## PRESIDENT OBAMA'S STATE OF THE UNION ADDRESS AVAILABLE ON GPO'S FEDERAL DIGITAL SYSTEM

WASHINGTON— The U.S. Government Printing Office (GPO) has made available President Barack Obama's State of the Union Address in electronic form. The authentic, electronic version of the address is available on GPO's Federal Digital System (FDsys), named by *Government Computer News* as one of the Government's best Web sites. GPO authenticated the document by digital signature. This signature assures the public that the document has not been changed or altered. A digital signature, viewed through the GPO Seal of Authenticity, verifies the document's integrity and authenticity.

FDsys gives the American people a one-stop site to authentic, published Government information. This system allows GPO to receive information from Federal agencies in all three branches of Government and create a repository for permanent, public access. FDsys offers state of the art search capabilities for users such as: searching by Congressional Committee, a Member of Congress, keyword and date.

GPO is the Federal Government's primary centralized resource for gathering, cataloging, producing, providing, authenticating, and preserving published U.S. Government information in all its forms. GPO is responsible for the production and distribution of information products and services for all three branches of the Federal Government. In addition to publication sales, GPO makes Government information available at no cost to the public through GPO's Federal Digital System ([www.fdsys.gov](http://www.fdsys.gov)) and through partnerships with approximately 1,220 libraries nationwide participating in the Federal Depository Library Program. For more information, please visit [www.gpo.gov](http://www.gpo.gov). Follow GPO on Twitter <http://twitter.com/USGPO> and on YouTube <http://www.youtube.com/user/gpoprinter>.
