conditions of any other commodity program may not be required as a condition of eligibility for loans or payments under this subsection.

“(B) In the case of each of the 1986 and 1989 crops of extra long staple cotton, the Secretary may require that, as a condition of eligibility of producers for loans or payments under this subsection, the acreage planted for harvest on the farm to any other commodity for which an acreage limitation program is in effect shall not exceed the crop acreage base established for the farm for that commodity.

“(C) Notwithstanding any other provision of law, in the case of each of the 1987 through 1990 crops of extra long staple cotton, compliance with the terms and conditions of the program authorized by this subsection may not be required as a condition of eligibility for loans, purchases, or payments under any other commodity program.

Subsec. (h)(14). (15). Pub. L. 101–624, §506(a)(2), redesignated pars. (17) and (18) as (14) and (15), respectively. Former pars. (14) and (15) redesignated (11) and (12), respectively.

Subsec. (h)(8)(A). Pub. L. 100–331, §1, redesignated existing provisions as cl. (i) and added cl. (ii).

1987—Subsec. (h)(3)(B). Pub. L. 100–203 temporarily (see Effective and Termination Dates of 1987 Amendment note below) substituted “Except as provided in clause (ii),” the “” for “” and added cl. (ii) which read as follows: “In the case of each of the 1986 and 1989 crops of extra long staple cotton, the established price for each such crop shall be 113.3 percent of the loan level determined for such crop under paragraph (2).”

1985—Subsec. (h)(2). Pub. L. 99–198, §507(1), in first sentence substituted “85 percent or the simple average price received by producers of Strict Low Middling one and one-sixth inch upland cotton (micronaire 3.4 through 4.9) at average location in the United States”, and, in last sentence substituted “December 1” for “November 1” and struck out “”, or within 10 days after the loan level for the related crop of upland cotton is announced, whichever is later,”. Pub. L. 99–114, §31, inserted “, or within 10 days after the loan level for the related crop of upland cotton is announced, whichever is later, “.

1984—Subsec. (g)(3)(B). Pub. L. 98–258, §301, substituted “and $0.81 per pound for the 1984 and 1985 crops” for “$0.81 per pound for the 1984 crop, and $0.86 per pound for the 1985 crop”.

Subsec. (g)(9)(A). Pub. L. 98–258, §302(1), inserted “except as provided in the second and third sentences of this subparagraph,” after “Notwithstanding any other provision of this subsection,”.

Pub. L. 98–258, §302(2), inserted sentences providing that for the 1985 crop of upland cotton, if the Secretary estimates that the quantity of upland cotton on hand in the United States on July 31, 1985 (not including any quantity of upland cotton produced in the United States during calendar year 1985), will exceed three million seven hundred thousand bales, the Secretary (I) shall provide for a land division [diversion] program as described under subparagraph (B) under which the acreage planted to upland cotton for harvest on the farm would be limited to the acreage base for the farm reduced by not less than 5 per centum and (ii) may provide for an acreage limitation program as described under this subparagraph under which the acreage planted to upland cotton for harvest on the farm would be limited to the acreage base for the farm reduced by not more than 20 per centum in addition to the reduction required under clause (i), that if the Secretary implements a combined acreage limitation program, any reduction required by the Secretary in excess of 25 per centum of
the acreage base for the farm shall be made under the land diversion program, and, that, as a condition of eligibility for loans, purchases, and payments on the 1985 crop of upland cotton, if the Secretary implements a land diversion program or a combined acreage limitation and land diversion program, the producers on a farm must comply with the terms and conditions of such program.

1978—Subsec. (e)(1). Pub. L. 95–462 purported to strike out the fourth sentence of subsec. (e)(1). The above subsection, however, stated that Pub. L. 95–462 was enacted to amend subsec. (e)(1) “... to ensure that the interest rates on price support loans for upland cotton are not less favorable to producers than the interest rates for such loans on other commodities”. Accordingly, the third sentence of subsec. (e)(1) was struck out as the probable intent of Congress because it related to interest rates while the fourth sentence related to extension of the loan period and establishment of a special limited global import quota.

Pub. L. 95–279 temporarily substituted “during three years of the five-year period ending July 31” for “during the four-year period ending July 31” and inserted “excluding the year in which the average price was the highest and the year in which the average price was the lowest in such period” in cl. (i), substituted “for the fifteen-week period beginning July 1” for “for the first two full weeks of October” in cl. (ii), and inserted provision relating to the minimum loan level and the Secretary to raise the loan level as he may deem appropriate when the average Northern European price is less than the average United States spot market price. See Effective and Termination Dates of 1978 Amendment note below.

1973—Subsec. (e)(1). Pub. L. 93–86, §120(A), (B), substituted “1971 through 1977 crops of upland cotton” for “1971, 1972, and 1973 crops of upland cotton”, “three-year period” for “two-year period” in two places, “except that if the loan rate so calculated is higher than the then current level of average world prices for American cotton of such quality, the Secretary shall adjust the current calculated loan rate for cotton to 90 per centum of the then current average world price” for “except that to prevent the establishment of such a loan level as would adversely affect the competitive position of United States upland cotton, following one or more years of excessively high prices the Secretary shall make such adjustments as are necessary to keep United States upland cotton competitive and to retain an adequate share of the world market for such cotton”, “average price of American cotton in world markets” for “acreage world price”, and “during the calendar year which includes the first five months of the marketing year for such crop, as determined by the Secretary, the loan level determined under paragraph (1) for such crop, an established price of 36 cents per pound in the case of the 1974 and 1975 crops, adjusted prices in the case of the 1976 and 1977 crops, adjustment of increases to reflect changes in the national average yield per acre of cotton for the three calendar years preceding the year for which the determination is made over the national average yield per acre of cotton for the three calendar years preceding the year previous to the one for which the determination is made, and covering prevention of planting to natural disasters and conditions for provisions authorizing payments by the Secretary to cooperators on the 1971, 1972, and 1973 crops of upland cotton, and struck out provisions directing preliminary payments to producers as soon as practicable after July 1 of the year in which the crop is harvested at a rate equal to 15 cents per pound.”

Pub. L. 93–125 substituted “prevented from planting any portion” for “prevented from planting, any portion”.

1969—Pub. L. 90–666 temporarily substituted “During the calendar year which includes the first five months of the marketing year for such crop, as determined by the Secretary, the loan level determined under paragraph (1) for such crop, an established price of 38 cents per pound in the case of the 1974 and 1975 crops, adjusted prices in the case of the 1976 and 1977 crops, adjustment of increases to reflect changes in the national average yield per acre of cotton for the three calendar years preceding the year for which the determination is made over the national average yield per acre of cotton for the three calendar years preceding the year previous to the one for which the determination is made, and covering prevention of planting to natural disasters and conditions for provisions authorizing payments by the Secretary to cooperators on the 1971, 1972, and 1973 crops of upland cotton, and struck out provisions directing preliminary payments to producers as soon as practicable after July 1 of the year in which the crop is harvested at a rate equal to 15 cents per pound.”

1965—Subsec. (k). Pub. L. 89–12, §105(a), temporarily substituted “During the calendar year which includes the first five months of the marketing year for such crop, as determined by the Secretary, the loan level determined under paragraph (1) for such crop, an established price of 38 cents per pound in the case of the 1974 and 1975 crops, adjusted prices in the case of the 1976 and 1977 crops, adjustment of increases to reflect changes in the national average yield per acre of cotton for the three calendar years preceding the year for which the determination is made over the national average yield per acre of cotton for the three calendar years preceding the year previous to the one for which the determination is made, and covering prevention of planting to natural disasters and conditions for provisions authorizing payments by the Secretary to cooperators on the 1971, 1972, and 1973 crops of upland cotton, and struck out provisions directing preliminary payments to producers as soon as practicable after July 1 of the year in which the crop is harvested at a rate equal to 15 cents per pound.”
Subsec. (e)(4)(A). Pub. L. 93–86, §120(D)–(F), inserted "if required by the Secretary," before "(ii) the acreage of cropland on the farm devoted in preceding years to soil conserving uses, as determined by the Secretary", substituted "The Secretary is authorized for the 1974 through 1977 crops to limit the acreage planted to upland cotton on the farm in excess of the farm base acreage allotment to a percentage of the farm base acreage allotment" for "If the Secretary determines prior to the planting season for such crop that the carryover of upland cotton as of the beginning of the marketing year for the 1972 or 1973 crop will exceed 7.2 million bales, the Secretary is authorized for such crop to limit the acreage planted to upland cotton on the farm in excess of the farm base acreage allotment to such percentage of the farm base acreage allotment as he determines necessary to reduce the total supply to a reasonable level", deleted provision prohibiting grazing during any of the five principal months of the normal growing season as determined by the county committee established pursuant to section 590(h) of Title 16, and inserted provisions authorizing the raising of hay on set-aside acreage and the production of triticale, oats, and rye.

Subsec. (e)(5). Pub. L. 93–86, §120(G), authorized Secretary in case of programs for 1974 through 1977 crops to pay an appropriate share of cost of practices designed to protect set-aside acreage from erosion, insects, weeds, and rodents and to provide wildlife food signed to protect set-aside acreage from erosion, insects, weeds, and rodents and to provide wildlife food.

1966—Subsec. (d)(3). Pub. L. 89–451 substituted "crop for which there are marketing quotas or voluntary adjustment programs in effect" for "income producing crop in such year" in last sentence.

1965—Subsec. (b). Pub. L. 89–112 provided that the Secretary shall deem an acreage on a farm which he finds to be an excess of the farm base acreage allotment to soil conserving uses, as determined by the Secretary in case of programs for 1974 through 1977 crops to limit the acreage planted to upland cotton on the farm for harvest when that acreage was not subsequently devoted to any price support crop in 1965.

1964—Subsec. (a). Pub. L. 88–297, §103(b)(3), added subsec. (a) and provided that the price support for the 1964 cotton crop shall be a national average support price which reflects 30 cents per pound for Middling-one-inch cotton.

§ 1444a. Corn and feed grains and cotton programs

(a) Referendum of 1958 corn producers

Not later than December 15, 1958, the Secretary shall conduct a referendum of producers of corn in 1958 in the commercial corn-producing area for 1958 to determine whether such producers favor a price support program as provided in subsection (b) of this section for the 1959 and subsequent crops in lieu of acreage allotments as provided in the Agricultural Adjustment Act of 1938, as amended [7 U.S.C. 1281 et seq.], and price support as provided in section 1441 of this title.

(b) Operative status of certain provisions

Notwithstanding any other provision of law, if less than a majority of the producers voting in the referendum conducted pursuant to subsection (a) of this section favor a price support program as provided in this subsection (b), the following provisions of law shall become inoperative:

(1) [Section enacted section 1329a of this title.]

(2) [Section enacted section 1441d of this title.]

(3) [Section repealed section 1444b of this title.]

(c) Cotton research program

The Secretary of Agriculture is hereby authorized and directed to conduct a special cotton research program designed to reduce the cost of producing upland cotton in the United States at the earliest practicable date. There are hereby authorized to be appropriated such sums, not to exceed $10,000,000 annually, as may be necessary for the Secretary to carry out this special research program. The Secretary shall report annually to the Committee on Agriculture of the House of Representatives and to the Committee on Agriculture, Nutrition, and Forestry of the Senate with respect to the results of such research.

(d) Cotton insect eradication

In order to reduce cotton production costs, to prevent the movement of certain cotton plant insects to areas not now infested, and to enhance the quality of the environment, the Secretary is authorized and directed to carry out programs to destroy and eliminate cotton boll weevils in infested areas of the United States as provided herein and to carry out similar programs with respect to pink bollworms or any other major cotton insect if the Secretary determines that methods and systems have been developed to the point that success in eradication of such insects is assured. The Secretary shall carry out the eradication programs authorized by this subsection through the Commodity Credit Corporation. In carrying out insect eradication projects, the Secretary shall utilize the technical and related services of appropriate Federal, State, private agencies, and cotton organizations. Producers and landowners in an eradication zone, established by the Secretary, who are receiving benefits from any program administered by the United States Department of Agriculture, shall, as a condition of receiving or continuing any such benefits, participate in and cooperate with the eradication project, as specified in regulations of the Secretary.

The Secretary may issue such regulations as he deems necessary to enforce the provisions of this subsection with respect to achieving the compliance of producers and landowners who are not receiving benefits from any program administered by the United States Department of Agriculture. Any person who knowingly violates any such regulation promulgated by the Secretary under this subsection may be assessed a civil penalty of not to exceed $5,000 for each offense. No civil penalty shall be assessed unless the person shall have been given notice and opportunity for a hearing on such charge in the county, parish, or incorporated city of the residence of the person charged. In determining the amount of the penalty the Secretary shall consider the appropriateness of such penalty to the size of the business of the person charged, the effect on the person’s ability to continue in business, and the gravity of the violation. Where special measures deemed essential to achievement of the eradication objective are taken by the project and result in a loss of production income to the producer, the Secretary shall provide reasonable and equitable indemnification from funds available for the project and also provide for appropriate protection of the allotment, acreage history, and average yield for the farm. The cost of the program in each eradication zone shall be determined, and cotton producers in the zone shall be required to pay up to one-half thereof, with the exact share in each zone area to be specified by the Secretary upon his finding that such share is reasonable and equitable based on population levels of the target insect and the degree of control measures normally required. Each producer’s pro rata share shall be deducted from his cotton payment under this Act or otherwise collected, as provided in regulations of the Secretary. Insofar as practicable, cotton producers and other persons engaged in cotton production in the eradication zone shall be employed to participate in the work of the project in such zone. Funding of the program shall be terminated at such time as the Secretary determines and reports to the Con-
gress that complete eradication of the insects for which programs are undertaken pursuant to this subsection has been accomplished. Funds in custody of agencies carrying out the program shall, upon termination of such program, be accounted for to the Secretary for appropriate disposition.

