SUBTITLE IV—APPALACHIAN REGIONAL DEVELOPMENT

Chapter 141. GENERAL PROVISIONS 14101
143. APPALACHIAN REGIONAL COMMISSION 14301
145. SPECIAL APPALACHIAN PROGRAMS 14501
147. MISCELLANEOUS 14701

CHAPTER 141—GENERAL PROVISIONS

Sec. 14101. Findings and purposes.
14102. Definitions.

§ 14101. Findings and purposes

(a) 1965 FINDINGS AND PURPOSE.—

(1) FINDINGS.—Congress finds and declares that the Appalachian region of the United States, while abundant in natural resources and rich in potential, lags behind the rest of the Nation in its economic growth and that its people have not shared properly in the Nation’s prosperity. The region’s uneven past development, with its historical reliance on a few basic industries and a marginal agriculture, has failed to provide the economic base that is a vital prerequisite for vigorous, self-sustaining growth. State and local governments and the people of the region understand their problems and have been working, and

will continue to work, purposefully toward their solution. Congress recognizes the comprehensive report of the President's Appalachian Regional Commission documenting these findings and concludes that nationwide development is feasible, desirable, and urgently needed.

(2) PURPOSE.—It is the purpose of this subtitle to assist the region in meeting its special problems, to promote its economic development, and to establish a framework for joint federal and state efforts toward providing the basic facilities essential to its growth and attacking its common problems and meeting its common needs on a coordinated and concerted regional basis. The public investments made in the region under this subtitle shall be concentrated in areas where there is a significant potential for future growth and where the expected return on public dollars invested will be the greatest. States will be responsible for recommending local and state projects within their borders that will receive assistance under this subtitle. As the region obtains the needed physical and transportation facilities and develops its human resources, Congress expects that the region will generate a diversified industry and that the region will then be able to support itself through the workings of a strengthened free enterprise economy.

(b) 1975 FINDINGS AND PURPOSE.—

(1) FINDINGS.—Congress further finds and declares that while substantial progress has been made toward achieving the purposes set out in subsection (a), especially with respect to the provision of essential public facilities, much remains to be accomplished, especially with respect to the provision of essential health, education, and other public services. Congress recognizes that changes and evolving national purposes in the decade since 1965 affect not only the Appalachian region but also its relationship to a nation that on December 31, 1975, is assigning higher priority to conservation and the quality of life, values long cherished within the region. Appalachia as of December 31, 1975, has the opportunity, in accommodating future growth and development, to demonstrate local leadership and coordinated planning so that housing, public services, transportation and other community facilities will be provided in a way congenial to the traditions and beauty of the region and compatible with conservation values and an enhanced quality of life for the people of the region, and consistent with that goal, the Appalachian region should be able to take advantage of eco-industrial development, which promotes both employment and economic growth and the preservation of natural resources. Congress recognizes also that fundamental changes are occurring in national energy requirements and production, which not only risk short-term dislocations but will undoubtedly result in major long-term effects in the region. It is essential that the opportunities for expanded energy production be used so as to maximize the social and economic benefits and minimize the social and environmental costs to the region and its people.

(2) PURPOSE.—It is also the purpose of this subtitle to provide a framework for coordinating federal, state and local efforts toward—

(A) anticipating the effects of alternative energy policies and practices;

(B) planning for accompanying growth and change so as to maximize the social and economic benefits and minimize the social and environmental costs; and

(C) implementing programs and projects carried out in the region by federal, state, and local governmental agencies so as to better meet the special problems generated in the region by the Nation's energy needs and policies, including problems of transportation, housing, community facilities, and human services.

(c) 1998 FINDINGS AND PURPOSE.—

(1) FINDINGS.—Congress further finds and declares that while substantial progress has been made in fulfilling many of the objectives of this subtitle, rapidly changing national and global economies over the decade ending November 13, 1998, have created new problems and challenges for rural areas throughout the United States and especially for the Appalachian region.

