

§ 1215.114 Service rates.

(a) Rates for TDRSS services will be established by the DAA for SCaN.

(b) Per-minute rates will reflect TDRSS total return on investment and operational and maintenance costs.

(c) The rate per minute by service and type of user is available on the following Web site: https://www.spacecomm.nasa.gov/spacecomm/programs/Space_network.cfm.

(d) The per-minute charge for TDRSS service is computed by multiplying the charge per minute for the appropriate service by the number of minutes utilized.

■ 13. Section 1215.115 is revised to read as follows:

§ 1215.115 Payment and billing.

(a) The procedure for billing and payment of standard TDRSS services is as follows:

(1) NASA shall be reimbursed by customers in connection with the use of Government property and services provided under an approved reimbursable agreement. Advance payment for services is required. Advance payments shall be scheduled to keep pace with the rate at which NASA anticipates incurring costs. NASA will provide a Customer Budget/Estimate (CBE) for services rendered nominally 60–90 days in advance, or as otherwise agreed, of the first anticipated property use or required service date for each mission. The full cost of the mission shall be paid by the customer not later than 30 days prior to the first anticipated property use or required service date.

(2) In some cases, an advance partial payment will be required six–nine months prior to the first anticipated property use or required service date in order for advance planning work and/or travel to take place. The amount of this partial payment and its receipt shall be negotiated on an as-needed basis. Adjustments to the amounts prepaid will be made to the succeeding billings as the actual services are rendered.

(3) If the customer fails to make payment by the payment due date, NASA may terminate the agreement and any subagreements for breach of agreement after notice to the customer is given of this breach and failure to cure such breach within a time period established by NASA.

(b) Late payments by the user will require the user to pay a late payment charge.

■ 14. Appendix A is revised to read as follows:

Appendix A to Part 1215—Estimated Service Rates in 1997 Dollars for TDRSS Standard Services (Based on NASA Escalation Estimate)

Time: Project conceptualization (at least two years before launch; Ref. § 1215.108(a)).

Activity: Submit request for access to TDRSS. Upon preliminary acceptance of the service requirements by NASA Headquarters, communications for the reimbursable development of a Space Act Agreement (SAA) will begin. Prior to finalization of the Memorandum of Agreement (MOA), an estimate for the services will be issued. After SAA signature, full funding of the effort must be received prior to NASA initiating any activities associated with the effort. (Ref. § 1215.115(a)(1)).

Time: 18 months before launch (Ref. § 1215.109(c)).

Activity: After full funding has been received and distributed to the executing NASA entities, submit general user requirements to permit preliminary planning. Contact will occur to facilitate the integration process for access to TDRSS. If appropriate, initiate action with the Federal Communications Commission for license to communicate with TDRSS (Ref. § 1215.107(b)).

Time: 12 months before launch (earlier if possible).

Activity: Provide detailed requirements for technical definition and development of operational and interface control documents. (Ref. § 1215.109(d)).

Time: 3 weeks prior to a Scheduled Support Period (SSP).

Activity: Submit scheduling request to NASA covering a weekly period. Receive schedule from NASA based on principles of priority (Ref. § 1215.109(b)). User confirmation of the schedule is required.

Time: Up to 72 hours prior to an SSP.

Activity: Can cancel an SSP without charge (Ref. § 1215.113(b)(1)).

Time: Up to 45 minutes prior to an SPP.

Activity: Can schedule an SSP if a time slot is available without impacting another user.

Time: Up to 10 minutes prior to an SSP.

Activity: Can schedule an SSP utilizing TDRSS unused time (TUT).

Special Local Regulations; Safety and Security Zones; Recurring Events in Captain of the Port Long Island Sound Zone

AGENCY: Coast Guard, DHS.

ACTION: Final rule.

SUMMARY: The Coast Guard is removing, adding, and consolidating limited access areas in the Coast Guard Sector Long Island Sound Captain of the Port (COTP) Zone. These limited access areas include special local regulations, permanent safety zones for annual recurring marine events and a permanent security zone. When these limited access areas are subject to enforcement, this rule will restrict vessels from portions of water areas during these annual recurring events. The special local regulations and safety zones will facilitate public notification of events, and ensure the protection of the maritime public and event participants from the hazards associated with these annual recurring events.

DATES: This rule is effective March 12, 2012.

ADDRESSES: Comments and material received from the public, as well as documents mentioned in this preamble as being available in the docket, are part of docket USCG–2008–0384 and are available online by going to <http://www.regulations.gov>, inserting USCG–2008–0384 in the “Keyword” box, and then clicking “Search.” This material is also available for inspection or copying at the Docket Management Facility (M–30), U.S. Department of Transportation, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

Regulatory Information

On June 22, 2011 the Coast Guard published a notice of proposed rulemaking (NPRM) entitled Special Local Regulations; Safety and Security Zones; Recurring Events in Captain of the Port Long Island Sound Zone in the **Federal Register** (76 FR 36438). We received no comments on the proposed rule. No public meeting was requested and none was held.

