

also recognized the importance of broader international cooperation in ensuring reliable control over exports of sensitive materials and technology. President Clinton expressed the hope that Ukraine would become a member of the MTCR at an early date and reiterated that the U.S. would support Ukraine in achieving this goal. They agreed to work together toward Ukraine's full participation in a successor regime to COCOM. President Clinton was pleased to note that a Science and Technology Center, funded by the United States and other donors, will soon begin operations in Ukraine and that this would assist Ukraine in redirecting the work of former defense scientists and engineers to civilian purposes.

Diplomatic Endeavors

Consistent with the new stage of bilateral relations, the Presidents also underscored the importance of ensuring that the diplomatic missions of both countries be fully capable of conducting their operations without hindrance. With this in mind, the Presidents announced the exchange of diplomatic notes to lift employment restrictions on diplomatic personnel and their families. President Clinton also used this occasion to welcome Ukraine's newly appointed Ambassador to the United States, Yuriy Shcherbak, to Washington, D.C.

Joint Statement on Future Aerospace Cooperation Between the United States and Ukraine

November 22, 1994

President Clinton and President Kuchma underscored the important role that cooperation in civil and commercial aerospace activities can play in furthering scientific, technical and economic ties between the United States and Ukraine. As a first significant step in this cooperation, the two Presidents signed an agreement on cooperation in the exploration and use of outer space for peaceful purposes that will expand joint efforts in space communications, space technology, life and microgravity sciences applications, remote sensing and earth sciences, space sciences and telecommunications.

The two Presidents agreed that future joint activities should be explored. Both Presidents recognized that the Ukrainian

aerospace industry can make a valuable contribution to Ukraine's economic reform and development as it undertakes the transition to a market economy. They resolved to work together to open prospects for Ukrainian access to international aerospace markets. Noting that a preliminary dialogue addressing the potential for commercial space opportunities between the United States and Ukraine had already begun, they agreed to hold further talks on commercial launches and the scope of these activities, in accordance with market principles, with the principles contained in international arrangements for integrating economies in transition into the international space launch market, and consistent with current obligations of the two countries.

President Clinton and President Kuchma also directed the National Aeronautics and Space Administration and the Ukrainian National Space Agency to identify potential experiments and payloads which could qualify for flight on the Space Shuttle and also to create an opportunity for a Ukrainian Payload Specialist to fly on the Space Shuttle. Both agencies will jointly report their recommendations for such a mission by March 31, 1995.

Executive Order 12939—Expedited Naturalization of Aliens and Noncitizen Nationals Who Served in an Active-Duty Status During the Persian Gulf Conflict

November 22, 1994

By the authority vested in me as President by the Constitution and the laws of the United States of America, including section 1440 of title 8, United States Code, and in order to provide expedited naturalization for aliens and noncitizen nationals who served in an active-duty status in the Armed Forces of the United States during the period of the Persian Gulf Conflict, it is hereby ordered as follows:

For the purpose of determining qualification for the exception from the usual requirements for naturalization, the period of Persian Gulf Conflict military operations in which the Armed Forces of the United States were engaged in armed conflict with a hostile force commenced on August 2, 1990, and