(2) PURPOSE.—In addition to the purposes stated in subsections (a) and (b), it is the purpose of this subtitle—

(A) to assist the Appalachian region in—

(i) providing the infrastructure necessary for economic and human resource development;

(ii) developing the region's industry;

(iii) building entrepreneurial communities;

(iv) generating a diversified regional economy; and

(v) making the region's industrial and commercial resources more competitive in national and world markets;

(B) to provide a framework for coordinating federal, state, and local initiatives to respond to the economic competitiveness challenges in the Appalachian region through—

(i) improving the skills of the region's workforce;

(ii) adapting and applying new technologies for the region's businesses, including eco-industrial development technologies; and

(iii) improving the access of the region's businesses to the technical and financial resources necessary to development of the businesses; and

(C) to address the needs of severely and persistently distressed areas of the Appalachian region and focus special attention on the areas of greatest need so as to provide a fairer opportunity for the people of the region to share the quality of life generally enjoyed by citizens across the United States.

SUBCHAPTER I—PROGRAMS

§ 14501. Appalachian development highway system

(a) PURPOSE.—To provide a highway system which, in conjunction with the Interstate System and other Federal-aid highways in the Appalachian region, will open up an area with a developmental potential where commerce and communication have been inhibited by lack of adequate access, the Secretary of Transportation may assist in the construction of an Appalachian development highway system and local access roads serving the Appalachian region. Construction on the development highway system shall not be more than three thousand and ninety miles. There shall not be more than 1,400 miles of local access roads that serve specific recreational, residential, educational, commercial, industrial, or similar facilities or facilitate a school consolidation program.

(b) COMMISSION DESIGNATIONS.—

(1) WHAT IS TO BE DESIGNATED.—The Appalachian Regional Commission shall transmit to the Secretary its designations of—

- (A) the general corridor location and termini of the development highways;
- (B) local access roads to be constructed;
- (C) priorities for the construction of segments of the development highways; and
- (D) other criteria for the program authorized by this section.

(2) STATE TRANSPORTATION DEPARTMENT RECOMMENDATION REQUIRED.—Before a state member participates in or votes on designations, the member must obtain the recommendations of the state transportation department of the State which the member represents.

(c) ADDITION TO FEDERAL-AID PRIMARY SYSTEM.—When completed, each development highway not already on the Federal-aid primary system shall be added to the system.

(d) USE OF SPECIFIC MATERIALS AND PRODUCTS.—

(1) INDIGENOUS MATERIALS AND PRODUCTS.—In the construction of highways and roads authorized under this section, a State may give special preference to the use of materials and products indigenous to the Appalachian region.

(2) COAL DERIVATIVES.—For research and development in the use of coal and coal products

in highway construction and maintenance, the Secretary may require each participating State, to the maximum extent possible, to use coal derivatives in the construction of not more than 10 percent of the roads authorized under this subtitle.

(e) FEDERAL SHARE.—Federal assistance to any construction project under this section shall not be more than 80 percent of the cost of the project.

(f) CONSTRUCTION WITHOUT FEDERAL AMOUNTS.—

(1) PAYMENT OF FEDERAL SHARE.—When a participating State constructs a segment of a development highway without the aid of federal amounts and the construction is in accordance with all procedures and requirements applicable to the construction of segments of Appalachian development highways with those amounts, except for procedures and requirements that limit a State to the construction of projects for which federal amounts have previously been appropriated, the Secretary, on application by the State and with the approval of the Commission, may pay to the State the federal share, which shall not be more than 80 percent of the cost of the construction of the segment, from any amounts appropriated and allocated to the State to carry out this section.

(2) NO COMMITMENT OR OBLIGATION.—This subsection does not commit or obligate the Federal Government to provide amounts for segments of development highways constructed under this subsection.

(g) APPLICATION OF TITLE 23.—

(1) SECTIONS 106(a) AND 118.—Sections 106(a) and 118 of title 23 apply to the development highway system and the local access roads.

(2) CONSTRUCTION AND MAINTENANCE.—States are required to maintain each development highway and local access road as provided for Federal-aid highways in title 23. All other provisions of title 23 that are applicable to the construction and maintenance of Federal-aid primary and secondary highways and which the Secretary decides are not inconsistent with this subtitle shall apply to the system and roads, respectively.

APPALACHIAN DEVELOPMENT HIGHWAY SYSTEM

Pub. L. 112-141, div. A, title I, §1528, July 6, 2012, 126 Stat. 582, provided that:

"(a) SENSE OF THE SENATE.—It is the Sense of the Senate that the timely completion of the Appalachian development highway system is a transportation priority in the national interest.

