

the institutions of Government; not this man from South Boston. Joe loves the United States Congress, and he loves public service.

Like Robert Kennedy, another son of Massachusetts, Joe Moakley considers politics to be an honorable profession, an opportunity for achievement, and a truly exciting adventure. If Speaker McCormack and Speaker O'Neill were here today, they would have a simple tribute to this good man: Well done, John Joseph Moakley. You served your constituents and your Congress and your country with honor and distinction.

Congressman Moakley.

NOTE: The President spoke at 2:02 p.m. in the Rose Garden at the White House. H.R. 559, approved March 13, was assigned Public Law No. 107-2. The transcript released by the Office of the Press Secretary also included the remarks of Representative Moakley.

### **Notice—Continuation of Iran Emergency**

*March 13, 2001*

On March 15, 1995, by Executive Order 12957, the President declared a national emergency with respect to Iran pursuant to the International Emergency Economic Powers Act (50 U.S.C. 1701–1706) to deal with the threat to the national security, foreign policy, and economy of the United States constituted by the actions and policies of the Government of Iran, including its support for international terrorism, efforts to undermine the Middle East peace process, and acquisition of weapons of mass destruction and the means to deliver them. On May 6, 1995, the President issued Executive Order 12959 imposing more comprehensive sanctions to further respond to this threat, and on August 19, 1997, the President issued Executive Order 13059 consolidating and clarifying the previous orders. The last notice of continuation was published in the *Federal Register* on March 14, 2000.

Because the actions and policies of the Government of Iran continue to threaten the national security, foreign policy, and economy of the United States, the national emergency declared on March 15, 1995, must continue in effect beyond March 15, 2001.

Therefore, in accordance with section 202(d) of the National Emergencies Act (50 U.S.C. 1622(d)), I am continuing the national emergency with respect to Iran. Because the emergency declared by Executive Order 12957 constitutes an emergency separate from that declared on November 14, 1979, by Executive Order 12170, this renewal is distinct from the emergency renewal of November 2000. This notice shall be published in the *Federal Register* and transmitted to the Congress.

**George W. Bush**

The White House,  
March 13, 2001.

[Filed with the Office of the Federal Register, 11:57 a.m., March 13, 2001]

NOTE: This notice was published in the *Federal Register* on March 14.

### **Message to the Congress on Continuation of the National Emergency With Respect to Iran**

*March 13, 2001*

*To the Congress of the United States:*

Section 202(d) of the National Emergencies Act (50 U.S.C. 1622(d)) provides for the automatic termination of a national emergency unless, prior to the anniversary date of its declaration, the President publishes in the *Federal Register* and transmits to the Congress a notice stating that the emergency is to continue in effect beyond the anniversary date. In accordance with this provision, I have sent the enclosed notice, stating that the emergency declared with respect to Iran is to continue in effect beyond March 15, 2001, to the *Federal Register* for publication. The most recent notice continuing this emergency was published in the *Federal Register* on March 14, 2000.

The crisis constituted by the actions and policies of the Government of Iran, including its support for international terrorism, efforts to undermine Middle East peace, and acquisition of weapons of mass destruction and the means to deliver them, that led to the declaration of a national emergency on March 15, 1995, has not been resolved. These actions and policies are contrary to the interests

of the United States in the region and threaten vital interests of the national security, foreign policy, and economy of the United States. For these reasons, I have determined that I must continue the declaration of national emergency with respect to Iran necessary to maintain comprehensive sanctions against Iran to respond to this threat.

The White House,  
March 13, 2001.

**Message to the Congress  
Transmitting a Report on the  
National Emergency With Respect  
to Iran**

*March 13, 2001*

*To the Congress of the United States:*

As required by section 401(c) of the National Emergencies Act, 50 U.S.C. 1641(c), section 204(c) of the International Emergency Economic Powers Act, 50 U.S.C. 1703(c), and section 505(c) of the International Security and Development Cooperation Act of 1985, 22 U.S.C. 2349aa-9(c), I transmit herewith a 6-month periodic report on the national emergency with respect to Iran that was declared in Executive Order 12957 of March 15, 1995.

**George W. Bush**

The White House,  
March 13, 2001.

**Letter to Members of the Senate on  
the Kyoto Protocol on Climate  
Change**

*March 13, 2001*

*Dear \_\_\_\_\_:*

Thank you for your letter of March 6, 2001, asking for the Administration's views on global climate change, in particular the Kyoto Protocol and efforts to regulate carbon dioxide under the Clean Air Act. My Administration takes the issue of global climate change very seriously.

As you know, I oppose the Kyoto Protocol because it exempts 80 percent of the world, including major population centers such as

China and India, from compliance, and would cause serious harm to the U.S. economy. The Senate's vote, 95-0, shows that there is a clear consensus that the Kyoto Protocol is an unfair and ineffective means of addressing global climate change concerns.

As you also know, I support a comprehensive and balanced national energy policy that takes into account the importance of improving air quality. Consistent with this balanced approach, I intend to work with the Congress on a multipollutant strategy to require power plants to reduce emissions of sulfur dioxide, nitrogen oxides, and mercury. Any such strategy would include phasing in reductions over a reasonable period of time, providing regulatory certainty, and offering market-based incentives to help industry meet the targets. I do not believe, however, that the government should impose on power plants mandatory emissions reductions for carbon dioxide, which is not a "pollutant" under the Clean Air Act.

A recently released Department of Energy Report, "Analysis of Strategies for Reducing Multiple Emissions from Power Plants," concluded that including caps on carbon dioxide emissions as part of a multiple emissions strategy would lead to an even more dramatic shift from coal to natural gas for electric power generation and significantly higher electricity prices compared to scenarios in which only sulfur dioxide and nitrogen oxides were reduced.

This is important new information that warrants a reevaluation, especially at a time of rising energy prices and a serious energy shortage. Coal generates more than half of America's electricity supply. At a time when California has already experienced energy shortages, and other Western states are worried about price and availability of energy this summer, we must be very careful not to take actions that could harm consumers. This is especially true given the incomplete state of scientific knowledge of the causes of, and solutions to, global climate change and the lack of commercially available technologies for removing and storing carbon dioxide.

Consistent with these concerns, we will continue to fully examine global climate
