#### Approval and Promulgation of Air Quality Implementation Plans; Pennsylvania; Determinations of Attainment of the 1997 Fine Particle Standard for the Harrisburg-Lebanon-Carlisle, Johnstown, Lancaster, York, and Reading Nonattainment Areas

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** EPA is proposing to determine that the Harrisburg-Lebanon-Carlisle (Harrisburg), Johnstown, Lancaster, York, and Reading fine particle (PM<sub>2.5</sub>) nonattainment areas (the Areas) in the Commonwealth of Pennsylvania have attained the 1997 annual PM<sub>2.5</sub> National Ambient Air Quality Standard (NAAQS) by the applicable attainment date of April 5, 2010. These proposed determinations are based upon complete, quality assured, and certified ambient air monitoring data that show these Areas have monitored attainment of the 1997 annual PM<sub>2.5</sub> NAAQS for the 2007-2009 monitoring period. These determinations are being taken in accordance with the requirements of the Clean Air Act (CAA).

In the Final Rules section of this **Federal Register**, EPA is making these determinations of attainment as a direct final rule without prior proposal because the Agency views these as noncontroversial actions and anticipates no adverse comments. A detailed rationale for the determinations is set forth in the direct final rule. If no adverse comments are received in response to these actions, no further activity is contemplated. If EPA receives adverse comments, the direct final rules will be withdrawn and all public comments received will be addressed in subsequent final rules based on these proposed rules. EPA will not institute a second comment period. Any parties

interested in commenting on these actions should do so at this time.