The Secretary is authorized to cooperate with the Government of Mexico in carrying out operations or measures in Mexico which he deems necessary and feasible to prevent the movement into the United States from Mexico of any insects eradicated under the provisions of this subsection. The measure and character of cooperation carried out under this subsection on the part of the United States and on the part of the Government of Mexico, including the expenditure or use of funds made available by the Secretary under this subsection, shall be such as may be prescribed by the Secretary. Arrangements for the cooperations authorized by this subsection shall be made through and in consultation with the Secretary of State. The Commodity Credit Corporation shall not make any expenditures for carrying out the purposes of this subsection unless the Corporation has received funds to cover such expenditures from appropriations made to carry out the purposes of this subsection. There are hereby authorized to be appropriated to the Commodity Credit Corporation such sums as the Congress may from time to time determine to be necessary to carry out the purposes of this subsection.

CORN PRODUCTIONS—PRICE SUPPORT

(a) Notwithstanding the provisions of section 1441 of this title, beginning with the 1964 crop, price support shall be made available to producers for each crop of corn at such level, not less than 50 per centum or more than 90 per centum of the parity price therefor, as the Secretary determines will not result in increasing Commodity Credit Corporation stocks of corn: Provided, That in the case of any crop for which an acreage diversion program is in effect for feed grains, the level of price support for corn of such crop shall be at such level not less than 65 per centum or more than 90 per centum of the parity price therefor as the Secretary determines necessary to achieve the acreage reduction goal established by him for the crop.

(b) Beginning with the 1965 crop, price support shall be made available to producers for each crop of oats, rye, barley, and grain sorghums at such level of the parity price therefor as the Secretary of Agriculture determines is fair and reasonable in relation to the level at which price support is made available for corn, taking into consideration the feeding value of such commodity in relation to corn, and the other factors set forth in section 1421(b) of this title.

(2) made payment with respect to a farm available on 50 per centum of the feed grain base for the farm and for computation of the payments on the basis of the yield established for the farm for the preceding crop with such adjustments as the Secretary determines necessary to provide a fair and equitable yield.

Subsec. (b)(3). Pub. L. 91–524, §501, as amended Pub. L. 93–86, §1(b)(B), substituted in first sentence, “the feed grain allotment for the farm, the feed grain allotment for the farm for the succeeding crops shall be reduced by the percentage by which the planted acreage is less than the feed grain allotment for the farm, but such reduction shall not exceed 20 per centum of the feed grain allotment” for “the portion of the feed grain base for the farm on which payments are available under this subsection, the feed grain base for the farm for the succeeding crops shall be reduced by the percentage by which the planted acreage is less than such portion of the feed grain base for the farm, but such reduction shall not exceed 20 per centum of the feed grain base”; second sentence, including proviso, “feed grain allotment” for “feed grain base”; third sentence, “feed grain allotments” for “feed grain bases”; fourth sentence, “90 per centum of the feed grain allotment” for “90 per centum of the feed grain base on which payments are made available” and “100 per centum of such allotment” for “100 per centum of such portion”; and sixth sentence “effective operation of the program” for “effective operation of the feed grain or soybean program”; and authorized acreage devoted to grain, castor beans, cotton, triticale, oats, rye, or such other crops as the Secretary may deem appropriate, to be considered as feed grain acreage.

Subsec. (c)(1) second sentence. Pub. L. 93–86, §1(b)(D), formerly §1(b)(C) (second), renumbered by Pub. L. 93–125, §1(d)(i), renumbered, renumbered by Pub. L. 93–125, §1(d)(ii), substituted “The Secretary is authorized for the 1974 through 1977 crops to limit the acreage planted to feed grains on the farm to a percentage of the farm acreage allotment.” for “The Secretary is authorized for the 1971 and 1972, and 1973 crops to limit the acreage planted to feed grains on the farm to such percentage of the feed grain base as he determines necessary to provide an orderly transition to the program provided for under this section.”
such commodity in relation to corn and other factors specified in section 1421(b) of this title, and on each crop of grain sorghums at such level as the Secretary determines is fair and reasonable in relation to the level that loans and purchases are made available for corn, taking into consideration the feeding value and average transportation costs to market of grain sorghums in relation to corn and eligibility for price support on 1963 crop of feed grains produced on the farm, or the proceeds therefrom, except that in any case in which the Secretary determines that such basis would not be fair and equitable, the Secretary shall provide for such sharing on such other basis as he may determine to be fair and equitable.

Subsec. (f). Pub. L. 91–524 redesignated last sentence of former subsec. (e) as (f) and substituted “under this section precludes the making of loans, purchases, and payments” and “make such loans, purchases, and payments” for “under this subsection (e) and subsection (e) of this section preclude the making of payments-in-kind” and “make such payments-in-kind”.

L. 89–112 inserted eleventh sentence “An acreage on the farm which the Secretary finds was not planted to feed grains in 1965 because of flood, drought, or other natural disaster shall be deemed by the Secretary to be an actual acreage of feed grains planted on the farm for harvest for purposes of this subsection, provided such acreage is not subsequently devoted to any price supported crop for 1965.”

Subsec. (e) first sentence. Pub. L. 89–321 required as a condition of eligibility for price support for 1966 through 1969 crops of feed grains on crop of feed grains included in any acreage diversion program under section 590p(i) of Title 16, participation of producer in the diversion program to the extent prescribed by the Secretary, and as a condition of eligibility for price support if a diversion program was not in effect for 1966 through 1969 crops, that feed grain base not be exceeded by producer, provided that acreage on farm diverted from production of feed grains pursuant to contract under Cropland Adjustment Program shall be deemed acreage diverted from production of feed grains for purposes of eligibility requirements, and excepted producer of malting barley from requirement of participation in the acreage diversion program for feed grains if such producer had previously produced a malting variety of barley, planted barley only of an acceptable malting variety for harvest, did not devote barley farm acreage in excess of 110 per centum of average acreage devoted to barley in 1959 and 1960, did not devote corn and grain sorghums farm acreage in excess of average acreage devoted to corn and grain sorghums in 1959 and 1960, and did not devote oats and rye acreage in 1959 and 1960 to production of wheat pursuant to section 1339c of this title.

(e), substituted bushel determination provision calling for multiplication of that part of the such feed grain planted on the farm for harvest on which the Secretary made such payments available by the farm project yield per acre for prior provision calling for such multiplication of actual acreage of such feed grain planted on the farm for harvest by the adjusted average yield per acre, and inserted proviso respecting consideration of soybean as feed grain acreage to such extent and subject to such terms and conditions as Secretary determined would not impair effective operation of price support program and proviso deeming entire feed grains acreage as so planted when 90 per centum of feed grains acreage permitted to be planted has been so planted.

Subsec. (e) fifth sentence. Pub. L. 89–321 authorized reduction of that portion of the support price which was made available through loans and purchases for the 1966 through 1989 crops below the loan level for the 1965 crop by such amounts and in such stages as might be necessary to promote increased participation in the feed grain program, taking into account increased yields, but so as not to disrupt the feed grain and livestock economy, without modifying or affecting Secretary's discretion to maintain or increase total price support levels to cooperators.

Subsec. (e) sixth sentence. Pub. L. 89–321 incorporated seventh sentence of former subsec. (d) as sixth sentence of subsec. (e) and substituted "planted to feed grains" for "planted to feed grains in 1965" and "deemed to be an actual acreage of feed grains planted for harvest for purposes of such payments provided such acreage is not subsequently planted to any other income-producing crop during such year" for "deemed by the Secretary to be an actual acreage of feed grains planted on the farm for harvest for purposes of this subsection, provided such acreage is not subsequently devoted to any price supported crop for 1965".

(e) and substituted "basis of their respective shares in the feed grain crop produced on the farm, or the proceeds therefrom, except that in any case in which the Secretary determines that such basis would not be fair and equitable, the Secretary shall provide for such sharing on such other basis as he may determine to be fair and equitable" for "basis of their respective shares in the crop produced on the farm with respect to which such certificates are issued, or the proceeds therefrom".

Subsec. (e) tenth sentence. Pub. L. 89–321 incorporated tenth sentence of former subsec. (d) as tenth sentence of subsec. (e) and substituted ". . . in accordance with the provisions of such program," for "in accordance with the provisions of such program".

Subsec. (f) first sentence. Pub. L. 89–321, § 2(b), substituted provision for such corn price support level, in the case of any crop for which an acreage diversion program is in effect for feed grains, not less than 65 per centum or more than 90 per centum of the parity price therefore as the Secretary determines necessary to achieve the acreage reduction goal established by him for the crop.

Subsec. (d) first sentence. Pub. L. 88–26, § 2(2), made subsec. (d) applicable to 1964 and 1965 feed grains crops if an acreage diversion program was in effect under subsection 590p(h) of title 16.

Subsec. (d) second sentence. Pub. L. 88–26, § 2(2), required as a condition of eligibility for price support on crop of feed grain included in the acreage diversion program, participation of producer in the diversion program to the extent prescribed by the Secretary, and as a condition of eligibility for such price support if a diversion program was not in effect for 1964 or 1965 crop that feed grain base not be exceeded by producer and excepted producer of malting barley from requirement of participation in the acreage diversion program for feed grain if such producer had previously produced a malting variety of barley, planted barley only of an acceptable malting variety for harvest, did not devote barley farm acreage in excess of 110 per centum of average acreage devoted to barley in 1959 and 1960, did not devote corn and grain sorghums farm acreage in excess of average acreage devoted to corn and grain sorghums in 1959 and 1960, and did not devote oats and rye acreage in 1959 and 1960 to production of wheat pursuant to section 1338c of this title.

Subsec. (d) eighth sentence. Pub. L. 88–26, § 2(2), provided for deduction from value of negotiable certificates, not presented for redemption within thirty days of date of issuance, or reasonable costs of storage and other carrying charges, for period beginning thirty days after issuance and ending with date of presentation for redemption.

cluded in acreage diversion program, where operator of farm elected to participate in the acreage diversion program, to producers on farm diverting from feed grain production under the program an acreage on the farm equal to number of acres which operator agreed to divert, and agreement so provided.

Subsec. (a). Pub. L. 87–703, § 305, substituted provisions for such corn price support level, beginning with 1964 crop, not less than 50 per centum or more than 90 per centum of the parity price thereof, as the Secretary determines will not result in increasing Commodity Credit Corporation stocks of corn for former corn price support, beginning with 1959 crop, at 90 per centum of the average price received by farmers during the three calendar years immediately preceding the calendar year in which the marketing year for such crops began, adjusted to offset the effect on such price of any abnormal quantities of low-grade corn marketed during any of such years, provided the level of price support for any crop of corn be not less than 65 per centum of the parity price thereof.

Subsec. (c). Pub. L. 87–703, § 301, in adding pars. (5) and (6), enacted feed grains price support program for 1963, as described hereunder.

Subsec. (c)(4). Pub. L. 87–425 excepted producer of barley from a summer-fallow farm from requirement of participation in special agricultural conservation program for 1962 for barley if such producer did not devote barley farm acreage in excess of average acreage devoted to barley in 1959 and 1960 plus the acreage devoted to summer fallow in 1961 which was diverted from the production of wheat under the special 1962 wheat program and did not devote corn, grain sorghums, and barley farm acreage in excess of 90 per centum of average acreage devoted to corn, grain sorghums, and barley in 1959 and 1960.

Subsec. (c)(5). Pub. L. 87–703, § 301, required establishment of 1963 corn crop price support at such level not less than 65 per centum of parity price as Secretary might determine; provided for: payments in kind in amount of 18 cents per bushel of support price for corn, and comparable portion of support price for grain sorghums and barley; such payments on number of bushels of such feed grain determined by multiplying actual acreage of such feed grain planted on the farm for harvest in 1963 by the adjusted average yield per acre for 1959 and 1960 crop acreage of such feed grain; such payments through issuance of negotiable certificates redeemable by CCC for corn, grain sorghums, and barley (such feed grains to be valued by the Secretary at not less than support price minus that part of support price made available through payments in kind) and for CCC assistance to producer in marketing of such certificates; deduction from value of the certificate, in the case of any certificate not presented for redemption within 30 days of date of its issuance, reasonable costs of storage and other carrying charges for period beginning 30 days after its issuance and ending with the date of its presentation for redemption; and basis for sharing of such certificate among producers on the farm; and conditioned availability of price support to inclusion of prescribed acreage diversion where operator of farm elected to participate in the special agricultural conservation program for 1963, for corn, grain sorghums, and barley.

Subsec. (c)(6). Pub. L. 87–703, § 301, required as a condition of eligibility for price support on 1963 crop of corn, grain sorghums, and barley participation of producer in special agricultural conservation program for 1963, for corn, grain sorghums, and barley.

Subsec. (b). Pub. L. 85–835 made price support available, beginning with 1959 crop, for each crop of oats, rye, barley, and grain sorghums, at such level of parity price as Secretary of Agriculture determined was fair and reasonable in relation to price support level for corn, taking into consideration the feeding value of such commodity in relation to corn, and the other factors set forth in section 1421(b) of this title.

