REDUCING ADMINISTRATIVE BURDEN FOR RESEARCHERS

Pub. L. 114-255, div. A, title II, §2034, Dec. 13, 2016, 130 Stat. 1059, provided that:

“(a) PLAN PREPARATION AND IMPLEMENTATION OF MEASURES TO REDUCE ADMINISTRATIVE BURDENS.—

“(1) IN GENERAL.—Not later than 2 years after the date of enactment of this Act [Dec. 13, 2016], the Secretary of Health and Human Services (referred to in this section as the ‘Secretary’) shall—

“(A) lead a review by research funding agencies of all regulations and policies related to the disclosure of financial conflicts of interest, including the minimum threshold for reporting financial conflicts of interest;

“(B) make revisions, as appropriate, to harmonize existing policies and reduce administrative burden on researchers while maintaining the integrity and credibility of research findings and protections of human participants; and

“(C) confer with the Office of the Inspector General about the activities of such office related to financial conflicts of interest involving research funding agencies.

“(2) CONSIDERATIONS.—In updating policies under paragraph (1)(B), the Secretary shall consider—

“(A) modifying the timelines for the reporting of financial conflicts of interest to just-in-time information by institutions receiving grant or cooperative agreement funding from the National Institutes of Health;

“(B) ensuring that financial interest disclosure reporting requirements are appropriate for, and relevant to, awards that will directly fund research, which may include modification of the definition of the term ‘investigator’ for purposes of the regulations and policies described in subparagraphs (A) and (B) of paragraph (1); and

“(C) updating any applicable training modules of the National Institutes of Health related to Federal financial interest disclosure.

“(b) MONITORING OF SUBRECIPIENTS OF FUNDING FROM THE NATIONAL INSTITUTES OF HEALTH.—The Director of the National Institutes of Health (referred to in this section as the ‘Director of National Institutes of Health’) shall implement measures to reduce the administrative burdens related to monitoring of subrecipients of grants by primary awardees of funding from the National Institutes of Health, which may incorporate findings and recommendations from existing and ongoing activities. Such measures may include, as appropriate—

“(1) an exemption from subrecipient monitoring requirements, upon request from the primary awardees, provided that—

“(A) the subrecipient is subject to Federal audit requirements pursuant to the Uniform Guidance of the Office of Management and Budget;

“(B) the primary awardee conducts, pursuant to guidance of the National Institutes of Health, a pre-award evaluation of each subrecipient’s risk of non-compliance with Federal statutes and regulations, the conditions of the subaward, and any recurring audit findings; and

“(C) such exemption does not absolve the primary awardee of liability for misconduct by subrecipients; and

“(2) the implementation of alternative grant structures that obviate the need for subrecipient monitoring, which may include collaborative grant models allowing for multiple primary awardees.

“(c) REPORTING OF FINANCIAL EXPENDITURES.—The Secretary, in consultation with the Director of National Institutes of Health, shall evaluate financial expenditure reporting procedures and requirements for recipients of funding from the National Institutes of Health and take action, as appropriate, to avoid duplication between department and agency procedures and requirements and minimize burden to funding recipients.

for the care and use of laboratory animals and make revisions, as appropriate, to reduce administrative burden on investigators while maintaining the integrity and credibility of research findings and protection of research animals. In carrying out this effort, the Director of the National Institutes of Health shall seek the input of experts, as appropriate. The Director of the National Institutes of Health shall—

“(1) identify ways to ensure such regulations and policies are not inconsistent, overlapping, or unnecessarily duplicative, including with respect to inspection and review requirements by Federal agencies and accrediting associations;

“(2) take steps to eliminate or reduce identified inconsistencies, overlap, or duplication among such regulations and policies; and

“(3) take other actions, as appropriate, to improve the coordination of regulations and policies with respect to research with laboratory animals.

“(e) DOCUMENTATION OF PERSONNEL EXPENSES.—The Secretary shall clarify the applicability of the requirements under the Office of Management and Budget Uniform Guidance for management and certification systems adopted by entities receiving Federal research grants through the Department of Health and Human Services regarding documentation of personnel expenses, including clarification of the extent to which any flexibility to such requirements specified in such Uniform Guidance applies to entities receiving grants through the Department of Health and Human Services.