Basis and Purpose

The legal basis for this rule is the Ports and Waterways Safety Act of 1972 (33 U.S.C. 1226, 1231); 33 U.S.C. 1233; 46 U.S.C. Chapter 701, 3306, 3703; 50 U.S.C. 191, 195; 33 CFR 1.05–1, 6.04–1, 6.04–6 and 160.5; Public Law 107–295, 116 Stat. 2064; and Department of Homeland Security Delegation No. 0170.1. These laws, regulations and policies authorize the Coast Guard to define regulatory safety zones, security zones and special local regulations, and delegate the authority to create these regulations to the Captain of the Port.

This regulation carries out three related actions: (1) Establishing necessary safety zones and special local regulations, (2) establishing one necessary security zone, and (3) updating and reorganizing existing regulations for ease of use and reduction of administrative overhead.

Background

The Coast Guard is adding 33 CFR 100.100 and revising §§ 165.151 and 165.154. The changes will remove 37 regulated areas, establish 33 new safety zones, three special local regulations, and one security zone, and consolidate and simplify these regulations. By establishing a permanent regulation containing these events, the Coast Guard will eliminate the need to establish temporary rules for events that occur on an annual basis.

The rule applies to the annual recurring events listed in the attached Tables in the COTP Long Island Sound Zone. The Tables provide the event name, and type, as well as locations of the events. Annual notifications will be made to the local maritime community through all appropriate means such as Local Notice to Mariners and Broadcast Notice to Mariners well in advance of the events. If the event does not have a date listed, then exact dates and times of the enforcement period will be announced through a Notice of Enforcement in the **Federal Register**.

This regulation is part of a review and update of local regulations. Our intent is to update and reorganize information for ease of use and reduction of

administrative overhead. We considered several alternative formats for this regulation including different table formats. Ultimately the presented format was chosen.

Discussion of Comments and Changes

We received no comments on the rule. The following changes were made. We enhanced the regulatory text of § 100.100 clarifying and detailing what method the Coast Guard will use to notify the public of event specific information.

Typographical error correction, in the NPRM we stated, we propose to establish 32 new safety zones. The number 32 was a typographical error, because 33 new safety zones were discussed throughout the NPRM. Notice and the opportunity to comment on the 33 zones existed in the NPRM prior to this final rule. The typographical error has been updated in the Backgrounds section of this rule.

Positions which were described using “Degrees-Minutes-Decimal Minutes” format (DD°MM.MMM’) were converted without change to “Degrees-Minutes-Seconds” (DD°MM’ SS”), for consistency throughout the regulations.

Positions which were described using decimal seconds out to the thousandths of a second (DD°MM’ SS.SSS”) were rounded off to hundredths of a second (DD°MM’ SS.SS”). One one-thousandth of a second (.001”) is a distance of approximately 1.2 inches. Positions were rounded off to the nearest hundredth to reduce confusion and make the positions easier to use. The maximum change in any regulated area is less than 1 foot (the diagonal of a theoretical point which moved 0.05 seconds (0.05” or about 6 inches) due to rounding in both latitude and longitude.

Regulatory Analyses

We developed this rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on 13 of these statutes or executive orders.

Executive Order 12866 and Executive Order 13563

This rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, as supplemented by Executive Order 13563, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order.

We expect the economic impact of this rule to be minimal. Although this

regulation may have some impact on the public, the potential impact will be minimized for the following reasons:

The Coast Guard has previously promulgated safety zones, security zones or special local regulations, in accordance with 33 CFR Parts 100 and 165, for all event areas contained within this regulation and has not received notice of any negative impact caused by any of the safety zones, security zones or special local regulations.

Vessels will only be restricted from safety zones and special local regulation areas for a short duration of time. Vessels may transit in portions of the affected waterway except for those areas covered by the regulated areas. Notifications of exact dates and times of the enforcement period will be made to the local maritime community through the Local Notice to Mariners and Broadcast Notice to Mariners or through a Notice of Enforcement in the **Federal Register**. No new or additional restrictions would be imposed on vessel traffic.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered whether this rule would have a significant economic impact on a substantial number of small entities. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities.

This rule will affect the following entities, some of which might be small entities: The owners or operators of vessels intending to transit or anchor in the designated regulated area during the enforcement periods.

The regulated areas will not have a significant economic impact on a substantial number of small entities for the following reasons: The regulated areas will be of limited size and of short duration; vessels that can safely do so may navigate in all other portions of the waterways except for the areas designated as regulated areas; these regulated areas have been promulgated in the past with no public comments submitted. Additionally, before the effective period, the Coast Guard will issue notice of the time and location of each regulated area through a Local Notice to Mariners and Broadcast Notice to Mariners or through a Notice of Enforcement in the **Federal Register**.

Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), in the NPRM we offered to assist small entities in understanding the rule so that they could better evaluate its effects on them and participate in the rulemaking process.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency's responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1–888–REG–FAIR (1–888–734–3247). The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

Collection of Information

This rule calls for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this rule under that Order and have determined that it does not have implications for federalism.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

Taking of Private Property

This rule will not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not create an environmental risk to health or risk to safety that may disproportionately affect children.

Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a “significant energy action” under that order because it is not a “significant regulatory action” under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

Environment

We have analyzed this rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.1D, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have concluded this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule is categorically excluded, under figure 2–1, paragraphs (34)(g)&(h) of the Instruction. This rule involves the establishment of safety and security zones and special local regulations. An environmental analysis checklist and a categorical exclusion determination are available in the docket where indicated under

Marine safety, Navigation (water), Reporting and recording requirements, Waterways.

33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and recordkeeping requirements, Security measures, Waterways.

For the reasons discussed in the preamble, the Coast Guard amends 33 CFR parts 100 and 165 as follows:

PART 100—SAFETY OF LIFE ON NAVIGABLE WATERS

- 1. The authority citation for part 100 continues to read as follows:

Authority: 33 U.S.C. 1233.

- 2. Add a new § 100.100 to read as follows:

§ 100.100 Special Local Regulations; Regattas and Boat Races in the Coast Guard Sector Long Island Sound Captain of the Port Zone.

(a) The following regulations apply to the marine events listed in the Table to § 100.100. These regulations will be enforced for the duration of each event, on or about the dates indicated. Notifications will be made to the local maritime community through all appropriate means such as Local Notice to Mariners or Broadcast Notice to Mariners well in advance of the events. If the event does not have a date listed,

then exact dates and times of the enforcement period will be announced through a Notice of Enforcement in the **Federal Register**. The First Coast Guard District Local Notice to Mariners can be found at: <http://www.navcen.uscg.gov/>.

(b) *Definitions*. The following definitions apply to this section:

(1) *Designated representative*. A “designated representative” is any Coast Guard commissioned, warrant or petty officer of the U.S. Coast Guard who has been designated by the Captain of the Port (COTP), Sector Long Island Sound (LIS), to act on his or her behalf. The designated representative may be on an official patrol vessel or may be on shore and will communicate with vessels via VHF-FM radio or loudhailer. In addition, members of the Coast Guard Auxiliary may be present to inform vessel operators of this regulation.

(2) *Official patrol vessels*. Official patrol vessels may consist of any Coast Guard, Coast Guard Auxiliary, state, or local law enforcement vessels assigned or approved by the COTP.

(3) *Spectators*. All persons and vessels not registered with the event sponsor as participants or official patrol vessels.

(c) Although listed in the Code of Federal Regulations, sponsors of events listed in Table to § 100.100 are still required to submit marine event applications in accordance with 33 CFR 100.15.

(d) Vessel operators desiring to enter or operate within the regulated areas shall contact the COTP at 203-468-4401 (Sector LIS command center) or the designated representative via VHF channel 16.

(e) Vessels may not transit the regulated areas without the COTP or designated representative approval. Vessels permitted to transit must operate at a no wake speed, in a manner which will not endanger participants or other crafts in the event.

(f) Spectators or other vessels shall not anchor, block, loiter, or impede the transit of event participants or official patrol vessels in the regulated areas during the effective dates and times, or dates and times as modified through the Local Notice to Mariners, unless

authorized by COTP or designated representative.

(g) The COTP or designated representative may control the movement of all vessels in the regulated area. When hailed or signaled by an official patrol vessel, a vessel shall come to an immediate stop and comply with the lawful directions issued. Failure to comply with a lawful direction may result in expulsion from the area, citation for failure to comply, or both.

(h) The COTP or designated representative may delay or terminate any marine event in this subpart at any time it is deemed necessary to ensure the safety of life or property.

(i) For all power boat races listed, vessels not participating in this event, swimmers, and personal watercraft of any nature are prohibited from entering or moving within the regulated area unless authorized by the COTP or designated representative. Vessels within the regulated area must be at anchor within a designated spectator area or moored to a waterfront facility in a way that will not interfere with the progress of the event.

If the event does not have a date listed, then exact dates and times of the enforcement period will be announced through a Notice of Enforcement in the **Federal Register**. SUPPLEMENTARY INFORMATION: The County of Alameda Public Works Agency has requested a temporary change to the operation of the Fruitvale Avenue Drawbridge, mile 5.61, over Oakland Inner Harbor, between the cities of Alameda and Oakland, Alameda County, CA. The drawbridge navigation span provides a vertical clearance of 15 feet above Mean High Water in the closed-to-navigation position. The draw opens on signal; except that, from 8 a.m. to 9 a.m. and 4:30 p.m. to 6:30 p.m. Monday through Friday except Federal holidays, the draw need not be opened for the passage of vessels. However, the draw shall open during the above closed periods for vessels which must, for reasons of safety, move on a tide or slack water, if at least two hours notice is given, as required by 33 CFR 117.181. Navigation on the waterway is commercial and recreational.

The drawspan will be secured in the closed-to-navigation position for seismic retrofitting from 12:01 a.m., February 13, 2012 to 11:59 p.m. on February 24, 2012. At all other times, the drawspan will promptly return to normal operation. This temporary deviation has been coordinated with waterway users.