Notwithstanding any other provision of law, in order to reduce or eliminate the excessive inventories of Flue-cured and Burley tobacco held by associations from the 1976 through 1984 crops, and in order to provide for the orderly disposition of such excessive inventories of tobacco in a manner that will not disrupt the orderly marketing of new tobacco crops and will minimize any losses to the Federal Government:

(a) **Sale of inventory stock**

(1) The producer-owned cooperative marketing association that has entered into a loan agreement with the Commodity Credit Corporation to make price support available to producers of Flue-cured tobacco shall offer to sell the stocks of Flue-cured tobacco of the association from the 1976 through 1984 crops as provided in this section.

(2) Each producer-owned cooperative marketing association that has entered into a loan agreement with the Commodity Credit Corporation to make price support available to producers of Burley tobacco shall offer to sell its stocks of Burley tobacco from the 1982 and 1984 crops as provided in this section.

(B) Neither tobacco producers nor tobacco purchasers shall be responsible for carrying charges that accrue to the 1983 crop of Burley tobacco after the date on which the Commodity Credit Corporation calls the loans on such tobacco.

(c) Terms of agreements

(1)(A) Each domestic manufacturer of cigarettes may enter into agreements to purchase inventory stocks of Flue-cured and Burley tobacco, in accordance with this section.

(B) To be eligible for the reductions in price specified in this section, such manufacturer shall enter into such agreements as soon as practicable, but not later than 90 days after April 7, 1986, except that, with respect to the 1983 crop of Burley tobacco, if the Corporation offers to sell the stocks of such tobacco pursuant to subsection (b)(3)(A) of this section, such agreements shall be entered into as soon as practicable, but not later than 90 days after the end of the 2-year period referred to in subsection (a)(3)(B) of this section.

(C)(i) Such agreements shall provide that, over a period of time, each participating domestic manufacturer of cigarettes shall purchase a percentage of the stocks of Flue-cured and Burley tobacco held—

(I) by the producer-owned cooperative marketing associations at the close of the 1984 marketing year; or

(II) in the case of the 1983 crop of Burley tobacco, by the Commodity Credit Corporation at the time the Corporation offers such tobacco for sale to domestic manufacturers of cigarettes under this section.

(III) in the case of the 1983 crop of Burley tobacco, 5 years from the end of the 2-year period referred to in subsection (a)(3)(B) of this section.

(2)(A)(i) The percentage to be purchased by each participating manufacturer shall be at least equal to the respective percentage of the participating manufacturer of the total quantity of net cigarettes manufactured for use as determined by the Secretary of Agriculture under this paragraph on the basis of the monthly reports ("Manufacturer of Tobacco Products—Monthly Reports") submitted by manufacturers of tobacco products to the Tax and Trade Bureau of the Department of the Treasury.

(ii) The Secretary of Agriculture shall request from the Secretary of the Treasury copies of such monthly reports necessary to make the determinations required under this section.

(iii) Notwithstanding any other provision of law, the Secretary of the Treasury may release and disclose such information to the Secretary of Agriculture.

(ii) the cumulative figures entered for large and small cigarettes in item 7 of such form ("Manufactured").

(C)(i) The percentage to be purchased by each participating manufacturer shall be determined—

(I) on April 7, 1986; and

(II) annually thereafter over the course of the respective buy-out periods specified in this subsection.

(ii) Such percentage shall be determined by dividing—

(I) the average net cigarettes manufactured by a manufacturer for use for the 12-month period immediately preceding the appropriate determination date (April 7, 1986, and annually thereafter over the course of the respective buy-out periods specified in this subsection); by

(ii) the aggregate average net cigarettes manufactured by all domestic cigarette manufacturers for use for such 12-month period.

(D)(i) The quantity of tobacco to be purchased by each participating manufacturer shall be determined annually.

(ii) Such quantity shall be based on—

(I) the percentage of net cigarettes of a manufacturer manufactured for use, as determined under subparagraph (C); multiplied by

(II) the appropriate annual quantity to be withdrawn from the inventories of the associations or the Commodity Credit Corporation.

(iii) The appropriate annual quantity to be withdrawn from inventories shall be—

(I) 12% percent of the inventories of Flue-cured tobacco from the 1976 through 1984 crops on hand on April 7, 1986;

(II) 20 percent of the inventories of Burley tobacco from the 1982 and 1984 crops on hand on April 7, 1986; and

(III) 20 percent of the inventories of Burley tobacco from the 1983 crop held by the Commodity Credit Corporation on the date that is 2 years after the call of the loans on such tobacco by the Corporation.

(E) Any purchases by a manufacturer from the inventories of the associations or from the Com-
modity Credit Corporation for a crop covered by this section in any year of the buy-out period that exceed the quantity of the purchases of the manufacturer required under the agreement, as determined under this section, shall be applied against future purchases required of such manufacturer.

(3) In carrying out this section, manufacturers may confer with one another and, separately or collectively, with associations, the Secretary of Agriculture, and the Commodity Credit Corporation, as may be necessary or appropriate to carry out this section and the purposes of this subtitle.1

(d) Approval of agreements

(1)(A) Each agreement entered into under this section shall be submitted to the Secretary of Agriculture for review and approval.

(B) In the case of an agreement to purchase tobacco from the inventory of a producer association, the agreement shall be submitted by the association.

(C) No agreement may become effective until approved by the Secretary.

(i) will not unduly impair or disrupt the orderly marketing of current and future tobacco crops during the term of the agreement; and

(ii) is otherwise consistent with the purposes of this subtitle; 1 and

(B) the price and other terms of sale are uniform and nondiscriminatory among various purchasers.

(e) Disclosure

The limitations on disclosure set forth in subsections (c) and (d) of section 1314g1 of this title shall apply to information submitted by domestic manufacturers of cigarettes under this section with respect to net cigarettes manufactured for use, including information provided on ATF Form 3068. Any officer or employee of the Department of Agriculture who violates such limitations on disclosure shall be subject to the penalties set forth in section 1314g(c)(4)1 of this title.

No producer shall be deemed to have exceeded a farm acreage allotment for wheat if the entire amount of the farm marketing excess is delivered to the Secretary or stored in accordance with applicable regulations to avoid or postpone payment of the penalty, but the producer shall not be eligible to receive price support on such marketing excess. No producer shall be deemed to have exceeded the farm acreage allotment for wheat on any other farm, if such farm is exempt from the farm marketing quota for such crop under section 1335 of this title. No producer shall be deemed to have exceeded a farm acreage allotment for wheat if the production on the acreage in excess of the farm acreage allotment is stored pursuant to the provisions of section 1379c(b) of this title, but the producer shall not be eligible to receive price support on the wheat so stored.

1970—Pub. L. 91–524 temporarily revised section into subsecs. (a) and (b) which provided for loans on wheat at such levels not in excess of the parity price as the Secretary determines appropriate, taking into consideration competitive world prices of wheat, the feeding value of wheat in relation to feed grains, and the level at which price support is made available for feed grains, provided that, if a set-aside program is in effect, program benefits would be made available only to producers who comply with such set-aside program, and placed a floor on the loan of $1.25 per bushel. See Effective and Termination Dates of 1970 Amendment note below.

### §1445g. Production of commodities for conversion into industrial hydrocarbons; terms and conditions; incentive payments; regulations; appropriations; effective date

Notwithstanding any other provision of this Act—

(a) The Secretary may permit, subject to such terms and conditions as the Secretary may pre-
scribe, all or any part of the acreage set aside or diverted from the production of a commodity for any crop year under this subchapter to be devoted to the production of any commodity (other than the commodities for which acreage is being set aside or diverted) for conversion into industrial hydrocarbons and blending with gasoline or other fossil fuels for use as motor or industrial fuel, if the Secretary determines that such production is desirable in order to provide an adequate supply of commodities for such purpose, is not likely to increase the cost of the price support programs, and will not adversely affect farm income.

(b)(1) During any year in which there is no set-aside or diversion of acreage under this subchapter, the Secretary may formulate and administer a program for the production, subject to such terms and conditions as the Secretary may prescribe, of commodities for conversion into industrial hydrocarbons and blending with gasoline or other fossil fuels for use as motor or industrial fuel, if the Secretary determines that such production is desirable in order to provide an adequate supply of commodities for such purpose, is not likely to increase the cost of the price support programs, and will not adversely affect farm income. Under the program, producers of wheat, feed grains, upland cotton, and rice shall be paid incentive payments to devote a portion of their acreage to the production of commodities for conversion into industrial hydrocarbons and blending with gasoline or other fossil fuels for use as motor or industrial fuel.

(2) The payments under this subsection shall be at such rate or rates as the Secretary determines to be fair and reasonable, taking into consideration the participation necessary to ensure an adequate supply of the agricultural commodities for conversion into industrial hydrocarbons and blending with gasoline or other fossil fuels for use as motor or industrial fuel.

(3) The Secretary may issue such regulations as the Secretary deems necessary to provide for supplemental set-aside and acreage limitation programs.

(4) The Secretary may issue such regulations as the Secretary deems necessary to carry out the provisions of this subchapter.

(5) The provisions of this subchapter shall become effective October 1, 1978.

Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.); and

"(D) the total quantity of the 1988 or 1989 crop of the commodity that the producers were able to harvest is less than the result of multiplying 65 percent of the farm payment yield established by the Secretary for the crop by the sum of the acreage planted for the harvest and the acreage prevented from being planted (because of the disaster or emergency referred to in subparagraph (C)) for the crop.

(E) If for any of the calendar years 1988, 1989, and 1990, the level of purchases of milk and the products of milk under this subsection (less sales under section 1427 of this title for unrestricted use), as estimated by the Secretary on January 1 of such calendar year, will not exceed 2,500,000,000 pounds (milk equivalent), the Secretary shall increase by 50 cents the rate of price support for milk in effect on such date.

(F) The price of milk shall be supported through the purchase of milk and the products of milk.

(2)(A) Beginning after March 31, 1986, the Secretary shall provide for a reduction to be made in the price received by producers for all milk produced in the United States and marketed by producers for commercial use.

(B) Except as provided in subparagraphs (E) and (F), the amount of the reduction under subparagraph (A) in the price received by producers shall be—

(i) the period beginning on April 1, 1986, and ending on December 31, 1986, 40 cents per hundredweight of milk marketed; and

(ii) during the first 9 months of 1987, 25 cents per hundredweight of milk marketed.

(C) The funds represented by the reduction in price, required under this paragraph to be applied to the marketings of milk by a producer, shall be collected and remitted to the Commodity Credit Corporation, at such time and in such manner as prescribed by the Secretary, by each person making payment to a producer for milk purchased from such producer, except that in the case of a producer who markets milk of the producer's own production directly to consumers, such funds shall be remitted directly to the Corporation by such producer.

(D) The funds remitted to the Corporation under this paragraph shall be considered as included in the payments to a producer of milk for purposes of the minimum price provisions of the Agricultural Adjustment Act (7 U.S.C. 601 et seq.), reenacted with amendments by the Agricultural Marketing Agreement Act of 1977.

(E) In lieu of any reductions in payments made by the Secretary for the purchase of milk and the products of milk under this subsection during the period beginning March 1, 1986, and ending September 30, 1986, except that the amount of any increased reduction under clause (i) may not exceed 12 cents per hundredweight of milk marketed.

(F)(i) The Secretary—

(I) notwithstanding the Balanced Budget and Emergency Deficit Control Act of 1985 and any order issued by the President under section 252(b) of such Act [2 U.S.C. 902] for a fiscal year; and

(II) in lieu of making any reduction in payments for the purchase of milk or the products of milk under this subsection during such fiscal year under any such order, shall provide for the reduction (measured in cents per hundredweight of milk marketed) under subparagraph (A) during the period beginning on October 1 and ending on September 30 of such fiscal year as the sole means of achieving any reduction in budget outlays under the milk price-support program that otherwise would be required under either such order and only for the purpose of substituting for any reduction in payments made by the Secretary for the purchase of milk or the products of milk under such order.

(F)(ii) Beginning after March 31, 1986, the Secretary shall provide for a reduction to be made in the price received by producers for milk purchased from such producer, except that in the case of a producer who markets milk of the producer's own production directly to consumers, such funds shall be remitted directly to the Corporation by such producer.

(F)(iii) The funds remitted to the Corporation under this paragraph shall be considered as included in the payments to a producer of milk for purposes of the minimum price provisions of the Agricultural Adjustment Act (7 U.S.C. 601 et seq.), reenacted with amendments by the Agricultural Marketing Agreement Act of 1977.

(E)(i) In lieu of any reductions in payments made by the Secretary for the purchase of milk and the products of milk under this subsection during the period beginning March 1, 1986, and ending September 30, 1986, required under the order issued by the President on February 1, 1986, under section 252 of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177) [2 U.S.C. 902], the Secretary shall increase the amount of the reduction required under subparagraph (A) during the period beginning April 1, 1986, and ending September 30, 1986, as the sole means of meeting any reductions required under the order in payments made by the Secretary for the purchase of milk and the products of milk under this subsection.

(F)(ii) During calendar year 1988, the Secretary shall provide for a reduction of 2½ cents per hundredweight to be made in the price received by producers for all milk produced in the United States and marketed by producers for commercial use.

(F)(iii) The Secretary shall establish and carry out under this paragraph a milk production termination program for the 18-month period beginning April 1, 1986.

