7 CFR Part 63

[Doc. No. AMS-LS-08-0064]

National Sheep Industry Improvement Center

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Interim rule and request for comments.

SUMMARY: This interim rule promulgates rules and regulations establishing a National Sheep Industry Improvement Center (NSIIC) program, consistent with the Food, Conservation, and Energy Act of 2008 (Farm Bill). SUPPLEMENTARY INFORMATION: This interim rule is published pursuant to 7 U.S.C. 2008j as amended by section 11009 of the Food, Conservation, and Energy Act of 2008 (Pub. L. 110-246) and will create a new part 63 in Title 7 of the Code of Federal Regulations for the establishment and function of the NSIIC.

Executive Order 12866

This interim rule has been determined to be not significant for the purposes of Executive Order 12866 and therefore, has not been reviewed by the OMB.

Public Law 104-4

Title II of the Unfunded Mandates Reform Act of 1995 (UMRA) (Pub. L. 104-4) establishes requirements for Federal agencies to assess the effects of their regulatory actions on State and local governments and the private sector. Under section 202 of the UMRA, the AMS generally must prepare a written statement, including a cost-benefit analysis, for proposed and final rules with "Federal mandates" that may result in expenditures by State and local governments, in the aggregate, or by the private sector, of \$100 million or more in any one year (2 U.S.C. 1532). When such a statement is needed for a rule, section 205 of the UMRA generally requires Federal agencies to identify and consider a reasonable number of regulatory alternatives and adopt the least costly, most cost-effective, or least burdensome alternative that achieves the objectives of the rule (2 U.S.C. 1535). This rule contains no Federal mandates (under the regulatory provisions of Title II of the UMRA) for State and local governments or the private sector of \$100 million or more in any one year. Therefore, this rule is not subject to the requirements of sections 202 and 205 of the UMRA.

Executive Order 12988

This interim rule has been reviewed under Executive Order 12988, Civil Justice Reform. It is not intended to have any retroactive effect. There are no administrative proceedings that must be exhausted before parties may file in court.

Executive Order 13132

This interim rule has been reviewed under Executive Order 13132, Federalism, and has been determined that this rule does not have sufficient Federalism implications to warrant the preparation of a Federalism Assessment. The provisions contained in this rule would not have a substantial direct effect on States or their political subdivisions or on the distribution of power and responsibilities among the various levels of government.

Regulatory Flexibility Act

In accordance with the Regulatory Flexibility Act (RFA) (5 U.S.C. 601-612), the agency is required to examine the impact of regulatory actions on small entities. The purpose of the RFA

is to fit regulatory actions to the scale of businesses subject to such actions so that small businesses will not be disproportionately burdened. AMS certifies that this rule will not have a significant impact on a substantial number of small entities as defined in the RFA.

The purpose of the NSIIC is to: (1) Promote strategic development activities and collaborative efforts by private and State entities to maximize the impact of Federal assistance to strengthen and enhance the production and marketing of sheep or goat products in the United States; (2) Optimize the use of available human capital and resources within the sheep or goat industries; (3) Provide assistance to meet the needs of the sheep or goat industry for infrastructure development, business development, production, resource development, and market and environmental research; (4) Advance activities that empower and build the capacity of the U.S. sheep or goat industry to design unique responses to the special needs of the sheep or goat industries on both a regional and national basis; and (5) Adopt flexible and innovative approaches to solving the long-term needs of the United States sheep or goat industry.

A Board of Directors will manage and be responsible for the general supervision of the structure of the NSIIC, with oversight from USDA. The Board is comprised of seven voting members, of whom four would be active producers of sheep or goats in the United States, two would have expertise in finance and management, and one would have expertise in lamb, wool, goat, or goat product marketing. The Secretary would appoint the voting members from nominations submitted by eligible organizations. There also would be two non-voting members on the Board, the Under Secretary of Agriculture for Rural Development (RD) and the Under Secretary of Agriculture for Research, Education, and Economics.

This rule provides opportunity for public, private, or cooperative organizations; associations, including corporations not operated for profit; federally recognized Indian Tribes; public or quasi-public agencies to be considered eligible entities to submit grant proposals to the Board. According to various sheep and goat association Web sites, there are approximately 215 regional, State, and national sheep and goat organizations located throughout the United States. In addition, according to the Department of the Interior's August 11, 2009, **Federal Register** (74 FR 40218); there are approximately 564

federally recognized American Indian Tribes in the United States.

