

build on that work. One of these agreements prohibits the forcible recruitment of children for use in armed conflict. The other protects children from slavery, prostitution, and pornography. Together, they represent a large step forward in the international effort to eliminate abuses committed against our children and keep them safe.

Both of these agreements were adopted by the U.N. General Assembly on May 25th, and the United States was among the first nations to sign them. I was pleased to see that both the Senate (on June 7th) and the House of Representatives (on July 11th) expressed their support for the Protocol on the Involvement of Children in Armed Conflict. Neither agreement will create obligations for the United States under any international agreement to which we are not a party. I am hopeful that the Senate will act quickly and give its advice and consent to both of these agreements by the end of the year.

### **Statement Announcing a Study of Compensation and Benefits for Filipino Veterans**

*July 27, 2000*

Today I am directing the Department of Veterans Affairs to produce a study on the needs of Filipino veterans who served with the U.S. Armed Forces during World War II. I have asked that the study provide specific options on how our Veterans Affairs' health care system can address the needs of these Filipino veterans now living in the United States.

During World War II, Filipino nationals were called into military service by Executive order of the President and fought valiantly under U.S. command to help achieve peace and freedom in the Pacific. After the war, the United States made grants to the Philippine Government to provide for the needs of these veterans. In addition, some are eligible for benefits under the United States veterans system. However, many of these deserving veterans living in the United States are currently not eligible for such benefits.

For several years, my administration has worked with Members of Congress such as Representatives Bob Filner and Patsy Mink

to recognize the contributions of Filipino veterans and to improve the compensation and benefits of those living in the United States. As this population ages, it has a growing need for quality health care. That is why I am asking the Department of Veterans Affairs to look at ways we can address their needs. I look forward to the Department's recommendations. I am eager to find a way to fulfill the needs of this deserving group of veterans.

### **Memorandum on a Study of Compensation and Benefits for Filipino Veterans**

*July 27, 2000*

*Memorandum for the Secretary of the Veterans Affairs, the Secretary of State, the Secretary of Defense*

*Subject: Study of Compensation and Benefits for Filipino Veterans*

My Administration has recognized the unique contribution of Filipino veterans of the Second World War and worked to improve their compensation and benefits. In fact, for the last two sessions of Congress we have proposed legislation to eliminate the current dollar limitation for authorized compensation payments to Filipino beneficiaries residing in the United States. The proposed legislation has not been enacted. This reality, coupled with the fact that numerous Filipino veterans have immigrated to this country, suggests that we need to raise awareness of the issues and options to help this group of deserving veterans.

To that end, I am directing the Secretary of Veterans Affairs to complete a study by October 31, 2000, of the needs of these veterans and the options available for addressing those needs. This study shall be conducted in coordination with the Office of Management and Budget (OMB), the Department of State, and the Department of Defense, and would include a historical background of, and the issues associated with, the benefits afforded to Filipino veterans. It should also take into consideration changes in the Filipino veteran population and review options relative to the benefits afforded these