(iii) For the 18-month period for which the milk production termination program under this subparagraph is in effect, the Secretary shall—

So in original. Probably should be "(G)".
(I) as soon as practicable, determine the
total number of dairy cattle the Secretary
estimates will be marketed for slaughter as a
result of such program; and

(II) by regulation specify marketing pro-
cedures to ensure that greater numbers of
dairy cattle slaughtered as a result of the
production termination program provided for in this section shall be slaughtered in
each of the periods of April through August
1986, and March through August 1987 than for
the other months of the program. Such pro-
cedures also shall ensure that such sales of
dairy cattle for slaughter shall occur on a
basis estimated by the Secretary that main-
tains historical seasonal marketing pat-
terns. During such 18-month period, the Sec-
retary shall limit the total number of dairy
cattle marketed for slaughter under the pro-
gram in excess of the historical dairy herd
culling rate to no more than 7 percent of the
national dairy herd per calendar year.

(iv) Each contract made under this subpar-
agraph shall provide that—

the producer shall sell for slaughter or
for export all the dairy cattle in which such
producer owns an interest;

(II) during a period of 3, 4, or 5 years, as
specified by the Secretary in each producer
contract and beginning on the day the pro-
ducer completes compliance with subclause
(I), the producer neither shall acquire any
interest in dairy cattle or in the production
of milk nor acquire, or make available to
any person, any milk production capacity of
a facility that becomes available because of
compliance by a producer with such sub-
clause unless the Secretary shall by regula-
tion otherwise permit; and

(III) if the producer fails to comply with
such contract, the producer shall repay to
the Secretary the entire payment received
under the contract, including simple inter-

test payable at a rate prescribed by the Sec-
retary, which shall, to the extent prac-
ticable, reflect the cost to the Corporation
of its borrowings from the Treasury of the
United States, commencing on the date pay-
ment is first received under such contract.

(v) Any producer of milk who seeks to enter
into a contract for payments under this para-
graph shall provide the Secretary with (I) evi-
dence of such producer’s marketing history;
(II) the size and composition of the producer’s
dairy herd during the period the marketing
history is determined; and (III) the size and
composition of the producer’s dairy herd at
the time the bid is submitted, as the Secretary
deems necessary and appropriate.

(vi) Except as provided in subparagraph (D),
no producer who commenced marketing of
milk in the 15-month period ending March 31,
1986, shall be eligible to enter into a contract
for payments under this subparagraph.

(vii) A contract entered into under this para-
graph by a producer who by reason of death
cannot perform or assign such contract may
be performed or assigned by the estate of such
producer.

(B) The Secretary may establish and carry
out a milk diversion or milk production termi-
nation program for any of the calendar years
1988, 1989, and 1990 as necessary to avoid the
creation of burdensome excess supplies of milk
or milk products.

(C) In setting the terms and conditions of
any milk diversion or milk production termi-
nation under this paragraph and of each con-
tract made under this subparagraph, the Sec-
retary shall take into account any adverse ef-
fect of such program or contracts on beef,
pork, and poultry producers in the United
States and shall take all feasible steps to min-
imize such effect.

(D) A producer who commenced marketing
milk after December 31, 1984, shall be eligible
to enter into a contract for payments under
this subparagraph if such producer’s entire
milk production facility and entire dairy herd
were transferred to the producer by reason of
a gift from, or the death of, a member or mem-
bers of the family of the producer. The term
“member of the family of the producer” means
(i) an ancestor of the producer, (ii) the spouse
of the producer, (iii) a lineal descendant of the
producer, or the producer’s spouse, or a parent
of the producer, or (iv) the spouse of any such
lineal descendant.

(E) Application for payment shall be made
by producers through the county committees
established under section 1602(h) of title 16,
§ 1446.
evidence, and require the production of any records that are relevant to the inquiry. Such attendance of witnesses and the production of any such records may be required from any place in the United States. In case of contumacy by, or refusal to obey a subpoena, any person, the Secretary may invoke the aid of any court of the United States within the jurisdiction of which such investigation or proceeding is carried on, or where such person resides or carries on business, in requiring the attendance and testimony of witnesses and the production of records. Such court may issue an order requiring such person to appear before the Secretary to produce records or to give testimony on the matter under investigation. Any failure to obey such order of the court may be punished by such court as a contempt thereof. All process in any such case may be served in the judicial district of which such person is an inhabitant or wherever such person may be found.

(5)(A) The district courts of the United States are vested with jurisdiction specifically to enforce, and to prevent and restrain any person from violating, any provision of this subsection or any regulation issued under this subsection. Any such civil action authorized to be brought under this subsection shall be referred to the Attorney General for appropriate action. The Secretary is not required, however, to refer to the Attorney General minor violations of this subsection whenever the Secretary believes that the administration and enforcement of this subsection would be adequately served by suitable written notice or warning to any person committing such violation.

(B)(i) Each person as to whom there is a failure to make a reduction in the price of milk received by such person as required by paragraph (2) or who fails to remit to the Corporation the funds required to be collected and remitted by paragraph (2)(B) shall be liable, in addition to any amount due, to a marketing penalty at a rate equal to the support price for milk in effect at the time the failure occurs on the quantity of milk as to which the failure applies. The Secretary may reduce any such marketing penalty in such amount as the Secretary determines equitable in any case in which the Secretary determines that the failure was unintentional or without knowledge on the part of the person concerned. Each person who knowingly violates any other provision of this subsection, or any regulation issued under this subsection, shall be liable for a civil penalty of not more than $1,000 for each such violation. Any penalty provided for under this subparagraph shall be assessed in a civil penalty of not more than $5,000 for each head of cattle to which such statement applied.

(b) Each person who makes a false statement as to the number of dairy cattle that was sold for slaughter or export under a contract under paragraph (3) shall be subject, in addition to any amount due under paragraph (3)(A) or clause (ii) of this subparagraph, to a civil penalty of $5,000 for each head of cattle to which such statement applied.

(iv) Each person who makes a false statement as to the number of dairy cattle that was sold for slaughter or export under a contract under paragraph (3) shall be subject, in addition to any amount due under paragraph (3)(A) or clause (ii) of this subparagraph, to a civil penalty of $5,000 for each head of cattle to which such statement applied.

(C) Any person against whom a penalty is assessed under subparagraph (B) may obtain review of such penalty in an appropriate district court of the United States by filing a civil action in such court not later than thirty days after such penalty is imposed. The Secretary shall promptly file in such court a certified copy of the record upon which the penalty is based. The findings of the Secretary may be set aside only if found to be unsupported by substantial evidence.

(D) The district courts of the United States shall have jurisdiction to review and enforce any penalty imposed under subparagraph (B). The remedies provided in this paragraph shall be in addition to, and not exclusive of, other remedies that may be available.

(F) In carrying out this subsection, the Secretary may, as the Secretary deems appropriate—

(i) use the services of State and county committees established under section 590(h(b) of title 16; and

(ii) enter into agreements to use, on a reimbursable or nonreimbursable basis, the services of administrators of Federal milk marketing orders and State milk marketing programs.

(6) The term “United States” as used in paragraphs (2) and (3) of this subsection means the forty-eight contiguous States in the continental United States.

(7) The Secretary shall carry out this subsection through the Commodity Credit Corporation.

§ 1507. Personnel of Corporation

(a) Appointment; civil service exemption; compensation

The Secretary shall appoint such officers and employees as may be necessary for the transaction of the business of the Corporation pursuant to civil-service laws and regulations, fix their compensation in accordance with the provisions of chapter 51 and subchapter III of chapter 53 of title 5, define their authority and duties, and delegate to them such of the powers vested in the Corporation as the Secretary may determine appropriate. However, personnel paid by the hour, day, or month when actually employed may be appointed without regard to civil-service laws and regulations.

(b) Application of employees' compensation law

Insofar as applicable, the benefits of subchapter I of chapter 81 of title 5, shall extend to persons given employment under the provisions of this subchapter, including the employees of the committees and associations referred to in subsection (c) of this section and the members of such committees.

(c) Use of associations of producers and private insurance companies; payment of administrative and program expenses; sale of crop insurance through private agents and brokers: renewals, exclusion of compensation from premium rates, indemnification for errors or omissions of Commission or its contractors

In the administration of this subchapter, the Board shall, to the maximum extent possible, (1) establish or use committees or associations of producers and make payments to them to cover the administrative and program expenses, as determined by the Board, incurred by them in cooperating in carrying out this subchapter, (2) contract with private insurance companies, private rating bureaus, and other organizations as appropriate for actuarial services, services relating to loss adjustment and rating plans of insurance, and other services to avoid duplication by the Federal Government of services that are or may readily be available in the private sector and to enable the Corporation to concentrate on regulating the provision of insurance under this subchapter and evaluating new products and materials submitted under section 1508(h) or 1523 of this title, and reimburse such companies for the administrative and program expenses, as determined by the Board, incurred by them, under terms and provisions and rates of compensation consistent with those generally prevailing in the insurance industry, and (3) encourage the sale of Federal crop insurance through licensed private insurance agents and brokers and give the insured the right to renew such insurance for successive terms through such agents and brokers, in which case the agent or broker shall be reasonably compensated from premiums paid by the insured for such sales and renewals recognizing the function of the agent or broker to provide continuing service while the insurance is in effect: Provided, That such compensation shall not be included in computations establishing premium rates. The Board shall provide such agents and brokers with indemnification, including costs and reasonable attorney fees, from the Corporation for errors or omissions on the part of the Corporation or its contractors for which the agent or broker is sued or held liable, except to the extent the agent or broker has caused the error or omission. Nothing in this subsection shall permit the Corporation to contract with other persons to carry out the responsibility of the Corporation to review and approve policies, rates, and other materials submitted under section 1508(h) of this title.

(d) Allotment of funds to Federal and State agencies

The Secretary may allot to bureaus and offices of the Department or transfer to such other agencies of the State and Federal Governments that the Secretary requests to assist in carrying out this subchapter any funds made available pursuant to the provisions of section 1516 of this title.
(e) Utilization of producer cooperative associations

In carrying out the provisions of this subchapter the Board may, in its discretion, utilize producer-owned and producer-controlled cooperative associations.

(f) Use of resources, data, boards, and committees of Federal agencies

The Board should use, to the maximum extent possible, the resources, data, boards, and the committees of (1) the Soil Conservation Service, in carrying out the Board in the classification of land as to risk and production capability and in the development of acceptable conservation practices; (2) the Forest Service, in assisting the Board in the development of a timber insurance plan; (3) the Agricultural Stabilization and Conservation Service, in assisting the Board in the determination of individual producer yields and in serving as a local contact point for farmers where the Board deems necessary; and (4) other Federal agencies in any way the Board deems necessary in carrying out this subchapter.

(g) Specialty Crops Coordinator

(1) The Corporation shall establish a management-level position to be known as the Specialty Crops Coordinator.

(2) The Specialty Crops Coordinator shall have primary responsibility for addressing the needs of specialty crop producers, and for providing information and advice, in connection with the activities of the Corporation to improve and expand the insurance program for specialty crops. In carrying out this paragraph, the Specialty Crops Coordinator shall act as the liaison of the Corporation with representatives of specialty crop producers and assist the Corporation with the knowledge, expertise, and familiarity of the producers with risk management and production insurance pertaining to specialty crops.

(3) The Specialty Crops Coordinator shall use information collected from Corporation field office directors in States in which specialty crops have a significant economic effect and from other sources, including the extension service, other agricultural associations, and the insured specialty crop producers with risk management and production insurance interests.

Provisions that authorized personnel paid by the hour, day, or month when actually employed, and county crop insurance committeemen to have their compensation fixed without regard to "the Classification Act of 1923, as amended" were omitted as obsolete. Sections 1202 and 1204 of the Classification Act of 1949, 63 Stat. 972, 973 repealed the 1923 Act and all laws or parts of laws inconsistent with the 1949 Act. While section 1106(a) of the 1949 Act provided that references in other laws to the 1923 Act should be held and considered to mean the 1949 Act it did not have the effect of continuing the exceptions contained in this subsection because of section 1106(b) which provided that the application of the 1949 Act to any position, officer, or employee shall not be affected by section 1106(a). The Classification Act of 1949 was repealed by Act Sept. 6, 1966, Pub. L. 89–534, §8(a), 80 Stat. 632 (of which section 1 revised and enacted Title 5, U.S.C., into law). Section 5102 of Title 5 now contains the applicability provisions of the 1949 Act and section 5103 of Title 5 authorizes the Office of Personnel Management to determine the applicability to specific positions and employees.

In subsec. (b), reference to "subchapter I of chapter 81 of title 5" substituted for "the Act entitled 'An Act to provide compensation for employees of the United States suffering injuries while in the performance of their duties, and for other purposes', approved September 7, 1916, as amended" on authority of Pub. L. 89–554, §7(b), Sept. 6, 1966, 80 Stat. 631, the first section of which enacted Title 5, Government Organization and Employees.

(i) indemnifies the producer on an area yield and loss basis if such a policy or plan of insurance is offered for the agricultural commodity in the county in which the farm is located;

(ii) provides, on a uniform national basis, a higher combination of yield and loss protection that is determined by the Secretary.
price protection than the coverage available under paragraph (2)(A); and
(iii) the Corporation determines is comparable to the coverage available under paragraph (2)(A) for purposes of subsection (c)(2)(A) of this section.

(4) Sale of catastrophic risk coverage
(A) In general
Catastrophic risk coverage may be offered by—
(i) approved insurance providers, if available in an area; and
(ii) at the option of the Secretary that is based on considerations of need, local offices of the Department.

