Therefore, this rule is not subject to the requirements of section 202 and 205 of the Unfunded Mandates Reform Act.

Background

This action amends the existing regulation for the Emergency Community Water Assistance Grant Program to allow grants to be made before an emergency has actually occurred.

The ECWAG program was authorized by the Rural Development Act of 1972. The grants are made to public bodies, nonprofit corporations, and Indian tribes for the purpose of improving rural living standards and for other purposes that create safe and affordable drinking water in rural areas or towns with a population not exceeding 10,000 inhabitants.

These grants can be made to construct or improve drinking water facilities serving the most financially needy communities. This revision is undertaken specifically to respond to requirements of Section 6009 of the Farm Security and Rural Investment Act of 2002 (Pub. L. 107-171). (2002 Farm Bill)

Under the revised regulation, grants may be made for situations where an emergency is imminent, but has not yet

occurred. Applicants will be expected to furnish evidence that an emergency is expected to occur. The 2002 Farm Bill also increased the limit for the category of projects covering repairs and significant maintenance to \$150,000.

§ 1778.1 General.

(a) This part outlines policies and procedures for making Emergency Community Water Assistance Grants (ECWAG) authorized under Section 306A of the Consolidated Farm and Rural Development Act, (7 U.S.C. 1926(a)), as amended. Any processing or servicing activity conducted pursuant to this part involving authorized assistance to Agency employees, members of their families, known close relatives, or business or close personal associates, is subject to the provisions of subpart D of

part 1900 of this title. Applicants for this assistance are required to identify any known relationship or association with an Agency employee.

(b) Agency officials will maintain liaison with officials of other Federal, State, regional and local development agencies to coordinate related programs to achieve rural development objectives.

(c) Agency officials shall cooperate with appropriate State agencies in making grants that support State strategies for rural area development.

(d) Funds allocated for use in accordance with this part are also to be considered for use by Indian tribes within the State regardless of whether State development strategies include Indian reservations within the State's boundaries. Indians residing on such reservations must have an equal opportunity along with other rural residents to participate in the benefits of this program. This includes equal application of outreach activities of Field Offices.

(e) Federal statutes provide for extending the Agency financial programs without regard to race, color, religion, sex, national origin, marital status, age, or physical/mental handicap (provided the participant possesses the capacity to enter into legal contracts).

§ 1778.2 [Reserved]

§ 1778.3 Objective.

The objective of the ECWAG Program is to assist the residents of rural areas that have experienced a significant decline in quantity or quality of water, or in which such a decline is considered imminent, to obtain or maintain adequate quantities of water that meets the standards set by the Safe Drinking Water Act (42 U.S.C. 300f *et seq.*) (SDWA).

§ 1778.4 Definitions.

Acute shortage. An acute shortage is a situation in which the system either cannot deliver water at all through its distribution system or can only deliver water on a sporadic basis.

Emergency. Occurrence of an incident such as, but not limited to, a drought; earthquake; flood; tornado; hurricane; disease outbreak; or chemical spill, leakage, or seepage.

Rural areas. Includes any area not in a city or town with a population in excess of 10,000 inhabitants, according to the latest decennial census of the United States, located in any of the fifty States, the Commonwealth of Puerto Rico, the Western Pacific Territories, Marshall Islands, Federated States of Micronesia, Republic of Palau, and the U.S. Virgin Islands.

Significant decline in quality. A significant decline in quality of potable water occurs when the present community source or delivery system does not meet, as a result of an emergency, the current SDWA requirements. For a private source or delivery system a significant decline in quality occurs when the water is no longer potable as a result of an emergency. As used in this Subpart, the term significant decline in quality may also include a situation where a significant decline is likely to occur within one year from the date of the filing of an application.

Significant decline in quantity. A significant decline in the quantity is caused by a disruption of the potable water supply by an emergency. The disruption in quantity of water prevents the present source or delivery system from supplying potable water needs to rural residents. This would not include a decline in excess water capacity. As used in this Subpart, the term significant decline in quantity may also include a situation where a significant decline is likely to occur within one year from the date of the filing of an application.

§ 1778.5 [Reserved]

§ 1778.6 Eligibility.

(a) Grants may be made to public bodies and private nonprofit corporations serving rural areas. Public bodies include counties, cities, townships, incorporated towns and villages, boroughs, authorities, districts, and other political subdivisions of a State. Public bodies also include Indian tribes on Federal and State reservations and other Federally recognized Indian Tribal groups in rural areas.