"(b) MODIFIED FEDERAL SHARE FOR PROJECTS ON ADHS.—For fiscal years 2012 through 2021, the Federal share payable for the cost of constructing highways and access roads on the Appalachian development highway system under section 14501 of title 40, United States Code, with funds made available to a State for fiscal year 2012 or a previous fiscal year for the Appalachian development highway system program, or with funds made available for fiscal year 2012 or a previous fiscal year for a specific project, route, or corridor on that system, shall be 100 percent.

"(c) FEDERAL SHARE FOR OTHER FUNDS USED ON ADHS.—For fiscal years 2012 through 2021, the Federal share payable for the cost of constructing highways and access roads on the Appalachian development highway system under section 14501 of title 40, United States Code, with Federal funds apportioned to a State for a program other than the Appalachian development highway system program shall be 100 percent.

"(d) COMPLETION PLAN.—

"(1) IN GENERAL.—Subject to paragraph (2), not later than 1 year after the date of enactment of the

MAP-21 [deemed to be Oct. 1, 2012], each State represented on the Appalachian Regional Commission shall establish a plan for the completion of the designated corridors of the Appalachian development highway system within the State, including annual performance targets, with a target completion date.

"(2) SIGNIFICANT UNCOMPLETED MILES.—If the percentage of remaining Appalachian development highway system needs for a State, according to the latest cost to complete estimate for the Appalachian development highway system, is greater than 15 percent of the total cost to complete estimate for the entire Appalachian development highway system, the State shall not establish a plan under paragraph (1) that would result in a reduction of obligated funds for the Appalachian development highway system within the State for any subsequent fiscal year."

§ 14502. Demonstration health projects

(a) PURPOSE.—To demonstrate the value of adequate health facilities and services to the economic development of the Appalachian region, the Secretary of Health and Human Services may make grants for the planning, construction, equipment, and operation of multi-county demonstration health, nutrition, and child care projects, including hospitals, regional health diagnostic and treatment centers, and other facilities and services necessary for the purposes of this section.

(b) PLANNING GRANTS.—

(1) AUTHORITY TO PROVIDE AMOUNTS AND MAKE GRANTS.—The Secretary may provide amounts to the Appalachian Regional Commission for the support of its Health Advisory Committee and may make grants for expenses of planning necessary for the development and operation of demonstration health projects for the region.

(3) SOURCES OF ASSISTANCE.—The federal contribution may be provided entirely from amounts authorized under this section or in combination with amounts provided under other federal or federal grant programs.

(c) CONSTRUCTION AND EQUIPMENT GRANTS.—

(1) ADDITIONAL USES FOR CONSTRUCTION GRANTS.—Grants under this section for construction may also be used for—

(A) the acquisition of privately owned facilities—

(i) not operated for profit; or

(ii) previously operated for profit if the Commission finds that health services would not otherwise be provided in the area served by the facility if the acquisition is not made; and

(B) initial equipment.

(2) STANDARDS FOR MAKING GRANTS.—Grants under this section for construction shall be made in accordance with section 14523 of this

title and shall not be incompatible with the applicable provisions of title VI of the Public Health Service Act (42 U.S.C. 291 et seq.), the Developmental Disabilities Assistance and Bill of Rights Act of 2000 (42 U.S.C. 15001 et seq.), and other laws authorizing grants for the construction of health-related facilities, without regard to any provisions in those laws relating to appropriation authorization ceilings or to allotments among the States.

(3) **LIMITATION ON AVAILABLE AMOUNTS.**—A grant for the construction or equipment of any component of a demonstration health project shall not be more than 80 percent of the cost.

(4) **SOURCES OF ASSISTANCE.**—The federal contribution may be provided entirely from amounts authorized under this section or in combination with amounts provided under other federal grant programs for the construction or equipment of health-related facilities.

(A) unless the facility is publicly owned, or owned by a public or private nonprofit organization, and is not operated for profit;

(B) after five years following the commencement of the initial grant for operation of the project, except that child development demonstrations assisted under this section during fiscal year 1979 may be approved under section 14322 of this title for continued support beyond that period, on request of the State, if the Commission finds that no federal, state, or local amounts are available to continue the project; and

(C) unless the Secretary of Health and Human Services is satisfied that the operation of the project will be conducted under efficient management practices designed to obviate operating deficits.