(B) Need
For purposes of considering need under subparagraph (A)(ii), the Secretary may take into account the most efficient and cost-effective use of resources, the availability of personnel, fairness to local producers, and the availability of private insurance carriers.

(C) Delivery of coverage
(i) In general
In full consultation with approved insurance providers, the Secretary may continue to offer catastrophic risk protection in a State (or a portion of a State) through local offices of the Department if the Secretary determines that there is an insufficient number of approved insurance providers operating in the State or portion of the State to adequately provide catastrophic risk protection coverage to producers.

(ii) Coverage by approved insurance providers
To the extent that catastrophic risk protection coverage by approved insurance providers is sufficiently available in a State (or a portion of a State) as determined by the Secretary, only approved insurance providers may provide the coverage in the State or portion of the State.

(iii) Timing of determinations
Not later than 90 days after April 4, 1996, the Secretary shall announce the results of the determinations under clause (i) for policies for the 1997 crop year. For subsequent crop years, the Secretary shall make the announcement not later than April 30 of the year preceding the year in which the crop will be produced, or at such other times during the year as the Secretary finds practicable in consultation with affected crop insurance providers for those States (or portions of States) in which catastrophic coverage remains available through local offices of the Department.

(iv) Current policies
This clause shall take effect beginning with the 1997 crop year. Subject to clause (ii) all catastrophic risk protection policies written by local offices of the Department shall be transferred to the approved insurance provider for performance of all sales, service, and loss adjustment functions. Any fees in connection with such policies that are not yet collected at the time of the transfer shall be payable to the approved insurance providers assuming the policies. The transfer process for policies for the 1997 crop year with sales closing dates before January 1, 1997, shall begin at the time of the Secretary's announcement under clause (iii) and be completed by the sales closing date for the crop and county.

The transfer process for all subsequent policies (including policies for the 1998 and subsequent crop years) shall begin at a date that permits the process to be completed not later than 45 days before the sales closing date.

(5) Administrative fee
(A) Basic fee
Each producer shall pay an administrative fee for catastrophic risk protection in the amount of $300 per crop per county.

(B) Payment of catastrophic risk protection fee on behalf of producers
(i) Payment authorized
If State law permits a licensing fee to be paid by an insurance provider to a cooperative association or trade association and rebated to a producer through the payment of catastrophic risk protection administrative fees, a cooperative association or trade association located in that State may pay, on behalf of a member of the association in that State or a contiguous State who consents to be insured under such an arrangement, all or a portion of the administrative fee required by this paragraph for catastrophic risk protection.

(ii) Selection of provider
Nothing in this subparagraph limits the option of a producer to select the licensed insurance agent or other approved insurance provider from whom the producer will purchase a policy or plan of insurance or to refuse coverage for which a payment is offered to be made under clause (i).

(iii) Delivery of insurance
Catastrophic risk protection coverage for which a payment is made under clause (i) shall be delivered by a licensed insurance agent or other approved insurance provider.

(iv) Additional coverage encouraged
A cooperative association or trade association, and any approved insurance provider with whom a licensing fee is made, shall encourage producer members to purchase appropriate levels of coverage in order to meet the risk management needs of the member producers.

(C) Time for payment
The administrative fee required by this paragraph shall be paid by the producer on
the same date on which the premium for a policy of additional coverage would be paid by the producer.

(D) Use of fees
(i) In general
The amounts paid under this paragraph shall be deposited in the crop insurance fund established under section 1516(c) of this title, to be available for the programs and activities of the Corporation.

(ii) Limitation
No funds deposited in the crop insurance fund under this subparagraph may be used to compensate an approved insurance provider or agent for the delivery of services under this subparagraph.

(E) Waiver of fee
The Corporation shall waive the amounts required under this paragraph for limited resource farmers, as defined by the Corporation.

(6) Participation requirement
A producer may obtain catastrophic risk coverage for a crop of the producer on land in the county only if the producer obtains the coverage for the crop on all insurable land of the producer in the county.

(7) Eligibility for Department programs
(A) In general
Effective for the spring-planted 1996 and subsequent crops (and fall-planted 1996 crops at the option of the Secretary), to be eligible for any payment or loan under the Agricultural Market Transition Act [7 U.S.C. 7201 et seq.], for the conservation reserve program, or for any benefit described in section 2008f of this title, a person shall—
(i) obtain at least the catastrophic level of insurance for each crop of economic significance in which the person has an interest; or
(ii) provide a written waiver to the Secretary that waives any eligibility for emergency crop loss assistance in connection with the crop.

(B) “Crop of economic significance” defined
As used in this paragraph, the term ‘crop of economic significance’ means a crop that has contributed, or is expected to contribute, 10 percent or more of the total expected value of all crops grown by the producer.

(8) Limitation due to risk
The Corporation may limit catastrophic risk coverage in any county or area, or on any farm, on the basis of the insurance risk concerned.

(9) Transitional coverage for 1995 crops
Effective only for a 1995 crop planted or for which insurance attached prior to January 1, 1995, the Corporation shall allow producers of the crops until not later than the end of the 180-day period beginning on the date of enactment of the Federal Crop Insurance Reform Act of 1994 [Oct. 13, 1994] to obtain catastrophic risk protection for the crop. On enactment of such Act, a producer who made timely purchases of a crop insurance policy before the date of enactment of such Act, under the provisions of this subchapter then in effect, shall be eligible for the same benefits to which a producer would be entitled under comparable additional coverage under subsection (c) of this section.

(10) Simplification
(A) Catastrophic risk protection plans
In developing and carrying out the policies and procedures for a catastrophic risk protection plan under this subchapter, the Corporation shall, to the maximum extent practicable, minimize the paperwork required and the complexity and costs of procedures governing applications for, processing, and servicing of the plan for all parties involved.

(B) Other plans
To the extent that the policies and procedures developed under subparagraph (A) may be applied to other plans of insurance offered under this subchapter without jeopardizing the actuarial soundness or integrity of the crop insurance program, the Corporation shall apply the policies and procedures to the other plans of insurance within a reasonable period of time (as determined by the Corporation) after the effective date of this paragraph.

(c) General coverage levels
(1) Additional coverage generally
(A) In general
The Corporation shall offer to producers of agricultural commodities grown in the United States plans of crop insurance that provide additional coverage.

(B) Purchase
To be eligible for additional coverage, a producer must apply to an approved insurance provider for purchase of additional coverage if the coverage is available from an approved insurance provider. If additional coverage is unavailable privately, the Corporation may offer additional coverage plans of insurance directly to producers.

(2) Transfer of relevant information
If a producer has already applied for catastrophic risk protection at the local office of the Department and elects to purchase additional coverage, the relevant information for the crop of the producer shall be transferred to the approved insurance provider servicing the additional coverage crop policy.

(3) Yield and loss basis
A producer shall have the option of purchasing additional coverage based on an individual
yield and loss basis or on an area yield and loss basis, if both options are offered by the Corporation.

(4) Level of coverage

The level of coverage shall be dollar denominated and may be purchased at any level not to exceed 85 percent of the individual yield or 95 percent of the area yield (as determined by the Corporation). Not later than the beginning of the 1996 crop year, the Corporation shall provide producers with information on catastrophic risk and additional coverage in terms of dollar coverage (within the allowable limits of coverage provided in this paragraph).

(5) Expected market price

(A) Establishment or approval

For the purposes of this subchapter, the Corporation shall establish or approve the price level (referred to in this subchapter as the “expected market price”) of each agricultural commodity for which insurance is offered.

(B) General rule

Except as otherwise provided in subparagraph (C), the expected market price of an agricultural commodity shall be not less than the projected market price of the agricultural commodity, as determined by the Corporation.

(C) Other authorized approaches

The expected market price of an agricultural commodity—

(i) may be based on the actual market price of the agricultural commodity at the time of harvest, as determined by the Corporation;

(ii) in the case of revenue and other similar plans of insurance, may be the actual market price of the agricultural commodity, as determined by the Corporation;

(iii) in the case of cost of production or similar plans of insurance, shall be the projected cost of producing the agricultural commodity, as determined by the Corporation; or

(iv) in the case of other plans of insurance, may be an appropriate amount, as determined by the Corporation.

(D) Grain sorghum price election

(i) In general

The Corporation, in conjunction with the Secretary (referred to in this subparagraph as the “Corporation”), shall—

(I) not later than 60 days after the date of enactment of this subparagraph, make available all methods and data, including data from the Economic Research Service, used by the Corporation to develop the expected market prices for grain sorghum under the production and revenue-based plans of insurance for notice and comment and, during the comment period, conduct at least 1 public meeting to discuss the proposed pricing methodology; and

(II) request applicable data from the grain sorghum industry.

(ii) Expert reviewers

(I) In general

Not later than 120 days after the date of enactment of this subparagraph, the Corporation shall contract individually with 5 expert reviewers described in subparagraph (I) to develop and recommend a methodology for determining an expected market price for sorghum for both the production and revenue-based plans of insurance to more accurately reflect the actual price at harvest.

(II) Requirements

The expert reviewers under subclause (I) shall be comprised of agricultural economists with experience in grain sorghum and corn markets, of whom—

(aa) 2 shall be agricultural economists of institutions of higher education;

(bb) 2 shall be economists from within the Department; and

(cc) 1 shall be an economist nominated by the grain sorghum industry.

(iii) Recommendations

(I) In general

Not later than 90 days after the date of contracting with the expert reviewers under clause (ii), the expert reviewers shall submit, and the Corporation shall make available to the public, the recommendations of the expert reviewers.

(II) Consideration

The Corporation shall consider the recommendations under subclause (I) when determining the appropriate pricing methodology for both the production and revenue-based plans of insurance.

(III) Publication

Not later than 60 days after the date on which the Corporation receives the recommendations of the expert reviewers, the Corporation shall publish the proposed pricing methodology for both the production and revenue-based plans of insurance for notice and comment and, during the comment period, conduct at least 1 public meeting to discuss the proposed pricing methodologies.

(iv) Appropriate pricing methodology

(1) In general

Not later than 180 days after the close of the comment period in clause (III)(III), but effective not later than the 2010 crop year, the Corporation shall implement a pricing methodology for grain sorghum under the production and revenue-based plans of insurance that is transparent and replicable.

(II) Interim methodology

Until the date on which the new pricing methodology is implemented, the Corporation may continue to use the pricing methodology that the Corporation determines best establishes the expected market price.

(III) Availability

On an annual basis, the Corporation shall make available the pricing meth-
(6) Price elections
(A) In general
Subject to subparagraph (B), insurance coverage shall be made available to a producer on the basis of any price election that equals or is less than the price election established by the Corporation. The coverage shall be quoted in terms of dollars per acre.
(B) Minimum price elections
The Corporation may establish minimum price elections below which levels of insurance shall not be offered.

(C) Wheat classes and malting barley
The Corporation shall, as the Corporation determines practicable, offer producers different price elections for classes of wheat and malting barley (including contract prices in the case of malting barley), in addition to the standard price election, that reflect different market prices, as determined by the Corporation. The Corporation shall, as the Corporation determines practicable, offer additional coverage for each class determined under this subparagraph and charge a premium for each class that is actuarially sound.

(7) Fire and hail coverage
For levels of additional coverage equal to 65 percent or more of the recorded or appraised average yield indemnified at 100 percent of the expected market price, or an equivalent coverage, a producer may elect to delete from the additional coverage any coverage against damage caused by fire and hail if the producer obtains an equivalent or greater dollar amount of coverage for damage caused by fire and hail from an approved insurance provider. On written notice of the election to the company issuing the policy providing additional coverage and submission of evidence of substitute coverage on the commodity insured, the premium of the producer shall be reduced by an amount determined by the Corporation to be actuarially appropriate, taking into account the actual value of the remaining coverage provided by the Corporation. In no event shall the premium be given credit for an amount of premium determined to be greater than the actuarial value of the protection against losses caused by fire and hail that is included in the additional coverage for the crop.

(8) State premium subsidies
The Corporation may enter into an agreement with any State or agency of a State under which the State or agency may pay to the approved insurance provider an additional premium subsidy to further reduce the portion of the premium paid by producers in the State.

(9) Limitations on additional coverage
The Board may limit the availability of additional coverage under this subsection in any county or area, or on any farm, on the basis of the insurance risk involved. The Board shall not offer additional coverage equal to less than 50 percent of the recorded or appraised average yield indemnified at 100 percent of the expected market price, or an equivalent coverage.

(10) Administrative fee
(A) Fee required
If a producer elects to purchase coverage for a crop at a level in excess of catastrophic risk protection, the producer shall pay an administrative fee for the additional coverage of $30 per crop per county.

(B) Use of fees; waiver
Subparagraphs (D) and (E) of subsection (b)(5) of this section shall apply with respect to the collection and use of administrative fees under this paragraph.

(C) Time for payment
Subsection (b)(5)(C) shall apply with respect to the collection date for the administrative fee.

(d) Premiums
(1) Premiums required
The Corporation shall fix adequate premiums for all the plans of insurance of the Corporation at such rates as the Board determines are actuarially sufficient to attain an expected loss ratio of not greater than—
(A) 1.1 through September 30, 1998;
(B) 1.075 for the period beginning October 1, 1998, and ending on the day before the date of enactment of the Food, Conservation, and Energy Act of 2008; and
(C) 1.0 on and after the date of enactment of that Act.

