

They got on the phone with their loved ones; they used the word “love” a lot. They said goodbye. They said a prayer. One guy said, “Let’s roll.” They took the plane in the ground to serve something greater than themselves in life. I believe that is an important lesson for all of us to learn.

Patriotism is more than putting your hand over your heart. Patriotism is serving your Nation. Patriotism is helping people in need. Patriotism is loving somebody just like you’d like to be loved yourself.

No, the enemy hit us. But they didn’t know who they were hitting. They hit the greatest nation on the face of the Earth, and out of the evil done to America is going to come a peaceful world. And out of the evil done to America is going to continue to be a hopeful, compassionate, decent country.

I’m optimistic about our future, because I know America. We’re the finest nation on the face of the Earth, because we’re full of the finest people.

May God bless you all, and may God bless America.

### **Message to the Senate Transmitting the 1992 Partial Revision of the Radio Regulations With Documentation**

*September 30, 2002*

*To the Senate of the United States:*

With a view to receiving the advice and consent of the Senate to ratification, I transmit herewith the 1992 Partial Revision of the Radio Regulations (Geneva, 1979), with appendices, signed by the United States at Malaga-Torremolinos on March 3, 1992 (the “1992 Partial Revision”), together with dec-

larations and reservations of the United States as contained in the Final Acts of the World Administrative Radio Conference for Dealing with Frequency Allocations in Certain Parts of the Spectrum (WARC-92). I transmit also, for the information of the Senate, the report of the Department of State concerning these revisions.

The 1992 Partial Revision, which was adopted at WARC-92, constitutes a revision of the International Telecommunication Union (ITU) Radio Regulations (Geneva, 1979), as revised, to which the United States is a party. It provides for additional spectrum for new or expanding telecommunication services, primarily terrestrial and satellite broadcasting, terrestrial and satellite mobile and space services and is consistent with the proposals and positions taken by the United States at the conference.

Subject to the U.S. declarations and reservations mentioned above, I believe that the United States should become a party to the 1992 Partial Revision, which provides additional spectrum for existing and new telecommunication services in which the United States plays a significant leadership role. It is my hope that the Senate will take early action on this matter and give its advice and consent to ratification.