Such members shall be appointed by a formal process, to be established by the Director of the Office of Management and Budget, in consultation with the Federal membership, and that incorporates—

“(i) nomination by members of the nonprofit scientific research community, including academic research institutions; and

“(ii) procedures to fill membership positions vacated before the end of a member’s term.

“(3) PURPOSE AND RESPONSIBILITIES.—The Board shall make recommendations regarding the modification and harmonization of regulations and policies having similar purposes across research funding agencies to ensure that the administrative burden of such research policy and regulation is minimized to the greatest extent possible and consistent with maintaining responsible oversight of federally funded research. Activities of the Board may include—

“(A) providing thorough and informed analysis of regulations and policies;

“(B) identifying negative or adverse consequences of existing policies and making actionable recommendations regarding possible improvement of such policies;

“(C) making recommendations with respect to efforts within the Federal Government to improve coordination of regulation and policy related to research;

#### MESSAGE OF THE PRESIDENT

To the Congress of the United States:

I transmit herewith Reorganization Plan No. 1 of 1953, prepared in accordance with the provisions of the Reorganization Act of 1949, as amended.

In my message of February 2, 1953, I stated that I would send to the Congress a reorganization plan defining a new administrative status for Federal activities in health, education, and social security. This plan carries out that intention by creating a Department of Health, Education, and Welfare as one of the executive departments of the Government and by transferring to it the various units of the Federal Security Agency. The Department will be headed by a Secretary of Health, Education, and Welfare, who will be assisted by an Under Secretary and two Assistant Secretaries.

The purpose of this plan is to improve the administration of the vital health, education, and social-security functions now being carried on in the Federal Security Agency by giving them departmental rank. Such action is demanded by the importance and magnitude of these functions, which affect the well-being of millions of our citizens. The programs carried on by the Public Health Service include, for example, the conduct and promotion of research into the prevention and cure of such dangerous ailments as cancer and heart disease. The Public Health Service also administers payments to the States for the support of their health services and for urgently needed hospital construction. The Office of Education collects, analyzes, and distributes to school administrators throughout the country information relating to the organization and management of educational systems. Among its other functions is the provision of financial help to school districts burdened by activities of the United States Government. State assistance to the aged, the blind, the totally disabled, and dependent children is heavily supported by grants-in-aid administered through the Social Security Administration. The old-age and survivors insurance system and child development and welfare programs are additional responsibilities of that Administration. Other offices of the Federal Security Agency are responsible for the conduct of Federal vocational rehabilitation programs and for the enforcement of food and drug laws.

There should be an unremitting effort to improve those health, education, and social-security programs which have proved their value. I have already recommended the expansion of the social-security system to cover persons not now protected, the continuation of assistance to school districts whose population has been greatly increased by the expansion of defense activities, and the strengthening of our food and drug laws.

But good intent and high purpose are not enough; all such programs depend for their success upon efficient, responsible administration. I have recently taken action to assure that the Federal Security Administrator's views are given proper consideration in executive councils by inviting her to attend meetings of the Cabinet. Now the establishment of the new Department provided for in Reorganization Plan No. 1 of 1953 will give the needed additional assurance that these matters will receive the full consideration they deserve in the whole operation of the Government.

This need has long been recognized. In 1923, President Harding proposed a Department of Education and Welfare, which was also to include health functions. In 1924, the Joint Committee on Reorganization recommended a new department similar to that suggested by President Harding. In 1932, one of President Hoover's reorganization proposals called for the concentration of health, education, and recreational activities in a single executive department. The President's Committee on Administrative Management in 1937 recommended the placing of health, education, and social-security functions in a Department of Social Welfare. This recommendation was partially implemented in 1939 by the creation of the Federal Security Agency—by which action the Congress indicated its approval of the grouping of these functions in a single agency. A new department could not be proposed at that time because the Reorganization Act of 1939 prohibited the creation of additional executive departments. In 1949, the Commission on Organization of the Executive Branch of the Government proposed the creation of a department for social security and education.