(b) In the case of grants made to alleviate a significant decline in quantity or quality of water available from the water supplies of rural residents, the applicant must demonstrate that the decline occurred within two years of the date the application was filed with the Agency. This would not apply to grants made for repairs, partial replacement, or significant maintenance on an established water system. In situations involving imminent decline, evidence must be presented to demonstrate that the decline is likely to occur within one year of the date the application is filed with the Agency.

§ 1778.7 Project priority.

Paragraph (d) of this section indicates items and conditions which must be considered in selecting applications for further development. When ranking

eligible applications for consideration for limited funds, Agency officials must consider the priority items met by each application and the degree to which those priorities are met.

(a) *Applications.* The application and supporting information submitted with it will be used to determine the proposed project's priority for available funds.

(b) *State Office review.* All applications will be reviewed and scored for funding priority using RUS Bulletin 1778-1. Eligible applicants that cannot be funded should be advised that funds are not available.

(c) *National Office review.* Each year all funding requests will be reviewed by the National Office beginning 30 days after funds from the annual appropriation are made available to the Agency. Reviews will continue throughout the fiscal year as long as funds are available. Projects selected for funding will be considered based on the priority criteria and available funds. Projects must compete on a national basis for available funds, and the National Office will allocate funds to State offices on a project by project basis.

(d) *Selection priorities.* The priorities described below will be used by the State Program Official to rate applications and by the Assistant Administrator of Water and Environmental Programs to select projects for funding. Points will be distributed as indicated in paragraphs (d)(1) through (d)(5) of this section and will be considered in selecting projects for funding. A copy of RUS Bulletins 1778-1 and 1778-2 used to rate applications, should be placed in the case file for future reference.

(1) *Population.* The proposed project will serve an area with a rural population:

- (i) Not in excess of 1,500—30 points.
- (ii) More than 1,500 and not in excess of 3,000—20 points.
- (iii) More than 3,000 and not in excess of 5,000—15 points.
- (iv) Over 5,000—0 points.

(2) *Income.* The median household income of population to be served by the proposed project is:

- (i) Not in excess of 70% of the statewide nonmetropolitan median household income—30 points.
- (ii) More than 70% and not in excess of 80% of the statewide nonmetropolitan median household income—20 points.
- (iii) More than 80% and not in excess of 90% of the statewide nonmetropolitan median household income—10 points.

(iv) Over 90% of the statewide nonmetropolitan median household income—0 points.

(3) *Significant decline.* Points will be assigned for only one of the following paragraphs when the primary purpose of the proposed project is to correct a significant decline that has occurred in the:

(i) Quantity of water available from private individually owned wells or other individual sources of water—30 points; or

(ii) Quantity of water available from an established system's source of water—20 points; or

(iii) Quality of water available from private individually owned wells or other individual sources of water—30 points; or

(iv) Quality of water available from an established system's source of water—20 points.

(4) *Imminent decline.* The proposed project will attempt to avert an imminent decline expected to occur during the one-year period following the filing of an application—10 points.

(Note: If points were assigned above for a significant decline, no points will be awarded for imminent decline.)

(5) *Acute shortage.* Grants made in accordance with § 1778.11(b) of this part to assist an established water system remedy an acute shortage of quality water or correct a significant decline in the quantity or quality of water that is available—10 points.

(6) *Discretionary.* In certain cases the Administrator may assign up to 30 points for items such as geographic distribution of funds, rural residents hauling water, severe contamination levels, etc.

Grant funds may be used for the following purposes:

§ 1778.8 [Reserved]

§ 1778.9 Uses.

(a) Waterline extensions from existing systems.

(b) Construction of new waterlines.

Background

This document contains amendments to 26 CFR parts 1 and 301. On July 26, 2002, a notice of proposed rule-making (REG–106876–00), relating to the use of taxpayer identifying numbers on submissions under sections 897 and 1445 of the Internal Revenue Code (Code), was published in the **Federal Register** (67 FR 48823). No public hearing was requested or held. Written comments responding to the notice of proposed rule-making were received. After consideration of the comments, the proposed regulations are adopted as amended by this Treasury decision. The revisions are discussed below.

Summary of Public Comments and Explanation of Revisions

A. Use of Taxpayer Identifying Number

This document contains final regulations under sections 897, 1445, and 6109 that require foreign transferors of U.S. real property interests (and transferees where applicable) to provide their taxpayer identifying numbers (TINs) on withholding tax returns, applications for withholding certificates, and other notices and elections under sections 897 and 1445 and the regulations thereunder. TINs are required so that the IRS can identify foreign taxpayers and more easily match applications, withholding tax returns, notices, and elections with the transferors' income tax returns.