(2) **LIMITATION ON AVAILABLE AMOUNTS.**—Grants under this section for the operation (including initial operating amounts and operating deficits, which include the cost of attracting, training, and retaining qualified personnel) of a demonstration health project, whether or not constructed with amounts authorized to be appropriated by this section, may be made for up to—

(5) **STATE DEEMED TO MEET REQUIREMENT OF PROVIDING ASSISTANCE OR SERVICES ON STATE-WIDE BASIS.**—Notwithstanding any provision of the Social Security Act (42 U.S.C. 301 et seq.) requiring assistance or services on a statewide basis, a State providing assistance or services under a federal grant program described in paragraph (2) in any area of the region approved by the Commission is deemed to be meeting that requirement.

(e) **GRANT SOURCES AND USE OF GRANTS IN COMPUTING ALLOTMENTS.**—Grants under this section—

(1) shall be made only out of amounts specifically appropriated for the purpose of carrying out this subtitle; and

(2) shall not be taken into account in computing allotments among the States under any other law.

§ 14503. Assistance for proposed low- and middle-income housing projects

(a) APPALACHIAN HOUSING FUND.—

(1) ESTABLISHMENT.—There is an Appalachian Housing Fund.

(2) SOURCE AND USE OF AMOUNTS IN FUND.—Amounts allocated to the Secretary of Housing and Urban Development for the purposes of this section shall be deposited in the Fund. The Secretary shall use the Fund as a revolving fund to carry out those purposes. Amounts in the Fund not needed for current operation may be invested in bonds or other obligations the Federal Government guarantees as to principal and interest. General expenses of administration of this section may be charged to the Fund.

(b) PURPOSE.—To encourage and facilitate the construction or rehabilitation of housing to meet the needs of low- and moderate-income families and individuals, the Secretary may make grants and loans from the Fund, under terms and conditions the Secretary may prescribe. The grants and loans may be made to nonprofit, limited dividend, or cooperative organizations and public bodies and are for planning and obtaining federally insured mortgage financing or other financial assistance for housing construction or rehabilitation projects for low- and moderate-income families and individuals, in any area of the Appalachian region the Appalachian Regional Commission establishes, under—

(1) section 221 of the National Housing Act (12 U.S.C. 1715l);

(2) section 8 of the United States Housing Act of 1937 (42 U.S.C. 1437f);

(3) section 515 of the Housing Act of 1949 (42 U.S.C. 1485); or

(4) any other law of similar purpose administered by the Secretary or any other department, agency, or instrumentality of the Federal Government or a state government.

(c) PROVIDING AMOUNTS TO STATES FOR GRANTS AND LOANS.—The Secretary or the Commission

may provide amounts to the States for making grants and loans to nonprofit, limited dividend, or cooperative organizations and public bodies for the purposes for which the Secretary may provide amounts under this section.

(d) LOANS.—

(1) LIMITATION ON AVAILABLE AMOUNTS.—A loan under subsection (b) for the cost of planning and obtaining financing (including the cost of preliminary surveys and analyses of market needs, preliminary site engineering and architectural fees, site options, application and mortgage commitment fees, legal fees, and construction loan fees and discounts) of a project described in that subsection may be made for up to—

(A) 50 percent of that cost;

(B) in the case of a project to be carried out in a county for which a distressed county designation is in effect under section 14526, 80 percent of that cost; or

(C) in the case of a project to be carried out for a county for which an at-risk county designation is in effect under section 14526, 70 percent of that cost.

(2) INTEREST.—A loan shall be made without interest, except that a loan made to an organization established for profit shall bear interest at the prevailing market rate authorized for an insured or guaranteed loan for that type of project.

(3) PAYMENT.—The Secretary shall require payment of a loan made under this section, under terms and conditions the Secretary may require, no later than on completion of the project. Except for a loan to an organization established for profit, the Secretary may cancel any part of a loan made under this section on determining that a permanent loan to finance the project cannot be obtained in an amount adequate for repayment of a loan made under this section.