(2) Premium amounts
The premium amounts for catastrophic risk protection under subsection (b) of this section and additional coverage under subsection (c) of this section shall be fixed as follows:
(A) In the case of catastrophic risk protection, the amount of the premium shall be sufficient to cover anticipated losses and a reasonable reserve.
(B) In the case of additional coverage equal to or greater than 50 percent of the recorded or appraised average yield indemnified at not greater than 100 percent of the expected market price, or a comparable coverage for a policy or plan of insurance that is not based on individual yield, the amount of the premium shall—
(i) be sufficient to cover anticipated losses and a reasonable reserve; and
(ii) include an amount for operating and administrative expenses, as determined by the Corporation, on an industry-wide basis as a percentage of the amount of the premium used to define loss ratio.

(3) Performance-based discount
The Corporation may provide a performance-based premium discount for a producer of an agricultural commodity who has good insurance or production experience relative to
other producers of that agricultural commodity in the same area, as determined by the Corporation.

(4) Billing date for premiums

Effective beginning with the 2012 reinsurance year, the Corporation shall establish August 15 as the billing date for premiums.

(e) Payment of portion of premium by Corporation

(2) Amount of payment

Subject to paragraphs (4), (6), and (7), the amount of the premium to be paid by the Corporation shall be as follows:

(A) In the case of catastrophic risk protection, the amount shall be equivalent to the premium established for catastrophic risk protection under subsection (d)(2)(A) of this section.

(4) Premium payment disclosure  
Each policy or plan of insurance under this subchapter shall prominently indicate the dollar amount of the portion of the premium paid by the Corporation.

(5) Enterprise and whole farm units  
(A) In general  
The Corporation may carry out a pilot program under which the Corporation pays a portion of the premiums for plans or policies of insurance for which the insurable unit is defined on a whole farm or enterprise unit basis that is higher than would otherwise be paid in accordance with paragraph (2).

(B) Amount

(f) Eligibility
(1) In general
To participate in catastrophic risk protection coverage under this section, a producer shall submit an application at the local office of the Department or to an approved insurance provider.

(2) Sales closing date
(A) In general
For coverage under this subchapter, each producer shall purchase crop insurance on or before the sales closing date for the crop by providing the required information and executing the required documents. Subject to the goal of ensuring actuarial soundness for the crop insurance program, the sales closing date shall be established by the Corporation to maximize convenience to producers in obtaining benefits under price and production adjustment programs of the Department.

(B) Established dates
Except as provided in subparagraph (C), the Corporation shall establish, for an insurance policy for each insurable crop that is planted in the spring, a sales closing date that is 30 days earlier than the corresponding sales closing date that was established for the 1994 crop year.

(C) Exception
If compliance with subparagraph (B) results in a sales closing date for an agricultural commodity that is earlier than January 31, the sales closing date for that commodity shall be January 31 beginning with the 2000 crop year.

(3) Records and reporting
To obtain catastrophic risk protection under subsection (b) of this section or additional coverage under subsection (c) of this section, a producer shall—
(A) provide annually records acceptable to the Secretary regarding crop acreage, acreage yields, and production for each agricultural commodity insured under this subchapter or accept a yield determined by the Corporation; and
(B) report acreage planted and prevented from planting by the designated acreage reporting date for the crop and location as established by the Corporation.

(g) Yield determinations
(1) In general
Subject to paragraph (2), the Corporation shall establish crop insurance underwriting rules that ensure that yield coverage, as specified in this subsection, is provided to eligible producers obtaining catastrophic risk protection under subsection (b) of this section or additional coverage under subsection (c) of this section.

(2) Yield coverage plans
(A) Actual production history
Subject to subparagraph (B), the yield for a crop shall be based on the actual production history for the crop, if the crop was produced on the farm without penalty during each of the 4 crop years immediately preceding the crop year for which actual production history is being established, building up to a production data base for each of the 10 consecutive crop years preceding the crop year for which actual production history is being established.

(B) Assigned yield
If the producer does not provide satisfactory evidence of the yield of a commodity under subparagraph (A), the producer shall be assigned—
(i) a yield that is not less than 65 percent of the transitional yield of the producer (adjusted to reflect actual production reflected in the records acceptable to the Corporation for continuous years), as specified in regulations issued by the Corporation based on production history requirements; or
(ii) a yield determined by the Corporation, in the case of—
(I) a producer that has not had a share of the production of the insured crop for more than two crop years, as determined by the Secretary;
(II) a producer that produces an agricultural commodity on land that has not been farmed by the producer; or
(III) a producer that rotates a crop produced on a farm to a crop that has not been produced on the farm.

(C) Area yield
The Corporation may offer a crop insurance plan based on an area yield that allows an insured producer to qualify for an indemnity if a loss has occurred in an area (as specified by the Corporation) in which the farm of the producer is located. Under an area yield plan, an insured producer shall be allowed to select the level of area production at which an indemnity will be paid consistent with such terms and conditions as are established by the Corporation.

(D) Commodity-by-commodity basis
A producer may choose between individual yield or area yield coverage or combined coverage, if available, on a commodity-by-commodity basis.

(3) Transitional yields for producers of feed or forage
(A) In general
If a producer does not provide satisfactory evidence of a yield under paragraph (2)(A), the producer shall be assigned a yield that is at least 80 percent of the transitional yield established by the Corporation (adjusted to reflect the actual production history of the producer) if the Secretary determines that—
(i) the producer grows feed or forage primarily for on-farm use in a livestock, dairy, or poultry operation; and
(ii) over 50 percent of the net farm income of the producer is derived from the operation.

(B) Yield calculation

The Corporation shall—

(i) for the first year of participation of a producer, provide the assigned yield under this paragraph to the producer of feed or forage; and

(ii) for the second year of participation of the producer, apply the actual production history or assigned yield requirement, as provided in this subsection.

(C) Termination of authority

The authority provided by this paragraph shall terminate on the date that is 3 years after the effective date of this paragraph.

(4) Adjustment in actual production history to establish insurable yields

(A) Application

This paragraph shall apply whenever the Corporation uses the actual production records of the producer to establish the producer’s actual production history for an agricultural commodity for any of the 2001 and subsequent crop years.

(B) Election to use percentage of transitional yield

If, for one or more of the crop years used to establish the producer’s actual production history of an agricultural commodity, the producer’s recorded or appraised yield of the commodity was less than 60 percent of the applicable transitional yield, as determined by the Corporation, the Corporation shall, at the election of the producer—

(i) exclude any of such recorded or appraised yield; and

(ii) replace each excluded yield with a yield equal to 60 percent of the applicable transitional yield.

(C) Premium adjustment

In the case of a producer that makes an election under subparagraph (B), the Corporation shall adjust the premium to reflect the risk associated with the adjustment made in the actual production history of the producer.

(5) Adjustment to reflect increased yields from successful pest control efforts

(A) Situations justifying adjustment

The Corporation shall develop a methodology for adjusting the actual production history of a producer when each of the following apply:

(i) The producer’s farm is located in an area where systematic, area-wide efforts have been undertaken using certain operations or measures, or the producer’s farm is a location at which certain operations or measures have been undertaken, to detect, eradicate, suppress, or control, or at least to prevent or retard the spread of, a plant disease or plant pest, including a plant pest (as defined in section 7759 of this title).

(ii) The presence of the plant disease or plant pest has been found to adversely affect the yield of the agricultural commodity for which the producer is applying for insurance.

(iii) The efforts described in clause (i) have been effective.

(B) Adjustment amount

(h) Submission of policies and materials to Board

(1) In general

(3) Review and approval by the Board

A policy or other material submitted to the Board under this subsection shall be reviewed by the Board and, if the Board finds that the interests of producers are adequately protected and that any premiums charged to the producers are actuarially appropriate, shall be approved by the Board for reinsurance and for sale by approved insurance providers to producers as an additional choice at actuarially appropriate rates and under appropriate terms and conditions. The Corporation may enter into more than 1 reinsurance agreement with the approved insurance provider simultaneously to facilitate the offering of the new policies.

(5) Premium schedule

(A) Payment by Corporation
In the case of a policy or plan of insurance developed and approved under this subsection or section 1522 of this title, or conducted under section 1523 of this title (other than a policy or plan of insurance applicable to livestock), the Corporation shall pay a portion of the premium of the policy or plan of insurance that is equal to—

(i) the percentage, specified in subsection (e) of this section for a similar level of coverage, of the total amount of the premium used to define loss ratio; and

(ii) an amount for administrative and operating expenses determined in accordance with subsection (k)(4) of this section.

(B) Transitional schedule
Effective only during the 2001 reinsurance year, in the case of a policy or plan of insurance developed and approved under this subsection or section 1522 of this title, or conducted under section 1523 of this title (other than a policy or plan of insurance applicable to livestock), and first approved by the Board after June 20, 2000, the payment by the Corporation of a portion of the premium of the policy may not exceed the dollar amount that would otherwise be authorized under subsection (e) of this section (consistent with subsection (c)(5) of this section, as in effect on the day before June 20, 2000).

(B) Approved insurance providers
Additional prevented planting coverage shall be offered by the Corporation through approved insurance providers.

(C) Timing of loss
A crop loss shall be covered by the additional prevented planting coverage if—

(i) crop insurance policies were obtained for—

(II) the crop year immediately preceding the year of the prevented planting loss; and
(ii) the cause of the loss occurred—
  (I) after the sales closing date for the
  crop in the crop year immediately pre-
  ceding the loss; and
  (II) before the sales closing date for the
  crop in the year in which the loss is
  experienced.

(i) Adoption of rates and coverages

(1) In general

The Corporation shall adopt, as soon as prac-
ticable, rates and coverages that will improve
the actuarial soundness of the insurance oper-
ations of the Corporation for those crops that
are determined to be insured at rates that are
not actuarially sound, except that no rate may
be increased by an amount of more than 20
percent over the comparable rate of the pre-
ceding crop year.

(2) Review of rating methodologies

To maximize participation in the Federal
crop insurance program and to ensure equity
for producers, the Corporation shall periodi-

rating plans of insurance under this sub-
chapter consistent with section 1507(c)(2) of
this title.

(3) Analysis of rating and loss history

The Corporation shall analyze the rating and
loss history of approved policies and plans of
insurance for agricultural commodities by area.

(4) Premium adjustment

If the Corporation makes a determination
that premium rates are excessive for an agri-
cultural commodity in an area relative to the
requirements of subsection (d)(2) of this sec-
tion for that area, then, for the 2002 crop year
(and as necessary thereafter), the Corporation
shall make appropriate adjustments in the
premium rates for that area for that agricul-
tural commodity.

(j) Claims for losses

(1) In general

Under rules prescribed by the Corporation,
the Corporation may provide for adjustment
and payment of claims for losses. The rules
prescribed by the Corporation shall establish
standards to ensure that all claims for losses
are adjusted, to the extent practicable, in a
uniform and timely manner.

(2) Denial of claims

(A) In general

Subject to subparagraph (B), if a claim for
indemnity is denied by the Corporation or an
approved provider on behalf of the Corpora-
tion, an action on the claim may be brought
against the Corporation or Secretary only in
the United States district court for the dis-
trict in which the insured farm is located.

(B) Statute of limitations

A suit on the claim may be brought not
later than 1 year after the date on which
final notice of denial of the claim is provided
to the claimant.

The Corporation shall consider marketing
windows in determining whether it is feasible
to require planting during a crop year.

(5) Settlement of claims on farm-stored produc-
tion

A producer with farm-stored production
may, at the option of the producer, delay set-
tlement of a crop insurance claim relating to
the farm-stored production for up to 4 months
after the last date on which claims may be
submitted under the policy of insurance.

(k) Reinsurance

(1) In general

Notwithstanding any other provision of this
subsection, the Corporation shall, to the max-
imum extent practicable, provide reinsurance
to insurers approved by the Corporation that
insure producers of any agricultural commodi-
ity under 1 or more plans acceptable to the
Corporation.

(2) Terms and conditions

The reinsurance shall be provided on such
terms and conditions as the Board may deter-
mine to be consistent with subsections (b) and
(c) of this section and sound reinsurance prin-
ciples.

(3) Share of risk

The reinsurance agreements of the Corpora-
tion with the reinsured companies shall re-
quire the reinsured companies to bear a suffi-
cient share of any potential loss under the
agreement so as to ensure that the reinsured
company will sell and service policies of
insurance in a sound and prudent manner, taking
into consideration the financial condition of
the reinsured companies and the availability
of private reinsurance.

(4) Rate

(A) In general

Except as otherwise provided in this para-
graph, the rate established by the Board to
reimburse approved insurance providers and
agents for the administrative and operating
costs of the providers and agents shall not
exceed—
  (i) for the 1998 reinsurance year, 27 per-
  cent of the premium used to define loss
  ratio; and
  (ii) for each of the 1999 and subsequent
  reinsurance years, 24.5 percent of the pre-
  sum used to define loss ratio.

(B) Proportional reductions

A policy of additional coverage that re-
ceived a rate of reimbursement for adminis-
trative and operating costs of the providers and agents shall not
exceed—
  (i) for the 1998 reinsurance year, 27 per-
  cent of the premium used to define loss
  ratio; and
  (ii) for each of the 1999 and subsequent
  reinsurance years, 24.5 percent of the pre-
  sum used to define loss ratio.
(C) Other reductions

Beginning with the 2002 reinsurance year, in the case of a policy or plan of insurance approved by the Board that was not reinsured during the 1998 reinsurance year but, had it been reinsured, would have received a reduced rate of reimbursement during the 1998 reinsurance year, the rate of reimbursement for administrative and operating costs established for the policy or plan of insurance shall take into account the factors used to determine the rate of reimbursement for administrative and operating costs during the 1998 reinsurance year, including the expected difference in premium and actual administrative and operating costs of the policy or plan of insurance relative to an individual yield policy or plan of insurance and other appropriate factors, as determined by the Corporation.