The present plan will make it possible to give the officials directing the Department titles indicative of their responsibilities and salaries comparable to those received by their counterparts in other executive departments. As the Under Secretary of an executive department, the Secretary's principal assistant will be better equipped to give leadership in the Department's organization and management activities, for which he will be primarily responsible. The plan opens the way to further administrative improvement by authorizing the Secretary to centralize services and activities common to the several agencies of the Department. It also established a uniform method of appointment for the heads of the three major constituent agencies. At present, the Surgeon General and the Commissioner of Education are appointed by the President and confirmed by the Senate, while the Commissioner for Social Security is appointed by the Federal Security Administrator. Hereafter, all three will be Presidential appointees subject to Senate confirmation.

I believe, and this plan reflects my conviction, that these several fields of Federal activity should continue within the framework of a single department. The plan at the same time assures that the Office of Education and the Public Health Service retain the professional and substantive responsibilities vested by law in those agencies or in their heads. The Surgeon General, the Commissioner of Education, and the Commissioner of Social Security will all have direct access to the Secretary.

There should be in the Department an Advisory Committee on Education, made up of persons chosen by the Secretary from outside the Federal Government, which would advise the Secretary with respect to the educational programs of the Department. I recommend the enactment of legislation authorizing the defrayal of the expenses of this Committee. The creation of such a Committee as an advisory body to the Secretary will

help insure the maintenance of responsibility for the public educational system in State and local governments while preserving the national interest in education through appropriate Federal action.

After investigation I have found and hereby declare that each reorganization included in Reorganization Plan No. 1 of 1953 is necessary to accomplish one or more of the purposes set forth in section 2(a) of the Reorganization Act of 1949, as amended. I have also found and hereby declare that by reason of these reorganizations, it is necessary to include in the reorganization plan provisions for the appointment and compensation of the new officers specified in sections 1, 2, 3, and 4 of the reorganization plan. The rates of compensation fixed for these officers are, respectively, those which I have found to prevail in respect of comparable officers in the executive branch of the Government.

Although the effecting of the reorganizations provided for in the reorganization plan will not in itself result in immediate savings, the improvement achieved in administration will in the future allow the performance of necessary services at greater savings than present operations would permit. An itemization of these savings in advance of actual experience is not practicable.

DWIGHT D. EISENHOWER.

THE WHITE HOUSE, March 12, 1953.

EX. ORD. NO. 11583. OFFICE OF CONSUMER AFFAIRS

Ex. Ord. No. 11583, Feb. 24, 1971, 36 F.R. 3509, as amended by Ex. Ord. No. 11595, May 26, 1971, 36 F.R. 9763; Ex. Ord. No. 12608, Sept. 9, 1967, 52 F.R. 34617, provided:

Consumer protection fosters a market place in which our competitive economic system flourishes best. It is good for businessmen because it gives the consumer greater confidence in the goods and services provided by business. It is good for consumers because it reinforces the concept of buyers' rights:

- the right to make an intelligent choice among products and services;
- the right to accurate information on which to make a free choice;
- the right to expect that the health and safety of the buyer is taken into account by those who seek his patronage;
- the right to register dissatisfaction, and have a complaint heard and weighed, when a buyer's interests are badly served.

The Special Assistant to the President for Consumer Affairs is performing an important role in representing consumer interests in the Federal Government. It is important that the role of the office of the Special Assistant be reinforced by increasing its responsibilities and reemphasizing its importance.

There is need for a consumer office within the Executive Office of the President, which not only advises and represents the President on matters of consumer interest, but also analyzes and coordinates the implementation of all Federal activities in the field of consumer protection, helping to establish priorities and resolve conflicts, and recommending ways in which governmental consumer programs can be made more effective.

NOW, THEREFORE, by virtue of the authority vested in me as President of the United States, it is ordered as follows:

SECTION 1. *Office of Consumer Affairs.* The Office of Consumer Affairs (hereinafter referred to as the "Office") is hereby established in the Executive Office of the President. The Office shall be headed by a Director, who shall be appointed by the President, and there shall be in the Office two Deputy Directors who shall also be appointed by the President. The Deputy Directors shall perform such duties as the Director may designate, and in case of a vacancy in the office of Director or during the absence or incapacity of the Director, the Deputy Directors, in the order designated by the President, shall act as Director. The Director and Deputy Directors shall receive compensation at such rates

as the President, consonant with law, may hereafter determine.