(e) GRANTS.—

(1) IN GENERAL.—A grant under this section for expenses incidental to planning and obtaining financing for a project under this section that the Secretary considers to be unrecoverable from the proceeds of a permanent loan made to finance the project shall—

(A) not be made to an organization established for profit; and

(B) except as provided in paragraph (2), not exceed—

(i) 50 percent of those expenses;

(ii) in the case of a project to be carried out in a county for which a distressed county designation is in effect under section 14526, 80 percent of those expenses; or

(2) SITE DEVELOPMENT COSTS AND OFFSITE IMPROVEMENTS.—The Secretary may make grants and commitments for grants, and may advance amounts under terms and conditions the Secretary may require, to nonprofit, limited dividend, or cooperative organizations and public bodies for reasonable site development costs and necessary offsite improve-

ments, such as sewer and water line extensions, when the grant, commitment, or advance is essential to the economic feasibility of a housing construction or rehabilitation project for low- and moderate-income families and individuals which otherwise meets the requirements for assistance under this section. A grant under this paragraph for—

(A) the construction of housing shall not be more than 10 percent of the cost of the project; and

(B) the rehabilitation of housing shall not be more than 10 percent of the reasonable value of the rehabilitation housing, as determined by the Secretary.

(f) INFORMATION, ADVICE, AND TECHNICAL ASSISTANCE.—The Secretary or the Commission may provide, or contract with public or private organizations to provide, information, advice, and technical assistance with respect to the construction, rehabilitation, and operation by nonprofit organizations of housing for low- or moderate-income families in areas of the region the Commission establishes.

§ 14507. Supplements to federal grant programs

(a) **DEFINITION.**—

(1) **FEDERAL GRANT PROGRAMS.**—In this section, the term “federal grant programs”—

(A) means any federal grant program that provides assistance for the acquisition or development of land, the construction or equipment of facilities, or other community or economic development or economic adjustment activities, including a federal grant program authorized by—

(B) does not include—

(i) the program for the construction of the development highway system authorized by section 14501 of this title or any other program relating to highway or road construction authorized by title 23; or

(known as the Clean Water Act) without federal grant assistance under that title is deemed to be constructed with that assistance.

(b) PURPOSE.—To enable the people, States, and local communities of the Appalachian region, including local development districts, to take maximum advantage of federal grant programs for which they are eligible but for which, because of their economic situation, they cannot supply the required matching share, or for which there are insufficient amounts available under the federal law authorizing the programs to meet pressing needs of the region, the Federal Cochairman may use amounts made available to carry out this section—

(1) for any part of the basic federal contribution to projects or activities under the federal grant programs authorized by federal laws; and

(d) LIMITATIONS IN OTHER LAWS INAPPLICABLE.—Amounts provided pursuant to this subtitle are available without regard to any limitations on areas eligible for assistance or authorizations for appropriation in any other law.

(e) ACCEPTANCE OF CERTAIN MATERIAL.—For a supplemental grant for a project or activity under a federal grant program, the Federal Cochairman shall accept any finding, report, certification, or documentation required to be submitted to the head of the department, agency, or instrumentality of the Federal Government responsible for the administration of the program.

§ 14508. Economic and energy development initiative

(a) PROJECTS TO BE ASSISTED.—The Appalachian Regional Commission may provide technical assistance, make grants, enter into contracts, or otherwise provide amounts to persons or entities in the Appalachian region for projects and activities—

(1) to promote energy efficiency in the Appalachian region to enhance the economic competitiveness of the Appalachian region;

(2) to increase the use of renewable energy resources, particularly biomass, in the Appalachian region to produce alternative transportation fuels, electricity, and heat; and

(3) to support the development of regional, conventional energy resources to produce electricity and heat through advanced technologies that achieve a substantial reduction in emissions, including greenhouse gases, over the current baseline.

(b) LIMITATION ON AVAILABLE AMOUNTS.—Of the cost of any activity eligible for a grant under this section, not more than—

(1) 50 percent may be provided from amounts appropriated to carry out this section;

(2) in the case of a project to be carried out in a county for which a distressed county designation is in effect under section 14526, 80 percent may be provided from amounts appropriated to carry out this section; or

(3) in the case of a project to be carried out in a county for which an at-risk county designation is in effect under section 14526, 70 percent may be provided from amounts appropriated to carry out this section.

(Added Pub. L. 110-371, §3(a), Oct. 8, 2008, 122 Stat. 4040.)