According to the 2007 Census of Agriculture, there were 83,134 farms with sheep and lamb and 144,466 farms with goats in the United States. Thus, at least approximately 227,600 sheep, lamb and goat producers potentially would be eligible to serve on the four producer positions on the Board of NSIIC. Two positions on the Board are for persons with expertise in finance and management, while one position is for a person with expertise in lamb, wool, goat, or goat product marketing. It is estimated that not more than 10 national organizations would be eligible to nominate the voting members of the Board to the Secretary for appointment.

Most producers would be classified as small businesses under the criteria established by the Small Business Administration (13 CFR 121.201). The members of the national organizations would be expected to reflect this same size. The SBA defines small agricultural service firms as those whose annual receipts are less than \$7 million, and small agricultural producers are defined as those having annual receipts of not more than \$750,000 annually. With regard to persons who have expertise in finance and management or expertise in lamb, wool, goat, or goat product marketing, and other eligible entities, AMS does not have specific information on the number and size of all such persons or entities and requests comments providing pertinent information or data. Nonetheless, we would estimate that a number of such persons would be considered small entities.

The information collection burden is discussed in the following section.

Paperwork Reduction Act

In accordance with the PRA, this interim rule announces that AMS is requesting review and approval from OMB of a new information collection. AMS has based these estimates on industry research and experience with other boards and advisory committees. The proposed forms are necessary to appoint a Board to effectively carry out the requirements of the enabling legislation—including seating a Board. The nomination process is not expected to have a significant impact on persons affected. The overall impact of the NSIIC program under the Act is expected to be beneficial to sheep and goat industries.

The proposed forms have been carefully reviewed, and every effort has been made to minimize any unnecessary recordkeeping costs or requirements. Such information can be supplied

without data processing equipment or outside technical expertise. There are no additional training requirements for individuals filling out reports to the Board. The forms would be simple and easy to understand and place as small a burden as possible on the person required to file the information. In addition, the information to be included on these forms is not available from other sources because such information relates specifically to individual producers or industry members who are nominated to the Board. Therefore, there is no practical method for collecting the required information without the use of these forms.

Estimated Total Annual Burden on Respondents: 7 hours for the initial nominations to the NSIIC Board and approximately 2.25 (rounded down to 2) hours annually thereafter.

Comments are invited on: (1) Whether the new collection of information is necessary for the proper performance of the functions of the NSIIC, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the new collection of information including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who

are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Background Information

The NSIIC was initially authorized under the Consolidated Farm and Rural Development Act (Act). The Act, as amended, was passed as part of the 1996 Farm Bill (Pub. L. 104-127). The initial legislation included a provision that privatized the NSIIC 10 years after its ratification or once the full appropriation of \$50 million was disbursed. Subsequently, the NSIIC was privatized on September 30, 2006 (72 FR 28945).

In 2008, the NSIIC was re-established under Title XI of the Food, Conservation, and Energy Act of 2008 (Pub. L. 110-246), also known as the 2008 Farm Bill. Section 11009 of the 2008 Farm Bill repealed the requirement in section 375(e)(6) of the Act to privatize the NSIIC. Additionally, the 2008 Farm Bill provided for \$1,000,000 in mandatory funding for fiscal year 2008 from the Commodity Credit Corporation for the NSIIC to remain available until expended, as well as authorization for appropriations in the amount of \$10 million for each of fiscal years 2008 through 2012.

The authorizing legislation established in the United States Department of the Treasury (Treasury) the NSIIC Revolving Fund (Fund). The Fund is to be available to the NSIIC, without fiscal year limitation, to carry out the authorized programs and activities of the NSIIC. The law provides authority for amounts in the Fund to be used for direct loans, loan guarantees, cooperative agreements, equity interests, investments, repayable grants, and grants to eligible entities, either directly or through an intermediary, in accordance with a strategic plan submitted by the NSIIC to the Secretary. This rulemaking will establish the NSIIC and use of the Fund for making only grants to eligible entities.

