SUPPLEMENTARY INFORMATION: The Copyright Office has reviewed its regulations and makes technical amendments to 37 CFR part 202. In 1990, the Architectural Works Copyright Protection Act amended 17 U.S.C. 101 to add the definition for “architectural work.” The Act also exempts from copyright registration architectural works embodied in unpublished plans or drawings created before December 1, 1990, if the works remained unconstructed on December 31, 2002. Regulations pertaining to registration of architectural works are found at 37 CFR 202.11, and paragraph (d) of that section covers works excluded from protection. The time for unpublished works created before December 1, 1990, to become constructed has now expired. The technical amendments are intended to reflect the exclusion and to clarify that the full title of the amending legislation is the Architectural Works Copyright Protection Act, title VII of the Judicial Improvements Act of 1990, Public Law 101-650, 104 Stat. 5089, 5133.

**DATES:** This direct final rule is effective August 29, 2003 without further notice, unless EPA receives adverse comment by July 30, 2003. If adverse comment is received, EPA will publish a timely withdrawal of the direct final rule in the

**SUPPLEMENTARY INFORMATION:** On September 24, 1997, the State of North Carolina Department of Environment and Natural Resources submitted revisions to amend or adopt multiple sections in the Mecklenburg County Air Pollution Control Ordinance. These amendments address Air Quality Permits, Enforcement; Variances; Judicial Review, and Transportation Facility Procedures. A detailed explanation of each major amendment is detailed below:

*Section 1.5200 Air Quality Permits*

MCAPCO Section 1.5213 *Action on Application; Issuance of Permit* has been revised to incorporate the addition of language governing public notice and a thirty day comment period prior to permit issuance, permit applicant's right to administrative hearing, public hearing, stringency of permits and enforceability of permit requirements.

MCAPCO Section 1.5215 *Application Processing Schedule* has been adopted to set forth the schedule for processing permit applications, modifications, and renewals.

MCAPCO Section 1.5231 *Permit Fees* has been revised to modify the definitions of “Actual Emissions,” “Burning Approval Inspection,” “Non-

attainment Pollutant facility,” “NSPS facility,” “Process ID,” “SIP facility,” “SB (select B),” “Synthetic minor facility,” and “Truck Tank Decal.” These definitions were modified to be consistent with EPA requirements.

MCAPCO Section 1.5232 *Issuance, Revocation, and Enforcement of Permits* has been modified to indicate the type of factors the Director shall consider during his annual review of permits to determine if a permit modification is required.

*Section 1.5300 Enforcement; Variances; Judicial Review*

MCAPCO Section 1.5305 Variances has been modified to clarify the process for submitting a State approved variance to the EPA for inclusion into the federally approved SIP.

MCAPCO Section 1.5306 *Hearings* has been modified to include a subsection that covers the cancellation of an appeal hearing.

*Section 1.5600 Transportation Facility Procedures*

MCAPCO Section 1.5604 *Public Participation* has been adopted to list in detail the requirements of the Director with respect to public participation including public notice and public hearings.

MCAPCO Section 1.5607 *Application Processing Schedule* has been adopted to list the schedule of requirements for processing applications for transportation facility permits.

**Final Action**

EPA is approving the aforementioned changes to the SIP because the revisions are consistent with Clean Air Act and EPA regulatory requirements. The EPA is publishing this rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. However, in the proposed rules section of this **Federal Register** publication, EPA is publishing a separate document that will serve as the proposal to approve the SIP revision should adverse comments be filed. This rule will be effective August 29, 2003 without further notice unless the Agency receives adverse comments by July 30, 2003.

If the EPA receives such comments, then EPA will publish a document withdrawing the final rule and informing the public that the rule will not take effect. All public comments received will then be addressed in a subsequent final rule based on the proposed rule. The EPA will not institute a second comment period. Parties interested in commenting should