SUBCHAPTER II—ADMINISTRATIVE

§ 14521. Required level of expenditure

A State or political subdivision of a State is not eligible to receive benefits under this subtitle unless the aggregate expenditure of state amounts, except expenditures for participation in the Dwight D. Eisenhower System of Interstate and Defense Highways and local and federal amounts, for the benefit of the area within the State located in the Appalachian region is maintained at a level which does not fall below the average level of those expenditures for the

State's last two full fiscal years prior to March 9, 1965. In computing the level, a State's past expenditure for participation in the Dwight D. Eisenhower System of Interstate and Defense Highways and expenditures of local and federal amounts shall not be included. The Commission shall recommend to the President a lesser requirement when it finds that a substantial population decrease in that part of a State which lies within the region would not justify a state expenditure equal to the average level of the last two years or when it finds that a State's average level of expenditure in an individual program has been disproportionate to the present need for that part of the State.

§ 14524. Program development criteria

(a) FACTORS TO BE CONSIDERED.—In considering programs and projects to be given assistance under this subtitle, and in establishing a priority ranking of the requests for assistance presented to the Appalachian Regional Commission, the Commission shall follow procedures that will ensure consideration of—

- (1) the relationship of the project or class of projects to overall regional development, including its location in a severely and persistently distressed county or area;
- (2) the population and area to be served by the project or class of projects, including the per capita market income and the unemployment rates in the area;
- (3) the relative financial resources available to the State or political subdivisions or instrumentalities of the State that seek to undertake the project;
- (4) the importance of the project or class of projects in relation to other projects or classes of projects that may be in competition for the same amounts;

(5) the prospects that the project for which assistance is sought will improve, on a continuing rather than a temporary basis, the opportunities for employment, the average level of income, or the economic and social development of the area served by the project; and

(6) the extent to which the project design provides for detailed outcome measurements by which grant expenditures may be evaluated.

(b) LIMITATION ON USE.—Financial assistance made available under this subtitle shall not be used to assist establishments relocating from one area to another.

(c) DETERMINATION REQUIRED BEFORE AMOUNTS MAY BE PROVIDED.—Amounts may be provided for programs and projects in a State under this subtitle only if the Commission determines that the level of federal and state financial assistance under other laws for the same type of programs or projects in that part of the State within the Appalachian region will not be diminished in order to substitute amounts authorized by this subtitle.

(d) MINIMUM AMOUNT OF ASSISTANCE TO DISTRESSED COUNTIES AND AREAS.—For each fiscal year, not less than 50 percent of the amount of grant expenditures the Commission approves shall support activities or projects that benefit severely and persistently distressed counties and areas.

(1) be submitted according to a schedule the Commission prescribes;

(2) reflect the goals, objectives, and priorities identified in the regional development plan and in any subregional development plan that may be approved for the subregion of which the State is a part;

(3) describe the state organization and continuous process for Appalachian development planning, including—

(A) the procedures established by the State for the participation of local development districts in the process;

(B) how the process is related to overall statewide planning and budgeting processes; and

(4) set forth the goals, objectives, and priorities of the State for the region, as established by the Governor, and identify the needs on which the goals, objectives, and priorities are based; and

(5) describe the development strategies for achieving the goals, objectives, and priorities, including funding sources, and recommendations for specific projects to receive assistance under this subtitle.

(b) AREAWIDE ACTION PROGRAMS.—The Commission shall encourage the preparation and execution of areawide action programs that specify interrelated projects and schedules of actions, the necessary agency funding, and other commitments to implement the programs. The programs shall make appropriate use of existing plans affecting the area.

(c) LOCAL DEVELOPMENT DISTRICTS.—Local development districts certified by the State as described in section 14102(a)(2) of this title provide

the linkage between state and substate planning and development. The districts shall assist the States in the coordination of areawide programs and projects and may prepare and adopt areawide plans or action programs. In carrying out the development planning process, including the selection of programs and projects for assistance, States shall consult with local development districts, local units of government, and citizen groups and shall consider the goals, objectives, priorities, and recommendations of those bodies.

(d) FEDERAL RESPONSIBILITIES.—To the maximum extent practicable, federal departments, agencies, and instrumentalities undertaking or providing financial assistance for programs or projects in the region shall—

(1) take into account the policies, goals, and objectives the Commission and its member States establish pursuant to this subtitle;

(2) recognize Appalachian state development strategies approved by the Commission as satisfying requirements for overall economic development planning under the programs or projects; and

(3) accept the boundaries and organization of any local development district certified under this subtitle that the Governor may designate as the areawide agency required under any of those programs undertaken or assisted by those federal departments, agencies, and instrumentalities.