The purpose of the NSIIC is to: (1) Promote strategic development activities and collaborative efforts by private and State entities to maximize the impact of Federal assistance to strengthen and enhance production and marketing of sheep or goat products in the United States; (2) Optimize the use of available human capital and resources within the sheep or goat industries; (3) Provide assistance to meet the needs of the sheep or goat industry for infrastructure development, business development, production, resource development, and market and environmental research; (4)

Advance activities that empower and build the capacity of the U.S. sheep or goat industry to design unique responses to the special needs of the sheep or goat industries on both a regional and national basis; and (5) Adopt flexible and innovative approaches to solving the long-term needs of the United States sheep or goat industry.

The management of the NSIIC is vested in a Board that is appointed by the Secretary. The Secretary reviews and monitors compliance of the Board as provided under the Act and rules and regulations. The Board is composed of seven voting members, of whom four would be active producers of sheep or goats in the United States, two would have expertise in finance and management, and one would have expertise in lamb, wool, goat, or goat product marketing. The Board would also include two non-voting members, the Under Secretary of Agriculture for Rural Development (RD) and the Under Secretary of Agriculture for Research, Education, and Economics. The Secretary would appoint the voting members from nominations submitted by eligible organizations. A member's term of office shall be 3 years with a maximum of two terms. Board members shall initially serve staggered terms of 1, 2, or 3 years, as determined by the Secretary. Only national organizations that (1) consist primarily of active sheep or goat producers in the United States and (2) have the primary interest of sheep or goat production in the United States can make nominations to the Board. USDA will announce in a nationwide press release that USDA is accepting nominations from the aforementioned national organizations.

The Board will meet not less than once each fiscal year. Board members will not receive compensation for serving on the Board, but will be reimbursed for travel, subsistence, and other necessary expenses. The Board shall be responsible for general supervision of the NSIIC; review of any contract and grant to be made or entered into by the NSIIC and any financial assistance provided to the NSIIC; making final decision—by majority vote—on whether or not to provide grants to an eligible entity; and developing and establishing a budget plan and long-term operating plan to carry out the goals of the NSIIC.

The authorizing legislation establishes in the Treasury, the NSIIC Fund. The Fund is to be available to the NSIIC, without fiscal year limitation, to carry out the authorized programs and activities of the NSIIC. The law provides authority for amounts in the Fund to be

used to carry out authorized program activities of the NSIIC.

This interim rule authorizes a grant only program to be administered by the NSIIC Board. Based on funding, the Board will periodically announce that proposals may be submitted to the Board for consideration from eligible entities. The Board would determine how funds would be allocated. Proposals submitted to the Board must be consistent with the purpose of the NSIIC, which are to: (1) Promote strategic development activities and collaborative efforts by private and State entities to maximize the impact of Federal assistance to strengthen and enhance the production and marketing of sheep or goat products in the United States; (2) Optimize the use of available human capital and resources within the sheep or goat industries; (3) Provide assistance to meet the needs of the sheep or goat industry for infrastructure development, business development, production, resource development, and market and environmental research; (4) Advance activities that empower and build the capacity of the U.S. sheep or goat industry to design unique responses to the special needs of the sheep or goat industries on both a regional and national basis; and (5) Adopt flexible and innovative approaches to solving the long-term needs of the United States sheep or goat industry.

Discussion of Interim Regulatory Text

Sections 63.1 through 63.13 define certain terms pertinent to nomination processes for establishment of a NSIIC Board.

Sections 63.100 through 63.112 include provisions relating to the Board. These provisions cover establishment and membership, certification of organizations, the nomination process, powers and duties of the Board and other pertinent information related to Board function and operation.

Section 63.200 details the establishment and purpose of the NSIIC.

Sections 63.300 through 63.301 detail the establishment and use of the Fund. Specifically, these sections detail the purposes for which the Board shall expend funds and how the Fund shall be managed. This interim rule permits the making of contracts and grants only.

Sections 63.400 through 63.402 pertain to the books and records of the Board and the NSIIC, which the Secretary has access to and outlines the responsibilities for confidentiality.

Sections 63.500 through 63.505 contain miscellaneous provisions necessary for the function of the NSIIC and the oversight of USDA.

Pursuant to 5 U.S.C. 553, it is found and determined upon good cause that it is impracticable and contrary to the public interest to give preliminary notice prior to putting this rule into effect in order to establish the Board and the NSIIC program at the earliest possible date consistent with the 2008 Farm Bill.