(D) Time for reimbursement

Effective beginning with the 2012 reinsurance year, the Corporation shall reimburse approved insurance providers and agents for the allowable administrative and operating costs of the providers and agents as soon as practicable after October 1 (but not later than October 31) after the reinsurance year for which reimbursements are earned.

(E) Reimbursement rate reduction

In the case of a policy of additional coverage that received a rate of reimbursement for administrative and operating costs for the 2006 reinsurance year, for each of the 2009 and subsequent reinsurance years, the reimbursement rate for administrative and operating costs shall be 2.3 percentage points below the rates in effect as of the date of enactment of the Food, Conservation, and Energy Act of 2006 for all crop insurance policies used to define loss ratio, except that only ½ of the reduction shall apply in a reinsurance year to the total premium written in a State in which the State loss ratio is greater than 1.2.

(F) Reimbursement rate for area policies and plans of insurance

Notwithstanding subparagraphs (A) through (E), for each of the 2009 and subsequent reinsurance years, the reimbursement rate for area policies and plans of insurance widely available as of the date of enactment of this subparagraph shall be 12 percent of the premium used to define loss ratio for that reinsurance year.

(5) Cost and regulatory reduction

Consistent with section 118 of the Federal Crop Insurance Reform Act of 1994, and consistent with maintenance of program integrity, prevention of fraud and abuse, the need for program expansion, and improvement of quality of service to customers, the Board shall alter program procedures and administrative requirements in order to reduce the administrative and operating costs of approved insurance providers and agents in an amount that corresponds to any reduction in the reimbursement rate required under paragraph (4) during the 5-year period beginning on October 13, 1994.

(6) Agency discretion

The determination of whether the Corporation is achieving, or has achieved, corresponding administrative cost savings shall not be subject to administrative review, and is wholly committed to agency discretion within the meaning of section 701(a)(2) of title 5.

(7) Plan

The Corporation shall submit to Congress a plan outlining the measures that will be used to achieve the reduction required under paragraph (5). If the Corporation can identify additional cost reduction measures, the Corporation shall describe the measures in the plan.

(8) Renegotiation of standard reinsurance agreement

(A) In general

Except as provided in subparagraph (B), notwithstanding section 536 of the Agricultural Research, Extension, and Education Reform Act of 1998 (7 U.S.C. 1506 note; Public Law 105–185) and section 146 of the Agricultural Risk Protection Act of 2000 (7 U.S.C. 1506 note; Public Law 106–224), the Corporation may renegotiate the financial terms and conditions of each Standard Reinsurance Agreement—

(i) to be effective for the 2011 reinsurance year beginning July 1, 2010; and

(ii) once during each period of 5 reinsurance years thereafter.

(B) Exceptions

(i) Adverse circumstances

Subject to clause (ii), subparagraph (A) shall not apply in any case in which the approved insurance providers, as a whole, experience unexpected adverse circumstances, as determined by the Secretary.

(ii) Effect of Federal law changes

If Federal law is enacted after the date of enactment of this paragraph that requires revisions in the financial terms of the Standard Reinsurance Agreement, and changes in the Agreement are made on a mandatory basis by the Corporation, the changes shall not be considered to be a renegotiation of the Agreement for purposes of subparagraph (A).

(C) Notification requirement

If the Corporation renegotiates a Standard Reinsurance Agreement under subparagraph (A)(iii), the Corporation shall notify the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate of the renegotiation.

(D) Consultation

The approved insurance providers may confer with each other and collectively with the Corporation during any renegotiation under subparagraph (A).

3So in original. Subpar. (A) does not contain a cl. (iii).
(E) 2011 reinsurance year

(i) In general
As part of the Standard Reinsurance Agreement renegotiation authorized under subparagraph (A)(i), the Corporation shall consider alternative methods to determine reimbursement rates for administrative and operating costs.

(ii) Alternative methods
Alternatives considered under clause (i) shall include—
(I) methods that—
(aa) are graduated and base reimbursement rates in a State on changes in premiums in that State;
(bb) are graduated and base reimbursement rates in a State on the loss ratio for crop insurance for that State; and
(cc) are graduated and base reimbursement rates on individual policies on the level of total premium for each policy; and
(II) any other method that takes into account current financial conditions of the program and ensures continued availability of the program to producers on a nationwide basis.

(9) Due date for payment of underwriting gains
Effective beginning with the 2011 reinsurance year, the Corporation shall make payments for underwriting gains under this subchapter on—
(A) for the 2011 reinsurance year, October 1, 2012; and
(B) for each reinsurance year thereafter, October 1 of the following calendar year.

(I) Optional coverages
The Corporation may offer specific risk protection programs, including protection against prevented planting, wildlife depredation, tree damage and disease, and insect infestation, under such terms and conditions as the Board may determine, except that no program may be undertaken if insurance for the specific risk involved is generally available from private companies.

(m) Quality loss adjustment coverage

(1) Effect of coverage
If a policy or plan of insurance offered under this subchapter includes quality loss adjustment coverage, the coverage shall provide for a reduction in the quantity of production of the agricultural commodity considered produced during a crop year, or a similar adjustment, as a result of the agricultural commodity not meeting the quality standards established in the policy or plan of insurance.

(2) Additional quality loss adjustment

(A) Producer option
Notwithstanding any other provision of law, in addition to the quality loss adjustment coverage available under paragraph (1), the Corporation shall offer producers the option of purchasing quality loss adjustment coverage on a basis that is smaller than a unit with respect to an agricultural commodity that satisfies each of the following:
(i) The agricultural commodity is sold on an identity-preserved basis.
(ii) All quality determinations are made solely by the Federal agency designated to grade or classify the agricultural commodity.
(iii) All quality determinations are made in accordance with standards published by the Federal agency in the Federal Register.
(iv) The discount schedules that reflect the reduction in quality of the agricultural commodity are established by the Secretary.

(B) Basis for adjustment
Under this paragraph, the Corporation shall set the quality standards below which quality losses will be paid based on the variability of the grade of the agricultural commodity from the base quality for the agricultural commodity.

(3) Review of criteria and procedures

(A) Review
The Corporation shall contract with a qualified person to review the quality loss adjustment procedures of the Corporation so that the procedures more accurately reflect local quality discounts that are applied to agricultural commodities insured under this subchapter.

(B) Procedures
Effective beginning not later than the 2004 reinsurance year, based on the review, the Corporation shall make adjustments in the procedures, taking into consideration the actuarial soundness of the adjustment and the prevention of fraud, waste, and abuse.

(4) Quality of agricultural commodities delivered to warehouse operators

In administering this subchapter, the Secretary shall accept, in the same manner and under the same terms and conditions, evidence of the quality of agricultural commodities delivered to—
(A) warehouse operators that are licensed under the United States Warehouse Act (7 U.S.C. 241 et seq.);
(B) warehouse operators that—
(i) are licensed under State law; and
(ii) have entered into a storage agreement with the Commodity Credit Corporation; and
(C) warehouse operators that—
(i) are not licensed under State law but are in compliance with State law regarding warehouses; and
(ii) have entered into a commodity storage agreement with the Commodity Credit Corporation.

(5) Special provisions for malting barley

The Corporation shall promulgate special provisions under this subsection specific to malting barley, taking into consideration any changes in quality factors, as required by applicable market conditions.
(n) Limitation on multiple benefits for same loss

(1) In general

Except as provided in paragraph (2), if a producer who is eligible to receive benefits under catastrophic risk protection under subsection (b) of this section is also eligible to receive assistance for the same loss under any other program administered by the Secretary, the producer shall be required to elect whether to receive benefits under this subchapter or under the other program, but not both. A producer who purchases additional coverage under subsection (c) of this section may also receive assistance for the same loss under other programs administered by the Secretary, except that the amount received for the loss under the additional coverage together with the amount received under the other programs may not exceed the amount of the actual loss of the producer.

(2) Exception

Paragraph (1) shall not apply to emergency loans under title II of the Consolidated Farm and Rural Development Act (7 U.S.C. 1961 et seq.).

(o) Crop production on native sod

(1) Definition of native sod

In this subsection, the term “native sod” means land—

(A) on which the plant cover is composed principally of native grasses, grasslike plants, forbs, or shrubs suitable for grazing and browsing; and

(B) that has never been tilled for the production of an annual crop as of the date of enactment of this subsection.

(2) Ineligibility for benefits

(A) In general

Subject to subparagraph (B) and paragraph (3), native sod acreage that has been tilled for the production of an annual crop after the date of enactment of this subsection shall be ineligible during the first 5 crop years of planting, as determined by the Secretary, for benefits under—

(i) this subchapter; and

(ii) section 3323 of this title.

(B) De minimis acreage exemption

The Secretary shall exempt areas of 5 acres or less from subparagraph (A).

(3) Application

Paragraph (2) may apply to native sod acreage in the Prairie Pothole National Priority Area at the election of the Governor of the respective State.

(a) Definitions

In this section:

(1) First crop

The term “first crop” means the first crop of the first agricultural commodity planted for harvest, or prevented from being planted, on specific acreage during a crop year and insured under this subchapter.

(2) Second crop

The term “second crop” means a second crop of the same agricultural commodity as the first crop, or a crop of a different agricultural commodity following the first crop, planted on the same acreage as the first crop for harvest in the same crop year, except the term does not include a replanted crop.

(3) Replanted crop

The term “replanted crop” means any agricultural commodity replanted on the same acreage as the first crop for harvest in the same crop year if the replanting is required by the terms of the policy of insurance covering the first crop.

(b) Double insurance

(1) Options on loss to first crop

Except as provided in subsections (d) and (e) of this section, if a first crop insured under this subchapter in a crop year has a total or partial insurable loss, the producer of the first crop may elect one of the following options:

(A) No second crop planted

The producer may—

(i) elect to not plant a second crop on the same acreage for harvest in the same crop year; and

(ii) collect an indemnity payment that is equal to 100 percent of the insurable loss for the first crop.

(B) Second crop planted

The producer may—

(i) plant a second crop on the same acreage for harvest in the same crop year; and

(ii) collect an indemnity payment that is equal to 100 percent of the prevented planting guarantee for the acreage for the first crop.

(2) Effect of no loss to second crop

If the producer makes an election under paragraph (1)(B) and the producer does not suffer an insurable loss to the second crop, the producer shall be responsible for a premium for the first crop that is equal to—

(i) the full premium owed by the producer for the first crop; less

(ii) the amount of premium previously paid under subparagraph (A).

(c) Prevented planting coverage

(1) Options on loss to first crop

Except as provided in subsections (d) and (e) of this section, if a first crop insured under this subchapter in a crop year is prevented from being planted, the producer of the first crop may elect one of the following options:

(A) No second crop planted

The producer may—

(i) elect to not plant a second crop on the same acreage for harvest in the same crop year; and

(2) Premium for first crop if second planted

If the producer makes an election under paragraph (1)(B), the producer shall pay a premium for the first crop that is commensurate with the indemnity paid under paragraph (1)(B)(ii). The Corporation shall adjust the total premium for the first crop to reflect the reduced indemnity.

(3) Effect on actual production history

Except in the case of double cropping described in subsection (d) of this section, if a producer make an election under paragraph (1)(B) for a crop year, the Corporation shall assign the producer a recorded yield for that crop year for the first crop equal to 60 percent of the producer’s actual production history for the agricultural commodity involved, for purposes of determining the producer’s actual production history for subsequent crop years.

(4) Area conditions required for payment

The Corporation shall limit prevented planting payments for producers to those situations in which other producers, in the area where a first crop is prevented from being planted is located, are also generally affected by the conditions that prevented the first crop from being planted.
(5) Planting date

If a producer plants the second crop before the latest planting date established by the Corporation for the first crop, the Corporation shall not make a prevented planting payment with regard to the first crop.

(d) Exception for established double cropping practices

A producer may receive full indemnity payments on two or more crops planted for harvest in the same crop year and insured under this subchapter if each of the following conditions are met:

(1) There is an established practice of planting two or more crops for harvest in the same crop year, as determined by the Corporation.

(2) An additional coverage policy or plan of insurance is offered with respect to the agricultural commodities planted on the same acreage for harvest in the same crop year in the area.

(3) The producer has a history of planting two or more crops for harvest in the same crop year or the applicable acreage has historically had two or more crops planted for harvest in the same crop year.

(4) The second or more crops are customarily planted after the first crop for harvest on the same acreage in the same year in the area.

(e) Subsequent crops

Except in the case of double cropping described in subsection (d) of this section, if a producer elects to plant a crop (other than a replanted crop) subsequent to a second crop on the same acreage as the first crop and second crop for harvest in the same crop year, the producer shall not be eligible for insurance under this subchapter, or noninsured crop assistance under section 7333 of this title, for the subsequent crop.

(3) The producer has a history of planting two or more crops for harvest in the same crop year or the applicable acreage has historically had two or more crops planted for harvest in the same crop year.

(i) the concept, in good faith, will likely result in a viable and marketable policy consistent with section 1508(h) of this title;

(ii) in the sole opinion of the Board, the concept, if developed into a policy and approved by the Board, would provide crop insurance coverage—

(I) in a significantly improved form;

CODIFICATION

Section was enacted without a subsec. (b).

