VOTING RIGHTS ACT AVAILABLE ON GPO'S FEDERAL DIGITAL SYSTEM

WASHINGTON – As the U.S. Supreme Court makes its decision about the Voting Rights Act of 1965, the U.S. Government Printing Office (GPO) makes the authentic, digital version of the law available on the agency's Federal Digital System (FDsys). GPO authenticated the document by digital signature. This signature assures the public that the document has not been changed or altered. A digital signature, viewed through the GPO Seal of Authenticity, verifies the document's integrity and authenticity.

GPO and Library of Congress recently completed a project to digitize and make available public and private laws and proposed constitutional amendments passed by Congress as published in the official Statutes at Large from 1951-2002. The Voting Rights Act of 1965 was digitized and made available as part of this project.

FDsys gives the American people a one-stop site to authentic, published Government information. This system allows GPO to receive information from Federal agencies in all three branches of Government and create a repository for permanent, public access. FDsys offers state of the art search capabilities for users such as: searching by Congressional Committee, a Member of Congress, keyword and date.

GPO is the Federal Government's *official, digital, secure* resource for producing, procuring, cataloging, indexing, authenticating, disseminating, and preserving the official information products of the U.S. Government. The GPO is responsible for the production and distribution of information products and services for all three branches of the Federal Government, including U.S. passports for the Department of State as well as the official publications of Congress, the White House, and other Federal agencies in digital and print formats. GPO provides for permanent public access to Federal Government information at no charge through our Federal Digital System (www.fdsys.gov), partnerships with approximately 1,200 libraries nationwide participating in the Federal Depository Library Program, and our secure online bookstore. For more information, please visit www.gpo.gov.