Former subsec. (a)(6)(b), which extended the former term “court of appeals,” in case the principal place of business or residence of the person against whom a cease and desist order was issued was in the District of Columbia, to the United States Court of Appeals for the District of Columbia, for purposes of this chapter, has been omitted from the Code as obsolete due to the enactment of act June 25, 1948. The District of Columbia is now a judicial circuit under sections 41 of Title 28, Judiciary and Judicial Procedure. For Hawaii Statehood Law, see Pub. L. 86–3, Mar. 18, 1959, 73 Stat. 4, set out as a note preceding section 21 of Title 48, Territories and Insular Possessions. For Alaska Statehood Law, see Pub. L. 86–6–3, Mar. 18, 1959, 73 Stat. 4, set out as a note preceding section 491 of Title 48.

§ 1562. False representations as certified seed; required provisions

Any labeling, advertisement, or other representation subject to this chapter which represents that any seed is certified seed or any class thereof shall be deemed to be false in this respect unless (a) it has been determined by a seed certifying agency that such seed conforms to standards of genetic purity and identity as to kind or variety, and is in compliance with the rules and regulations of such agency pertaining to such seed; and (b) the seed bears an official label issued for such seed by a seed certifying agency certifying that the seed is of a specified
class and a specified kind or variety. Seed of a variety for which a certificate of plant variety protection under the Plant Variety Protection Act [7 U.S.C. 2321 et seq.] specifies sale only as a class of certified seed shall be certified only when

(1) the basic seed from which the variety was produced furnished by authority of the owner of the variety if the certification is made during the term of protection, and

§ 1621. Congressional declaration of purpose; use of existing facilities; cooperation with States

The Congress declares that a sound, efficient, and privately operated system for distributing and marketing agricultural products is essential to a prosperous agriculture and is indispensable to the maintenance of full employment and to the welfare, prosperity, and health of the Nation. It is further declared to be the policy of Congress to promote through research, study, experimentation, and through cooperation among Federal and State agencies, farm organizations, and private industry a scientific approach to the problems of marketing, transportation, and distribution of agricultural products similar to the scientific methods which have been utilized so successfully during the past eighty-four years in connection with the production of agricultural products so that such products capable of being produced in abundance may be marketed in an orderly manner and efficiently distributed. In order to attain these objectives, it is the intent of Congress to provide for: (1) continuous research to improve the marketing, handling, storage, processing, transportation, and distribution of agricultural products; (2) cooperation among Federal and State agencies, producers, industry organizations, and others in the development and effectuation of research and marketing programs to improve the distribution processes; (3) an integrated administration of all laws enacted by Congress to aid the distribution processes; (4) an integrated regulatory work and other marketing service to be disposed of usefully, economically, profitably, and in an orderly manner. In effectuating the purposes of this chapter, maximum use shall be made of existing research facilities owned or controlled by the Federal Government or by State agricultural experiment stations and of the facilities of the Federal and State extension services. To the maximum extent practicable marketing research work done under this chapter in cooperation with the States shall be done in cooperation with the State agricultural experiment stations; marketing educational and demonstrational work done under this chapter in cooperation with the States shall be done in cooperation with the State agricultural extension service; market information, inspection, regulatory work and other marketing service done under this chapter in cooperation with the State agencies shall be done in cooperation with the State departments of agriculture, and State bureaus and departments of markets. TRANSFER OF FUNCTIONS

Functions of all officers, agencies, and employees of Department of Agriculture transferred, with certain exceptions, to Secretary of Agriculture by 1953 Reorg. Plan No. 2, §1, eff. June 4, 1953, 18 F.R. 3219, 67 Stat. 633, set out as a note under section 2201 of this title.

SPECIALTY CROPS COMPETITIVENESS

‘‘SEC. 2. FINDINGS AND PURPOSE.

‘‘(a) FINDINGS.—Congress finds the following:

‘‘(1) A secure domestic food supply is a national security imperative for the United States.

‘‘(2) A competitive specialty crop industry in the United States is necessary for the production of an abundant, affordable supply of high-nutrition fruits, vegetables, and other specialty crops, which are vital to the health and well-being of all Americans.

‘‘(3) Increased consumption of specialty crops will provide tremendous health and economic benefits to both consumers and specialty crop growers.
(4) Specialty crop growers believe that there are numerous areas of Federal agriculture policy that could be improved to promote increased consumption of specialty crops and increase the competitiveness of producers in the efficient production of affordable specialty crops in the United States.

(5) As the globalization of markets continues, it becomes increasingly difficult for United States producers to compete against heavily subsidized foreign producers in both the domestic and foreign markets.

(6) United States specialty crop producers also continue to face serious tariff and non-tariff trade barriers in many export markets.

(b) PURPOSE.—It is the purpose of this Act [see Short Title of 2004 Amendment note set out under section 3101 of this subchapter] to make necessary changes in Federal agriculture policy to accomplish the goals of increasing fruit, vegetable, and nut consumption and improving the competitiveness of United States specialty crop production.

SEC. 3. DEFINITIONS.

In this Act:

(1) The term ‘specialty crop’ means fruits and vegetables, tree nuts, dried fruits, and horticulture and nursery crops (including floriculture).

(2) The term ‘State’ means the several States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the United States Virgin Islands, and the Commonwealth of the Northern Mariana Islands.

(3) The term ‘State department of agriculture’ means the agency, commission, or department of a State government responsible for agriculture within the State.

TITLE I—STATE ASSISTANCE FOR SPECIALTY CROPS

(b) GRANTS BASED ON VALUE OF PRODUCTION.—Subject to subsection (c), the amount of the grant for a fiscal year to a State under this section shall bear the same ratio to the total amount made available under subsection (j) for that fiscal year as the value of specialty crop production in the State during the preceding calendar year bears to the value of specialty crop production during the preceding calendar year in all States whose application for a grant for that fiscal year is accepted by the Secretary under subsection (f).

(c) MINIMUM GRANT AMOUNT.—Notwithstanding subsection (b), each State shall receive a grant under this section for each fiscal year in an amount that is at least equal to the higher of—

(1) $100,000; or

(2) 1/3 of 1 percent of the total amount of funding made available to carry out this section for the fiscal year.

(d) ELIGIBILITY.—To be eligible to receive a grant under this section, a State department of agriculture shall prepare and submit, for approval by the Secretary of Agriculture, an application at such time, in such a manner, and containing such information as the Secretary shall require by regulation, including—

(1) A State plan that meets the requirements of subsection (e); and

(2) an assurance that the State will comply with the requirements of the plan; and

(3) an assurance that grant funds received under this section shall supplement the expenditure of State funds in support of specialty crops grown in that State, rather than replace State funds.

(e) PLAN REQUIREMENTS.—The State plan shall identify the lead agency charged with the responsibility of carrying out the plan and indicate how the grant funds will be utilized to enhance the competitiveness of specialty crops.

(f) REVIEW OF APPLICATION.—In reviewing the application of a State submitted under subsection (d), the Secretary of Agriculture shall ensure that the State plan would carry out the purpose of grant program, as specified in subsection (a). The Secretary may accept or reject applications for grants under this section.

(g) EFFECT OF NONCOMPLIANCE.—If the Secretary of Agriculture, after reasonable notice to a State, finds that there has been a failure by the State to comply substantially with any provision or requirement of the State plan, the Secretary may disqualify, for one or more years, the State from receipt of future grants under this section.

(h) AUDIT REQUIREMENTS.—For each year that a State receives a grant under this section, the State shall conduct an audit of the expenditures of grant funds by the State. Not later than 30 days after the completion of the audit, the State shall submit a copy of the audit to the Secretary of Agriculture.

(i) REALLOCATION.—

(1) In General.—The Secretary shall reallocate to other States in accordance with paragraph (2) any amounts made available for a fiscal year under this section that are not obligated or expended by a date during that fiscal year determined by the Secretary.

(2) PRO RATA ALLOCATION.—The Secretary shall allocate funds described in paragraph (1) pro rata to the remaining States that applied during the specified grant application period.

(j) USE OF REALLOCATED FUNDS.—Funds allocated to a State under this subsection shall be used by the State only to carry out projects that were previously approved in the State plan of the State.

RESEARCH TO INVESTIGATE EXTENT TO WHICH GRADE STANDARDS GOVERNING COSMETIC APPEARANCE AFFECT PESTICIDE USE IN PRODUCTION OF PERISHABLE COMMODITIES; ADVISORY COMMITTEE; REPORT

SEC. 1351. DEFINITION.

As used in this subtitle, the term ‘cosmetic appearance’ means the exterior appearance of an agricultural commodity, including changes to that appearance resulting from superficial damage or other alteration that do not significantly affect yield, taste, or nutritional value.

SEC. 1352. RESEARCH.

(a) REQUIREMENT.—The Secretary of Agriculture shall conduct research to examine the effects to the extent listed in subsection (b), of grade standards and other regulations, as developed and promulgated pursuant to the Agricultural Marketing Act of 1946 (7 U.S.C. 1621 et seq.), and other statutes governing cosmetic appearance.

(b) SCOPE OF RESEARCH.—The primary goal of this research is to investigate the extent to which grade standards and other regulations governing cosmetic appearance affect pesticide use in the production of perishable commodities. The research shall also—

(1) determine pesticide application levels for United States perishable commodity production and assess trends, and factors influencing those trends, of pesticide application levels since 1975;

(2) determine the extent to which Federal grade standards and other regulations affect pesticide use in agriculture for cosmetic appearance;

(3) determine the effect of reducing emphasis on cosmetic appearance in grade standards and other regulations on—

(A) the application and availability of pesticides in agriculture;

(B) the adoption of agricultural practices that result in reduced pesticide use;

(C) production and marketing costs;

(D) domestic and international markets and trade for perishable commodities;

(E) the adoption of agricultural practices that will remove obstacles that may exist to pesticide use reduction, based on the findings of research conducted under this section.

(c) FIELD RESEARCH.—

(1) LENGTH OF PROJECTS.—The Secretary of Agriculture shall implement, not later than 12 months after the date of enactment of this Act (Nov. 28, 1990), a minimum of three, 2-year market research projects, in at least three States, to demonstrate and evaluate the feasibility of consumer education and information programs.

(2) SCOPE OF FIELD RESEARCH.—Research under paragraph (1) shall be conducted to evaluate programs designed to—

(A) offer consumers choices among perishable commodities produced with different production practices;

§ 1631. Protection for purchasers of farm products

(a) Congressional findings

Congress finds that—

(1) certain State laws permit a secured lender to enforce liens against a purchaser of farm products even if the purchaser does not know that the sale of the products violates the lender’s security interest in the products, lacks any practical method for discovering the existence of the security interest, and has no reasonable means to ensure that the seller uses the sales proceeds to repay the lender;

(2) these laws subject the purchaser of farm products to double payment for the products, once at the time of purchase, and again when the seller fails to repay the lender;

(3) the exposure of purchasers of farm products to double payment inhibits free competition in the market for farm products; and

(4) this exposure constitutes a burden on and an obstruction to interstate commerce in farm products.

(b) Declaration of purpose

The purpose of this section is to remove such burden on and obstruction to interstate commerce in farm products.

(c) Definitions

(II) in numerical order according to the social security number, or other approved unique identifier, of the individual debtors or, in the case of debtors doing business other than as individuals, the Internal Revenue Service taxpayer identification number, or other approved unique identifier, of such debtors, except that the numerical list containing social security or taxpayer identification numbers may be encrypted for security purposes if the Secretary of State provides a method by which an effective search of the encrypted numbers may be conducted to determine whether the farm product at issue is subject to 1 or more liens; and

(III) geographically by county or parish; and

(IV) by crop year;

(iii) containing the information referred to in paragraph (4)(D);

(i) the distribution of the portion of the master list may be in electronic, written, or printed form; and

(ii) if social security or taxpayer identification numbers on the master list are encrypted, the Secretary of State may distribute the master list only—

(I) by compact disc or other electronic media that contains—

(aa) the recorded list of debtor names; and

(bb) an encryption program that enables the buyer, commission merchant, and selling agent to enter a social security number for matching against the recorded list of encrypted social security or taxpayer identification numbers; and

(II) on the written request of the buyer, commission merchant, or selling agent, by paper copy of the list to the requestor;

(F) the Secretary of State furnishes to those who are not registered pursuant to (2)(D) of this section oral confirmation within 24 hours of any effective financing statement on request followed by written confirmation to any buyer of farm products buying from a debtor, or commission merchant or selling agent selling for a seller covered by such statement.

(3) The term “commission merchant” means any person engaged in the business of receiving any farm product for sale, on commission, or for or on behalf of another person.

(E) remains effective for a period of 5 years from the date of filing, subject to extensions for additional periods of 5 years each by re-filing or filing a continuation statement within 6 months before the expiration of the initial 5 year period;

(F) lapses on either the expiration of the effective period of the statement or the filing of a notice signed, authorized, or otherwise authenticated by the secured party that the statement has lapsed, whichever occurs first;

(G) is accompanied by the requisite filing fee set by the Secretary of State; and

(H) substantially complies with the requirements of this subparagraph even though it contains minor errors that are not seriously misleading.

(5) The terms “farm product” means an agricultural commodity such as wheat, corn, soybeans, or a species of livestock such as cattle, hogs, sheep, horses, or poultry used or produced in farming operations, or a product of such crop or livestock in its unmanufactured state (such as ginned cotton, wool-clip, maple syrup, milk, and eggs), that is in the possession of a person engaged in farming operations.
